Mom Inspires Girls' STEM Event

Event organizer Karen Jones and daughters Lauren (left) and Morgan. Mom's encouragement led her teenagers to shine in robotics. The girls were among mentors at a recent Aerospace Museum event.

Story and photos by Susan Maxwell Skinner

SACRAMENTO REGION, CA (MPG) - A mom's determination for girls to pursue STEM (science, technology, engineering, math) futures last weekend inspired a career day at the Aerospace Museum of California.

The event attracted hundreds of young women and their families. On-site role models included female professionals in medicine, dentistry, aviation and engineering - fields where women comprise only a quarter of the workforce. Museum

advancement director Karen Jones promoted the day with the idea that girls often felt disconnected from technology. "And yet we're surrounded by it and using it in most aspects of our lives," she says. "A young girl who talked to a water resource engineer last weekend said she had no idea water management offered career possibilities. For lots of girls, the word "engineer" sounds a big thing to grasped.

"It's been my dream for many years to help change that culture. STEM is the future. I want girls not to just consume technology but to produce it;

I want them to lift their heads from their phones and solve problems using the technology that's all around them. The idea is not to exclude boys, but girls need more encouragement in these fields. We have flight simulators at the museum, and I see little girls holding back, like it's something for their brothers. STEM experience is for everyone.

The Gold River mom's passion hatched while raising her own daughters. Now teenagers, Lauren and Morgan Jones did what other little girls did: "They played with dolls and

Carmichael Celebrates 112th Birthday

Local community founder, Daniel Carmichael. Archive photo

Story by Susan Maxwell Skinner

CARMICHAEL, CA (MPG) - Once a colony, now a proudly unincorporated community in Sacramento County, Carmichael marks its 112th anniversary this Saturday, September 25.

A day-long festival in Carmichael Park will commemorate the 1909 real estate venture of town founder Daniel Carmichael. The Georgian-born entrepreneur purchased two large chunks of the old San Juan land grant and carved these into 10-acre blocks. Pioneers bought farmlets for around \$1000 each. Prior to this development, Charles and Mary Deterding raised food crops on river bottomlands now occupied by Ancil Hoffman Park.

Earlier families had established ranches a few miles north. From the 1860s, the Coyle farmhouse stood where Mercy San Juan Medical Center now sprawls. Other trailblazers included the Deweys, the Kellys and the O'Donnells; these clans are now honored by streets names, parks and schools. Before Daniel Carmichael's settlers populated the colony, only scattered dwellings punctuated vast spaces between the American River and Sacramento City.

Saturday's anniversary promises much festivity. With a 10 a.m. kickoff, the program includes a pirate school and buccaneer-themed games. A live music slot features classic rock hits from the Mere Mortals band. The Kingdom of Lost Souls will present medieval-style battles. There will also be obstacle courses, cornhole, and mural making for kids.

A mini zoo will offer bunnies, goats and other farmyard critters for petting. A Founders Day tradition continues with a giant car show that assembles at the Grant Avenue park corner. Admission for most attractions is free. Food and beverages will be available for purchase from food trucks.

Anyone may attend Founders Day. For more information, call (916) 485-5322. ★

County Breastfeeding Program Receives USDA Award

By Laurie Slothower, Sacramento County

SACRAMENTO COUNTY, CA (MPG) - The Sacramento County Women, Infants and Children (WIC) program has received a WIC Breastfeeding Gold Award of Excellence 2021 award from the U.S. Department of Agriculture. This award recognizes the WIC agencies that provide exceptional breastfeeding promotion and support activities. Awardees serve as a model for other WIC agencies who want to strengthen their breastfeeding promotion and support activities through their Breastfeeding Peer Counseling Program.

The Sacramento County WIC Program has a history of program excellence. The Breastfeeding Peer Counselor Program first received this award in 2016, which remained current for four years. In 2021, Sacramento County WIC was only one of four local WIC agencies to receive the award in the western region, which includes

Alaska, California, Hawaii, Idaho, Nevada, Oregon, Washington, Guam, Commonwealth of the Northern Mariana Islands and American Samoa.

The Sacramento County WIC Program was able to pivot quickly when the pandemic started in 2020, finding new ways to connect with families remotely by providing services by phone and video. One of the highlights of the BFPC Program is its virtual prenatal class, which gives participants

an opportunity to meet their Peer Counselor and a Lactation Consultant who will be supporting them after delivery.

"Our Breastfeeding Peer Counselors have done a wonderful job being responsive to the changing needs of the families we serve throughout this pandemic, providing exemplary services while keeping families and kids safe and healthy," said Chevon Kothari, Director of the Sacramento County Department of Health

Services. "Their passion and dedication to supporting our families is exemplary and is what made receiving this award possible."

Breastfeeding is a practice that is proven to benefit both mothers and babies. It helps mothers recover more quickly from childbirth, reduces the risk of breast and ovarian cancers and may assist in losing weight after childbirth. Infants who are breastfed have a lower risk of developing asthma, ear infections, respiratory infections, gastrointestinal infections and other ailments. The long-term benefits of breastfeeding may lower the child's risk of obesity, type 1 diabetes and childhood leukemia. Breastmilk contains all the nutrients babies need to grow and protects the baby's immune system.

Packathon Packs Thousands of Care Boxes for Troops!

Story and photos from Move America Forward Special News Release

SACRAMENTO REGION, CA (MPG) - This past Saturday MAF held our 2021 annual Packathon event in observance of 9/11 where we set out with a goal to ship 2001 boxes for the troops as well as pack an additional 911. As 2021 is also the 20th anniversary of 9/11, this was an especially important task, and we made appeals to our supporters to watch our Troopathon on Newsmax TV and donate to send care packages so we could achieve this goal.

We began packing just before 10 am and didn't wrap up until 3 pm because we had an unprecedented group of enthusiastic and energetic volunteers who just wouldn't quit! They really wanted to do something special for our troops.

At the conclusion of our Packathon drive, we had shipped 3,000 packages for the troops and packed an additional 1,500 more!

There are thousands of troops who are still deployed in the Middle East, eagerly awaiting your words of support, and the many goodies and personal care items in these boxes. These are especially important during the brutally hot Summer months!

If you donate today, our volunteers will quickly pack up a box of goodies for the troops and add it to the stack of boxes waiting to be shipped! These packages REALLY make a difference! We receive letters and notes

back from the troops every day detailing just how important these care packages are to the troops who receive them. Many troops spend 6-12 months of deployment, away from their friends and family.

Laid to Rest

By Thomas J. Sullivan

SACRAMENTO REGION, CA (MPG) - Young families, school children and veterans lined much of Greenback Lane from Sunrise to Fair Oaks Boulevard on Thursday, Sept. 16, many holding U.S. and Marine Corps flags, as they paused to honor and remember fallen Marine Sgt. Nicole L. Gee, 23, of Sacramento, who was brought home and laid to rest at the Mount Vernon Memorial Park and Mortuary in Fair Oaks.

The Citrus Heights Police Department had encouraged the public to gather at the south end of Greenback Lane at the Sunrise Mall parking lot to show support as the public procession passed. The exceptionally large public turnout for the procession soon slowed traffic along Greenback

Lane for more than an hour.

The procession, led by a motorcycle escort of the American Legion Patriot Guard, passed slowly under a large American flag which was arched over Greenback Lane by two Metro Fire ladder trucks, their crews saluting, before then turning into the memorial park.

Sgt. Gee along with 10 additional Marines, one Navy corpsman and one soldier were killed August 26, the result of an enemy attack while supporting evacuation operations outside the Hamid Karzai International Airport in Kabul, Afghanistan. At least 169 Afghans were also killed in the bombing, as they struggled to get into the airport and on flights out of the country.

The young Marine's death hit home in Placer County, where she grew up and

graduated from Oakmont High School before enlisting in 2017. Just days before her death, Sgt. Gee was one of several Marines seen cradling and comforting Afghan children prior to their evacuation from the country.

On August 21, Gee posted a photo of herself holding an Afghan child on Instagram. "I love my job," she wrote.

Gee, a maintenance technician with the 24th Marine Expeditionary Unit from Camp Lejeune, North Carolina, was sworn into the Marines less than a year ago and was promoted to sergeant three weeks before the Kabul attack, according to posts on her Instagram account.

A memorial service was later held Saturday, Sept. 18th at Bayside Church Adventure Campus on Stanford Ranch Road in Roseville. ★

Heatbreakers End Concert Season

CARMICHAEL, CA (MPG) - To enthusiastic applause, Carmichael's summer concert season bowed out last week. Originally planned for an August 24 finale, the closing act was postponed by bad air from wildfires.

Great Wide Open musicians obliged with a mid-week rescheduling and presented two hours of rock hits in Carmichael Park. "It's great to play for real people again," said bandleader Greg Mathes, whose group previously endured many months of COVID-related cancellations. "We're just glad the park was able to reschedule us."

Though the 2021 season was organized late and pared down to eight Saturday shows, most concerts drew crowds of 1000 or more. Rock was the favored genre; salsa and blues groups were also featured. Great Wide Open's audience attendance suffered due to the non-weekend rescheduling but dancers approved the four-piece group's beat and joined in singing of Tom Petty's best-known hits. Carmichael Park will offer more live music on the September 25 anniversary of Carmichael Colony's 1909 founding.

Mom Inspires Girls' STEM Event

Desert Storm veteran Captain Cathy Cook inspired young Aerospace Museum visitors to seek careers in flight.

did gymnastics,” notes their mom. “But they had had their dolls zip-lining in the backyard. They were always building and figuring how to move things around. As they got older, I wanted them to have more technical experiences. I became a Girl Scout Leader so others could share the opportunities I wanted for my girls. Sure—my Girl troop did build-a-bear projects—but I also took them to Lego events and robot-building. They were lucky. My husband and I both work at the Museum, so my troop got to meet astronauts, engineers and pilots. When my daughters wanted to join their school’s robotic team, I said, great! Having them excited about robots could lead to a ton of great opportunities.

“Lauren and Morgan had wonderful mentors. But I thought: what about young ladies who don’t?”

The idea of an event linking role models and young women hatched as Jones, Museum Vice President Linda Martin and SMUD Board Member Heidi Sanborn considered Rosie the Riveter’s iconic WW II image. Rosie moved mountains with her “we can do it” attitude; the Aerospace

Aerospace Museum docents adopted Rosie-the-Riveter attire. Event committee volunteers included Sharon Ruffner (left), Margaret Rogers, Linda Martin, Heidi Sanborn, Donna Miller and Sue Boucher.

idea was to similarly inspire by modern example. “We wanted to spark girls’ interest by having them up close to women sharing STEM journeys,” says Jones. “We weren’t just offering career info; we asked mentors to talk about what inspired them. We want girls to be inspired, too. If they see themselves in these male-dominated jobs, they’ll think about pursuing technical fields.”

“We Can Do It” day dawned bright and sunny; with dozens of STEM mentors and activities spread across the museum tarmac. Desert Storm veteran and airline pilot Cathy Cook was a rock star attraction. “It would’ve helped me to

have events like this when I was a teenager,” observed Captain Cook. “Back then, there were no females flying. When you encounter a real pilot, you realize: it’s just an ordinary person, doing something I could do. I was surprised how I often had a line of girls waiting to see me. They asked good questions: Was I ever in emergencies? Was I ever not scared, you’re prepared. You have training and judgement to figure out what to do. Your plane doesn’t know whether it’s being controlled by a man or a woman. So why not a woman?”

California's 'Corridor of Corruption' Yields New Case

By Dan Walters
CALMatters

Six years ago, the HBO network aired an episode of "True Detective," an anthology of complicated crime stories.

It was set in the fictional Southern California city of Vinci, a cesspool of corruption and crime obviously based on Vernon, once described as "the most corrupt five square miles in California."

In addition to fictionalizing Vernon's sordid history, the episode folded in California's bullet train project, but it was deservedly flailed by critics as incoherent.

Vernon, unfortunately, is not an isolated example. The southeastern quadrant of Los Angeles County is rife with municipal malfeasance, and was once dubbed a "corridor of corruption" by state Assembly Speaker Anthony Rendon. Numerous local officials have been charged with bribery, self-dealing and other transgressions.

Last week, the Los Angeles County district attorney charged four men, including former state Sen. Frank Hill, with stealing \$20 million that the City of Industry advanced to a company called San Gabriel Valley Water and Power LLC for a solar

power project that never materialized.

The case stems from a battle among several cities for control of a 2,500-acre cattle ranch called Tres Hermanos in the Chino Hills, which was to have been the project's site.

Hill, a Republican who was snared in a federal investigation of Capitol corruption three decades ago and spent four years in prison, was a consultant on the project. Others facing charges are William Barkett, owner of San Gabriel Valley Water and Power, attorney Anthony Bouza, and former Industry City Manager Paul Philips, now city manager of Bell, the scene of another corruption scandal a decade ago.

Philips and Bouza allegedly handled the funds, which between 2016 and 2018 were routed to an account controlled by Barkett, according to the district attorney's office.

"While some of the money was paid to other vendors, Barkett is accused of spending about \$8.3 million on personal items. He also allegedly falsified or altered invoices to inflate the amount," the DA's office said.

Barkett is no stranger to questionable financial dealings. As I wrote about the Tres Hermanos squabble nine months ago, "In 1993, federal authorities unsealed an indictment of him and eight other persons involved in what was described as a penny stock scheme aimed at defrauding elderly retirees.

"Two years later, the charges were dismissed by a judge, who cited

unreasonable pre-trial delays by prosecutors. A decade later, Credit Suisse, an international banking company, accused Barkett of misappropriating millions of dollars he had borrowed to launch a large farming operation in the San Joaquin Valley. The suit was later dropped after a confidential settlement."

Barkett is the scion of a politically powerful Stockton family and in the interest of full disclosure, the head of the family sued me and the Sacramento Union for libel four decades ago after I wrote a column about his influence. We were exonerated by a San Joaquin County jury.

The City of Industry is also no stranger to corruption allegations. In 2009 the Los Angeles Times probed the city's insular structure, revealing, as it noted last week, that "for years, the city government was headed by former Mayor Dave Perez, who owned trash-hauling and maintenance companies that racked up millions of dollars a year in contracts with the city..."

"An audit years later by KPMG found that Perez's companies had made a fortune off the city, with contracts valued at more than \$326 million," the Times reported.

Once again, the corridor of corruption yields a case of insider dealing, but it's not the first and won't be the last. The corridor's surface has barely been scratched.

California Farm Bureau President Praises Nomination of Elaine Trevino

CFB Release

Sacramento Region, CA (MPG) - California Farm Bureau President Jamie Johansson today applauded President Joe Biden's decision to nominate Elaine Trevino as his top agricultural trade negotiator.

Trevino, who is from California's Central Valley, is president of the Almond Alliance of California. She previously worked on international trade programs as deputy secretary of the California Department of Food and Agriculture under former governors Gray Davis and Arnold Schwarzenegger.

Johansson is urging her swift confirmation by the U.S. Senate.

"California's farmers and ranchers are

extremely pleased with Elaine Trevino's appointment as chief agricultural trade negotiator for the United States Trade Representative," Johansson said. "She brings a real-life understanding of California farm communities and served in key leadership positions for both Democratic and Republican administrations. Her experience in the top agricultural production and export state in the nation gives her deep knowledge of how our nation should best navigate trade issues for the benefit of farm producers across America."

The California Farm Bureau works to protect family farms and ranches on behalf of nearly 34,000 members statewide and as part of a nationwide network of nearly 5.6 million Farm Bureau members. ★

Crocker Art Museum Press Release

SACRAMENTO, CA (MPG) - The Crocker Art Museum is pleased to announce *Towns, Trains, and Terrain: Early California Prints from the Pope Collection*, an exhibition of over 80 works that showcase details of life in the Golden State through printmaking techniques that include etching, engraving, and lithography, on view from October 31, 2021, through

January 30, 2022.

Towns, Trains, and Terrain examines the history of California through rare historic maps, depictions of Gold Rush towns, urban scenes of San Francisco, and other aspects of daily life. The Museum's presentation will actively address the under-told narratives of immigrants and immigrant labor that accompanied the Gold Rush boom, the influx of settlers to the region and forced relocation of Native

American populations, as well as the increased demand for, and use of, the terrain's environmental resources.

The exhibition is drawn from a recent gift of 200 prints and original works on paper from the Peter T. Pope Early California Collection. The acquisition puts the Museum's collection of these early works on paper on par with those of the National Gallery of Art and the Fine Arts Museums of San Francisco. ★

This Is Not about Freedom or Personal Choice

Commentary
by Jane M. Orient, M.D.

Today we have two contrasting quotations from world leaders. One said: “Mandatory vaccinations will never be allowed because [this] is a free country and its people are sovereign.” The other said: “This is not about freedom or personal choice.”

The first was by Vladimir Putin, Russia, a free country! The second was by Joe Biden. The U.S. is no longer a free country, and the people are not sovereign. Nor are the once-sovereign states. If state governors won’t cooperate with him, “I’ll use my power as president to get them out of the

way.” It is not clear exactly how he would accomplish that. Invade the state and occupy its capitol and its courts? Arrest the governor and perhaps the legislature and throw them into prison without bail like some January 6 demonstrators? Already, many states are suing – perhaps we will learn whether the Tenth Amendment to the U.S. Constitution has any meaning.

Who would have believed that a U.S. President would ever say such things?

Biden claims jurisdiction over 17 million healthcare workers, especially if they work in a facility that gets funding from Medicare or Medicaid. “If you’re seeking care at a health facility, you should be able to know that the people treating you are vaccinated – simple, straightforward, period.”

Never mind if the alternative may be having no qualified person to care for you. Never mind if the unvaccinated worker, who cared for people before there were vaccines, got infected, recovered, and now has better immunity

than vaccinated people. Never mind that workers with 20 years of dedicated service will have their careers and their livelihoods ruined if they don’t obey the dictator. Never mind that some of the obedient servants die – just coincidentally? – a few days after the shot. Or that some experience heart damage or paralysis. The government with its sovereign immunity does not have to compensate them, and neither do the vaccine makers or administrators, who are protected under the mantle of government.

“This is a pandemic of the unvaccinated,” states Biden. This non-evidence-based assertion is false. The most vaccinated countries in the world, including Israel and Gibraltar, are having the worst outbreaks. Both vaccinated and nonvaccinated persons shed virus, get hospitalized, and die. In the UK, a majority of the COVID-19 deaths last month were among vaccinated people, with a death rate dramatically higher than a year ago, when there was no vaccine.

Why, besides vaccine failure, would public health officials be pushing for continued masking, distancing, and a “booster” injection a few months after a person is “fully vaccinated”?

Can we blame it on the Delta variant? Did unvaccinated persons make it? Or did the vaccine, with its narrowly targeted immunity, actually select out this variant, creating or worsening the problem? Dr. Robert Malone, an inventor of mRNA vaccines, talks about “escape mutants.” Could we be creating a “monoculture” immunity, which like monoculture agriculture, is disastrously vulnerable if a resistant pathogen comes along?

Not content with owning the bodies of healthcare workers and federal employees and contractors, Biden appeals to the private sector, such as employers of 100 or more persons, to exert his will on other Americans. “To those of you running large entertainment venues from sports arenas to concert venues to movie theaters, please require folks to get

vaccinated or show a negative test as a condition of entry.”

To “protect” children under the age of 12, who are at very low risk, Biden wants everybody around them to get the vax—teenage siblings, parents, caregivers. Children over 12, that magic threshold, should get vaccinated, Biden says, and he “strongly supports independent scientific review for vaccine uses for children under 12.” He adds: “We can’t take shortcuts of that scientific work.” So far, the scientific process has been anything but independent. Moreover, studies are not scheduled to be complete before the end of 2022, and studies on myocarditis, to which teenage boys may be most vulnerable, until 2027. Any shortcutting there? And how long would fertility effects take to show up in a child who is 11 when vaccinated?

The satirical *Babylon Bee* has dubbed the program: “Your body, my choice.” Are you pregnant, worried about a miscarriage? Hoping to

be pregnant? Aspiring to an athletic career? Do you have a history of allergies, but have not yet had anaphylactic shock from polyethylene glycol (PEG) or Polysorb 80?

The choice of what risks you have to take will be Biden’s. But the consequences will be all yours.

Beware of Price Gouging During and After Fire Evacuations

Better Business Bureau Press Release

OAKLAND, CA (MPG) - The Better Business Bureau (BBB) is reminding businesses and consumers of the California law prohibiting excessive price hikes during a state of emergency following California State Governor, Gavin Newsom's declaration on August 18, 2021 in response to the Caldor Fire. According to CalFire, the Caldor Fire is 20% contained, has burned over 200,000 thousand acres, and has destroyed close to three thousand structures in its way causing mandatory evacuations in and around the South Lake Tahoe area.

"Local businesses may be overwhelmed with the influx of customers following recent evacuations in the South Lake Tahoe area and other communities experiencing these wildfires. We want to help businesses avoid potential problems as our community comes

together to help one another in a time of need," said Lori Wilson, President of the Golden Gate Better Business Bureau.

Industries affected by the consumer protection laws during a state of emergency include, but are not limited to, hotels and other lodging accommodations, gas stations, grocery stores, and rebuilding industries.

If you need to make preparations to stay at a hotel:

Know that according to California law, under Penal Code 396, 30 days after a state of emergency is declared, it is illegal for a business or other entity to sell their goods or services for more than ten percent of their regular rate. This includes hotels, motels, the sale of food items, gasoline, and any goods or services used for emergency cleanup, emergency supplies, and building materials.

Consumers who are told otherwise should file a

complaint with their local Better Business Bureau, the California Attorney General and their local District Attorney's Office.

There is a penalty up to \$2,500, one year of jail time, or both per violation; To file a citation please visit www.oag.ca.gov or call 800-952-5225.

For more information on this and other tips please visit BBB.org.

For more than 100 years, the Better Business Bureau has been helping people find businesses, brands, and charities they can trust. In 2020, people turned to BBB more than 220 million times for BBB Business Profiles on 6.2 million businesses and Charity Reports on 11,000 charities, all available for free at BBB.org. The International Association of Better Business Bureaus is the umbrella organization for the local, independent BBBs in the United States, Canada, and Mexico. ★

Sacramento Tall Club Rises to New Heights

Bob Huggett, president of Sacramento Tall Club.

By Thomas J. Sullivan

SACRAMENTO REGION, CA (MPG) - Members of the Sacramento Tall Club (STC), a social club of men and women in Rancho Cordova who share a special common attribute are looking to grow their membership.

Club members are once again meeting socially for lunch, dinners and “TGIF” events, while following state and social pandemic protocols.

Open to singles and couples, the STC is an active group of people who are tall and love getting together and having fun,” said their president, Bob Huggett. “Anyone at least 21 years of age may join if they meet the club’s height requirements.”

Women must be at least 5’ 10” tall, and men must be at least 6’ 2” (measurements are taken barefoot). Huggett said if you are a spouse of a regular STC member, you may still be an associate member if you

don’t meet the height requirement.

Huggett, a 6-foot-7-inch chief engineer at the California Department of General Services, describes what it’s like to be vertically gifted and the camaraderie he’s found since joining the STC.

“Well, advantages are, of course, being above the others, [but] you’re always looked at a little bit differently when you’re tall. Not every place is built for tall people. Not every airplane I get in has enough headroom and legroom and all that stuff,” Huggett said.

Huggett said STC members are looking at new ways through MeetUp and social media to attract younger members to join the group as the base age of club members is climbing.

“We want to share the fun and fellowship we’ve enjoyed through the years as club members as we welcome new people, and begin building new friendships,” Huggett said.

The STC is a member of Tall Clubs International (TCI). Established in 1982, the STC lists some 80 active members in the greater Sacramento region, and a few members from as far away as Reno and Stockton.

Huggett said he is especially proud that one of STC’s own, Folsom resident Rusty Bloomquist was honored with the 2021 Tall Clubs International (TCI) Frank Winker Lifetime Achievement Award this summer.

Bloomquist, who has

served terms as STC treasurer, vice president and sergeant-at-arms, was cited for his work as national TCI vice president during the pandemic to encourage national membership and providing advice to those seeking to launch new local TCI chapters.

The STC awards scholarships to eligible graduating high school seniors.

“They must meet our height requirements and write an essay on “What Being Tall Means to Me,” Huggett said. Local scholarship winners can go on to compete for a second national scholarship award.

“We put on all kinds of events which satisfy the variety of tastes of our club members. We try to have get-togethers at fun places such as bar and grills, interesting restaurants, night clubs, and whatever else we can think of that’s likely to be fun and enjoyable,” Huggett said.

“Without the height, we’re just normal people, and there’s nothing really different about us. In the club, that’s really the only common trait we have: We’re all tall,” Huggett said. “It costs nothing to attend one of our events and check us out.”

Upcoming events for the Sacramento Tall Club are posted on social media including Facebook and Meetup, Huggett said. Call 916-469-8255 to learn more about upcoming events or visit their web page at sacramento-tallclub.org. ★

There are several types of snap on dentures available, including snap on partials. If you already wear a conventional denture or partial denture, we can sometimes use your denture to accommodate the snaps to fit on your new dental implants.
