## Fisher-Price® Thomas & Friends™ Talking Thomas & Percy Train Set Ages 3+

This highly detailed playset features favorite places from the island of Sodor, including the Vicarstown Bridge, the

Railyard, the Brendam docks, and Blue Mountain. It also includes motorized Thomas and Percy train engines who recognize and talk to each other when they meet on the track!

Young conductors can help Thomas and Percy work together by dropping boulders down in the Blue Mountain cave for them to load and unload along with other cargo at Bulstrode the boat and by creating their own exciting adventures all around Sodor.

## Fisher-Price® Laugh & Learn Grow-the-Fun Garden to Kitchen™ Ages 18–36 months

Toddlers can first plant and pick, then prep, plate and eat their home-grown meals in this interactive Garden-to-Table. Includes more than 30 removeable pieces and 125 songs, sounds, tunes and phrases with light up “juicer” activating phrases, songs, and sounds.

Featuring Smart Stages technology with three levels of learning content that grows with your toddler:

- Level 1 – Teaches about letters, shapes, colors & more
- Level 2 – Prompts toddlers to explore and find objects
- Level 3 – Encourages toddlers to sing along as they play

## Passback Football

- Unique design allows the ball to return to user when thrown against hard surface
- Increase passing/catching with unlimited reps in a shorter time.
- Feels just like a regular football allowing user to be ready for game time.
- Increases hand/eye coordination.

- Practice any time.
- Great for any level of play.
- Three sizes available: Pee Wee (ages 4-8), Junior (ages 9-13), Official (ages 14+)

## Magformers Basic Plus 14pc Set Ages 3+

Create 3D structures - includes four squares, eight triangles and two inner circle square shapes. Create houses, towers and our ‘magic ball’. Learn to build using combine, roll and pull-up techniques and see what

your imagination can create! Build along with the step-by-step instructions and develop color and shape recognition, fine motor skills and problem-solving ability.

Perfect for brain development, critical thinking and STEM education. Each geometric shape contains magnets that never reject, so you’ll always hear the Magformers click. When playtime is over, use the magnetic power to simply stack and store.

## Geomag Mechanics 86 Magnetic Motion Set Ages 7+

This set allows children to build incredible and exciting inventions. The bigger they build the more dynamic it gets. With magnetizing, rotating and chain reactions they can make anything they wish. Geomag

stimulates creativity, inventiveness, and intelligence to allow a child to master mechanical and magnetic forces.

## Geomag Magicube Animal Friends Ages 18 months+

For younger children the Geomag Magicube Animal Friends are ideal. The Stem.org certified toy encourages problem solving and tunes fine motor skills. The blocks are polarized and can connect on any side. With animals on each side children can learn about nature and stem while having fun.

## CreateOn 123 School Bus Ages 3+

Your little one can have fun with his or her very own Magna-Tiles® Structures bus! The front of the tiles have all the bus pieces while the second side has numbers and symbols so your child can learn numbers and basic math skills.

Visit [createon.com](http://createon.com).

## CreateOn ABC School House Ages 3+

Each tile in this Magna-Tiles® Structures set is double-sided with alphabet letters on one side and a schoolhouse to build on the other. Your child will learn letters, sounds, words and much more. Then flip the tiles to build a school that they will have fun with for hours. Visit [createon.com](http://createon.com).

## HABA Varius Building Blocks Ages 3+

With the original wooden blocks of the Varius 3D arranging game, you can create and build fascinating patterns and shapes. Endless arranging and stacking fun for young and old alike. For free play or for arranging and stacking according to the templates provided. Visit [habausa.com](http://habausa.com).

## HABA Little Friends Camper Ages 3+

The Little Friends love to travel! Together they pack up their camper with everything they will need for a great trip. Contents: All-terrain vehicle with momentum push-and-go motor and rear bench seat, camper and detachable awning, two chairs and a Little Friends boy figure, camper with removable roof, operable door and folding bench seat. Includes camping accessories like lawn chairs and awning. Visit [habausa.com](http://habausa.com).

## GraviTrax: Obstacle Set Age 8+

This STEM toy encourages hands-on play where kids lead the way. With a variety of gravity-based elements, kids can create near limitless obstacle course marble run tracks. This set features all the components from the GraviTrax Starter Set, plus five additional expansions, including the Trampoline, Zipline, Transfer, Spiral and Bridges. Experiment and problem solve by utilizing different elements to send the marbles from start to finish. Once the basics have been mastered, simply add more marbles and elements to the designs to create more advanced tracks and endless possibilities.
