“It’s a family recipe that’s tried and true. It all started with Bonnie Sterzer’s recipe. She passed it to Elisabeth nearly 30 years ago, and with a few personal adjustments to make it her own, it became the most amazing, scrum-diddly-umptious caramel corn around. After years of making it for friends and family, parties and late night much-fests, Chico Pops was born.

We are now sharing new gourmet creations, also made in small batches, that we hope you share with your family generations to come.

At Chico Pops, we use no GMO in our popcorn or sugar. Our kernels are of the highest quality, and our bags of popcorn are not full of hulls or un-popped kernels.”

Enjoy the Store, Redding carries all four types of Chico Pops popcorn, including their caramel corn, kettle corn, Chico style and southwestern style.

To learn more about Chico Pops, visit www.chicopops.com or call 1-844-GOT POPS or (530) 895-1290. You can also connect with them on Facebook.
