SACRAMENTO REGION, CA (MPG) - Home improvement shopping just got a little easier and friendlier around town, thanks to the recent opening of Miller's Ace Hardware at 8077 Madison Avenue in Citrus Heights, located across the street from the Fair Oaks Library where both communities meet.

"Miller's Ace Hardware is thrilled to show the communities of Fair Oaks and Citrus Heights all that we have to offer," store owner Jessica Rowell Greenfield said about the new shop at the corner of Madison Ave.

Greenfield and her team received a handful of awards and proclamations from local dignitaries. Photo by Paul V. Scholl

The new Ace Hardware franchise officially opened the weekend of August 4-6 at the Almond Orchard

Shopping Center where entrepreneur Greenfield leased a 14,200-square-foot store which had been vacant for several years.

Ace Hardware District Manager Sandi Colbus helped in celebrating the occasion and said she expects that the hardware store chain will thrive in the location. "Most Ace Hardwares are very successful and develop strong ties to the community thanks to loyal customers in their surrounding neighborhoods," she said.

Greenfield said she was very excited with the 1500-strong turnout and reported a transaction count up 236% since the soft opening in June 27.

Rabbits at Crosswoods Park to Find New Homes

Volunteers from Only Sunshine Sanctuary have caught more than 100 rabbits from Crosswoods Community Park in the last two years, and after being spayed or neutered, these rabbits are ready to find homes. Photos provided by Only Sunshine Sanctuary.

Story by Shaunna Boyd

CITRUS HEIGHTS, CA (MPG) -

The Citrus Heights Police Department (CHPD) recently presented to the City Council a plan to address the ongoing issue of domestic feral rabbits at Crosswoods Community Park.

Rabbits have run wild in the park for decades, but they are abandoned domestic rabbits, which are not equipped with the instincts necessary to survive in the wild. Most domestic rabbits kept as pets can live up to 10 years, but the rabbits in the park live no more than three years. The rabbits breed, creating new generations of rabbits with a low quality of life, as they are often hit by cars, killed by predators, and infected with various illnesses.

There had been public comments at previous Council meetings from animal advocates who were distressed by the lack of attention to the abandoned rabbits, as well as the lack of community support for rescue organizations who were attempting to catch and care for the rabbits. In particular, volunteers at the animal rescue group Only Sunshine Sanctuary grew frustrated, as they felt that the problem was not being taken seriously.

Because the rabbits were abandoned domestic animals, Only Sunshine Sanctuary Founder Kristy Venrick-Mardon explained in an interview that they were legally within their rights to catch the rabbits and find homes for them. Unfortunately, they were often harassed by neighbors and visitors to the park who enjoyed seeing the rabbits. Venrick-Mardon said it was stressful for the volunteers because they wanted to ensure the rabbits lived long and healthy lives, which they were not able to do living wild in the park. In order to have community support, the volunteers needed the support of the City and the

Open Meeting on Rusch Park Amphitheater Scheduled

By Thomas J. Sullivan

CITRUS HEIGHTS, CA (MPG)

The public is invited to attend one of two open house meetings sponsored by the Sunrise Recreation and Park District to discuss the feasibility of the new Kathy Cook Amphitheater in Rusch Park in Citrus Heights where they can share their thoughts, questions and concerns.

Original wording on a flyer distributed by the Sunrise Recreation and Park District which describes the venue as a bandshell is incorrect, according to Sarah Hendricks, Citrus Heights Community Marching Band (CHCMB) band manager and board treasurer.

The first meeting will be held in person, Saturday, August 18 from 10 am to noon at Rusch Park, Room 1, 7801 Auburn Boulevard in Citrus Heights, said Wayne Edmundson, Interim District Administrator for the Sunrise Recreation and Park District. A virtual meeting via Zoom will be

held on Thursday, August 24 from 6:30 to 8 pm, he said.

The CHCMB was created by Kathy Cook in 2005 to serve as entertainment for the Annual Citrus Heights Red, White, and Blue Parade until its final parade in 2019. The community band grew into a year-round, all ages, all talents performing arts experience which performs 20 times a year in events such as parades, concerts, sports events and band competitions. She passed away on Aug. 25, 2021.

“In the letter the park district sent out to the neighbors, they (Sunrise Recreation and Park District) referred to it as a “bandshell,” Hendricks said. “We don’t know why. To me, a bandshell implies that only bands would be able to use the structure. In my opinion, the word amphitheater has a much broader scope of what it could actually be used for,” Hendricks said.

The new facility is in the early design and District approval stage, and a cost estimate for the project is

still in process, Hendricks said. The amphitheater will reside on the west end of Rusch Park near the historic Rusch home and Garden.

The District has hired Helix Environmental to conduct an approximately \$30K feasibility study, the results of which will be presented to the public at the in-person August 18th open house, Edmundson said. The cost of the study is being paid for by Bill Cook.

“We are excited to announce that our executive director, Bill Cook, will be designing and constructing a massive outdoor stage at Rusch Park in Citrus Heights, which will be dedicated in the memory of the founder of the Citrus Heights Community Marching Band, Kathy Cook,” Hendricks said when the project was first announced in 2022.

Cook is the executive director of the CHCMB and proposed an initial design rendering, Edmundson said.

“This feasibility study is just one of the

factors that the District’s Advisory Board will use to determine if it can move forward with adding an amphitheater to Rusch Park,” he said.

When complete, the District will manage the facility, Edmundson said.

The new amphitheater will be similar in purpose to the public band shell in Carmichael Park but will be twice the size.

Project construction will also include resurfacing and restriping the existing parking lot on the west end of Rusch Park and raising the height of baseball field fencing for public safety, Edmundson said.

“With the addition of The Kathy Cook Amphitheater, we will also be repaving the parking lot behind Rusch home off of Rusch Drive and Rosswood Drive, which will help with parking,” he said. “Also, with the increase of patrons using ride-sharing services, that will leave more parking spaces open for those who decide to drive there.”

According to CHCMB, there are endless

possibilities which the new Kathy Cook Amphitheater may be used for, including rentals.

CHCMB is accepting donations towards the cost of construction. To raise funds, the band is selling commemorative, personalized bricks that start at \$100 each.

“There’s ample space for at least 200 bricks to be placed on either side of the front of the stage,” Bill Cook said. “We plan to create two walking paths which connect the existing sidewalks to each side of the amphitheater, and we will also be lining the front of the stage and inner walls with brick.”

CHCMD Band Director Kody Tickner said in an email that the band is also actively seeking business sponsors and donors to offset the cost of the project. Cook said he expects the project to be fully funded by donors.

“For those who have concerns about noise, we plan to take decibel readings that will be monitored at the amphitheater’s initial events so that the noise

levels can be adjusted in the future,” Cook said.

“We are hopeful that all of the neighbors will find this to be a positive addition to their neighborhood, and bring the community together through music and entertainment,” Cook said.

“Kathy’s influence in the performing arts and events in Citrus Heights is tremendous,” Tickner said, “I hope for this to be a lasting tribute to her and to Bill’s contributions to our community.”

To learn more about the Citrus Heights Community Marching Band and its future events, or how you can purchase a commemorative brick, visit: www.chcmb.org/stage email info@chcmb.org or call (916) 879-6979.

The public may attend one of two open house meetings. The first one will be held in person, Saturday, August 18 from 10 am to noon at Rusch Park, Room 1, 7801 Auburn Boulevard in Citrus Heights. A virtual meeting via Zoom will be held on Thursday, August 24 from 6:30 to 8 pm. ★

New City Initiative to Restore Outreach to Homeless

By Thomas J. Sullivan

CITRUS HEIGHTS, CA (MPG) - The City of Citrus Heights announced on June 23rd a new partnership with Sacramento County to restore outreach services to area homeless individuals, following the end of the popular "Navigator" program.

The partnership involves the city partnering with the Sacramento County Department of Homeless and Housing and Sacramento Covered, with a goal to enhance outreach and navigation services for the homeless population in the city of Citrus Heights.

According to a city press release, the recent collaboration will seek to "build upon recent county efforts and leverage the expertise of Sacramento Covered in providing healthcare access and care coordination."

"Sacramento Covered utilizes classifications known as community health workers (CHWs) to deliver services and care coordination to persons experiencing homelessness in the Sacramento region, said Meghan Huber, CECD, the city's economic development and community engagement director.

City staff is currently drafting a memorandum of understanding (MoU) that will be considered by city council between the City, Sacramento County Department of Homeless Services and Housing, and Sacramento Covered to provide CHWs to deliver services and care coordination in the field to persons who are experiencing homelessness in the Citrus Heights area.

This draft memorandum will then be presented for consideration at the September 14th City Council meeting, Huber said.

"The recently announced new partnership builds on existing outreach and navigation service collaborations between Sacramento County and Sacramento Self-Help Housing to bring them to Citrus Heights," Huber said.

Following the dissolution of Sacramento Self-Help Housing and the affiliated Homeless Navigator service earlier this year, the city of Citrus Heights had to quickly seek alternative options to ensure the continuity of homeless outreach navigation services.

Huber said the city approached Sacramento County to explore a partnership which would combine their efforts and address the needs of un-housed individuals more effectively.

Under the plan, Sacramento Covered Community Health Workers (CHWs) will respond to calls during normal business hours of Monday through Friday from 8 am to 5 pm for assistance for unsheltered individuals living in the Citrus Heights area. These workers will accept referrals from the Citrus Heights Police Department staff and all program partners within the city.

"The CHWs will engage those experiencing homelessness by connecting them to supporting services, emergency shelter, interim housing and permanent housing," Huber said.

"The City of Citrus Heights and Citrus Heights Police Department previously contracted with the Homeless Navigator program through Sacramento Self-Help Housing to provide services to unhoused residents ready to accept help," Huber said.

"The program had involved bringing "Navigator" employees of the Sacramento Self-Help Housing, into the field with local police as well as directly liaising with individuals to provide services."

While the term 'Navigator' is now discontinued, Huber said, the community health workers who are operating under Sacramento Covered will work to enhance efficiency and consistency in delivering services and resources for un-housed residents.

All resources referred by navigators are still available since the dissolution of Sacramento Self-Help Housing and the Navigator program, just not currently through a direct liaison in the field.

The Citrus Heights Homeless Assistance Resource Team (HART) also remains an additional valuable resource for those unhoused individuals looking for assistance.

"I am very optimistic that this is going to come together, as it needs to," Citrus Heights Mayor Tim Schaefer said of the proposal during a recent council meeting, expressing hope that the partnership can be finalized in September. ★

police department, so they continued reaching out.

Police Services Manager Tiffany Campbell responded, and recently set up stakeholder meetings in the park with the CHPD Animal Services Unit, animal shelters, rescue organizations, animal advocates, veterinarians, and park administration to work together and find solutions. Campbell said, "We're extremely thankful for the opportunity and the partnership that was created. ... I'm really proud of this endeavor."

These meetings led to practical solutions, such as a planned public education campaign to explain the difference between true wild rabbits and these domestic feral rabbits. Signage at the park will increase public awareness, and encourage citizens to report any illegal dumping of domestic rabbits at the park. There will also be periodic scheduled rescue days for rescue groups to collect rabbits from the park to give them needed medical care as well get them spayed and neutered so they can be adopted.

As part of the new plan, Placer County Animals Services Shelter has agreed to spay/neuter 20 rabbits (a total cost of \$4,000). Only Sunshine Sanctuary has collected more than 100 rabbits from the park in the last two years, and most of

She said, "We're really proud of ourselves for not giving up on these rabbits." There are estimated to only be five rabbits left at the park, the hope is that the population can be kept under control with the new plan and those rabbits can all find homes in the future. ★

CSL Plasma Opens in Citrus Heights

The new CSL Plasma located at 7830 Macy Plaza is open Tuesdays through Saturdays.

Story and photos by Thomas J. Sullivan

CITRUS HEIGHTS, CA (MPG) - CSL Plasma at 7830 Macy Plaza across the street from Target and adjacent to the Dollar Tree store has opened.

The new Citrus Heights center is CSL Plasma's sixth plasma donation center in California, according to Rhonda Sciarra, director of communications for CSL Plasma, headquartered in Boca Raton, Florida. The center, open 9 a.m. to 6 p.m. Tuesdays to Fridays, and 8 a.m. to 4 p.m. Saturdays, is closed on Sundays and Mondays.

Sciarra said the Citrus Heights center had hoped to open early in 2023, but the planned opening date was moved back due to state licensing processes which needed to be completed.

CSL Plasma is a division of CSL Behring, a global biotech leader headquartered in King of Prussia, Pennsylvania. The company operates more than 300 CSL Plasma collection centers across the U.S. and overseas, according to its website.

Priscilla Tabarez, assistant center manager, provided a tour of the new Citrus Heights facility which features 34 individual donor stations.

Front counter CSL staff help new donors through the initial registration process before they are led to an individual donation screening section for their privacy.

A flyer which is provided to new donors in the reception lobby provides useful before and after donation advice. Another describes the general method of new donor payment fees throughout the month of July.

For adequate hydration, prospective donors in good health should consume 2-3 quarts of non-alcoholic fluids per day, avoiding alcohol and caffeine as they may contribute to dehydration, according to CSL donation literature. To avoid lipemic plasma (plasma with a high fat content), prospective donors are also urged to stay away from high fat foods before donation.

New donors are recommended to eat a light meal or snack and drink extra

fluids in the 24 hours after they donate.

Plasma is a straw-colored liquid which carries red blood cells, white blood cells and platelets. In the donation process, red blood cells are returned to the body in saline infusion.

"The proteins, antibodies, clotting factors and other nutrients in it also make plasma useful in treating those suffering from trauma, shock, burns or other emergencies that could happen to any individual," said Dr. Rachpal Malhotra, executive director, CSL head of plasma donor safety in a Zoom interview.

Plasma collected at the Citrus Heights CSL facility is used by its parent company CSL Behring for the sole purpose of manufacturing lifesaving plasma-derived therapies for people in more than 100 countries.

"There's a critical need for plasma throughout the world," Malhotra said. "Plasma is used to produce many life-saving therapies that treat diseases such as primary immunodeficiency, hereditary angioedema, inherited respiratory disease, hemophilia and other bleeding or neurological disorders, just to name a few."

The donation process typically takes not more than 90 minutes. No advance donor appointment is required, he said.

In early 2020, the 10,000-square foot CSL Plasma in Sunrise MarketPlace received an extensive refresh, with new added staff and donor parking spaces. The building, built in 2005, had been vacant since September 2019 when its former occupant Dimples Records closed.

Nearly 30 new full- and part-time jobs have been

created at the Citrus Heights facility, Sciarra said. General staff includes medical reception and support technicians, phlebotomists, nurses (LVNs, LPNs and RNs) as well as operations and quality management personnel.

A mature CSL Plasma center, operating for about three years, has the potential to provide nearly 50 full-time jobs in a local market, she explained. Annually, CSL Plasma contributes nearly \$6 million per center in employee payroll and average donor compensation, much of which is spent locally, she said.

To donate at a CSL Plasma collection center, donors must be in good health, between the ages of 18-74, weigh at least 110 pounds, have no tattoos or piercings within the last 4 months, meet eligibility and screening requirements, and also have valid identification and a permanent address, Sciarra said.

"CSL Plasma is proud to be a vital part of the communities where employees and plasma donors live and work," Sciarra said. "We're excited to continue our expansion on the West Coast and look forward to positively contributing to the greater Citrus Heights community as we have done throughout the country."

CSL Plasma donors receive a payment as part of the donation process. At the conclusion of the donation, the payment is loaded directly onto a reloadable card and is immediately ready for use. While fees vary by location, eligible, qualified donors can receive up to \$500 their first month for their donation of life-saving plasma.

takers and consumers. He's setting them both up for lifetimes of helplessness and ridiculous expectations without realizing it.

But yes, kids should absolutely learn to work, make money and manage it wisely from an early age. My wife and I gave nice gifts to our kids from time to time, but they also worked and made money for themselves. And the nicer gifts we gave them were for special occasions. Even then we didn't go crazy with things.

Still, the biggest problem you and your husband are experiencing is a communication breakdown. Your husband should stop being so impulsive, and grow a backbone where the kids are concerned. You've recognized this—and you're right about it—so it's up to you to take the first step in finding a solution.

Try sitting down with him, just the two of you, and sincerely explaining your feelings. Let him know you love him and how generous he is. But let him know, too, you're worried this is having a

negative impact on your children and why. Talk it out, openly and honestly, and try to agree on some changes together. There's a middle ground here, but it's going to take some time and effort from both of you to reach it.

Most of all, it means you two will have to communicate with each other like mature, caring adults, and pull together for the sake of your kids. It might be difficult at first, but it'll be worth it in the long run. For you and them.

Thanks, Kaytee!

Love Them Enough to Teach Them Well

Dear Dave,

My husband and I are having arguments about money where our children are concerned. They are both 16, and I think they should have part-time jobs and be learning the value of work. He feels they're only young once and wants them to enjoy being teenagers. He also gives them money anytime they ask. I want our kids to have fun, too, but this is beginning to cause tension in our relationship. I'd love your advice.

Dear Kaytee,

I understand your concern. I'm sure your husband has a good heart, but by doing this he's acting like a friend instead of a parent. In the process, he's allowing them to be nothing but

accountability. He also serves on numerous regional boards including the Sacramento Air Quality Board and the Regional Transit Board and is a strong advocate for public safety, quality of life, and government spending accountability. "Public Safety is the #1 responsibility of government. It is and will continue to be my #1 priority," said Daniels. "We all have an absolute right to feel and be safe in our lives. Our kids should be able to play in parks without concern or harm. Our communities should not look like third-world countries with broken down RVs and garbage everywhere."

Daniels emphasized the need to bring a stronger approach to minimizing homelessness by focusing on giving people a hand up instead of a handout, increasing mental health services and housing facilities, and prosecuting those that commit low-level crimes. "We get what we tolerate," said Daniels, "For too long, the negative aspects of homelessness, especially blight, have been tolerated. That needs to change. In Citrus Heights, we show compassion by offering people resources for housing and services, but we also take a firm stance on not allowing blight or ignoring low-level crimes. It's not perfect but it's a lot better than most places."

Daniels said his Top Three Priorities will be Public Safety/Homelessness, Transportation/Roads, and Taxes/Spending. "Nothing is more important than your safety and in today's world, that mostly centers around homelessness and our response to it. You should also be able to drive

down the street without hitting potholes big enough to chip your teeth," Daniels said, "We spend hundreds of millions of dollars on public transportation and other alternatives but nowhere near that on roads. That needs to change. And most importantly, we need to address these issues without asking for more dollars from hardworking families. I have successfully fought two efforts to raise taxes in Citrus Heights, I am a proud member of the Sacramento Taxpayer Association, and I pledge to oppose any effort to raise your taxes."

Daniels lives in Citrus Heights with his wife Nichole and their 6-year-old daughter. He has three adult children including his daughter Stephanie who is an Instructional Aid at Coyle School in Carmichael, his son Chris who is a Youth Pastor at Lakeside Church in Folsom, and son Brock who is a Corporal in the United States Marine Corps at Camp Pendleton. He has lived nearly his entire life in the district since moving to Citrus Heights when he was 12 years old. He has four granddaughters. Daniels is the Founding Member and President of Toys for the Troops Kids, a non-profit organization that has collected and distributed over 150,000 toys to the kids of our military troops during Christmas over the past 20 years. He has served as a PTA President and Little League Coach, is a United States Air Force veteran, enjoyed a 20-year law enforcement career including patrolling the streets of nearly the entire district, and is now retired. ★

The initial Annual Percentage Rate (APR) is currently 6.00% for a new Home Equity Line of Credit (HELOC), and is fixed for the first 5 years of the loan which is called the draw period. After the initial 5 year period, the APR can change once based on the value of an Index and Margin. The Index is the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of 10 years and the margin is 3.50%. The current APR for repayment period is 7.25%. The maximum APR that can apply any time during your HELOC is 15%. A qualifying transaction consists of the following conditions: (1) the initial APR assumes a maximum HELOC of \$200,000, and a total maximum Loan-to-Value (LTV) of 70% including the new HELOC and any existing 1st Deed of Trust loan on your residence; (2) your residence securing the HELOC must be a single-family home that you occupy as your primary residence; (3) if the 1st Deed of Trust loan is with a lender other than El Dorado Savings Bank, that loan may not exceed \$300,000, have a total maximum Loan to Value (LTV) of 65% and may not be a revolving line of credit. Additional property restrictions and requirements apply. All loans are subject to a current appraisal. Property insurance is required and flood insurance may be required. Rates, APR, terms and conditions are subject to change without notice. Other conditions apply. A \$525 early closure fee will be assessed if the line of credit is closed within three years from the date of opening. An annual fee of \$85 will be assessed on the first anniversary of the HELOC and annually thereafter during the draw period. Ask for a copy of our "Fixed Rate Home Equity Line of Credit Disclosure Notice" for additional important information. Other HELOC loans are available under different terms.

County Recognizes Resource Families at Appreciation Picnic

Sacramento County News Release

SACRAMENTO COUNTY, CA (MPG) - Sacramento County's Department of Child, Family, and Adult Services (DCFAS) hosted its first post-pandemic Resource Family Appreciation Picnic. The last time the event was held was in 2019. On Saturday, July 22, staff took time out of their weekend to show their support and gratitude to dozens of resource families at the picnic. Over 70 staff members volunteered at the event, which took place at William Land Park.

There were kids' activities, games, and raffles during the picnic. DCFAS provided meal and dessert tickets for food trucks and families were given tickets to the Sacramento Zoo, Funderland, and Fairytale Town. Several community partners also attended the event and provided information and educational materials to families.

Resource Families, also known as foster families, provide loving homes to children who are unable to be safely maintained with their parents. While reunification is always the primary goal, many resource families also provide legal permanency for children when reunification cannot be achieved.

Sacramento County recognizes the tremendous contributions of resource families and all the ways they make a difference for the children and families in our communities.

"The impact our Resource Families make on the lives of the children and youth we serve is immeasurable. They are both a safety net and a bridge for healing and are often our greatest facilitators of change. We appreciate our partnership with our Resource Families on behalf of all efforts being made for the kids and families we serve," says Sacramento County's Deputy Director of Child Protective Services Melissa Lloyd.

The picnic celebrated current resource families, however, DCFAS also wants to take this opportunity to acknowledge the need for more families to provide this critical service. While there are many homes in the community prepared to care for very young children, the areas of most need are for our adolescent and teen populations, as well as for sibling sets and children with medical needs. The Sacramento County Resource Family Approval (RFA) program offers training, support, and guidance to resource families. Learn more on our Resource Family Website. ★

Proposals In California Legislature Would Encourage Government Secrecy

By Dan Walters, CALMatters.org

Bill McEwen, a columnist for San Joaquin Valley news site GV Wire, posed several of what he considered to be routine factual questions to the state Department of Public Health last week about a mysterious laboratory discovered in the small town of Reedley.

The laboratory, in an abandoned warehouse, contained mice, biological fluids and samples of dreaded diseases including HIV, malaria and COVID-19. Federal and state investigators are delving into the situation, which surfaced when a city building code inspector noticed a hose snaking out of a wall in the warehouse.

McEwen wanted to know how the department oversees laboratories, how often they are inspected and how illegal labs get discovered. But he got nowhere. Department officials refused to answer even the most basic operational questions and told McEwen to search their website to find answers.

"Administration of @GavinNewsom has zero commitment to transparency," McEwen tweeted in frustration.

It was an example of what reporters and others have increasingly experienced in recent years as they attempt to decipher what politicians and bureaucrats are doing.

It's not hyperbole to say that a wall of secrecy has been erected around the state Capitol and the surrounding complex of buildings housing state agencies.

It was beginning to happen before COVID-19 struck the state in 2020 but it worsened during the pandemic as Gov. Gavin Newsom wielded emergency powers that suspended many of the "sunshine laws" governing open meetings, open records and other forms of access.

Newsom and other officials became used to operating out of public view and even after the pandemic eased, they continued the same practices.

The post-pandemic syndrome manifests itself not only in politicians and other officials seeking to avoid the give-and-take of direct questioning by reporters, as McEwen learned, but in the proliferation of meetings that are accessible only via internet.

California's First Amendment Coalition, which attempts to preserve access to governmental records and meetings, may be fighting an uphill battle as the Legislature moves several measures that would reinforce closed door government, to wit:

- Senate Bill 544, which passed the Senate on a 26-3 vote and now pending in the Assembly, would amend the state Bagley-Keene Open Meeting Act, which governs state boards and commissions, by permanently allowing them to conduct meetings without in-person attendance, allowing only internet or telephonic access by the public.

- Senate Bill 537, also pending in the Assembly after 32-8 Senate approval, would amend the Ralph M. Brown

Act, which governs local governments, to similarly allow "multi-jurisdictional, cross-county local agencies with appointed members" to meet via teleconference "without posting agendas at each teleconference location, identifying each teleconference location in the notice and agenda, making each teleconference location accessible to the public, and requiring at least a quorum of the eligible legislative body to participate from within the local agency's jurisdiction..."

- Senate Bill 411, approved by the Senate on a 30-5 vote and also pending in the Assembly, would allow such teleconference meetings by "neighborhood councils" without in-person access and is specifically aimed at 99 such bodies in Los Angeles.

GINNY LaRoe, advocacy director of the First Amendment Coalition, captured the essence of these measures in her comment on SB 544: "SB 544 rewrites the Bagley-Keene Open Meetings Act to allow officials serving on any state body - think CPUC, POST, State Bar and many more - to never again show up in person to a physical meeting location. This is government by telephone."

The three bills have garnered a string of critical newspaper editorials - reflecting the fact that journalists are particularly affected by creeping official secrecy - but they nevertheless continue to advance.

In California, sunshine is giving way to darkness.

Dan Walters has been a journalist for more than 60 years, spending all but a few of those years working for California newspapers. ★

FBI Announces Results of Local Operation Tied to Nationwide Sex Trafficking

FBI Press Release

SACRAMENTO, CA (MPG) - The Federal Bureau of Investigation (FBI) Sacramento Field Office, working with its state and local partners, identified, and located two victims of sex trafficking during a nationwide enforcement campaign, called "Operation Cross Country." The FBI-led nationwide initiative, in partnership with the National Center for Missing and Exploited Children (NCMEC), focused on identifying and locating victims of sex trafficking and investigating and arresting individuals and criminal enterprises involved in both child sex and human trafficking. Law enforcement agencies conducted targeted operations to identify and apprehend offenders, dismantling criminal networks and preventing further harm to victims. Those suspects identified will be subject to additional investigation for potential charges.

In the greater Sacramento area, FBI agents worked collaboratively with law enforcement partners from Sacramento Police Department, Sacramento County Sheriff's Office, California Department of Justice, Sacramento County District Attorney's Office, Yolo County District Attorney's Office during the two-week

operation. Two adolescent victims and more than a dozen adults who are possible victims of human trafficking were identified during the operation were provided access to services coordinated by operational partner Community Against Sexual Harm (CASH). Five individuals were also arrested for charges related to commercial sexual exploitation.

"The FBI's primary focus is ensuring every possible victim of commercial sexual exploitation has the opportunity to connect with service providers and move beyond the cycle of exploitation and violence," said Special Agent in Charge Sean Ragan of the FBI Sacramento Field Office. "We are grateful for the support of our law enforcement partners to provide the victims of human trafficking with the dignity they deserve and ensure their exploiters face justice."

The FBI remains steadfast in its commitment to combatting child exploitation and human trafficking. Operation Cross Country is just one facet of the Bureau's ongoing efforts to protect the most vulnerable members of society and hold offenders accountable. The FBI encourages continued vigilance, cooperation, and reporting from the public to help identify and recover victims and bring perpetrators to justice. ★

Notice to Readers

California law requires that contractors taking jobs that total \$500 or more (labor and/or materials) be licensed by the Contractors State License Board. State law also requires that contractors include their license numbers on all advertising. Check your contractor's status at www.cslb.ca.gov or 800-321-CSLB (2752). Unlicensed persons taking jobs that total less than \$500 must state in their advertisements that they are not licensed by the Contractors State License Board.

NOTICE OF PETITION TO ADMINISTER ESTATE OF EVA JO SANTOS

CASE NO. 34-2021-00312114
To all heirs, beneficiaries, creditors, and contingent creditors of and persons who may be otherwise interested in the will or estate, or both, of Eva Jo Santos.

A Petition for Probate has been filed by Devin Klicker, in the Superior Court of California, County of Sacramento, requesting Devin Klicker be appointed as personal representative(s) to administer the estate of the decedent.

The petition requests authority to administer the estate under the Independent Administration of Estates Act. (This authority will allow the executor to take many actions without obtaining court approval. Before taking certain very important actions, however, the executor will be required to give notice to interested persons unless they have waived notice or have consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

A hearing on the petition will be held in this court as follows August 16, 2023, 9:00 a.m. in Dept 129; Superior Court of California, County of Sacramento, William R. Ridgeway Family Relations Courthouse, 3341 Power Inn Road, Sacramento, CA 95826.

IF YOU OBJECT to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

IF YOU ARE A CREDITOR or a contingent creditor of the deceased, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58(b) of the California Probate Code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code. Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California law.

YOU MAY EXAMINE the file kept by the court. SMUD Named Nation's Most Sustainable Utility by J.D. Power Index

SMUD News Release

SACRAMENTO REGION, CA (MPG) - SMUD ranked first in the 2023 J.D. Power Sustainability Index, a comprehensive evaluation of the nation's largest electric utilities' customer awareness, engagement and advocacy related to their local climate sustainability programs and goals.

Drawing from established J.D. Power customer satisfaction and environmental metrics, the index includes 35 of the largest U.S. electric utility companies with 500,000 or more residential customers, serving as an industry benchmark to assess the utility's standing as a climate leader.

"SMUD is setting the standard for environmental leadership and utility service excellence," said CEO and General Manager Paul Lau. "SMUD is taking sustainability to the next level with our industry-leading goal to remove all carbon emissions from our power supply by 2030. We're delivering on that goal in a way that maintains reliability, keeps rates low, enhances our electric programs and services, and benefits our diverse communities. As we responsibly progress toward a clean energy future, SMUD is unwavering in our commitment to world-class reliability and continuing to keep SMUD's rates among California's lowest. This recognition underscores our decades-long commitment to environmental leadership and innovation, which continues to power the Sacramento region forward."

SMUD is completely transforming the Sacramento region's power supply and supporting electrification of buildings and transportation for a clean energy future and economy. SMUD's 2030 Zero Carbon Plan is a comprehensive blueprint

to achieve regional decarbonization, sustainability and an energy transition that leaves no community behind. The plan is among the most aggressive decarbonization initiatives of any major utility in the nation and centers on several key strategies, including:

Substantial increases in renewable energy sources, battery storage and related technologies; Adoption of zero carbon innovation to engage the wider community in carbon-reducing activities; Retirement of thermal plants; Strategic partnerships to optimize costs and maintain competitive rates, and; Workforce development programs and education opportunities that support clean energy careers.

Through a long-standing commitment to community connection and engagement, SMUD cultivates innovative pathways for customers to lower utility costs and actively participate in reducing their carbon footprint. Building on our unwavering support for EV adoption that started decades ago, SMUD continues to be a driving force for positive change, collaborating closely with customers. Through an array of SMUD programs, including virtual power plants, managed-EV charging solutions, electrification incentives, residential and commercial workshops on emerging energy technologies, EV test-drive forums and a variety of related initiatives, all communities are invited to actively participate in shaping a greener future.

In 2022, SMUD became the first recipient of J.D. Power's Power Certified Sustainability Leader designation, which acknowledges SMUD's outstanding customer service and ambitious vision of achieving a carbon-free power supply by 2030. ★
