Yuba-Sutter-Colusa United Way

MARYSVILLE, CA (MPG) - The 14th Annual Yuba-Sutter-Colusa Turkey Drive is underway this week with a goal of collecting 600+ turkeys and hams and \$12,000 in cash to serve up to 5000 local residents in need. All proceeds go to 17 local organizations providing holiday dinners and food baskets, as well as local food closets providing food to those in need during the holidays.

"We are facing an uphill battle for this Turkey Drive year, with the COVID-19 pandemic causing meat prices to increase and turkey production to decrease," said Yuba-Sutter-Colusa United Way Executive Director Bob Harlan.

"And, because of the pandemic's effect on the economy and jobs, the

actual demand from our 17 benefitting organizations receiving the donations is up sharply," said Harlan.

Last year, the drive raised 549 turkeys and hams, along with cash donations exceeding \$11,275 used to purchase additional hams, turkeys and other holiday dinner foods. Overall, 1596 hams and turkeys were distributed! An estimated 5000 residents of Yuba, Sutter and Colusa counties benefitted from the drive. 100% of all donations are shared with 17 local churches, food closets and other organizations feeding the hungry.

The annual holiday project is organized by Yuba-Sutter-Colusa United Way, Results Radio stations (1600 & 98.1 KUBA, Power 95.5 and Country 103.1) and presenting sponsor, Golden Valley Auto Body.

If you would like to give cash you

can make a cash donation several ways: Text TURKEYS to 41444; or online: at www.yscunitedway.org (click on "Events"); or call (530) 743-1847, M-F, 8:30 am - 4:00 pm to pay by credit/debit card over the phone. Checks can be made payable to YSCUW, P.O. Box 122, Marysville, CA 95901.

100% of all donations will be distributed by the following agencies: Bethel AME Church; Casa de Esperanza; Catholic Ladies Relief Society; Central Valley Homeless Veterans; Christian Assistance Network; Crossroads Community Church; First Presbyterian Church; Foothill Food Pantry; Marysville First United Methodist Church; Ministerial Association of Colusa; Olivehurst Seventh Day Adventist Church; So You Can; St. Andrew Presbyterian Church; St.

Butte County COVID Data Trending Red

By Danette York, MPH Director

BUTTE COUNTY, CA (MPG) - Butte County Public Health urges residents to take action to prevent COVID-19 as current case and test positivity rates, as monitored by the State's Blueprint for a Safer Economy, are trending higher. If this trend continues, Butte County will likely move back to Tier 2 (red) by November 17, 2020.

Moving back to Tier 2 would place more restriction on businesses and activities that have been able to increase indoor operations since being in Tier 3 (orange) on October 20, 2020. This move would also require some business to close all indoor operations.

This week, BCPH also announced the first death in a person in their 20's with no underlying health conditions. This is a sad and stark reminder that COVID-19 can affect anyone, no matter their age. BCPH also reported the biggest increase in cases among people ages 0-17, with 12 cases reported over the weekend. An additional 21 cases were reported among people ages 18-24. This increase in cases among school age children and young adults comes just nine days after the Halloween holiday. BCPH learned through case investigation that cases are connected to in-person education and through small-medium sized gatherings including, but not limited to weddings, funerals and Halloween celebrations.

"I am very concerned to see an increase in cases among some of our youngest residents as we head into colder weather, flu season and holiday celebrations. This is a critical time in the pandemic, please do your part to stop the spread of COVID-19," stated Dr. Robert Bernstein, Butte County Health Officer. "Until there is a safe, effective, FDA approved and available vaccine, the only defense we have against COVID-19 is proper use of non-pharmaceutical interventions (of "NPIs") - cover your mouth and nose with a mask when in public places, wash your hands with soap and water, maintain six feet of distance from others, stay home if you are sick and only attend gatherings that are in compliance

CHP Welcomes New Officers Equipped with Real-Life Experience

By Jaimee Coffee, CHP

SACRAMENTO, CA (MPG) - The California Highway Patrol (CHP) congratulates its 77 new officers who were sworn in today during an unprecedented socially distant graduation ceremony at the CHP Academy. The graduating class begins their new career with more hands-on experience than any class in Academy history.

As concerns of the COVID-19 pandemic intensified, the CHP closed its live-in Academy in West Sacramento on March 20, 2020. All cadets were sent home and assigned to work in CHP Area offices located as close to their residences as practicable. Prior to leaving, the seven women and 70 men of Cadet Training Class (CTC) III-19, who started October 21, 2019, had completed

23 weeks of their 29-week training at the Academy.

During the six months spent working in CHP Area offices throughout the state, cadets had an unprecedented opportunity to observe a wide variety of activities and tasks, enhancing their classroom

work. On ride-alongs with officers, they experienced a CHP officer's shift in the field and learned firsthand how to complete crash reports and assist the public. They also learned the administrative side of the job - filing reports, answering the phone, and

performing general tasks that may be unfamiliar to many officers. On September 14, 2020, all members of CTC III-19 who left in March returned to the Academy for their final weeks of training with enhanced health and safety

News Outlook

By Josh F.W. Cook

The most notable event in November is not the national elections; indeed, November’s significant event is Thanksgiving. I have decided to dedicate each column this month to giving thanks and being grateful. To get ready for Thanksgiving, I thought it best to re-introduce some history that may not be as widely known as it used to be. Borrowing some salient points in the timeline from the History Channel - We go back to 1620 and the first brutal winter in America. Most of the Mayflower colonists remained on board their ship; there, they suffered from exposure, scurvy, and outbreaks of contagious disease. Only half of the Mayflower’s original passengers and crew lived to see their first New England spring. In March, the remaining settlers moved ashore, where they received an astonishing visit from an Abenaki Indian who greeted them in English. Several days later, he returned with another Native American, Squanto, a member of the Pawtuxet tribe kidnapped by an English sea captain and sold into slavery before escaping to London and returning to his homeland an exploratory expedition. Squanto taught the Pilgrims, weakened

by malnutrition and illness, how to cultivate corn, extract sap from maple trees, catch fish in the rivers and avoid poisonous plants. He then proceeded to help the pilgrims negotiate a peace treaty with the Wampanoag Tribe upon whose land they had set up their settlement. Sometime in November 1621, after the Pilgrims’ first corn harvest proved successful, Governor William Bradford organized a celebratory feast and invited a group of the fledgling colony’s Native American allies, including the Wampanoag Chief (they called him King) Massasoit. Contrary to modern custom, they did not eat Turkey; they ate Deer. During the American Revolution, the Continental Congress designated one or more days of Thanksgiving a year. In 1789 President George Washington issued the first Thanksgiving proclamation by the national government of the United States; in it, he called upon Americans to express their gratitude for the happy conclusion to the country’s war of independence and the successful ratification of the U.S. Constitution. Similarly named festival holidays occur in Germany and Japan. Thanksgiving is celebrated on the second Monday of October in Canada and on the fourth Thursday of November in the United States and Brazil (I bet that is a giant party).

One gives thanks when they feel gratitude. Imagine for a moment if you were freezing cold and starving in a strange land clear across a massive ocean and

out of the forest walks and Indian who somehow had learned English and wanted to help you learn how to eat in his territory. Would you not be amazed? Can you imagine the letters that these people wrote home to their family members trying to describe their suffering, how half the friends that came with them had died in the first year, and the absolute miracle that somehow, a kind English speaking Indian happened to be where you landed? Recognizing that Pilgrims were in North America at this point in history was because they were fleeing religious conflict they clearly saw in this peculiar series of events, the hand of God helping them. They felt as if they were delivered from death and that their prayers were being answered. To the Pilgrims, they looked at the odds of such a miracle as another example of God intervening to help them out. Because of this, they were filled with gratitude to God and declared a day of celebration, a day to give thanks to God for delivering them. So as we prepare for large scale Turkey dinners, football games, time off, and hopefully time with family, we might want to reconnect to the core function of Thanksgiving - being grateful and giving thanks. The News Outlook columns for November will be focused on understanding and applying gratitude.

The Brownsville Bailiwick & Beyond

Yuba Feather Next Step is hoping to publish a small cookbook of ways to get yourself a healthy, simple meal. A new Solo cook is tempted to skip meals, eat snacks or foods that are less than healthy, because of time constrictions, no recipes made for one person, or just lack of no-how. We are asking people to bring some good ideas by Books & More and we will put these ideas together into a small cooking pamphlet: Lifesavers for Solo Cooks. We will see how that idea comes together.

We are so glad to have the right to vote, but we are also glad when it is finished. Once winners are declared, it will be our job to work with the winners and do our best to make democracy work. The television ads will be gearing up for the holidays now. How to celebrate without parties and large family gatherings will be a challenge. It will be hard to Zoom and open Christmas gifts, just not the same. It is tempting to just pass the day by, ignoring the reason for the special day.

Christmas in the Foothills has been cancelled

this year but Brownsville merchants are planning “A Brownsville Christmas” event. It will be held on December 5 th and 6 th and will include Foothill Fire Department Thrift Shop, 16822 Willow Glen Rd., Brownsville Mercantile, 16838 Willow Glen Rd., Books and More, 16852 Willow Glen Rd., Mountains Top Coffee Shop, 16911 Willow Glen Rd., Mountain Christmas Peddler’s Fair / Potato Bar, 17103 Ponderosa Way, and Brownsville Station Café, 8570 La Porte Rd. There will be Christmas gift specials, stocking stuffers, food, beverages and plenty of Christmas delights. Bring the whole family and spend the day in the beautiful pines. No crowds, plenty of parking and fresh air. There will be more info as the event develops.

Look Back in Time – In 1914 Challenge Hotel, owned by Dr. J. Van Male, burned to the ground in the early morning hours, a great loss to the town and to travelers (those first fall wood fires can be dangerous, even today).

Hope to see you in Brownsville soon

What’s that? 530 Plant Share and Exchange

By Seti Long

GRIDLEY, CA (MPG) - An exciting new group is growing on Facebook – 530 Plant Share and Exchange.

Founder Breana Marubashi shared that during the initial months of the COVID lockdown, she developed a love for taking cuttings, growing plants –mostly succulents and cacti, and trading them with other plant-lovers on Facebook marketplace. She was inspired to start 530

Marubashi continues to expand opportunities for her group members and has networked with local nurseries, some that are relatively new startups, to act as group sponsors and donate prizes for weekly giveaways. A large 10-round giveaway has been planned for when the groups hits its namesake “530” membership mark, which it surpassed last week. The giveaway is being sponsored by local nurseries, with 10 prizes being donated.

If you do not have Facebook, don’t despair. Marubashi says that 530 Plant Share and Exchange is planning a social-distancing plant share event at Cana Hill Farm nursery in Chico November 15th from 10am – noon. “People can bring their plants, clipping, anything they’d like to trade....” says Marubashi and enter a raffle for a chance to win a \$20 Cana Hill Farms gift certificate. Anyone interested in the group is invited to attend and connect with fellow plant lovers. ★

Recall Newsom Campaign is Extended 120 Days

Commentary
by Lou Binner

California’s Secretary of State granted the ‘Recall Gavin 2020’ campaign (recallgavin2020.com) an additional 120 days for signature gathering to force a special election. Californians already made recall history in October 2003 by removing Governor Gray Davis from office.

North Dakota citizens also removed Gov. Lynn Frazier in 1921 according to the Center on the American Governor at Rutgers University’s Eagleton Institute of Politics, but that is it, only 2 recalled governors in the nation’s history. However, gubernatorial recall attempts have been popular in California. Every governor elected since 1968, including Ronald Reagan, was targeted by recall attempts according to the center’s website.

Nineteen states permit recall elections for governors and other state officials, including Alaska, Arizona, California, Colorado, Georgia, Idaho, Illinois, Kansas, Louisiana, Michigan, Minnesota, Montana, Nevada, New Jersey, North Dakota, Oregon, Rhode Island, Washington, and Wisconsin the center says. The District of Columbia also permits recall elections, and Virginia allows recall by trial.

Not only are successful recalls extremely rare

but it would be history-making to have one state, California, remove two governors. The ‘Recall Gavin 2020’ effort now has until March 10, 2021 to submit 1,495,709 signatures of registered voters.

Recall leader Orrin Heatlie says that the campaign has verified more than 700,000 signatures and has 5,000 experienced volunteers circulating petitions. Not too bad considering the media censored coverage and a do-nothing Republican Party.

Usually petition drives pay people to obtain signatures. However, the Recall Gavin campaign uses all volunteers and no effort of this type has secured so many signatures.

The Recall campaign’s website provides petitions that can be printed, circulated and mailed to Recall headquarters. An instructional video on the site explains the steps to properly obtain signatures. Heatlie says, “We need people to stop being keyboard warriors and start to be clipboard warriors.”

For those interested in swapping the keyboard for a clipboard get a direct link to each county’s Recall web page at recallgavin2020.com/county/yuba/ and replace “yuba” with your county’s name. That will show contact information for that county’s coordinator.

Is the Republican Party dead in California? It seems to be, particularly in Yuba-Sutter Counties where pettiness and control-freaks soured most folks on having a Central Committee. Nationwide, as thirteen Republican Pro-life ladies were getting elected to the U.S. Congress last week many California ‘Conservatives’ can’t decide whether

permitting a preborn child to live is a right move?

The so-called California ‘Conservatives’ finally got around to endorsing the Recall Gavin effort but not providing any funding. A few years ago, state conservative leaders intentionally undermined the 3rd District Congressional campaign of Republican Assembly Minority Whip Dan Logue against Congressman John Garamendi. Now, Garamendi will likely have the post until he passes.

Their partisan vendetta with Logue had them recommending ultra-liberal Garamendi rather than the conservative Assembly member. California Republican Party leaders reap what they sow preferring a club to a movement where they don’t get a personal halo. So, now there are so few “R” legislators in Sacramento they’re on the endangered species list.

Few or many, the pay is still the best in the nation (\$114,877 salary, 53 cents per mile and \$206 per diem each day.)

Maybe it will make no difference to the voters in a recall election how egregious the Constitutional violations of Newsom. The criminal and unethical behavior of Biden and Harris has served them well. In terms of a movement Conservatives, like most churches have rendered themselves non-essential and not-a-factor.

What the state needs is not a political wake-up but a spiritual awakening to ignite a new movement in California where leaders do what is right instead of being in the club of the right.

DWR Releases Oroville Dam Comprehensive Needs Assessment Summary Report

The CNA was conducted in parallel to other Oroville Dam safety review efforts required by the Federal Energy Regulatory Commission. Photo: Kelly M. Grow / California Department of Water Resources

By Ryan Endean,
Department of Water Resources

SACRAMENTO, CA (MPG) - The Department of Water Resources (DWR) has published a summary report on the Oroville Dam Safety Comprehensive Needs Assessment (CNA), initiated in January 2018 to identify dam safety and operational needs following reconstruction of the spillways damaged in February 2017.

A team of experts, including an Independent Review Board (IRB) of dam safety experts, determined that the Oroville Dam Complex is safe to operate and no urgent repairs are needed. Since conditions can change over time, DWR will conduct ongoing monitoring and assessment to maintain the safety and reliability of the complex.

“Public safety is at the core of DWR’s mission, and we are committed to continually evaluating the performance and safety of State Water Project facilities, including Oroville Dam,” said DWR Director Karla Nemeth. “The Comprehensive Needs Assessment report is an important step in our efforts to ensure the ongoing safety and reliability of facilities that provide water and flood control for millions of Californians.”

The CNA identified several risk-reduction projects that DWR already is moving to implement, including installation of new water pressure measurement devices to improve seepage monitoring and completion of a state-of-the-art seismic stability analysis. DWR also is planning to implement recommendations to raise Parish Camp Saddle Dam by three feet, line Palermo Canal to reduce leakage and improve rock slope stability, and install new remote starter and power connections to the spillway radial gates to improve reliability.

In addition, the CNA identified potential vulnerabilities that require further examination to better understand their actual risk.

The CNA report results are based on conditions known at this moment in time.

Excellence in dam safety requires continual monitoring, investigation and assessment to understand risks as well as actions to reduce those risks, recognizing that no public infrastructure is ever free of risk. This continual monitoring, investigation and assessment of the Oroville facilities will occur through the State Water Project’s Dam Safety Program to ensure the ongoing safety and reliability of these facilities.

The CNA team included engineers, hydrologists and other experts knowledgeable about Oroville Dam, as well as experts in risk analysis. An Independent Review Board (IRB) of dam safety experts provided oversight, and a community-led group of elected officials and stakeholder organizations and private citizens (known as the Ad Hoc group) provided input.

The CNA was conducted in parallel to other Oroville Dam safety review efforts required by the Federal Energy Regulatory Commission (FERC), including a Level 2 Risk Analysis conducted by independent experts. The results of the FERC and the CNA assessments will be used by DWR management to make risk-informed investment decisions across State Water Project infrastructure.

The summary report is available online on the Oroville Dam Safety Comprehensive Needs Assessment website.

DWR will continue to work with the Oroville Citizens Advisory Commission to seek input and coordinate future Oroville Dam activities related to construction, operations, maintenance, flood management, and public safety. The report will be presented to the Commission on Friday, November 13, 2020. That meeting will be held virtually. More information is available at <https://resources.ca.gov/Initiatives/Oroville-Dam-Citizens-Advisory-Commission>.

Plumas NF Claremont-Bear Fire Closure Area Reduced to Fire Perimeter

By Lee Anne Schramel,
U.S. Forest Service

QUINCY, CA (MPG) – Plumas National Forest officials have sharply reduced the closure area for the North Complex (Claremont/Bear Fire). The new closure now follows (generally) the actual fire perimeter and affects all national forest land, roads and trails within the fire closure area.

Persons exempt from the fire closure order include: 1) any Federal, State or local officer, or member of an organized rescue or fire fighting force in the

performance of an official duty; 2) persons with Forest Service Permit No. FS-7700-48 (Permit for Use of Roads, Trails, or Areas Restricted by Regulation or Order), specifically exempting them from this Order; 3) owners or lessees of land in the Claremont-Bear Fire Closure Area, to the extent necessary to access their land; and, 4) Persons with a permit from the Forest Service specifically authorizing the otherwise prohibited acts or omission.

A map of the closure area, and similar fire closures for the Sheep and Walker Fires, are available at: <https://www.fs.usda.gov/alerts/plumas/alerts-notice>. ★

Nevada County Fairgrounds Begins Search for 2021 Fair Slogan

By Wendy Oaks,
Nevada County Fairgrounds

NEVADA COUNTY, CA (MPG) - Given the unprecedented year of 2020, and in hopeful anticipation of the 2021 Fair, the Nevada County Fair theme for 2021 is all about optimism, resiliency, and coming together as a community. To find the perfect slogan for the 2021 Fair, the Fairgrounds is offering a slogan contest. Do you have an idea for a catchy or fun slogan that captures the spirit of the 2021 Fair theme? If so, submit it!

Visit the Fairgrounds website at NevadaCountyFair.com to submit a slogan. Submissions must be five words or less and trademarked slogans will not be considered.

The contest is open to Nevada County residents only and runs through November 27, 2020. No phone entries will be accepted. The winner of the slogan selected will receive a 2021 Nevada County Fair package that includes two free admission tickets for each day of the Fair, a 5-day parking pass for the Fair, and ride coupons.

Each year, the Fair slogan appears on advertisements, posters, banners and social media, and is used to inspire special contests, exhibit categories, and decorations for the Fair.

The 2021 Nevada County Fair is scheduled for August 11 – 15. For a complete list of contest rules and information, visit NevadaCountyFair.com or call (530) 273-6217. ★

YUBA COUNTY PET OF THE WEEK

BRUTUS

Hi, my name is Brutus (ID# A186570). I am an 8 year old Brindle Pit Bull mix that is currently searching for my new home. Due to me not having thumbs or a cell phone I am unable to be on any social media or dating sites, if you catch my drift. Thankfully the amazing staff at Yuba County Animal Care Services is helping me out by doing the search for me. Here is some information on me.

I love long walks in the grass and also enjoy having the ability to free roam. I am very quiet and shy when you first meet me but once you get to know me, you'll see how big of a cuddle bug I am. I know how to sit and stay, and I do love a good run around the yard. I do have to say I am still figuring out the concept of fetching, but trust me, this season hunk aims to please 'wink, wink'. I also want to add, once you come to meet me you will find that I will be the perfect family

What will a Biden Market look like and how might it be different had Trump been Reelected?

There would likely be similarities and differences no matter which way it went.

Both men believe in heavy spending and Trump utilized the full power of the printing press and the debt markets. The U.S. deficit skyrocketed under Trump even before CoVid-19 hit, and CoVid only exasperated the spending.

Under Biden, it is widely assumed spending will accelerate. Although Trump broke many spending records, Biden may blow those sky high addressing CoVid and the ailing economy with massive new programs.

Should CoVid continue to spread ferociously as it has been, the printing presses at the Fed (Federal Reserve) will be likely be on steroids. As a general rule, historically democrats advocate a looser fiscal policy stance than republicans. In recent decades however, both parties seem to have little concern about opening up the government check book.

The two mechanisms the government can fund spending and therefore accomplish economic stimulus is through fiscal and monetary policy.

Fiscal policy comes directly from the government in the way of tax regulation and spending programs like direct stimulus payments, infrastructure and other social assistant mechanisms.

Monetary funding is accomplished by the Federal Reserve (a private corporation run by a government agency called the Board of Governors) through interest rate manipulation, the debt markets, easing reserve requirements and other systemic operations that center around debt and out-right currency creation and application.

Under Biden, both monetary and fiscal policy is expected to accelerate. With a CoVid ailing economy and no end in sight to the shutdowns and scale backs, many businesses and individuals alike are bleeding red. Only massive amounts of government assistance will provide any semblance of normalcy to our economy. Whether amassing massive deficits is the long term solution for a sound economy is a story for another day

Sectors likely to benefit from Biden are anyone's guess but there are some common beliefs as to where the money will go.

Many believe government sponsored infrastructure programs will offer the job creation benefits so badly needed. Companies tied to construction and all its related conduits may be considered.

Healthcare may benefit from a renewed sense of urgency to fix the existing problems with the Affordable Healthcare Act (ACA) and those consumers stuck in between the public and private options.

Tariffs on foreign goods are expected to be rolled back under Biden and

foreign markets are already reacting to this assumption.

Bonds, which are just another word for debt, may sell off should the stock markets scream upwards, as investors opt for higher returns from stock growth in a rising market. There will also be a massive amount of debt that the U.S. will need to sell to fund its activities. More debt for sale means higher interest rates. Subsequently bonds may react negatively and sell off as bond prices and interest rates move opposite of each other.

Green energy may do well under a Biden administration. Hydrocarbon endeavors may or may not suffer as increased demand from spending projects and increased activity may partially offset the move to alternative energy and away from oil.

Sectors at risk under Biden might include financials as he attempts to placate constituents and their disdain for big banking. There is also Congressional headhunting taking place targeted towards the largest corporate players both in social media, high tech and online retailing. Although many believe it's mostly rhetoric, any serious talk about breaking up the large conglomerates will likely put pressure on these companies.

Many cross currents will be at work as the new President takes office so predicting anything for certain is a fool's game. Should CoVid continue its rise in infections, further shutdowns could slow or halt economic improvement.

No matter which way it goes, massive amounts of money are likely destined to be showered down on the public and private economies.

The typical outcome of that is inflation. Should inflation rear its ugly head, inflationary hedges like precious metals and other historical inflation shelters may see their day in the sun.

In conclusion, if we have learned anything in the year 2020, it's that anything can happen. And in 2020, it has.

Keep in mind, whenever we think we know what the market will do, it is famous for not cooperating.

Mayflower Compact is Now 400 Years Old

Commentary by Lou Binninger

Four hundred years ago this week, on November 11, 1620, 41 adult males aboard a small ship, just 9 years after the publication of the King James Bible, signed the Mayflower Compact, the first charter of freedom in America and showing the Christian heritage of our nation to come.

There were 102 passengers (74 male / 28 female) in all made up of 'Saints' (later called Pilgrims), 'Strangers' (non-Separatists), plus around 30 crew members. In view of the 'independent spirit of some,' it became evident to both Saints and Strangers that they needed to cooperate and sign an agreement to rule themselves, as they were going to settle in an area that was not within the purview of their patent (for Virginia). The Elder William Brewster, William Bradford, Edward Winslow, and the Pilgrims, along with the soldier Miles Standish and the Strangers agreed to sign a covenant before they landed to ensure representative self-government, by which all of them would be bound.

The Mayflower Contract reads:

"In the name of God, Amen. We, whose names are underwritten, the Loyal Subjects of our dread Sovereign Lord, King James, by the Grace of God, of England, France and Ireland, King, Defender of the Faith.

Having undertaken for the Glory of God, and Advancement of the

Christian Faith, and the Honour of our King and Country, a voyage to plant the first colony in the northern parts of Virginia; do by these presents, solemnly and mutually in the Presence of God and one of another, covenant and combine ourselves together into a civil Body Politick, for our better Ordering and Preservation, and Furtherance of the Ends aforesaid;

And by Virtue hereof to enact, constitute, and frame, such just and equal Laws, Ordinances, Acts, Constitutions and Offices, from time to time, as shall be thought most meet and convenient for the General good of the Colony; unto which we promise all due submission and obedience.

In Witness whereof we have hereunto subscribed our names at Cape Cod the eleventh of November, in the Reign of our Sovereign Lord..."

The ship intended for Virginia arrived about 200 miles north in what we now know as Massachusetts. The Mayflower had left England 65 days earlier on September 6, 1620.

The Pilgrims were Separatist Protestants who made a complete break with the Anglican Church of England during the reign of King James I. A small community of them in Scrooby, Nottinghamshire had begun to illegally meet together beyond the jurisdiction of the Anglican Church.

As Calvinists, they believed in strict adherence to the Bible. Led by their pastor John Robinson, they first moved in 1609 to Leiden, Holland, but, after eleven years, wanted a place of their own, fearful their children were losing their identity in the Dutch culture. The Pilgrims through William Brewster with the aid of Sir Edwin Sandys then received a patent to establish a colony in Virginia, but instead a miscalculation brought them to Cape Cod.

Some were dubbed Pilgrims by their fellow passenger and journalist William Bradford, who had in mind the Book of Hebrews 11:13-16, when he wrote - "They knew they were pilgrims, and looked not much on those things, but lifted up their eyes to the heavens, their dearest country, and quieted their spirits." They wished to live a pious community life, as the Apostles in the New Testament of the Bible.

Religious life had been brutal in the Old World. Reading the Bible for yourself could get you burned at the stake. Not attending church could bring a fine. Baptizing an adult could lead to death. If you were a professing Christian with faulty doctrine you could be slit open or branded.

David Barton of WallBuilders recounts how one English monarch dealt with Christians opposing his religion and how it operated.

Barton explained, "The king said 'I'm tired of you guys criticizing me.' So to 10,000 of them, he chopped off their ears, slit their nose, sliced their tongue, and said 'let's hear you say something now.'"

Forbidden private Bible studies were raided and people arrested. State religion without Jesus is just plain mean and often fatal.

Half of the colonists did not survive the first winter at Plymouth Rock, including their first governor John Carver. William Bradford was then elected governor in the spring of 1621. No coffee bars and Zumba classes for the Pilgrims.

Today, four hundred years later most churches, now considered 'nonessential' in America, willingly bowed to the government to close their buildings, stay indoors, and cover their faces.

Detectives Arrest Three Individuals for Two Murders in the Oroville Area

By Butte County Sheriff's Office

OROVILLE, CA (MPG) - On the evening of October 21, 2020, the Butte County Sheriff's Office (BCSO) was contacted by family members of Jerry Bonds, age 39 and Randy Bonds, age 33, of Florida. The family members reported Jerry and Randy had flown from Florida to Los Angeles, rented a vehicle, and traveled to the Butte County area. The family members were concerned because they lost contact with Jerry and Randy after they arrived in the Butte County area. BCSO deputies and detectives immediately began conducting an investigation.

During the investigation that followed, BCSO detectives, Butte Interagency Narcotics Task Force detectives, BCSO Special Enforcement Unit detectives, Designated Area deputies, and Agents from the Chico FBI Office worked together and developed information that led them to believe Jerry and Randy were last in the area of Pondersoa Way, Forbestown. During a

search of the aforementioned area, detectives located the bodies of Jerry and Randy in a wooded area. Detectives determined Jerry and Randy had both been shot.

Detectives worked with the Reno Police Department and located the vehicle Jerry and Randy had rented in the area of Boomtown, Nevada. Detectives traveled to Reno, worked with the Reno Police Department, and executed a search warrant at a residence in Reno. Detectives located additional evidence related to the murders of Jerry and Randy in the Reno area.

Based on information obtained during the investigation, detectives identified Michael Griff, age 21, Austin Hogan, age 21, and Kyle Smith, age 24, as the individuals who murdered Jerry and Randy. Detectives determined Griff, Hogan, and Smith were residing at a residence on Coho Court, Oroville.

On October 22, deputies and detectives contacted Hogan and Smith during a traffic enforcement stop in the Kelly Ridge area of Oroville. Detectives

obtained a search warrant for the Coho Court address, and an arrest warrant for Griff. On the afternoon of October 22, deputies with the BCSO SWAT team executed the search warrant. During the execution of the search warrant, Griff was contacted and placed under arrest. During a search of the Coho Court residence, detectives located additional evidence showing Griff, Hogan, and Smith were the individuals responsible for the murders of Randy and Jerry. Detectives are currently following-up on additional information regarding the circumstances of the murders.

On October 22, Griff, Hogan, and Smith were booked into the Butte County Jail. Griff, Hogan, and Smith were each booked for two counts of first degree murder. Griff, Hogan, and Smith are scheduled to be arraigned at the Butte County Superior Court on Monday, October 26, at 3 PM. The Sheriff's Office is asking anyone with additional information about this investigation to contact Detective Tristan Harper or Detective Zach Price at 530-538-7671. ★

Butte County Sheriff's Office Announces Child Endangerment Arrests

Butte County Sheriff's Office

MAGALIA, CA (MPG) - On the evening of October 9, 2020, Butte County Sheriff's Office (BCSO) deputies and detectives were contacted by a local hospital regarding a possible child abuse victim. Deputies and detectives responded to the hospital and determined a sixteen month old victim had been brought to the emergency room with severe burns. After receiving emergency treatment, the victim was transferred to a children's hospital in the Sacramento area. The victim is in stable condition and is expected to recover from his injuries.

Deputies and detectives identified the victim's parents as Jennelle Laye, age 39, and Jeremy Laye,

age 47. Detectives determined Jennelle, Jeremy, and their three children reside in Magalia. Detectives conducted an extensive investigation. Detectives determined Jennelle and Jeremy left their children at their residence with a juvenile babysitter on the evening of October 8. Based on the investigation, detectives believe the child was burned as a result of a spill sometime during the evening hours on October 8.

Detectives located evidence Jennelle and Jeremy returned to their residence in the early morning hours on October 9. Detectives located further evidence that despite being aware of the life-threatening injuries the victim sustained, Jeremy and Jennelle intentionally waited approximately 14 hours to

take the victim to the hospital. Doctors and medical staff concluded the failure to provide the victim with immediate medical attention caused additional harm to the victim. Doctors also concluded the aforementioned subjected the victim to additional pain and suffering.

On October 20, detectives arrested Jennelle and Jeremy. Jennelle and Jeremy were booked into the Butte County Jail for a felony count of child abuse. Jennelle and Jeremy are scheduled to be arraigned at the Butte County Superior Court on Thursday, October 22, at 3 PM. The Sheriff's Office is asking anyone with additional information about this investigation to contact Detective Mary Barker or Detective Zach Price at 530-538-7671. ★

If Trump concedes election, Republicans will ‘never’ elect another president | 08 Nov 2020 | Sen. Lindsey Graham (R-S.C.) warned that President Trump should not concede defeat in the 2020 presidential election in part because Republicans will “never” be able to elect another president from their party again. “If Republicans don’t challenge and change the U.S. election system, there will never be another Republican president elected again,” Graham said Sunday on Fox News. “President Trump should not concede. We’re down to less – 10,000 votes in Georgia. He’s going to win North Carolina. We have gone from 93,000 votes to less than 20,000 votes in Arizona, where more – more votes to be counted.” Every major news network and The Associated Press on Saturday projected Joe Biden as the winner of the 2020 race for the White House. Trump has said he will not concede, alleging widespread voter fraud led to tens of thousands of illegal ballots being cast against him.

Rep. Doug Collins to lead Trump campaign’s Georgia recount effort | 08 Nov 2020 | Georgia Rep. Doug Collins – who just lost his bid for a Senate seat – will lead the Trump campaign’s recount effort in the state that was too close to call. The move was announced Sunday night and the recount in The Peach State will begin when “the canvassing has concluded,” according to President Trump’s campaign. “Republicans stand by the ideal that every eligible voter should be able to vote legally and have it be counted,” Collins said in a statement. Collins and the Trump campaign both claimed that ballots were “improperly harvested” in Georgia.

Trump Campaign to Name David Bossie to Lead Legal Election Fight - Report | 06 Nov 2020 | President Donald Trump’s re-election campaign is expected to name seasoned conservative operative David Bossie to lead its post-2020 presidential election legal efforts, according to reports. The *New York Times*, CBS News, and ABC News all reported the development Friday afternoon as the Trump campaign continues to wage legal battles in key battleground states over concerns of voter fraud and inadequate observation of ballot counting in the November 3rd election.

Candace Owens targets Facebook 3rd-party fact-checkers with lawsuit | 06 Nov 2020 | Conservative activist Candace Owens said Thursday that she plans to sue Facebook’s third-party fact-checkers over perceived censorship of her social media posts. “It is time to fact-check the fact-checkers,” Owens said in a video posted to her Twitter account. “I’m going to put these suckers through discovery and figure out what the relationship is that they have with Facebook.” Owens gave an example of an instance that she alleged crossed the line. “Quite literally a doctor gave his opinion about COVID-19, which I shared, and Facebook issued a strike on my account because they said only information that they agree with about COVID-19...was acceptable,” she said.

Supreme Court Orders Pennsylvania to Separate Late-Arriving Ballots – Alito orders that ‘all such ballots, if counted, be counted separately’ | 07 Nov 2020 | U.S. Supreme Court Justice Samuel Alito late Friday ordered Pennsylvania election officials to segregate and separately count ballots that arrived after Election Day. Alito granted a request by the state’s Republican party to separate mail-in ballots received between 8 p.m. Nov. 3 and 5 p.m. Nov. 6 from those that arrived by 8 p.m. Nov. 3, in accordance with state guidance. He ordered that those segregated ballots must be kept “in a secure, safe and sealed container separate from other voted ballots.” The justice, however, did not order the counties to stop counting but instead ordered “all such ballots, if counted, be counted separately.” Alito also directed any responses to the application by 2 p.m. Nov. 7. The Republican Party of Pennsylvania had filed a request earlier on Friday asking the court for an order to log, segregate, and not take any actions over mail-in ballots received after Election Day.

Two ‘Bomb Threats’ Force Trump Supporters to Move Locations of Detroit Rally; Detroit Police Arrest Trump Unity Bridge Driver, Falsely Accuse Him of Having Two Outstanding Warrants | 06 Nov 2020 | WalkAway founder Brandon Straka and other local Michigan grassroots groups organized a rally to show their support for President Trump in front of the TCF Center in Detroit, where the process of ‘counting’ absentee ballots took place for the past 3 days. Shortly after Trump supporters arrived, they were told by Detroit Police that they had to leave because there was a bomb threat at the TCF Center. The group moved to the Detroit City Hall, where they reorganized and began to show their support for President Trump when they were told to move AGAIN because there was another bomb threat... Avid Trump supporter Scott Hagerstrom was with Rob Cortis, when he arrested. Hagerstrom told us that although the police told them there was a bomb threat at Detroit City Hall, none of the workers inside City Hall were being evacuated.

Fixed ‘computer glitch’ turns losing Republican into a winner in Oakland County | 06 Nov 2020 | (MI) A ‘computer error’ led election officials in Oakland County to hand an upset victory Wednesday to a Democrat, only to switch the win back to an incumbent Republican a day later. In Oakland County’s 15th County Commission District – representing Rochester and Rochester Hills – the initial count gave a 104-vote margin to the Democrat, Melanie Hartman, amounting to a razor-thin majority of 50.08%. That stunned the incumbent, Adam Kochenderfer, giving him a sure sense that he’d lost in a district long deemed a Republican stronghold. “Apparently, there was a technical glitch in Rochester Hills. And so I actually ended up winning by a little over 1,100 votes,” said a chuckling Kochenderfer. The margin was 1,127 votes, to be exact. That gave him a 51.67% share of the total (with 48.23% going to his opponent, Hartman).

GOP Claims Software Error Switched 6,000 Republican Votes to Democratic, Used in 47 Michigan Counties | 06 Nov 2020 | Republican National Committee Chairwoman Ronna McDaniel and other GOP officials said the fight over the presidential election isn’t over, saying that 47 counties in Michigan may have used software that was detected to have allocated votes to Democrat Joe Biden instead of President Donald Trump in one county. “In Antrim County, ballots were counted for Democrats that were meant for Republicans causing a 6,000-vote swing against our candidates,” Michigan GOP Chairwoman Laura Cox said in a news conference Friday. “The county clerk came forward and said tabulating software glitched and caused a miscalculation of the votes.” Cox added: “Since then, we have now discovered that 47 counties use this same software in the same capacity. Antrim County had to hand count all of the ballots, and these counties that use this software needs to closely examine their results for similar discrepancies.”

New blacklist of ‘Trump sycophants’ inspired by AOC being compiled | 06 Nov 2020 | At the behest of ‘squad’ member and New York Congresswoman Alexandria Ocasio-Cortez (D), a blacklist of “Trump sycophants” – entitled “The Trump Accountability Project” – is archiving the names of individuals who “elected, served, funded, supported, and represented” President Donald Trump. “Is anyone archiving these Trump sycophants for when they try to downplay or deny their complicity in the future? I foresee decent probability of many deleted Tweets, writings, photos in the future,” the US representative tweeted Friday afternoon. “Yes, we are,” answered former Obama administration staffer Michael Simon, citing the Trump Accountability Project. “Every Administration staffer, campaign staffer, bundler, lawyer who represented them – everyone.” On the website’s landing page, it urges that “[w]e must never forget those who helped further the Trump agenda.” The site is a self-described “permanent record” of those who elected the president, including Trump campaign staffers, Republican National Committee members, and affiliated PACs in 2016 or 2020.

Nevada Republican Party sends criminal referral to DOJ alleging thousands of cases of voter fraud | 05 Nov 2020 | The Nevada Republican Party announced Thursday evening that it has sent a criminal referral to U.S. Attorney General William Barr with allegations that the state had 3,602 cases of voter fraud. The criminal complaint comes as news outlets have yet to announce a projected winner in the race between President Trump and Democratic nominee Joe Biden, with the Trump campaign and the GOP having already filed multiple unsuccessful legal challenges in the Southwestern state. “Our lawyers just sent a criminal referral to AG Barr regarding at least 3,062 instances of voter fraud,” the Nevada Republican Party wrote in a tweet. “We expect that number to grow substantially. Thousands of individuals have been identified who appear to have violated the law by casting ballots after they moved from NV.” ★

YOUR ONE MINUTE NEWS DIGEST

by Don Rae

- Disney gets what it deserves. Disney executives have donated millions to Newsom, Brown and the Democrats. What did they get for their largess? Newsom has announced Disneyland will not open till next summer at the earliest. Disney has financed its own destruction. Now they are actively seeking to move to other States. Closing Disneyland will cost Orange County around \$5 billion. 28,000 have already lost their jobs. Do you remember that Khrushchev, dictator of the Soviet Union told us, “You will be hanged by the rope you sold to us.” Disney is being lynched by its own behavior.
- Just an observation. Tucker Carlson appears to be the sharpest pencil in the box. It would be a horrendous disservice to America if the snowflakes manage to throw him off the cliff along with the proverbial Grandma.
- The Girl Scouts used to help and promote girls to become productive, successful women. Unfortunately the organization seems to becoming an affiliate of the radical wing of the Democrat Party. Stephen Frank informs us “The official Twitter account of the Girl Scouts of America deleted posts on Twitter and Facebook that congratulated Justice Amy Coney Barrett for becoming the 5th woman to sit on the United States Supreme Court. Apparently the Girl Scouts received a trove of nasty comments from snowflakes claiming that Barrett is not a good role model for girls. So, instead of congratulating a woman who made it to the Supreme Court – they take down the congratulatory message. Frank goes on “Thus telling young girls that only if you hate this country, do not believe in the Constitution, want socialism and believe babies don’t have the right to be born, you are not a worthy girl or woman.” What is this country coming to when sound organizations such as the Girl Scouts and the Boy Scouts are being wrecked by the left? Are we going to allow the left to destroy institutions specifically designed to raise upstanding Americans?
- Wal-mart is pulling guns and ammo off its shelves. Good idea as only looters can obtain the products. How about

- knives and baseball bats? What have we become?
- It has been reported that Chinese operatives in the Houston consulate provided intelligence to BLM and Antifa rioters in Houston. This Chinese unit and other similar organizations are slyly funding terrorist organizations. Isn’t it time that America puts a stop to this business?
- PBS is supposed to be a neutral outfit. But watching its programming today is like watching Pravda. Only socialist left-wing material is covered by PBS. Why do the taxpayers have to see their tax money going to support such clap trap?
- Recall the one-child policy in China? Only boys were carried to term. Girls were aborted in many cases. What do you do with an over abundance of boys/men? Form an army, most likely. Gives you something to chew on, doesn’t it?
- The snowflakes at the University of Wisconsin claim Lincoln hated blacks. No kidding. The student government voted unanimously for a resolution calling for the removal of the campus’ Lincoln statue. The students decided that the president who signed the Emancipation Proclamation, advocated for the 13th Amendment, and led the war against the South and slavery was “not pro-Black” and a “remnant of White Supremacy.” Consider that taxpayers fund the institutions which “educate” our children. Perhaps we should defund colleges and universities. As Stephen Frank asks “Would you give a job, to people so mentally off?”
- Power corrupts and is magnetic to the corruptible. Such folks have a tendency to become addicted to violence. We see such in Democrat controlled jurisdictions. When will America wake up?
- Let’s consider government-think. In the 1960s Tokyo had considerable trouble getting folks to obey no-parking signs. The bureaucratic solution? Put parking meters in the no parking zones.
- We are still in the Chinese virus pandemic. Even if there is a vaccine, we may not be out of trouble. China controls the supply chain for the active pharmaceutical ingredients for nearly all of our medicines. Do you think the Chinese care at all about our needs? ★

Farm Bureau Supports Rep. Jim Costa for House Agriculture Committee Chair

By Dave Kranz, California Farm Bureau Federation

SACRAMENTO, CA (MPG) - The California Farm Bureau Federation supports U.S. Rep. Jim Costa, D-Fresno, as he seeks chairmanship of the House Committee on Agriculture.

The committee works to protect the nation’s food supply system, helps to ensure all Americans are fed, advocates for urban and rural America and works to maintain competitive markets for agriculture around the world.

Pointing out that there hasn’t been a Californian as the Agriculture Committee chair since 1867, CFBF President Jamie Johansson said, “California is the largest and most diverse agricultural state in the nation. Given his decades of experience in California agriculture, we believe Congressman Jim Costa is the right person to lead the committee as Americans grapple with the challenge of keeping nutritious food available for all, growing the economic opportunities for new and existing agriculturalists and addressing the risk brought by a changing climate.”

Rep. Costa is a third-generation farmer who represents California’s 16th Congressional District, which lies in the heart of farm and ranch country and includes urban and rural communities in Fresno, Madera and Merced counties.

Describing Costa as “a longtime advocate for agriculture in the San Joaquin Valley and all of California,” Johansson said, “Congressman Costa understands that the fates of rural America and agriculture are tied together, and also how dependent cities and suburbs are on us for their food. He has worked tirelessly to advance issues critical to agricultural communities and will continue that commitment as chair.”

The Farm Bureau has a deep-rooted relationship with Costa, who has a

bipartisan track record of working across the aisle to solve important policy issues such as water, trade, immigration and the farm bill.

“Throughout this especially challenging year due to market disruptions caused by the pandemic, Congressman Costa has been influential in providing federal relief to farmers and ranchers,” Johansson said. “The federal relief is reaching the farmers who need it, as they work to respond to effects of the pandemic on farmers large and small.”

Costa has played a significant role on the House Agriculture Committee since he joined it in 2005, including serving on the conference committee for the 2014 and 2018 Farm Bills and as chair of the Subcommittee on Livestock and Foreign Agriculture. He also maintains a position on the House Natural Resources Committee. The American Farm Bureau Federation named him a recipient of its Friend of the Farm Bureau Award.

Farm Bureau also said it would work with the administration of President-elect Biden to advance policies benefiting California farmers and ranchers.

“Throughout more than a century of service, the California Farm Bureau has advocated with administrations of both parties on behalf of our members and to assure plentiful, safe, affordable food and farm products for Americans,” Johansson said. “Farm Bureau will work with the new administration and our state’s former U.S. senator, Vice President-elect Harris, to address challenges from immigration reform to water resources to international trade and wildfire-prevention efforts.”

The California Farm Bureau Federation works to protect family farms and ranches on behalf of nearly 34,000 members statewide and as part of a nationwide network of nearly 5.6 million Farm Bureau members. ★

United Way of Nevada County Proclaims Campaign Kick-Off Month

By Donna Cobb,
Nevada County United Way

NEVADA COUNTY, CA (MPG) - On October 13th, United Way of Nevada County's Executive Director Megan Timpany attended a Nevada County Board of Supervisors' meeting. The Board of Supervisors declared a resolution proclaiming the month of October, United Way of Nevada County Campaign Kick-off Month.

The event was anything but typical; with social distancing, masks, and CDC guidelines for gatherings utilized." Megan said, "I listened to community members' comments surrounding all we are dealing with as a community and realized just how much the world has changed and how much work our community has ahead of it. The kind words and acknowledgments by the Board of Supervisors about UWNC's extensive history (38 years!) reinforced my belief in our community and our organization. I am so proud of the work that we have done to improve and impact our community over the years and know that moving forward, we will embrace this opportunity to support the residents of Nevada County."

County employees annually participate through the United Way Workplace Giving Campaign and they also hold in-office fundraising events and a yearly book sale. The money raised from these events and the payroll pledge process (those not designated to other non-profits) goes

United Way Kick Off Month. Pictured (left to right) County campaign committee member Suzanne Doyle, with Megan Timpany, Executive Director of United Way and other committee members Steven Rose and Michelle Bodley

into the United Way of Nevada County Community Impact Fund. These funds stay local and go toward programs such

as Food Access Saturday and the High School Food Pantry. Due to COVID-19, the County is unable to hold their annual book sale which benefited United Way for many years. The County has a great group leading the Campaign Committee for the County's employees. Thanks to Steven Rose, Suzanne Doyle, and Michelle Bodley for taking the lead in this year's campaign.

Employees from local businesses, national corporations and government agencies participate in the annual campaign, pledging donations that are deducted from their paychecks. Employees may donate their pledges to United Way of Nevada County or designate to the 501(c) 3 non-profits of their choice. Some of the businesses that are currently holding Workplace Giving Campaigns are UPS, Telestream, Bank of America, Wells Fargo, and B&C Ace Home & Garden Center. United Way of Nevada County appreciates the many hard-working employees who give (or volunteer), the businesses who match donations or give corporate gifts, and businesses who also choose to sponsor special events.

United Way of Nevada County focuses on the basic needs of the community (Access to Health Care, Food and Emergency Shelter). United Way envisions a community where all individuals and families achieve their desired potential through Healthy Lives, Education and Income Stability. If you know of a business that would like to hold a United Way campaign, call 274-8111 or email admin@uwnc.org. ★

Notice to Potential Bidders If you are considering bidding on this property

lien, you should understand that there are risks involved in bidding at a Trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a Trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting

the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same Lender may hold more than one mortgage or Deed of Trust on the property. Notice to Property Owner The sale date shown on this Notice of Sale may be postponed one or more times by the Mortgagee, Beneficiary, Trustee, or a court, pursuant to Section 2924g of the California Civil Code. How Long will Newsom have One-Man Rule?

By Dan Walters
CALMatters

California has been a one-party state for the last decade, with Democratic governors and supermajorities in both legislative houses doing pretty much as they pleased without paying any attention to the relative handful of Republican legislators.

However, one-party rule gave way to one-man rule eight months ago when Gov. Gavin Newsom declared an emergency due to the COVID-19 pandemic, thus empowering himself to govern by decree and suspend any laws that stood in his way.

Democratic legislators were fully complicit, even suspending their proceedings and abandoning Sacramento for months. Eventually, however, even they chafed a bit at Newsom's seeming endless string of emergency orders.

In effect, some of those orders essentially made new law and while Democratic lawmakers stood by, two Republican legislators, Kevin Kiley and James Gallagher, filed suit, alleging that Newsom had gone too far.

Last week, Sutter County Superior Court Judge Sarah Heckman sided with the Republicans, declaring that Newsom's order changing procedures for the

November election, including a mandate that every voter be sent a mail ballot, crossed the line.

Although the Legislature later ratified the election changes, Heckman wrote that it was still important to place limits on a governor's powers under the California Emergency Services Act. Heckman indicated that in her final ruling, she would permanently enjoin Newsom from issuing any order "which amends, alters, or changes existing statutory law or makes new statutory law or legislative policy."

"The doctrine of the separation of powers prohibits any of the three branches of government exercising the complete power constitutionally vested in another or exercising power in a way which undermines the authority and independence of another," Heckman, who was elected in 2012, wrote.

The law empowering a governor to declare an emergency and suspend laws that impeded a rapid response was clearly aimed at some immediate catastrophe such as a flood, an earthquake or a riot. It envisioned something like then-Gov. Pete Wilson's suspension of contract bidding laws to quickly rebuild a major freeway after the 1994 Northridge Earthquake.

COVID-19 required a rapid response, but it's also something that could last, in one form or another, for years. Conceivably, Newsom could continue governing under his emergency decree for the remainder of his first four-year term.

Even before pandemic struck, Newsom was prone to sidestepping laws that could impede whatever he

might want to do. He boasts, for instance, of ignoring state law when, as mayor of San Francisco, he unilaterally authorized same-sex marriages. More recently, he declared that there would be no executions of murderers during his governorship even though California's death penalty is still law — one that voters refused to repeal just four years ago.

Newsom claims moral imperative as justification for his acts, but if elected officials ignore laws they don't happen to like or find inconvenient, they undermine the concept of governance under law and encourage disrespect for legal authority. Ironically, this is the same governor who demands that 40 million Californians obey his pandemic decrees, such as shutting down small businesses.

Judge Heckman's order will certainly be appealed and the issue will probably wind up in the state Supreme Court. Newsom press secretary Jesse Melgar said Newsom and his advisers "strongly disagree" with "specific limitations" on the governor's emergency authority.

Meanwhile, it's time for the entire Legislature, not just Kiley and Gallagher, to reassert its co-equal authority rather than allowing Newsom to operate indefinitely as a one-man band.

The law that gives Newsom the authority to declare an emergency also allows the Legislature, on its own, to end such an order.
