A New Universe for Entertainment

Maroon 5 to Perform Opening Concert in June

SACRAMENTO REGION, CA (MPG) - It wasn't just a tour of an upcoming entertainment center for the region, it was the tour of a new entertainment universe. You could see in these construction stages just how fantastic this venue will be, from the closeness to the stars on stage to the orbit of the VIP skyboxes over every event.

The venue at Hard Rock Live, named Kumi Event Center, is in Wheatland, just a short drive from almost any population center in the region.

Mark BIRTHA, President of Hard

Rock Hotel & Casino Sacramento at Fire Mountain, led a tour of local media on March 22, 2022 through the build-out construction area of the concert stage and surrounding support areas. He explained the layout, concessions, and how the bands and performers would access the main stage. "We are excited to provide our guests with authentic experiences that rock in a venue that is filling a great void in the Sacramento region," BIRTHA said.

BIRTHA expressed his enthusiasm for the project saying, "This entertainment center will help revitalize the community." He later commented, "Upcoming events include MMA, and additional concerts will soon be announced.

Yuba-Sutter Chamber of Commerce has scheduled a major event for next year."

The 65,000-square-foot facility has state-of-the-art in-house sound and lighting, unrivaled sightlines, a second-floor mezzanine level, VIP skyboxes, and mobile-stage technology, creating intimate experiences for events of varying sizes.

The big announcement was of the opening performers. With a live television audience watching, BIRTHA had the construction crew drop the banner showing which band is coming to the stage in June. "Maroon 5 is the perfect band to help us celebrate Hard Rock Live's grand opening. They

Town Hall Meeting to be Held with Sheriffs

Sheriff Wendell Andersen

Feather River Tea Party Patriots

YUBA CITY, CA (MPG) - On March 24, 2022, the Feather River Tea Party Patriots announced Sutter County Sheriff Brandon Barnes and Yuba County Sheriff Wendell Andersen will be Special Guest Speakers for their Monday, April 4, 2022, Town Hall Meeting.

This will be a good old-fashioned Town Hall Meeting with our local sheriffs. A few of the topics of concern to local citizens may be:

After their first terms in office, what are their respective policies for Concealed Carry Weapon Permits (CCW)? The California legislature is on a crusade to destroy the Second Amendment. Governor Newsom has supported several unconstitutional anti-gun and ammo bills that create a new class of criminal from law-abiding citizens. What is the impact on the average law-abiding citizen? Both counties have been overrun with the homeless who are destroying the riverbanks and the habitat; What are your thoughts on current election integrity and enforcing COVID mandates? What are your policies for handling illegal aliens and the interaction with the Immigration and Customs Enforcement (ICE) agency? "Issues of the day" are also encouraged from the audience. Matters that concern you that can be addressed by Sheriff Barnes and/or Sheriff Andersen are encouraged. Come hear your top elected law enforcement officers in Sutter County and Yuba County who have taken an oath to defend the U.S. Constitution and the citizens against tyranny.

There is no membership requirement to attend and everyone is welcome. Doors open at 6:00 pm; meeting begins promptly at 6:30 pm. Come early to register, socialize with like-minded patriots, enjoy the refreshments, and get a good seat.

The Town Hall Meeting will be Monday, April 4, 2022, at Crossroads Community Church, 445 B Street, Yuba City. Contact Larry or Carla at (530) 755-4409. ★

Pioneer Day is Back!

By Kit Burton, SCRFI News

SMARTSVILLE, CA (MPG) - Happily, Pioneer Day in Smartsville is back! Good! But what on earth have we just been through?

If we live long enough, most of us will experience periods of time where, due to circumstances not entirely controllable, we are forced to deviate from our chosen path. How we respond is a measure of our character. Several examples come to mind.

The Apostle Paul composed a series of letters that heavily influenced the New Testament while imprisoned in Corinth, and, more generally, anyone engaged in physically demanding work who becomes sick or injured must spend his or her time differently while recovering.

In spite of the hazards and restrictions of the past two years, we at SCRFI, the non-profit corporation for restoration of the former Catholic Church, have persevered with significant progress in our restoration efforts. Aurel Onut with Byzantine Painting Studios, finished

restoration of our sanctuary's apse, Rio Morales of Montgomery Lifters did an amazing job repairing our back wall's foundation, and James Stephens of Stephens Electrical Systems is now finishing the rough-in electrical for our church. That time was well spent.

The part of our activity that we weren't able to maintain was Pioneer Day, our annual fund-raising festival. But, we believe, the worst is now over and Pioneer Day 2022 will occur on Saturday, April 30, from 9 am to 4 pm.

Activities at Pioneer Day will be very similar to our 12 previous annual productions. We will have live music on stage, mining tours, food as well as arts and crafts vendors, children's activities, historic character portrayals at our Timbuctoo Theater, and opportunities to look inside the church to see our amazing restoration progress. We think you will be pleasantly surprised.

For more information, see our website SmartsvilleChurchRestoration.org or contact Kathleen Smith at Smartsville@gmail.com or at (916) 838-2757. ★

Financial Education Comes to Sutter County School

By Brenna Bontrager

LIVE OAK, CA (MPG) - In addition to reading, math and science, students at Luther Elementary School in Live Oak can now add financial literacy to their academic portfolio.

This new offering is from the Junior Vestors program, a financial literacy program created by a husband-and-wife team with local roots. Lulu and Martin Curiel live in Mountain View, California. While Lulu was born and raised in Venezuela, Martin is a Live Oak native and Luther Elementary alumnus.

The venture was born during the pandemic when the Curiel's own children began online schooling. The parents gained an insight into what their children were learning and discovered that financial education was lacking. They were also struck by the number of young adults who struggled with debt and lacked basic money management skills. "Being a high school or college graduate doesn't mean you have the skills for being successful in the 21st century." Says Lulu Curiel. The parents took

it upon themselves to fill in this gap and before long were teaching their children's friends as well. Before long the couple decided that they wanted this opportunity to be available for more young people and the Junior Vestors program was born.

Junior Vestors is a virtual program and now has students from throughout the country. The Curiels wanted to offer the course at Luther Elementary due to Martin's local roots. A teacher in the after-school program helped facilitate the in-person components.

For six weeks in January and February, the class comprised of 4th and 5th graders met and learned about investing, financial portfolios and the stock market. Rather than using a traditional lecture method, the curriculum included hands on activities designed to make learning engaging and relevant. Students used substitute currency and Lulu jokes that "No real money was harmed in the process."

The program was a success and received positive feedback from both parents and students. There are plans to offer a follow-up course in the near future. ★

LaMalfa Accepting Congressional Art Competition Submissions

Office of Congressman Doug LaMalfa

WASHINGTON, DC (MPG) - On March 21, Congressman Doug LaMalfa (R-Richvale) announced he is accepting submissions for the 40th annual Congressional High School Art Competition. The theme for this year’s competition is Planes, Trains, and Automobiles. America’s Open Roads and Open Skies.

LaMalfa said: “The Congressional Art Competition is a tremendous opportunity for talented high school students to compete to showcase their abilities to the entire country. This year’s theme allows our young artists to highlight the unparalleled beauty of the North State and our country. I’m especially interested in seeing art depicting antique era vehicles, steam trains or early diesels, early aircraft thru the 50s, vintage cars, etc. I look forward to seeing the winning artwork displayed in our nation’s Capitol building. Good luck to all those who will be competing!”

The winning entry will be displayed for one year in the United States Capitol as part of a nationwide exhibit dedicated to displaying the talents of young people representing each state. Information regarding the guidelines for the competition can be found here.

All artwork must be submitted by Friday, April 22nd to any of my district offices or staff members. This year, we have staff available for pick up for: Modoc, Lassen, Plumas, Sierra, Siskiyou, and part of Eastern Shasta County. Staff and office contact information is listed below. For all other counties please contact your local district office to schedule a drop off time. The winner will be contacted by Tuesday, May 3rd.

The center is also designed to be converted for use during a local

emergency, such as the region experienced during the recent fires. “We will be able to provide shelter and food in case of an emergency,” Birtha said.

The building crew currently employs about 250 construction workers. The venue, when opened, will have approximately 100 employees for shows. They expect to have between 50 and 60 shows per year.

Jodi Goodman, representative from Live Nation said, “This was a natural fit. It is truly more state of the art in Northern California. For Live Nation events it is a really, really great asset. We can see an enormous future together for us.” Live Nation, the world’s leading live entertainment company, will be the exclusive talent booking agency for the venue.

Farmers, Ranchers Meet with Legislators at Farm Bureau Conference

Some 130 California Farm Bureau members interacted with state lawmakers and legislative staff as Farm Bureau's Capitol Ag Conference returned to Sacramento last week. The event was canceled in 2020 and held online in 2021 because of the pandemic. Representatives from 33 legislative offices met with farmers and ranchers in wide-ranging discussions on critical issues facing California agriculture.

Farm Bureau President Urges California to Keep its Water Promises

California Farm Bureau President Jamie Johansson says the Golden State is failing to live up to its water promises. Addressing the Capitol Ag Conference, he noted the lack of progress in building water storage under Proposition 1, approved by voters in 2014. "We have to decide as a state how serious we are about this water," Johansson said. He urged farmers and ranchers in America's largest agricultural economy to let legislators know "how important we are to this state."

California Dairy Farms Cash in on Manure, Curb Emissions

California dairies are cleaning the air and finding a new source of revenue – manure. Scores of dairies are installing manure processing systems, which break down solids to produce energy and reduce greenhouse gas emissions. One San Joaquin Valley hub is collecting biogas from five dairies. The refined methane is being purchased by the Southern California Gas Co. California is seeking to cut emissions from dairy manure by 40% by 2030.

Usda Seeks to Increase Domestic Fertilizer Production, Curb Prices

The U.S. Department of Agriculture is seeking to boost domestic fertilizer production to address higher crop costs faced by American farmers. The USDA is offering \$250 million in grant funds to producers to increase fertilizer supplies and market competition. The U.S. relies heavily on fertilizer imports. Costs have soared due to the supply chain crisis, and market conditions have worsened with the Russian invasion of Ukraine. ★

This Month In Your Garden

by Jeff Rice

BALD MOUNTAIN NURSERY

6195 BALD MOUNTAIN ROAD • BROWNS VALLEY, CA • 530-743-4856

Quite a few people now are getting their vegetable gardens prepped for planting. Watch temperatures closely when getting ready to plant your vegetable garden. April is a good time for it but sometimes early April still brings us some very cold nights. Keep in mind that the night time temperatures should be at a consistent 50 degrees to sustain the best growth. Seeds that have been planted should be fine, but small plants can be stunted by cold nights. Many people feel that April is a late start, but, that is an opinion, not a fact. Monitor the night time temperatures for a few nights and make your decision. Up in our foothill areas there are lots of microclimates depending on whether you are up on the hill or in a valley where the cold is more apt to settle – the difference in temperatures can be significant. Many people in the higher foothills, such as Grass Valley or Brownsville wait until May because of the almost inevitable late cold spell that is apt to come along and freeze the small plants making it necessary to start all over again.

If you planted any fruit trees during bare root season or recently purchased any in containers, this is just a reminder that the tree trunk should be painted with tree-trunk paint from the ground up to the first limbs to protect them from sunburn. Sunburn can cause the young, still thin bark to crack creating a possible entrance for pests. As we progress into the hot weather, the young trees will need a good, deep watering two to three times a week, depending on how hot it is. This is very important to help them develop deep roots to become healthy trees. A quick watering every day or so will develop shallow roots that will not be able to sustain them well as they grow larger. This actually applies to any trees you may plant - especially with the hot weather that we know is coming along. Roots seek the water wherever it is.

Now is the time to start fertilizing trees

and shrubs. An all-purpose fertilizer works for nearly all the plants in the landscape. Citrus trees need a citrus fertilizer. Roses will benefit from a rose food but all-purpose fertilizer works well on them too. Fertilize roses regularly. They are heavy feeders. You can use a systemic rose food to control aphids as well as feeding them.

Citrus trees are available and have been blooming and soon the very small fruit will be seen in their place. They are probably no longer in need of protection from cold weather, but be ready to protect them should some freezing weather be predicted. Citrus trees should be fertilized regularly to keep them nice and green. If they begin to have yellow leaves with green veins they should be given some chelated iron.

Lawns should be fertilized with a lawn food. If your lawn areas have weeds invading them, it is helpful to use a lawn food that has a weed control incorporated in the formula. This is also a good time to plant a new lawn if that is in your plans. It is much easier to do it now before the daytime temperatures become hot. That requires more frequent short watering sessions to keep the soil moist enough to help the seed sprout without washing some of the seed away or drowning the first new little sprouts.

It has been nice to see all of the early blooming plants. Our fence line of daffodils at the nursery were beautiful. I have noticed orchards in full bloom and the few fruit trees we had left from bare root season were pretty to see in all their different colors. Of course, the flowering quince along the roads and the yellow forsythia in yards are always early clues that spring like weather will soon be here.

We are the "Unexpected Nursery on a Little Country Road."

The Brownsville Bailiwick & Beyond

Books & More will be reopen on Wednesday, April 6, if all goes as planned. Hope to see you soon.

Thanks to all who participated in our park clean up day. Volunteers make a definite difference in our community. It was postponed because of possible rain (after all it is Spring), but when it happens, please get involved. When we walked the path around the amphitheater, we often carried an empty bag,, it is good exercise to stop and pick up any trash you see.

A project that is being talked about with the group in Next Step is creating a cluster of small cabins that would be available for people who choose to live in a "Village". The project was active a couple of years ago, but put on hold because of Covid. Now we are getting out our notes and ideas together, starting to make plans. If you are interested in such a project, please let us know by stopping by Books and More and getting in on the plan. In Facebook there was an advertisement

for house cleaning worker. That is sure something we need around Brownsville. Many of our helpers are "timing out", if there was an organizer that we could call and would make a schedule of some kind, that would be great. Any takers?

Mountain Fair 2022 is in the planning stages and will be held on August 20th and 21st. As last year, there will be many fun and exciting activities for the whole family. In order to make Mountain Fair happen several volunteers are needed. If you are interested in helping out, please contact Christine Mills at irishshop-girl.12@gmail.com or text 530-635-2114.

Look Back in Time - In 1925 work was progressing at Beaver Resort just below Brownsville. There was a 15 room hotel along with 50 cottages planned. There was to be a swimming pool, golf course and dance hall, too (we wonder how far along the project went).

~ Hope to see you in Brownsville soon.

Finally, Progress on Vital Sites Reservoir Project

By Dan Walters
CALMatters.org

Simple logic tells us that as climate change alters precipitation patterns, California must expand its capacity to capture and store water.

Even if the overall amount of precipitation remains unchanged, we will receive more of it in the form of rain and less as snow, which means the natural reservoir of the Sierra snowpack will decline as a water source.

We can prepare for that decline by creating more storage, either in new reservoirs or by replenishing underground aquifers. However, despite the urgency of the situation — one underscored by the current drought — California politicians have been lackadaisical about doing what needs to be done.

Local and regional water authorities have been more diligent. Southern California’s recent construction of more storage capacity is one reason it is less affected by the current drought than Northern California.

Belatedly, increasing storage is moving upward on the political agenda. Last week, the federal Environmental Protection Agency invited sponsors of the Sites Reservoir

project, which has been on the back burner for decades, to apply for a \$2.2 billion loan that would cover roughly 40% of the project’s estimated cost.

Along with some state water bond money and commitments from prospective users of the project — Southern California water agencies, mostly — Sites is now in position to put together a financing package to make it a reality.

“We’ve definitely turned the corner and we have a nice tailwind at our back,” said Jerry Brown, executive director of the Sites Project Authority. Brown is not related to former Gov. Jerry Brown, whose Colusa County retirement home, incidentally, is not far from Sites.

It’s not going to happen immediately, despite the urgency of the situation. Just assembling the loan package and getting approval could take several years and there are other hurdles to clear. Nevertheless, the strong possibility of a federal loan is a huge step forward.

If it becomes reality, the reservoir would be constructed on the west side of the Sacramento Valley, west of Maxwell. It would have a capacity of up to 1.8 million acre-feet of water, about half the size of the state’s Lake Oroville, but unlike Oroville, would not dam a major river.

Sites would be an off-stream reservoir, similar to — and slightly smaller than — the San Luis Reservoir in the Pacheco

Pass west of Los Banos. During periods of high precipitation and runoff, Sacramento River water would be pumped into Sites, then released back into the river as needed for agriculture, residential use or to maintain flows for fish.

As an off-stream reservoir, Sites escapes at least some of the traditional opposition to big water projects from environmental groups, but there is some criticism that it could be used to divert water during low precipitation periods.

“It’s just a, kind of, different way of thinking about it,” project boss Brown told the Associated Press. “There’s a lot of fear and distrust and we have to operate in a way that we, you know, secure trust and address the fears.”

The good news about Sites should be kept in perspective. It’s just one of many steps that California must take to protect its vital water supply from the potential ravages of climate change.

It’s entirely possible that climate change will not only change the mix of precipitation — more rain and less snow — but reduce the overall volume of water that falls on California, thus making more storage even more crucial while forcing us to rethink the entire pattern of water use.

Nothing is more critical to California’s future.

The Blue Light Sale After Crashes

When the markets crashed hard in 2008/09 and then again in March of 2020, the rebounds that followed were nothing less than spectacular. Those that bought into the teeth of crash or right after either event, likely saw their balances soar.

Not a recommendation to buy stocks during crashes or anytime for that matter, investors can consider the absolute hammering certain stocks have had since the start of 2022. The technology-heavy Nasdaq stocks actually started eroding mid-November, with the more pronounced sell off starting around the first week of January.

Some of the popular stay-at-home stocks, as I called them, have been absolutely creamed, with some stocks off more than 80%.

Although no one can forecast market direction at any time, and markets can go a lot lower or higher than one might think and for longer than one might think, one has to consider some investors bought many of these stocks at much higher levels before the crash, and although many of these companies have seen their revenues drop as the country came out of the shutdowns, did these companies deserve the incredible haircuts they saw in their stock prices?

Much like after 2008/09 and the March 2020 sell off, it takes guts to start shopping in the garbage heap of obliterated stocks in the face of the negative sentiment surrounding such carnage.

But much like a clearance sale at your local retailer, one could make a case that if people loved these stocks at triple the price, why would one hesitate to buy these same companies at a fraction of the price they were such a short time ago?

After all, although earnings may have taken a hit for some of these past Wall Street darlings, are the companies’ still strong and viable entities with good products?

Many are. Although some of these companies might indeed go four feet up in a bankruptcy sometime in the future, many of these companies are not going anywhere and will survive and even thrive in the

months ahead, and some stocks might even surpass their previous highs.

As is common in massive sell off events, many a baby is thrown out with the bath water, as previous high flyers turn into the most hated stocks on Wall Street.

It is said to buy when there is blood in the streets, and certainly some sectors and individual stocks are gushing red.

Like super stock rally events, many stocks go much higher than thought possible, and during horrific crashes, many stocks get way oversold to the point of ridiculousness.

Although bottom fishing can be a dangerous business, I like to nibble on beaten up securities during severe market sells off, garnering the cash for such buys when stops are hit on some of my stocks on the way down.

Stops are predetermined sell orders I have installed during the rallies to try and protect my profitable positions. As the stocks I may have bought go up, I set the sell points higher and higher, known as a “trailing stop” in an attempt to retain any profits I may have.

Although stops and trailing stops don’t guarantee that gains or losses will be controlled, when executed properly, they can provide some comfort and react accordingly during market sell offs.

Then as the market continues down, I use cash from any sells to slowly add some stocks that were badly hammered when the obliteration levels reach, at least in my mind, the point of ridiculous.

Although prices may continue to drop, at least I know I am buying hopefully some good companies at much lower prices during the “blue- light-special fire sales” event that severe market crashes present.

LETTER TO THE EDITOR

Rideout False Positive Covid Tests

My husband and I had Covid February-March 2020. We did not see a doctor and did not become a Covid statistic. Blood tests later proved we have Covid antibodies.

February 14, 2022, I was admitted to Rideout Hospital with a broken hip and tested negative for Covid. Although I exhibited no symptoms of illness, Rideout performed a second Covid test three days later and informed me I tested positive. I became a FALSE Covid statistic!

Rideout did not move the other female patient from my room and either deliberately left her exposed to Covid or knew my positive test was false.

I was transferred to a Covid-quarantine rehab facility Sacramento. My first roommate was a retired nurse who tested positive for Covid while in the hospital with pneumonia after

receiving her second Covid vaccination.

My second roommate, Joyce, was also a Rideout patient with a broken hip who also tested positive for Covid and had no symptoms of any illness.

The “positive” tests performed by Rideout employees netted Rideout additional government funding for me and for Joyce. Shouldn’t independent labs not profiting from results perform the tests?

The Sacramento rehab facility also received additional government funding based on the “positive” tests with ZERO symptoms requiring no treatment beyond our broken hips.

How many more false positives are reported to fleece taxpayers, incite fear, and further enrich pharmaceutical, medical, and political oligarchs?

CIA Officer Openly Confesses to Rigging 2020 Election for Joe Biden and Says They Would Do It Again | 28 March 2022 | A CIA officer has confessed that the ‘Deep State’ rigged the 2020 election in Joe Biden’s favor, and has boldly admitted that the agency would do it again. Former CIA officer John Sipher claimed in a stunning Twitter thread that he took “particular joy” in discrediting the Hunter Biden “laptop from hell” narrative and enthusiastically admitted to “shifting” the election away from Trump. Sipher was among the many “intelligence experts” who falsely claimed the Hunter Biden laptop story from the New York Post back in October of 2020 was part of a “Russian disinformation campaign.” Redvoicemedia.com reports: A March 18 report from the New York Post mentioned how Sipher was among those “officials” who’d “signed a letter saying that the laptop ‘has the classic earmarks of a Russian information operation.’”

Biden admin invents ‘Securities and Environment Commission’ out of thin air to force climate agenda on US businesses | 28 March 2022 | The Securities and Exchange Commission – a government agency established in the aftermath of the 1929 stock market crash to protect investors and maintain fair markets – may soon become a key player in imposing Joe Biden’s climate agenda. In a 3-to-1 vote last week, unelected Democratic bureaucrats who serve as the agency’s commissioners voted without authorization from Congress to impose sweeping new rules that require all publicly traded companies to disclose how their business affects “climate change.” According to a press release issued by the SEC, the proposed rules would require businesses to disclose their greenhouse gas emissions along with any and all information relevant to “climate-related risks that are reasonably likely to have a material impact on their business, results of operations, or financial condition.”

Hunter Biden DID help secure millions in funding for US contractor in Ukraine specializing in deadly pathogen research, laptop emails reveal. – | 25 March 2022 | Moscow’s claim that Hunter Biden helped finance a US military “bioweapons” research program in Ukraine is at least partially true, according to new emails obtained exclusively by DailyMail.com. The commander of the Russian Nuclear, Biological and Chemical Protection Forces, claimed there was a “scheme of interaction between US government agencies and Ukrainian biological objects” and pointed to the “financing of such activities by structures close to the current US leadership, in particular the investment fund Rosemont Seneca, which is headed by Hunter Biden.” Intelligence experts say the Russian military leader’s allegations were a brazen propaganda ploy to justify president Vladimir Putin’s invasion of Ukraine and sow discord in the US. But emails from Hunter’s abandoned laptop show he helped secure millions of dollars of funding for Metabiota, a Department of Defense contractor specializing in research on pandemic-causing diseases that could be used as bioweapons. He also introduced Metabiota to an allegedly corrupt Ukrainian gas firm, Burisma, for a “science project” involving high biosecurity level labs in Ukraine. And although Metabiota is ostensibly a medical data company, its vice president emailed Hunter in 2014 describing how they could “assert Ukraine’s cultural and economic independence from Russia” – an unusual goal for a biotech firm.

Military Doctor Attests She Was Ordered to Cover up Wave of Injuries Following COVID-19 Vaccine Mandate | 17 March 2022 | A medical officer with the military has testified in court that she was told by a superior to suppress her findings with regard to the DoD’s Defense Medical Epidemiology Database (DMED) after the vaccine mandate. Dr. Theresa Long said while giving testimony in court that she and two other medical professionals found a spike in cancer cases, neurological disorders and miscarriages after the vaccine mandate went into place. She and the others who made these shocking discoveries were ordered to keep quiet. “I have so many soldiers being destroyed by this vaccine. Not a single member of my senior command has discussed my concerns with me...I have nothing to gain and everything to lose by talking about it. I’m OK with that because I am watching people get absolutely destroyed,” Long said in court.

Biden admin operated with missing data as CDC issued pandemic guidance, emails show – | 25 March 2022 | The Biden administration didn’t have data on students’ learning loss when the Centers for Diseases Control and Prevention (CDC) issued its COVID-19 school reopening guidance, internal emails show. The emails also indicate that Dr. Anthony Fauci flagged an article citing scientific studies disputing the need for students to stay six feet apart, noting that the rule appeared to be based on “decades-old research.” Additionally, the CDC denied a Harvard University public health expert’s request for state-level vaccine distribution data, which she needed for her research about how policies affected vaccinations, the emails show. “These emails show the CDC forged ahead and crafted pandemic policy based on poor data – even after they’ve been warned old and out-of-date research was being used to support their guidelines,” Caitlin Sutherland, executive director of Americans for Public Trust, told Fox News.

Scientists Seek to Make a ‘Self-Spreading’ Vaccine - Report | 28 March 2022 | A new report from National Geographic indicates that scientists are now working on “self-spreading vaccines” that can jump from vaccinated to unvaccinated populations. The article indicates that these “new vaccines or so-called recombinant viruses” are developed through a process whereby researchers “first identify a protein from the target microbe that serves as an antigen—a substance that triggers immune responses in vaccinated people or animals.” Researchers then “select a virus to carry the vaccine and spread it.” This is achieved by capturing “a few animals from their target population – primates for Ebola, rats for Lassa fever,” etc. – and isolating a virus that naturally infects those animals. Then researchers splice in genetic material from the “target to create a vaccine.” ★

Man Arrested for 2 Separate Sexual Assaults

Yuba City Police Department News Release

YUBA CITY, CA (MPG) - In 2020 two separate investigations were begun by the Yuba City Police Department regarding the sexual assault of adult females.

The incidents were not related to each other, but the suspect identified during the two investigations was the same person, 28-year-old Dustin McKenzie, from Yuba City. Mr. McKenzie was known to the victims at the time of the sexual assaults. Mr. McKenzie was arrested by the Yuba City

Police Investigation Unit on February 23, 2022, and is currently in custody in the Sutter County Jail on \$100,000 bail.

The details surrounding the investigations are not going to be released due to the sensitive nature of the cases. The investigation is still continuing and there is a possibility of additional victims who have not yet come forward. The Yuba City Police Investigation Unit is requesting anyone with information regarding this case please contact Detective Joe Swallow at (530) 822-2082 or jswallow@yubacity.net. ★

Shooter Sentenced in Motel 6 Homicide

Butte County DA Press Release

BUTTE COUNTY, CA (MPG) - One of three suspects charged with the murder of John David Noonan, 41, of Chico, in a rear parking lot of the Chico Motel 6, was sentenced March 9 in Butte County Superior Court.

Eric Allen, 38, of Chico, was charged with using a firearm to shoot and kill John Noonan on Jan. 23, 2020. Allen pled to first degree homicide in January 2022 and was sentenced to 25-years-to-life in prison on March 9.

Butte County District Attorney Mike Ramsey said John Noonan’s father, Michael Noonan, addressed the court during sentencing and described the extensive loss he has experienced throughout his life, but noted

that nothing compares to the loss of a child. John Noonan left behind seven siblings and two children.

“Despite Allen’s 25-to-life sentence, he will be eligible for parole in just 20 years, because of the Legislature’s new ‘Elder Parole program,’ which allows inmates to seek parole after only 20 years of custody once they reach the age of 50, regardless of their how many years a judge ordered.” Ramsey said.

The remaining two defendants, Justin Cozakas and Monica Ruggiero, are set for jury trial June 13. Both are charged with first degree homicide for their role in Noonan’s murder, and they remain in custody at the Butte County Jail while they await trial. ★

Suspect Arrested for DUI, Child Endangerment, Running over Pedestrian

Marysville Police Department

MARYSVILLE, CA (MPG) - A suspect has been arrested for DUI and child endangerment after running over a pedestrian with her vehicle. The suspect has been identified as 36-year-old Heather Marie Wood of Marysville.

On March 24, 2022, at approximately 3:07 pm., Wood backed her vehicle into an adult pedestrian in the Save Mart parking lot. After backing into the pedestrian, Wood pulled forward and ran over his legs. Witnesses on the scene assisted the pedestrian and called 911.

Marysville Police Officers arrived at Save Mart within two minutes. An investigation

revealed Wood was driving while impaired by alcohol. Wood was found to be twice the legal limit. Additionally, Wood had three children under 15 years old in her vehicle.

The pedestrian was transported to Rideout Hospital for treatment. All three children were uninjured and released to a parent.

Wood was booked for 23153(b) VC, DUI causing injury, 273a(a) PC, child endangerment. Wood remains in custody at the Yuba County Jail with bail, pending future court proceedings.

The property heretofore described is being sold "as is". The street address and other common designation, if any, of the real property described above is purported to be: 1932 9TH AVENUE, OLIVEHURST, CA 95961 The undersigned

Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the Note(s) secured by said Deed of Trust, with interest thereon, as provided in said Note(s), advances if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligations secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of this Notice of Trustee's Sale is estimated to be \$160,072.02 (Estimated). However, prepayment premiums, accrued interest and advances will increase this figure prior to sale. Beneficiary's bid at said sale may include all or part of said amount. In addition to cash, the Trustee will accept a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union or a check drawn by a state or federal savings and loan association, savings association or savings bank specified in Section 5102 of the California Financial Code and authorized to do business in California, or other such funds as may be acceptable to the Trustee. In the event tender other than cash is accepted, the Trustee may withhold the issuance of the Trustee's Deed Upon Sale until funds become available to the payee or endorsee as a matter of right. The property offered for sale excludes all funds held on account by the property receiver, if applicable. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. Notice to Potential Bidders If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a Trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a Trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auc-

tioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same Lender may hold more than one mortgage or Deed of Trust on the property. Notice to Property Owner The sale date shown on this Notice of Sale may be postponed one or more times by the Mortgagee, Beneficiary, Trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about Trustee Sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call Nationwide Posting & Publication at 916.939.0772 for information regarding the Trustee's Sale or visit the Internet Website

www.nationwideposting.com for information regarding the sale of this property, using the file number assigned to this case, CA07000780-21-1. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Website. The best way to verify postponement information is to attend the scheduled sale. Notice to Tenant NOTICE TO TENANT FOR FORECLOSURES AFTER JANUARY 1, 2021 You may have a right to purchase this property after the trustee auction pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call 916.939.0772, or visit this internet website www.nationwideposting.com, using the file number assigned to this case CA07000780-21-1 to find the date on which the trustee's sale was held, the amount of

the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. Westwood Resident Arrested for Assault with a Deadly Weapon

Butte County Sheriff's Office Press Release

MAGALIA, CA (MPG) - On March 14, at approximately 10:21 p.m., BCSO began receiving reports that a victim was hit by a vehicle on Oak Park Drive, Magalia. BCSO deputies, California Highway Patrol Officers (CHP), and medical personnel immediately responded to Oak Park Drive and located a female victim who had been hit by a vehicle. The victim was transported to a local hospital where she underwent emergency surgery. Doctors were able to stabilize the victim during the emergency surgery. She is currently in critical condition. Deputies and detectives investigated and located evidence that Kayla McCally, age 29, of Westwood, was involved in an

altercation with the victim. During the altercation, McCally got into the victim's vehicle, rapidly accelerated, hit the victim, and hit a tree. After crashing the vehicle McCally fled the area on foot. Deputies, detectives, and CHP Officers contacted McCally at a residence on Bille Road, Paradise around 1:45 a.m. on March 15. Detectives located additional evidence which gave them cause to believe McCally was the individual who hit the victim. McCally was arrested for the following felony charges: Assault with a deadly weapon, inflicting great bodily injury on a victim during the commission of a felony, felony hit and run, and felony driving under the influence of alcohol. The Sheriff's Office is asking anyone with additional information about this investigation to contact deputies and detectives at 530-538-7671. ★

Reward Offered in Murder Case

Butte County Sheriff's Office Press Release

BUTTE COUNTY, CA (MPG) - On July 3, 2021, Butte County Sheriff's Office (BCSO) deputies were dispatched to the Loafer Creek Campground, which is owned and operated by California State Parks, to assist with a homicide investigation. During the initial response, State Parks Peace Officers requested BCSO assume jurisdiction over the investigation. Detectives responded and determined that 20-year-old Tyler Dickson, of San Pablo, was fatally shot while sleeping inside a tent.

Detectives initiated a homicide investigation. Over the past several months, detectives have actively and zealously investigated this case, however it has remained unsolved. In 2021, BCSO requested Governor Gavin Newsom's Office issue a reward through the Governor's Reward Program to encourage those with pertinent information to come forward. After reviewing the circumstances of the case, Governor Newsom's Office issued a \$50,000 reward for information leading to an arrest and conviction for the murder of Tyler Dickson. The Sheriff's Office is

committed to solving this case. We very much want to bring closure to Tyler's family and friends and see to it that the person(s) responsible for Tyler's murder are held accountable. Our hearts go out to Tyler's family, and we are hopeful that this reward will renew public interest in the case and ultimately result in justice for Tyler. BCSO encourages those with pertinent information to come forward. Anyone with information is requested to contact Sergeant Patrick McNelis or Detectives Tristan Harper and Zach Price at 530-538-7671. ★

"Transportation Tax Initiative"

Commentary by Bruce Lee

If you saw my last column ... "More Tax Please", you are aware of the recent court opinions which are now allowing politicians to take dusty, previously failed tax proposals and repackaging them as new "citizen initiatives". And, by doing so, local government is bypassing the constitutional requirement for a two-thirds voter approval, and letting a "citizen initiative" for a new tax pass by only a simple majority vote requirement. SO MUCH EASIER TO PASS NEW TAXES!! And also with this new method, local governments do not even have to bother with those pesky things like public hearings, keeping the public informed, and having reasonable public debate!! That darn public, don't they know the political elites know what is best for them? (sarcasm) As I said before, now any special interest group with enough cash can push taxes that benefit themselves. If I can convince the bare majority to tax others for some "feel good" topic, then I'm the winner and feel no pain. I can tax business or the perceived wealthy for whatever issue has the emotional attention of the majority. All I have to do is pay enough signature gatherers! And, so it is with a half percent, 40 year, transportation sales tax hike for Sacramento County. First proposed in 2016 and voted down; then resurfaced in 2020 to be pulled off the ballot at the last moment when the Sacramento Transportation Authority realized it would again miss the two-thirds threshold for passage. Their consultant said the tax increase would not pass if there was any organized opposition to it. At that time, the Sacramento Taxpayers Association (SacTax) led the community wide coalition to oppose that proposal. The coalition consisted of business, agriculture, social groups and others - including the NAACP and the National Action Network; and the reasons to oppose the tax hike have not changed too much in the past two years. First, it is still a bad time to propose a new tax. Although the pandemic appears to be subsiding, the county's economy is still weak. One third of SMUD customers are either

behind or have stopped paying their bills altogether. And small family businesses are still closing their doors. Inflation is raging. The cost of food and fuel is way up! This proposal has been kicking around for years, but county leaders seemingly cannot read the room that homeowners, renters and businesses are struggling. Second, while we likely need road-way improvements because of age and deterioration, local governments, and especially Sacramento, have a history of neglecting infrastructure and instead fund fancy new projects or programs until roads, sidewalks, and other infrastructure start to fall into disrepair. It is only then they run to taxpayers for more money. We believe that historic neglect and lack of prioritization shouldn't be rewarded. Third, this is a highly regressive tax falling disproportionately on the shoulders of the working poor and the middle class, hence the historic opposition by the NAACP and NAN. As a concluding comment, the proponents of this half-percent tax increase are well aware of the broad spectrum of community concern and opposition of over the past years ago. Yet, as President of the Sacramento Taxpayers Association, nobody has reached out to us to even discuss digging up this sad proposal from the grave. That just gives the impression that the powers at hand simply scoff at the community at large, and simply want to take the easier path for themselves by holding out their hand for more money from us with the hope that they can beguile the public most of the time. *W. Web Meeting: <https://us06web.zoom.us/j/89244975980>
Meeting ID: 892 4497 5980
Mobile: +1 408 638 0968 US

The Yuba County Development Review Committee (DRC) will consider the following:

Tentative Parcel Map TPM 2021-0010 (Sanchez): The applicant is requesting to create three parcels from a 16.96 acre property located at 8298 Hallwood Blvd, approximately 0.6 acres north of the intersection of Walnut Avenue and Hallwood Blvd, in the community of Hallwood (APN: 006-120-038). The 2030 General Plan designates the land use as Rural Community and the zoning is "RR-5" Rural Residential-5 acre minimum lot size. The DRC will be considering adoption of the Mitigated Negative Declaration pursuant to the California Environmental Quality Act. The public comment period for the Mitigated Negative Declarations is April 1, 2022 to April 21, 2022.

Any person wishing to testify on the above projects may attend the Development Review Committee in person and by teleconference via **Zoom** at the prescribed time, or may submit written comments or objections to the Community Development and Services Agency at 915 8th Street, Suite 123, Marysville, CA 95901, prior to the hearing. Copies of the staff recommendations are available for inspection at the same address. If you have any questions, you may contact Ciara Fisher at (530) 749-5470.

The **Development Review Committee's** action on the project may be appealed by any interested person to the Board of Supervisors by filing a written appeal with the Planning Department within 10 days following the **Development Review Committees** final action on the project. If the Board of Supervisors is the final Approving Authority, or if the project is appealed to the Board, the Board's action is final.

If you challenge the action of the **Development Review Committee** on this matter in court, pursuant to Government Code section 65009 you may be limited to raising only those issues you or someone else raised at the Public Hearing described in this notice, or in written correspondence delivered to the Planning Department at, or prior to the hearing. By Paul Scholl

SACRAMENTO REGION, CA (MPG)

- One of Sacramento’s best has chosen retirement. Phil Cowan, morning radio host of AM1380, will air his last show on April 1, 2022, between 6:00 and 9:00 am.

A retirement dinner event was held Tuesday evening, March 22, at The Ridge Golf Course in Auburn. Of course, it was a sold out event. The event was produced by AM1380 The Answer and its sister stations in Sacramento; 103.9 The Fish, 105.7 The Word, and Money 105.5.

Attendance included Scott Jones Sacramento County Sheriff; Doug LaMalfa, Congressman; Ted Gaines, Board of Equalization; Sue Frost, Sacramento County Supervisor; Suzanne Jones, Placer County Supervisor; Katy Grimes, editor of California Globe, along with their spouses and many other dignitaries, all of whom wanted to show their appreciation for Phil at his retirement event.

Mindi Russell, former CHP chaplain, graced the meal and gathering with an uplifting blessing.

Special guest, Larry Elder, radio talk show host and former candidate for governor, and Cowan presented a short program on the current events of national and state politics. It was the kind of segment the morning listeners loved to hear every morning on Phil’s show.

Especially pleasing for Phil were the many call-in listeners to the program that made their trek to the event to show their love for the man that filled their mornings with entertainment, humor, a daily education on the ever-changing landscape of politics, and the many topics that were the pillars of the host’s life journey. His discussions on music, classic cars and firearms were great entertainment all by themselves. He had never met many of the regular

callers, having only known them from their call-in voices over the years. It was as if they had just gathered at a big family reunion for the very first time.

Phil’s #1 Retirement Plan, spending time with his amazing wife Kathy.

One caller recently stated, “The reason your show is so great Phil is that it is a show for the people and by the people.”

First and foremost to Phil is

Larry Elder and Phil Cowan.

his family. He spoke often on his show of his children, grand-children, and his ever-amazing wife, Kathy, professing in front of all his fans “Nothing would have

been possible without her”.

Phil Cowan and Paul Robins co-hosted a daily radio show together for many years. A sweet addition to the program was Paul’s send-off message to Phil, along with a few short stories about their friendship, and their famous Harley ride together from Sacramento to New York years ago.

Phil is a local legend, not just for the radio show, but for what he brought to the good people of the Sacramento Region through his life’s body of work. He has been a true friend and supporter to so many it is impossible to describe it all here. Phil will be truly missed. May his retirement be long and joyous and fruitful.★

Dahle Appointed to Assembly Organization Committee

California State Assembly Press Release

SACRAMENTO, CA (MPG) - On March 3, 2022, Assemblywoman Megan Dahle was appointed to the Assembly Governmental Organization Committee by Assembly Speaker Anthony Rendon. Assemblywoman Dahle will serve on this committee for the 2021-2022 legislative year.

“I look forward to bringing my unique experiences as a Californian from the rural North State to the Governmental Organization Committee and collaborating with my colleagues in the Assembly to serve constituents. This committee focuses on policies related to, among other things, critical emergency services, the State Fire Marshal and ensures integrity in public meetings throughout the state. My constituents live in

constant fear of wildfires, so being a part of policies related to emergency services will give me a seat at the table to speak up for those who live in my district.” Said Dahle.

Primary jurisdictions include Alcoholic Beverage Control, Indian gaming, horse racing, gambling, State Lottery, tobacco products, open meetings laws as they affect state government, Outdoor Advertising Act, State Fire Marshal: Licensing, regulation, and disposal of fireworks, Offices of the Governor, Lieutenant Governor, State Controller, and State Treasurer, and State holidays, seals, and official acts.

Assemblywoman Megan Dahle represents the 1st Assembly District in the California Legislature, which includes portions of Butte and Placer counties, along with Lassen, Modoc, Nevada, Plumas, Shasta, Sierra, and Siskiyou counties. ★

California School Choice Initiative

Commentary by Ramona Murphy

There’s a saying that money talks. But, it’s concerning to me when money is a bigger priority to schools than the concerns of parents. Parents know what is best for their children, and their concerns should be not just listened to, but responded to. I have seen firsthand that many public schools are not doing that.

So I will cave. If public schools won’t listen to parents unless they have money, then parents need to have money. Money does talk. That’s why I believe we need school choice.

Families of every ethnicity, educational and economic background are exploring home schooling and private schools. But, most can’t afford to escape a system that is systemically failing their children.

The California School Choice Initiative

(Educational Freedom Act) would change this. With the act, every student will receive \$14,000 to spend on an accredited private or religious school of their choice. While this is the average, many options are less than this, and families would save the extra money for the students to use at college or vocational schools until the student turns 30.

Teachers will benefit from this, too. There will be an increased demand for teachers who migrate to private schools, which will result in better compensation.

I encourage my fellow Californians to please sign the School Choice Initiative petition to bring it to the ballot. Visit <https://www.californiaschoolchoice.org/> to download the petition, print it, sign it, and mail it to the state so that we can change our children’s futures for the better. ★
