A message from our mayor

The start of something new brings the hope of something great. Anything is possible.

~Author Unknown

Every New Year's Eve, Cathy and I open our home as we welcome many of our good friends, asking them to join us in celebrating the new beginnings that we are all afforded as we enter a new year. While I have always embraced the thought of what a new year can bring, my thoughts during those few minutes prior to midnight always turn to the events of the year that we are saying goodbye to, and how those events impacted my life as well as the lives of my family and friends.

For me, 2019 was a year of dreams come true, as I planned for, worked for and won your trust and your votes as your new mayor. While the campaign had some low points, I found out how much I really loved our Darien community, as I visited with several thousand of you on my door-to-door visits, fundraising events and evening gatherings at the homes of several of my closest supporters. So many of you gladly welcomed me into your homes, introduced me to your families, and made me feel like I was a part of your family. If I had not won the election, I gained so many fond memories by meeting so many wonderful people.

While I served Ward 5 as alderman for 22 years, and I thought I was really in tune with the needs of Darien's residents, little did I know how wrong I was in assuming that I knew our city. I learned during the campaign, as I visited with residents from every ward, that our city is a composite of different neighborhoods, from the Marion Hills area on the east side of town to Farmingdale Village on our western border. Each neighborhood is unique and while the needs and concerns of all of you varies from one area to another, each of you expressed a love for this "nice place to live," and how we, your elected officials need to work toward maintaining the

quality of life that serves as your reason for making Darien your home.

As your mayor, I have not forgotten that message, and as I give thought to my work, I know that I must work every day to insure that we are providing the best services to all of our residents. When I am out in public, I often times run into people who take the time to wish me well and to remind me of their hopes and dreams for our community. I walk away from these brief encounters feeling a greater sense of responsibility, knowing that so many people count on those of us at the city and myself as mayor to hold ourselves accountable for the betterment of our community.

I want to assure all of you, that as we enter 2020, our 51st year as a city, that we will work diligently on your behalf, we will face new challenges, knowing that each day is a new beginning. As I welcomed in the New Year with my family and my friends, I not only reflected on the past year, I thought of the possibilities that the future held for all of us. I have dreams for our city; dreams that I hope will coincide with and fulfill your dreams for a brighter future.

My hope for all of you and for our city is that as 2020 unfolds each of us can make good memories each day, knowing that "the start of something new brings the hope of something great, Anything is possible!"

Happy New Year!

Carbon monoxide problems increase along with snowfall

Local fire departments see an increase in the number of carbon monoxide incidents and detector activations during high snowfall, due to snow accumulation and buildup.

These types of incidents are a common problem when there are high snow drifts that block furnace vents and air intakes in some homes—predominantly homes that have newer, high-efficiency furnaces. These systems typically vent through the sill plate of a home, close to ground level through white PVC piping. Drifting snow has

the potential to block these vents, causing the furnace or water heater to stop operating. Some newer high-efficiency furnaces have automatic shutoffs that shut down a furnace when the vents are blocked, but many furnaces don't. If they fail to shut down, carbon monoxide may back up in a home.

After any snowfall, it is important to inspect the area around the furnace and hot water heater vents to ensure that snow and ice are not blocking the safe operation of these fuel-burning devices. Vents and

intake pipes should have a 3-foot clearance from snow, shrubs or other obstructions. Water heaters and dryer vents also should be cleared of snow to prevent possible carbon monoxide poisoning.

State law requires that all residential occupancies have carbon monoxide detectors installed by the property owner. More information regarding state statute requirements can be found at ilga.gov/legislation/publicacts/94/094-0741.htm.

Please help us keep fire hydrants clear of snow

Large snowfall can hide fire hydrants and make them difficult to find during an emergency. The City encourages residents to clear fire hydrants nearest their residence or business of snow. Firefighters need at least a three-foot clearance on all sides of the hydrant, including a pathway to the hydrant from the street.

By taking a little time to clear a hydrant you are helping the fire department, your neighbors and yourself in the event of an emergency. The local fire departments and city personnel also assist in clearing hydrants. If you have identified a snow buried fire hydrant and are unable to assist, please call City of Darien Municipal Services at 630-353-8105.

Be smart and don't become an easy target—lock your car doors!

Residents are reminded to lock their cars and take or hide valuables in the trunk so they don't create an easy target for burglary and theft. Police call most car break-ins a crime of opportunity. Criminals walk through the neighborhood and parking lots looking for items to steal with the goal of finding vehicles that are unlocked. The large percentage of car break-ins in the Chicago metro area are done to vehicles that are unlocked.

Don't let the criminals win, lock your car doors!

City of Darien winter parking regulations in effect

There is no parking allowed on city streets during a snow event when snow or ice exceeds one inch.

Snowplows and other emergency vehicles must have access and ability to pass down streets; parked vehicles in the roadways inhibit these vehicles and block visibility. In snow emergencies snowplows are able to more efficiently clear your street without parked vehicles obstructing the process.

We thank you for your cooperation and support!

Cards can be purchased for \$1 at Downers Grove Township office located at 4340 Prince St. in Downers Grove.

Guardian Program

Sheriff Mendrick encourages every senior citizen in DuPage County to register with the Guardian System, a free service designed to ensure the well-being of seniors as well as the physically and mentally disabled in the county.

Guardian is a computerized phone system that calls registered members on prearranged days and times to verify that they are okay. If the member does not respond to the telephone call by entering a four-digit code on their telephone, an alarm sounds and a police dispatcher will attempt to reach the member via telephone.

If still unsuccessful, a previously designated neighbor or family member will be contacted. If the emergency contact cannot be reached, a deputy will be sent to the member's home to make sure everything is okay.

Guardian is available to DuPage County residents who are over the age of 62 or physically or mentally disabled and live alone. To register for the Guardian Program you may call the sheriff's office at 630-407-2400 to have an application mailed to you. Applications may also be picked up at the DuPage County Sheriff's Office, 501 N. County Farm Rd., Wheaton, or at any township office.

Home Maintenance

The DuPage Senior Citizen Council Home Maintenance Program is available for senior citizens in DuPage County. This program provides affordable repair services so seniors can maintain the safety and value of their homes. For more information call 630-620-0804 (press 0).

Meals on Wheels

DuPage Senior Citizen Council Meals on Wheels serves seniors in need and are unable to shop, prepare meals, or attend a Senior Dining Center. Call 630-620-0804 (press 1) for home delivered hot/cold meals.

Real Estate Tax Relief

Darien senior citizens should contact the Downers Grove Township Tax Assessor's Office to see if they qualify for any real estate tax relief through several programs.

Minimally, these programs require that you be 65 years of age, meet income guidelines, own and occupy your home, and are liable for the payment of your real estate taxes. Call the Downers Grove Township Tax Assessor's Office to see if you qualify and for an application 630-719-6630.

Subsidized Housing

There are federally funded programs that help people with low incomes to afford safe and decent rental housing. Call 630-690-3555 to see if you are eligible for a rent subsidy.

State of Illinois Benefit Access Program (formerly Circuit Breaker)

Call the Illinois Department on Aging (IDOA) at 800-252-8966 or 1-888-206-1377 (TTY). Have your Social Security number ready when you call.

A warning about unsafe ice

DuPage County Forest Preserve District is warning outdoor enthusiasts to be cautious about stepping out onto the ice. As ice melts and refreezes during late winter it may become porous, weak and unable to support activity regardless of its thickness. Look for cracks, ridges or faults in the ice; differently colored ice (especially dark gray or black); open water in the center

of an otherwise frozen lake; ice that looks rotten or porous; and ice covered by water or slush for signs that the ice might be unsafe.

In any outdoor emergency, call 911 for help. To reach Forest Preserve District of DuPage County police, call 630-933-7240.

Prevent water lines from freezing

All residents should take precautions to keep water supply lines in your homes from freezing during extreme cold. You should let the water trickle in plumbing lines or fixtures that face north or west exterior walls. This helps to prevent water from freezing within the wall.

Stock market update

The U.S. has not been alone in reaching new market highs

by Angelo R. Imbrogno

As we write this article the year end is approaching and the stock market is on pace for gains over 20% for 2019 (based on the S&P 500 Index). From a technical point of view we remain bullish on our outlook for the markets and expect further gains in the new year. Volatility and short term declines could be present as not only we have an election year ahead but the tariff situation with China remains unresolved. However, any pullbacks in the markets will face several different levels of technical support that could act a buffer and halt any market declines.

The U.S. has not been alone in reaching new market highs, as several other countries have stock

markets hitting all-time highs as well (Canada, India, Brazil, Switzerland). Unlike the previous year where our market was alone when it reached its high point for that year, this year we experienced a broad global push to higher markets. This strong performance in the international markets is well reflected in the double digit growth reported in the MSCI EAFE Index and MSCI Emerging Market Index.

Large-cap stocks this year were also joined by mid-cap and small-cap stocks in their strong rally into the year end. Both sectors had lagged previously and this movement signifies an optimistic market environment going forward. ●
