FOCUS ON WATER AND INFRASTRUCTURE

California American Water is focused on ensuring you have high-quality, reliable water service 24/7. We consistently maintain, upgrade and replace needed infrastructure. May brings Water Awareness Month and is an especially relevant time to recognize the importance of water service. In addition to Water Awareness Month, the following water-related events are celebrated across the country:

- Drinking Water Week (May 5–11)
- Infrastructure Week (May 13–20)
- Public Works Week (May 19–25)

In honor of these events, California American Water looks back on our recent achievements in improving our San Diego district's infrastructure:

- 👑 Relocated 8,500 feet of 16-inch water main within the Strand.
- 👑 Replaced 900 feet of 16-inch water main on Palm Avenue in Imperial Beach.
- 👑 Upgraded the SCADA system by replacing PLCs and installing cellular antenna.

Committed to Our Customers

At California American Water, our customers are our number one priority. From maintaining and investing in water infrastructure, to ensuring you have reliable and high-quality water service, to providing helpful water- and money-saving tips, we work hard to keep life flowing.

**INFRASTRUCTURE.
ONE MORE WAY
WE KEEP LIFE FLOWING.**
