They will be shipping over 2001 care packages and hand-packing 911 more with local volunteers, military families, and active-duty military from the Sacramento area.

All are invited to join in this important event at 3105 Fite Circle, Suite 108, Sacramento, (Bradshaw exit off

of Hwy 50) from 10 a.m. to noon on 9/11.

MAF plans to deploy about 20-30 volunteers throughout the day starting at 10 a.m. and will not halt work until they reach their goal of shipping over 2001 packages overseas and hand packing another 911 more. The care packages are meant to honor the 20th anniversary of the 9/11 terrorist attacks.

Melanie Morgan, Co-Founder and Chairwoman of Move America Forward started the group in 2004 to thank American troops for their important missions in Iraq and Afghanistan. "In the 20 years since we deployed to Afghanistan our troops never faltered, never lost a

fight, and even when losing dear friends, never lost faith. Our brave troops succeeded in ousting the Taliban, destroying Al Qaeda, and sent all our enemies into hiding. Time and again, our troops proved victorious on every battlefield." Melanie Morgan went on to say. "To all troops who served in Afghanistan, you accomplished your mission and we the American people, always and forever, thank you for your exemplary service and sacrifice."

World Trade Center Tower 2 Survivor and MAF Ambassador, Richard Hannaford will be present at this event. His day will begin at the West Sacramento 9/11 Flag

DA Announces Fentanyl Epidemic and Response

Office of District Attorney
Anne Marie Schubert

SACRAMENTO, CA (MPG) - District Attorney Anne Marie Schubert announced the Sacramento District Attorney's Office is taking efforts to address an epidemic increase in fentanyl related deaths, based in large part on counterfeit prescription pills which contain fentanyl.

The national fentanyl epidemic has hit the Sacramento community, and has increased during the pandemic. From January 2020 to July 21, 2021, there have been 140 fentanyl related deaths in Sacramento County. People in Sacramento are now dying from fentanyl

overdoses at virtually identical rates to homicides. These tragic deaths span all age groups from young kids to seniors.

The District Attorney's Crime Lab, which tests all narcotics seized by local law enforcement agencies, found that 92% of oxycodone pills on the street are counterfeit. Of those pills, 75% are straight fentanyl. Counterfeit pills are virtually impossible to distinguish from a prescription pill. The Crime Lab is discovering an alarming rate of not only counterfeit oxycodone, but also counterfeit OxyContin, Percocet, Xanax and Adderall.

DA Schubert is leading the effort to respond to the fentanyl epidemic with an extensive public outreach campaign.

The main focus of the response will be county-wide Public Service Announcements (PSAs) highlighting the theme of "1 Pill Can Kill." Several of the fentanyl related deaths involve teens and young adults targeted on social media who ingested

a pill, or on occasion half a pill. Key messages of the PSAs include: 1) If you didn't get it from a pharmacy - it's fake; 2) A very small amount of fentanyl is deadly - one pill can kill; and 3) Fake pills are being pushed through social media.

DA Schubert has requested funding from the County Board of Supervisors as part of the federal American Rescue Plan Act to pay for guaranteed, premier PSA placements across social media, TV/Radio, billboards, public transit and print publications among other advertising platforms.

Until funding is secured, the DA's Office will roll out the PSAs on the office social media sites and donated advertisement platforms. Clear Channel Outdoors supports the awareness campaign and will donate digital billboard space when available throughout the county. There are additional opportunities for free PSA placements on social media.

The Sacramento County

Office of Education and local school superintendents support the fentanyl awareness efforts and will distribute PSA materials to students, administrators, parents/guardians as well as student and parent groups. Other partnerships are being formed across the medical industry.

"I was alarmed as we watched the Coroner Office's statistics on fentanyl related deaths rise and the corresponding rise in counterfeit pills containing fentanyl discovered at our Crime Lab," said DA Anne Marie Schubert. "An epidemic of this magnitude requires a multi-disciplinary response involving schools, public health, community-based organizations, healthcare, the faith-based community and law enforcement. The most powerful tool we have is information, so our efforts are focused on awareness and prevention efforts to save lives."

Military Jets to Star in New Afterburnin' Drive-In

Story by Shaunna Boyd

SACRAMENTO REGION, CA (MPG) - The California Capital Airshow (CCA), which is held annually at Mather Airport, will feature a new event this year: The Afterburnin' Drive-In Airshow.

Before the weekend-long aviation festival on September 25 and 26, the 2021 California Capital Airshow will kick off with the Afterburnin' Drive-In Airshow on Friday, September 24. For this new event, attendees will park their vehicles in the largest parking lot on Mather Airport's west cargo ramp for a tailgate party featuring performances by more than 25 military jets. The show is billed as more up close and intimate than the traditional airshow – with three action-packed hours of wild, loud flights by military aircraft from both the United States and Canada.

"Drive-In Airshows were successful across the country last year," said CCA Director of Operations Angela Terry, "so we thought we would give our attendees the option to enjoy the airshow in a new format! It also gives fans who aren't quite ready to gather another way to enjoy the Airshow!"

The format of the Afterburnin' Drive-In Airshow will give every guest an excellent view of the performances and ensure that everyone has their own personal space from which to enjoy it. This new event will be a very different atmosphere, and it might appeal to more people who want a fast-paced, intense experience.

If the event proves to be popular, it could become a regular feature of the Airshow. "We have never done it before so we look forward to getting feedback from our loyal fans," said Terry.

Gates will open at 2:00 PM on September 24, with opening ceremonies scheduled to start at 3:30 PM. Only 2,000 tickets are available for this unique event. Tickets are purchased per vehicle, with up to six people included in each ticket.

The California Capital Airshow is offering guests a new way to experience the excitement, with the Afterburnin' Drive-In Airshow on Friday, September 24. The show will feature three hours of flight performances by more than 25 military jets. Photo by Mark Loper courtesy CCA

The ticket covers a parking spot and an area right next to the vehicle for tailgating where guests can set up their chairs. There will be portable restrooms and handwash stations positioned throughout the area, and the restrooms will be cleaned throughout the event.

No food will be sold on-site, so guests are encouraged to bring food, drinks, and coolers. But grills and BBQs aren't allowed, due to the presence of jet fuel vapor.

CCA is also partnering with local restaurants – Zak's Bar & Grill, Tacoa Tacos, Petali, BurgerIM, Straw Hat Pizza, Mr. Pickle's Sandwich Shop, Taqueria La Bonita, and Wing Stop – so guests can order food ahead of time and pick it up on the way to the show.

Tickets are only available for purchase online ahead of the show. For more information about the Afterburnin' Drive-In Airshow, visit <https://californiacapitalairshow.com/friday-afterburnin-drive-in-airshow/>. ★

Sen. Nielsen Comments on Hearings on EDD Reform Postponed Indefinitely

Jim Nielsen

From the Office of Senator Jim Nielsen

SACRAMENTO, CA (MPG) – Sen. Nielsen issued the following statement regarding the indefinite postponement of a joint legislative hearing on the mismanagement of the Employment Development Department (EDD)

scheduled for Aug. 24:

“There are hundreds of thousands of Californians struggling to put food on the table and keep a roof over their heads because of Governor Newsom’s gross mismanagement of the EDD.

“Most of these folks lost their jobs because of the governor’s mandated shutdowns, and can’t get through to the EDD to get their unemployment benefits, but the EDD has paid out an estimated \$31 billion in fraudulent claims.

“As the LA Times recently reported, ‘As of July 31, there was a backlog of 216,000 claims that had not been approved within 21 days. The week ending on that date saw the EDD

receive 3.4 million calls – it was able to answer only 248,000 of them.’

“Clearly, the governor is trying to dodge the massive negative news coverage this important informational hearing would have generated ahead of the recall election.

“This is outrageous political gamesmanship.”

In July 2021 alone, Nielsen’s office worked with 479 constituents in Senate District 4 who are having problems with EDD. For six months in a row, the office has had record-breaking numbers of EDD cases:

February – 274; March – 275; April – 306; May – 447; June – 475; July – 479. ★

RCPD Educates Businesses to Reduce Availability of Alcohol to Minors

City of Rancho Cordova

RANCHO CORDOVA, CA (MPG) - On August 15, 2021, RCPD officers conducted a Minor Decoy Operation in the City of Rancho Cordova.

The Minor Decoy program focuses on reducing the availability of alcohol to minors and alcohol-related crime to keep our community safe. In addition, the program reminds local businesses of the responsibilities and accountability associated with the sale of alcoholic beverages.

A minor under the direct supervision of RCPD attempted to purchase alcohol at eight California Department of Alcoholic Beverage Control (ABC)-licensed businesses in the city. RCPD officers cited one

business for selling alcohol to a minor and educated all businesses on checking identification for alcohol sales.

A business that sells to a minor faces a minimum fine of \$250 and/or 24 to 32 hours of community service for a first violation. In addition, ABC will take administrative action against the ABC license of the business where alcohol was sold to a minor, which may include a fine, a suspension of the license, or the permanent revocation of the license.

One strategy in the city’s four-pronged, proactive policing approach is crime prevention. RCPD partners with residents and businesses to identify and implement ways to deter crime before it occurs.

RCPD will continue to partner with these businesses on crime prevention and compliance.

ABC encourages licensees to sign up for ABC’s Licensee Education on Alcohol and Drugs (LEAD) training free of charge. Licensees and their employees can take the training online. Learn more about ABC enforcement programs and prevention programs that can help increase public safety.

ABC is a Department of the Business, Consumer Services and Housing Agency. Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration. ★

MEMORIAL NOTICE

Donald Wayne Gustin

August 30, 1955 to April 8, 2020

Donald Wayne Gustin was born August 30, 1955 in Wenatchee, Washington and when very young moved to Rancho Cordova, CA with his sister, Cheri and their parents, to establish their lives. On the swim team at Cordova High School and then at San Diego State, he was known for a strong butterfly stroke, his deep assuring voice and friendly demeanor.

Don graduated CSUS, Sacramento with a Real Estate Finance Degree and enjoyed running family businesses with his Dad, Larry, and Mother, Joan, until his move into mortgage banking. He returned to care for Amphora Financial and Real Estate companies for his mother after his father’s untimely and youthful passing. As a father, Don supported his children, Amanda and Ian, in their education and sports; assistant coaching on their soccer teams and sharing his love and wisdom in the kitchen and dinner table. Don loved to cook and grocery shop for the family and his favorite all-time sport was river fishing. He found solace and his closest

connection to God in nature although ministers at church served him well too.

Music uplifted the background in our home and live concerts were the commonality Don and wife, Brenda of 39 years enjoyed most; second to family!

It is with great sadness that his peaceful passing at home on April 8, 2020 came at such a young age when he was enjoying life as Papa Don to our 4 grandchildren, Kya, Evelyn, Lily and Lincoln and

expanding relationships with Amanda, Ian and their beloveds, Joel and Christine.

Don’s memory will not fade away. We carry the goodness and mercy he showed us in our hearts and invite you to contemplate all that he brought to your life; all that he lit up within you. Don was a man of inquiry; always asking questions. He listened well for he revered people for their abilities and recognized the eternal glory living in every heart. He smiled upon that part of each person to illuminate their goodness & joy and often said: Smile and the World Smiles with You!

The Working from Home or Return-To-Office Debate

Commentary
by Cathy Hayes

Many Americans have been working from home full-time for a year now since COVID-19 hit the U.S. And many prefer that arrangement to a traditional office. In a survey, 65% said they want to work remotely full-time after the pandemic.

That could pose a problem for them and their employers.

Given the availability of vaccines, many companies are planning to ask their employees to return to the office. But a sizable number of workers might balk – or even walk. In a survey by LiveCareer, 29% of working professionals said they would quit if they couldn't continue working remotely.

"The reality is that some jobs just don't work remotely and some people don't work well remotely," says Cynthia Spraggs (www.virtira.com), a veteran of working remotely, author of *How To Work From Home And Actually Get SH*T Done*, and CEO of Virtira, a completely virtual company that helps other businesses work virtually. "Companies have time to plan for both – and so do employees.

"Many employees now expect to be able to work flexibly. Some companies will use a hybrid approach, and others will go back to full-time in the office. But if employees are not given the choice to work from home, some will look for other employers that do offer that. Companies need to assess which jobs are best done remotely and assess their employees to understand which ones benefit the company most by either working from home or returning to the office."

Spraggs offers these thoughts for workers, business owners and managers to consider in the WFH vs. return-to-office debate:

The WFH type. "At this point, it should be relatively easy to assess who is thriving and who

"Many employees now expect to be able to work flexibly. Some companies will use a hybrid approach, and others will go back to full-time in the office. is miserable in a WFH setting," Spraggs says. "What we've found is, regardless if you're an introvert or an extrovert, the perfect WFH employee is someone who embraces life and who has passions and interests outside of work. They work efficiently and are strong performers because they see work as a means to fund their life."

The traditional office type. Spraggs draws a stark contrast between people who thrive working from home and those who are much happier commuting to a traditional brick-and-mortar office environment. "These individuals have strong social relationships through work and require the camaraderie that an in-office environment provides," she says.

"For many, especially those focused on the corner office, work is their life. These are the ones who pull down 80-hour weeks to move up the ladder. They stay glued to their boss, and likely are the ones who just won't function well at home. Sadly, they are also likely your VP."

Weigh how your company thinks of you. "Although we all like to think that companies care about employees," Spraggs says, "the harsh reality is that employees are a unit of production and companies will migrate to the setup that senior executives mandate. Do you really want to work for a company that isn't prepared to accommodate what makes you most productive and happy? Better sharpen that CV and get

ready. Plan now and work your networks."

Management realities. For many companies, even with the environmental, health and productivity advantages that remote work brings, Spraggs thinks some simply aren't going to embrace WFH as an opportunity to streamline operations. "They are going to want to return to the 'old normal,'" she says. "A good number of senior management people didn't do well with the WFH environment because they view WFH through a lens of slacking-off employees, lower productivity and lower ROI. So it's likely these companies are not going to make the investments in training, home-based bandwidth, VPNs and tools to make it work."

"There's coming tension in many companies between what will work best for management and what will work best for the employees," Spraggs says. "We may see a big migration in workers going to fully virtual companies."

Cynthia Spraggs (www.virtira.com) is the author of *How To Work From Home And Actually Get SH*T Done: 50 Tips for Leaders and Professionals to Work Remotely and Outperform the Office*. She is CEO of Virtira, a completely virtual company that focuses on remote team performance. Before taking leadership of the company in 2011, Spraggs worked with large consulting and tech companies while completing her MBA and research into telecommuting. ★

Civilians were allegedly shot and killed by US forces during Kabul airport bombing mayhem, eyewitnesses tell BBC | 28 Aug 2021 | Some of the dozens of civilians reportedly killed in a suicide blast outside Kabul's airport have been shot by US soldiers amid the chaos caused by the deadly explosion, according to the BBC. Eyewitnesses who survived Thursday's attack, which claimed at least 95 lives and left 150 people wounded, told the British public broadcaster that not everyone who died that day had been killed by the suicide bomber... One Afghan who spoke to the BBC claimed that a civilian who had worked with American forces was shot to death by foreign soldiers in the aftermath of the suicide blast. ★

iVoterGuide Provides Key Information about Recall and Candidates

Hamilton Strategies Press Release

SACRAMENTO, CA (MPG) - The California gubernatorial recall election is underway and voters across the state are eager to make their voices heard. This special election is being held to answer two important questions: Should Gavin Newsom be recalled from the office of Governor? If so, who should replace him? How voters answer these two questions could transform the political landscape of both California and the U.S. for years.

For Debbie Wuthnow, president of iVoterGuide, this recall election provides a unique opportunity. "An opportunity like this hasn't occurred in California in years. Recent polls indicate that the state is evenly split over the effort to recall Governor Newsom, with the majority of California voters still undecided. This is exactly what iVoterGuide is for – equipping voters with facts about each candidate so they can cast an informed vote."

While Republican voters may have already decided whether Governor Newsom should be recalled, iVoterGuide provides the well-sourced facts that California voters can share with their family and neighbors who need a reminder of Governor Newsom's policies and actions that led to the recall effort. If the vote to recall exceeds 50%, then the candidate who receives the most votes will become California's governor until the November 2022 election. The toxic political climate and recent global events underscores the urgency for voters to choose the candidate

most likely to respect personal freedoms and govern with integrity.

Voters asked for iVoterGuide to cover this election and provide research to assist them in choosing between the dozens of contenders, and iVoterGuide quickly compiled all the necessary information about the current candidates. iVoterGuide gathered links to candidate websites and social media accounts, as well as listed important ideological donations either given to or by the candidates. For those who have held office, iVoterGuide lists any vote ratings earned. Additionally, each candidate received an issue questionnaire.

iVoterGuide is a one-stop resource for candidate ratings and election information. In 2020, iVoterGuide's expert researchers gave an in-depth analysis – and overall rating – from the perspective of unchanging truth for 8,000+ candidates in more than 3,300 races nationwide. Additionally, iVoterGuide offers election dates, registration deadlines, polling locations, and other information needed to help Americans vote wisely and identify candidates on the ballot who share their values. Related tools are also available to inform family, neighbors, and business associates about getting their own personalized ballots. iVoterGuide is helping to restore the principles of limited government, free enterprise, and traditional American values.

iVoterGuide also created Pray for Leaders, an easy way for voters to pray by name for the officials whom they personally have the authority to elect.

Rancho Cordova Residents Happy about Their Home

By Chris Ching

RANCHO CORDOVA, CA (MPG) - It would be fair to say that Rancho Cordova residents like... well... Rancho Cordova. In a May 2021 Resident Satisfaction Survey, 350 residents reported to be generally happy with the city services and its responsiveness to address their issues and concerns. The survey was conducted and presented to the City Council at the August 16 Council Meeting by Dr. Dennis Tootelian of Tootelian & Associates - a Sacramento marketing and management consulting company.

With a few exceptions mostly about the homelessness issue, Tootelian reported those surveyed were happy with the overall quality of life in the city and feel the image of the city has improved. They also feel safe and faith in city services (including police) remain strong.

The 350 residents surveyed - which Dr. Tootelian said represented an accurate cross section of the city - were about evenly split 50/50 by gender with the group made up of mostly of caucasian homeowners 40-60 years old.

However, to a few in attendance at city hall, correct representation of the city was sorely lacking. Fayzah Mughal felt the survey results showed "no diversity" and claimed "we can do better!" in regards to the selection and research. Tootelian addressed such concerns by saying he was confident he got good results.

The proposed cell tower on Folsom Boulevard - and its ever-changing cosmetic look - was also once again discussed by Council. Envisioned to stand high above Target and Grocery Outlet, the tower's design has gone from a clock tower facade to the latest incarnation that includes a city specific silhouette with a river graphic on the enclosure surrounding the tower.

This time the Council delved into the particular benefits of different shades of blue, lighting the structure and employing muralists to work on the enclosure to give it an even more Rancho Cordova specific tone. Sensing the design process could wind up delaying construction, and the basic concept was in Councilmember Linda Budge's words "successful", the Council approved for the construction process to proceed with the proviso that aesthetic choices would be worked out in the future.

Another topic that had been brought back for discussion involved the city's eight Mobile Home Parks, those who reside there and the issues they face - primarily rent increases, adequate services and code enforcement.

Staff had been previously tasked to research the complex issue in the hopes of many residents that the City would possibly assume responsibilities of oversight. Council appeared to show genuine concern for their plight, but nothing was finalized at the meeting with discussion pushed

to the future.

During Council Reports, Councilmember Siri Pulipati - in regards to back to school rush - urged Elk Grove Unified parents to have patience dropping their children off and that things would get smoother. She attended a 75th India Independence Day celebration in downtown Sacramento which led to words about the crisis in Afghanistan.

"Don't take our freedoms lightly," she said, and her words were picked up by Councilmember David Sander who pointed out the city has received an influx of Afghan refugees in the past and could well do so in the near future. Sander also reported on his trip to the Junior Olympics in Florida mentoring two local athletes including his own son.

Vice-President Donald Terry attended the 10th Birthday Party at the Children's Museum and reported on the "seamless" transition schools were experiencing with returning Folsom Cordova Unified students. Councilmember Linda Budge and City Manager Cyrus Abhar both remarked on the success of the National Night Out event.

At the beginning of the night, staff made a presentation to Council on the Utility Box Art Wrap Program showing off the newly designed artwork adorning 26 utility and traffic signal boxes across the city. Also, city employees were recognized for achieving anniversary milestones.

Mayor Garret Gatewood was not in attendance at the Meeting. ★

NOTICE OF WATER SHORTAGE CONTINGENCY AND STAGED MANDATORY WATER CONSERVATION AND RATIONING AND PUBLIC MEETING

ARDEN CORDOVA, BAY POINT & CLEARLAKE SERVICE AREAS

Due to the drought conditions throughout California, the Governor declared a drought emergency and requested for water users to voluntarily reduce usage by 15%, compared to 2020 water consumption. In response, Golden State Water Company (GSWC) filed an Advice Letter (1862-W) with the California Public Utilities Commission (CPUC) seeking approval to add a Water Shortage Contingency and Staged Mandatory Water Conservation and Rationing (Schedule 14.1) plan to its tariffs for all GSWC customer service areas.

The Schedule 14.1 filing outlines detailed information on restrictions, water allocations, enforcement measures and surcharges that may be activated to achieve water-use reductions needed to address water supply shortages and/or identified water-use reduction goals established by an authorized government agency or official.

These restrictions are designed to encourage water users to reduce their usage, as compared to the amount they used in 2020, with a strong focus on encouraging those customers with high per capita usage to achieve proportionally greater reduction than those with low usage.

The Stage of Schedule 14.1 implemented for each GSWC customer service area will be determined based on local drought and water supply conditions and/or direction from an authorized government agency or official. GSWC may implement any stage to meet the necessary water usage reduction and the associated Drought Emergency Surcharge without first implementing an initial/preceding stage, if warranted.

GSWC is implementing Stage 1 for the Arden Cordova, Bay Point and Clearlake service areas.

GSWC recognizes the conservation efforts customers have made since California's last drought and the continued commitment to making conservation a way of life.

PUBLIC MEETING

GSWC will host an online public meeting to help customers understand this filing and associated enforcement mechanisms and provide information on conservation rebates, programs, and other tools GSWC offers to help customers reduce their water use.

The meeting date, time, and information follow:

DATE	September 9, 2021
TIME	3:00 pm – 4:00 pm
VIRTUAL MEETING LINK	www.gswater.com/public-meetings

MANDATORY WATER USE REDUCTION AND DROUGHT EMERGENCY SURCHARGES

Stage 1

Stage 1 is a "Water Alert" where voluntary conservation is encouraged.

Outdoor irrigation is restricted to three days per week:

Addresses Ending In:	Watering Days:
Even Numbers (0, 2, 4, 6, 8):	Sunday, Wednesday, Friday
Odd Numbers (1, 3, 5, 7, 9):	Tuesday, Thursday, Saturday

All outdoor irrigation must occur between the hours of 7 pm - 8 am.

Failure to comply with these restrictions may result in the installation of a flow restrictor device along with associated fees for installation and removal.

If conditions warrant, GSWC will change the number of watering days and the specific day of watering after first notifying its customers in accordance with Rule 14.1.

Each subsequent Stage will be implemented if the preceding Stage allocations and drought emergency surcharges are deemed insufficient to achieve reductions due to water supply shortages or to achieve identified water usage goals established by an authorized government agency or official.

In addition to the restrictions identified in Stage 1, the following allocations and drought emergency surcharges are in effect for Stages 2-6:

- Outdoor irrigation is restricted to two days per week:

Addresses Ending In:	Watering Days:
Even Numbers (0, 2, 4, 6, 8):	Sunday, Wednesday, Friday
Odd Numbers (1, 3, 5, 7, 9):	Tuesday, Thursday, Saturday

- All customers will have their baseline established using the 2020 usage data for their premise or an area wide average baseline for similar usage if 2020 data does not exist (e.g. new customer accounts).

- The customer's allocation will be based on the 2020 baseline less the mandatory reduction % per stage.

Stage 2 - 20% mandatory reduction (Moderate Shortage)
 Stage 3 - 30% mandatory reduction (Severe Shortage)
 Stage 4 - 40% mandatory reduction (Critical Shortage)
 Stage 5 - 50% mandatory reduction (Shortage Crisis)
 Stage 6 - 55% mandatory reduction (Emergency Shortage)

- No allocation will be set at less than eight (8) Ccf per monthly billing period or sixteen (16) Ccf per bi-monthly billing period.

- All usage in excess of the customer's allocation will be charged at the regular rate plus a drought emergency surcharge as follows:

Stage 2 - \$2.50 per ccf
 Stage 3 - \$5.00 per ccf
 Stage 4 - \$7.50 per ccf
 Stage 5 - \$10.00 per ccf
 Stage 6 - \$15.00 per ccf

FLOW RESTRICTOR CHARGES

The charge for the installation and removal of a flow-restricting device shall be:

5/8" to 1": \$150
 1 1/2" to 2": \$200
 3" and larger: \$300

The flow restrictor will remain installed for a minimum of 7 days.

EXEMPTION AND APPEALS PROCESS

Any customer who seeks a variance from any of the provisions of this voluntary water conservation and mandatory rationing plan shall notify the GSWC in writing using the Appeals Form, explaining in detail the reason for such a variance. GSWC will evaluate each request based on the standard for efficient water usage, considering similar customers and meter size, and respond in writing.

The Appeals Form is available online at GSWC website: www.gswater.com/appeal or by calling 1-800-999-4033.

Any customer not satisfied with GSWC's response may file an appeal with the Director of the CPUC's Water Division.

If the customer disagrees with such disposition, the customer shall have the right to file a complaint with the CPUC. Except as set forth in this Section, no person shall have any right or claim in law or in equity, against GSWC because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of the voluntary water conservation and mandatory rationing plan.

SPECIAL CONDITIONS

- The active Stage of Mandatory Water Use Reduction and Drought Emergency Surcharges is to remain in effect until a Tier 2 advice letter is filed with the CPUC to activate a different Stage or when Schedule 14.1 is deactivated.
- Water-use violation fines and/or Drought Emergency Surcharges must be separately identified on each bill.
- All bills are subject to reimbursement fee set forth on Schedule No. UF.
- All revenues collected by GSWC through water use violation fines and/or Drought Emergency Surcharges shall not be accounted for as income but shall be accumulated in the WRAM and lost revenue portion tracked in the 2021 Water Conservation Memorandum Account (2021WCMA) for non-WRAM tariffs.
- No Customer shall use GSWC's water for non-essential or unauthorized uses as defined below:
 - The application of potable water to outdoor landscapes in a manner that causes runoff onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures.
 - The use of a hose that dispenses potable water to wash a motor vehicle, except where the hose is fitted with a shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use.

 - GSWC will promptly notify customers when aware of leaks within the customer's control; the failure to repair any leaks, breaks, or other malfunction resulting in water waste in a customer's domestic or outdoor water system within forty-eight (48) hours of notification by GSWC, unless other, specific arrangements are made with and agreed to by GSWC.
 - The serving of water, other than upon request, in eating and drinking establishments, including but not limited to restaurants, hotels, cafes, bars, or other public places where food or drink are served and/or purchased.
 - Hotels/motels must provide guests with the option of choosing not to have towels and linens laundered daily and prominently display notice of this option.
 - The use of potable water for irrigation of ornamental turf on public street medians.
 - The use of potable water for irrigation outside of newly constructed homes and buildings that is not delivered by drip or micro spray systems.
 - Commercial, industrial, and institutional properties, such as campuses, golf courses, and cemeteries, immediately implement water efficiency measures to reduce potable water use in an amount consistent with the mandated reduction.
 - Further Reduction in or the complete prohibition of any other use of water declared non-essential, unauthorized, prohibited, or unlawful by an authorized government or regulatory agency or official.
 - Use of potable water for watering streets with trucks, or other vehicles, except for initial wash-down for construction purposes (if street sweeping is not feasible), or to protect the health and safety of the public.
 - The outdoor irrigation restriction does not apply to trees or edible vegetation watered solely by drip or microspray systems.

Sacramento Homeowners Pay 18.6% More Than Renters, 9th Most in U.S.

Stessa News Report

SACRAMENTO REGION, CA (MPG) - When the COVID-19 pandemic hit America and sent people fleeing from small apartments in the biggest cities, it immediately propelled rent and home prices in opposite directions. However, despite quickly escalating home prices, there are still many places across the country where the typical monthly mortgage payment is on par or below market rent, offering opportunities for both prospective home buyers and real estate investors.

There is plenty of evidence to confirm that homes are indeed getting more expensive, especially in relation to rental units. Just before the start of 2020, home and rent prices were growing at the same rate: 3.7% year-over-year, according to the Federal Reserve's tracking of the urban rent and home price indexes. Within months, however, rental costs experienced an uncharacteristic cooling off that slowed growth to less than 2% annually by April 2021. Meanwhile, the effects of the pandemic nearly quadrupled the growth rate of home prices, catapulting it to 14.6% by April 2021.

While at first glance these trends might indicate the relative unaffordability of owning when compared to renting, record-low mortgage rates have dramatically pushed down the monthly costs associated with homeownership. Long gone are the days of 15% interest rates from the early 1980s; they've been below 5% for an entire decade, and at the start of 2021, the 30-year mortgage rate set a new all-time record low at 2.65%. For potential buyers who have been able to save enough for a down payment or for investors looking to maximize cash flow on a rental property, affordable options still exist in a wide range of markets.

Outside of the trendiest destinations, like Idaho, Utah, and other hotspots in the Northwest and Northeast, market rents are actually higher than the monthly mortgage payment and associated property taxes for a median-priced home. When factoring in mortgage payments and property taxes compared to rent, the range of affordability favoring owners encompasses more than half the nation, including all of the South and some states beyond.

Homeowners and investors get the best deal in West Virginia, where a mortgage

payment and property taxes is about half as costly as renting, as well as in Mississippi and the states surrounding it, most of which are more than 30% cheaper to own on a monthly basis. Even other high-growth states like Texas and Florida register 8.6% and 19% discounts for owners.

Note that the comparison only factors in mortgage payments and property taxes. Other costs, such as insurance, HOA fees, and maintenance, also influence the affordability of owning versus renting or the cash flow associated with a rental property investment. But the data serves as a reliable directional indicator of where owning is most comparable, or even preferable, to renting.

To find the metropolitan areas where it's cheaper to buy than rent, researchers at Stessa analyzed data from Zillow, the U.S. Department of Housing and Urban Development, and the U.S. Census Bureau. They calculated the percentage difference between owner payments for a median-priced home and median rent estimates. Owner payments include the mortgage and associated property taxes based on a current 30-year fixed mortgage with a 20% down payment.

The result is that homeowners could save as much as 35% in large metros monthly or even more in smaller locations, potentially pocketing hundreds of dollars each month.

The analysis found that in the Sacramento metro area, homeowners pay 18.6% more on mortgage payments and property taxes each month than renters spend on rent. Out of all large U.S. metros, Sacramento is the 9th most expensive for homeowners compared to renters. Here is a summary of the data for the Sacramento, CA metro area:

Difference between monthly owner & renter payments: +18.6%; Median monthly mortgage & property taxes: \$2,115; Median monthly rent: \$1,783; Median home price: \$516,489.

For reference, here are the statistics for the entire United States:

Difference between monthly owner & renter payments: -12.9%; Median monthly mortgage & property taxes: \$1,221; Median monthly rent: \$1,402; Median home price: \$287,148

NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (855) 976-3916 or visit this Internet Web site <https://tracker.auction.com/sb1079>, using the file number assigned to this case VAC.377-356. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. Toni King

Toni:

I have been reading your articles regarding COVID-19, being laid off and enrolling in Medicare properly but I have not read an article on how to lower the Medicare monthly premium if you are not making that amount of income due to a life event such as your spouse passing away.

I turn 65 in September and have enrolled in Medicare. I received a letter from Social Security stating that I must pay \$475.20 for Part B and \$70.70 for Part D, totaling over \$545.90 monthly because the IRS states that my income was \$345,000 in 2019.

Since my husband passed away this February, I only have my Social Security check of \$2400 a month to pay bills, not my husband's income anymore.

How do I inform Social Security that I am no longer making this amount of income and bring my Medicare premium to a lower, affordable amount?

Thanks ... Gwen from Destin, FL

Gwen:

Do you want to wait 2 years for the IRS to inform Medicare that your income has decreased due a "Life Changing Event" such as death of a spouse, being laid off/working part-time or recently divorced or do you want to let Medicare know now that you have had a "Life Changing Event, because you or your spouse are no longer earning that amount of income?

During a Toni Says® Medicare consultation, we hear about the Medicare Part B and D premium problems from those on Medicare who have had various types of "Life Changing Events" mentioned above or have decided to retire. People believe that everyone pays the same amount for their Medicare Parts B and D premium. Those days are long gone!

If your income as an individual is over \$88,000 or married is over \$176,000; your Medicare Parts B and D premiums will be more. Social Security explains in the letter

that is mailed to you, how they arrived at the Part B and D premiums based on your "Modified Adjusted Gross Income" (MAGI) from your last filed tax return.

Your MAGI was over \$330,000 and the table used in the letter you received from Social Security shows what the Part B and Part D premium adjustment (*nice way of saying it's going to cost you more*) will be, whether you are filing single or married.

Most retirees do not realize that they have **special situations** also known as "**Life Changing Events**" that can lower your "income related monthly adjusted amount" (IRMAA).

Below are a few of the life changing events that can make your income go down:

- You have gotten married or **divorced**, or your **spouse has died**.
- You or your spouse have **stopped working** or have reduced your hours.
- You have lost property that you were making money from due to a disaster or other event beyond your control; or
- You or your spouse's benefits from an insured pension plan stopped or went down

Use form SSA-44 titled "Medicare Income-Related Monthly Adjusted Amount - Life-Changing Event" and attach the original documents or certified copies to verify your change in income. Call your local Social Security office to discuss the filing of this form.

Once Social Security is satisfied with the evidence, it will update its records and correct Part B and Part D premiums to what your current income is.

**Social Security reviews your income each year and will adjust your Part B and D premiums to your new income level the next year and again you will want to keep filing SSA-44 form until that year's income is to the lower amount.

Rep. Bera Urges President Biden to Extend Afghanistan Withdrawal

Ami Bera

Office of Congressman
Ami Bera, M.D.

WASHINGTON, DC (MPG) - Representative Ami Bera, M.D. (D-CA) Chairman of the House Foreign Affairs Subcommittee on Asia, the Pacific, Central Asia, and Nonproliferation, released the following statement on President Biden's decision to continue with the August 31 U.S. withdrawal

from Afghanistan. "While I commend the Biden Administration and our brave men and women in uniform for safely evacuating over 70,000 individuals from Afghanistan thus far, there's still more work to be done, and more evacuations to take place. In just the past week, my office has received and forwarded to the State Department for immediate action over 7,000 requests from individuals seeking to leave Afghanistan. These heartbreaking pleas have come from Americans, our Afghan partners, and family members with loved ones who are unsafe in Afghanistan. Sadly, many of these individuals have not yet been safely evacuated out of Afghanistan,

and time is running out. We must not let a self-imposed August 31 deadline get in the way of completing our mission of protecting our citizens and our allies. That's why I strongly urge President Biden to extend the withdrawal deadline as necessary to complete U.S. evacuation operations."

Representative Bera represents Sacramento County, home to the largest population of Afghan immigrants in the country. He wrote to President Biden on August 17 urging him to extend the August 31 deadline. Bera has long called on the Biden Administration to expedite the Afghan SIV process and evacuate our allies out of the country before the withdrawal of U.S. troops. ★

One Arrested for EDD Fraud Totaling More Than \$535,000

Office of District Attorney Anne Marie Schubert

SACRAMENTO COUNTY, CA (MPG) - A joint investigation by the California Department of Corrections and Rehabilitation (CDCR) and the Sacramento County District Attorney's Office resulted in a search warrant executed on August 23, 2021, at the Natomas home of Allison Illahi. During the course of the search, officers found a large cache of narcotics, extended magazines, ammunition, evidence of EDD fraud, and a ghost gun. A ghost gun is a gun assembled from non-traceable parts. These guns contain no serial number and are often altered to fire in a fully automatic mode.

The seized narcotics included 1.2 lbs. of methamphetamine, 19.8 grams of fentanyl, 28 grams of heroin, 24 grams of cocaine, and approximately 400 oxycodone pills. Officers also located evidence of weapons trafficking including an unregistered firearm, 42 illegal extended magazines, a large amount of

ammunition, a bulletproof vest, and other firearm conversion kits.

Additionally, officers found 14 fraudulent EDD cards, a large amount of EDD paperwork, and a notebook with the personal identifying information for more than 30 victims. Law enforcement has determined that the suspect obtained more than \$536,000 in fraudulent EDD funds.

The Sacramento District Attorney's Office charged Allison Illahi with five counts of drugs sales, 40 counts related to EDD fraud, 42 counts of

possessing extended magazines, and one count of gun trafficking.

According to District Attorney Anne Marie Schubert, "We continue to see staggering amounts of fraudulent EDD activity combined with illegal firearms in our communities. This dangerous combination undoubtedly has fueled a dramatic increase in violent crime throughout the state. Sacramento's law enforcement agencies will continue to partner together to investigate EDD fraud and the havoc it brings to our community." ★
