## Women Veterans Honored

The first of its kind in the area, a sculpture featuring and entitled "Women of the Military" is installed at the Colusa Veterans Memorial Park. Photo by Seti Long

By Seti Long

**COLUSA, CA (MPG)** - Colusa's Veterans Memorial Park got a historic update just in time for Veterans Day.

The park is home to a beautiful memorial complex begun in 2014 by the Colusa VFW 2441 and supported by gracious community donations. An archway featuring the seals of all military service branches welcomes visitors to the park and directs them to the heart of the park - a cluster of 8 walls comprised of bricks

featuring the names of service members from Colusa County. The walls with nearly 1,000 names of service are backed with specially designed relief sculptures.

Dennis Sanders, former Commander of Colusa VFW 2441 says that the sculptures "depict all of the wars and conflicts that we've had from World War One to Afghanistan." Each relief has been carefully carved by artist Peter Adams from a concrete mixture and features images of servicemen in battle and identifying title

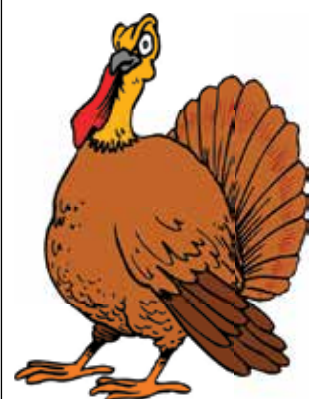

plaque.

On Friday, October 30th, the seventh sculpture was placed at the memorial, specifically honoring women in the military. The relief features images of women serving in each branch of the military in official uniform of each branch, and two large images of women in active combat gear.

Adams, the artist behind the sculptures at the Colusa Veterans Memorial Park, met with Colusa VFW and

## No Turkey for You!

By Mat Staver,  
Founder and Chairman  
Liberty Council

It wasn't enough for CA Gov. Gavin Newsom to ban ALL WORSHIP in churches and private homes for much of California. Now he's dictating how people will be allowed to celebrate Thanksgiving - the one day each year we set aside to give special thanks to God for our freedom, family and nation.

Now Gov. Newsom wants Californians to keep a "list" of all Thanksgiving celebration attendees' names, addresses and contact information, to be surrendered to the government upon demand.

It is becoming increasingly clear that Gov. Newsom wants to eradicate both faith and freedom. Newsom's unconstitutional lock downs have nothing to do with COVID and everything to do with CONTROL.

**CA's Outrageous Thanksgiving Restrictions**

In addition to Gov. Newsom's unconstitutional orders that discriminate against churches and places of worship, he has now released onerous government restrictions on Thanksgiving gatherings.

The mandatory restrictions for Thanksgiving gatherings include:

- No more than three households, including hosts and guests.
- The names and contact information of guests must be recorded so they can be "contact traced."
- Must be held outside.
- No more than two hours.
- Guests may use restrooms only if they are sanitized between use.
- Six-foot distancing in all directions.
- Everyone should frequently wash their hands with soap and water or use hand sanitizer which must, of course, be done outside.
- Food and drink must be in single-serve disposable containers.
- No food or drink on the table other than your plate and cup.
- Masks must be worn and removed only briefly to eat or drink.
- Masks can also be removed for urgent medical needs (an asthma

## In Tentative Ruling, Court Declares Governor's Abuse of Power Unconstitutional

By Curtis Grima,  
Office of Assemblyman  
James Gallagher

**YUBA CITY, CA (MPG)** - A State Superior Court judge tentatively ruled in favor of Assemblymembers James Gallagher (R-Yuba City) and Kevin Kiley (R-Rocklin) in their abuse of power lawsuit against Governor Gavin Newsom.

In the tentative ruling, Judge Sarah Heckman declared the Governor's recent Executive Order N-67-20 unconstitutional. More importantly, Judge Heckman's tentative ruling places a permanent injunction against the Governor which prevents him from unilaterally making or changing state law moving forward.

Click here to read the tentative ruling issued in Sutter County Superior Court.

Assemblymembers Gallagher and Kiley said, "We have been arguing that the California Emergency Services Act does not provide for one-man rule. Today, the Court agreed with us."

"This is a victory for separation of powers. The Governor has continued

to create and change state law without public input and without the deliberative process provided by the Legislature. The judicial branch again gave him the check that was needed and that the Constitution requires."

"Nobody disputes that there are actions that should be taken to keep people safe during an emergency. But that doesn't mean that we

put our Constitution and free society on hold by centralizing all power in the hands of one man," Gallagher and Kiley concluded.

The Court's decision does not impact any of the election protocols for the 2020 election.

Assemblyman James Gallagher represents the 3rd Assembly District, which encompasses all of Glenn, Sutter, Tehama

and Yuba counties as well as portions of Butte and Colusa counties.

Assemblyman Kevin Kiley represents the 6th Assembly District, which includes the Sacramento, Placer, and El Dorado County communities of Cameron Park, El Dorado Hills, Fair Oaks, Folsom, Granite Bay, Lincoln, Loomis, Orangevale, Penryn, Rocklin, Roseville, and Sheridan ★

# Women Veterans Honored

Veterans and artist stand proud next to one of the park’s other relief sculptures, that depicting and entitled "World War One". Pictured left to right: Joe Bowers, Peter Adams, Bill Tanner and Vicki Bateman. Photo by Seti Long

*Continued from page 1*  
women veterans for their input during the design process. He said that this particular piece was “a very challenging panel, partly because there wasn’t a theme, like a given conflict” but more so a “theory to express...that we have the support of women throughout the whole aspect of the military.” He says, “I was very pleased with how it turned out,” and shares that it has been a privilege for him to “honor the heroic work of military men and women.”  
Among those Veterans in attendance at the installation were women veterans, Cheyenne Bart and Vickie Bateman. Bart, former Gridley VFW Commander and Navy vet said that it was “past due” and spoke about the roles of women in military service. “When we think of veterans, people then to think of men.” Bart says, “Now that women enter conflicts, combat

and hostile situations, it’s time they get the recognition.” She adds, “I’m not one that thinks any less of my brother, but we’re brothers AND sisters in arms.” Bateman, who served in the Army for 20 years said, “It’s about time we get the recognition. Not just for me, but all the women that served. For all that they did, for all that they gave up and weren’t allowed to have-like families. This is in honor of them. If it weren’t for them, we wouldn’t be able to do what we’re doing.”  
Sanders, who has worked on the project from the onset says that the placement of the “Women of the Military” Sculpture meant a lot. “This whole process...just makes you very proud.” He said.  
The Colusa VFW plans to have a socially distanced ceremony on Veterans Day, November 11th, to dedicate the historic sculpture while honoring all that served. ★

# America without God Isn’t America

Commentary by Lou Binner

The election is over but little is settled. Socialist mayors and governors permit hired criminals to destroy their cities and then expect a federal government bail-out. It is up to God-fearing, law-abiding and Constitution-loving Americans to now fight for their future or lose it all.  
An American writes from Cambodia this past week saying, “I was in Laos from 1968-1971. I was a contract employee of the US Embassy in Laos. I watched as Laos went from a constitutional monarchy to a communist state. I witnessed the major destruction of this country, through infiltration, fear, dissemination of propaganda via rumor and print, developing slogans like ‘jackapot,’ meaning roughly ‘colonialist slave master.’ There were demonstrations against the government, village leaders and police were routinely assaulted and assassinated, eventually leading to open civil war.  
I not only lived through this in Laos, but I observed Cambodia, as I was stationed on the border of Laos and Cambodia and was part of daily CIA/USAID briefings.  
Cambodia was the envy of Southeast Asia in the 1960’s. Lee Kaun Yew, Prime Minister of Singapore came to see

Phnom Penh and gasped, “I hope someday my country can look this good!”(Singapore is now a leading world class nation.) Cambodia maintained neutrality until the overthrow of Prime Minister Sihanouk in 1970 by a pro-American general named Lon Nol.  
I thought Sihanouk was the wisest leader in the world; he’d kept his country out of war, but then the coup occurred when Lon Nol came into power. Nixon ordered 30,000 US troops across the Cambodian/Vietnam border to destroy munitions supplies for the Viet Kong.  
There was much political pressure at home (U.S.) and Nixon pulled the troops back replacing them with B-52 carpet bombing. That gave the struggling Khmer Rouge communists a propaganda foothold that was the beginning of the end for Cambodia.  
By 1975, Phnom Penh, the capital, was destroyed. (The Khmer Rouge killed nearly 2 million Cambodians). If you think that can’t happen in America, you need to pray. Just look at where we are now versus Christmas last year.”  
Just before November 3, some were portraying our election as not just between two candidates but between two political ways, freedom versus socialism / communism.  
C.S. Lewis in his 1958 essay ‘Willing Slaves of the Welfare State’ said, “To live his life in his own way, to call his house his castle, to enjoy the fruits of his own labor, to educate his children as his conscience directs, to save for their prosperity after his death – these are wishes deeply ingrained in civilized man. Their realization is almost as necessary to our virtues as to our happiness. From their total frustration disastrous results both moral and psychological might follow.”  
While advocates for the welfare state argue that government programs produce happiness and security, Lewis insists they are deceived and mistaken. Freedom is the path to achieve these ends.  
Lewis writes, “I believe a man is happier, and happy in a richer way, if he has ‘the freeborn mind.’ But I doubt whether he can have this without economic independence, which the new society is abolishing. For economic independence allows an education not controlled by Government; and in adult life it is the man who needs and asks nothing of Government who can criticize its acts and snap his fingers at its ideology. Read Montaigne; that’s the voice of a man with his legs under his own table, eating the mutton and turnips raised on his own land. Who will talk like that when the State is everyone’s schoolmaster and employer?”  
Tyrants or rulers treat their subjects like domesticated animals.  
In ‘The Abolition of Man’, Lewis says: “In a sort of ghastly simplicity we remove the organ and demand the function. We make men without chests and expect of them virtue and enterprise. We laugh at honor and are shocked to find traitors in our midst. We castrate and bid the geldings be fruitful.”  
America is beyond a fix by changing officeholders. Our Founding Fathers did not believe the nation or the Constitution could survive a people that rejected God and His moral way.  
(Get Lou’s podcast at “No Hostages Radio” and his articles at nohostagesradio.com) ★

# Bishop’s Pumpkin Farm is Top Pick!

"Three generations enjoy Bishop’s Pumpkin Patch". Left to right: Max Walters, Maxwell & Lindsey Myers. Photo by Kendall Carrell

By Seti Long

**WHEATLAND, CA (MPG)** - A favorite for 47 years, Bishop’s Pumpkin Patch in Wheatland is home to the quintessential harvest season experience. And after a year of COVID lockdowns, Bishop’s proves to be a refreshing escape for families all over northern California.  
While most in the crowds of people were masked, social distancing was enforced and hand sanitizing stations were available throughout the park, it almost felt like the world had gone back to normal. The park was full of visitors enjoying themselves. Children played on the giant slides, giggled as they circled round on Charlie’s Carousel, fed the animals at Weeland Petting Zoo or took the tour on the BPF Line train. The more adventurous

visitors got lost in the corn maze or flew fast and high down the zip line.  
As always, the Cider Mill was a popular spot for pressed apple cider, caramel apples and popcorn balls, and the bakery satisfied with home-made cakes and pies. Hay-filled tractor rides shuttled families out to the fields dotted with hundreds of pumpkins to hunt for the perfect pick, be it orange, white, green or speckled, large or small. Pumpkin carts are available for those with larger picks to haul to the pumpkin weigh station for final purchase.  
For those who haven’t been to Bishop’s Pumpkin Patch, it is truly a must and it’s not too late! The farm is open to the public until November 9th, and is located 1415 Pumpkin Lane, in Wheatland CA. Visit [Bishopspumpkinfarm.com](http://Bishopspumpkinfarm.com) for more info. ★

# Yuba Water Agency Funds Drinking Water Infrastructure Repairs for Foothill Residents

By Yuba Water Agency

**MARYSVILLE, CA (MPG)** - Yuba Water Agency took action today to improve water supply reliability for Camptonville residents.  
A \$56,000 grant, approved by Yuba Water’s board of directors, provides necessary funding for the Camptonville Community Services District to perform repairs to its Campbell Gulch diversion structure, which captures and diverts water for the entire community of Camptonville.  
“Our goal is to make sure that our communities have excellent water quality for their residents, and this project is crucial for foothill residents’ drinking water supply,” said Yuba Water Chairman Randy Fletcher, whose district includes Camptonville. “Without these

repairs, it is just a matter of time before the system fails.”  
The structure captures raw water from a creek that runs through Campbell Gulch before it is carried downstream through a pipe to the district’s filter plant, where it is then processed for drinking water.  
The diversion structure sustained significant damage due to high creek flows as a result of torrential rain events and is in need of repair to continue to provide a reliable water supply for the foothill community’s residents.  
This project is also part of the area’s Integrated Regional Water Management Plan, a collaborative effort to identify and implement water management solutions on a regional scale.  
Learn more at [yubawater.org](http://yubawater.org). ★

The Brownsville Bailiwick & Beyond

Have you tried Brownsville Station Cafe? It is so sad about Jim from Bob and Jim’s, but we no longer have great burgers on the corner, at least for now. However, The Station has burgers and sandwiches, too. I love their green chili stew, as well as the fried green beans. They offer quesadillas, burritos and other Mexican dishes. Be sure to check out the dessert offerings, made right on the spot and so delicious. I found the best website for their menu was trip advisor. Their days to be open are Friday through Sunday from 11 to 7. To call ahead, call (530) 675-2577 or order on line. Jacob is a great cook and has some interesting additions to everyday dishes. He also has a great garden out front and uses many plants in his cooking.  
As you drive down the road, give the garden mural at Books & More a look. Designed by artist, Jani Beckwith, and painted by several helpers, it adds color to our wall. This is to celebrate our community

garden which gave us tomatoes and zucchini this summer. We also grew some basil and want to do some rosemary. Several people worked in the garden, especially keeping it watered. We need to plan a drip system for next year. Fall vegetables have been planted: cabbage, chard, broccoli and more. Drop by sometime and take a look.  
All shoes and boots will be 10% off for the month of November at Books and More. They also have a new clothing consigner. Her name is Kandace Youngberg and she re-designs used jeans, jackets and more. Come check out her unique designs. You’re sure to find something that fits your style.  
Look Back in Time – In 1900 stage driver C. A. Smith was driving a flashy, newly painted coach, done by local artist C. F. Harvey of Sharon Valley (how long did it stay “flashy.”)  
Hope to see you in Brownsville soon ~ Christine and Yvonne.

# Remind Veterans They are not Alone or Forgotten this Veterans Day

Veterans Day Op-Ed from the Director of the VA Northern California Health Care System

By Jason Dominguez

**NORTHERN CA (MPG)** - At the VA Northern California Health Care System (VA NorCal) and Department of Veterans Affairs (VA) facilities across the country, one of the most important holidays is Veterans Day. Every Nov. 11, our nation remembers military Veterans and expresses gratitude to the men and women who answered the call to serve our country. This past year, however, has been difficult for many of us. The COVID-19 pandemic has changed how we interact with one another and even celebrate important holidays. The Centers for Disease Control and Prevention, health organizations including VA, and many state and local governments are encouraging the public to practice physical distancing and help prevent the spread of COVID-19 in our communities. Many of this year’s Veterans Day events have either been canceled or moved to virtual platforms. But

we can all still play a part in reaching out to the Veterans in our lives and remind them that they are not alone or forgotten.

Veterans are our mothers and fathers, brothers and sisters, aunts and uncles, neighbors, friends and colleagues. At VA NorCal, we work with Veterans who come from many different backgrounds, states and countries, belief systems, ethnicities, and walks of life. We understand that every Veteran’s transition back into civilian life is unique. Some Veterans require little support when they leave the military, while others can struggle to reintegrate back into civilian life, which can seem chaotic at times in comparison to the structured military life. While every person who has served in our nation’s military is different, one thing is true about all Veterans – They served us and deserve our thanks. Veterans sacrificed for you and me. Now it’s our turn to be there for them.

A few simple ways to safely reach out to the Veterans in your lives this Nov. 11 and year-round include: making a phone or video call, sending a text or social media message, sending an email, visiting, while practicing physical distancing.

If you want to do more for the Veterans in your life, encourage them to look into the VA benefits they earned. Veterans can apply for VA health care benefits by visiting their

local VA medical center or outpatient clinic, calling 1-877-222-8387, or visiting [www.va.gov](http://www.va.gov). Veterans who are in crisis or loved ones who may be concerned about a Veteran can connect with the Veterans Crisis Line to reach caring, qualified responders—many who are also Veterans themselves. To reach the Veterans Crisis Line, call 1-800-273-8255 and press 1, send a text message to 838255 or chat online at [www.veteranscrisisline.net](http://www.veteranscrisisline.net).

This Veterans Day, I’m encouraging each of us to do what we can to help, connect with and express our thanks to the Veterans in our lives. It’s our honor and privilege at VA NorCal to care for those who have served. Every day is Veterans Day at all our sites of care. On behalf of VA NorCal and our many dedicated employees, thank you to our nation’s Veterans for your selfless service to this country we all love. Have a safe, happy Veterans Day!

David Stockwell is the Director of the VA Northern California Health Care System, which is the 12th largest VA health care system in the country. The health care system provides health services for approximately 100,000 Veterans every year through the Mather and Martinez VA Medical Centers and outpatient clinics in Chico, Fairfield, Mare Island, McClellan, Oakland, Redding, Sierra Foothills, Yreka, and Yuba City. ★

- At least today, we know the answer to the old question – “Who was that masked man?”
- The November election in California is starting out to be as honest as in Venezuela or Cuba. Hundreds of thousands of ballots have been sent to the dead, illegal aliens and persons who moved out of State more than a decade ago. Postal workers have been destroying ballots. No observers will be allowed to observe if a signature on an absentee ballot is real or a forgery. Corruption? Let’s look at some specific examples. A woman in Sherman Oaks was sent a ballot even though she has lived in Tennessee for the past sixteen years. A Monrovia resident received a ballot for the person who sold her the house she now owns fifteen years ago. The previous owners now live in Texas. We could go on forever with other examples. It looks like California is surpassing Chicago as the most corrupt locale to hold an election. At least in Chicago they do not pretend to run honest elections.
- And our dear Senator Schumer, a certified creep. He says the people haven’t had a voice in selection of Supreme Court nominees. In case he forgot, such nominees are not on the ballet. And, for his edification, the people have had a voice. Their voice was heard in the 2016 election, and the winner of that election is still legitimately in office until January. And Schumer was told to take a hike.
- An insane appellate judge has opined that San Quentin must release more than half its inmates. Is that snowflake offering up his house to take in all the criminals?
- On the one hand, it is amusing. On the other, it is frightening. A so-called news report in the New York Daily News claimed Trump had a series of “mini strokes.” Of course the story is false, as usual, with the mainstream media. The problem is, there is no way for Americans to get the real story or see a retraction of “fake news.” We’ve got a serious problem which must be dealt with quickly.
- Consider this comment from the fiction treatise titled Children of Dune by Frank Herbert. “Good government never depends upon laws, but upon the personal qualities of those who govern. The machinery of government is always subordinate to the will of those who administer that machinery. The most important element of government,

therefore, is the method of choosing leaders.” Consider that statement as you vote.

- California does not have enough energy to power homes and business. Yet Newsom wants to add 15 million electric cars charging every night. The cost of energy is beyond our pocketbooks today since he, Arnold and Jerry killed nuclear, coal and fossil fuel. Government forces us to pay for expensive, unreliable solar and wind turbine energy. And think about this - there are lots of components made from oil in the manufacture of electric vehicles plus an average of 1,000 parts made of plastic – also oil based. Stupid policy.
- Democrats keep saying that Republicans want to kick to the curb those with pre-existing conditions. At least that’s Harris’ latest “liar, liar, pants on fire.” Every time she opens her mouth lies come pouring out.
- California blames PG&E for the recent spate of wildfires. How convenient. The State’s environmental policies set the stage. Politicians and environmentalists simply are not taking responsibility for the terrible conditions in the hills which they created.
- This is so hard to believe, but it’s true. The lefties had a conniption fit over Trump saying that many foreign children were taken over the US border by “coyotes.” Some of these uneducated dolts interpreted the statement to mean that a desert animal was grabbing kids at random from their parents and heading north. Absolute imbeciles.
- Robert Reich, the little guy with a little brain, wants lists of those who think differently than he does. Didn’t the Nazis perfect that approach to political and social control?
- The policing – or lack of policing – in San Francisco is out of hand. The seventh Walgreens in the “City by the Bay” has announced it will close because of constant shoplifting, unimpeded by the police. Apparently the city politicians have put a sign out - “Come and Get it, free to steal – no arrests will be made.” Theft, riots and looting is condoned and protected by City government. Any wonder we have a historic number of guns bought each month? Government refuses to protect us. Is the price of drugs and food climbing beyond the reach of our pocketbook? Blame the government for allowing people the freedom to steal. ★

# CLG NEWS UPDATES

**U.S. Loses \$19 Billion in Afghanistan Reconstruction Funds to Fraud, Waste, Abuse** | 29 Oct 2020 | A staggering \$19 billion spent by the U.S. government to reconstruct Afghanistan has been lost to fraud, waste, and abuse in the last decade and that only includes a portion of the money allocated by Congress for the cause. In 90% of the cases examined in a new federal audit, the money was blown “carelessly, extravagantly, or to no purpose.” This month the Special Inspector General for Afghanistan Reconstruction (SIGAR) published a troubling report that analyzes less than half of the U.S. budget for the initiative, \$63 billion in projects. As of December 2019, Congress has appropriated \$134 billion for Afghanistan reconstruction, which began roughly a year after the U.S. invaded the Islamic nation to destroy Al-Qaeda [al-CIA-duh] and eradicate the Taliban. **Afghanistan reconstruction has been a huge and well-chronicled debacle that continues fleecing American taxpayers nearly two decades after its inception.**

**FBI conducting criminal investigation into Hunter Biden and associates days ahead of 2020 election - report** | 29 Oct 2020 | The FBI reportedly has an active criminal investigation into Hunter Biden, the son of Democratic presidential nominee Joe Biden, and his associates. James Rosen, a reporter with the Sinclair Broadcast Group, tweeted on Thursday, less than a week until Election Day, that the bureau opened the inquiry into allegations of money laundering in 2019. “EXCLUSIVE: A @TheJusticeDept official confirms that in 2019, the @FBI opened up a criminal investigation into ‘Hunter Biden and his associates,’ focused on allegations of money-laundering, and that it remains open and active today,” he said. Rosen followed up by posting a short TV report to his Twitter account.

**‘They literally stole my vote’: Investigation underway after voters claim they received ballots that were filled out in Fayette County** | 30 Oct 2020 | (Fayette County, PA) Fayette County prosecutors are investigating reports of at least four incidents of voter fraud, according to Fayette County District Attorney Rich Bower. Bower said two voters received mail-in ballots that were already filled out and two ballots were found at the election bureau already opened. “The secrecy envelope was missing and the ballot was missing out of those envelopes,” said Bower. Bower said the ballots that were already filled out and arrived at homes 40 miles apart, which he says means **they are not isolated incidents**. “They literally stole my vote,” said Delmas Fike. **Fike said when his mail-in ballot arrived, each Democrat was already selected.**

**Judicial Watch finds 1.8 million ‘ghost voters’ in 29 states, warns of ‘dirty elections’** | 20 Oct 2020 | Judicial Watch has released a comparison study of Census Bureau population statistics and state voter registration data to reveal a notable disparity. The watch dog group is now warning of potential voter fraud and “dirty” voter rolls. The study found that 352 U.S. counties in 29 states managed to have 1.8 million more registered voters than eligible voting-age citizens. “In other words, the registration rates of those counties exceeded 100% of eligible voters. The study found eight states showing state-wide registration rates exceeding 100%: Alaska, Colorado, Maine, Maryland, Michigan, New Jersey, Rhode Island, and Vermont,” reported Tom Fitton, president of the watchdog group. Some of that excess ran as high as 187% in Texas, 177% in New Mexico and 171% in South Dakota.

**Wisconsin GOP says hackers stole \$2.3M from Trump reelection fund** –The party noticed the suspicious activity on Oct. 22. | 29 Oct 2020 | Hackers stole \$2.3 million from the Wisconsin Republican Party’s account that was being used to help reelect President Donald Trump in the key battleground state, the party’s chairman told The Associated Press on Thursday. The party noticed the suspicious activity on Oct. 22 and contacted the FBI on Friday, said Republican Party Chairman Andrew Hitt. Hitt said the FBI is investigating. Hitt said the hackers were able to manipulate invoices from four vendors who were being paid to send out direct mail for Trump’s reelection efforts and to provide pro-Trump material such as hats that could be handed out to supporters. ★

### Wildfires Reduce Feed Supplies for Livestock

Hundreds of thousands of acres of scorched rangeland leave livestock ranchers with limited options for finding more feed for their animals. California wildfires have damaged both private and public rangelands, killed animals and ruined fences, corrals, water systems and other equipment. The president of the California Cattlemen’s Association says the loss of rangeland may force some ranchers to sell off their animals early due to lack of feed.

### Trespassers, Thieves Trouble Walnut Farmers

Walnut farmers say they’re confronting two problems this harvest season: low prices for the crop and thieves who trespass into orchards to steal nuts. A number of counties have enacted ordinances to slow thefts by people who may then sell nuts on roadsides, but farmers report ongoing problems. Because of low prices, farmers say they need to sell as many nuts as they can to recoup their costs, and don’t want to lose more of their harvest to thieves.

### Pandemic Leads to Tough Year for Lemon Farmers

Closure of restaurants and bars due to the pandemic brought “major hurt” to the lemon business, marketers say, and improved sales at grocery stores have only partially compensated for the losses. Farmers and marketers say lemon sales to food-service customers have improved somewhat since dropping sharply in the spring, and shoppers have bought more lemons at retail. But people in the lemon business say farmers have seen their incomes drop significantly.

### China Receives First Shipment of California Rice

California-grown rice unloaded at a Chinese port Tuesday completed the first shipment of U.S.-grown rice to China. The USA Rice Federation says the premium, medium-grain rice from California will be sold by a Chinese retail chain known as Sungiven. Chinese importers visited California and two other rice-growing states last year as part of a longstanding effort to open the market to U.S. rice. ★

# How PG&E is improving Public Safety Power Shutoffs in 2020.

## Smaller, shorter, smarter.

**PUBLIC SAFETY POWER SHUTOFF (PSPS)** is a statewide effort to prevent wildfires by proactively turning off power to communities when severe weather is forecast. As California battles historic wildfires, a Public Safety Power Shutoff is just one of many tools that PG&E uses to help keep customers and communities safe.

PG&E is working to make PSPS events **smaller, shorter and smarter**, by:

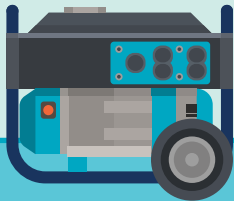

Installing over 600 devices that redirect power to limit the size of outages

1

Using more than 765 advanced weather stations to pinpoint where severe weather is most likely to occur

2

Adding backup generation in some high fire-threat communities to keep the lights on

3

Nearly doubling our helicopter fleet from 35 to 65 and adding more field crews to cut restoration time in half compared to 2019

4

Upgrading our Community Resource Centers (while following COVID-19 health guidelines such as the use of masks and social distancing) by providing water, snacks, and other resources

5

To learn more ways to prepare for a Public Safety Power Shutoff, visit [safetyactioncenter.pge.com](https://safetyactioncenter.pge.com)

## YUBA COUNTY PET OF THE WEEK

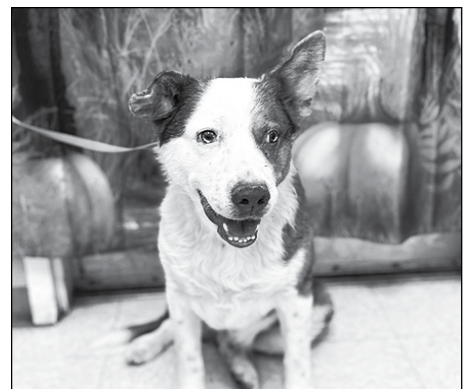

**Do you need someone to read the paper with, and curl up with on these cold fall nights?**

A silver fox that will be calm and quietly wait for your attention? Well BOSS (ID#A186434) might be the dog you are looking for! With the busy holiday season upon us just sitting and watching this big guy play could help calm and relax you.

Actually he will probably bring a smile to your face and laughter to your heart.

Boss is a typical silver fox who loves to cuddle in a nice warm lap and loving arms. Boss is an eleven year old, male, brown and white Queensland Heeler mix. He is a handsome man with lots of love to give. This big guy is looking for a perfect Fall home! You can call my good friends at 530-741-6478 to make an appointment to come see me, my Animal ID is A186210.

## Markets are said to Look Ahead Up to Six Months or More

Although many people assume the stock markets will react the actual day of an event, in actuality the-markets are said to look ahead up to six months or more.

For example, the CoVid-19 event has been a good example of how markets anticipate things way of ahead of time.

The first three weeks of March witnessed a brutal sell off in the markets. The Dow Jones Industrial Average (DOW/DJIA) dropping about 38% from an all-time high of 29,500 and change in a mere 21 days or so to the low 18,000's.

From then on, the indexes turned up and plowed almost relentlessly higher, despite the fact that the world was just in the beginning stages of this now 8-month long event, and it's not over yet.

That being said, what was it that persuaded investors to continually buy stocks from that third week in March, driving the Dow close to its previous high in the months that followed?

Even without a definitive end to the CoVid event, investors bought up stocks in this almost unbelievable and monumental rally.

Keeping in mind the event is still not over and no one can say when it will end, the markets rebound is indeed perplexing to many investors. In reality however, the snap back may have been anticipated.

Investors may have been simply assuming the inevitable: the virus will end at some point.

Whether a vaccine is found or CoVid simply exhausts itself through mutation or herd immunity, it will end.

At that point, the pent up demand from shut-in and stir crazy consumers will likely then pour out into the economy in rapid fashion, causing a similar yet surprising explosion in demand. This may translate to rapid bottom line growth and profits to the businesses that survived the event.

Wall Street loves its comparisons, and the rise in sales, compared to an anemic CoVid shut down economy, will no doubt set some records. This is what Wall Street has visualized since the shutdowns began, and is likely the reason the March sell off panic quickly turned into a buying frenzy. Once the panic subsided, Wall Street looked ahead to the recovery.

With the election upon us, another spot of

weakness hit the markets in recent months, with bouts of wicked sell-offs followed by bipolar like rebounds.

The weeks leading up to election day may have been especially damaging to portfolio balances. This could lead however, to another example of the markets looking ahead further than occurrence of a specific event happening on a specific day like election day.

I am of the opinion that the markets latest hissy fit was not so much concern about who will be elected, but the uncertainty of the event itself. Wall Street has pretty much prepared itself for the election of either candidate, knowing it will be either one or the other, and unlike a Bernie Sanders White House, which the markets DID fear, a Biden presidency no longer scares Wall Street much.

After all, the "talk" that is rumored to take place when a new President is sworn in covers nuclear footfalls, dead alien invasions, secret bunkers and other clandestine and lurid facts that the public best not be made aware of. Among the discussions will also be what can and cannot be done when it comes to the big money centers of the world, put forth in way that may be much more than mere suggestion.

My conjecture of course.

I predict the current markets nervousness may be like the Gulf War stock markets of Operation Desert Storm. The markets feared the coming war action and sold off in the days and weeks preceding it, but when the shooting actually started, the markets took off, as the uncertainty of war gave way to the certainty of it.

I suspect it will be same with the election.

### Commentary by Lou Binninger

The barriers to opening schools have everything to do with politics and nothing to do with illness. However, the Wuhan Flu hysteria is being used as a scapegoat to justify paying teachers for doing and accomplishing very little until their union demands are met. Meanwhile, students and parents are in a learning and financial free-fall.

Teachers represent a variety of political flavors but their union leaders are Marxists determined to impose those political shackles on Americans. United Teachers of Los Angeles (UTLA) union leaders are demanding defunding of the police; single-payer, government-provided health care; full funding for housing all homeless; a shutdown to publicly funded, privately operated charter schools; and a new set of programs to address systemic racism before schools reopen.

To pay for all this, they want a 1 percent wealth tax, 3 percent income surtax on millionaires, and increased property taxes on businesses. They also want \$250 million from the federal government.

Since the teachers unions took over California's education system, schools have plummeted from 1st to 46th in the nation. Under union leadership producing smart kids never has been a priority. The goal is representing teachers.

Former Orange County Treasurer Chriss Street said recently the reason schools will remain closed is that California is broke and cannot afford to reopen them. Since the teachers union controls California government that is the stalemate.

There is whining from union leaders and some teachers about the danger of returning to school. It's no more dangerous than before Covid. The government's nonsensical and dangerous 'solution' of social distancing, masks and a maniacal phobia with germs are actually making people mentally and physically ill.

You know you are getting scammed by 'highly-educated' school officials when they make really stupid arguments justifying no normal classes. A teen under the influence could refute them.

Covid supposedly has 'killed 232,000.' This is a lie - few have actually died from only Covid. And hardly any children are dying. In fact, youth are nearly immune and ill adults survive more than 99% percent of the time. For perspective, wrong medical procedures kill 250,000 people annually.

For the few children infected with the coronavirus, the risk of dying is extraordinarily low. Covid-19 patients under age 20 are 17 times more likely to die due to other causes than succumb to Covid.

School-aged children between 5 and 14 have a 1 in 200,000 chance of dying of influenza, but a 1 in 1.1 million chance of dying of Covid-19. Before Covid-19, health officers, school officials, and parents were just fine risking the flu, the 'common' cold, lice, ring worms, impetigo and broken bones to allow students to mix it up with their friends, be in clubs, compete in sports and get an education.

Kids are more likely to be killed traveling to school

(1 in 106), by a dog attack (1 in 118,776), choking on food (1 in 2,618), by a bee sting (1 in 46,562), drowning (1 in 1,121), by a sunstroke (1 in 7,770) or lightning (1 in 180,746).

Honest 'old school' scientists concur that like any 'common cold' for most all adults COVID-19 causes no symptoms or only a mild illness. However, older people with pre-existing medical conditions (high blood pressure, heart problems or diabetes) appear to be more vulnerable to serious outcomes from contracting Covid or many other ailments.

Teachers with compromised health are more susceptible to any malady and should consider early retirement if they now fear the campus. Again, the problem is that union-run schools are about teachers, not students. Healthy teachers unwilling to return to the classroom should be replaced.

On August 5, 1981, President Reagan fired 11,345 striking air traffic controllers who ignored his return-to-work order, and banned them from federal service for life.

At a recent Marysville Joint Unified School District board meeting administrator Rocco Greco reported that of 2013 Lindhurst and Marysville High Schools students, 1043 are below a 2.0 (and a 49% failure rate). While parents have been paying their property taxes for schools, and the teachers and staff have been fully-funded, students have been cheated educationally.

Most all parents and students hate distance learning and are floundering. Desperate, many seek alternative sources for schooling. None of this will likely move educrats except to ask for more money for doing nothing.

### By Dan Walters CALMatters

## Does More Money Mean Better Schools?

It's by no means certain that California voters will pass Proposition 15, but if they do, it would be the largest tax increase in the state's history.

That said, it would provide a relatively small down payment on the long-standing desire of the state's educational establishment for a massive increase in spending that's needed, advocates say, to improve California's rather dismal K-12 educational outcomes.

Proposition 15, largely sponsored by the California Teachers Association and other public employee unions, would increase property taxes on some commercial real estate, such as office buildings and hotels, by requiring their taxable values to be upgraded more often. Estimates of its effects vary somewhat, but generally are in the \$10 billion to \$12 billion per year range, with schools getting about 40% of the proceeds.

Those are big numbers, but the few billion extra dollars that would flow to schools are a fraction of the \$25 billion to \$30 billion more per year that unions and other educational groups have been touting. The increase is needed, they say, to make a real difference in academic test scores, high school graduation rates and other measures of academic attainment.

The number derives

from a 2018 report from a multi-university team of academic researchers saying that California should spend 38% more, or about \$4,000 per pupil per year, to raise overall achievement and close the "achievement gap" that separates poor and/or English-learner students from their more advantaged peers.

The 2018 report and much other academic drumbeating for higher education spending comes from Policy Analysis for California Education (PACE), a consortium of the state's major university schools of education.

As the campaign over Proposition 15 - basically a duel between public worker unions and business interests - entered its final stages, PACE issued another report to reinforce its advocacy for a big increase in school financing.

Its core is a series of charts comparing education spending in California to that of other major states and tracing what it says is a relative decline in California's commitment to schools.

Citing the global size of California's economy, the report laments that "California school funding - even before COVID-19 - was insufficient to meet educational goals and address the needs of students, particularly given the state's high cost of living. How can that be true? Why is education funding so low in California, despite its wealth and comparatively high tax revenues?"

The report's charts appear to be accurate as far as they

go. But they don't go far enough because they are confined to financial comparisons on the questionable assumption, also reflected in the 2018 study, that money automatically equates to educational achievement.

If PACE and other advocates of big increases in school spending were intellectually honest, they would not only compare spending levels to other states, but also compare how well they are faring vis-à-vis California in national academic testing results and other measures of attainment.

New York, for instance, is spending at least 50% more per pupil than California but its scores on the last batch of National Assessment of Educational Progress tests were virtually identical to California's - both being subpar. Meanwhile, many states that spend much less than California routinely score higher.

Regardless of Proposition 15's outcome, the never-ending debate on California education will continue, but it should be a debate about more than money. Some of the academic resources being devoted to persuading Californians to raise taxes for schools should be spent on exploring why outcomes elsewhere bear little or no relationship to how much money other states are spending.

Dan Walters has been a journalist for nearly 60 years, spending all but a few of those years working for California newspapers ★

## Rep. Garamendi Honors Yuba-Sutter Health Officer Dr. Phuong Luu

Dr. Phuong Luu, Yuba-Sutter Health Officer, was one of 37 recognized. Photos by Yuba County

### By Rachel Rosenbaum, Yuba County

**SACRAMENTO, CA** - (MPG) At his 7th annual Women of the Year event, Congressman John Garamendi (D-CA) honored 37 women from the Third Congressional District of California who are leaders and visionaries in their communities. The women have all made significant contributions to society through public service, business, education, and local advocacy. This year's ceremony was conducted virtually and included a conversation on the women's suffrage movement to commemorate the 100th anniversary of the 19th Amendment that was led by Dr. Ellen Hartigan-O'Connor of UC Davis.

"Every year I have the honor of recognizing the

achievements and service of these distinguished women, Garamendi said. "These leaders come from a variety of backgrounds, but every one of them has made a real difference to their communities and the people around them. It's a privilege to be able to honor them."

"As the COVID-19 pandemic has rippled through our nation, each of these women have worked tirelessly to serve their communities and help vulnerable populations weather this storm. Their service is deserving of recognition, and by receiving this award, their work will be commemorated and chronicled at the Library of Congress in Washington, DC," Garamendi continued.

"This year's Women of the Year ceremony also recognized the 100th anniversary of the ratification of the 19th Amendment. I thank Dr. Ellen Hartigan-O'Connor of the UC Davis History Department for her passionate and informative presentation on the topic, and for every participant in this event who reaffirmed their commitment to achieving a truly equitable and just society," Garamendi concluded.

This year's Women of the Year Event also

included a posthumous tribute and recognition of Neena Gill of Yuba City, who passed away in March of this year. Neena Gill will be remembered as a tireless community leader whose constant smile and ceaseless gratitude brought joy to all around her. A Punjabi immigrant, Neena was an integral part of the Yuba-Sutter community. She and her beloved husband Kash are known in the community for farming peaches, prunes, walnuts, and almonds.

"While battling her own battle with breast cancer, Neena continued her lifelong work of advancing women's health by raising over \$75,000 to procure a 3D Toma Imaging Machine for the local health center. Neena's relentless dedication will ensure access to early screenings for breast cancer, so that future patients can have an earlier diagnosis and a better chance of beating this deadly disease.

"Neena's legacy will continue to reverberate within the campus of Yuba Community College and the greater Yuba-Sutter area. It is my distinct honor to award posthumously the 2020 Woman of the Year Award to Neena Gill," Garamendi said. ★

## ANNUAL HOLIDAY BAZAAR & BAKE SALE at the THRIFT SHOP in BROWNSVILLE.

November 20th & 21st ~ 9 am to 3 pm

Pick up Thanksgiving goodies and pie(s).

Shop our Bazaar for holiday gifts and our store for something special.

# No Turkey for You!

*Continued from page 1*

- inhaler, medication or light-headedness).
- Singing, chanting and shouting are strongly discouraged, but if they occur, a face covering must be worn. And the singing should be quiet.
- Instrumental music is allowed but no wind instruments.

For some families, Thanksgiving will not include grandma and the children or siblings due to the three-family limitation. Imagine family members traveling for hours only to be restricted to a two-hour outdoor gathering without physical contact! What if it's hot or rains? Under these rules, the host must bear the weight of the entire meal because family cannot be inside to help.

For Gov. Newsom to think he has authority to micromanage a private family Thanksgiving dinner is the height of hubris. These restrictions are ludicrous.

Liberty Counsel is suing Gov. Newsom, who has banned ALL WORSHIP in much of California, on behalf of over 165 client churches. Our case is pending at the Ninth Circuit Court of Appeals. We have asked for the entire panel of judges to hear the case.

The court has now ordered Newsom to respond.

Pastor Ché Ahn, Harvest Rock Church, the staff and parishioners face daily criminal threats and huge fines every time they enter the church. Each criminal charge carries up to one year in prison. It is shocking to read the letter from the Pasadena Criminal Prosecutor to Pastor Ahn.

That pastors and Christians would face prison and fines for attending church sounds like something from North Korea. Yet, discrimination has now crossed over to persecution right here in America!

I frequently pray for our brothers and sisters who face criminal threats and fines for attending church, and even conducting Bible studies and worship in their private homes. California is not the only state in which this outrageous assault on the church and freedom to worship is occurring.

The fight for religious liberty is reaching new extremes. California's absurd worship and Thanksgiving restrictions are an example of how extreme the illegal, unconstitutional edicts from power-mad governors have become.

For more information see LC.org ★

# Yellow Fever Mosquito Detected In Oroville

**By Maritza Sandoval, Butte County MVCD**

**BUTTE COUNTY, CA (MPG)** - The Butte County Mosquito and Vector Control District (District) detected an invasive (non-native) species of mosquito on Wednesday, October 28th, 2020. The *Aedes aegypti*, commonly known as the yellow fever mosquito, was found in west Oroville, in the area of Oroville Dam Boulevard and Feather River Boulevard. The California Department of Public Health confirmed the invasive species detection.

“The District is working to evaluate the extent of the infestation and we plan to do everything we can to eradicate this mosquito and to protect our residents from the potential disease risk of these invasive mosquitoes,” said Matt Ball, District Manager. “Our goal is to control and eliminate this species of mosquito so that it does not become established in our community.”

The District utilizes a science-based, data-driven approach to mosquito control. This Integrated Vector Management approach will include immature surveillance and control that includes door to door inspections, as well as adult surveillance and control, which will include ultra-low

volume spraying, barrier treatments and a variety of live mosquito trapping.

The *Aedes aegypti* mosquito has been detected previously in Chico (Butte County) and other areas of California, but never in Oroville. *Aedes aegypti* have the potential to transmit viruses such as chikungunya, dengue, yellow fever, and Zika, that are not known to be transmitted by Butte County’s native mosquitoes.

The public plays a critical role in helping to control the spread of this mosquito population. “*Aedes aegypti* love to breed in small water-holding containers and prefer being in and around our homes. A breeding ground for this mosquito can be as small as a water bottle cap. Eliminating all standing water regardless of size is essential to effective control,” says Matt Ball.

Prevent *Aedes aegypti* development in your yard:

Inspect your yard for standing water sources and drain water that may have collected under potted plants, in bird baths, discarded tires, and any other items that could collect water; Check your rain gutters and lawn drains to make sure they aren’t holding water and debris; Check and clean any new containers that you bring home that may contain water. *Aedes*

*aegypti* eggs can remain viable under dry conditions for months.

As with all mosquito issues, native and non-native, the Butte County Mosquito and Vector Control District staff urges residents to take precautions to avoid mosquito bites by implementing the 4 Ds of protection:

Drain any standing water that may produce mosquitoes, this includes flowerpots, old tires, and buckets. Some species of mosquitoes can lay their eggs in very small sources of water, like a bottle cap; Defend yourself and your home by using an effective insect repellent and making sure screens on doors and windows are in good condition; Dusk or Dawn, avoid outside activities; Dress in long sleeves and pants when mosquitoes are active.

For information about invasive mosquitoes in California

[www.cdph.ca.gov/Programs/CID/DCDC/pages/Aedes-aegypti-and-Aedes-albopictus-mosquitoes.aspx](http://www.cdph.ca.gov/Programs/CID/DCDC/pages/Aedes-aegypti-and-Aedes-albopictus-mosquitoes.aspx)

For more information about the District’s services, invasive mosquitoes, West Nile virus, or new emerging mosquito-borne diseases, contact the Butte County Mosquito and Vector Control District at (530) 533-6038 or visit [www.ButteMosquito.com](http://www.ButteMosquito.com) ★

# BCSO Detectives Arrest Three Individuals for Two Murders that Occurred in the Oroville Area

**By Butte County Sheriff’s Office**

**OROVILLE, CA (MPG)** - On the evening of October 21, 2020, the Butte County Sheriff’s Office (BCSO) was contacted by family members of Jerry Bonds, age 39 and Randy Bonds, age 33, of Florida. The family members reported Jerry and Randy had flown from Florida to Los Angeles, rented a vehicle, and traveled to the Butte County area. The family members were concerned because they lost contact with Jerry and Randy after they arrived in the Butte County area. BCSO deputies and detectives immediately began conducting an investigation.

During the investigation that followed, BCSO detectives, Butte Interagency Narcotics Task Force detectives, BCSO Special Enforcement Unit detectives, Designated Area deputies, and Agents from the Chico FBI Office worked together and developed information that led them to believe Jerry and Randy were last in the area of Pondersoa Way, Forbestown. During a search of the aforementioned area, detectives located the bodies of Jerry and Randy in a wooded area. Detectives determined Jerry and Randy had both been shot.

Detectives worked with the Reno Police Department and located the vehicle Jerry and Randy had rented in the area of Boomtown, Nevada. Detectives traveled to Reno, worked with the Reno Police Department, and executed a search warrant at a residence in Reno. Detectives located additional evidence related to the murders of Jerry and Randy in the

Reno area.

Based on information obtained during the investigation, detectives identified Michael Griff, age 21, Austin Hogan, age 21, and Kyle Smith, age 24, as the individuals who murdered Jerry and Randy. Detectives determined Griff, Hogan, and Smith were residing at a residence on Coho Court, Oroville.

On October 22, deputies and detectives contacted Hogan and Smith during a traffic enforcement stop in the Kelly Ridge area of Oroville. Detectives obtained a search warrant for the Coho Court address, and an arrest warrant for Griff. On the afternoon of October 22, deputies with the BCSO SWAT team executed the search warrant. During the execution of the search warrant, Griff was contacted and placed under arrest. During a search of the Coho Court residence, detectives located additional evidence showing Griff, Hogan, and Smith were the individuals responsible for the murders of Randy and Jerry. Detectives are currently following-up on additional information regarding the circumstances of the murders.

On October 22, Griff, Hogan, and Smith were booked into the Butte County Jail. Griff, Hogan, and Smith were each booked for two counts of first degree murder. Griff, Hogan, and Smith are scheduled to be arraigned at the Butte County Superior Court on Monday, October 26, at 3 PM. The Sheriff’s Office is asking anyone with additional information about this investigation to contact Detective Tristan Harper or Detective Zach Price at 530-538-7671. ★

# BCSO Announces Child Endangerment Arrests

**Butte County Sheriff’s Office**

**MAGALIA, CA (MPG)** - On the evening of October 9, 2020, Butte County Sheriff’s Office (BCSO) deputies and detectives were contacted by a local hospital regarding a possible child abuse victim. Deputies and detectives responded to the hospital and determined a sixteen month old victim had been brought to the emergency room with severe burns. After receiving emergency treatment, the victim was transferred to a children’s hospital in the Sacramento area. The victim is in stable condition and is expected to recover from his injuries.

Deputies and detectives identified the victim’s parents as Jennelle Laye, age 39, and Jeremy Laye, age 47. Detectives determined Jennelle, Jeremy, and their three children reside in Magalia. Detectives conducted an extensive investigation. Detectives determined Jennelle and Jeremy left their children at their residence with a juvenile babysitter on the evening of October 8. Based on the investigation, detectives believe the child was burned as a result of a spill sometime

during the evening hours on October 8.

Detectives located evidence Jennelle and Jeremy returned to their residence in the early morning hours on October 9. Detectives located further evidence that despite being aware of the life-threatening injuries the victim sustained, Jeremy and Jennelle intentionally waited approximately 14 hours to take the victim to the hospital. Doctors and medical staff concluded the failure to provide the victim with immediate medical attention caused additional harm to the victim. Doctors also concluded the aforementioned subjected the victim to additional pain and suffering.

On October 20, detectives arrested Jennelle and Jeremy. Jennelle and Jeremy were booked into the Butte County Jail for a felony count of child abuse. Jennelle and Jeremy are scheduled to be arraigned at the Butte County Superior Court on Thursday, October 22, at 3 PM. The Sheriff’s Office is asking anyone with additional information about this investigation to contact Detective Mary Barker or Detective Zach Price at 530-538-7671. ★

## LOCAL FISHING

Berryessa Lake; Fall bite black bass. Plenty of shad bait on the surface, follow the birds to find the bass. Use: large 1 ½ oz shad colored spoons. (b) Folsom Lake; low water requires 5 MPH speed limit. Some 18” Kings in the South and Middle Fork channels. Use: Troll Dodgers with Speedy Shiners, or rolling anchorvies. (g) Sacramento River near Discovery Park; zero to 4 salmon per boat (7-9 lbs). Use: 11-inch flashers with Cut Plugs soaked in oil based tuna and anise oil. (g) **Fisherman’s Comment:** Keep that anise oil away from the youngsters, they love that licorice flavor. Signed, Grandad.

## COASTAL WATERS

Ducksbury Reef; Rock fish and ling cod. (b) Rock crabs (g) Party boats catching a few salmon, 1-fish per rod. One rare day, most party boats had 10-limits. (b)

## SAN FRANCISCO BAY- DELTA

Entire bay; the halibut bite is still good. (b) Delta; Broad Slough area turning out a few keeper stripers. Use: live minnows. Still lots of grass to contend with. (g)

## LAKES RESERVOIRS AND RIVERS

Lake Comanche; No trout plants yet. Water turn-over is beginning. Troll Broke-back Rapala, 0-35ft deep. Note, a bonus of crappie and spotted bass taking the Rapala. (b) Trinity River; Junction City producing ½ lb steelhead. Use: Swing Oct Caddis flies. (a) Davis Lake; limits of rainbows 17”-20. No bank fishing due to massive weed growth. Use: Cotton

Cotton Cordell Crazy Shad

Cordell Crazy Shad. Troll it at 1.2 MPH. (b) **Fisherman’s Comment:** Brownie, that Broke-back Rapala went out of vogue 30-years ago. Signed: Ole Man River. (b) Pyramid Lake; opens Nov 2, 2020. Call thePaiute Tribe office for permits. (Fee’s have increased drastically). (?) Sacramento River, Red Bluff. Flow of 5000 CFS, salmon on spawning redds and provides fodder for marauding fall run steelhead to “28 ½ -inches”. Use: Light fly fishing tackle with #10 Glow Bugs. (b) Fall River; premier rainbow trout venue. Use: #18 Pheasant Tail Nymph lead fly with a #22 Mayfly Nymph trailer, under an indicator. Side drift and cast quartering across the river to move the fly along the bottom. (b) Klamath River; Happy Camp steelhead. The spawn is underway at inflow creeks. Five to three pound adults, mixed with 12” to 20” ½ pounders. Use: Swing, weighted Brindle Bugs, or Silver Hiltons on 10’3” Spey rods. (b) **Fisherman’s Comment:** To use the spey rod as you described – you must set the hook within 1/60 th of a minute. Fly Fishing Guide.

APN: 019-623-001-000 TS No: CA08000263-20-1 TO No: 02-20018082 NOTICE OF TRUSTEE'S SALE (The above statement is made pursuant to CA Civil Code Section 2923.3(d)(1). The Summary will be provided to Trustor(s) and/or vested owner(s) only, pursuant to CA Civil Code Section 2923.3(d)(2).) YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED August 10, 2019. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDINGS AGAINST YOU, YOU SHOULD CONTACT A LAWYER. **On December 3, 2020 at 01:30 PM, At the front entrance to the County Courthouse, 215 5th St., Marysville, CA 95901**, MTC Financial Inc. dba Trustee Corps, as the duly Appointed Trustee, under and pursuant to the power of sale contained in that certain Deed of Trust recorded on August 16, 2019 as Instrument No. 2019-010409, of official records in the Office of the Recorder of Yuba County, California, executed by SAMUEL KHATOONIAN, AN UNMARRIED MAN, as Trustor(s), in favor of ATHAS CAPITAL GROUP, INC., A CALIFORNIA CORPORATION as Beneficiary, WILL SELL AT PUBLIC AUCTION TO THE HIGHEST BIDDER, in lawful money of the United States, all payable at the time of sale, that certain property situated in said County, California describing the land therein as: AS MORE FULLY DESCRIBED IN SAID DEED OF TRUST The property heretofore described is being sold "as is". The street address and other common designation, if any, of the real property described above is purported to be: **5693 SHIRES WAY, MARYSVILLE, CA 95901** The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the Note(s) secured by said Deed of Trust, with interest thereon, as provided in said Note(s), advances if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligations secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of this Notice of Trustee's Sale is estimated to be \$161,632.21 (Estimated). However, prepayment premiums, accrued interest and advances will increase this figure prior to sale. Beneficiary's bid at said sale may include all or part of said amount. In addition to cash, the Trustee will accept a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union or a check drawn by a state or federal savings and loan association, savings association or savings bank specified in Section 5102 of the California Financial Code and authorized to do business in California, or other such funds as may be acceptable to the Trustee. In the event tender other than

cash is accepted, the Trustee may withhold the issuance of the Trustee's Deed Upon Sale until funds become available to the payee or endorsee as a matter of right. The property offered for sale excludes all funds held on account by the property receiver, if applicable. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. Notice to Potential Bidders If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a Trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a Trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same Lender may hold more than one mortgage or Deed of Trust on the property. Notice to Property Owner The sale date shown on this Notice of Sale may be postponed one or more times by the Mortgagee, Beneficiary, Trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about Trustee Sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call Nationwide Posting & Publication at 916.939.0772 for information regarding the Trustee's Sale or visit the Internet Web site address listed below for information regarding the sale of this property, using the file number assigned to this case, CA08000263-20-1. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. Date: 10/20/2020 MTC Financial Inc. dba Trustee Corps TS No. CA08000263-20-1 17100 Gillette Ave Irvine, CA 92614 Phone: 949-252-8300 TDD: 866-660-4288 Dalaysia Ramirez, Authorized Signatory SALE INFORMATION CAN BE OBTAINED ON LINE AT [www.nationwideposting.com](http://www.nationwideposting.com) FOR AUTOMATED SALES INFORMATION PLEASE CALL: Nationwide Posting & Publication AT 916.939.0772 Trustee Corps may be acting as a debt collector attempting to collect a debt. Any information obtained may be used for that purpose. NPP0371851 To: TERRITORIAL DISPATCH 10/30/2020, 11/06/2020, 11/13/2020

## NOTICE OF PUBLIC HEARING BEFORE THE YUBA COUNTY PLANNING COMMISSION

**NOTICE IS HEREBY GIVEN** that a public hearing will be held before the Yuba County Planning Commission on **Wednesday, November 18, 2020, at 6:00 p.m.**, or soon thereafter. In compliance with California Executive Orders N-25-20 and N-29-20 (March 17, 2020), members of the Planning Commission and members of the public will participate in the meeting by teleconference via Go To Meeting.

### Join Go To Meeting

**Web Meeting:** <https://global.gotomeeting.com/join/756077253>  
**Access Phone Number:** United States +1 (224) 501-3412  
**Access Passcode:** 756-077-253

The Yuba County Planning Commission will consider the following:

**Ordinance Amendment OA2019-0001 (Minor edits to the Development Code & Zoning Map):** The applicant, Yuba County, is requesting a recommendation of an Ordinance Amendment to make minor amendments, modifications, and corrections to the County of Yuba's Development Code (DC), Official Zoning Map of the County of Yuba (Zoning Map), and associated land use regulations. The Project components are designed to implement the County's 2030 General Plan and to be consistent with state statute.

General Plan and Zoning designations affected by Ordinance Amendment OA2019-0001: Countywide, applicable to all land within the unincorporated area of the County. Thus, the Project applies to the following General Plan designations: Valley Neighborhood, Rural Community, Natural Resources, Public/Quasi-Public, Commercial Mixed Use, Employment, Employment Village, and Planning Reserve. The Development Code and Zoning Map update will update existing zoning designations consistent with the 2030 General Plan; therefore OA2019-0001 applies to all zoning designations within unincorporated Yuba County. The Project does not include any development proposal.

A determination has been made that the above referenced project is exempt or categorically exempt from environmental review pursuant to the California Environmental Quality Act (CEQA) Section 15183. Projects consistent with the development density established by existing zoning, community plan, or general plan policies for which the 2030 County of Yuba's General Plan EIR was certified shall not require additional environmental review

Any person wishing to testify at the Planning Commission hearing on the project referenced above may attend by teleconference via **Go To Meeting** at the prescribed time and place, or may submit written comments to the Community Development and Services Agency: Planning Department at 915 8th Street, Suite 123, Marysville, CA 95901. The project files are available for inspection at the same address.

The Planning Commission's action on the project may be appealed by any interested person to the Board of Supervisors by filing a written appeal with the Clerk of the Board within 10 days following the Planning Commission's action on the project. Please note, the Commission's action on this project is solely a recommendation to the Board of Supervisor's which must also hold a public hearing on the project. If you challenge the action of the Planning Commission or Board of Supervisors regarding this matter in court, pursuant to Government Code section 65009 you may be limited to raising only those issues you or someone else raised at the Public Hearing described in this notice, or in written correspondence delivered to the Planning Department at, or prior to the Public Hearing.
