United Way 'Cash for Food Drive'

YSC United Way News Release

MARYSVILLE, CA (MPG) - The Yuba-Sutter Food Bank and some 20 other local food providers for low-income families are seeing a sharp increase in demand for nutritious foods this summer.

Yuba-Sutter-Colusa United Way and the Grocery Outlet team up each year to put a solid dent in serving that demand with the "Cash for Food Drive."

During the month of July, \$21,829 was collected and 100% of the donations were distributed to 13 food providers in Yuba, Sutter and Colusa Counties. The bulk of the funds, \$18,027, came

from Yuba City Grocery Outlet's "Freedom from Hunger" promotion in which their customers donate in exchange for a future discount.

Yuba-Sutter-Colusa United Way Executive Director Bob Harlan said, "There is a major increase in demand as low-income families are being hit hard by the high inflation rate, which has seen sharp jumps in the cost of food, rent and utilities among other things."

"And with a lot of the federal and state government aid during the pandemic going away, families are struggling," Harlan said.

In addition to the "Cash for Food Drive" this year,

YSC United Way also has a Holiday Turkey Drive in association with Results Radio, which garnered enough donations to feed and estimated 6000 people last November and December and YSC United Way over 24 years has coordinated the Federal Emergency Management Agency's "Emergency Food and Shelter Program," which this year distributed \$474,814 for food and emergency shelter in Yuba and Sutter Counties.

"Our United Way takes the needs of struggling families very seriously. A 2019 statewide United Ways of California study showed that locally, 30% of

families have trouble making ends meet each month" Harlan said.

Organizations receiving funds from the "Cash for Food Drive" included: The Catholic Ladies Relief Society; The Christian Assistance Network; Crossroads Community Church; First Presbyterian Church of Marysville; The Ministerial Association of Colusa County; The Salvation Army Yuba-Sutter Corps; St. Andrew Presbyterian Church; St. John's Episcopal Church St.; Vincent de Paul; Twin Cities Rescue Mission; Yuba City Community Adventist Church; and The Yuba-Sutter Food Bank. ★

Message from the Superintendent: Together We Can!

By Fal Asrani, MJUSD
Superintendent

MARYSVILLE, CA (MPG) - A warm welcome back to another exciting new school year!

I hope your family had the opportunity this summer to spend quality time with loved ones and that you and your children are ready for the upcoming school year. It is going to be a great year!

The beginning of each school year is always time for reflection, preparation, and new beginnings. We will continue to focus on strengthening communication, building relationships, and working together to ensure that we have safe, welcoming, and student-focused schools. Staff have been working all summer long to prepare for the upcoming school year and, as the school year gets underway, we will continue to expand academic, enrichment, and social-emotional opportunities for our students.

I am honored to welcome several new administrators and a large number of new teachers to the MJUSD family. I would like to personally thank them for choosing to serve our community. The shortage of teachers and administrators in the field of education is a national crisis, so I am grateful that we have found so many qualified people to join our team.

We have a lot of exciting work ahead, including new school renovations and building projects as well as new partnerships with Chico State and UC Davis to facilitate a college-going culture within MJUSD. We are also expanding the district's Student Engagement and Leadership (SEAL) program and offering new parent-engagement options.

Together We Can is our theme for this year because we believe that together we can create opportunities that will benefit our students. It is important that we remain positive, productive, and proud of our schools and find joy in the work we do daily. Please take a moment to watch our 2022-23 Welcome Back Video. We will continue to prioritize school safety at all school sites. Each year, all staff members receive training on safety procedures and response expectations for a variety of emergencies. In addition, each school site conducts regular emergency drills, and we will

Looking to Enrich the Tradition

Engelbrecht Advertising News Release

GRIDLEY, CA (MPG) - This year's Butte County Fair gives a nod to the future while carrying on the fair time traditions.

The Butte County Fair will take place Thursday, August 25 through Sunday, August 28. In Gridley. Hours Thursday 4-11 p.m., Friday 3-midnight, Saturday noon -midnight, Sunday noon 11 p.m.

Looking to engage the future generation, the Competitive Stills department added opportunities for youth to get more involved and share their skills and hobbies, as well as working together with their families.

One way this was done, was by adding is a Digital Media and Arts category to the Youth Division. This division was designed for those dabbling in creating digital works of art, such as Instructional and

entertainment videos, and digital arts.

Also, a Butte County Scene category was added to the Photography department and the Youth department was restructured to include the Grange Youth and 4-H programs.

The Fair has also added People's Choice contests in many of its Competitive

Stills and Exhibits. This allows attendees to vote for their favorite exhibit during the fair. The exhibits are in Expo Hall. Votes will be tallied on Sunday and the winners will receive a gift certificate from the department sponsors.

"We strive to preserve and enrich the tradition of

the Butte County Fair for future generations," Butte County CEO Stephen Kenny stated. "We hope to continue to develop youth and expand involvement in our Fair."

The Fair has assembled a full line up of family entertainment all weekend long.

**A collection of humorous essays
about the funny side of life**

**THE CRUISE OF THE
ANCIENT MARINERS**

My wife and I returned from a fifteen-day cruise to Hawaii out of San Diego a few years ago. Those of you who have cruising experience know that cruise lines do their very best to ensure that you don't have a moment's rest. Every day at sea is filled with activities.

It's common knowledge that this cruise line caters to the older crowd. Motorized scooter chairs, matching Hawaiian shirts, and stewed prunes were in abundance.

Our cruise director, Todd, was a young, high-energy guy, who was always "up" with a perpetual smile. He was full of ideas that filled our several days at sea. I preferred to read a book and not participate in the various games and events. But it was a chore finding a place that wasn't within earshot of the latest velvet painting auction or the constant informational announcements from the bridge. Out of curiosity, I attended two of the events and sat in the back.

The Not So Newlywed Game: Some of us remember a TV game show called The Newlywed Game, hosted by a very young Bob Eubanks during the late 1960s. It was a time of big hair and leisure suits.

The show pitted newly married couples against each other in a series of revealing question rounds to determine how well the spouses knew each other. Good old Todd conducted the senior version, "The Not So Newlywed Game." This activity was held in the Ariccept Atrium on deck four. Husbands and wives were alternately asked questions about their spouses. George and Sadie Wadsworth from Sludge Bay, North Dakota, won a \$100 spending spree in the ship's gift shop. George responded correctly to the question, "What is the name of your wife's favorite drink?" He thought he was asked for her favorite "shrink." He answered that he didn't know she had one, which turned out to be the correct answer for both questions.

Bunion Derby: The moving style of Denny and the Dulcolax Regulars could be heard nightly in a small salon on the port side of deck five next to the casino. One evening, the group doubled as a dance band for a 1920s

dance marathon. It was obvious that Todd was excited about this contest, as were the couples. Unfortunately, the contest only lasted twenty minutes. Walter and Minnie Upshod from Pine Creek, Alberta, Canada, took the prize: five dance lessons with Cecil, the ship's dance choreographer, and a three-pack of Sloan's Pain Relieving Liniment.

One day, I sat with my book just outside the Leaky Leaky Lounge in the adjoining Flomax Foyer still trying to read. My concentration was broken by an enormous, twenty-foot high, infernally irritating, automatic, electronic, one-piece band playing a tinny rendition of Hoagy Carmichael's signature song, "Stardust," in the center of the foyer. This thing played once every hour, sort of like a large clock from hell, noting the time of day.

We returned to San Diego with many good memories of the cruise and the islands we visited. As usual, the quality and the efficiency of the shipboard service and the shore excursion arrangements were second to none.

Okay, I know I've poked a bit of fun at the older folks. But I hope I can get away with it better than most because I'm one of them. Kudos to us who cruise the seas, disregarding the warnings of our children that we are too old to experience new adventures. ★

Local Health Emergency after Avian Influenza is Confirmed in Butte County

BCPH News Release

BUTTE COUNTY, CA (MPG) - On August 17, 2022, Butte County Public Health (BCPH) declared a local health emergency after notification by the Butte County Agricultural Commissioner's Office (BCAG) that avian influenza has been confirmed in a domestic flock of birds located in Butte County. Avian influenza is a zoonotic disease that can be transmitted from birds to humans and creates a potential communicable disease threat.

Butte County's departments of Public Health, Public Works, Office of Emergency Management and Agricultural Commissioner quickly took action, working with the California Department of Food and Agriculture (CDFA) to determine the safest way to prevent the spread of illness, protect the public's health and dispose of the infected bird carcasses. Declaring a local health emergency expedites a safe and coordinated response to dispose of the carcasses, allowing the carcasses to be buried at the Neal Road Recycling and Waste Facility.

"Identification of avian flu indicates that the virus is present in Butte County - however, the risk to the general public is exceedingly low. Declaring the health emergency allows for disposal of the bird carcasses in a manner that minimizes any remaining risk of spread to other birds and to humans," explained Dr. David Canton, Health Officer for BCPH.

The domestic bird flock was likely infected from interacting with wild birds. All bird owners should prevent contact

between their birds and wild birds and report any unusual or suspicious numbers of sick or dead domestic birds to the CDFA Sick Bird Hotline at: 866-922-BIRD (2473).

The greatest risk of exposure to humans is by direct contact (touching, butchering, etc.) with an infected bird. BCPH reminds the public not to touch, move or interact with wild birds.

About Avian influenza (AI)

AI, also known as bird flu, is caused by an influenza type A virus that can infect poultry (such as chickens, turkeys, pheasants, quail, ducks, geese, and guinea fowl) and is carried by free flying (wild) waterfowl such as ducks, geese, and shorebirds. It has also been affecting raptors, vultures, and crows. AI viruses are classified by a combination of two groups of proteins: hemagglutinin or "H" proteins, of which there are 16 (H1-H16), and neuraminidase or "N" proteins, of which there are 9 (N1-N9). Many different combinations of "H" and "N" proteins are possible. Each combination is considered a different subtype and can be further broken down into different strains which circulate within flyways/geographic regions. AI viruses are further classified by their pathogenicity (low or high) - the severity of illness the virus causes in chickens.

More information about avian influenza is available at:

Center for Disease Control and Prevention website (www.cdc.gov/flu/avianflu/); California Department of Food and Agriculture website (www.cdffa.ca.gov/ahfss/Animal_Health/Avian_Health_Program.html). ★

Traffic-Interfering Roadwork Set for Highway 16 in Colusa County

From August 29 through the end of October, motorists can expect one-way traffic control in the construction area from 6 a.m. to 6 p.m. Monday through Friday, with possible roadwork occurring on Saturdays. Photo courtesy of Caltrans

Caltrans News Release

COLUSA COUNTY, CA (MPG) - Caltrans is alerting motorists to expect around-the-clock one-way traffic control next week on State Highway 16 in Colusa County.

Motorists are advised to allow additional travel time when driving on a 7-mile segment of roadway between the Highway 16/ Highway 20 junction and the Colusa-Yolo county line.

Construction crews conducted continuous reversing one-way traffic control at various locations from 6 a.m. Monday, August 22, through 6 p.m. Friday, August 26 for pavement work.

From August 29 through the end of October, motorists can expect one-way

traffic control in the construction area from 6 a.m. to 6 p.m. Monday through Friday, with possible roadwork occurring on Saturdays. Flaggers will be stationed at each end of the construction zone during traffic control.

The schedule is subject to change due to weather, equipment or material availability or other unexpected events. Knife River Construction of Chico is the contractor for the \$6 million paving project.

Caltrans advises motorists to "Be Work Zone Alert." The department will issue construction updates on Twitter @CaltransDist3 and on Facebook at CaltransDistrict3. For real-time traffic, click on Caltrans' QuickMap quickmap.dot.ca.gov/ or download the QuickMap app from the App Store or Google Play. ★

LaMalfa Announces Disaster Recovery Funding

From the Office of Doug LaMalfa

PARADISE, CA (MPG) - On August 22, Congressman Doug LaMalfa (R – Richvale) announced three Disaster Recovery Infrastructure Program grants from funds he successfully included in Federal disaster legislation in 2018 and 2019, which were signed into law by President Trump.

The funds appropriated were delivered to the State of California to be used under the Community Development Block Grant (CDBG) program from the California Department of Housing and Community Development. The Town of Paradise received \$199,592,735.75, Butte County received \$72,722,697.61, and the City of Chico received \$12,388,409.65.

These funds are not tied to any specific project and can be used to fund recovery and infrastructure projects chosen in accordance with eligible uses, included but not limited to roads and bridges, water control facilities, public utilities, and fire mitigation. Congressman LaMalfa’s district received 98% of all Congressionally authorized disaster recovery awards of this type.

“I am very pleased to see the money I helped to allocate arrive to help our region recover from the devastating fires we faced. These funds are critical to help Paradise, Butte County, and Chico, rebuild the destruction and improve their infrastructure to prevent future wildfire damage. I will continue partnering with our local governments in the North State to clear up federal roadblocks, ensure our taxpayer dollars are

used wisely to complete projects, and help our beleaguered citizens recovery,” said Congressman LaMalfa.

“The City of Chico, as the major adjoining community to Paradise, has continued to play a critical role in the region’s recovery including providing requisite housing and supporting a myriad of disaster recovery operations. The impact of the population growth, and increased traffic has put a strain on many aspects of the City’s infrastructure. The City is honored to receive a nearly \$12.4 million-dollar allocation for infrastructure recovery,” said Andrew Coolidge, Mayor of the City of Chico.

“We feel so honored to receive this funding from HCD, and from Congress. There is so much work still to be done in Paradise, and this will help us accomplish it,” said Steve Crowder, Paradise Mayor.

“Nearly four years ago, Butte County experienced the deadliest fire in California history. We have made great progress in our recovery efforts leading up to this point, and this funding will allow us to continue that progress at a level we would not otherwise be able to accomplish. We are grateful for this award and look forward to continued progress in our ongoing recovery efforts,” said Bill Connelly, Chair of the Butte County Board of Supervisors.

Congressman Doug LaMalfa is a life-long farmer representing California’s First Congressional District, including Butte, Glenn, Lassen, Modoc, Nevada, Placer, Plumas, Shasta, Sierra, Siskiyou and Tehama Counties. ★

Gallagher Reacts to Newsom Vetoing Safe Injection Site Bill

Assembly Republican Caucus News Release

SACRAMENTO, CA (MPG) - On August 22, 2022, Assembly Republican Leader James Gallagher (Yuba City) issued a statement reacting to Governor Newsom’s veto of Senate Bill 57, which would have legalized open air drug consumption sites in the cities of Los Angeles, Oakland and San Francisco: “Providing state subsidized and

supervised drug consumption is a sign that Capitol Democrats have given up on governing. This bill should have never made it to the Governor’s desk in the first place. I am very grateful to the Governor for being the sense of reason in this case.

“We need to stop enabling criminal acts. Instead, we should promote policies that will empower people to safely get off the streets and reintegrate into our communities.” ★

Gallagher Reacts to CA Flex Alert

Assembly Republicans News Release

SACRAMENTO, CA (MPG) - On August 17, Assembly Republican Leader James Gallagher (Yuba City) issued a statement in response to California’s statewide Flex Alert issued just days after Governor Gavin Newsom announced a new complex and expensive climate agenda during the final days of the legislative session.

“Energy shortages, flex alerts and black-outs are a direct result of failed Democrat policy in California,” said Gallagher. “But instead of accepting this reality, the Governor and his coalition of fringe activists want to jam through a new set of laws at the last minute that will make energy less affordable and less reliable. And with inflation at a 40-year high, his timing couldn’t be any worse for Californians struggling to make ends meet.”

Early estimates show that the Governor’s plan could cost taxpayers \$130 billion dollars, add \$50,000 to the

median price of a home and eliminate 8,000 jobs. “If Newsom’s goal is to force even more people to flee to Florida and Texas, passing this climate package would accomplish that objective. It’s already next to impossible to own a home, pay your utility bill, buy groceries, and fill up your gas tank in this state. Expect a long line at your local U-Haul if Democrats fall in line with Newsom on this,” said Gallagher.

The Governor’s new plan attempts to repeal and replace the state’s already ambitious carbon reduction goals put in place by his predecessor, Governor Jerry Brown. It also omits any funding or regulatory relief to help prevent catastrophic wildfires that have largely neutralized any gains the state has made towards reducing its carbon footprint.

The Governor’s proposal will likely be met with resistance in the Legislature given the short timeframe until adjournment on August 31 and the reality that some of Newsom’s concepts already stalled in the Legislature earlier this year. ★

Marysville Police Encourages the Community to Choose a Sober Way to Travel

MPD News Release

MARYSVILLE, CA (MPG) - As the summer travel season wraps up, the Marysville Police Department reminds drivers to be responsible and never drive under the influence of alcohol and/or drugs.

Whether traveling locally or taking a longer road trip to see friends and family, please have a game plan for how to get home safely. There is never a good excuse for driving after drinking or using drugs that impair.

The Marysville Police Department asks residents to take the necessary precautions to protect yourself and your family by buckling up, avoiding distractions behind the wheel, following the speed limit, and not driving impaired.

To help keep our community safe, the Marysville Police Department will have additional officers on patrol Aug. 17 through Labor Day (Sept. 5) looking for drivers suspected of driving under the influence of alcohol and/or drugs.

The additional efforts to prevent

impaired driving are part of a national enforcement campaign, Driver Sober or Get Pulled Over.

In addition to patrols, the Marysville Police Department will hold a DUI Checkpoint August 19th from 6:00 p.m. to 12:00 a.m. at an undisclosed location within the city of Marysville.

In 2020, 1,159 people were killed throughout the state in drunk driving-related crashes, which accounted for 30 percent of all traffic deaths.

While drunk driving is a significant traffic safety problem, driving while impaired is not just from alcohol. Prescription drugs, over-the-counter medications and marijuana may also impair. If you plan on drinking or taking medications with a driving warning label, let someone who is sober drive. If you see someone driving impaired, call 9-1-1.

Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration. ★

Yuba Feather Historical Assoc. has been planning a couple of activities for October. First is being planned for Saturday, October 10. It is a field trip into our high country, hopefully at one of our lesser known lakes, one of the names for it is Lake Delahanty. The plan is to meet at the Yuba Feather museum parking lot at 10:30, bringing a lunch and wearing walking shoes. We will car pool where possible. It should be a great day. In October a Craft Faire is being planned to be held on museum grounds on October 15. More information will come out soon.

Books & More is going through an expansion. Alvin Bell has done a great deal of work building and organizing shelves in the new room. In addition

to another space for books, there will be a large storage area for our Event Happenings. It helps to have nice shelves to put stuff away on. We will be moving our History and Biography, all of the DVDs, Great Courses, and more. Come by and see the changes.

On Saturday, September 3, we have planned a large community Flea Market. What a great chance to clean out closets and garages, finding items that others may want to buy and put some money in your pocket. It is our regular first Saturday Event of the month. Lunch will be hamburgers fixed on our new small BBQ. We will have ice cream and root beer floats for sale too.

~ Hope to see you in Brownsville soon. Yvonne ★

Caltrans QuickMap Push Notifications Now Available

Caltrans News Release

SACRAMENTO, CA (MPG) - Caltrans has launched a new push notification feature on its QuickMap app that allows drivers to automatically receive real-time notifications about nearby road closures, emergencies and other traffic updates.

“With this new QuickMap upgrade, Californians now can receive instant traffic notifications based on their location,” said Caltrans Director Tony Tavares. “Drivers can use this information to adjust their plans when needed, compare route options, save time and travel safely to their destinations.”

Caltrans’ QuickMap is a mobile app and website available to the public at no cost for travel planning. QuickMap provides immediate traffic information, including traffic speed, lane and road closures due to construction and maintenance activities, emergency incidents, electronic highway message sign content, rest area locations,

camera snapshots, and active chain control requirements.

The new QuickMap push notification feature allows travelers to opt-in to receive location-based alerts on their mobile devices. When a device with the QuickMap app enters an area within 10 miles of a road closure or other traffic-related event, a pop-up message will appear alerting travelers of the incident, including time, location and reason for closure.

Caltrans reminds drivers to use their mobile device responsibly, including only in hands-free mode when operating a vehicle. Using your cell phone while driving is not only dangerous, but also illegal. In California, drivers 18 and older can only use their phones in a hands-free manner, such as speaker phone or voice commands, but never while holding it.

For more information, and to use the new feature, download the QuickMap app onto your phone or visit QuickMap.dot.ca.gov ★

Eyes and Ears Blind and Deaf

Commentary by Lou Binnering

The Covid Solution was imagined, devised and executed by the same archetypal enemies of humanity as those devoted to the purification of the “races” during the Holocaust. The German Nazis did not act alone but received their killing strategies and resources (Zyklon B gas) from American industrialists (Rockefeller / Ford).

The “viral disease” that infected Nazi Germany was Eugenics. Eugenics is the elitist ideology at the root of all genocides. Today, the Covid injection destroying the human immune system (ala AIDS) is the Perfect Solution to thin the unwanted population (“useless eaters”) and achieve “one world government” control. Fewer people are easier to manage.

The objective of the Nazi Final Solution was to annihilate Europe’s 11 million Jewish people as quickly and efficiently as possible. The Nazis passed discriminatory laws; used modern technology; low-cost industrial methods; an efficient transportation system; and a highly trained bureaucracy that coordinated the industrial killing process. The objective was high speed, maximum efficiency at the lowest cost.

In 1933, the ultimate targets were Jews; today, after achieving general population reduction the hunted are people who refuse to be injected with experimental, toxic shots. Then and now, government dictates were crafted to isolate and eliminate segments of society.

In 2020, the government forbade hospitals from treating the elderly

from nursing homes. The result was mass murder by the tens of thousands. Government decrees intimidated doctors from prescribing life-saving medicines; government protocols (ventilators / Remdesivir) continue to kill at hospitals. For their compliance, hospitals are richly rewarded.

The media is complicit and well-compensated – as it was in Europe. Strict censorship silences contrary views. In Nazi Germany few individuals objected. Those who did were added to concentration camps.

Today, doctors and scientists who challenge the approved narrative are maligned, their reputations smeared, careers ruined. They risk losing their license to practice and even being arrested.

The Holocaust did not begin in the gas chambers of Auschwitz and Treblinka.

It was preceded by 9-years of increasing restrictions to personal freedom, and the suspension of people’s rights. Like today, the strategy was introduced with fear and hate-mongering propaganda.

A series of humiliating discriminatory government edicts demonized Jews as “spreaders of disease.” They were compared to lice and rats. The noncompliant resisters in 2019-21 were similarly labeled and mocked by anointed government bureaucrats and the media.

Since the Nazi era, the study of history and most of the humanities - philosophy, religion, and ethics — have been minimized with an emphasis on utilitarian science and technology. American education has been dumbed down. As a result, few people recognize the foreboding similarities between current policies and those under the Nazis.

By declaring a state of emergency – in 1933 and in 2020, constitutionally protected personal freedom and rights were denied. Repressive, discriminatory decrees followed. Americans

have been arrested at work and at church, fined, and businesses shuttered. Education ended. Millions were labeled as “nonessential” and restricted to home.

Eugenics is always disguised as pseudo - science. It was embraced by the academic and medical establishment as well as the judiciary both in Germany and the United States. In America the mantra “follow the science” meant there was no science.

Eugenics proponents legitimize discrimination, apartheid, sterilization, euthanasia, and genocide. The Nazis called it “ethnic cleansing” – for the preservation of the gene pool. Medicine was perverted from its healing mission and weaponized for its dirty deeds.

First, it was to control reproduction through forced sterilization; then it was to eliminate those considered “sub-human” – Untermenschen. The first victims of medical murder were 1,000 German disabled infants and toddlers. This exploit conducted by nurses was expanded to an estimated 10,000 children up to age 17.

The next victims were the mentally ill, followed by the elderly in nursing homes. These humans were considered “worthless eaters.” Under Operation T-4, designated hospitals became killing centers where various extermination methods were tested – including Zyclon B – the gas for the death camps.

Today, forced injections in order to work, attend school and participate in society have created an authoritarian state and are killing millions of Americans. Injecting children immune from Covid is the latest diabolical strategy to thin the herd.

The Covid Solution is criminal and those responsible must be held accountable.

U.S. military left over \$7 billion of military equipment to Taliban, IG report confirms –The inventory left behind in Afghanistan included more than 4 billion worth of armored vehicles

18 Aug 2022 | The U.S. government left behind more than 7 billion in military equipment when it pulled out of Afghanistan during a chaotic and deadly withdrawal last year, an inspector general confirmed Tuesday. A Defense Department inspector general report explained that the majority of the 7 billion left behind in equipment in the country consisted of tactical ground vehicles such as Humvees and mine-resistant MRAPS. The Afghan military possessed a ground vehicle inventory worth about 4.12 billion when Kabul fell to the Taliban in mid-August 2021.

WEF Announces Recruitment of ‘Information Warriors’ to Control the Social Media Narrative

17 Aug 2022 | The World Economic Forum (WEF) has announced it has recruited hundreds of thousands of “information warriors” to control the internet, policing social media and forums for “misinformation” and conspiracy content which will then be systematically shut down. According to Klaus Schwab’s WEF, misinformation on the internet is an “infodemic” that is “potentially deadly” and requires a “cure.” The definition of misinformation, according to the WEF, is anything they disagree with. This means the information warriors will essentially be engaged in the act of shutting down dissent... Announcing the news on a WEF podcast, UN communications director Melissa Fleming said, “So far, we’ve recruited 110,000 information volunteers, and we equip these information volunteers with the kind of knowledge about how misinformation spreads and ask them to serve as kind of ‘digital first-responders’ in those spaces where misinformation travels.”

RNA for Moderna’s Omicron Booster Manufactured by CIA-Linked Company

17 Aug 2022 | Earlier this week, the United Kingdom became the first country to approve Moderna’s reformulated version of its COVID-19 vaccine, which claims to provide protection against both the original form of the virus and the significantly less lethal but more transmissible Omicron variant... However, unlike the company’s original COVID-19 vaccine, the genetic material, or messenger RNA (mRNA), for this new vaccine, including the newly formulated genetic material meant to provide protection against the Omicron variant, is being manufactured not by Moderna but by a relatively new company that has received hardly any media attention, despite its overt links to US intelligence. Last September, it was quietly announced that a company called National Resilience (Resilience) would begin manufacturing the mRNA for Moderna COVID-19 vaccine products. Under the terms of the multi-year agreement, “Resilience will produce mRNA for the Moderna COVID-19 vaccine at its facility in Mississauga, Ontario, for distribution worldwide.” ...In April 2021, National Resilience acquired Ology Bioservices Inc., which had received a 37 million contract from the US military the previous November to develop an advanced anti-COVID-19 monoclonal antibody treatment... More recently, in 2022, the company has announced a few new clients – Takeda, Opus Genetics and the U.S. Department of Defense.

Top US health official admits ‘dramatic mistakes’ in tackling Covid – CDC announces shake-up to improve agency’s response to emergencies after series of mistakes

17 Aug 2022 | The director of the top US public health agency has admitted the organization made some “pretty dramatic, pretty public mistakes” in tackling the Covid-19 pandemic and unveiled a shake-up of personnel and policies designed to improve its response to emergency situations. Rochelle Walensky, director of the Centers for Disease Control and Prevention, said on Wednesday the planned reforms would improve accountability and “timeliness of response” at the agency, which is responsible for protecting Americans from disease and other public health threats. The CDC’s handling of the pandemic has come under stinging criticism from some health experts who contend it has become overly politicised and failed to collect important data needed to slow the spread of Covid or promote rapid testing. ★

LETTER TO THE EDITOR

The purpose of government is to secure and protect the rights of its citizens. It is to protect the people against loss of life, liberty, and the unlawful seizure of property.

The local governments threatening taxpayers with cutting the very services they are charged with providing to ensure our safety, is saying they have failed miserably at their jobs. Why would we trust them with even more of our money?

Are taxpayers getting their money’s worth? The simple answer is indeed NO! Bloated bureaucracies have become the norm. Our government officials and agencies have forgotten the meaning of the word SERVICE. Cronyism (the appointment of friends and associates to positions of authority without proper regard to their qualifications) breeds indolence (laziness) and arrogance. It also pits government employees who are meant to serve the public, against the very taxpayers who are paying their wages.

YCPD and NCSO Joint News Release

YUBA COUNTY, CA (MPG) - Updated Release, August 17, 2022, at 9:30pm: This evening shortly after 5:00pm, the Nevada County Regional Dispatch Center received a call from the Gridley Police Department advising a male subject called 911 after finding a vehicle that appeared to have crashed in the area of Highway 20 and Poker Flats Road. The phone connection with the caller dropped prior to obtaining further information or transferring to Nevada County.

The California Highway Patrol responded as well as units from the Nevada County Sheriff’s Office. Once units arrived on scene, the male subject that dialed 911 was able to point out a vehicle down the embankment. The vehicle was not visible from the highway. Once first responders made their way down to the vehicle, they observed a male and female outside of the vehicle. Both parties were deceased.

Due to the nature of injuries, the male can only be tentatively identified as 36-year-old Juan Almanza Zavala. The female was confirmed to be

29-year-old Janette Pantoja.

The California Highway Patrol is conducting a vehicle accident investigation.

Original Release: The Yuba City Police Department and the Nevada County Sheriff’s Office are continuing their investigation into the missing persons case of 36-year-old Juan Almanza Zavala and 29-year-old Janette Pantoja that was first received on August 7, 2022. They were last seen driving a blue Ford Explorer (4SNS072). Investigators from both agencies have been searching through cellular data looking for leads of their possible whereabouts. The Nevada County Sheriff’s Office has been and continues to search the areas surrounding the last known phone pings including any residences that were associated in rural Nevada County.

Both agencies have received several citizen tips and have followed up on each of them, but unfortunately, those tips have not produced new leads. The Yuba City Police Department and Nevada County Sheriff’s Office are continuing to work together during this investigation, and we will provide any new information as it becomes available. ★

Pedestrian Fatal Crash SR-99 Near Hutchinson Road Sutter County

CHP News Release

YUBA CITY, CA (MPG) - On 8/21/2022, at approximately 0520 hours, a white Ford Fusion driving northbound on SR-99 at Hutchinson Road drove off the roadway and crashed into a ditch east of the highway.

The male driver exited and was reported by multiple reporting parties to be standing in traffic lanes, attempting to wave down passing vehicles. At approximately 0525 hours, the man was struck by a silver Honda Civic traveling southbound, causing

him to land in the northbound lanes.

The man was then struck again by a gray Honda Civic traveling northbound. Both vehicles pulled over and the drivers cooperated with investigating officers. The driver of the Ford Fusion succumbed to his injuries. Alcohol is suspected to be a factor in this crash.

The investigation is ongoing. Anyone with information about this crash is encouraged to contact Officer R. Donoghue, ID 20119, at the California Highway Patrol Yuba Sutter Area office at (530) 674-5141. ★

Vehicle vs Train Accident Causes Fatalities

CHP News Release

YUBA CITY, CA (MPG) - On August 21, 2022, at approximately 1300 hours, a black Chevrolet Silverado traveling eastbound on a private roadway, just east of SR-65 at Dairy Rd., attempted to cross an uncontrolled railroad crossing, directly in front of a locomotive traveling northbound.

As the Chevrolet Silverado began crossing the railroad tracks, the locomotive engineer honked the horn

numerous times to no avail. The locomotive then collided with the right side of the Chevrolet Silverado. Both the driver and the passenger of the vehicle succumbed to their injuries on scene.

This investigation is ongoing. Anyone with information about this crash is encouraged to contact Officer E. Clary, at the California Highway Patrol, Yuba Sutter Area Office at (530) 674-5141. They Yuba County Sheriff Coroner will release the names of the deceased after they notify the next of kin. ★

LOCAL FISHING

Fall River; named by the famous government cartographer John Fremont in 1848. An original spring creek that was declared “Navigable” in 1970 by the Baker V. Mack court decision. It has 4300 pure strain rainbow trout per river mile. These rainbows are the least *miscegenated wild species left in the American West. Super clear water makes these trout “very” wary and smart. Only the few expert fly fishermen ever net one. Launch at the Island Bridge and fish 3 ½ miles upriver. Anchor the boat perpendicular to shore and utilize both fore and aft anchors. Use Sink Tip lines and cast down-and-across. Caddis flies: Grannom, Spotted Sedge, Green Rock Worm, Saddle Case, or Elk Hare Caddis. Also, Hare’s Ear, Stimulator, or Golden Stone.

Assessing Income Risks

Losing one’s income can be devastating. Single income families are always teetering on the brink. With but a single breadwinner, family members who are the source of that income may feel a tremendous amount of pressure. Should the breadwinner lose his or her job, the family’s financial picture can suddenly turn ominous if other resources are not available like savings, retirement plans or extended family emergency assistance

During my times of being a financial advisor, I see financial snapshots that can scare the hell out of me. By nature, I am conservative guy, both in my investing and my operation of the family budget. Although the wife handles the bill paying, I handle the income side of things and am always scanning our financial picture with unnecessary foreboding.

Being somewhat of a nervous nelly when it comes to evaluating our finances, money in and money out, and our liabilities, I am always thinking worst case scenarios. As such, my brain is always thinking of ways not only to streamline expenditures, but to mainline our income streams.

Long ago, I knew that working for someone else put us at risk of job loss which essentially was the decision of someone else. That began the search for ways to be my own boss and eliminate the risk of having a bad hair day or telling the wrong joke at work and subsequently finding a pink slip in my inbox.

For my family’s sake, and for my sanity, I ventured out on my own very early on.

Right out of college I started selling houses, with a side job of selling cars. I also exercised my knowledge of the markets (B.A. in economics 1979) and began my career in the markets to supplement my income. Soon after I started an engineering firm, building off a full time job as an engineer working for someone else early one, then quitting and starting the firm.

Although maddening at times with the amount of work I had to put in to maintain my handful of endeavors, I found the multiple sources of income from my various endeavors not only gave me a sense of accomplishment, but provided multiple sources of income as well.

The experience showed me the key to success which is to hard work and put in the necessary long hours to grow the businesses.

Fast forward to today and I not only still have the engineering firm, but also a financial career, an insurance and

annuity company and a successful media company.

This provides me with the basis of what I deem necessary to secure ones ongoing financial viability which is to have multiple sources of income.

That said, during years of scrutinizing other peoples finances, it’s amazing how many peoples financial snapshot gives me the willys.

For instance, during the real estate blow up in 2008, I met many a family that had only one breadwinner yet had bought big houses stuffed with big toys like boats, multiple cars, vacation homes and you name it.

Other investors owned multiple rentals, and although rentals can be a great source of income, they can also drag you down into the depths of bankruptcy should tenants start to experience financial hardship and stop paying the rent.

For instance, who would have forecasted a rental moratorium such as what we had during CoVid.

I would then also think “what happens if this person losses his or her job?”

Although many thrive and survive on single incomes, many others fall into the pit of hardship, or worse, into the hell that is a bankruptcy if a job is lost.

During times of economic prosperity, single incomes can be enough to provide the necessary finances that a family needs to prosper. But in times of economic distress such as 2008/09, the CoVid crisis or today’s inflationary environment, the gears of debt can crater a family’s financial future in a hurry should the single income disappear in a job layoff.

In conclusion, although some might not be able to work for themselves for a variety of reasons, securing additional sources of income through whatever mechanisms might be available and taking a hard look at expenditures and one’s financial exposures can go a long way in keeping their monetary viability intact.

Newsom Says Action is Needed to Stave Off a bleak Water Future for California

Gov. Gavin Newsom is sounding the alarm over enduring California water shortages, saying the state will lose another 10% in water supplies by 2040 due to climate change. Newsom announced a strategy to invest in infrastructure to capture and store more water. California farmers are fallowing land due to water shortages in a third consecutive year of drought. State water officials are now considering regulations for the Sacramento-San Joaquin River Delta, which could make irrigation supplies even more scarce.

Organic Tomato Production Steadily Increases, but Challenges Affect 2022 Crop

California’s organic tomato growers are producing an increasing share of the processing tomato crop. In 2013, organic tomatoes represented just 2.4% of the market. In 2021, that percentage, while still small, climbed to 6.2%. In all, California farmers grew nearly 669,000 tons of organic processing tomatoes last year, up from 526,085 tons in 2020. Some farmers say production may be off 10% to 15% this season due to water shortages and a crop disease, curly top virus.

Farm Bureau president: ‘Keep our farmers and ranchers in California’

California Farm Bureau President Jamie Johansson is calling on lawmakers to support farmers and ranchers facing water shortages, burdensome regulations and rising costs. Addressing the Assembly Agriculture Committee Aug. 10, Johansson said he doesn’t want food producers having to contemplate relocating to other states. He said, “We want to keep our farmers and ranchers in California, and we want to continue to be the leading producers of foods, fresh fruits and vegetables in America.”

Produce Marketers Target Healthy Foods for Younger Consumers

Produce marketers are working to increase consumption of fresh fruits and vegetables among younger consumers. At a recent Foodservice Conference in Monterey, California growers and shippers worked to convince school cafeteria representatives to purchase more healthy food options. Cathy Burns, CEO of the International Fresh Produce Association, said the goal is to “change the trajectory of children’s eating habits” and put “fruits and vegetables in the center of the plate.” ★

California Faces Existential Threat of a Megaflood

By Dan Walters, CALMatters.org

California had been a state for scarcely a decade and was home to fewer than 500,000 people when it was hammered in the winter of 1861-62 by the most powerful series of rainstorms in recorded history.

“This event, which was characterized by weeks-long sequences of winter storms, produced widespread catastrophic flooding across virtually all of California’s lowlands — transforming the interior Sacramento and San Joaquin valleys into a temporary but vast inland sea nearly 300 miles in length and inundating much of the now densely populated coastal plain in present-day Los Angeles and Orange counties.”

That description comes from a new study suggesting that due to climate change California is at ever-increasing risk of another disastrous chain of storms, one that would be devastating, both in human and economic terms, in a state with nearly 40 million residents.

“We find that climate change has already increased the risk of a (1862) megaflood scenario in California, but that future climate warming will likely bring about even sharper risk increases,” the study warns.

Building on previous studies about the likelihood that California could experience a series of storms similar to the 1861-62 event, researchers Xingying Huang and Daniel Swain say such an event “would likely produce widespread, catastrophic flooding and subsequently lead to the displacement of millions of people, the long-term closure of critical transportation corridors and ultimately to nearly \$1 trillion in overall economic losses.”

Huang is a scientist at the National Center for Atmospheric Research and Swain is a UCLA climate scientist.

Although a megaflood could hit many regions of the state, the 300-mile-long Central Valley is at greatest risk because of its geography. It is in essence an elongated bowl into which, in normal times, water flows benevolently from melting snow in the Sierra. Water that’s not consumed in the valley eventually flows into the Pacific Ocean via San Francisco Bay.

We’ve had instances in the past when the valley’s drainage system was overwhelmed by heavy runoff, the worst occurring when warm tropical storms suddenly melted the snowpack. Just a few years ago, the nation’s highest dam, Oroville, nearly collapsed when it received more runoff than it could handle.

After killer hurricane Katrina devastated New Orleans, the federal government declared that the Sacramento area was the nation’s most vulnerable region for heavy flooding. During the 1861-62 megaflood, railroad magnate Leland Stanford had to

be carried to the partially constructed Capitol in a rowboat for his inauguration as governor. The city was so devastated that state government was temporarily shifted to San Francisco.

So there it is. Add megaflood to earthquakes and wildfires on the list of existential threats to California and its millions of residents. What can we do to minimize the danger?

Slowly, federal, state and local governments have been bolstering levees in areas with the highest risks, although officials in Stockton have complained that they have gotten a disproportionately low share of flood control spending. However, even the projects underway are being engineered for floods of lesser intensity than the megaflood outlined in the new study.

The study authors suggest that not only more money is needed for flood control but that California should give the creation of flood plains more priority. Sacramento already depends on two dedicated flood plains, called “bypasses,” to prevent heavy flows from overwhelming river levees.

California should also rethink how its residents are insured against catastrophes. Perhaps we could create a statewide umbrella policy to provide basic flood, earthquake and fire protection, financed by property-related fees, that individuals could supplement.

The worst response would be to do nothing.

Dan Walters has been a journalist for nearly 60 years, spending all but a few of those years working for California newspapers. ★

IMPORTANT NOTICE TO
PROPERTY OWNER:

YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED 05/04/2006. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDING AGAINST YOU, YOU SHOULD CONTACT A LAWYER.

Truster: **Frank Sears and Beverly Sears, husband and wife** Duly Appointed Trustee: **Western Progressive, LLC** Deed of Trust Recorded **05/15/2006** as Instrument No. 2006R-009659 in book ---, page--- and of Official Records in the office of the Recorder of Yuba County, California, Date of Sale: **09/15/2022 at 01:30 PM** Place of Sale: **AT THE FRONT ENTRANCE TO THE COUNTY COURTHOUSE 215 5TH STREET, MARYSVILLE, CA 95901**

Estimated amount of unpaid balance, reasonably estimated costs and other charges: \$ 98,923.42

THE TRUSTEE WILL SELL AT PUBLIC AUCTION TO HIGHEST BIDDER FOR CASH, CASHIER'S CHECK DRAWN ON A STATE OR NATIONAL BANK, A CHECK DRAWN BY A STATE OR FEDERAL CREDIT UNION, OR A CHECK DRAWN BY A STATE OR FEDERAL SAVINGS AND LOAN ASSOCIATION, A SAVINGS AS-

SOCIATION OR SAVINGS BANK SPECIFIED IN SECTION 5102 OF THE FINANCIAL CODE AND AUTHORIZED TO DO BUSINESS IN THIS STATE: All right, title, and interest conveyed to and now held by the trustee in the hereinafter described property under and pursuant to a Deed of Trust described as:

More fully described in said Deed of Trust.

Street Address or other common designation of real property: **1141 GRAND AVE, MARYSVILLE, CA 95901**
A.P.N.: **020-280-004-000**

The undersigned Trustee disclaims any liability for any incorrectness of the street address or other common designation, if any, shown above.

The sale will be made, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by the Deed of Trust with interest thereon, as provided in said note(s), advances, under the terms of said Deed of Trust, fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligation secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of the Notice of Sale is: **\$98,923.42.**

Note: Because the Beneficiary reserves the right to bid less than the total debt owed, it is possible that at the time of the sale the opening bid may be less than the total debt.

If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee, and the successful bidder shall have no further recourse.

The beneficiary of the Deed

of Trust has executed and delivered to the undersigned a written request to commence foreclosure, and the undersigned caused a Notice of Default and Election to Sell to be recorded in the county where the real property is located.

NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on this property.

NOTICE TO PROPERTY OWNER: The sale date shown on

this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (866)-960-8299 or visit this Internet Web site <https://www.altisource.com/loginpage.aspx> using the file number assigned to this case **2022-00523-CA**. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale.

NOTICE TO TENANT: You may have a right to purchase this property after the trustee auction, if conducted after **January 1, 2021**, pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auc-

tion. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call **(877)-518-5700**, or visit this internet website <https://www.realtybid.com/>, using the file number assigned to this case **2022-00523-CA** to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than **15 days** after the trustee's sale. Third, you must submit a bid, by remitting the funds and affidavit described in Section 2924m(c) of the Civil Code, so that the trustee receives it no more than **45 days** after the trustee's sale. If you think

you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase.

Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. The undersigned trustee disclaims any liability for any incorrectness of the property address or other common designation, if any, shown herein. If no street address or other common designation is shown, directions to the location of the property may be obtained by sending a written request to the beneficiary within 10 days of the date of first publication of this Notice of Sale. **If the trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the trustee, and the successful bidder shall have no further recourse. If the sale is set aside for any reason, the Purchaser at the sale shall be entitled only to a return of the deposit paid. The Purchaser shall have no further recourse against the mortgagor, the mortgagee, or the mortgagee's attorney.** If you have previously been discharged through bankruptcy, you may have been released of personal liability for this loan in which case this letter is intended to exercise the note holders right's against the real property only. As required by law, you are hereby notified that a negative credit report reflecting on your credit record may be submitted to a credit report agency if you fail to fulfill the terms of your credit obligations. The Yuba County **Planning Commission** will consider the following:

Conditional Use Permit CUP2022-0004 (Yuba Sutter Truck Parking): The applicant is requesting to construct a monthly storage lot for semi-trucks and RVs on a property located at 3582 Rancho Road in the Wheatland community boundaries (APN: 014-280-070). The 2030 General Plan designates the land use as Employment (EMP) and the zoning of the property as Light Industrial (IL).

The Planning Commission will be considering adoption of the Mitigated Negative Declaration pursuant to the California Environmental Quality Act. The public comment period for the Mitigated Negative Declarations is August 26 to September 14, 2022.

Tentative Subdivision Tract Map TSTM2022-0007 (Ardmore Village): The applicant is requesting approval of a proposed map that intends to create a 6-lot subdivision on a 1.32-acre parcel. The project property is located at 200± north of the 14th Street & Ardmore Avenue intersection, on the east side of Ardmore Avenue intersection and across the street from 13th Street in the Olivehurst community (APN: 014-022-020). The property is currently vacant with no existing address. The 2030 General Plan designates the land use as Valley Neighborhood (VN) and the zoning of the property as Medium Density Residential (RM).

Any person wishing to testify on the above projects may attend the **Planning Commission** meeting by teleconference via Zoom at the prescribed time, or may submit written comments or objections to the Community Development and Services Agency at 915 8th Street, Suite 123, Marysville, CA 95901, prior to the hearing. Copies of the staff recommendations are available for inspection at the same address. If you have any questions, you may contact Ciara Fisher for CUP2022-0004 and Vanessa Franken for TSTM2022-0007 at (530) 749-5470.

The **Planning Commission's** action on the project may be appealed by any interested person to the Board of Supervisors by filing a written appeal with the Planning Department within 10 days following the **Planning Commission's** final action on the project. If the Board of Supervisors is the final Approving Authority, or if the project is appealed to the Board, the Board's action is final.

If you challenge the action of the **Planning Commission** on this matter in court, pursuant to Government Code section 65009 you may be limited to raising only those issues you or someone else raised at the Public Hearing described in this notice, or in written correspondence delivered to the Planning Department at, or prior to the hearing. SUPERIOR COURT OF CALIFORNIA
COUNTY OF YUBA
IN THE MATTER OF THE APPLICATION OF:
Isis Cecilia Rodriguez Khan on behalf of Marco Adebaldo Silva, a minor, PETITIONER
CASE NUMBER: CVPT 22-00716
ORDER TO SHOW CAUSE FOR CHANGE OF NAME

HEARING DATE:
9/26/2022
DEPT: 4
TIME: 9:30 A.M.

Petitioner(s) Isis Cecilia Rodriguez Khan on behalf of Marco Adebaldo Silva, a minor, filed a petition with this court for a decree changing names as follows:

from: Marco Adebaldo Silva
to: Ilyas Adebaldo Rodriguez

THE COURT ORDERS that all persons interested in this matter appear before this court at the hearing indicated below to show cause, if any, why the petition for change of name should not be granted. Any person objecting to the name changes described above must file a written objection that includes the reasons for the objection at least two court days before the matter is scheduled to be heard and must appear at the hearing to show cause why the petition should not be granted. If no written objection is timely filed the court may grant the petition without a hearing.

A copy of this order to show cause shall be published at least once each week for four successive weeks prior to the date set for hearing on the petition in the following newspaper of general circulation, printed in this county: Territorial Dispatch.
