Democrats Vote to Crush, Destroy Independent Contractors

From the Office of Senate Republican Leader Shannon Grove

SACRAMENTO, CA (MPG) - On September 10th, mem-

bers of the California Senate Republican Caucus voted against Assembly Bill 5 which would threaten the livelihoods of many California independent contractors. AB 5 undercuts workers' freedom in many industries to choose independent work and threatens their employment status. The author of AB 5 offered carve-outs for several wellconnected professions which favored certain industries over others.

On the Senate floor tonight, Senate Republican Leader Shannon Grove (R-Bakersfield) introduced an amendment to AB 5 which would have conformed California's test for employment with an existing federal standard and offered parity across the board. Senator Brian Jones (R-Santee) presented a separate amendment that would have delayed the implementation of the Dynamex decision

RANCHO CORDOVA, CA (MPG) - On Sunday, September 8, families from around the region celebrated Grandparents Day with a Butterfly Release at Sacramento Children's Museum (SCM). The event, which was a collaboration between SCM and Snowline Hospice, honored grandparents' significant impact on children's lives. Snowline development director Rene Hamlin said, "We wanted to do something together with the Sacramento Children's Museum that celebrated grandparents because a lot

In addition, other members of the California Senate Republican Caucus offered amendments to AB 5 that would provide exemptions for the following industries: forestry, health care professionals, newspapers carriers and distributors, physical therapists, interpreters, translators, single truck owner-operators, non-profits, franchisors, franchisees, and design who were excluded from AB 5. Senate Democrats blocked these efforts to protect the employment status of independent contractors.

"Over 2 million Californians choose to work as independent contractors and AB 5 only protects certain industries. I am proud to have stood with my Republican colleagues in offering better solutions to protect workers in industries such as healthcare, transportation, and newspapers carriers and distributors. If the governor truly believes in supporting a California for all, then he needs to do the right thing and veto AB 5." - Senate **Republican Leader Shannon** Grove (R-Bakersfield)

"I opposed Assembly Bill 5 because it undermines the principle of equal treatment under the law and deprives many Californians the right to be their own bosses. The bill's Christmas tree of exemptions is a prime example of the Legislature picking winners and losers. Why should some people enjoy an exemption while others such as newspaper carriers and language interpreters and translators do not?" - Senator Patricia Bates (R-Laguna Niguel)

The Mushroom: Plant or Animal?

By Margaret Snider

RANCHO CORDOVA, CA (MPG)

- Visitors to the current show at the Mills Station Arts & Culture Center will see details of living things that exist among us all the time and are often taken for granted.

The Natural Wonders exhibit treats visitors to a close-up photographic review of mushrooms, seeds, and pollinators. The reception on Wednesday, September 4, opened with the graphic display of many types, forms and functions of all three, along with many facts not generally known. Jennifer Jewell, host of the national awardwinning, weekly public radio program and podcast, Cultivating Place, created the exhibit as curator of the Gateway Science Museum, California State University at Chico. John Whittlesey, naturalist and Northern California plantsman, provided the primary source for the many photos. Artist Ron Hall enhanced the exhibit here in Rancho

"What Rancho Cordova does for the area is by far so much better than what other communities do," said visitor David Buck. "It's just awesome. I'm glad I live here." He has noticed and enjoyed the presence of nature since he was a child. "I want to stay (at the exhibit) a whole week."

Volunteer docent Larry Ladd said that he likes to

visit exhibits like this, questions that get them thinking. "Is the mushroom more like a plant or an animal?" he might ask the kids. A mushroom decomposes wood and releases carbon dioxide into the believe we have that many atmosphere. "If you go kinds of mushrooms, just in by behavior, what it looks like, you'll automatically say plant," Ladd said, "but

as soon as you start talking about breathing out carbon dioxide, that's a different story... Genetically,

Anita Bhattacharya attended the exhibit with her son Anish, who is 4. Looking at the mushrooms with him, she said, "I can't Northern California!'

creation of the gig economy giving economic opportunities to folks outside of the traditional workplace. AB 5 will not only limit an individual's ability for flexible employment, but will destroy entire industries across California. Independent contractors and small businesses are the backbone of a thriving California economy." - Senator Andreas Borgeas (R-Fresno)

"This bill has morphed into an unworkable mishmash of industry exceptions, which ultimately picks winners and losers based on who is politically-connected. A simple test should be, if you have a business license, you're a businessperson!" - Senator Brian Dahle (R-Bieber)

"AB 5 exemplifies everything that is wrong with one party rule in Sacramento - those with influence (i.e. union leaders) and those with money (i.e. campaign donors) get their way. Everyone else, particularly hard-working California families, are left out. In the Capitol absolute power corrupts absolutely." - Senator Brian Jones (R-Santee)

"AB 5 employs a one-size-fits-all approach that won't work for Californians. We're talking about college students, single moms, and many other hard working individuals who need flexibility to pay their bills. The majority party is once again taking away choice from the very people they were elected to serve." - Senator John Moorlach (R-Costa Mesa)

"By choosing to exempt some industries, but not others, Democratic legislators and represents California's 16th Senate District. *

unions are picking winners and losers through a process that gives the distinct appearance of impropriety and is another indication that Sacramento Democrats continue to embrace a slide toward socialism." - Senator Mike Morrell (R-Rancho Cucamonga)

"California has become a hostile place to do business. Tonight, the Legislature turned this hostility toward millions of independent contractors. With the exception of a few professions, Assembly Bill 5 will restrict a worker's ability to work flexible hours that fit their needs." - Senator Jim Nielsen (R-Tehama)

"Make no mistake, AB 5 is an abuse of the legislative process by big labor union bosses who want to force companies who give opportunities to independent contractors into making their contractors join the union. As amended, AB 5 picks winner and losers, and the big losers will be the people of California who chose to work independently and pursue their own dreams and will be prevented from doing so by this onerous legislation." - Senator Jeff Stone (R-Riverside County)

"A legitimate owner operator trucker is the quintessential independent contractor. This classic 'little guy' has put his or her heart, soul and personal resources into building an independent business. By excluding these truckers from AB 5, the Legislature has capriciously eliminated their livelihood." - Senator Scott Wilk (R-Santa Clarita)

I'm looking forward to the California Capital Airshow on October 5th and 6th. There will be displays of airplanes and different organizations that are worth going to see, as well as the airshow performers that amaze everyone in the audience of all ages. The U.S. Navy Blue Angels will be back this year to astonish and dazzle their fans. I think that being able to present what our military is doing and can do, at home and around the world, gives us a comfortable feeling when we know what we are seeing and hearing is still the sound of freedom. The vast majority of pilots who present part of the Airshow have military backgrounds and add to our show, which surpasses any other in our country. I will admit that I'm a little prejudice because it is presented in Rancho Cordova, but...what can I say? (I'm right.)

This year, the City of Rancho Cordova, in partnership with the Airshow, is sending 21,000 Rancho Cordova students and 3,500 parents to the Airshow for free as part of our 4th annual Operation Inspire The Future. Exclusive Operation Inspire The Future tickets are being given to all 19 Rancho Cordova public elementary, middle and

The written word has been the best way to communicate for centuries in a variety of circumstances. I am curious about how our children will sign legal and professional documents when there seems to be states where cursive will no longer be taught in elementary schools. Cursive handwriting, we are told, will not be taught because it's a big, old waste of time, and the arguments are getting pretty heated. Some say keyboarding will help kids succeed in school and in careers more than cursive and spending a full year in the third grade learning how to write in cursive is a waste of time.

On the other side, people who argue for keeping cursive writing say that the fluid motion enhances hand-eye coordination and develops fine motor skills. One of the supporters of keeping it in schools is previous Idaho State Representative Linden Bateman. In addition to arguing for the handeye coordination and so forth, they believe that "we will lose the ability to see you next time.

CHURCH DIRECTORY

high schools. Our Airshow interpret valuable cultural uments, ancestor's letters and journals, handwritten scholarship - if they can't read cursive."

The arguments will continue, but it would be a shame if our kids can't read the Constitution of the United States because it is written in cursive. It sounds like I'm for keeping cursive, and yes, I am.

As many of you know, newspapers can be listed as an endangered species. Keeping newspapers around can help in many ways. In addition to lining the bottom of a bird cage. I think that the written word remains the best way to communicate in letters, cards, documents and many others. Unlike computers, iPads, emails, etc., something that is written by hand is more personal, and you can refer to or read it over and over without having it crash and losing it.

At Christmas, for example, you can look back at the cards to enjoy the beautiful pictures and read what is written inside without having to bring it up on your computer again, and the cards help me when I am looking for an address that I probably lost. When you write to someone, you can express yourself precisely, with every nuance used as you want. And the reader can read that written item when and where they choose for as long as they choose.

How do I Have a Say About What is Taught in Health Education?

By Angela Griffin Ankhelyi, FCUSD

RANCHO CORDOVA, CA (MPG) - At the end of the 2018-2019 school year we provided information on the Health Education Framework that had recently been released by the California Department of Education, which included an outline of the differences between the California Healthy Youth Act, the Health Framework, and our curriculum. We also sent out a district-wide survey so we could better learn what questions and concerns our families had, surrounding sexual education.

In an effort to continue a two-way conversation on this subject, we would like to invite you to attend any one of the Health Education Parent Forums taking place at our elementary schools in the upcoming weeks.

At the Parent Forum you will learn about the current 5th grade curriculum

Always Changing and Growing Up, have an opportunity to see one of the videos, Always Changing - Co-ed, that is shown to fifth graders, and share your feedback with us in a guided activity. This feedback will be used to recommend a curriculum to the Board of Education. If new curriculum is recommended, and upon Board approval, it would take effect in the 2020-21 school year.

FDA Reiterates the Importance of Vaccines

U.S. FOOD AND DRUG ADMINISTRATION SACRAMENTO REGION, CA (MPG) - The U.S. continues to experience cases and outbreaks of measles, largely due to unvaccinated or under-vaccinated segments of the population. Measles can be a serious disease. This year has seen the greatest number of measles cases reported in the U.S. since 1992, and since measles was declared eliminated in 2000. Of those diagnosed with measles,

approximately 10% have required hospitalization. The majority of cases are among people who were not vaccinated. The Measles, Mumps, and Rubella (MMR) vaccine has been approved in the U.S. for nearly 50 years. It is highly effective and very safe. As a result of its use, measles was declared eliminated in the U.S. in 2000, rubella in 2004, and since 1989, mumps cases have decreased by 99%.

Bill to Reclassify Independent Truckers as Employees Passes State Senate

AB 5 Spells the End for Independent Trucking in California

From The California Trucking Association

SACRAMENTO, CA (MPG) - The California Senate approved Assembly Bill 5 (AB 5), a measure that will put tens of thousands of owner-operator truckers, who service agriculture, retail and other industry sectors, out of business. Despite efforts by the California Trucking Association (CTA) to amend the measure in a way that would protect independent truckers, Assembly Bill 5 by Assemblywoman Lorena Gonzalez (D-San Diego) passed with an overwhelming XX-XX vote.

"AB 5 could have been amended to address worker misclassification issues, as well as protect the 70,000 predominantly minority-owned truckers currently operating as independent contractors," said Shawn Yadon, CTA's CEO. "There is no reason why protecting workers does not include defending the right of tens of thousands of drivers who have built their businesses around the independent owner-operator model, invested hundreds of thousands of dollars in their trucks and have operated their own businesses for decades."

Since the bill's introduction, CTA has advocated for changes to AB 5, including requirements for operating authority, ownership of vehicles, exclusivity and transparency about pay. These changes would have set a clear criterion and established independence in a way that protected employees from misclassification without hurting entire sectors of the business community.

Instead, AB 5 proponents created a scenario in which they chose winners and losers by carving out some professions while excluding others. In an attempt to address some of the concerns of California's owneroperators, AB 5 was amended to allow drivers working within the construction industry to continue operating as independent truckers for a two-year grace period. However, AB 5 will severely limit work opportunities for tens of thousands of independent owner-operators in other business sectors.

In California, more than 136,950 trucking companies remain primarily small, locally owned business with small fleets and independent drivers.

"AB 5 will have implications that will go beyond employment classification," said Yadon, CTA's CEO. "Like the rest of the nation, California is experiencing a shortage of truck drivers, this measure will aggravate the problem by removing thousands of drivers from rosters as many have indicated they will move to other states or seek a different line of work all together."

AB 5 now heads to Governor Gavin Newsom for his signature. If signed into law, AB 5 would deny a significant segment of the trucking industry the ability to continue operating as independent owner-operators, forcing them to abandon the investments they have made in their vehicles and taking away their flexibility to set their own schedule and determine their own destiny for their business.

Governor Newsom has until October 13, 2019, to approve or veto this bill.

They all see their own damage as coming from the top, blaming their father even as they revere and fear him. It's complicated, as it ought to be, and casting Kevin Costner in the role, working against his own early career image as an admirable hero, reminds me how it felt back in the day when they would cast someone like Henry Fonda or James Stewart against type as a villain.

This amount, like the bid deposits, must be delivered in the form of a certified or cashier's check. If the Secretary is the highest bidder, he need not pay the bid amount in cash. The successful bidder will pay all conveying fees, all real estate and other taxes that are due on or after the delivery date of the remainder of the payment and all other costs associated with the transfer of title. At the conclusion of the sale, the deposits of the unsuccessful bidders will be returned to them. The Secretary may grant an extension of time within which to deliver the remainder of the payment. All extensions will be for a 15-day increments for a fee of \$500.00, paid in advance. The extension fee will be in the form of a certified or cashier's check made payable to the Secretary of HUD. If the high bidder closes the sale prior to the expiration of any extension period, the unused portion of the extension fee shall be applied toward the amount due. If the high bidder is unable to close the sale within the required period, or within any extensions of time granted by the Secretary, the high bidder may be required to forfeit the cash deposit or, at the election of the foreclosure commissioner after consultation with the HUD representative, will be liable to HUD for any costs incurred as a result of such failure. The commissioner may, at the direction of the HUD representative, offer the property to the second highest bidder for an amount equal to the highest price offered by that bidder. There is no right of redemption, or right of possession based upon a right of redemption, in the mortgagor or others subsequent to a foreclosure completed pursuant to the Act. Therefore, the Foreclosure Commissioner will issue a Deed to the purchaser(s) upon receipt of the entire purchase price in accordance with the terms of the sale as provided herein. HUD does not guarantee that the property will be vacant. The scheduled foreclosure sale shall be cancelled or adjourned if it is established, by documented written application of the mortgagor to the Foreclosure Commissioner not less than 3 days before the date of sale, or otherwise. that the default or defaults upon which the foreclosure is based did not exist at the time of service of this notice of default and foreclosure sale, or all amounts due under the mortgage agreement are tendered to the Foreclosure Commissioner, in the form of a certified or cashier's check payable to the Secretary of HUD, before public auction of the property is completed. The amount that must be paid if the mortgage is to be reinstated prior to the scheduled sale is \$382,743.59 as of 09/19/2019, plus all other amounts that would be due under the mortgage agreement if payments under the mortgage had not been accelerated, advertising costs and postage expenses incurred in giving notice, mileage by the most reasonable road distance for posting notices and for the Foreclosure Commissioner's attendance at the sale.

Tainted Skin Cream Results in Mercury Poisoning

By Andrea Sandoval, Sacramento County

SACRAMENTO COUNTY, CA (MPG) - A Sacramento woman is currently in the hospital in a semi-comatose state after using a Pond's-labeled skin cream tainted with methylmercury. This is the first reported case of methylmercury poisoning of this type linked to a skin cream in the United States. The woman obtained the skin cream through an informal network that imported the cream from Mexico. This type of cream is used by consumers as a skin lightener and to remove spots and wrinkles. The mercury was not added by the Pond's manufacturer, but by a third party after purchase.

"Sacramento County Public Health urges the community to immediately stop using similar skin creams imported from Mexico due to the risk of contamination with methylmercury," said Sacramento County Public Health Officer Dr. Olivia Kasirye. "Methylmercury is extremely dangerous to adults and children."

Sacramento County Public Health is working closely with the California Department of Public Health to test similar creams in the Sacramento-area for methylmercury. Methylmercury can enter the nervous system and can cause severe illness among household contacts, especially in pregnant and breastfeeding women and children. Signs and symptoms include the following:

Difficulty concentrating, memory loss; Nervousness, irritability, anxiety; Depression, insomnia; Headaches; Weight loss, fatigue; Tremors, numbness or tingling in hands, feet, or around the lips

Children with prolonged exposure may show these symptoms: Pink hands and feet; Skin flaking; Excessive saliva or thirst, gum disease; Irritability, poor appetite; Poor muscle tone, leg cramps; High blood pressure, and a rash.

In California, over the last nine years, there have been over 60 poisonings linked to foreign brand, unlabeled, and/or homemade skin creams that contained the less toxic form of mercury, mercurous chloride or calomel.

For those who use imported skin creams from Mexico:

Stop using them immediately; Put the cream in a closed Ziploc bag and bring to your doctor; Go to the doctor and get tested for mercury in your blood and urine; Contact CDPH at (510) 981-4354 or AskEHIB@ cdph.ca.gov. For free medical advice in English or other languages, call California Poison Control at 1-800-222-1222

For more information or to view a list of skin creams that have been tested and confirmed to have mercury, visit the Department of Health Services website. ★

Men's Soccer Teams Resembled a Heavyweight Boxing Match

FOLSOM, CA (MPG) - A Friday evening's matchup of two undefeated men's soccer teams resembled a heavyweight boxing match, with Folsom Lake and Butte trading heavy blows throughout the match but with neither able to knock the other one out. The teams were evenly matched as evidenced by the scoreless first half of play – and both featured talented players.

But it was Folsom Lake that drew first blood in the 58th minute when Kameron Kascht passed to a waiting Ethan Viers for a 1-0 Falcon lead. The Roadrunners did not back down, instead intensifying their offensive push in an effort to tie the score. But again, the Falcon defense was up to the task and held the visitors in check. Falcon freshmen goalkeepers Arman Salimi and Gerardo Perez shared the spotlight as they combined for the shutout victory.

Falcon men found themselves in a tense battle with Lake Tahoe College in their home opener last Tuesday afternoon at Falcon Stadium, but came out victorious with a late tie-breaking goal, 2-1. The Falcons controlled the match early as they took a 1-0 lead in the 10th minute on a goal by freshman forward Kameron Kascht. They immediately

followed that with three near misses, including one off the crossbar and one FOLSOM, CA (MPG) - The off the post, and looked like they would win going away. But the Coyotes clamped down and began creating their own chances, though neither side scored again in the first half.

Just seven minutes into the second half, the Coyotes found an opening and made it count to tie the match at 1-1. The remainder of the second half was tense as both teams worked hard to

break the tie, but it was the Falcons who found the net in the 81st minute. Kameron Kascht drew several defenders to him as he charged the goal, then dropped a pass to sophomore Tanner Boyea, who scored the goal. With time running down, the Falcons were able to turn away any further threats to secure the win.

With an early-season record of 2-0, the Falcons will host Butte College on Friday evening at 6:30 pm.

Women's Soccer Improves Early Season Record

FOLSOM, CA (MPG) - The San Joaquin Valley town of Lemoore is not usually high on many lists of 'places to see', but the FLC women's soccer team sure enjoyed their Friday afternoon visit as they dominated West Hills College, 6-1, in a non-conference match. The Falcons scored three goals in each half of play, led by freshman forward Michaela Clark, who recorded her first Hat Trick with three goals, plus an assist. Sophomore Emma Thompson added two goals and Sarah Freed scored the other. Falcon coach Donny Ribaudo was impressed with freshman center-back Payton Zanatta and the return from injury of sophomore defender Sarah Postema; both will help solidify the defense moving forward. The Falcons improved their early season record to 3-0-1.
