Squeaky Clean with Paredes!

By Seti Long

GRIDLEY, CA (MPG) - Omar Paredes officially opened Squeaky Clean Paredes Car Wash and Auto Detailing on April Fool's Day, but this new Gridley business is no joke!

Paredes takes keeping it clean seriously. He, his son and when-needed helper, Belen Rubio, hand wash and detail each vehicle with precision. Their attention to detail already has Squeaky Clean attracting a host of soiled vehicles to their location on the corner of Hwy 99 and Sycamore Street. Paredes says that some of the dealerships in town have chosen to bring their used inventory in to have cleaned up.

Squeaky Clean offers an Express Wash for \$30, which includes: Car wash, general vacuuming, tires shine, dashboard shine, door cleaning and window cleaning. Their

Auto Detailing/Deep Clean package pricing is based on vehicle size and condition, but includes: Wash, carpet and seat wash, dashboard and door shine, window cleaning, deep cleaning, a 100% satisfaction guarantee. "You will not recognize your car!" says Paredes. When providing a quote to a customer with a vehicle full of kid-tracks, spilled coffee stains on the carpet and more, Rubio says, "We'll make it look brand new!" and assures that the customer will have "zero regrets!" after they see what Squeaky Clean can do for their vehicle.

Due to the fact all the work is done by hand, the auto detailing can sometimes take up to 2 or 3 hours. Paredes knows his customers do not want to wait that long and offers a complementary service for those within the Gridley area: They will drop you off at your home and then

deliver your vehicle to you once its deep clean is complete!

If this does not sound like a great enough deal, just wait. Paredes donates a portion of all sales to Shriners Hospitals for Children in Sacramento and to relief efforts for those in need in Michoacán, Mexico. When asked why, Paredes humbly said that he started doing it years ago as his way to give back and be Christ-like. He briefly shares that he himself is a cancer survivor, so he felt compelled to help children battling cancer and other illnesses, along with those that are sick and in need in Michoacán.

If you would like to schedule an appointment, give Squeaky Clean Paredes Car Wash and Auto Detailing a call at 530-923-3108 or stop by their location at 1627 Hwy 99, Gridley. Drive-ups welcome! ★

Bring Us Your Drugs!

By Seti Long

GRIDLEY, CA (MPG) - Gridley Police Department, in cooperation with the Drug Enforcement Administration (DEA), is participating in the 2021 National Take Back Initiative! And what is that?

The National Take Back Initiative is a program that offers safe outlets and ways to dispose of prescription medications in an eco-friendly manner. The DEA says, "National Prescription Drug Take Back Day addresses a crucial public safety and public health issue. According to the 2019 National Survey on Drug Use and Health, 9.7 million people misused prescription pain relievers, 4.9 million people misused prescription stimulants and 5.9 million people misused prescription tranquilizers or sedatives. The survey also showed that a majority of misused prescription drugs were obtained from family and friends, often from the home medicine cabinet."

Medications collected at various Take-Back Day locations are weighed, labeled, and delivered to the area DEA offices, in our case, Sacramento, to be destroyed.

GPD Officer Ruth Hennessey will be leading the Gridley collection efforts at the 2021 National Prescription Take Back Day, which will be held Saturday, April 24th. GPD asks that you be mindful of the following instructions: There is no need to separate the pills from their storage containers; Liquids are accepted – please seal tightly and bag if possible; NO SHARPS under any circumstances.

If you have medications that you no longer take, are expired, or are just in need of disposal, please consider disposing of them at a secure location, such as the Take Back event or either of the two secure drop boxes in Gridley. They are available 24/7 and are located at Orchard Hospital and out front between Gridley City Hall and Gridley Police Department.

Dispose of your drugs at Gridley's National Take Back Day Saturday, April 24th from 12:00-2:00 pm at the Gridley Animal Control Shelter parking lot located at 895 Sycamore Street, Gridley. ★

The New Pi-Line

By Josh F.W. Cook

For some original Bill Bursleson Pi-Line content we go back to Friday, June 23, 1978:

Like many towns along the railroad in the late 1800's Gridley had to deal with people who handled their grievances by having a duel or a gunfight on the main street. To deal with this menace of bullets flying around downtown, the bed races were added to the annual

Red Suspenders Day community celebration. The bed races create a forum for people with grudges to settle their disputes with a lesser chance of collateral damage. So as we get closer to the gathering, ask yourself, "Is there anyone I'm really still upset at, who I haven't been able to forgive, but I should challenge to a bed race?" One of the most historical and memorable moments was when the police department bed crashed with the fire department bed midway through the course. No one knew who to call to be the first responder. Before the Gridley elementary school district and the Gridley unified school district were merged, the bed races would help determine which office indeed was the best.

Anytime Fitness has

opened up in the Heritage Oak Shopping Center. Very nice to have one less vacant storefront in our prestigious strip mall. In true Gridley fashion - the fitness center opened the same week as the new pizza place. I love the irony. This strange timing of these business openings brought to mind the friend I had in college who literally believed that if you ate a snickers bar, you could cancel it out by drinking a Diet Coke. I explained to him that the math did not work that way. He did not believe me and continued to drink a Diet Coke every time he had some sort of sweet treat that was high in calories.

Breakaway Roping Comes to the Stonyford Rodeo

By Roy Stewart,
SCHA Press Release

STONYFORD, CA (MPG) - Women's Professional Rodeo Association (WPRA) Breakaway Roping will be added to this year's Stonyford Rodeo, which will be a three-day outing on April 30, May 1, and 2, 2021.

Breakaway Roping is similar to regular calf roping, except that the calf is not thrown and tied. In this event, the contestant's rope-end is tied to the saddle horn with light string. Once the calf is roped and the horse has made a quick stop, the calf continues until the rope breaks away and signals the end of the run. A white flag is affixed to the end of the rope tied to the rider's saddle horn, which lets the timer easily see and record the breakaway time. The roper with the quickest time is the winner.

WPRA Breakaway Roping has become very popular and lucrative: The top contestant exceeded \$17,000 in winnings, with the next five exceeding \$15,000, as of 04/02/2021. If our fans like this new event, which will be on Friday and Saturday, it will likely become a permanent add to our rodeo.

Tickets are now available at www.stonycreekhorsemen.org. They will be available on or before April 15 at the following locations: Stonyford General Store, Stonyford; Carl's Feed, Willows; Boot

Barn, Chico & Yuba City; Bucke's Feed & Grain, Orland; Marie's Lakeshore Feed, Clearlake; Rainbow Ag, Lakeport; and Ace Hardware, Arbuckle.

Pre-rodeo ticket prices are \$10 for adults and \$6 for children, ages 7-12. At the rodeo gate, ticket prices are \$15 for adults and \$7 for children, ages 7-12. The pre-rodeo cheaper prices are only available until April 28, so get your ticket now and save money. Tickets for the May 2, 2021, amateur events can only be purchased at the rodeo gate on that Sunday. Ticket prices are \$5 for persons aged 13 and older; children 12 and younger are free. ★

State Issues Pause on the COVID J and J Vaccine, Butte County to Follow

Butte County Department
of Public Health Press Release

BUTTE COUNTY, CA. (MPG) - The California Department of Public Health (CDPH) announced that California will follow the FDA and CDC recommendations to pause the use of the Johnson and Johnson COVID-19 vaccine after several cases of blood clotting were reported in the U.S. This pause will remain while the safety of the vaccine is being reviewed by federal authorities. Butte County Public Health will follow this determination made by CDPH. All previously scheduled vaccination clinics in Butte County that were offering the Johnson and Johnson vaccine will be replaced with Moderna.

Residents who booked a vaccination appointment at the Chico Community Vaccination Clinic for Wednesday, April 15th will be rescheduled for Saturday, April 17th to receive the Moderna vaccine.

Residents who booked a vaccine through a local pharmacy that was offering the Johnson

and Johnson vaccine will need to coordinate directly with the pharmacy where the appointment was booked.

As of April 12, more than 6.8 million doses of the Johnson & Johnson (Janssen) vaccine have been administered in the U.S. CDC and FDA are reviewing data involving six reported U.S. cases of a rare and severe type of blood clot in individuals after receiving the J&J vaccine. All six cases occurred among women between the ages of 18 and 48, and symptoms occurred 6 to 13 days after vaccination.

Right now, these adverse events appear to be extremely rare. COVID-19 vaccine safety is a top priority for the federal government and CDPH, and we take all reports of health problems following COVID-19 vaccination very seriously.

Butte County residents who recently received the Johnson and Johnson vaccine who develop severe headache, abdominal pain, leg pain, or shortness of breath within three weeks after vaccination should contact their health care provider. ★

HOPE for PTSD

Perfect hosts! The Feather River Tea Party Patriots hosted a Veterans PTSD Town Hall where leading professionals in the field provided free information and resources on PTSD to those in attendance. YUBA - SUTTER REGION, CA (MPG) - The Feather River Tea Party Patriots, in cooperation with Stephanie Ruscigno, U.S. Army veteran, hosted a unique and informative event – the Veterans PTSD Town Hall.

Open to anyone suffering from Post-Traumatic Stress Disorder (PTSD), the event was mostly attended by veterans who wanted to know more about cutting edge science and treatments for the disorder from a pair of doctors out of Maine, that call themselves The Integrative Docs.

Doctors Richard Matthews, a Board-Certified Chiropractic Neurologist and Dr. Ruth Moore, an Integrative Health Practitioner and Cognitive Behaviorist, make up The Integrative Docs duo, who specialize in reducing the effects of stress responses in the body and promoting health and wellness through complementary and alternative medicines and treatments. Dr. Matthews and Dr. Moore collaborate and travel or present via zoom, scientific data, research, and treatments that can help those suffering from

to be a slave to your stress. You don't have to be a slave to your condition. It's understanding that you have hope, or creating hope, or embracing hope, [it] means that you are seeing things from a different perspective. Ultimately, our happiness, our stress levels – it all depends on the mindset or the perception we have." A pivotal concept in her practice, she continues, "in mind-body medicine, our minds have the power to heal our bodies."

Many veterans suffering from mental health issues, MST (military sexual trauma) or PTSD express frustration with the "pop-a-pill, cure an ill" or traditional pharmaceutical approach of treating the sometimes severe physical and mental conditions manifest by those disorders. The Integrative Docs believe that "Medication is never a 1st choice," saying that "it removes responsibility, accountability, and some of our constitutional freedoms." Dr. Matthews and Dr. Moore educate that although PTSD cannot be cured, it can be mitigated through neurolinguistic reprogramming, behavioral therapy, autonomic nervous system balancing therapy and coaching. They

PTSD understand the disease.

As stated in the Integrative Doc's power point presentation to the veterans that evening, "PTSD is not a mental health condition, but a neurobiological injury, much like Traumatic Brain Injury (TBI)." The presentation went on to illustrate how PTSD appears on and can be diagnosed by functional Magnetic Resonance Imaging (fMRI) and Positron Emissions Tomography (PET) scans. Dr. Matthews and Dr. Moore discussed allostatic load, adrenal fatigue and provided those in attendance with a foundation for self-care and tools for creating H.O.P.E for wellness: Honoring yourself; Organizing needs; Prioritizing your schedule; Empowering your life.

Dr. Moore who practices at Downeast Wellness Holistic Health Services and treats many struggling with disorders besides PTSD says that "You don't have

promote healthy diet, physical exercise, stretching and breathing exercises, along with holistic practices of using essential oils, acupuncture, mindfulness and more to treat PTSD.

Ruscigno, who helped bring the Integrative Docs to the forum, has benefitted personally from the resources and information that is shared nationwide by Dr. Moore and Dr. Matthews. It has become a passion for her to spread this life-changing information to veterans and anyone struggling with mental or physical health issues that could benefit from it. "I believe the Integrative Docs message needs to get out. How many suicides prevented and lives-lived more fully?" she questioned. Ruscigno secured the Integrative Docs' expert advice with a personal financial donation, so that the nearly 60 veterans and the Feather River Tea Party Patriots in attendance at the PTSD Town Hall could benefit from the science.

The feedback from those in attendance was profound. Ruscigno shares that a woman, who asked to remain anonymous said, "the affirmation she got was both comforting and encouraging. Tears welled." Others in attendance reported they planned to get MRI's for diagnostic purposes as soon as possible. U.S. Navy Vet, Jonathan Bibbins said, "Awesome presentation. Bringing a conscience to the needs of veterans warriors is necessary." He ended with "I look forward to your next presentation."

National Crime Victims' Rights Week Celebration

By Michael Ramsey,
Butte County District
Attorney's Office

BUTTE COUNTY, CA (MPG) - In commemoration of National Crime Victims' Rights Week, April 18 - 24, 2021, and in honor of those victims traumatized by violent crime, Butte County District Attorney Mike Ramsey dedicated this week to raise awareness about crime victims' issues and rights. Ramsey noted a substantial increase in victims of violent crime in Butte County in 2020 during the COVID-19 pandemic.

Ramsey said, "We must always remember that the faces of crime victims are those of our family, friends, neighbors, and community members. The Butte County District Attorney's Victim Assistance Bureau reached out to 4,145 new victims of violent crime in 2020. In 2019, that number was 3,435 – an increase of 21%. This, despite the COVID-19 lockdowns and the best efforts of our law enforcement and justice partners throughout Butte County."

Ramsey said, "Now is the time to redouble our efforts so that victimization declines and fewer Butte County residents suffer the trauma of violent crime."

Ramsey noted that the federal Office for Victims of Crime (OVC) leads communities throughout the nation in their annual

observances of the Crime Victims' Rights Week by promoting victims' rights and honoring crime victims and those who advocate on their behalf.

"This year's theme – Support Victims. Build Trust. Engage Communities. – celebrates the contributions we all can make toward building trust in our community's capacity to support the healing journeys of crime victims. Trust is collective as well as individual, so we honor both the individual victims in our community and the groups engaged in building networks of understanding and support."

The DA's Victim Assistance Bureau is in its tenth year of operations with the District Attorney's Office. In the nine calendar years of operation under the District Attorney, victim services have been offered to 35,168 victims of violent crime.

The Bureau's victim advocates work closely with prosecutors and investigators to provide information to victims of the progress of their case through the criminal justice system. Advocates assess and refer for services, provide court escorts, education, and support, and offer California Victim Compensation program access to victims of violent crime. In addition to medical and counseling expenses, this program offers reimbursement for

funeral and burial expenses in homicide cases and relocation expenses for victims who must move for their safety.

Last year in 2020, the Bureau assisted in gaining \$407,789.65 for Butte County crime victims. In the nine fiscal years of operation under the District Attorney, over \$7,744,448 has been paid on behalf of crime victims.

Bureau staff are members of county-wide multidisciplinary teams including Butte County's Sexual Assault Response Team, Child Abuse Response Team, and Commercially Sexually Exploited Children Team. Victim Assistance Bureau continues to work closely under the Memorandum of Understanding with the Butte County Superior Court, Butte County Treasurer-Tax Collector and Auditor-Controller to enhance the collection and disbursement of restitution to crime victims.

For additional information about services available for local victims of crime, please contact the Butte County District Attorney's Victim Assistance Bureau at (530)538-7340 or visit <https://www.buttecounty.net/districtattorney/Victim-Assistance>.

Lane Shifts Ahead

This stretch of Hwy 99, already bustling with construction activity, will see more changes beginning May 1st. Photo by Seti Long

By Seti Long

LIVE OAK, CA (MPG) - The Live Oak Hwy 99 Streetscape Project has been tearing the highway in Live Oak up for over a year now; You cannot drive through Live Oak without noticing the construction everywhere you look, but new curbing, parking spaces, sidewalks and more are beginning to tease residents and motorists that the end may be in sight. But, not yet.

Residents and motorists can expect continued heavy construction activity that will once again re-route their course through town. Beginning May 1, 2021, Caltrans and the City of Live Oak want residents, drivers, and pedestrians to know that the traffic flow on Hwy 99 through town will be shifted to the west side of the existing roadway between Archer Ave and Pennington Road.

Officials expect this shift to be temporary, ending July 30th or as work completes.

An additional traffic shift is planned for the area between Myrtle Street continuing past Ramsdell Drive to the north. Traffic will be shifted to the west through that stretch of town between May 1 and June 1 for construction crews to rehabilitate the existing roadways.

Motorists should be aware of temporary concrete barriers placed or other construction materials throughout the work zones, reduced speeds, and expect narrowed lanes. Although some of the construction may hinder the entrance and egress from your favorite local shops, highway access will remain open to business and residents (unless otherwise posted).

A graveside service will be held Friday, April 23, 2021 at 11:00am at the Gridley-Biggs Cemetery for Wanda Williams Hodges, 96, who at the time of her death resided in Emmitt, Idaho with family members. She was born on Oct. 8, 1924 in Gridley, CA, the daughter of Joseph Leo Williams and Mima Durfee.

Wanda graduated from Gridley High School, class of 1942. After graduation, she moved to San Francisco, CA where her older sister Leola lived and got a job in an insurance company. During this time, she met and married a young serviceman named Movell Martell and had a son, Charles William. Through the pains of separation and WWII the marriage did not last.

In 1948, while living with her parents in Hydesville, CA, she met the love of her life Weston K. Hodges at a church service. They were married in the Logan Utah Temple of The Church of Jesus Christ of Latter-day Saints on March 4, 1949. After Weston completed his education in Provo, Utah, Weston, Wanda and Charles (Bill) moved back to California and settled in the small community of Carlotta in Humboldt County. After 25 years in Carlotta, where Weston was a schoolteacher and principal of a small elementary school and Wanda was a homemaker of 6 children, they move back to the Gridley/Biggs area in 1974

until Weston died in April of 2008, just 6 weeks after they celebrated their 59th wedding anniversary.

Wanda was a woman of great faith and loved the gospel of Jesus Christ. She was an active member of The Church of Jesus Christ of Latter-day Saints and love to serve others. She always had vegetables from her garden or a warm loaf of bread for someone in need. She was a wonderful example of love, compassion, charity and hard work. By serving in her community and with many church callings, she enriched lives of those she met. She was seldom idle and loved to cook, sew and grow a large vegetable garden. She loved music, had a beautiful singing voice, played the piano and even played the trumpet in a small jazz band.

In addition to Weston, she was preceded in death by her parents and siblings Leola and Charles. Surviving Wanda are her 6 children, Charles William (Deanna), Mark Weston (Christina), Ralph Edward (Connie), Marilyn Coey, Judy Marie McKinney (Mark) and Richard Lynn Hodges. Dear Dietitian

Raw Milk

**Commentary
by Leanne McCrate**

Dear Dietitian,

I have a friend who drinks raw, unpasteurized milk. She claims it has many health benefits and that pasteurization of milk is unnecessary. What do you think? ~ Jim

Dear Jim,

The consumption of raw milk has gained popularity in recent years, and many people believe it is a healthier alternative to pasteurized milk. Let's take a look at what science says.

Most of us are familiar with the term pasteurization, which is the process of heating food products like milk to a temperature high enough to kill harmful bacteria. The process was named for its inventor, Louis Pasteur, a French scientist. Pasteurization was created to "kill the diseases" of wine in France (1). Commercial pasteurization of milk began in the US in the early 1900s due to widespread milk-borne illnesses.

A review of studies on the safety of raw milk was performed at Johns Hopkins University in Maryland in 2014 and concluded the "relative risk of individual illness is almost 150 times greater per unit of unpasteurized dairy product, compared to pasteurized." (2) The most common disease-causing bacteria in unpasteurized milk are E. Coli, Salmonella, Listeria, and Brucella. According to Dr. Pritish Tosh, an infectious disease specialist at the Mayo Clinic, Brucella is a drug-resistant bacterium that can cause brucellosis, an infection that can be severe and affects many areas of the body, including the

bloodstream, bones, and joints (3).

Contrary to what can be found on the internet, milk's nutrient composition is not changed by pasteurization. Milk is a significant source of calcium, protein, and vitamin B12. Vitamins A and D are added to pasteurized milk that is sold commercially. While there are some losses of B12 (<10%), vitamins A and D and calcium are heat stable and maintain their value during pasteurization. Denaturing of protein indeed occurs, but it still retains its nutritional purpose (4).

Are good bacteria lost in pasteurized milk? These studies are conflicting. At any rate, healthy bacteria can be obtained in pasteurized foods like yogurt with live and active cultures and kefir. You may also purchase probiotics but remember, research only supports improvement in digestive problems with probiotics, not overall health.

Finally, it is essential to note that most health organizations recommend infants under the age of one not consume cow's milk, raw or pasteurized. Their digestive tracts cannot handle the ash in cow's milk, and if they contract an illness from bacteria in raw milk, their immune systems are not yet fully developed to fight the infection effectively. Babies should consume human breastmilk or formula.

Good health to you!

SPARKY'S CORNER

Fire Alarms in Apartment Buildings

Large apartment buildings are built to keep people safe from fire by utilizing alarm systems that detect smoke and fire that will warn residents of danger.

- In a fire, smoke detectors sense smoke and activate the fire alarm. Manual fire alarm boxes allow people to sound the alarm. When the fire alarm system activates it will warn residents of danger.
- Everyone in the building should know where to find the manual fire alarm boxes (alarm boxes on the wall with a pull bar). Most are found within five feet of an exit door.
- If there is a fire, pull the manual fire alarm box handle on your way out of the building.
- When the system senses smoke or fire, a loud horn or tone will sound. Everyone must know what this sound means and how to react.
- Leave the building right away if you hear the sound of a fire alarm. Stay outside at your meeting place until you are told the building is safe.
- Treat every fire alarm as an emergency. When the alarms sounds, get outside.
- Only use a manual fire alarm box if there is smoke or fire. Frequent false alarms are a problem. People might ignore the sound if they hear too many false alarms.

Know the locations of all exit stairs from your floor. If the nearest one is blocked by fire or smoke, you may have to use another exit. If the fire alarm sounds feel the door before opening. If it is hot, use another way out. If it is cool, use this exit to leave. Close all doors behind you as you leave. Take the key to your apartment in case you are not able to get out of the building. If fire or smoke is blocking all exits, return or stay in your apartment. Keep the door closed. Cover cracks around the door with towels or tape. Call 9-1-1 and let the fire department know you are trapped. Signal from the window by waving a flashlight or light-colored cloth.

Thank You, and Be Safe!!

Gridley Thumbs and Roots

By Barbara Ott

Tiger Lilies are a special love of mine. When I first saw them in the wild in the mountains above Berry Creek I fell in love. The orange glow with speckles makes my heart sing. The wild Tiger Lilies have small downward nodding blooms. The garden hybrid blooms are much larger. The

plants are taller and the flowers are bigger. I learned the hard way that you have to pay attention to colors. I used to think the Tiger Lilies came in one color, orange. Not so any more. Once I ended up with some creaming beige-apricot ones by mistake. They are pretty and I've kept them but they are not the flower floozy orange of my choice. The newest Tiger Lilies that I've put in my yard are the wonderful electric orange and they have double pedals, a spectacular sight. You can sometimes find the bulbs in the hardware stores and some nurseries but I find that ordering them through catalogs is the best way to get them. You can pick the colors accurately instead of hoping

you've read the check marks on the packaging correctly. This is where you'll find the doubles also. I've never seen them in a store in our area. They are worth the effort of finding them and planting them. As I drive and walk around town, I get very curious as to what the backyards of various houses look like. My back yard is spilt into thirds. One third is vegetable garden, one third is grass and one third is my flower gardens. I'm guessing if you saw my front yard and then went into the backyard it would give a sense of matching. It's the front yards that are OK and then you go into a fabulous backyard that intrigues me. I'm simply nosey that way. ★

Help Her Get Back Out There

Dear Dave,

Our daughter recently moved back in with us after she lost her job and her apartment. She hasn't been able to find full-time work yet, and she had nowhere else to go. My husband and I are nearing retirement age, so we want to do the best and smartest thing to help her get back on her feet. What do you suggest?

—Joan

Dear Joan

First, you need to define what helping your daughter really means. What does it look like? In my mind, you haven't helped her if she's still living at home two or three years from now. Going to those lengths is called being an enabler. At the same time, you shouldn't just show her the door and wish her good luck. You and your husband together should

Dave Ramsey Says

come to agreement on a forward-thinking plan that falls somewhere in the middle. I'm talking about something that allows your daughter a little time to heal and regain her dignity, but also includes a plan, expectations, and a move-out date. If I were in your shoes, there would be requirements attached to her living at home again. One is that she would respect and abide by your household rules. If she's going to live in your home, she should be expected to respect her parents and their wishes.

Number two, she should be thinking about and working on tangible career steps every single day. I'm pretty sure she could find a part-time job out there to put a little extra money in her pocket. When she's not earning some cash, she should be focusing on long-term career goals. Sending out resumes and filling out applications for full-time employment needs to be a priority.

The last thing I'll suggest may sound a little strange, but trust me on this one. Right now, your daughter also needs some

kind of physical activity on a regular basis. Exercise stimulates the mind, and she really needs that right now. It'll also be great for her body.

This young lady has been through a stressful experience. She needs some understanding and support right now. At the same time, you don't want to let her slide into bad habits and participate in promoting negative behavior. Step in, help her get her life back on track, and get her out in the world again. All three of you will be glad you did!

Thoughts to Ponder

by Kathy Neal

"Peace be with you," came the greeting as Jesus appeared to His followers who were locked away from the grief and pain of the world that had taken from them their hope and guide for a kingdom promised by the Man they had followed for the past three years.

Fear had pushed these people away from the mainstream of life. Depression caused them to weep uncontrollably for the loss of their leader. A sense of great loss caused them to return to their former jobs, unable to carry forth His message.

The followers lacked direction, or may we say they just lacked faith. The followers lacked the drive to go forth or was it a need for "kick start" or push they craved?

Death leaves an emptiness. The followers were now empty. Death leaves doubts. Thomas truly

doubted. Death leaves depression. The followers were in the depths of darkness. Death leaves fear. Those people were living in fear for they questioned the motives of the leaders who brought their world crashing down upon them. Death leaves people with a lack of power, helpless. Those people were truly helpless for they needed the power of the almighty God to bring back the breath of life into their faith.

But with four little words, "Peace be with you," Jesus unlocked the doors of that little room and the hearts and minds of a handful of followers who would spread the Word across the ages to our present generation, a generation, who would not have the privilege of seeing the scarred hands, torn head, or pierced side, ye would be recipients of the same breath of life offered to that scared, fearful bunch of men.

Jesus brought a new life to light, a new faith for the future, a new force of energy to face the world, and a new hope for eternity when He rolled away

the stone and walked away from death.

Just think, Jesus appeared to only a few people but look at how the Word has spread throughout the world down through the ages. One man, Jesus Christ, gave hope to a few and now we reap the same reward — eternal life. Now, what more could one ask for?

The story of Jesus did not end on a cross. It was just the beginning. The Word preached by Jesus did not stop with a tomb and a stone, it was only the first chapter. The love of God did not stop because the people killed His messenger, it was reassured by sending the Holy Spirit to be a Comforter.

"Peace be with you," is the message sounding down through the ages to a waiting people. It echoes across time to all of us. Hear it and believe.

Come, believe with the Gridley United Methodist Church every Sunday at 10 am. We are located at the corner of Haskell and Magnolia Streets. The peace will be with us as we worship Jesus. ★

Slim Randles' HOME COUNTRY

It was just one of those things. It didn't really mean Marvin Pincus had lost his mind. Consider this yourself for a minute. Marvin had opened the mail that morning and in it was the Fenwick glass fly rod he'd ordered. Oh, it was used, of course. The new ones are graphite. But there's a feel to a fibreglas Fenwick that only a man dedicated to a life of using dry flies can appreciate.

The weather was gorgeous. The fish were biting on Lewis Creek. But there was a hitch. Marvin had broken his ankle the previous week and was temporarily in a wheelchair. It was his right ankle, so he couldn't drive down to the creek.

Isn't it hard to catch fish without water?

And there, in his hands, was the Fenwick. He put it together, attached a reel and some four-weight line and set it on the couch and looked at it.

Marjorie was off visiting her sister, so she couldn't help him. But there's a pull, an irresistible draw to a fly rod. He had to cast it.

Now. It took Marvin about 20 minutes to negotiate the front steps with that wheelchair and the Fenwick. Oh, he could've called a friend to help him, but how could he possibly explain why?

Finally, he negotiated the sidewalk and then the edge of the street itself. There were no cars coming this early afternoon.

Up came the Fenwick. A few swishes in the air told Marvin he'd done the right thing in ordering the rod. So he ran out some line and began casting. About halfway across the street was a large mulberry leaf. He did a double

haul on the line and sent the fly toward the leaf. It took several tries before he hit it, but when he made that cast, you could've sold tickets to it. His fly came to rest about three feet above the leaf and then fluttered gently down onto its target. Marvin's smile said it all.

Then the school bus came around the corner full of kids heading home, and Marvin realized he was casting a fly rod from a wheelchair onto dry pavement.

"Hi Mr. Pincus!" yelled one of the kids. "Catch anything?"

"A little slow today, Billy," he yelled back.

"Isn't it hard to catch fish without water?" Billy yelled.

"It's okay, son," Marvin said with a grin. "I'm using a dry fly!"

Brought to you by www.purefishing.com, keeping alive and fresh the Fenwick quality to this day. ★

Sheriff's Office Investigating in Custody Death

Butte County Sheriff's Office Press Release

OROVILLE, CA (MPG) - On the morning of April 14, Butte County Sheriff's Office (BCSO) correctional deputies were conducting routine safety checks on inmates housed at the Butte County Jail. Around 1:30 a.m., a correctional deputy noticed Inmate Dan Fallis, age 30, of Chico appeared to be having a medical issue.

Correctional deputies and jail medical staff immediately

began providing Fallis with emergency medical treatment. Paramedics responded and provided additional emergency medical treatment. Despite the life-saving measures that were administered, jail medical staff and paramedics were not able to revive Fallis.

Butte County District Attorney's Office Investigators and Butte County Sheriff's Office detectives responded to the jail and began conducting an investigation. During the investigation,

personnel interviewed correctional deputies, medical staff, and inmates housed within the Butte County Jail. To date, detectives and investigators have not located any evidence that Fallis committed suicide. Investigators and detectives determined Fallis was housed in a cell by himself and other inmates did not have access to Fallis' cell. Investigators and detectives did not locate any signs of trauma or injuries on Fallis' person. An autopsy will be conducted by the

Sacramento County Coroner's Office to determine Fallis' cause of death.

Investigators and detectives determined Fallis had been housed at the Butte County Jail for several months. Fallis has received extensive medical and mental health treatment since being housed at the Butte County Jail. Butte County District Attorney's Office Investigators and Sheriff's Office detectives are actively investigating this incident. ★

Kiley and Gallagher Issue Joint Statement in Case against Newsom

By Joe Zanze, California Legislature

SACRAMENTO, CA (MPG) - Assemblymembers Kevin Kiley (R-Rocklin) and James Gallagher (R-Yuba City) released the following statement after oral arguments in Gallagher and Kiley v. Newsom that took place in front of the Third District Court of Appeal:

"We appreciated the opportunity to appear before the Appeals Court and are hopeful that the Superior Court's ruling will be affirmed. The notion that one person can centralize all state power in his hands is utterly incompatible

with our Constitution and form of government. This case can assure the extraordinary abuses of the past year are never repeated."

Gallagher and Kiley won their case in the Superior Court where the judge restrained the Governor from "exercising any further legislative powers in violation of the California Constitution and applicable statute" and barred him "specifically from unilaterally amending, altering, or changing existing statutory law or making new statutory law."

This will be the first precedent-setting decision in California history on the limits of a governor's emergency powers. ★

Bills would Hamstring Future California Recalls

By Dan Walters
CALMatters

As signatures on petitions to force Gov. Gavin Newsom into a recall election are being tallied, the Legislature is considering bills that would, if enacted, make future recalls of California's elected officials less likely.

Two Democratic state senators, Ben Allen of Redondo Beach and Josh Newman of Fullerton, are carrying measures they say are needed to reform the recall process.

Newman's Senate Bill 663 would allow targets of recall campaigns to access the lists of recall petition signers and try to persuade them to remove their signatures. Current law allows only election officials to access their names to validate signatures.

Currently, signers have 30 days after the recall to change their minds. SB 663 would extend that to 45 days.

Critics say that revealing the names of petition signers would subject them to harassment by recall targets and their supporters.

Newman, who went through a recall election himself in 2018, told the Senate's election committee this week that "this bill has no impact whatsoever on the recall effort against Governor Newsom" because, as now written, it would not take effect until next January.

Theoretically, SB 663 could be amended to make it take effect immediately and thus impact the Newsom recall, but only with a two-thirds vote of the Legislature and Newsom's signature, thus making it highly unlikely.

The Senate elections committee approved SB 663 and another Newman measure, Senate Bill 660, that would ban the now-common practice of paying professional petition circulators by the signature, not only for recalls but also for initiative measures and for referenda to invalidate laws passed by the Legislature.

A prohibition on per-signature payments has been floated for years. Advocates contend that paying signature-gatherers by the name encourages them to mislead potential petition signers about the issues before them.

However, every recent governor has vetoed at least one version of the proposal. When he vetoed a 2019 ban on per-signature payments, Newsom said, "While I appreciate the intent of this legislation to incentivize grassroots support for the initiative process, I believe this measure could make the qualification of many initiatives cost-prohibitive, thereby having the opposite effect."

Allen, meanwhile, is offering a constitutional amendment and a conventional bill that would affect the recall process.

Senate Constitutional Amendment 3 would make successful recalls more difficult by placing the name of the targeted official on the ballot as a successor candidate.

Under current law,

voters are given two issues to decide — whether the official should be ousted and which of the successor candidates should be elected instead.

That, Allen argues, is unfair because with multiple candidates, someone could win with relatively few votes. Under his measure, voters would simply decide whether to retain the incumbent with a plurality of votes or opt for one of the other contenders.

SCA 3 also would cancel a recall election if the incumbent resigns after the recall qualifies which, in the case of governors, would mean an automatic takeover by the lieutenant governor. If another statewide official facing recall resigned, the governor would name a successor.

Allen's second measure, Senate Bill 752, would require that before voters signed petitions for a recall, an initiative or a referendum, they would have to certify that they had read a list of the proposed measure's top financial contributors. As with Newman's SB 660, its declared aim is to prevent signature gatherers from misrepresenting the issues involved.

It's debatable whether these measures would, as Newman and Allen contend, improve the recall and other forms of direct democracy. They certainly would make them more cumbersome and expensive and therefore less likely to succeed.

39 vaccinated residents from Bay Area county test positive for COVID-19 | 14 April 2021 | Sonoma County health officials said Tuesday that at least 39 people in the region tested positive for the coronavirus despite being vaccinated, according to a statement from the county. While Sonoma is the only Bay Area county thus far to share instances of inoculated people getting COVID-19, it's assumed all regions are experiencing similar developments as the vaccines do not provide complete protection. Twitter bans James O'Keefe after major CNN bias exposé | 15 April 2021 | Following a string of undercover exposés into how CNN injects bias into narratives, Twitter has suspended Project Veritas's founder, James O'Keefe. Project Veritas has, for several years, been releasing exclusive undercover video footage that exposes the biases of TV networks, the media, and Big Tech. The Project Veritas account had already been suspended by Twitter earlier this year for a video confronting Facebook's Vice President of Integrity about political bias in which the platform had been partaking.

CBS News Edited Police Body Cam Video to Mask Teen Holding a Gun Before He Was Fatally Shot | 16 April 2021 | CBS News deceptively cropped body camera footage that showed a 13-year-old boy holding a gun before he was fatally shot by Chicago police in March. A law enforcement officer fatally shot Adam Toledo during an encounter in response to gunshots heard on a police scanner. Police said Toledo ignored "verbal directions, fled, used significant force, and was armed with a semiautomatic pistol," which is why the officer fired. Body cam footage released this week appears to show Toledo holding a weapon moments before he was shot, but CBS News posted a clip to its website and Twitter page that cropped out the footage showing the teen's alleged firearm. The CBS News article accompanying the cropped video did not directly acknowledge that Toledo was armed.

The recount will be done by hand this time. The state Senate said in March they would be conducting a "broad and detailed" audit, adding that they will test voting machines, scan ballots, look for IT breaches, and perform a hand count.

Former Pfizer VP: 'Your government is lying to you in a way that could lead to your death' | 07 April 2021 | Dr. Michael Yeadon, Pfizer's former Vice President and Chief Scientist for Allergy & Respiratory who spent 32 years in the industry leading new medicines research and retired from the pharmaceutical giant with "the most senior research position" in his field, spoke with LifeSiteNews in a telephone interview. He addressed the "demonstrably false" propaganda from governments in response to COVID-19, including the "lie" of dangerous variants, the totalitarian potential for "vaccine passports," and the strong possibility we are dealing with a "conspiracy" which could lead to something far beyond the carnage experienced in the wars and massacres of the 20th century.

Liz Cheney Was a Primary Culprit of Spreading Fake News on Russian Bounties to Undermine Trump -- As the story of Russian bounties on U.S. troops gained traction in the press, Liz Cheney seized the opportunity to undermine her own party. | 16 April 2021 | U.S. intelligence agencies debunked on Thursday what was treated as blockbuster election-year reporting last summer of an anonymously-sourced story in The New York Times claiming the Kremlin placed bounties on American troops in Afghanistan. President Donald Trump, went the tale, deliberately downplayed the aggression to appease Russia and accelerate the timeline to withdraw U.S. forces. Wyoming Rep. Liz Cheney, currently number three in House leadership, was a primary purveyor of the fake news.

Trump backs Wyoming GOP chair, citing Cheney censure | 15 April 2021 | Former President Trump endorsed Wyoming GOP chairman Frank Eathorne's reelection bid Thursday, citing Eathorne's censure of Rep. Liz Cheney (R-Deep State-Wyo.). "Perhaps, most importantly, Frank has Censured the incompetent Liz Cheney, who couldn't care less about our brave soldiers overseas, and who is willing to fight ridiculous, endless wars instead of preparing for the Big Time enemies that may someday soon face our Country," Trump wrote in a statement. ★

Butte County Sheriff's Office Announces Arrest Related to Burglary Investigation

Butte County Sheriff's Office Press Release

OROVILLE, CA (MPG) - In March of 2021, the Butte County Sheriff's Office (BCSO) Designated Area Deputies began investigating a residential burglary that occurred in the Oroville area. While processing the residence for

evidence, deputies located items they believed would contain DNA evidence.

In November of 2018, BCSO obtained an ANDE DNA Instrument which allows for DNA to be processed and analyzed rapidly. In April of 2021, BCSO used the ANDE DNA Instrument to process DNA located during the residential

burglary investigation. BCSO determined the DNA profile of Peter Lor, age 24, of Oroville was a match to the DNA located on the evidence items collected from the residence where the burglary occurred.

Detectives determined Lor was in custody at the Butte County Jail on an unrelated case. On April 13, detectives

contacted Lor about the burglary investigation. During the contact with Lor, detectives located additional evidence indicating Lor committed the residential burglary. After contacting Lor, detectives drove to a residence on Claremont Drive, Oroville and recovered some of the property that was stolen during the burglary.

Lor was booked into the Butte County Jail for a felony count of residential burglary.

Lor is scheduled to be arraigned at the Butte County Superior Court on April 15, at 3:00 p.m. The Sheriff's Office is asking anyone with additional information regarding Lor to contact Detective Thao or Deputy Sandquist. ★

Forced Vaccinations

Commentary
by Doug LaMalfa

Whether you like vaccines or not, getting the COVID vaccine – or any vaccine for that matter – should remain a personal choice and NOT be a requirement for getting your personal freedom back.

It's a matter of privacy and personal liberty – two rights that we MUST protect in this nation. And people who choose to exercise those rights must not be discriminated against.

Unfortunately, there are those who disagree... which is why I recently introduced two bills in Congress that will protect people from being discriminated against by businesses, employers and the government because they medically cannot or because they have made

the personal choice to not get the shots.

This is a critical test of our nation's dedication to personal freedom and protection against creating second class citizens.

We've been here before – in the wake of tragedy, the government asked us to willingly sacrifice our own freedoms for what we expected would be increased safety.

It calls to mind a quote by Benjamin Franklin: “Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety.”

Taking away people's freedom to choose to not get an injection is a dangerous path that will only lead to the loss of more personal freedoms down the road. That's proven to be true time and time again throughout our history. Let's not make this mistake again.

I'm standing firm in the fight against the creation of vaccine passports and discrimination against those who cannot or choose not to participate. ★

Assemblywoman Dahle and Senator Dahle Statement on California Correction Center Closure

Commentary
by Assemblywoman
Megan Dahle

“As the two elected state representatives for Lassen County, we were shocked and appalled by CDCR’s announcement to close CCC.

We received no prior notice regarding the decision by CDCR. The lack of transparency and opportunity for public input in making such a significant decision is abhorrent. This decision completely undermines the little trust our constituents had

left in this administration and proves yet again that the leaders of our state agencies couldn’t care less about the livelihood of residents of the North State.

The impact of this decision on our North State communities will be devastating. Our communities have already suffered a dramatic increase in unemployment due to the COVID-19 pandemic. We have one of the highest unemployment rates in the nation. Now, without warning or notice to the public, the state has arbitrarily dictated that it will be

upending the livelihood of over 1,000 employees and their families. Constituents of the North State deserve better from their government. The fact employees were notified of the closure through a press release is unacceptable.

This gross misstep by a state agency is a slap in the face to hardworking employees, and correctional officers and their families, who have served on the frontlines during this pandemic and sacrificed a great deal to ensure our communities remain safe.

The unilateral actions taken by CDCR and the Newsom administration represent a complete degradation of our representative government. We demand CDCR, Secretary Kathleen Allison and the Newsom administration reveal the process and data used to arrive at the decision to close CCC. At the very least, they owe this to the public and their employees.

To ensure the leaders of the state agency that perpetrated this action are held accountable, we are pursuing Public Records Act Requests to expose the secretive

channels through which they came to this decision.

To the employees, families, and community impacted by the announced closure; you have our word that we will not rest until we bring to light why and how the governor’s administration arrived at this decision. Please reach out to our offices for any immediate assistance you may need.”
