Stampede Highlights Rodeo Tradition

Longhorn cattle make there way through the streets of Marysville. Photo by Jennifer Kendall

By Brenna Bontrager

MARYSVILLE, CA (MPG) - The Wednesday evening commute might have looked a little different on September 14th. Instead of the usual cars and trucks, cattle were seen making their way from Yuba City to Marysville.

The Marysville stampede, hosted by Flying U Ranch, ran a small heard of long horned cattle from Bridge Street in Yuba City to the Cotton Rosser arena in Marysville. The most popular stop for viewing was downtown Marysville.

The Marysville Stampede is a weeklong event celebrating rodeo and cowboy culture. Events during the week

Cowboy's and Cowgirls' lead the way at the cattle drive. Photo by Jennifer Kendall

included dances, women's lunches, and a steak dinner. The main event is the rodeo on Saturday and Sunday afternoon. The rodeo combines traditional Western cowmanship with

a unique California flair. The show adds, clowns, motorcycles, and other entertainment to set themselves apart. One unique event is Bull Jumping where participants literally

jump over bulls. Mexican Rodeo styles are also featured. For the children there is a coin dig and "Mutton Bustin" where young cowgirls and cowboys can try their rodeo skills by riding sheep.

This tradition was started 88 years ago by Cotton Rosser, a Rodeo legend and longtime Marysville resident. After settling in Yuba County, he founded the Flying U Rodeo which remains a local institution. Cotton Rosser was so respected in the world of Rodeo that when he passed away last year, his funeral was broadcast nationally and replayed multiple times. Now the company is headed by his daughter, *Continued on page 3*

Bill Signed to Crack Down on Street Racing and Illegal Sideshows

From the Office
of Jesse Gabriel

SACRAMENTO, CA (MPG) - On Monday, September 19, Gov. Gavin Newsom signed Assembly Bill (AB) 2000, which will prohibit street racing and sideshows from occurring in parking lots across the state.

The bipartisan measure, authored by Assemblymember Jesse Gabriel (D - Woodland Hills), aims to crack down on dangerous driving – including street racing, “sideshows,” and street takeovers – which continue to cause injuries and fatalities across California.

“Far too frequently, street racing and illegal sideshows devastate families, harm innocent bystanders, and cut short young lives,” said Assemblymember Jesse Gabriel. “Communities in the San Fernando Valley and across California are sick and tired of this reckless behavior. I’m grateful for Governor Newsom’s leadership on cracking down on this dangerous activity and signing this commonsense measure that will save lives across our state.”

“AB 2000 will help us save lives and prevent further crashes and drivers going to prison for manslaughter,” said Lili Trujillo, Founder and Executive Director of Street Racing Kills, a non-profit created in 2014 after Trujillo’s 16-year-old daughter, Valentina, was killed in a street racing incident. “An exhibition of speed in a parking lot is way too common now and people are being hurt and killed, AB 2000 is definitely a great tool to help us save lives.”

“There are countless stories every week throughout California about illegal street races and dangerous sideshows shutting down streets, causing accidents, damaging neighborhoods, and endangering lives,” said Assemblymember Vince Fong (R - Kern County), a joint author of the measure. “They are unpredictable, destructive, and can lead to senseless deaths that devastate families. AB 2000 is an important and needed step in cracking down on illegal sideshows to make our communities safer.”

Across the state, COVID-19 has caused a sharp rise in illegal street racing activity as drivers took advantage of roads emptied by stay-at-home

Marysville Officials Begin Negotiations with Pecos League Baseball

City of Marysville
News Release

MARYSVILLE, CA (MPG) - The Marysville City Council will hold a special meeting this week to begin negotiations to keep a baseball team fielded in Marysville. City officials were saddened to hear that Gold Sox Baseball would not be supporting a team at Marysville’s Bryant Field for the 2023 season.

“The City is forever grateful for the investment and the efforts of the ownership group of the Gold Sox for their many years of commitment to keeping baseball alive in Marysville,” said Marysville Council Member Dominique Belza.

Just prior to discovering the news about the Gold Sox, the city was contacted by PECOS League

baseball LLC, an independent professional league, about bringing a new team to Marysville. Council members and staff are set to meet with the PECOS League officials in the coming week to begin negotiating the terms of a potential contract.

“With the recent news of the Marysville Goldsox taking a hiatus, myself along with the Rec Development Committee are thrilled that we may be able to save baseball in Marysville,” said Marysville Vice Mayor Bruce Buttacavoli.

PECOS started as a regional league with teams in New Mexico and West Texas and has since grown into the largest independent league in the United States. Since 2017 the Pecos league has had 14 teams in six states and

three time zones. In 2022 the Pecos league grew to 16 teams. Despite moving to much larger markets like Bakersfield, Tucson and Monterey in 2022 the Pecos league still remains strong in smaller markets. In 2017 the league expanded into California, fielding teams in Martinez and San Rafael in 2021. In 2022 they added a team in Santa Rosa. “After learning the history of Bryant Field in Marysville, we feel it will be a great fit to our league and our geography,” said Andrew Dunn of the PECOS League. “Marysville has a great baseball history and will fit seamlessly into our California Division with Santa Rosa, San Rafael, Martinez, Bakersfield, Monterey and Santa Cruz,” said Dunn.

Marysville officials

strive to provide the highest level of baseball it can host for Yuba and Sutter counties and the Pecos League would be the highest level without MIL B affiliated baseball in Marysville.

The City expressed their excitement at the possibility of hosting a new baseball team that is part of the PECOS League.

“Having a team in the PECOS League will undoubtedly have positive impacts on economic development as we continue working diligently to make Marysville a destination for new businesses and tourism,” said Community Development Director Dan Flores. “Marysville has a long history with baseball and keeping a strong baseball team at Bryant Field is a priority for the City Council,” finished Flores. ★

‘California Marketplace’ Set for Farm Bureau Conference

California Farm Bureau News Release

SACRAMENTO, CA (MPG) - For the first time, the traditional tradeshow at the California Farm Bureau Annual Meeting will be transformed into an opportunity for members to show and sell the bounty and other artisan goods from their farms and ranches.

Called the California Marketplace, this interactive event will be held Dec. 4, from 1-7 p.m. The California Marketplace is one of several new features of the 2022 Annual Meeting, set for Dec. 2-7 at the Portola Hotel & Spa in Monterey.

An estimated 700 attendees from both the Annual Meeting and Young Farmers & Ranchers State Conference will come together to explore the California Marketplace, traveling region by region at the Monterey Conference Center. The idea of the marketplace is to replicate the experience of tasting and shopping one’s way across the Golden State.

Held in conjunction with the marketplace, a welcome reception also highlights how the state’s diverse regions collectively propel California to the No. 1 spot among U.S. agricultural producers. Appetizers

and beverages served will give a nod to each region, with selections that showcase top commodities. Local chefs will feature California-grown ingredients in live cooking demonstrations.

Partners of Farm Bureau who operate in service- or education-oriented sectors will host exhibit booths at the California Marketplace, giving members a more traditional tradeshow experience.

The deadline to purchase a California Marketplace shop or exhibit booth is Oct. 31. For more information, visit cfbf.com/ag-events or contact Miranda Jachens at sponsorship@cfbf.com or 916-561-5594.

The California Farm Bureau Annual Meeting features sessions of the organization’s House of Delegates and educational workshops on agricultural policy, advocacy, state and federal regulations and pesticide licensing issues. County Farm Bureaus from across the state will hold receptions, and regional farm tours are open to attendees of the Annual Meeting and the YF&R conference.

The California Farm Bureau works to protect family farms and ranches on behalf of nearly 31,000 members statewide and as part of a nationwide network of nearly 6 million Farm Bureau members. ★

Avoid West Nile Virus with Some Simple Tips

Sutter-Yuba MVCD News Release

YUBA-SUTTER REGION, CA (MPG) - Sutter County Public Health and Yuba County Public Health have each confirmed the first human case of West Nile Virus (WNV) in Sutter County and Yuba County this year. As of September 9, 2022, forty-one human WNV cases have been reported in California. WNV is active June through October. Both of the recently confirmed local human WNV cases are experiencing severe illness.

Confirmed cases in Sutter County: 1 human, 4 dead birds, 31 mosquito samples and 9 sentinel chickens have tested positive for WNV as of Sept 15, 2022.

Confirmed cases in Yuba County: 1 human, 1 dead bird, 12 mosquito collections and 9 sentinel chickens have tested positive for WNV as of Sept 15, 2022.

People infected with WNV generally fall into three categories: No symptoms/asymptomatic (8 in 10 people); Mild to moderate fever illness with fatigue and body aches (2 in 10 people); Severe illness with neurologic symptoms such as encephalitis or meningitis (less than 1 in 150 people).

For those who develop a severe WNV illness, symptoms may last several weeks and some symptoms may be permanent.

Although overall mosquito abundance is trending downward, the risk of West Nile virus continues to be high throughout Sutter and Yuba counties. “We continue to see ongoing virus activity and detections in our surveillance system. The risk for human infection is high,” said Stephen Abshier, District Manager. “Residents need to remain vigilant in protecting themselves from being bitten by mosquitoes,” added Abshier. Residents should inspect their yards for anything holding water. Regular landscape irrigation or unseasonable rains, as forecast for this coming weekend, can provide mosquitoes with good breeding habitat. Simply draining or dumping water will prevent new mosquito breeding.

“The best way to prevent West Nile virus infection is to avoid mosquito bites. We want to remind everyone to stay protected by wearing long pants and long sleeves, especially at dawn and dusk

when mosquito activity is high, and by wearing a good mosquito repellent,” said Bi-County Public Health Officer Dr. Phuong Luu.

WNV is transmitted to humans and animals by the bite of an infected mosquito. Mosquitoes become infected when they feed on infected birds. Residents can reduce the risk of infection by practicing the “Three Ds”:

1. DEET – Use a proven insect repellent like DEET. Other recommended repellents include: picaradin, lemon eucalyptus oil, para-menthane-diol, IR3535 or 2-undecanone. Always use according to label instructions. DEET can be used safely on infants and children 2 months of age and older;
2. DAWN AND DUSK – Mosquitoes that transmit WNV bite in the early morning and evening. Wear proper clothing and repellent if outside during these times. Make sure that doors and windows have tight-fitting screens to keep mosquitoes out. Repair or replace screens with tears or hole;
3. DRAIN – Mosquitoes lay their eggs on standing water. Eliminate or drain all sources of standing water on your property, including flower pots, old car tires, rain gutters and pet bowls. For standing water that cannot be drained such as fountains, ponds, etc., consider adding “Mosquito Dunks” or mosquito fish, which feed on mosquito larvae.

In response to recent findings and increased virus activity, District staff will continue to trap mosquitoes for testing, continue our disease surveillance program, and treat areas of high WNV activity with truck mounted foggers to reduce the adult mosquito population. Spray areas can be viewed at the District’s website at www.sutter-yubamvcd.org. A surveillance map can be found there as well, which shows the location of WNV positive dead birds, mosquito collections and sentinel chickens.

Notice of Funding Availability

YSEDC News Release

YUBA-SUTTER REGION, CA (MPG) - The Sutter County Community Action Agency and Yuba County Community Services Commission are inviting proposals from qualified private nonprofit, public or faith-based organizations that are capable of operating programs that provide services to Yuba-Sutter’s low-income population and empower them to achieve self-sufficiency. Community

Services Block Grant (CSBG) funds of approximately \$240,000 for each community action agency will be distributed to area service providers with the expectation that services will be provided January 1 through December 31, 2023.

Areas of service in which the Community Action Agencies have determined priority needs exist are:

Homelessness prevention and reduction; Creation of Affordable

housing; Food Insecurity; Access to mental, behavioral and substance abuse programs and counseling.

Proposals must be received no later Friday, October 28, 2022. Proposals received after this deadline will not be considered for funding.

To obtain the Request for Proposal and/or more information, contact Jackie Slade at (530) 751-8555 or mail to: jslade@ysedc.org or visit www.suttercares.org or www.yubacares.org. ★

Aloha - Kiwanis Club! Stampede Highlights Rodeo Tradition

Kiwanis Club of Marysville News Release

MARYSVILLE, CA (MPG) - It's that time of year again and Kiwanis Club of Marysville is busy planning for the 13th annual Hogs and Hulas at Sycamore Ranch. Thanks to the support of our sponsors, we provide a fun, entertaining evening for nearly 500 folks and make money to support the children in our community.

The event will be held September 24, 2022, from 5 to 11 p.m. Dinner will be served at 7 p.m. and dancing to the tunes of Power Play until 11. And it's just \$60 per person (must be 21 or older). Campsites are available if you do not want to drive home after the event. \$40 per night with complete trailer hookups, power, and water.

Sponsorships and tickets are available and will provide exposure of your business

to the guests and other local businesses that will be enjoying the event. By helping to support Kiwanis Club of Marysville's Hogs and Hulas, you're supporting the youth of our community.

Your ticket purchases will go toward the programs of the Kiwanis Club of Marysville. Each year the Kiwanis Club of Marysville gives on average \$40,000 to the youth of our community. A few examples of the sponsored programs are the Annual Jim Watson Fishing Derby, serving 1,000 children in the Yuba Sutter region and the Bringing Up Grades Program, serving 6-8th grade children, challenging them to bring up their grades.

For tickets or to sponsor this worthwhile community event, please contact Tib at (530) 701-7356 or Brynda a (530) 713-3375.

It's all about the children of our community! ★

Update on Death Investigations of Two Females

Yuba County News Release

YUBA COUNTY, CA (MPG) - On September 16, 2022, autopsies were performed on the bodies of the two women recently found deceased in Yuba County, by a forensic pathologist in Placer County.

The first victim, who was located on Linda Avenue near Oleander Way, has been identified, 33-year-old Nichole Jeanne Parra. The body was in an advanced stated of decomposition and had been in the location where she was found for several days. She had fractures to the upper torso and arm, but due to the decomposition, a cause of death could not be determined and is pending a toxicology report. The deceased has been contacted by law enforcement on numerous occasions, with the most recent previous contact with the Yuba County Sheriff's Department in June of 2022.

The second female, who was located near Cattail Court, has been identified as 57-year-old Corinna McDaniel of Yuba City. A forensic autopsy revealed no trauma to her body and the cause of death is pending toxicology as well. McDaniel

had a history of mental illness and had prior arrests for being under the influence of a controlled substance. Investigators found evidence that suggests she may have been staying in a transient camp close to where her body was found. A few days before she was discovered, video surveillance from a nearby convenience store showed McDaniel acting bizarre and speaking incoherently to herself. While she has had extensive contact with law enforcement, law enforcement was not contacted regarding her behavior at the convenience store.

Toxicology reports are performed by an outside laboratory and the turnaround time is approximately six weeks. The Yuba County Sheriff's Office understands the community is very concerned about the deaths of both women, and understandably have a lot of questions, which is why we have requested that the reports be expedited.

These investigations are ongoing, and currently there is no evidence connecting the deaths of both women. We encourage anyone with information on either case to call our office at (530)749-7777. ★

Continued from page 1

Katherine Rosser.

"With our rodeo company, we travel all over the Western US and always look forward to coming back home and giving out community a piece of the Western lifestyle. Bringing the cowboy spirit." Says Rosser "We're not the biggest rodeo company but we attract top talent."

Saturday's event honors local military and public safety officers while some of Saturday's proceeds will be aside to support the Geweke's Caring for Women Foundation, which supports women who are being treated for female cancers.

Stake Your Claim at the Samoyed Nationals

By Mary Jane Popp

GRIDLEY, CA (MPG) - You are invited to Stake Your Claim at the Samoyed Club of America's 90th Anniversary National Specialty 2022 ...Gold Country style... October 4-8 at the Butte County Fairgrounds in Gridley, California.

This is your chance to discover the wonder of these Arctic dogs, one of the oldest breeds that originated in Siberia. They were bred to herd Reindeer, and then sleep with their people in their huts to keep them warm. It is said that it would take three dogs to nestle with their people in the dead cold of winter, and that the famous group "Three Dog Night" took their name from that connection of dogs and their people, so they say.

So, what's more fun than a flurry of white fur at the Samoyed Club of America 2022 Nationals? It's been some 26 years since the National has come to Northern California. Who knows when or if it will come back?

Every day will be filled with competitions in so many different categories from pups to seniors. You'll be delighted to a display of tricks, weight pulling, fun pee wee showmanship with the little folk and their adorable pups, even a rescue parade and the parade of title holders too. Proud Samoyed owners will gather from around the country and even around the world from as far as Australia for this epic event. From little white flurry fluffs to seasoned pros, they will strut their stuff with that great Sammy smile and their sheer desire to please for this special week.

The event is a truly unique opportunity to get acquainted with all the quirks of the

The Samoyed Club of America 2022 Nationals will be filled every day with competitions in many different categories from pups to seniors. Photo courtesy Photo courtesy of Adrea Dreamstime.com

Sammies, and maybe you'll decide to have one too! They are great family dogs. I should know; I have two of these wonderful critters, one is a rescue and got to be a champion. We share so much love with them. You can check out everything you would like to know from the owners who will be more than happy to share their experience with these dogs, and have they got stories to tell.

There will be a slew of vendors with just about anything you need for whatever kind of canine you have. From doggie stuff to some beautiful jewelry and so much more. And never fear, you can take your sweet time to peruse all that will be on display because there will be lots of great treats to satisfy your appetite. And the events

Get to know the dog breed which will be the center of all attractions at the Samoyed Club of America 2022 Nationals on October 4-8. Photo courtesy of Pavel Byrkin Dreamstime.com

will keep you and the whole family busy and put smiles on your face every single day. As a matter of fact, you might want to come back because there's so much to see and do.

Opening ceremony will commence Tuesday, October 4 at 9 AM and everyone is invited. There might be

some surprises with Gold Country reenactments of days gone by, lots of Sammies to see with a meet and greet, and some super entertainment. But you can Stake Your Claim for fun every day from 8 AM-5 PM and here's the best part, it's FREE FREE FREE!

Don't miss all the wonderful dogs shown at the Samoyed Club of America 2022 Nationals at the Butte County Fairgrounds. Photo courtesy of Zanna Peshnina Dreamstime.com

That's the Butte County Fairgrounds, 199 E. Hazel St in Gridley, California. Bring the whole family for lots of furry fun. If you want to know what's going on each day, go to www.SCA2022.com. If you have any questions, you can give a call to the Chairwoman of the event

Judy Davis at 650-759-3574.

It will be dogs, dogs and more dogs, fun events, good eats, and a super time for the whole family. It's a one-time spectacle you don't want to miss. It's a historic 90th Anniversary and did I mention it's FREE! You'll have a WOOFING GOOD TIME!!! ★

Is The
REVERSE
MORTGAGE
Right For YOU?

What is a reverse mortgage?

Reverse mortgages have been in existence for over 60 years, but many seniors are still unclear about how they work and whether, or not, this loan is right for them!

Since its introduction in 1961, the reverse mortgage has changed and developed into an important loan option that has now been used by more than a million households. In 1987 Congress passed a FHA insurance bill that insured Reverse Mortgages.

A Reverse Mortgage is designed for borrowers who are 62 years of age and older. It allows you to have access to your home's equity in the form of a monthly payout, a line of credit to draw on, or immediate cash. It is tax free and can be used as you wish. There is no payment, as long as you live in the home.

Is the reverse mortgage right for me?

When a decision needs to be made about any loan program, it is good to find out the true wants and needs of each borrower and then review the Pros and Cons of each program in light of those goals. The Reverse Mortgage is no different.

Just like any tool, it is right for some applications, but not others. Here are just 3 different examples (out of many) that I have seen over the years, where a Reverse Mortgage was used to benefit seniors.

Example 1:

These Seniors had a low fixed monthly income and lots of deferred maintenance on their home. They were on a tight budget, and they felt like they had no

Example 2:

These Seniors had a decent monthly income, but they felt like their retirement portfolio was dwindling and inflation was causing them to worry about running out of money in the future. They were worried that their lifestyle and budget might have to change.

Example 3:

These Seniors had retirement savings that were in good shape, but they felt that it made sense to pull from the equity in their home rather than from their investment accounts.

If a Reverse Mortgage sounds interesting to you, and you would like to talk more about it, feel free to call me. I have been a Mortgage Consultant for over 25 years.

We hope you enjoy the Octoberfest at Bigfoot Eats in Clipper Mills on Oct. 1. It looks like an all-day affair from 11:00 am to 10:00 pm with eats, music games and beer. We thank Bigfoot Eats for hosting this event and hope to make money to help support our local fire department.

Be thankful that so far the wild-fires have missed our area, although the smokey air is hard to breathe. Let's all stay alert and stay safe.

On October 26 the Yuba Feather Historical Assn will hold their quarterly pot luck at the museum in Forbestown. This meeting will honor the group of people who started YFHA during the early 1970s, the charter members. It takes leadership to start a program that lasts this long. I have heard that some of their

earlier celebrations involved ice cream; that is still a people-pleaser. I remember (and still know) some of the group that started this undertaking. It was several years before they were able to find a spot to begin the museum itself and it took a few more years before they were able to move the three small storage sheds into the back area and begin the replica village: Gold Trader Flat. Be glad that this group still works hard to continue with the work begun so long ago.

Look Back in Time – In 1939 William of La Porte got one of the first bucks of the season and reported that is was a “dandy” (I wonder if our local season is about to start).

~ Hope to see you in Brownsville soon. Yvonne ★

OBITUARY

In Loving Memory of Paul Daniel Holck

Paul Daniel Holck, Co-Owner of H & S Automotive, Inc., at the very young age of 52, left this world way too soon on Sunday 11, 2022 at roughly 11 pm. Paul was an amazing husband, wonderful father, and an all-around nice guy. He will be sorely missed in the community. He was survived by his wife, Kassie Holck, his 2 sons, Cleve Pitkin IV, 17, and Zacharie Holck, 8, his father-in-law, Robert Ostrom, his 2 stepdaughters, Alexis Ostrom of Minnesota, 24, and Emily Grove, 29, his 3 grandsons, Ace Timm, 3, Conner and Ethan Grove, 8 and 3, his sister and brother-in-law, Susan and Bruce Hull of Canby, Oregon, and his mom, Mary Lou Holck of Davenport, Iowa. He loved each and every one of you so much. He would make stupid jokes that everyone laughed at. He was a huge pillar in the community. He was the Secretary of the Marysville Elks Lodge #783. He and his wife, along with a number of awesome volunteers, would put on Thanksgiving Day Dinner at the Elks every year. His services are still TBA, but it will be an open to anyone who wants to pay their respects. Remember him forever and always. To our absent members.

Bill Signed to Crack Down on Street Racing and Illegal Sideshows

Continued from page 1

orders. In 2020, the California Highway Patrol responded to more than 25,000 calls involving illegal street racing activity statewide, an alarming increase of more than 3,500 calls from the year before.

In Southern California, street racing and sideshows have become extremely popular. In August and October of 2021, respectively, a Calabasas teen was among three people killed by apparent street racers in a three-vehicle collision in Burbank caused by street racing, and a Woodland Hills woman was killed and seven others were injured after a driver lost control while racing. Just last week, police arrested three dozen people at several illegal street takeovers

in and around Los Angeles and the San Fernando Valley.

Statewide law enforcement groups have identified driver's license suspensions as an effective tool for the deterrence of illegal street racing activity. Expanding on AB 3, which was signed into law last year, AB 2000 allows courts to issue a driver's license suspension for the exhibition of motor vehicle speed during a sideshow taking place in a parking lot – an area not currently covered under the law – and thereby helps to further deter individuals from engaging in these dangerous activities.

Jesse Gabriel proudly represents the West San Fernando Valley in the California State Legislature. ★

Election Fraud Ten Times Bigger than '2,000 Mules' The Tiger Project

Commentary by Harold Pease, Ph.D.

After the release of “2,000 Mules,” Gregg Phillips told the Arizona Assembly, “We do indeed have a matter brewing that is 10 times bigger than the Mules.” That information was disclosed in The Pit Conference held August 13, 2022 in Arizona sponsored by True The Vote investigative journalists and founders Gregg Phillips and Catherine Engelbrecht to journalists gathered to hear more of what was discovered (“China Interfered in the 2020 Presidential Election, After All,” Harold Pease, Ph. D., LibertyUnderFire.org).

When True The Vote proved in “2000 Mules” that domestic vote fraud was more than enough to have “elected” Joe Biden, that was the most serious crime in American history – even a coup to overthrow the president of the United States. But their research also documented collusion between many high profile Americans with a foreign country, China. For Americans “knowingly” involved this was treason as well and for a foreign country, an act of war against the United States (Sec. 18 US Code 2384 Seditious Conspiracy and 18 U.S. Code 2381-treason).

Phillips and Engelbrecht took their documents to the FBI. At the lower levels of the organization they received support and encouragement but as the evidence went up the ladder, hostility. The FBI began accusing them of having stolen their documentation from China (X22 Report, Ep. 2849b, Aug. 15, 2022, 18:55). They found themselves being investigated by the FBI instead of the FBI investigating the server in Wuhan University that had a data base on 1.8 million Americans, – everyone who had worked as a volunteer in an election in the United States – and their private personal information, collected and stored by the China Communist Party. Some Americans had colluded with the Chinese government in what is potentially the crime of the millennia – at least since Columbus in 1492 discovered America. The China Communist Party (CCP) was in the very center of the plot. This was a **new type of conquest from within and by infiltration rather than by invasion; most certainly ten times bigger than “2000 Mules.”**

This bothered them immensely. “The national security agencies of the federal government should have taken action long ago. The fact that private citizens are having to expose the CCP infiltration of national security structure and take action while the DOJ FBI, CIA, NSA, Cyber Command and CISCA are either caught napping to this threat or are complicit in covering it up, is infuriating and alarming.” (X22, Ep. 2866b, Sept. 4, 2022, 29:25) Given the FBI reaction at the top and their efforts to censor the Hunter Biden laptop from the 2020 Presidential Election information, we suspect the latter. If they “knowingly” covered up the China connection they were working for a foreign government.

With collusion and censorship by the Deep State media and the national security agencies of the federal government, True The Vote had to form their own investigative body. They needed other investigative journalists

to prob further with them. They called their group of “over 100 experienced thinkers and researchers,” The Tiger Project. One of these, Brian Cage, wrote: “The Tiger Project was explained to us and then we were asked for help. We gave it!!!”

On Telegram he framed what was already documented. These follow: 1) “Almost all the software code in the ABS platform is being used to run elections in hundreds of U.S. counties ... written by programmers from the CCP” (China Communist Party). 2) These were “owned by CEOs running companies with direct ties to the CCP.” 3) “CCP law means whatever code they write, whatever app they own, any platform they have a right to take digital information on the Apple platform and download it to China because they own it. It's theirs. [If] you use a CCP owned and connected digital highway the information you put into it can become their property. If you're on WeChat or Tick Tock get off now.” 4) “And since they own the data and it belongs to them, once the data is inside mainland China they can do whatever they want with it.” 5) “It was discovered by Catherine Engelbrecht and Gregg Phillips of True The Vote that China has been downloading some of the data running over these CCP connected EMS apps and platforms. The detailed personal identification, PII, from 1.8 million US election workers is just the start of what the CCP considers itself to own.” 6) “CCP wrote the code for and manages and operates the EMS system in multiple countries, and it considers all the data it gets its hands on via the EMS system, to be theirs and they can do whatever they see fit with it.” 7). “This makes removing the CCP controls and affiliates so for apps and platforms from the US election system in hundreds of U.S. counties a serious matter of national security” (X22 Report, Ep. 2866b, September 4, 2022, 25:00-30:00).

He told us what must be done after the country is fully awakened to the fact that “our election system has been corrupted by a hostile foreign power.” Then all “CCP controlled affiliate EMS apps and platforms” and machines must be discarded and we must return to only paper ballots.

Thus far Deep State platforms have given no rebuttal to the information respecting the Pit findings or the Tiger Project. It, as with its predecessor “2000 Thousand Mules,” benefits from an enemy that argues with silence and censorship. But with a team of a hundred investigative journalists attempting to discover and report more fully this coup, LibertyUnderFire will have opportunity to share more details later.

What we do know is that China operates an election management system that is used in hundreds of our cities and counties that allows them to influence our elections, perhaps select our leaders as well as per Biden, and thus they have conquered half of America without their firing a missile or a bullet. We also know that they have records and personal data on at least 1.8 million U.S. election workers plus their families, the vast majority of Americans oblivious to it all. ★

Stories from The Great Zelito Flea Circus by Bill Crocker

A collection of humorous essays about the funny side of life

BIGBRO, A VIEW FROM ABOVE

I have been fascinated and mystified by the navigational and surveillance technology that is available today. I have read there are between twenty-four and thirty-two medium Earth orbit satellites that transmit precise radio wave signals that allow the global positioning system (GPS) receiver in my vehicle to determine its current location. There are also surveillance satellites that can identify the license plate on that same vehicle. Such technology stretches credibility. It doesn't make a lot of sense to believe the sexy female voice coming from that little box on the dashboard is a result of a bunch of metal objects up in the air somewhere. Witness this exchange between the sexy female voice and Joseph and Giuseppina Buttazzino, an elderly couple.

“Continue on Route 24 for 2.75 miles, then turn right to Route 64.”

“Joey, we don't wanna turn there. That makes us go by Jimmy's house. Can't you fix that thing?”

“Sweetie, you know this system is very accurate and is just giving us the best possible directions.”

“Well, you gonna do what it says?”

“I have to. She'll get very upset if I don't follow her directions.”

“Well, I'm gonna get upset if my ex sees us drive by.”

“Trust me, she knows the best way.”

“And another thing. Did you have to get a system with a sexy female voice? It's unnerving. You treat it like a real person.”

“Snookems, I just follow the directions. If I don't, I get lost.”

“You always get lost.”

“I don't either. You exaggerate.”

“Okay, Joey, the turn's coming up. Don't turn!”

“Turn right to Route 64.”

“Joey, I'm tellin' ya, don't turn.”

“Honey, don't grab the wheel. We'll have an accident.”

“The turn was not executed. You are now traveling in the wrong direction. Proceed 2.67 miles to Route 45, turn right for 5.98 miles to County Road 222, turn right for 5.32 miles to Route 64.”

Breaking out in a sweat, Joey turns onto Route 45 as ordered and follows the directions to the letter as Giuseppina sulks. As they make the turn onto County Road 222, Joey loses control and collides with a rather large tree. Consequently, the car comes to a sudden stop, air bags deploy, and another voice is heard.

“Mr. Buttazzino, this is Lupi from BigBro. I have received an automatic signal that you have been in a front-end collision with a thirty-four-year-old coast live oak 2.89 miles from the Mitchell Farm. Do you need help?”

“Joey, are you stupid or somethin'? Why'd you run into this tree?”

“My pet, I didn't do it on purpose. We're lost, and I got confused.”

“See? I told you. You always get lost.”

“Mr. Buttazzino, our respiration monitors indicate Mrs. Buttazzino is having a hissy fit. Are you both all right? Do you need assistance?”

“No, we are fine, thank you,” replies a somewhat frazzled Joseph.

Okay. It appears as if you both are uninjured. I see Mr. Buttazzino is pulling the car away from the tree and is driving away. As a cautionary comment, I wish to note your rear license plate indicates your vehicle's registration is out of date. If there are no questions, I am terminating this conversation. Thank you for using BigBro.”

The Buttazzinos continue along County Road 222. Far above them, unseen satellites continue to track their progress. The sexy GPS disembodied voice is now directing our stalwart travelers into town and the local police station where the authorities are waiting with a citation for an outdated vehicle registration. ★

Bridge Coffee Company Awarded in Golden Bean Awards

Bridge Coffee Company News Release

YUBA-SUTTER REGION, CA (MPG) - On August 30th, 2022, Bridge Coffee Company was been awarded a Bronze Medal in the Golden Bean Awards 2022. The Golden Bean Awards is a peer voted, worldwide competition of Specialty Coffee Roasters. The competition has been running for nineteen years in Australia and is in its eighth year in North America.

The Golden Bean Awards is another

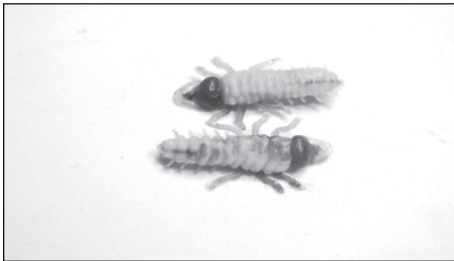

accomplishment that would not be possible without the support, guidance, and participation of the Yuba-Sutter Community. Our mission is to connect communities with specialty coffee and that is exactly what Yuba-Sutter is building upon. “We want you to taste just how special, Specialty Coffee can be.” -Tim Styczynski, Co-Founder and CEO.

Bridge Coffee Company sources coffee beans to hand roast in small batches from our facilities in Marysville. For more information, visit www.BridgeCoffeeCo.com. ★

LOCAL FISHING

Mill creek; upper 13 miles. Known for the 1856-1867 genocide of the Yana Indian Tribe by the government. My attempt to catch a steelie was thwarted by a fierce goshawk, I have to keep one-eye peeled for him, lest he steal my catch. Ishi, the last survivor of the Yahi people was captured, studied, and put on display by the officials of the University of California. Ishi never had to put up with the pesky, sneezy fitz-bew call of the local Willow Flycatcher, while it was catching my best,

Sow Bug

hand-crafted Sow Bug Fly. **Fisherman's comment:** Uh-huh! Sorry Brownie, I cannot stand the petulance of either the goshawk sharing meat destined for my cooking pot, or the capricious voice of the Willow Flycatcher, while he swoops down and catches my hand tied flies. Signed. Hunky Dory

SAN FRANCISCO BAY-DELTA

San Francisco Bay; Red Tide algae bloom fish kill. Sturgeon, sharks, bat rays, striped bass, small gobies, anchovy and herring. Contributing factors: ...63 percent of nitrogen and phosphorus in the bay caused by 40 City Waste Water Plants. Exporting water: (reduces fresh water inflow, salt incursions) Warm water.... Reduction of oxygen levels, and algae toxicity. [Sept 17, 2022, Bloom is ebbing] Bodega Bay; to Pt. Reyes. Only rock fish

Heddon Tiny Torpedo

and lingcod biting. USE: Whole Squid. (b) Delta; caught 25# 1 ½-4 ½ lb. black bass. Punching...USE: Brush Hogs. (b) Caught 10# stripers to 12 lbs. USE: Heddon Tiny Torpedo's (b) Delta; Montezuma Slough

caught 30#, skinny 5-6 lb. stripers. Bottom of lo-tide. USE: Rattletrap (b)

COASTAL WATERS

Marin Coast; party boats enjoy pot-luck fishing: salmon, lingcod and rock fish. Trolling...USE: Live Anchovy. (b) Monterey Coast; Albacore biting. Commercial longliners. USE: Live Squid. (a) Bay; party boats loaded with “lookie loos”. for humpback whales. [nobody fishing].

LAKES RESERVOIRS AND RIVERS

Bullards Bar; Kokes in spawning mode at the river arm, not biting. Try fishing for next years 10 inch juveniles, at the dam. USE: Hoochie behind Dodgers. (a) Lake Oroville; 22.5”-23” Kings. Troll 60ft deep, Green Bridge East Wall. Call 530-538-2200 for ramp info. USE: Cut Plug w/ Tuna. (a) Folsom Lake; 13lb. 9oz salmon. Trolling 80’-100’ deep. Note: Sept. 19, 2022 lake back to 5 MPH speed limit. USE: Live Anchovy. (a) Clear Lake; Tough! Nothing biting! One small 3lb. bass. USE: Buzz Bait (g) Davis Lake; warm water algae bloom, smells like a swamp. People and dogs stay out. USE: ?? Englebright Reservoir; rainbows of 1 ½ lbs. USE: Earth Worms, behind Dodgers. (a)

RIVERS

American River; Watt Ave. to Paradise Beach. 4lb. stripers. USE: Jerk Baits. (a) **Fisherman's Comment:** Brownie, I use the Rule of Thumb to select my current bait. [1600s English Law, allows man to beat his wife, so-long as the rod was no thicker than his thumb.] Sacramento River system: Sac. Metro area to Redding. 70 degrees plus water preventing chinooks from moving upriver. Few here are lethargic. (gg) Feather River; mouth, Shanghai bend to Oroville. Salmon lethargic. (gg)

The old story about the bait fisherman, hardware fisherman and the fly fisherman. All three see a 25-inch rainbow trout in the creek. “Fascinating, the trout is silver” says the bait fisherman. The hardware fisherman says “I’m afraid you’re over-generalizing from the evidence. All we know is that some trout are silver.” Finally, the fly fisherman shakes his head at both of them

“Wrong again. Completely unwarranted by the evidence. All we can infer, logically, is that there exists at least one trout in the creek, at least one side of which is silver.” ~ **Brownie**

The Rental Stock Portfolio

Many investors love rentals. More millionaires have been made from real estate than any other asset class.

When I ask investors about what they like about rental properties, the obvious answer given is the rent checks. Then asked if they care if the property drops in value, they usually answer, no, as long as they get the rent checks.

There is a similar opportunity in the stock market and without some of the headaches real properties have such as having to deal with tenants, late rents, rent moratoriums, leaky roofs, insurance, liability exposure and hefty commissions when one decides to sell a property. Add in property taxes and possible tax assessments and the hassles become pretty obvious.

An option is what I call a “Stock Rental Portfolio” which can pay just like a rental but with some definite advantages utilizing dividend paying stocks.

Dividends are payments by companies whose stocks you own. Dividends can be cut, eliminated or increased at the whim of the Board of Directors, but there are many reasons why they would not want to do that.

The members of the board probably have stock themselves, so if you get a dividend, so would they. Tax rates on dividends can also be less than tax on income, so in lieu of a big salary, VPs might opt instead for lots of stocks, reap the dividends and possibly pay less in tax.

A group of stocks called “Aristocrats” have not only paid dividends for more than a quarter of a century or more, but have increased them every year for the same amount of time or more (a requirement to make the Aristocrat list). Some have paid dividends and increased them every year for over 50 years! Some even longer.

How many landlords out there can say can they increase their rent to their tenants every year?

Probably not many.

But Aristocrats stocks by definition have to in order to remain on the Aristocrat list, and the Board has every incentive to maintain the record of increases to remain an Aristocrat.

The board also knows should they break the streak of increases, their stock would likely get punished as not increasing the dividend may mean there are financial issues preventing them from doing so, not to mention angering stock holders who expect annual increases.

With a dividend portfolio, there are no tenants, no property tax, no maintenance

costs, no vacancies, and no huge sales commissions. There are also no long wait times to liquidate like waiting for a buyer or long escrow to cash out. Stocks can usually be sold in microseconds when the markets are open.

Can stocks drop in price?

Sure they can, but remember landlords tell me they don’t really care if the rental drops in value as long as they get their rent checks. So if stocks drop, but the Aristocrats keep their history of paying dividends intact (and increasing them every year to boot), you will still get your “rent”.

With the advent of the rent moratorium, inflation pushing maintenance and insurance costs up, taxes going up, more wildfires, increasing mortgage rates, memories of the 2008 housing crash, and more consumers struggling, the threats to landlords and their financial stability is on the increase.

With the possibility of lower tax rates on income through dividends, essentially zero commissions to buy or sell these stocks through the use of discount brokers who offer commission free trades, zero property taxes, no tenant problems such as midnight calls or unpaid rents, instant liquidity and no maintenance costs, there is a lot to like about a “Stock Rental Portfolio”.

In conclusion, I used to be a landlord, and loved the rent checks. But as time wore on and the hassles of the rentals properties and their tenants increased, I sold all my properties and instead now hold many an Aristocrat dividend-paying stock.

Should the boards of directors of these companies elect to stay on the Aristocrat list, and they have every incentive to, I will continue to get higher and higher payments every year, without all the threats to my financial picture as rental properties can expose me to, and without all the problems and landlord stress as well.

LaMalfa and Pappas Legislate on Travel Reimbursement for Veterans

Office of Congressman LaMalfa

WASHINGTON, D.C. (MPG) - On September 14, 2022, Congressmen Doug LaMalfa (R – Calif.) and Chris Pappas (D – N.H.) introduced new legislation to help cover the out-of-pocket expenses that veterans and their caregivers incur when traveling to receive medical care provided through the Department of Veterans Affairs (VA). In response to high inflation, the Veterans Medical Mileage Adjustment Act of 2022 would increase the mileage reimbursement rate for the Beneficiary Travel Program for eligible veterans who have to travel more than seven miles, or more than 14 miles round trip, for VA-related health care.

U.S. Senators Jon Tester (D – Mont.) and Jerry Moran (R – Kan.), the Chairman and Ranking Member of the Senate Veterans’ Affairs Committee (SVAC), introduced companion legislation in the Senate earlier today. In addition, Congressman Rick Larsen (D – Wash.) has signed on to the legislation as an original co-sponsor in the House of Representatives.

“With gas prices in California up over two dollars in the last few years, traveling is more expensive than ever. While some Californians try to make ends meet by cutting back on driving or other necessities, rural veterans seeking medical treatments have few options. They rely on hospitals and clinics located far from their home. We shouldn’t force our veterans to shoulder more and more of this cost because Washington has abandoned a reasonable energy policy. This legislation will increase the mileage reimbursement rate to protect our veterans from government-created inflation,” said Congressman LaMalfa.

“No one should struggle to access care because of the distance they must travel for an appointment or the cost of transportation. But veterans in New Hampshire, especially veterans who live in rural areas,

often have to travel long distances to access VA health care services,” said Congressman Pappas. “This overdue increase in reimbursement rates for veterans traveling for VA health care would ensure that Granite State veterans are properly compensated for their travel costs, and I’ll keep fighting to protect access to community-based care that will reduce the travel burden shouldered by our veterans.”

“Travel to medical appointments is often a real burden, especially for veterans and caregivers who live a long distance from VA facilities,” said Congressman Larsen, a senior member of the Armed Services and Transportation and Infrastructure committees. “This bipartisan bill improves equity and public health by increasing reimbursement rates to ensure Washington veterans can access the medical care they need, regardless of where they live.”

“Inflation and rising costs have resulted in more and more veterans shouldering additional costs when traveling to receive health care provided by the VA,” said Senator Moran. “Raising reimbursement rates will help keep the Beneficiary Travel Program relevant and make certain travel-related costs are not inhibiting our veterans from receiving the care they deserve.”

“For Montana veterans living in rural or remote areas, getting to a VA health care appointment can mean driving dozens of miles each way to their nearest facility,” said Senator Tester. “Increasing the mileage reimbursement rate will ensure VA benefits are keeping pace with rising transportation costs, so veterans can continue accessing their earned care – no matter where they live.”

This legislation is endorsed by the American Legion, Veterans of Foreign Wars of the U.S. (VFW), Disabled American Veterans (DAV), and Wounded Warrior Project. ★

COVID-19 School Closures Undermined Learning

By Dan Walters,
CALMatters.org

Whether California’s schools should remain open or be closed was a hot issue when the COVID-19 pandemic was raging in 2020 and 2021.

Although medical authorities quickly concluded that children had a much smaller risk of being infected or experiencing severe effects if infected, California schools were mostly closed, in large measure because teachers and their powerful unions insisted on it.

With schools closed, local administrators scrambled to provide on-line classes, what became known as “zoom school,” but they were poor substitutes for the real thing — especially for English-learner students and those from poor families.

Those children — roughly 60% of the state’s nearly 6 million public school students — were already trailing their more privileged contemporaries academically when the pandemic hit. The closures made it worse, for obvious reasons.

They tended to lack internet access and proper equipment for on-line classes. Their parents were often compelled to work outside the home to make ends meet, so kids were often left to fend for themselves. Absenteeism

from on-line classes was widespread.

Affluent parents, particularly those who could easily work from home during the pandemic, made certain that their kids attended on-line classes, helped them with their school work, formed informal collaboration groups and/or hired tutors. Thus, the ill effects of closures were mitigated. And, of course, private schools, such as the one Gov. Gavin Newsom’s kids attend, either remained open or minimized closures.

For months, politicians from Newsom downward quarreled over how the schools should function and angry parents formed the core of a movement to recall him from office. Newsom survived the recall, but the educations of millions of kids did not, as new data confirm.

While the state Department of Education has not released 2022 academic test data that would allow comparisons with pre-pandemic results, individual school districts are doing so and the numbers from the state’s largest school district, Los Angeles Unified, are stunning.

About 72% of the district’s students are not meeting state standards in math and 58% are behind in English, essentially wiping out five years of progress that it had recorded prior to the pandemic.

“The pandemic deeply impacted the performance of our students,” LAUSD Supt. Alberto Carvalho said. “Particularly kids who were at risk, in a fragile condition, prior to the pandemic, as we expected, were the ones who have lost the most ground.”

While the district released

gross data, it did not break down the test results by ethnic or economic subgroups. The Los Angeles Times, however, gleaned the detail from a school board document marked “not for public release.”

Why the secrecy? Apparently, it was to mask the particularly disturbing data about Black and Latino kids.

“About 81% of 11th-graders did not meet grade-level standards in math. About 83% of Black students, 78% of Latino students and 77% of economically disadvantaged students did not meet the math standards,” the Times reported.

We won’t know how the state as a whole fared until — and unless — the Department of Education finally releases 2022 complete “Smarter Balance”

test results. But there’s no reason to believe that what happened — or, more accurately, what didn’t happen — in Los Angeles isn’t also true of other systems, particularly those with large numbers of at-risk students.

The educational deprivation that California inflicted on its kids is not only shameful, but will reverberate for decades. Children who fail to master the basics of education in lower grades will be ill-prepared for high school and post-high school training and education. If they are not prepared to take their place in the work force, the state’s economy will suffer.

Dan Walters has been a journalist for nearly 60 years, spending all but a few of those years working for California newspapers. ★

The sale will be made in an “as is” condition, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by the Deed of Trust, with interest and late charges thereon, as provided in the note(s), advances, under the terms of the Deed of Trust, interest thereon, fees, charges and expenses of the Trustee for the total amount (at the time of the initial publication of the Notice of Sale) reasonably estimated to be set forth below. The amount may be greater on the day of sale. Trustor: Ricky Daniel, a married man, as his sole and separate property Duly

Appointed Trustee: National Default Servicing Corporation Recorded 01/23/2013 as Instrument No. 2013R-000915 (or Book, Page) of the Official Records of Yuba County, CA. Date of Sale: 10/31/2022 at 9:00 AM Place of Sale: At the Fifth Street Entrance at Yuba County Courthouse, 215 Fifth St., Marysville, Ca 95901 Estimated amount of unpaid balance and other charges: \$82,980.27 Street Address or other common designation of real property: 1691 Brookglen Dr Olivehurst, CA 95961 A.P.N.: 014-495-012-000 The undersigned Trustee disclaims any liability for any incorrectness of the street address or other common designation, if any, shown above. If no street address or other common designation is shown, directions to the location of the property may be obtained by sending a written request to the beneficiary within 10 days of the date of first publication of this Notice of Sale. If the Trustee is unable to convey title for any reason, the successful bidder’s sole and exclusive remedy shall be the return of monies paid to the Trustee, and the successful bidder shall have no further recourse. The requirements of California Civil Code Section 2923.5(b)/2923.55(c) were fulfilled when the Notice of Default was recorded. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be

responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder’s office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call or visit this Internet Web site www.ndscorp.com/sales, using the file number assigned to this case 22-00877-SM-CA. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. NOTICE TO TENANT*: You may have a right to purchase this property after the trustee auction pursuant to Section 2924m of the California Civil Code. If you are an “eligible tenant buyer,” you can purchase the property if you match the last and highest bid placed at the trustee

auction. If you are an “eligible bidder,” you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call 888-264-4010, or visit this internet website www.ndscorp.com, using the file number assigned to this case 22-00877-SM-CA to find the date on which the trustee’s sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee’s sale. Third, you must submit a bid so that the trustee receives it no more than 45 days after the trustee’s sale. If you think you may qualify as an “eligible tenant buyer” or “eligible bidder,” you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. *Pursuant to Section 2924m of the California Civil Code, the potential rights described herein shall apply only to public auctions taking place on or after January 1, 2021, through December 31, 2025, unless later extended. Date: 09/02/2022 National Default Servicing Corporation c/o Tiffany & Bosco, P.A., its agent, 1455 Frazer Road, Suite 820 San Diego, CA 92108 Toll Free Phone: 888-264-4010 Sales Line 855-219-8501; Sales Website: www.ndscorp.com By: Gabriela Sanchez, Trustee Sales Representative 09/16/2022, 09/23/2022, 09/30/2022 CPP353116

Final Farewell for Queen Elizabeth II

By Susan Maxwell Skinner

It was a spectacle few will see again. A Queen – perhaps the greatest monarch in history – borne to rest with pageantry beyond Cecil B. De Mille. Monday’s funeral was a masterpiece only the Queen’s horses and men could achieve; meticulously choreographed by the lady herself.

The massed pipers, gun carriage and swaying naval phalanx was not just pomp. Pragmatic to the last, Elizabeth II knew great

meet again.” The nonagenarian bore the yoke of duty until death.

Service came at a price. Her babies lacked a mum’s hands-on guidance and later blundered into mistakes she so deftly avoided. But three Windsor generations’ heartfelt mourning demonstrated the brood’s profound love.

When I was a little girl, I waved to the Queen from a street crowd. In pale flesh, I beheld the icon from New Zealand’s stamps and pound notes. When I met her many years later, I was told to address her as her

A broad smile and colorful ensembles were foils for Queen Elizabeth’s stoic reserve. Photo courtesy of Zak Hussein.

Photographed with the Queen on tour, Susan Maxwell Skinner was among correspondents that followed the Royal family during the 1980s. Photo courtesy of Anwar Hussein.

pageantry stirs sentiment. What better tonic for royal continuance? What better kick-start for her heir’s succession?

Ten thousand military officers and the tears of a grateful nation accompanied an Empress into legend. Elizabeth was not born to her role, yet this accidental monarch managed sovereignty so peerlessly that her death was – for millions – like the loss of a mother, a grandmother or great grandmother.

The Queen encapsulated the Greatest Generation. Her radio voice comforted Londoners during Hitler’s blitzkrieg. Her wedding dress was purchased with clothing ration coupons. The Navy bride followed her husband’s deployments, and she paraded children at her coronation. As a Commonwealth leader, she walked a steel tightrope through 70 years of diplomacy. During pandemic, she reassured locked-down subjects, “We will

ma’am. Through nerves, I called her “mum.” She looked at me askance, but the irony was surely not lost on the mother of the Commonwealth.

I was then a court correspondent in London. Palace press corps members saw her frequently, but the jokey banter of Charles and Diana’s entourage was absent with the Queen. Some people called her shy; I found her reserved. I recall achingly polite conversations about the weather. Her sapphire gaze was beguiling. But in disapproval, what she called “the look” could silence cannon fire.

Stoicism is not the same as snobbery. As much as her 15 prime ministers, the Monarch knew adaptability was key to survival. In tune with her times, she knighted rock stars, agreed to pay taxes, shelved her minks, mothballed her yacht and shook hands with activists.

She bent only as far as her

principles allowed. The Queen gave no interviews; nor did she pander to the press. She believed a monarch should be seen – hence her bright ensembles – but heard as little as possible. In an age of celebrity narcissism, the world’s greatest celebrity eschewed exposure of emotions or private life. Her children divorced; a son was disgraced; a grandson defected. The matriarch seethed or grieved in private. Her husband died; she soon donned lavender ensembles and returned to work. Her policy to neither

explain, complain or comment served her well.

The Queen nevertheless knew the age when few questioned colonialism – or Britain’s right to the Koh-in-Nor diamond – were over. Abdicating from dynastic problems on September 8, her final coup was to unite stewing elements of the Commonwealth in mourning.

Elizabeth II’s most crucial legacy is the king she groomed. What Charles missed in motherly cuddles was not stinted in his training. The mentor likely hammered in

responsibility to a changing society over tea and scones.

When Elizabeth ascended, her realms were emerging from war years with adoration for Queen and Country. Charles III inherits national crises and a complaining Commonwealth. But as passionately as one Sovereign believed in contouring monarchy for the times, so will her heir.

Elizabeth II was the right Queen for her era. Thanks to her unflinching example, I believe Charles III will be the right King, for his. ★

In keeping with royal tradition, more than 140 Royal Navy ratings pulled a Victorian gun carriage bearing the Queen’s casket. The flag-draped lid was topped by Crown Jewels, including the Imperial State Crown and orb and scepter. Flowers from the Queen’s gardens formed a wreath. Photo courtesy of Zak Hussein.

Reverse mortgages are loans offered to homeowners who are 62 or older who have equity in their homes. The loan programs allow borrowers to defer payment on the loans until they pass away, sell the home, or move out. Homeowners, however, remain responsible for the payment of taxes, insurance, maintenance, and other items. Nonpayment of these items can lead to a default under the loan terms and ultimate loss of the home. FHA insured reverse mortgages have an up front and ongoing cost; ask your loan officer for details. These materials are not from, nor approved by HUD, FHA, or any governing agency. Licensed by the Dept of Financial Protection and Innovation under the CMLA.

Huskies Stay Perfect with Shutout Over Indians in PVL Opener

By Steven Bryla

SUTTER, CA (MPG) - The Sutter Huskies continued their undefeated streak in the CIF Sac-Joaquin Section with a 35-0 shutout over the Marysville Indians on Friday night.

This is the Huskies' first year in the SJS after years of dominating the Northern Section. This is also the team's first year in the Pioneer Valley League (PVL).

Sutter (5-0, 1-0 PVL) head coach Ryan Reynolds was pleased with his rushing attack throughout the game and how his team executed their game plan.

"We did enough to be efficient and capitalize," Reynolds told the Messenger Publishing Group.

The Huskies came into the game with an average of almost 47 points per game and about 475 yards of offense in each game.

Senior running back Troy Brucie entered the game with 508 rushing yards and seven touchdowns on the season so far for Sutter. Brucie added to his totals Friday night, carrying the ball 15 times for 129 yards and three scores, averaging a whopping 8.6 yards per rushing attempt.

Brucie also added another team-high with two receptions for 70 yards. Unfortunately for the Huskies and their fans, fellow senior RB Landon Sable broke his collarbone in the second quarter and will be out the remainder of the season.

Senior quarterback Luke Miller scored a 13-yard rushing touchdown to give Sutter a 14-0 half-time lead. Miller rushed

seven times for 24 yards and a score on the ground. However, with his arm, the senior completed 5-of-7 pass attempts for 81 yards.

Brucie added two more touchdowns in the second half, which included a 27-yard touchdown run early in the fourth quarter to extend the Huskies lead to 28-0.

Marysville (3-2, 0-1) head coach Will Claggett said despite the shutout loss, he was happy with how his team battled defensively. The Indians have a bye week and will host Colfax (3-1, 1-0) next week, which gives Claggett and his team time to adjust.

"We're going to look and try and reduce the load on our two-way players," Claggett explained to MPG.

He added that his team was a little gassed in the second half and this bye will be nice to get a little rest. The week off will allow the coaches to evaluate the team to see if anyone on the roster could potentially fill a spot where a current two-way player lines up.

This was the third shutout for Sutter this season. The defense is led by senior middle linebacker Joseph Martinez and junior defensive end Asiata Auckland. Martinez and Auckland both contributed a game-high 11 tackles in the win Friday night.

With PVL play underway, each game is crucial. The Huskies will travel and play on the road Friday night at Colfax.

"They're well coached and disciplined," Reynolds said. "It's going to come down to execution." ★
