Graduating senior Daniel Miliate (left) takes a selfie with IB Diploma Programme classmates Sydney Vang (middle) and Natalya Melnik (right).

**RANCHO CORDOVA, CA (MPG)** - In the moments before his graduation day, Cordova High senior Daniel Miliate said he was proud to be among the school's very first students to graduate from its prestigious and rigorous International Baccalaureate (IB) Diploma Programme.

"We're like the pioneers," he said. "We helped pave the way for other students. I'm grateful for the IB program because I get to be close to the people who want the same things."

Graduating from the IB Programme is a chance for students to show top universities they're ready the next level of success. Students from this year's graduating class boast an impressive list of post-high school plans, and many are enrolling in four-year colleges: University of California and California State University schools throughout the state, including Santa Barbara, Merced, Sacramento, the East Bay, Bakersfield, Chico

and Monterey, for example.

"I chose the IB Programme because I wanted the challenge, and I also wanted to set myself up for the future," said Miliate, who will be attending American River College in the fall, with plans to transfer to Cal Poly-San Luis Obispo. "Maybe I'll be a college professor. Maybe I'll come back to (Cordova High) and teach here. I really wanted to open up doors."

The IB Programme at Mitchell Middle and Cordova High schools prepares students to make an impact in the world around them through rigorous, hands-on learning. Folsom Cordova's IB Programme connects classroom learning with the real world developing well-rounded, independent thinkers ready for the global economy.

Folsom Cordova has two International Baccalaureate programs: the Middle Years Programme (MYP) and the Diploma

Programme. All students in grades 6-10 attending Mitchell Middle and Cordova High schools participate in the MYP Programme, and students who choose to continue their IB studies in grades 11-12 can participate in the challenging Diploma Programme.

The District's first graduating class from the Diploma Programme had 49 students - 21 of whom received the prestigious, full Diploma, which required students to take more higher-level courses and helped them earn college credit at UC schools.

# **New California Tobacco Laws Go Into Effect**

SACRAMENTO, CA (MPG) - Effective June 10th, the minimum age of sale for tobacco products in California increases from 18 to 21, and for the first time e-cigarettes are added to the existing definition of tobacco products. California is the second state in the nation, following Hawaii, to raise the minimum age for tobacco sales to 21.

"Today marks a significant moment in California history as new tobacco control laws go into effect statewide. This is the first time the Golden State has raised the age of sale for tobacco since the law first took effect 144 years ago," said Dr. Karen Smith, California Department of Public Health (CDPH) director and state health officer. "Our focus is on reaching more than 34,000 retailers with tobacco licenses and vape shops to provide them the information and resources needed to comply with the new tobacco 21 law."

To help retailers comply with these new laws, CDPH developed a series of educational materials, including age-of-sale warning signs, window clings reminding customers of the new law and tips to help clerks check identification.

About 34,000 Californians die each year from tobacco use. In addition, tobacco-related diseases cost Californians \$18.1 billion each year in both direct and indirect healthcare costs due to premature death and low productivity due to illness.

As part of the new law defining e-cigarettes as tobacco products, e-cigarettes, e-liquids including vaping devices and accessories can no longer be sold in self-service displays. E-cigarettes are also not allowed in locations where smoking has long been prohibited, including public transit, worksites, restaurants, schools and playgrounds. Approximately 217,000 California youth between the ages of 12 and 17 currently smoke traditional cigarettes or e-cigarettes.

"California is taking a big step forward in preventing a new generation of young people from becoming addicted to nicotine," said Dr. Smith. "The surge in e-cigarette use among teens and young adults is no accident. The tobacco industry's aggressive marketing of e-cigarette gadgets and candy flavors is jeopardizing the health of our young people."

Many e-cigarettes contain nicotine, a highly addictive neurotoxin. Research shows that the brain continues to develop until age 25, and nicotine exposure before that age may cause permanent brain damage and fuel a lifelong battle with addiction. According to the California Department of Education's California Healthy Kids Survey, middle and high school teens are currently using e-cigarettes at much higher rates than traditional cigarettes. Studies also show that teens who use e-cigarettes are three times more likely Continued on page 2

# Comfort Kit Drive Needs You

By Sheryl Longsworth

RANCHO CORDOVA, CA (MPG) -Soroptimist International of Rancho Cordova & Gold River is starting their 7th Annual Comfort Kit item collection drive, for local women fleeing domestic abuse. These kits contain basic essentials since many women leave their violent environment with nothing. We will be collecting donation items for the comfort kits June 13-20 at Rancho Cordova City Hall at 2729 Prospect Park Drive Rancho Cordova, 95670 during normal operating

A "Comfort Kit" is a large zippered canvas tote bag filled with a 30-day supply of toiletries and personal care items that most women do not think about packing when they are fleeing from an abusive environment. Soroptimists are filling a need to support these women when they may be afraid, hurt, depressed or suffer from low self-esteem. The kits are designed to help these survivors feel normal and taken care of and also show them that there is a group of women out

there who care and provide encouragement. SIRC has been delivering Comfort Kits to WEAVE (Women Escaping A Violent Environment) for the past three years, for distribution at their Sacramento County safe houses. They have grown from delivering 50 bags that first year to 175 kits in 2014.

In 2014 we expanded our program to also providing a drawstring bag containing a toothbrush & paste, brush & comb, small blanket and small stuffed animal as well as a coloring book and crayons, called a Comfort Kid kit for children entering the shelter with their mothers. Children are frequently traumatized when their mothers suddenly take them from the bed or crib often in the middle of the night, to leave their abuser. These children are often forced to leave their toys and items that comfort them behind. The goal of the Comfort Kid kit is to give these children some items of comfort that they can begin their new life with. Donations of items as described for the Comfort Kid kits will also be gratefully

#### SACRAMENTO REGION, CA (MPG)

- On Saturday, June 25, 2016, at 5:30PM, Drum and Bugle Corps from around the country will gather at Hughes Stadium at Sacramento City College to compete in the 37th Annual Moonlight Classic, presented by S.O.M.E. (Sponsors of Musical Enrichment). Gates open at 4:00pm.

For the uninitiated, this event, the longest running of its kind in the Western United States, is a visual extravaganza of sight and sound. It's often described as "marching bands on steroids."

Competing corps can include up to 150 youths, ages 8-21, comprised of marching percussion and brass, front ensemble, (vibraphones, marimbas and other percussion instruments) and color guard. The color guard component has evolved from merely carrying the flag to now include dance and props such as rifles, sabers and other

specialty items.

Each 11 minute performance, which can span the entire football field, will include all of these elements in a meticulously choreographed presentation which, in past competitions, has included spectacular visuals like a field of mirrors, giving the illusion of doubling the size of the corps, full on Spartacus inspired gladiator match. Other sense-dazzling performances have included a presentation of the Who's rock opera Tommy, as well as a James Bond theme with the corps in tuxes, and a horse race, complete with track, accompanied by, what else, the William Tell Overture. Military drill has graduated to big-time show biz, and the appreciative crowds, which, like last year, are expected in the thousands, love the show.

Corps are judged on musical performance, general effect on the audience, and color guard.

Six of the groups are former national champions.

The popular food trucks and souvenir booths will also be on site during the program. Tickets can be purchased at the S.O.M.E. web site at someinc. com, or at the Sac City College ticket booth starting at 2:30pm on June 25th.

General admission is \$25. Reserved seating available online for \$35.

The Sponsors of Musical Enrichment is a non-profit California corporation founded in 1978 for the purpose of supporting local youth music organizations and the performing arts on a continuing basis. Funds raised by this organization are reinvested in the local community. To date, over \$3,000,000 has been granted to deserving groups and individuals.

"Making one person smile can change the world - maybe not the whole world, but their world."

We are looking at ways to help people. Some people have a hard time making ends meet at the end of the month with things like: paying the electric bill, the gas bill, the mortgage, insurance, and simply getting food on the table. I am very glad that we are able to help many people here in Rancho Cordova. One of our success stories in Rancho Cordova is the Cordova Community Food Locker, which has provided almost two million meals to the folks who are working but still have trouble sometimes. Being able to make sure that their family is well-fed is very gratifying. That well-known author "Anonymous" said, "Making one person smile can change the world maybe not the whole world, but their

When the citizens of Rancho Cordova passed Measure H in November 2014, none of us knew what would or could be done with that money. We learned during the first year what the people wanted to spend their money on, and many people are very grateful that the money is available and is being spent throughout

## And Another Thing ...

A Success Story: Cordova Community Food Locker

Cordova Community Food Locker I mentioned earlier needed a replacement truck so they can continue to carry the food to their location and help those who need it. The truck that they needed was found and is now doing a tremendous job. That was done by the citizens of Rancho Cordova through the Measure H funds. (It is also called the Community Enhancement Fund.)

And another thing that happens as we look at aspects of our lives is losing a friend, colleague, or member of the family for different reasons and having to say goodbye. My family lost a friend very recently, and during the funeral service, a parable was used that covers many incidents in our lives. These aren't the exact words, but here is what I took from it: "A man was watching a ship sailing away, until it came to the point on the horizon where the sea and the sky touched and the ship was out of sight. He realized that someone was standing next to him, and they asked what he was looking at. He said that he was watching a ship sailing away, that had his friend on it, and he felt very sad losing his friend. The person standing next to him said that while there were people here watching them go, there were people on the other end of the journey who were waiting for them

There are some parallels in our lives too that can be compared, and we can see that sometimes, there are many reasons why things like Measure H pass. Now. I'm not comparing money to losing a friend, but when people pay that 1/2 cent sales

the community. For example, the tax, they may lose a little money, but then the way that money is being spent on the other end of its journey can help many more in so many more ways than just one thing like the truck for the food locker.

If you look at the City's website, you can see how many ways the suggestions offered by the citizens of Rancho Cordova are being taken care of. Something else I read that is along the same lines is this: "A man was walking along a deserted beach at sunset. As he walked, he saw a young boy in the distance. As he drew nearer, he noticed that the boy kept bending down, picking something up, and throwing it into the water. Time and again he kept hurling things into the ocean. As the man approached even closer, he was able to see that the boy was picking up starfish that had been washed up on the beach and, one at a time, he was throwing them back into the water. The man asked the boy what he was doing and the boy replied, 'I am throwing these washed up starfish back into the ocean, or else they will die through lack of oxygen.' 'But,' said the man, 'you can't possibly save them all, there are thousands on this beach, and this may be happening on hundreds of beaches along the coast. You can't possibly make a difference.' The boy smiled, bent down and picked up another starfish, and as he threw it back into the sea, he replied, 'I made a huge difference to that one!" (Author unknown)

From Councilman Bob McGarvey, God bless, and see you next time.

# The Explosive Dangers of "Honey Oil"

What Sounds Like An Organic Food Supplement Puts Lives And Property At Risk

SACRAMENTO, CA (MPG) - risks of smoking marijuana California Fire Departments, the Firefighters Burn Institute and burn prevention organizations in the state, are hoping to publicize the growing danger of so-called, "Honey Oil."

Honey Oil, (also called BHO/ Butane Hash Oil, Weed Oil, and Dab among other names) is a residue created when parts of the marijuana plant are soaked in a solvent, or blasted with butane gas. The result is a substance consumed by smoking, eating, or vaporizing. It produces an extremely potent high but the process of making it is extraordinarily dangerous.

The solvents and gases used to produce Honey Oil are extremely flammable. Clothing becomes saturated with the vapors and can easily ignite, causing severe and fatal burns. Only 300 milliliters of ignited butane vapors can reach 3,500-degrees Fahrenheit. About 10-ounces has enough explosive force to blow up a room. Fumes from the processing can cause a blast capable destroying a 3-bedroom home. Neighboring homes are obviously at risk.

While the health and safety

are debatable, there is NO safe method for producing Honey Oil. Unfortunately, the paraphernalia necessary to create it are legal, and easily obtained.

In Colorado, in 2014, there were 32 explosions from the manufacturing of Honey Oil. The Sacramento Bee reports that Shriners Hospital for Children in Northern California has treated nearly 70 victims for Honey Oil related burns and the average child was burned on nearly 30-percent of their body. Reports tell us in one recent 14-month period, some 20 "cooks" and bystanders were treated at burn centers in Southern California for catastrophic injuries, a toll worse than from meth labs.

The public needs to be aware of the risks, and be on the lookout for materials that indicate Honey Oil manufacturing. For example, 300 ML cans of refined butane in any quantity. These are marketed for the refilling of cigarette lighters. Look for canisters in bedrooms, and E-cigarette vapor pens which are used to smoke Honey Oil. A missing turkey baster could be a clue.

Along with PVC pipe and glass tubes, it's used for extraction. A Pyrex dish is used to capture the product.

Even if family members are not involved, someone close by could be. Laws have been proposed that would make manufacturing the drug in residential neighborhoods an aggravated felony. Butane is odorless; a requirement to add a smell could tip off residents that it's being made. Limiting its sale and possession could help stall manufacturing. Unfortunately, legislative efforts have stalled in Sacramento. Public pressure on the Governor's Office, State Senate and Assembly could help turn that legislation into

# **Medicare Part B Reimbursement Cuts Are Backdoor Rationing**

Commentary by Sally C. Pipes

Imagine being denied treatment for cancer because Washington bureaucrats decided that a cutting-edge new therapy that could cure you just wasn't "cost effective."

That's already happening in Britain under its government-run healthcare system, the National Health Service. And Medicare officials are poised to bring similar policies here.

The NHS's "Cancer Drugs Fund" restricts physicians' ability to prescribe half of all oncology medicines. If a medicine doesn't extend the average cancer patient's lifespan by a set length of time, which varies according to the medicine's price, doctors can't prescribe it for general use -- even if it would be the most effective treatment option.

In February, the NHS announced it would review existing general-use drugs to tighten prescribing restrictions. After the review, the number of off-limits drugs will rise. Patient groups predict the move will deny treatment to 22,000 cancer sufferers and "set cancer treatment back by a generation."

A new proposal from the Center for Medicare & Medicaid Innovation could similarly tie American doctors' hands. CMMI plans to slash physician reimbursements for medications administered in a doctor's office under Medicare Part B. Doctors buy these medications up-front and receive reimbursement from

The proposed scheme will prevent many doctors from breaking even on the most advanced, most expensive treatments. Essentially, CMMI will cut Medicare spending by forcing doctors to resort to cheaper drugs and second-tier treatments -- or run the risk of having to close their practices.

Currently, Medicare reimburses physicians for chemotherapy and certain other medications at the drug's average sales price (ASP) plus 6 percent. That add-on accounts for the fact that some doctors pay more than the average price. It also covers expenses associated with handling, storing, and administering the drugs.

Often, that 6 percent makes the difference between a viable medical practice and one drowning in red ink.

Under CMMI's proposal, Medicare would reduce reimbursements to ASP plus 2.5 percent, along with a flat fee of \$16.80 per day. The formula makes generic drugs more economical to administer compared to pricier, cutting-edge treatments.

Most doctors already don't receive ASP plus 6 percent. In 2013, "sequestration" budget cuts effectively lowered reimbursements to ASP plus 4.3 percent.

Those cuts crippled many doctors' ability to care for Medicare patients. Eighty percent of oncologists at community cancer clinics reported that their practices were affected by the cuts. Fifty percent had to send Medicare patients elsewhere -often to distant hospitals -- for chemotherapy.

Now, analysts predict CMMI's proposal will bring the effective reimbursement rate down to ASP plus 0.86 percent and a daily flat fee of \$16.53.

If sequestration cuts forced doctors to turn away cancer patients, the new CMMI cuts could outright bankrupt many clinics. At minimum, many doctors will feel pressure to stock and prescribe cheaper treatments, even if they're less-effective.

Keeping Medicare spending under control is important. But reforms should incentivize providers to do so while improving care -- which sometimes means paying more for higher quality treatments. CMMI's proposal relies on the mindless bureaucratic logic that Britain's NHS and other socialized medical systems use: good care is expensive -- let's ban it.

Medicare might be ailing. But CMMI's reimbursement scheme isn't what the doctor ordered. It will tie the hands of physicians and make them choose between running a profitable practice and providing the best care for their patients.

# Slim Randles' HOME COUNTRY

The annual Fourth of July picnic was a celebration of time and freedom. We'd all watched the parade, earlier, because that's what you do on the Fourth, and we believe in it.

Our parade features Scout troops in uniform, the high school band, floats with pretty girls ... ,well, okay, it's actually Delbert's convertible with signs on the doors ... and little kids

#### And Then We Go To The Picnic and Gorge Ourselves and Play Softball and Horseshoes

proudly leading their dogs down our main street. In other words, pretty much everyone.

Those of us who aren't marching have been known to say things like, "Hon, isn't that the Delgado kid with that German shepherd? My, he's grown."

You know.

And then we go to the picnic and gorge ourselves and play softball and horseshoes and soak up the sun and laugh a lot. It's a time for asking mere acquaintances from grocery store sightings just how they're doing, in hopes of becoming real friends. It's time to catch up on friends who have been solid bricks in our wall of life forever. It's also a time to rejoice and see new bundles of babies that have joined us since last year, and feel a bit sad at those who have left

us, too.

It's a time when two guys on opposite sides, politically, can just smile and talk sports and enjoy each other. There's time enough to disagree on policies later on. No rush.

And we know, deep inside, that this is the real reason we celebrate our Independence Day. Because we can set aside our differences and have fun together. We can be free to have fun together because a long time ago some men in powdered wigs were smart enough to look ahead toward ... well, toward this very picnic of ours, actually.

They wanted it to be fun, too. The Home Country radio show is in national syndication and will be coming soon to a station near you! New, from Syndication Networks.★

#### Display a kind spirit

Dear Dave.

My mom and dad filed bankruptcy recently and are on a fixed income of \$2,200 a month. They gave up their house, and my wife and I helped them find an apartment. We're also trying to give them other help while they're getting back on their feet. The problem is, we're paying off debt and trying to get our own finances in better shape. I think my sister should help out some, too, but I'm not sure how to approach her about this.

- Randy

Dear Randy,

It's not out of line to ask her to help and then gauge her interest and willingness. I mean, it's your parents we're talking about. Still, you can't force someone to do something they can't do or simply don't want to do.

Before you approach your sister, you might try working up a monthly budget on your parents. It doesn't have to be complicated

fees, charges and expenses of the Trustee

and of the trusts created by said Deed of Trust.

The total amount of the unpaid balance of the

obligations secured by the property to be sold

showing their situation. Let her see that mom and dad are struggling right now, and suggest that you both chip in a little each month until they're back on their feet financially.

Dave Says

Don't point fingers or make accusations, because that will ruin things in a hurry. Family should always try to pull together in times like this, Randy. In most cases, things like this work out fine and family bonds become even stronger. —Dave

#### An ounce of prevention...

Dear Dave,

Our son is 16, and he just got his first paycheck. He asked us about the best way to manage it, and we're not sure what to tell him. Do you have any advice?

- Anonymous

Dear Anonymous,

Congratulations on a big moment in your son's life! I'm sure he's proud, and I'm glad he has parents who want to teach him how to grow into a financially responsible young man.

I think giving is a really big deal at this age. I'd recommend putting 10 percent toward your church or a good, local charity.

— just a one-page document It's very important to teach kids about the spiritual and financial benefits of being a giver. The remaining 90 percent you might split evenly between savings and spending in the beginning. You can always go a little heavier on the savings portion if there's a concrete goal, like college or a car, in mind. The process of thinking ahead and setting goals is always a good exercise, too.

> The goal here, in addition to teaching him the value and benefits or work, is to build the muscles of his character. Financially speaking, as parents, we should want our children to grow to be givers, savers and wise, careful spenders. If they become all three of these when they're young, they won't be financially irresponsible adults later!

#### CALORIES DON'T COUNT

Summer is just around the corner. Are you ready for that bikini or will it be the moo-moo? I know which I would choose, but I don't think I'm there...if you know what I mean. My first thought was to cut back on calories, right?

Not really. When I talked with **Belldon Colme** on POPPOFF, he told me calories don't count. So what does? My first impression was just another diet, but then **Belldon** told me his story. He ballooned to 280 pounds and literally found himself unconscious on the floor. Certain that he was headed for a heart attack, he lost 105 pounds and dedicated himself to helping others achieve wellness. So comes "No One Ever Got Fat

From Calories:" The real truth about weight loss, Your Body, and Wellness. He explains why eating less and exercising more is a prescription for failure and why "eating healthy" and healthy eating" are not the same. He goes on

# POPPOFF!

with Mary Jane Popp

to say processed foods weaken your immune system. That's why he created **Nutri-90**, a wellness program that has helped thousands of medical professionals and laypeople alike reach and maintain weight loss, health, and wellness goals. So I asked him to share the Top Ten Tips for successful wellness.

- 1) Just because it is liquid does not make it water. Pure water really is the elixir of life. Drink one-half of your body weight in ounces every day.
- 2) Eating the RIGHT stuff only matters if you eliminate the WRONG stuff.
- 3) Calories are a distraction. Look only at the "ingredient label. If an ingredient does not belong in your body, don't put it there.
- 4) Everyone is telling you to boost your metabolism. Why not take the time to learn what your metabolism really is and really does, and then nourish it accordingly.
- 5) You can never have too many leafy greens; they are nature's vitamin powerhouses.
- 6) Marketers lie. Their job is to manipulate you and make you buy stuff. It's not their job to look after your best interests. Don't choose a food by its advertising.

- 7) Diet, lo-cal, sugar-free, fat free, and heart healthy are all euphemisms for a poisonous, toxic cesspool of disease.
- 8) Do not accept obesity and disease as normal. It isn't, and you deserve better.
- 9) As a nation: The more products we have, the sicker we become. The more we spend fighting calories the fatter we become. Maybe it's time to stop buying products and just learn to eat right.
- 10) MOST IMPORTANT, and whether you believe life got here by creation or evolution, you have to arrive at this same conclusion; Pills, powders, shakes, and elixirs did not evolve, and neither were they created. Real food, the kind that comes from farms, is for nourishment. Products are for corporate profit. There are no exceptions...EVER!

If you' like more information about "No One Ever Got Fat From Calories" and more information about Nutri-90, you can check out www.Nutri-90.com. "The evidence is all around us," says Belldon Colme, "the proper balance of food types does." Remember bikini vs. moo-moo. Your choice!

Felony Insurance Fraud, Stemming From Hit & Run; Defendent Convicted for Murder of Gardening Store Owner Multiple; Sexual Assault & Kidnapping Charges

CASE: Michael Bridges & Jenifer Brumfield PROSECUTOR: Deputy District Attorney Kelly Mulcahy, Insurance Fraud Unit

Fifty-two-year-old Michael Bridges and his wife, 50-year-old Jenifer Brumfield, pled no contest to felony insurance fraud charges. Bridges also pled to felony hit-and-run with injuries and Brumfield pled to filing a false police report.

On May 28, 2015, Bridges was driving Brumfield's car when he rear-ended a car that was stopped at a red light on Truxel Road. The collision totaled both vehicles and left the victim with injuries, which still require medical treatment. After the crash, Bridges pulled up to the driver's side of the car and told the victim, "I didn't just do that" before driving away without providing his driver's license or insurance information. The license plate number was obtained by witnesses and the front license plate left at the scene of the accident.

On May 29, 2015, Brumfield reported her car stolen to the Sacramento Police Department and filed a claim with her insurance company. Bridges was an excluded driver on Brumfield's car insurance policy. She stated she had no idea who stole her car and that she still had the only key to the car. The car was located on June 26, 2015, one-half mile from the defendants' residence. The vehicle's transponder anti-theft system was intact and undamaged. The windows were also intact, but the vehicle had sustained major front-end damage.

Witnesses identified Bridges as the driver of the hit-and-run vehicle. Cell phone records also indicated that on the day of the collision Bridges drove Brumfield to work in her car, which was contrary to her story that a nephew had driven her to work.

Bridges was sentenced to serve 3 years in state prison. Brumfield was sentenced to 150 days county jail and 5 years probation. Both defendants were ordered to pay \$19,625 in restitution to the victim and the insurance company.

This case was investigated by the Sacramento County District Attorney's Auto Insurance Fraud Unit.

**CASE:** Marlon Palmer

**PROSECUTOR:** Deputy District Attorney Andrew Smith, Homicide Unit

Marlon Palmer was convicted by jury for the second-degree murder of Hoa "Rickey" Tuyen.

On February 25, 2014, Mr. Tuyen was found face down on bags of soil in the back of his business, Discount Indoor Gardening. He was pronounced dead shortly after arriving at the hospital. The autopsy report revealed Mr. Tuyen died from asphyxia due to

neck compression. There were no witnesses or surveillance video. The District Attorney's Crime Lab developed a DNA profile from fingernail scrapings from Mr. Tuyen. Detectives were notified a cold hit on the DNA profile matched Marlon Palmer.

Palmer was interviewed and denied knowing or

having any contact with the victim. He also denied visiting or being in the area of the store, even though cell tower information placed Palmer's phone in the area of Mr. Tuyen's business during the timeframe of the murder.

Palmer was on parole at the time for multiple counts of robbery and assault with a deadly weapon. The Honorable Matthew Gary found two prior strike allegations true, making Palmer a three striker.

Palmer faces a maximum potential sentence of 45 years to life in prison. Sentencing is set for July 15, 2016, at 9:00 a.m. in Department 13 before the Honorable Matthew Gary.

CASE: Joseph Lee Bonderer

**PROSECUTOR:** Deputy District Attorney Quirina Orozco, Adult Sexual Assault Prosecution Unit

Joseph Lee Bonderer was convicted by a jury of two kidnapping charges and multiple sexual assault charges, including rape and sodomy. The jury also found true that Bonderer kidnapped and transported the victim to commit the sexual assaults – a one strike allegation.

On October 30, 2013, the victim was in her car and about to leave the Walmart parking lot on Greenback Lane when Bonderer forced entry into her car. He pointed something in the victim's direction under his shirt and told her to do everything he demanded or he would kill her. After forcing the victim to drive to a dark desolate field area in Placer County, he raped, sodomized, and digitally penetrated her. Bonderer then ordered the victim to drop him off at the Walmart where he first kidnapped her.

Sacramento Sheriff's deputies and detectives canvassed the vicinity. Employees at a bar across the street from Walmart disclosed that Bonderer had been inside the bar just moments before the incident. Walmart surveillance video showed Bonderer loitering in the parking for at least 30 minutes before the assault. He followed at least two other women before finally choosing to attack the victim.

Bonderer faces a maximum potential sentence of 107 years to life in prison. Sentencing is set for July 8, 2016, at 9:00 a.m. in Department 15 before the Honorable Kevin McCormick.

# CHS Football Finding Success in Weight Room

RANCHO CORDOVA, CA (MPG) - In January, returning players on the 2016 Cordova High School football team, along with freshmen who will be sophomores playing on the junior varsity squad, started their season in the weight

But in recent weeks, the Lancers have stepped up their workouts - with the help of a former NFL player and friends.

For the last two weeks, Cordova gridders have been put through intense workouts with Vince Mini, who runs Mini's House of Pain in El Dorado Hills, inside CHS' weight room. Mini and his staff have worked out Lancer players at CHS' weight room three days a week.

Since the 2000s, Mini and his staff have trained current and former high school and college student-athletes, as well as adults. Mini is a former NFL lineman who played for the Philadelphia Eagles in the 1980s, and also played in the defunct United States Football League.

"Vince comes in three days a week and trains our guys," said Cordova coach Darren Nill, entering his second season at the helm. "He's train the best athletes in the world. The weight room has been crowded."

Nill noted that there were approximately 60 varsity and JV Lancer football players who were in the weight room with Mini and his crew on Monday.

"He's extremely motivational," said Nill of Mini, who is overseeing the workouts with his assistant Gabe Jackson. "What we have is their A team. Those two guys are awesome motivators. My guys are responding."

The response has been positive that goes outside the weight room, Nill explained.

"My kids take that positive influence out of the weight room and onto the field," Nill said.

There are 44 players on the CHS varsity football team taking part in the weight room and field workouts, and 40 on the JV squad. Nill expects the number to increase on the latter squad in upcoming weeks.

Nill and his coaching staff will continue to work out their squads in the weight room and football field through July 1st through July 9th. That's when the players and coaches will take a week off.

# 2015 FIREWORK BUYERS GUIL

Season Boasts Strongest Freshman Class in Years

#### By David Dickstein

#### SACRAMENTO REGION, CA (MPG) -

With the Fourth of July just around the corner, non-profits throughout the region are hoping that red, white and blue turns into lots of green. The great news for fund-

raising groups and California consumers is the freshman class of fireworks is the strongest in over a dozen years. This would be the season to spend more of your disposable income in the name of charity and country.

Firework stands in Greater Sacramento open for business starting June 28, and when they do patriotic, philanthropic and pyrotechnics-passionate purchasers will want to know the five basic questions of fireworks buying: What's new? What's loud? What's colorful? How long does it last? What gives me the most bang for my buck?

Messenger Publishing Group has the answers, having put every new state-approved firework to the test. Our annual fireworks buyers guide also

includes returning favorites that scored at least 4 of 5 stars on a scale based on performance, value, duration and distinctiveness.

Sacramento Valley is dominated by TNT and Phantom, both of which have regional headquarters based here and a long history of splitting profits with hundreds of churches, athletic clubs, youth groups and other area non-profits. Discount Fireworks Superstore (DFS), which expanded from Oregon to mostly Central California a few years ago, makes its Sacramento County debut this season with three church-run stands in Elk Grove.

Judges this year included firefighters of Sacramento Metropolitan Fire District, Station 65 in Rancho Cordova, where the test was conducted. Fireworks are listed by price, highest to lowest. Every firework sold individually in California has been rated for the guide since 2003, so whatever isn't listed wasn't forgotten – it just didn't make the grade.

Let the sparks fly!

# Best of the Rest (4-5 stars)

 DELIRIUM (TNT), \$49.99 AND CORAL REEF (PHANTOM). **\$49.99** - TNT's is the granddaddy of finales, a long-lasting, 500-gram fan fountain that wows

with radiant colors and

clamorous whistles and crackles. No wonder Phantom came out with the indentially performing Coral Reef last year. Best finale for the money since TNT's Opening Show (\$69.99, 130 seconds) went up

\$10, dropping it to 3 Stars. 105 seconds. 57 seconds.

• APACHE FIREDANCE PREMIER (PHANTOM), \$49.99 - A former "Best New Firework," this fountain scores with seven effects, including some of the best crackles, strobes and height on the safe and sane market. 140 seconds.

### • PEACOCK TAIL FAN (PHANTOM),

**\$34.99 -** The former "Best New Firework" builds excitement with each dazzling stage. Works out to 65 cents per second, but the audience's "oohs" and "ahhs" are priceless. 54 seconds.

• MOONDANCE PREMIER (PHANTOM), \$29.99 - It's Phantom's value-priced Moondance Fountain on steroids. Terrific height, lots of purple - a real crowd pleaser. 100 seconds.

 FUNKY MONKEY (PHANTOM), \$24.99 -Pyrotechnic primate features red pearls and a solid overall performance. 90 seconds.

(TNT), \$21.99 -

Sensational medium-priced fan fountain, one of the most promising rookies last season, has large-sized intensity. 62 seconds.

• O-BLIVION (TNT), \$19.99 - Lord of the ring-shaped fountains emits multi-colored chrysanthemums with pine and impressive titanium crackles. Sweet burn time. 125 seconds.

• SERENITY (PHANTOM), \$15.99 - Noiseless fountain opens with lovely lava lamp-like lumps and peacefully pleases with seven colors and white

- KING OF BLING (PHANTOM), \$14.99 Crackles heard during the final third sound just like popping popcorn. Burn time and chrysanthemum and whistle effects are majestic for the price. 90 seconds.
- LUMINESCENCE (PHANTOM), \$14.99 Starts out as a run-of-the-mill multi-effect fountain, but then surprises with an eruption of wide-spreading sparks. 73 seconds.
- TWILIGHT MAGIC (PHANTOM), \$12.99 FOR TWO -A former "Best New Fountain," now a 2-for-1 item, has three exciting rotations of crackleand-whistle and wide-spreading sparks.
  - $\bullet$  SURFS UP (TNT), \$12.99 FOR TWO TNTis making this a buy-one-get-one for just \$2 more - a super new deal. Gorgeous globs lead to a wave of multiple effects and some of the best and widest-spreading titanium rain and crackles for the price. 58 seconds.

#### FIRECRACKER FOUNTAIN (PHANTOM), \$9.99

- Lives up to its name with an awesome crackling barrage alongside multi-colored pearls. 76 seconds.

• PHANTOM DRAGON SLAYER (PHANTOM), \$9.99 FOR **TWO** - Solid buy with pretty white, blue and lemon chrysanthemums, rowdy crackles and red stars. 66 seconds.

• CRYSTAL SKIES (TNT), \$9.99 - 2014's "Best New Fountain" has great height, striking gold glitters and white pines, and loud crackles. Better than many fountains sold at double the price. 68 seconds.

• LIL RED DEVIL (TNT), \$9.99 FOR TWO - Packs plenty of heat for the size and price. Ends strong with wide-spreading titanium crackling sparks. 35 seconds.

• RAINBOW RAYS (TNT), \$5.99 - Terrific valuepriced item, delivering on burn time, height and crackle. 56 seconds.

• PURPLE RAIN (TNT), \$5.99 FOR TWO, AND MOONDANCE (PHANTOM), \$2.99 FOR ONE -

Identical little dynamos emit loud crackles, purple pearls and glittering gold and white sparks. 45 seconds.

For stand locations and additional product information, visit the retailers' websites: TNT. www.tntfireworks.com; Phantom, www.fireworks.com; and Discount Fireworks Superstore (three Elk Grove locations), dfsfireworks.com. ★

- WICKED STRONG (TNT), \$59.99 Combines the best of a fan fountain and a bona fide finale. A surge of sparks at the 90-second mark truly gives this newcomer its name. A price drop of \$10 would give it a rare perfect rating. 105 seconds. ★★★★
- GRAND ILLUSION (DFS), \$40.99 Long-lasting 500-gram fountain from Showtime took 7 years to reach California, but you didn't miss much with its mundane crackles, whistles and height. 195 seconds. ★★★
- MAGNETIC HEAT (TNT), \$39.99 Opens with gorgeous smokeless complements of a compound called nitrocellulose, then further amazes with pretty palms and intense colorful crackles. Decent price, too. 112 seconds.  $\star\star\star\star$  1/2 Stars.

• SEA SERPENT (PHANTOM), \$34.99 - Crowd-pleasing crackles, whistles, darting silver sparks and height that pushes the 10-foot legal limit. 100 seconds. ★★★★1/2 Stars

FLIGHT OF FANCY (DFS), \$29.99 - Brand new flower-shaped fountain from Brothers packs a dazzling display of multicolored showers and pearls, silver glitter, crackling, pine needles and golden flowers. 123 seconds. \*\*\*

• CORE REACTOR (PHANTOM), \$24.99 - It's Phantom's popular Firecracker Fountain on steroids, featuring raucous silver crackles from start to finish. Incredible height for the price. '3 seconds. ★★★★

### • SPARKNADO (TNT), \$24.99 -

Crackle-happy fountain comes alive with a unique effect that has geysers of sparks breathing in and out before going into a frenzy. 85 seconds. \*\*\*

• SHUT UP! (DFS), \$24.50 - Volcanic-like surges of multi-colored sparks and flares give this year-old fountain high marks. Includes crackles, so this item isn't as "low noise" as Black Cat describes

and the name suggests. 75 seconds. \*\*\* • FROM THE HEART (DFS), \$20.40 - Debuting last year outside California,

this heart-shaped fountain from Black Cat would delight with red flares, chrysanthemums and pink sparks if not for the fleeting burn time and heart-stopping price. 50 seconds. \*\*

• GOOD VS. EVIL (TNT), \$19.99 (FOR BOTH) - Silly marketing gimmick has the mediocre Rocketman Fountain bundled with the even less impressive Rage Monster Fountain, and for no reason this combo is called "Good vs. Evil." Despite coming in a few seconds shorter, "Good" gets the nod with a darting sparks, or fish, effect. Rocketman, 81 seconds; Rage Monster, 87 seconds. \*\*\pm\$1/2 Stars.

> • RAISE YOUR FLAG (TNT), \$17.76 - Long may this fountain wave with widespreading crackling sparks, whistle and a patriotic price. 65 seconds.

> > • NUCLEAR PHYSICS (DFS), \$15.99 - Mushroom cloud-shaped packaging is the most unique feature of this 2-year-old fountain from Brothers. That said, pretty gold flowers, silver chrysanthemums, noisy crackles and a fair price should give this item a warm welcome in California. 66 seconds. \*\*\*

• CAT FIGHT (DFS), \$13.25 - A late arrival to California is this 3-year-old fountain from Black Cat that mesmerizes with multi-colored fish effect. 72 seconds.  $\star\star\star$  1/2 Stars.

• HULL-A-BLUE (Phantom), \$12.99 - Low on height, but high on beauty with a non-stop vibrant gold shower. Expected more blue due to its name. Good burn time for the price. 60 seconds. \*\*\* 1/2 Stars.

• BEE'S KNEES (DFS), \$12.49 - Vibrant fan fountain from Brothers is fun while it lasts, but doesn't last long. Debuted two years ago outside the

Golden State. 35 seconds. ★★★

- MAD MONKEY (DFS), \$12.25 Intense crackling sparks and glowing eyes and mouth make for a lot of fun at a small price. From Showtime. 32 seconds. \*\*\*
- PHANTOM SPARKLES OF PRIDE (PHANTOM), \$8.99 Nifty opening of gold sizzling sparks is followed by routine crackles and chrysanthemum. 40 seconds. \* 1/2 Stars.
- PIRATE SWORD (DFS), \$7.69 Unique handheld fountain from Showtime is a step up from boring morning glories, but the cost of swashbuckling fun requires too much booty, even for the pricy California market. 24 seconds. \*\*
- NEON FORCE (TNT), \$6.99 Height, crackles and color are all solid, as is the price. 55 seconds. ★★★★
- JALAPENO POPPER (TNT), \$3.99 Strong crackling silver sparks and, to be expected at this price point, no altitude. 49 seconds. ★★1/2 Stars.

Area non-profits kick off their fireworks fundraisers on June 28.
