BOARD OF DIRECTORS
SANDAG

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

CRIME IN THE SAN DIEGO REGION MID-YEAR 2015 STATISTICS

INTRODUCTION

Since 1980, SANDAG has been compiling and reporting regional crime statistics for San Diego County and remains the only local source for regional statistics not available at the national level. This summary presents information regarding how many and what types of Part I crimes were reported to local law enforcement in the first half of 2015 and how these numbers compare to prior years. These data are useful to local law enforcement agencies as they track the effectiveness of their prevention and response efforts on jurisdictional and regional crime rates.

In interpreting these mid-year figures, it is essential to note that because of changes in how rape is defined by the FBI, **comparisons across time for rape and violent crime overall should not be made.** Specifically, in 2015, California law enforcement agencies began to use the new and broader Uniform Crime Reporting (UCR) definition of rape that includes male victims, sodomy, penetration with any body part or objects, and no longer requires force. As a result of this change, some Part I crimes that previously would have been aggravated assaults are now rapes and some Part II crimes that previously would not have been captured in these statistics are now Part I crimes. Additional discussion of how the number of rapes reported across the region has changed are included later in this bulletin.

In addition, with the passage of AB 109 (Public Safety Realignment) in October 2011 and Proposition 47 in November 2014, there has been speculation regarding the effect on crime rates, both in the short- and long-term. While definitive conclusions are not possible based on the crime data presented here, a discussion of how crime rates compare is provided as stakeholders continue to strive to maintain public safety and reduce recidivism for ex-offenders.

HIGHLIGHTS

Compared to mid-year 2014, there were a greater number of homicides (39 to 43) and robberies (1% increase). The number of aggravated assaults was down 6 percent at mid-year 2015, which could be related in part to the change in how rapes were defined. The number of domestic violence incidents was up 4 percent.

Across the property crime categories, burglaries were down during the first six months of 2015 by 13 percent, with equitable decreases in both the residential (-11%) and non-residential (-15%) categories. Motor vehicle thefts were also down, though to a smaller degree (-5%). Larcenies were up (4%).

VIOLENT CRIME

- A total of 5,335 Part I violent crimes were reported to local law enforcement agencies in the region between January and June 2015 (Tables 1 and 6), an average of 29 per day (not shown). Part I violent crimes include homicide, rape, robbery, and aggravated assault. As noted earlier, the total number of violent crimes now includes incidents that would have previously been categorized as Part II prior to the change in how rape is defined.

- There were 43 homicides in the first half of 2015, an increase of 10 percent from mid-year 2014 when 39 occurred (Tables 1 and 8). Additional information about what is known to date regarding these homicides is provided in the "Insights" section that follows.

- There were 511 rapes reported to law enforcement in San Diego County in the first half of 2015 using the new UCR definition (Table 1). According to analyses by ARJIS, this represents an increase of approximately 45

percent from the number that would have been reported if the old definition was still in place, with 72 percent of the newly categorized crimes representing ones that would have been Part II offenses previously and 28 percent that would have been aggravated assaults (not shown).

- The number of robberies reported across the region increased 1 percent from mid-year 2014 (1,331) to 2015 (1,338) (Tables 1 and 8).

- The 3,443 aggravated assaults reported during the first six months of the year represented a 6 percent decrease from the prior year (Tables 1 and 8), a change that is related at least in part to the change in the rape definition, previously described. However, there were 8,633 domestic violence incidents reported, which include aggravated assaults and other offenses (both violent and property), an increase of 4 percent from the 8,326 reported in the first half of 2014 (not shown).

INSIGHTS: HOMICIDES

In the first half of 2015, there were 43 homicides across the San Diego region, with 17 reported in San Diego, 10 in Sheriff's jurisdictions, 6 in Oceanside, 5 in Escondido, 2 each in La Mesa and Chula Vista, and 1 by the Harbor Police.

Figure 1 shows the number of homicides that were documented by law enforcement by month in 2014 and 2015 across the County.

Figure 1
NUMBER OF HOMICIDES BY MONTH FOR THE SAN DIEGO REGION
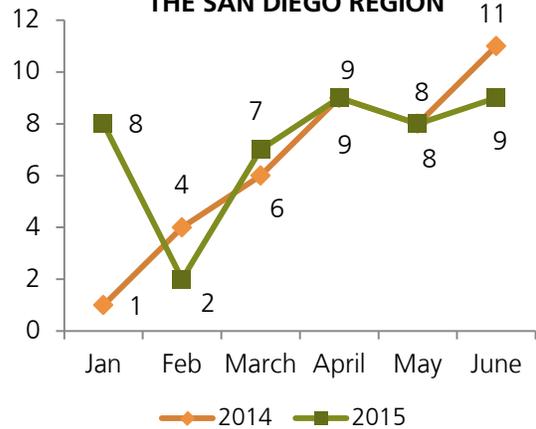

- For the 34 homicides where motive could already be determined, 44 percent involved an argument, 35 percent a domestic violence incident, 15 percent gangs, 3 percent child abuse, and 3 percent robbery. Compared to mid-year 2014, a greater percentage were related to domestic violence (18% in 2014) and a smaller percentage were gang-related (27% in 2014).

- A greater proportion of the victims were 40 years of age or older in 2015 (58%), compared to 2014 (41%). In addition, a greater proportion of victims were White in 2015, compared to 2014 (51% versus 36%).

- For the 43 homicides where a location was identified, 60 percent occurred at a residence, 19 percent on a street or in a parking lot, and 21 percent in other locations (that included commercial areas, public use areas, and vehicles).

- For the 40 homicides where a weapon could be determined, 58 percent involved a firearm; 23 percent a personal weapon (hands, feet, etc.), blunt object, or gasoline; and 20 percent a knife or other sharp object.

- For comparison purposes, the population of the San Diego region is 3.19 million and there were 39 homicides at mid-year 2014 and 43 at mid-year 2015. The City of Los Angeles has a population of 3.88 million and had 135 homicides at mid-year 2014 and 126 at mid-year 2015.
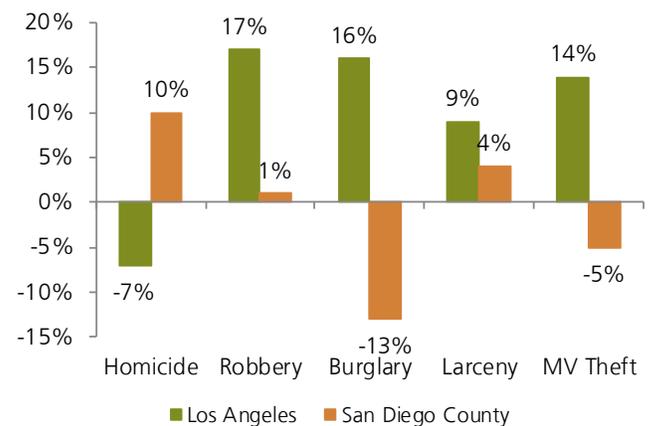

SOURCE: SANDAG and LAPD, 2015

PROPERTY CRIME

- A total of 30,449 property crimes were reported to local law enforcement agencies in the first half of 2015 (Tables 1 and 7). Sixty-eight percent (68%) were larcenies, 16 percent burglaries, and 16 percent motor vehicle thefts (not shown).

- The 5,021 burglaries reported in the San Diego region in the first half of 2015 represented a decrease of 13 percent from the first half of 2014 (when there were 5,774). Both residential and non-residential burglaries decreased to a similar degree (-11% and -15%, respectively). Sixty-three percent (63%) of burglaries in the first half of 2015 were residential (Tables 1 and 8).

- The number of larcenies reported in the region at mid-year 2015 (20,651) represented a 4 percent increase from mid-year 2014. Both petty theft (estimated value of items stolen $400 and under) and grand theft increased (by 3% and 4%, respectively) (Tables 1 and 8)

- Motor vehicle theft decreased from mid-year 2014 to 2015. The drop from 5,003 vehicles stolen in 2014 to 4,777 in 2015 represented a 5 percent decline (Tables 1 and 8).

- There were 195 arsons reported by law enforcement in the first half of 2015, down from 216 the first half of 2014, a decrease of 10 percent (Tables 10 and 11).

HOW DOES SAN DIEGO COUNTY COMPARE?

Across the country, there have been reports of rising crime rates in some jurisdictions, while others have seen some declines or little change. As of September 2015, the most recent published crime statistics were only available through December 2014, limiting mid-year comparisons that could be made to other jurisdictions within and outside California. However, the City of Los Angeles recently published its mid-year 2015

crime statistics, and a comparison of their reported mid-year change to San Diego County is presented in Figure 2 for the five of the seven Part I crime types not affected by the rape definition change. As this figure shows, with the exception of homicide, there were increases in Los Angeles for each of the crime types and the changes were of a greater magnitude, compared to San Diego County. While standardized definitions are used to categorize the crimes, it is possible that unplanned variation across jurisdictions or over time could account for some of the differences. However, these statistics are provided for comparison since they were distributed by Los Angeles and generated discussion regarding the possibility of a forthcoming crime trend. SANDAG will continue to work with its partners to maintain crime statistics and interpret them within the context of policy changes and practices at the local, state, and national level.

Figure 2
MID-YEAR CRIME CHANGES FOR THE CITY OF LOS ANGELES COMPARED TO SAN DIEGO COUNTY

SOURCE: SANDAG and LAPD, 2015

BACKGROUND

The ability for SANDAG to analyze data and produce reports on crime trends for the region relies upon a cooperative agreement with each local law enforcement agency. SANDAG obtains crime data from every agency on a monthly basis, allowing the presentation of regional crime data in a timely manner.

Crimes are categorized according to the FBI's standardized Uniform Crime Reporting (UCR) guidelines for law enforcement agencies across the country. Reported crimes are tallied in ARJIS according to the date of data entry, which may or may not reflect the day of occurrence. It should be noted that while local law enforcement agencies strive to tabulate their statistics in a timely fashion, data entry delays sometimes occur, which may affect statistics.

The mid-year crime rates per 1,000 residents are estimated by multiplying the number of crimes reported between January and June by two and dividing that number by the population which has been divided by 1,000.

The statistics presented in this CJ Bulletin include crime rates and numbers for San Diego County and individual jurisdictions for the first half of 2015. Comparisons are made to prior years. The number and type of crimes that are reported can be influenced by several factors, including the degree of opportunity to commit crimes in a given jurisdiction, which can be related to the amount of commercial land use and ease of access to the area.

Crime statistics for January through December 2015 are expected to be available in April 2016. If you have any questions about these numbers, please contact the Criminal Justice Research Division at (619) 699-1900. For more information about the SANDAG Criminal Justice Clearinghouse, please visit our Web site at sandag.org/cj.

NOTES: The FBI Crime Index includes homicide, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. The definition of rape changed in 2015, limiting the ability to make valid comparisons to prior years. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category also included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area. "Unincorporated" includes 4S Ranch, Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas for which crime data are not individually shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista). The annualized crime rate per 1,000 population reflects the number of incidents reported in the first six months of the year, times two, divided by the population which has been divided by 1,000. Populations used to compute crime rates reflect the most current finalized California Department of Finance estimates, January 2014.

TOTAL FBI INDEX PROPERTY	**19.89**	**19.21**	**19.06**	**-4%**	**-1%**

NOTES: The FBI Crime Index includes homicide, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category also included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area. "Unincorporated" includes 4S Ranch, Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas for which crime data are not individually shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista). The annualized crime rate per 1,000 population reflects the number of incidents reported in the first six months of the year, times two, divided by the population which has been divided by 1,000. Populations used to compute crime rates reflect the most current finalized California Department of Finance estimates, January 2014.

NOTES: The FBI Crime Index includes homicide, rape, robbery, and aggravated assault in the violent category and burglary, larceny, and motor vehicle theft in the property category. The California Crime Index (CCI) includes all FBI Index crimes except larceny. "Sheriff-Total" includes the contract cities and the unincorporated area served by the Sheriff, as well as crimes reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that occurred in a city not served by the Sheriff or a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category also included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area.

NOTES: The FBI Crime Index includes homicide, rape, robbery, and aggravated assault in the violent category and burglary, larceny, and motor vehicle theft in the property category. The definition of rape changed in 2015, limiting the ability to make valid comparisons to prior years. The California Crime Index (CCI) includes all FBI Index crimes except larceny. "Sheriff-Total" includes the contract cities and the unincorporated area served by the Sheriff, as well as crimes reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that occurred in a city not served by the Sheriff or a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area.

TOTAL	**3,115,810**	**3,194,362**	**3%**

NOTES: Populations used to compute crime rates reflect the most current finalized California Department of Finance estimates, January 2014. "Sheriff-Total" includes contract cities and the unincorporated area served by the San Diego County Sheriff's Department. Camp Pendleton population is excluded from Sheriff's unincorporated area and included in the region total. "Unincorporated" includes 4S Ranch, Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas not shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista).
