CARMICHAEL, CA (MPG) - Many eateries accommodate pets at outdoor tables. Taking pooch appreciation a lick further, Carmichael's Lido Café offers a la carte for canines. Owner Shawna Rivera long ago noted that many customers were empty-nesters who'd replaced their kids with pets. "They

Officer Involved **Shooting in Carmichael**

By Sergeant Tess Deterding, Sacramento County Sheriff's Department

CARMICHAEL, CA (MPG) - On October 27, 2019 at approximately 12:30 a.m., the Sacramento County Sheriff's Office Communication Center received a call from the 5800 block of Angelina Avenue in Carmichael. The caller indicated there was a vehicle that had crashed into a tree at that location and a male was waving a gun around a female. Multiple additional callers stated a male and female were in a verbal altercation and had walked back and forth to a nearby apartment complex.

At approximately 12:40 a.m., deputies arrived on scene and attempted to make contact with a female standing near an apartment. As they approached the female, a male began shooting at the female, striking her. Three (3) deputies fired their weapons at the male suspect, who was struck by the deputies' gunfire. Fire personnel responded and pronounced the female victim and male suspect deceased at the scene. A gun was recovered from the male suspect.

Detectives believe the suspect and victim are known to each other; however, the nature of the relationship is not known. No motive is known at this time.

The identity of the suspect and the victim in this case will be released by the Sacramento Coroner's Office after notification has been made to next of kin.

The investigation into the incident will be conducted by the Sheriff's Homicide Bureau and Professional Standards Division, which is standard practice for any officer-involved shooting that occurs in the Sheriff's Office jurisdiction. An independent review of the incident will be conducted by the Sacramento County District Attorney's Office. The deputies involved in the shooting are 4 year, 21 year and 12 year veterans of the Sheriff's Office. In accordance with the Sheriff's Office policies and procedures, the deputies involved in the shooting will be placed on paid administrative leave pending the investigation.

San Juan Seconds, Please

Story and photo by Susan Maxwell Skinner

CARMICHAEL, CA (MPG) - Last week San Juan High School students of Citrus Heights provided a tasty luncheon for Carmichael Chamber of Commerce members. The meeting spotlighted their school's culinary arts school program, a course that preps teenagers for food industry careers.

The junior chefs offered meat and vegetarian lasagnas with salad and green beans. Dessert was a classic Brown Betty bake with dollops of cream. Led by teacher Brent Boultinghouse, the teens train between one and two hours daily at their school. They run an on-campus cafe and have won California Restaurant Associationsponsored contests.

Twenty years since launching the course, San Juan now boasts a state-ofthe-art teaching facility and trains more than 80 students per year. The school partners with the National Restaurant Association to offer curricula covering food safety, kitchen equipment, menu planning, cost and profitability and customer service. Students increase experience on field trips - including tours of Sacramento hotels and restaurants - and get visits

"The course is popular," considers Boultinghouse. "The kids love seeing the pleasure on people's faces when they eat food they've prepared. Some have parents who cook proper meals; some only get fast food at home. I like teaching kids how to fend for themselves and I want them to have a healthy relationship with food. Student Debt Slows Growth

Special Report From The Institute for College Access & Success Press Release

OAKLAND, CA (MPG) - New data show that about two in three (65 percent) college seniors who graduated from public and private nonprofit colleges in 2018 had student loan debt. These borrowers owed an average of \$29,200, 2 percent higher than the 2017 average of \$28,650, according to a report released by The Institute for College Access & Success (TICAS).

After many years of growth in college graduates' average student debt, debt loads have continued to climb but they are climbing at a slower pace. One important factor in the slower growth of student debt appears to be greater state and local support for public colleges, which enroll three-quarters of undergraduates.

"The growth in student loans has slowed in recent years as states have invested more in public colleges, but millions of students continue to struggle with their debts," said executive vice president Debbie Cochrane. "Colleges, states, and the federal government all have an important role to play in reducing the burden of student debt to increase equity in college opportunity."

Between 2008 and 2012, during the budget crises caused by the Great Recession, state and local appropriations fell by \$2,000 per student. At the same time, student borrowing rose by nearly \$1,100 per student. More recently, as state spending partially rebounded, the student debt situation has improved. With state funding increasing by \$1,150 between 2012 and 2016, average student borrowing fell by \$500. Other potential factors in changing borrowing over time are discussed in the report.

Student Debt and the Class of 2018, TICAS' 14th annual report on debt at graduation, finds wide variations in debt levels across states as well as colleges. Average student debt at graduation in 2018 ranged from \$19,750 in Utah to \$38,650 in Connecticut, and new graduates' likelihood of having debt ranged from 36 percent in Utah to 76 percent in

concentrated in the Northeast and lowdebt states are mainly in the West.

The average debt held by four-year college graduates is an important benchmark for college affordability over time and across states because it measures debt levels for students at a comparable point in their academic careers. However, it does not tell the whole story on student debt. The burden of student debt is disproportionately borne by Black students, first-generation college students, and students from low-income families. For example, graduates from lower income families are five times as likely to default as their higher income peers, and 21 percent of Black college graduates defaulted within 12 years of entering college.

This report uses private data that is the only type of data currently available to gauge cumulative student debt for bachelor's degree recipients each year, including both federal and nonfederal loans. While federal data on student loan debt has improved in recent years, little of it includes nonfederal loan debt from private lenders, states, or schools. As documented in the report, collegereported data on student debt levels show that 31 percent of student loan debt in high-debt states is nonfederal debt, underscoring the need for more comprehensive, federally collected debt data.

With far too many Americans continuing to carry the weight of burdensome student debt, the report puts forward a series of policy recommendations for the federal government, states, and colleges. Among those: the federal government should increase and strengthen Pell Grants, make it easier to repay student loans, and make new investments that supplement - not supplant - state funding for public higher education. The federal government should also collect private student loan data to ensure comprehensive data on debt balances and burdens. States should shift merit-based aid to need-based aid, and improve data systems. Colleges can help by examining debt data across demographic groups of students, set aside funds for student emergencies, and set clear, reasonable student budgets. For more information

Public Health to Host Free Flu Clinics

By Andrea Sandoval, Sacramento County

SACRAMENTO COUNTY, CA (MPG) -Sacramento County Public Health urges everyone to prioritize getting the flu shot this flu season to protect you and your family from the deadly virus. Cases of influenza can show up as early as October and the flu season continues through May. From the end of September through December the Sacramento County Immunization Assistance Program is hosting free Adult and Family Flu Clinics throughout the Sacramento

"Everyone in the community, who can get vaccinated, should get vaccinated. Vaccination is the best protection against the flu and is a preventable illness," Sacramento County Public Health Officer Dr. Olivia Kasirye said. "As the number of vaccinated individuals in a community increases, it decreases the transmission of the flu virus to those who

have not, or cannot be vaccinated resulting in fewer hospitalizations and deaths."

Those who cannot receive the vaccine, including infants under six months of age, seniors and individuals with a compromised immune system such as those living with diabetes, HIV, or going through chemotherapy, rely on others being vaccinated to help protect them," Kasirye said. "The earlier people get vaccinated, the better. It takes two weeks for the protective properties of the vaccine to take effect."

Flu clinics are open to all who are over six months of age and are without medical contraindication to receive the vaccine. If you cannot attend a flu clinic, low-cost immunizations are also available for those who qualify.

A free flu clinic will be open on Wednesday, Nov. 6 at 10 a.m. - 1 p.m. at:

Canine trainer Carol Kracht runs "Because of Dogs" coaching academy in Carmichael and suggests prep before owner-pet dinner dates. "Visit the restaurant at a quiet time," she advises. "Get your dog used to lying at your feet for short periods at first. When you go for your meal together, take something to occupy him once he's eaten. Otherwise he'll get bored. A chewable bully stick soothes a dog like a child's pacifier."

"It might seem like I'm spoiling Tory," considers Cathy Cook. "But we do everything together, so why not eat out, too? The servers treat her like a regular customer. She gets her water bowl when I get my glass. Her eggs come at the same time as my omelet. When I park outside the restaurant, I see Tory's big smile. She knows I've brought her to the place where we both get to eat."

Motorcyclist Killed In Collision on I-80 Westbound

Bv Mike Zerfas. California Highway Patrol

SACRAMENTO REGION, CA (MP) - On October 22, 2019 at approximately 4:32 am, The California Highway Patrol (CHP) received a call of a multiple vehicle traffic collision involving a motorcycle on I-80 westbound near the Antelope Scales. CHP officers responded to the collision scene and learned that a 38-year old man out of Los Angeles had been riding his 2009 Kawasaki motorcycle westbound on I-80 and was approaching the Antelope Scales when he collided into the rear of the sedan (2012 Ford Fusion) that was driving in front of him. This caused the motorcyclist to be fully ejected from his motorcycle. Both the rider and the bike were sliding on the roadway and came to rest in the #4 westbound traffic lane directly in the path of a big rig (2019 Peterbuilt with box trailer). The driver of the big rig was unable to stop or avoid the rider and collided with him. The motorcyclist was pronounced dead on scene at 4:42 am.

The #2 thru #5 traffic westbound lanes were closed until 6:20 am while CHP officers conducted their on-scene investigation. The cause of this collision is under investigation. It is not known if drugs or alcohol were a factor in this collision however no arrests were made on scene.

The drivers of both the sedan (a 58-year old woman from Citrus Heights) and the big rig (a 64-year old man from Granite Bay) were not injured, remained on-scene, and cooperated with the investigation. Any persons who may have witnessed this collision or who can provide any additional information regarding this collision should call Officer Mike Zerfas at the North Sacramento Area CHP office at (916) 348-2300 or Officer Amy Walker by cell phone at (916) 798-0975.

Do you have an **emergency kit** with nonperishable food, one gallon of water per person per day, medications, flashlights and batteries?

If anyone in your family **depends on electricity for their medical needs,** have you made preparations?

Public Safety Power Shutoff, or PSPS, is a safety program that proactively shuts off electric power lines when there is an elevated fire risk.

All PG&E customers should be prepared for possible power outages that could last for multiple days.

Make It Fun and It Will Get Done! The Secret to Being Organized Pam Young's Corner

Sidetracked Home Executives Celebrating 42 Years!

Sidetracked Home Executives has been in business for 42 years! That means there are thousands of women out there who have used the 3x5 card file system for organizing their homes and families that is explained in the book. One of the best parts of the system is that it's flexible and easy to pick back up if, in the course of life, it was abandoned for a few months, years or decades. Here's a neat letter from one such woman!

Dear Pam,

Wow! 42 years! I think it was about 1995 (just guessing since it's been so long ago!) when I found you and started using the file system. You saved my sanity, and probably the sanity of my 5 children and husband.

We were a poor military family and I discovered yard sales. I thought I'd died and gone to heaven, because now I could actually buy clothes for my children without making them myself. I was a pretty good seamstress but even that was expensive. But of course that backfired on me, and I became addicted. I bought everything I could afford! I started to get my life under control and started clearing things out. Not very efficiently, though, because my kids had by then also become my accomplices at

Anyway, many years have gone by and now the kids are all grown with kids of their own. I'm cured of my addiction, but some of my kids aren't. I have one son, a stay-at-home dad with 4 children, ages 2-12. His wife is a doctor so she's WAY too busy to help. He's on his own with the house. He's pretty overwhelmed, but he's NOT a clutter bug, so he's wearing himself out trying to keep the house clean. He's usually making excuses that he's too busy picking up after everyone to get them to help, or teach them better habits.

They're moving from the east coast to the west coast, (I live in Oregon and also have a part-time home in Washington. Do you have any suggestions about how he could help his family? I think he might be interested in the card system. It might be simpler for him, and for the kids. Do you still have the "House Fairy" for the kids?

Sorry to talk your ear off, but I've wanted to tell you for years how much I appreciate you and all you do!

Take care,

This book is now available as an E-book! Just click on the cover to purchase.

I told Lisa the 3x5 card file system would be perfect for her son! For one thing, it's the best delegating tool around! And the House Fairy is still flying high helping parents inspire their little ones (ages 3 to 9) to keep their rooms neat and clean and help around the house. The House Fairy's motto is, "She flies, she spies, she leaves a surprise." To sign up for the House Fairy video program just go to www.housefairy.org and you'll see how to get her program.

When you think about it, one thing hasn't changed in 42 years! We still have homes that get messy. One big thing that has changed is our society is that it has put homemaking on a back burner. Being a homemaker is no longer looked up to as the most important job on the planet. Our kids don't have role models of happy homemakers. Even the curriculum for Home Economics has its emphasis on economics outside the home.

I'm most proud that my three adult children, two daughters and one son, put being a stay-at- home presence ahead of economics. My first granddaughter has chosen to stay-at-home to raise her baby making her a fourth generation stay-at-home parent. Way to go

Ask Toni Medicare Rule . . . Married vs **Domestic Partner And Delaying Medicare Part B**

Toni.

My problem is different than most couples because now I am finding out that my company's group health plan is not paying for ANY Medicare Part B medical expenses since I am not married but am in a domestic partner relationship. We have been together for over 25 years but never officially married. Samuel is 70 and I am a 58-year-old female who now must learn the maze of Medicare.

Sam has serious health issues with 2 stents in his heart and a recent back surgery, which is now costing us thousands of dollars because my company's group health plan is not paying for his doctor's care. He has never enrolled in Medicare Part B because I have always been the "working spouse." Now I am discovering that the group health plan (the company's self-administered group health plan) does not recognize "domestic partners" as a married couple because we do not have a marriage license.

Now he needs to enroll in

him being 70 if he doesn't consult your benefits or HR do this wcorrectly the penalty will be over 5 years and from what I have read in your articles is that this could be a large penalty forever. The bottom line is ... We need HELP!! Thank You Sarah from Las Vegas, NV

Sarah:

This needs to be a rush job! Sam needs Medicare Part B immediately!

This is a new question that I had never thought about and everyone needs to know the rules of Medicare regarding delaying Medicare Part B, when there is an unmarried domestic partner situation (same sex or opposite sex) and they receive health insurance through their partner's employer.

Always discuss delaying your domestic partner's Medicare Part B with your company's HR department about what is in the company's handbook regarding unmarried domestic spouse Medicare rules.

Sarah you are in the middle of the maze of Medicare!

The size of the group makes a difference. When there are under 100 employees on your unmarried spouse's group health insurance plan, you should generally not delay the nonworking domestic partner or common law spouse's Part B. When there are Medicare Part B and with over 100 employees, then

department about if your domestic partner can delay their Medicare Part B without receiving a late penalty when they need to enroll in Medicare Part B at a later

I have written about the Special Enrollment Period and having the Social Security for titled "Request for Employment Information" filled out by your HR or office manager. This should be done ASAP and Sam could have his Medicare Part B with an effective date of November 1.

Very Important... Sam will have to take the form down to your local Social Security office, meet with a Social Security agent in person and get copies of everything.

Don't mail it to Social Security or put it in the drop box. Always meet face to face with the Social Security person!

There are specific Medicare rules when changing from a Medicare Advantage plan to a Medicare Supplement. For help, call the Toni Says Medicare Hotline at 1/844-250-8664 or email info@ tonisays.com.

Highway Patrol Concentrate Efforts on Impaired Driving

By Jaime Coffee. California Highway Patrol

Office of Traffic Safety (OTS) are partnering on a new campaign aimed at reducing the number of crashes caused by impaired drivers through enforcement and education efforts. The yearlong, California Impaired Driving Reduction (CIDR) campaign, which began October 1, 2019, continues through September

The CIDR grant provides the CHP with funding to conduct additional driving under the influence (DUI) saturation patrols, checkpoints, and traffic safety education efforts throughout California. These efforts are designed to remove DUI drivers from the roadway and educate the public regarding the dangers of impaired driving. Additionally, the CHP will actively participate in California's Drive Sober or Get Pulled Over efforts.

According to the CHP's Statewide Integrated Traffic Records System data, in 2017, there were 594 deaths and more than 11,000 injuries due to DUI crashes within the CHP's jurisdiction. Each one of these injuries and deaths represents a preventable tragedy and a continued need to focus efforts on reducing impaired

"Reducing impaired driving through SACRAMENTO, CA (MPG) - The California education and enforcement remains a Highway Patrol (CHP) and the California high priority for the CHP," said CHP Commissioner Warren Stanley. campaign provides the CHP with additional resources to lessen the impacts of impaired driving, while continuing to make California's roadways a safer place to travel."

The CHP continues to encourage the public to have a plan before getting on the road. In addition to alcohol, driving under the influence of cannabis, medications, and/or drugs is illegal and dangerous. Always designate a sober driver, take public transportation, or ride-share. There is always a better option than getting behind the wheel while impaired.

The CHP would like to remind the public to call 9-1-1 if they observe a suspected DUI driver. Be prepared to provide the dispatcher a location, direction of travel, and vehicle description.

If you have questions regarding impaired driving, please contact your local CHP Area office.

Funding for this program was provided by a grant from OTS through the National Highway Traffic Safety Administration.

CHP Helps Young Drivers and Parents "Start Smart" and Stay Safe

By Clyde Holland, California Highway Patrol

SACRAMENTO, CA (MPG) -Within the first two years of being involved in a collision is at a lifetime high. To address the problem of motor vehicle collisions as the leading cause of death for teens in the United States, the California Highway Patrol (CHP) offers an educational program to help recognize and eliminate high-risk driving

behaviors. The two-hour Start them."

Smart class engages newly licensed teen drivers and their parents or guardians, while addressing high risk driving behaviors observed every day by of driving, a teen's chance CHP officers. Start Smart is conducted throughout the state at no charge.

"It is the CHP's focus to save young lives as they embark on their journey behind the wheel," CHP Commissioner Warren Stanley said. "Many of these traffic deaths are preventable, and we will continue to work toward the goal of eliminating

The Start Smart curriculum is based on collision statistics, teen driver and passenger behaviors, Graduated Driver License (GDL) laws, cultural changes in society, and the need for strong parental involvement. Parents and guardians also learn of their responsibility to teach their new driver and model good driving behavior.

Parents and teenagers can register for a Start Smart class by contacting their local CHP office. Office locations are listed at www.chp.ca.gov

COOKING TIPS FOR A SAFE THANKSGIVING

#1 THAWING

Thawing turkeys must be kept at a safe temperature in the refrigerator. The "danger zone" is between 41 and $135^{\circ}F$ – this is the temperature range where foodborne bacteria multiply rapidly.

#2 PREPARATION

After working with raw poultry, always wash utensils and work surfaces, as well as your hands with soap and warm water for at least 20 seconds before touching other foods.

#3 STUFFING

For optimal safety, cook the stuffing outside the turkey in a casserole dish. However, if you place stuffing inside the turkey, do so just before cooking, and use a food thermometer. Make sure the center of the stuffing reaches a safe minimum internal temperature of 165°F.

#4 COOKING

Always thaw turkeys completely in the refrigerator. Set the oven temperature no lower than 325°F. Place turkey breast-side up on a wire rack in a shallow roasting pan. Check the internal temperature using a food thermometer - the center of the stuffing and meaty portion of the breast, thigh and wing joint must reach 165°F at a

#5 LEFTOVERS

Perishable foods should not be left out of the refrigerator for more than 2 hours. To reheat turkey, cut the meat into smaller pieces and keep legs and wings whole - before serving the turkey. Be sure to reheat all your leftovers to a minimum of 165°F.

Trump Should Want a Rapid *Impeachment*

The Ukraine story hasn't Donald Trump, and there's only one way out -- to get impeached, and the sooner, the better.

Trump obviously hates the idea of being impeached. He thinks it's unfair, and is raging against the process with every political and legal argument his team can muster and every insult and countercharge he can make on Twitter. But he doesn't matter.

Impeachment is baked in the cake. There's no way that Democrats, having opened an impeachment inquiry (although without of this moment, House a vote), can pull up short now. How could they, after touting revelation after revelation, including a supposed "confession" by Trump's chief of staff?

As impeachment rumbles on, it puts every Trump lapse (Syria, Doral, etc.) in itself. starker relief and places it in the context of the question of whether he should be impeached and removed.

for impeachment is about 50 percent or a little higher, there's every reason for Democrats to stretch it out. The current process suits their purposes nicely. They interview officials in private and then leak the most damaging parts. There's no danger of public hearings bouncing the wrong way ... because there are no public hearings.

The impeachment inquiry been good for President also has the advantage of giving the Democratic base what it wants, and creating a strong sense of action against Trump. When Republicans took the House in the middle of Barack Obama's first term, they had trouble controlling the expectations of their own base, which wanted immediate results when the GOP had limited power. Impeachment allows have any choice in the Democrats to forestall such a feeling among their own voters, even though they, too, aren't getting anything substantive done.

> This suggests that, as Speaker Nancy Pelosi looks to have judged the politics of impeachment shrewdly, holding off when it still seemed politically premature and striking when the prospect of moving the needle of public opinion presented

Given how impeachment is playing, she should welcome the White House embracing the normal

Meanwhile, if support strategy in these fights of attempting to frustrate and delay the inquiry. Not only is this standard approach not fully working -- former and current officials are talking to House investigators regardless -- at the margins it lengthens an inquiry that's working for the Democrats.

All that said, it's always possible the public will tire of the probe, especially if it reaches past the first month or two of an election year.

What can Trump do about any of this? Absent a mea culpa and promise of full transparency, which aren't in the cards for temperamental reasons if nothing else, Trump can't change the dynamic or the timing. But he should be secretly rooting for the rapid arrival of Impeachment Day (and the near-inevitable acquittal in the Senate).

It will be one of the biggest stories of the Trump presidency. Then, like everything else, it will grow old very fast. Impeachment won't be forgotten, but it will fade into part of the tapestry of endless Trump controversies and outrages, from Charlottesville to his Helsinki press conference with Vladimir Putin.

Democrats will believe they struck a decisive blow against Trump, when they really may have helped him turn the page.

How Much Emergency Fund?

Dear Dave,

I know you talk about having an emergency fund of three to six months of expenses set aside. My husband and I are having a difficult time agreeing on exactly how much emergencies. How do you determine the exact amount? - Erin

Dear Erin,

The exact you amount you have in your emergency fund – whether it's three, four, five, or six months of expenses - is Still, there are a few practical things to consider.

If you both have very stable jobs, you'd probably be okay saving three or four months of expenses. But if one of you is selfemployed, makes most of their money through commissions, or only one of you works outside the home, it would make more sense to

Dave Ramsey Says

expenses set aside.

Of course, you can always compromise while leaving room for growth. There's nothing wrong starting out with three months of expenses saved, then adding more as time goes by. The main thing is that you're both in agreement, and you both feel safe with the amount of money in your emergency fund! - Dave

Over a period of time, some of them will go up and some will go down. If the overall effect is that the group is worth more now than it was before, you made money. Trump Delivers Major Blow to Globalism

Harold Pease, Ph. D

Fallout from President Donald Trump's pullout of 28 soldiers from Syria has brought globalist of both political parties to the front in opposition. Turkey used the pullout as an excuse to invade Syria in a centuries-old conflict between themselves and the Kurds who were paid heavily by the American taxpayer to help the United States round up the last remaining fragments of ISIS. With that done the rational for staying in Syria vaporized. Globalist networks did site as rational for withdrawal, Trump's fulfilling a campaign promise to bring home American troops, but all networks, including Fox, failed to share the

part of the story. This we

What Trump is about is the most massive change in American foreign policy in a hundred years. We will no longer fight, be wounded, die, and fund endless wars where we have little or no defensive interest. We will no longer serve as the policemen of the world or of the world governing United Nations. Globalists and globalism are out of power-at least in the Trump Administration.

This is the real reason for the three-year-long neverending multiple impeachment attempts, started even before Trump's inauguration. Why? Because this is the only president that could not be purchased, controlled, or at least managed, by Wall Street's globalist special interest group, The Council on Foreign Relations (CFR).

If this is new to readers, hundreds, including previous columns of this columnist, have documented this organization's globalist aspirations and the power it has had in all elections and administrations since its founding in 1921. The extent of one's ignorance of this

military industrial complex organization demonstrates the power this largely secret combination has had over education, all national medias and government.

> So what did the globalist establishment medias omit from the news? That war industries profit from war, thus love war-the same message that President Dwight D. Eisenhower shared in his final address as president, January 17, 1961, warning of the dangers of the military industrial complex.

Globalists, often called the establishment or the deep state, prefer world-wide open borders, the eventual transfer of all political power to international levels, and eventually world government. National sovereignty is their enemy-thus their hatred of Trump's America first policy. Patriots prefer freedom from excessive government, independence from any governing entity other than Congress, patriotism, and today, the Constitution as written. The choice is uncannily similar to the that of Americans in 1776 – liberty.

Trump told reporters who slammed him "for abandoning the Kurds" by removing 28 soldiers manning the border between they and the Turks. "We don't have to fight these endless wars. Were bringing them back home. That is what I won on."

Then he identified the real trial complex-or beyond... would like me to stay ... They want me to fight forever. They do very well (financially) fighting. That is what they want to do, fight. A lot of companies want to fight because they make their weapons based on fightingnot based on peace-and they take care of (employ) a lot of people."

Trump explained, "I want to bring our soldiers back home. We are not a police force, we are a fighting force. We are the greatest fighting force ever. I spent 2 1/2 trillion dollars over the last almost three years rebuilding our military. When I took it over it was an absolute mess. It was totally depleted." most powerful nuclear base by far in the world. We have things that we never had

Continuing, "We have a great modern military but tries have American troops?

that does not mean that we are going to waste it. It does not mean that we are going to deplete it like we did before with these crazy endless wars. So, Turkey and Syria will hopefully work issue, "Some people-whether it out between themselves. you call it the military indus- Hopefully ISIS (prisoners) will be guarded" because "Russia, Iran, Syria, and, to maybe a slightly lesser extent, Turkey, they all hate ISIS as much as we do. And, it is their part of the world. We are seven thousand miles away (emphasis added)" (MSNBC Press Release with Italian President Sergio Mattarella. October 16,

On the same day in a subsequent press conference Trump added more, "We were supposed to be there for 30 days. We stayed for 10 years and it is time for us to come home. We are not a policing agent and it is time for us to come home The plan is to get out of endless wars to bring our soldiers Now, he adds, "We have the back home. They are not to be policing agents all over the world.'

> Russia and China do not have troops in other countries he argued. How many coun-

"We are in 90 countries all over the world policing. And frankly many of those countries, they don't respect what we are doing. They don't even like what we are doing and they don't like us." By not having a military presence in 90 countries we will save tremendous amounts of money, manpower, and lives.

Trump is returning American sovereignty to America and all globalists hate him for it. They will do anything to destroy him. This is what the globalist media outlets have not shared. This omission was intentional.

The Marconi Dental Group Introduces The HealthyStart™ System

Marconi Dental Group Press Release

SACRAMENTO COUNTY, CA (MPG) - The Marconi Dental Group is excited to announce that Dr. Maryam Saleh is now HealthyStart™ System certified and offering this amazing service to their young patients. The HealthyStartTM system addresses the root cause of sleep disordered breathing in children. Statistics show that 9 out of 10 children are suffering from one or more symptoms of sleep related breathing symptoms. Unfortunately, sleep disordered breathing can be easily overlooked, misdiagnosed, and mostly left untreated. This is a safe, pain-free and non-invasive method meant not only to straighten teeth without braces but also aid the child into proper growth and

Young children's bodies are able to adjust and sculpt easily, especially in their mouth and bone structure. Crowded teeth may force the tongue forward against their teeth, creating narrow dental arches and constricting the airway. Breathing proper oxygenation is necessary for the health and well-being of a child. With all of this in mind, the HealthyStartTM removable appliances, which are BPA, silicone/latex free, and FDA cleared, help guide a child's teeth into the proper position while addressing the formation of a proper airway.

If your child suffers from tooth grinding, snoring/audible breathing, daytime drowsiness, headaches, open mouth breathing, bedwetting, restless sleep and nightmares, swollen tonsils and adenoids, irritability, anger, attention deficit, Healthy Start can help. An open airway and proper REM sleep and increase oxygen to the brain which helps the brain restore and function optimally.

passion in providing any and all services to help children live their best lives. She became certified in Healthy Start because her youngest of three children was suffering from many of the above-mentioned symptoms. With no solutions from the pediatricians and ENTs, she became motivated to find her own proactive and non-invasive approach. After learning about Healthy Start, Dr. Saleh now has all three of her kids using the appliances. She realized that although her youngest had the most severe symptoms, all her kids will benefit from this therapy. Dr. Saleh believes that every child deserves a Healthy Start and treats all her patients like her own family.

The HealthyStartTM method is a safe, effective, and non-invasive system to aid children in optimal growth and development.
