U.S. steps up screenings and warnings with emerging risk

Yuba and Sutter Ca.

The World Health Organization tracking the novel Coronavirus last Friday declared a “public health emergency of international concern,” but Yuba-Sutter Health Officer Dr. Phuong Luu notes the overall risk to the general public in the bi-county region is low.

“Currently, there are no persons under investigation for suspected or confirmed novel Coronavirus in the bi-county Yuba and Sutter region,” Dr. Luu said. “The overall risk to the general public in the bi-county region remains low.”

The novel Coronavirus that began in Wuhan, China in late December 2019 also resulted in a declared public health emergency for the United States, in an effort to aid the healthcare community in responding efficiently to the emerging risk.

Currently, all US citizen travelers and their close fam-

ily members returning from Hubei Province, China, will be re-routed to 11 designated airports in the US to undergo screening and are required to participate in a 14-day mandatory quarantine. US citizens and their close family members who are returning from all other parts of mainland China will undergo proactive screening and are advised to undergo self-quarantine.

Dr. Luu said both the Yuba County and Sutter County Health Departments are in close contact with the California Department of Public Health (CDPH) and Centers for Disease Control and Prevention (CDC) and will be notified if any returning travelers from the bi-county region qualify for mandatory or self-quarantine.

The novel Coronavirus is spread through respiratory droplets, similar to the common cold and flu. The CDC recommends the following everyday preventive actions:

- Wash your hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer if

soap and water are not available

- Avoid touching your eyes, nose, and mouth with unwashed hands
- Avoid close contact with people who are sick
- Stay home from work and school when you are sick
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash, and disinfect your hands after
- Clean and disinfect frequently touched objects and surfaces

Anyone who has recently traveled to mainland China or been in close contact with a person who has should contact his or her doctor for further guidance. Do NOT go into a clinic or Emergency Room without first consulting a medical doctor.

Dr. Luu said there are a number of online rumors cropping up that contain inaccurate information about the novel Coronavirus. She said residents looking for verified information can go to www.cdph.ca.gov or www.cdc.gov.

Honest Abe and Dishonesty

by Lou Binninger

It was a good time Sunday talking to some incarcerated youth about the importance of honesty. God drafted the Ten Commandments. Since people cannot follow them California politicians alone make-up a thousand or so new laws every year to keep people in line.

Number 8 on God’s list is ‘Don’t Lie’ which includes not being deceptive, twisting the truth, mis-speaking, ‘white lies’ and exaggerating. That’s why when it comes to giving testimony the court asks for the truth, the whole truth and nothing but the truth, so help you God.

Just when you’ve lost all hope thinking nearly every politician, government employee and even the FBI lies, ‘Honest Abe’ comes to mind. In fact, a young inmate got it right when asked what President’s character was noted by people in referring to him.

If the shoe fit, Lincoln could have been called Liar Abe, Swinger Abe, Adulterer Abe, Cheater Abe, Pervert Abe, Rapist Abe, Inside-Trader Abe, Horse-Thief Abe and so on. Amazingly, he is ‘Honest Abe.’

Leonard Swett, a close friend of the former President said, “He believed in the great laws of truth, the right discharge of duty, his accountability to God, the ultimate triumph of the right, and the overthrow of wrong.”

Lincoln observed, “Resolve to be honest at all events; and if, in your own judgment, you cannot be an honest lawyer, resolve to be honest without being a lawyer. Choose some other occupation.” That’s a mouthful when most lawyers are liars.

Our government has become so massive and invasive that politicians, citizens and business people have all learned to buy influence to get their way. That makes politicians and some citizens rich at the expense of taxpayers.

Buckland and Tribal Rules

by Lou Binninger

Sutter County Supervisor candidate John Buckland’s arrest January 10, 2020 at the Hard Rock Hotel and Casino raised some questions.

Buckland was taken to jail and held until he sobered-up, a common practice in Yuba County. No charges were filed by the District Attorney.

It is assumed Buckland did not assault the arresting deputy since there were no charges filed. However, Buckland appeared scuffed-up and was belligerent to jail correctional officers. What happened at Hard Rock remains unclear.

Buckland was released Saturday January 11 and since few people knew, it was no big deal politically for him. Buckland has been drunk in public before. Those aware of that behavior either are bothered or they aren’t, done deal.

However, Buckland then issued a strange news release saying he traveled from Sutter County to the casino parking lot “to meet a business client to exchange business-related items.” What were the business-related items and why travel all the way to South Yuba County?

Was Buckland selling Mary Kay, Tupperware, was it a gun deal, cannabis? Some suggest he was meeting a lady. Is the casino property an enforcement-free zone as long as you don’t disrupt the gaming? Why even bring the business meeting up in the statement? Buckland is an adult and can drink and gamble.

Buckland’s straining to appear transparent actually cre-

THE Brownsville Bailiwick & Beyond

Have you ever had a “dream”, the kind that you could really work on if you wanted, one that could come true? I was thinking about Bill and Alice Rodenburg who moved here and dreamed of having an airport with houses you could actually “drive” your plane home to. And it happened! How many people moved to our small area of the world and worked at making

their dream come true? Only a half dozen people managed to start a bank here. The doctors started our health clinic in the middle of nowhere. Bud and I dreamed of having a book store and we did it. Now I am dreaming of creating a Senior Village of small cabins that one could rent when you no longer want to live alone. Can we make this happen? A group of people in Next Step are working on the idea that we could make it happen. We are not sure what our “next step” might be, but we are looking into it. Any ideas?

Valentine’s Day is Friday. Make those dinner

reservations, buy that box of candy, and purchase the Valentine cards now. You surely don’t want to tell your Valentine, “Oh, Honey, I forgot!” We wish you all a Happy Valentine’s Day!

Look Back in Time – in 1902 the Gold Bank Mine was running. It was music to the ears of those living in Forbestown and the miners looked happy on pay day (wish there were more small businesses that made money in our areas today, we need jobs).

Hope to see you in Brownsville soon.

FISHIN' TALK

by Boots Johnson

Dan “Boots” Johnson has fished and hunted in California for more than 75 years. Anyone with questions or comments can email him at boots3@syix.com

Well folks, the national weather source sure does disagree with our own weather man. As stated last week he indicated we would see rain and snow by mid-February. The big one on weather says there is no rain in sight for the Sacramento Valley. Sure hope their fancy computers are wrong.

Some might wonder why I occasionally bring up the topic of weather in a fishing column. The reason is it is so important for all fish populations in California. We need water sufficient enough to bring the stripers, shad, steelhead and salmon upstream to spawn. We need runoff from the mountain snow to maintain the rivers, creeks, streams and ditches. The runoff also fills the reservoirs, which by the way are slowly dropping. All this improves the fishing tremendously.

A report from Scott's Flat Reservoir, located off of State Route 20 above Nevada City tells us the bigger rainbow trout are on the bite. Fish up to 18 inches are being caught on or near the surface of the water. Trolling with rapalas or other lures is a good bet. Most of the anglers who are scoring big here are leaving the downriggers home and trolling with the lure at least a couple hundred feet behind the boat.

Englebright Reservoir, which is about 25 miles out of Marysville on State Route 20, is also putting out some nice trout. Best place here is to troll by the dam or around the house boats.

This is the time of year to consider fishing Camp Far West Reservoir. We have fished this

lake along the shoreline trolling plugs, lures or spinners. It used to be common to catch and release 40 or 50 fish a day. The thing to remember is not to waste your time anywhere except next to shore.

Closing thought: “Be teachable, you are not always right.”

Man Arrested in Loma Rica Shooting

On Saturday 2/8/2020 at approximately 6:40 P.M. Yuba County Sheriff's Department received a 911 call of a possible accidental shooting victim injured in the 4800 block of Fruitland Road in Loma Rica.

Upon arrival, Deputies located an adult female with a gunshot wound to the leg, and a dog with a gunshot wound to the head, at the rear of a residence.

The deputies made contact with the suspect, identified as 37-year-old Scott Anderson of Loma Rica, in the driveway of the residence. Upon attempting to detain Anderson, he became combative with Deputies, but was ultimately taken into custody and booked into the Yuba County Jail for 245(a)(2)/Assault with a Firearm; 246.3PC/Negligent Discharge of a Firearm; 597(a)PC/Cruelty to Animals; and 69PC/Resisting Arrest.

The female victim was transported to the hospital by ambulance, and the dog was transported by deputies to a local veterinarian for emergency treatment. The female and the dog are both stable and recovering. The shooting remains under active and ongoing investigation.

25th Annual Italian Dinner Fundraiser

Yuba City, Ca.

The Yuba Sutter Legal Center for Seniors will hold its 25th Annual Italian Dinner Fundraiser on Friday March 6, 2020, at the Veteran's Hall in Yuba City.

One of the first senior legal offices started under the Older American Act, the Legal Center began offering free legal advice and assistance to the Yuba Sutter community in 1977.

Since then, the Legal Center has assisted thousands of seniors in landlord tenant matters, obtained restraining orders to stop abuse, resolved consumer disputes, and obtained benefits to which area seniors are entitled.

Each year the Italian Dinner serves as the Legal Center's major fundraiser.

"This is an important fund raiser to help sustain these essential services to our community," said Susan Townsend, directing

attorney.

The monies raised will be used to provide legal services to area seniors.

Marysville Kiwanis will prepare the dinner. Students from River Valley High School will attend to the tables.

There will be raffle prizes, a silent auction and a dessert auction with

a guest emcee.

Sponsorship for tables, auction items, etc., are available. Persons can also support the Legal Center by donating silent auction items, raffle prizes or desserts.

The evening starts at 6:30 p.m. with a no-host beer and wine bar provided. Dinner is at 7 p.m.

The Legal Center is a Yuba Sutter Colusa United Way agency and is also funded by the Agency on Aging/Area 4.

Tickets are \$20 each or a \$110 for a table of six.

For more information, to sign up a a sponsor or to get tickets, contact Legal Center, 725 "D" Street, Marysville, or call 742-

You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. **NOTICE TO PROPERTY OWNER:** The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call, 1-800-280-2832 for information regarding the trustee's sale or visit this Internet Web site, www.auction.com, for information regarding the sale of this property, using the file number assigned to this case, T.S.# 9948-2069. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the internet Web site. The best way to verify postponement information is to attend the scheduled sale. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. LETTERS TO THE EDITOR

Supports Terry Spies for Judge

I have known Ms. Spies for over 20 years and have found her to hold whatever office she has held in the utmost regard for doing a fair, impartial, and complete manner. Being from the local area, raised here since an early age, she has strong ties to the community. What she has she has earned herself and worked hard for it, completing her degrees and law school while being a single

mom and working full time (not just at one job, but often two). Having started in the courts as a clerk and worked her way up, she has a complete knowledge of the court process. She continues to expand her knowledge of the court system and process with ongoing education. Now that she is a sitting judge (pro tem) she has already obtained the knowledge and experience needed to be a judge. As a clerk, court

manager, attorney, and judge pro tem, she has knowledge and experience in all aspects of the courts; Civil law, family law, criminal law, and juvenile cases. Lastly, she has the life experiences to be firm, compassionate, and thorough. You bet I endorse her.

Your NYWD Money

If you are a customer of North Yuba Water District (NYWD), you recently received the District's January 2020 newsletter in the mail. Did you read it? There is some very disturbing news on Page 2 regarding the number of Public Record Requests (PRA's) submitted to the district between January and November 2019. Nine individuals and one organization submitted a total of 106 PRA's, an unusually high number for a small agency such as the NYWD. According to the newsletter, 94 of the 106 PRA's were submitted by just three individuals: Charles Sharp (an irrigation customer) made 24 requests, Alton Wright (not a customer) made 30, and the grand prize goes to our newest Director, Gretchen Flohr, who made 40 requests for information. These 94 PRA's cost the district a whopping total of \$53,994.30 in legal fees out of the total of \$60,394.80 billed.
Now keep in mind,

as a director of the water district, Director Flohr is privy to district information that can be obtained directly from the manager or office staff, which could avoid the need for legal research and costs. At least twice during board meetings, other directors have advised her that they go directly to the office whenever they need more information. She can email the office, call or go personally into the office with her questions. Apparently she is not using any of these options and prefers to submit her PRA's directly to the legal team. Why? I can concede that she could be asking for some items that are best handled and explained by the district's lawyers, but 40+ times seems quite excessive. The legal bill she alone has racked up is almost \$50,000!!! And this figure will most likely go up when December's legal bills for PRA's are calculated into 2019's yearly total.

I don't know about the rest of you, but I am more than just a little angry to see district money (yours and mine) unnecessarily paying lawyers if this could easily be avoided and the money used for more worthy needs. To me, this shows a total disregard for protecting district assets on Flohr's part. As I perceive the job of board directors, they are responsible for the needs of their constituents in their own divisions but, most of all, for the overall health of the district. And it is our job, as customers and tax-payers alike, to pay attention to what this board director is doing with one of our most valuable assets in our foothills, our water district. Director Flohr seems to be thumbing her nose at the district and its customers and pursuing a very expensive path where our water district is concerned.

Shame on Nancy

It seems to me Pelosi should be impeached. She wasn't elected to go after President Trump. Pelosi was elected to help people in the United States of America, to have a better life and to take care of issues important to our people; such as: health issues, the homeless issue, the drug problems(both legal and illegal), senior issues, high cost of hospitals, 75% of Veterans are homeless, meat from without country of origin labeling – 2 of our Biggest Packers in the USA

are from South America and John Batisita Sobriano was arrested and jailed for bribing meat inspectors and he is still importing meat to the USA and 67 people went to the hospital last year with E.coli.
If that isn't enough problems Pelosi should be leading our government down a better path to prosperity in the USA. Pelosi is wasting time and money going after President Trump when the population elected him – but we did not elect her, and the next

vote will take care of changing the President, if the people don't want to keep him. How do we get her to do her job, instead of wasting time and money in Congress when she was elected to do her job not chasing after the President. Shame on her. She's a disgrace to our country and an embarrassment to President Trump, to the rest of the world.

Honest Abe and Dishonesty

over justice in backwoods Yuba County?
Angelo's gift is suspicious knowing that Melanie's husband Robert Bendorf is the County Administrative Officer (CAO) and directs the Board of Supervisors in its decision-making. A gift to Robert would be considered a bribe or at least blatant favor-seeking.
Permission is required of the board and county bureaucracy for all developments. In this case, Angelo's money to the wife is money to the husband.

Also in 2016, Yuba Water Agency (YWA) gave the Tsi Akim Maidu Tribe a utility truck. Photos were taken at the time with then supervisorial candidate Randy Fletcher handing over the keys. Enterprise Rancheria (Estom Yumeka Maidu Tribe) that owns the casino in south Yuba County recently donated \$7,000 to Supervisor Gary Bradford's 2020 re-election campaign.
All five supervisors sit on the YWA seven member board as well as make decisions governing Yuba County. Their votes and gifts spend Yuba citizens' tax dollars along with water and power revenue produced from Yuba

County's Bullards Bar Dam, a project launched by the citizens of Yuba County following the 1955 flood.
Peter Schweizer's book 'Throw Them All Out' explains how millions are made by congress from insider stock trading. Though the book's revelations led to the Stock Act (2012) forbidding this unethical and criminal behavior, the ACT was gutted in 2013 by the same Congress. Schweizer's work also exposed politicians using campaign revenue for personal use.
There are numerous examples of local officials benefitting from their positions and influence buying with tax dollars.
In 2007, businessman Dan Flores, now a Sutter County Supervisor, and Campaign Manager Crystal Martin applied for a loan of \$150,000 from the Yuba – Sutter Economic Development Corporation (EDC) while serving as EDC board members. When they were informed it was a conflict of interest to get loans as board members they resigned to get the money.
Once off the board they applied for two more loans \$144,200 for Martin and \$113,500 for Flores at 3% interest

rate. However, the loan requests were eventually withdrawn by Flores and Martin after state attorneys said that Federal Department of Housing and Urban Development conflict-of-interest rules require board members to be off the board for one year to participate in the funding program.
Insiders know how to get tax dollars for personal gain.
The recent pitch at election eve to rename 5th Street in Maryville for Martin Luther King Jr. is a blatant whoring for votes by those seeking election. Liberals can't resist hustling minority groups for personal benefit.
If you can get elected, politics will make you wealthy via favoritism and by acquiring connections. In 2012, the top 20 profiting officials averaged a 422% net worth increase per year. The average net worth spike of the top 21-40 was 68% per year, and for those ranked 41-60 it was 42% annually.
Could 'Honest' be added before the names of politicians today when referring to them?

Buckland and Tribal Rules

ates disbelief and appears to construct a ruse.
Chico News and Review ran an article about drug and other illicit exchanges at Butte County casinos in 2005 causing the Measure G advisory vote to go against the Yuba Co. casino proposal. The article influenced voters to think that more criminal activity might be coming to Yuba County.
Buckland's statement says, "At the conclusion of the meeting I entered the casino. The duration of the stay was relatively short. Upon exiting...I encountered an unprecedented response to an incident in the parking lot. I was taken into custody for public intoxication of alcohol or drugs. I was released without criminal charges filed. I'm currently working with a civil attorney to investigate and recover evidence. He, and only he will release information...at the conclusion of his investigation."
Why would Buckland need a civil attorney? Will he sue the tribe and/or the county? Buckland talks as if he was not personally involved in the incident. He portrays himself as the victim.
Nontribal people like Buckland have little success suing tribes. And most attorneys are unfamiliar with tribal

law. Buckland said he hired an attorney with experience in activities on tribal lands.
In the 'Atlantic,' Sierra Crane-Murdoch wrote an article February 23, 2013 titled "On Indian Land, Criminals Can Get Away With Almost Anything." Enterprise Rancheria and Casino is "Indian land." Different rules apply there than elsewhere in Yuba County.
At the Fort Berthold Indian Reservation in western North Dakota (Bakken Oil Fields), where an oil boom is occurring Crane-Murdoch found there were different rules of enforcement depending on who was the perpetrator and the victim.
"Basically," a mechanic told me (Crane-Murdoch), "you can do anything short of killing somebody."
Crane-Murdoch says, "In 1978, the Supreme Court case Oliphant v. Suquamish stripped tribes of the right to arrest and prosecute non-Indians who commit crimes on Indian land. If both victim and perpetrator are non-Indian, a county or state officer must make the arrest. If the perpetrator is non-Indian and the victim an enrolled member, only a federally certified agent has that right. If the opposite is true, a tribal officer can make the arrest, but the case still

goes to federal court."
"Even if both parties are tribal members, a U.S. attorney often assumes the case, since tribal courts lack the authority to sentence defendants to more than three years in prison. The harshest enforcement tool a tribal officer can legally wield over a non-Indian is a traffic ticket."
"The result has been a jurisdictional tangle that often makes prosecuting crimes committed in Indian Country prohibitively difficult. In 2011, the U.S. Justice Department did not prosecute 65 percent of rape cases reported on reservations. According to department records, one in three Native American women are raped during their lifetimes—two-and-a-half times the likelihood for an average American woman—and in 86 percent of these cases, the assailant is non-Indian."
The Buckland case reminds us that due to Federal Indian Law patron's rights end at the reservation property line just like a foreign country and who has jurisdiction if trouble starts could get confusing.

Nevada and Yuba Counties Receive CAL FIRE Funding Funds Forest Health and Resiliency

Sacramento, Ca. CalFire is awarding Yuba Water Agency \$4.5 million in California Climate Investment funding for the proposed Yuba Foothills Healthy Forest project. The project will include more than 5,000 acres of public and private forestlands in the Yuba County foothills, in various areas around Dobbins, Challenge and Brownsville. A variety of forest treatments will be used including thinning, prescribed fire, pile

burning and biomass utilization. The project will provide benefits to forest health, climate change resilience, species composition, catastrophic fire risk reduction and improved water yield. It also comes with direct benefits to hydropower and bio-energy fuels, and local jobs.

"This is such great news for our communities at risk of wildfire," said Randy Fletcher, Yuba Water Agency board chairman and

Yuba County supervisor for District 5, which includes the foothills. "This grant will enable us to get significant work done on the ground, and much of it on private land, to protect our people, our infrastructure and our water."

Nevada County was awarded over \$1.5 million to enhance the 1,500-acre Grouse Ridge Research Forest through a diverse suite of treatment options and an ongoing commitment to long-term monitoring. This project will ultimately serve as a demonstration site for students, landowners, and other stakeholders, and thus have a far-reaching impact on future forestland management, research and policy creation.

California Climate Investments is a statewide initiative. The mission statement says that it puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy and improving public health and the environment.

Yuba Sutter Youth Choir Free Tuition for All Participating Students

Marysville, Ca
Yuba Sutter Arts is pleased to announce that registration is now open for the Spring 2020 season of its Yuba Sutter Youth Choir. The new session gets underway Wednesday, February 19th at 6pm. The theme will be “Meet the 70s...Abba, Elton John and More!”

Yuba Sutter Arts is now able to offer this ongoing program for free to all students. Be sure to register in advance of the first session as class size is limited to 25 students.

The Yuba Sutter Youth Choir is part of Yuba Sutter Arts' Arts in Education program. Classes will be held at the Burrows Theater at 630 E Street in Marysville. Instruction is offered for students from 7 - 14-years of age. Weekly classes will be held on Mondays and Wednesdays starting on February 16 through April 1. The final performance will be held on Wednesday April 1 at 7pm. Each student will receive a Youth Choir T-shirt.

“We are fortunate to be able to now offer our Youth Choir program for free to all students,” said David Read, Yuba Sutter Arts Executive Director. “And to have professional musician, Gay Galvin, continue as Artistic Director is a great gift to the community,” he added.

Gay Galvin is Yuba Sutter Arts' “Musician in Residence.” Gay has been singing and playing piano since she was six years old. Trained in classical and jazz styles, she has worked in big bands, musicals, jazz trios and various classical ensembles. She is an accomplished vocalist and has taught choir at all age levels.

Married to singer/songwriter, Tom Galvin, the couple has performed at the Burrows Theater in concert as a duo and as soloists. Gay has also performed in many other ensembles throughout the community including concerts at Yuba College and in productions at The Acting Company. Gay

and Tom also both played for the Applause performances of “Home for the Holidays” in December to help raise funds for the completion of the Sutter Theater.

Gay is originally from Ohio and has a master's degree in music. She teaches piano in her studio in Marysville. She plays most musical genres and has even played in rock bands. In Ohio, she led her own jazz trio, something she hopes to reestablish in this area.

“I'm proud to be leading the youth choir again this spring,” said Gay. “Ensuring music education for young people is something I am passionate about and I am so glad to be able to help continue the tradition of vocal music training for young people in Yuba-Sutter,” she added.

Interested parents or guardians should visit yubasutterarts.org to register or contact YSA at 530-742-ARTS or email abbie@yubasutterarts.

Before that, he worked as a finance and administrative manager, and project manager for Community

Development and Services Agency. He graduated from Chico State and went to work for Hewlett Packard, then Agilent Technologies in Colorado Springs, Colorado. He takes over the role following the December retirement of former director of Administrative Services, Tim McCoy, who served in the position for two years. “My goals include identifying new revenue streams to maintain self-sufficiency,” Kopping said. “The airport has many possibilities for our community, and I'm looking forward to being part of this effort to make it a hub for job and business activity in the County.” The Airport Manager manages, plans, organizes and evaluates operations, construction,

maintenance, customer service, economic development and marketing activities for the Yuba County General Aviation Airport, among other duties. Kopping will inherit the \$1.8 million new taxiway project already underway—which will make the airport more attractive to businesses on the west side of the main airstrip. “We're excited to welcome Jason to Administrative Services, where he will take on the task of maintaining and improving the Yuba County Airport,” Director of Administrative Services Perminder Bains said. “His enthusiasm and creative thinking make him a great asset to our team.” Kopping began his new role Feb. 3.

Valentine's Day plants trending upward

Live plants are gaining in popularity for Valentine's Day, with social media trends leading the way. Orchids are a top seller at one Sacramento-area nursery, with blooming succulents, tropical plants and African violets not far behind. One San Diego County grower said she's selling a lot of plants with pink blooms or leaves, as well as Anthuriums with heart-shaped flowers.

Tomato tonnage about steady this year

California tomato processors expect to handle about 12 million tons of fruit this year, a figure essentially unchanged from 2019. That's good news for the state's processing

tomato growers, whose 2019 crop fell short due to late-season rain and hail. As export challenges linger, growers expect more of their harvest to be used domestically in products ranging from soup to salsa.

Natural and working lands offer potential for carbon reduction

California's working lands can help the state achieve negative carbon emissions by 2045, according to a study by Lawrence Livermore National Lab. Scientists found that increasing the uptake of carbon in natural and working lands, as well as converting waste biomass to fuels and storing the CO₂, could together reduce annual carbon emissions by 109 mil-

lion metric tons of the 125 million needed to reach the goal.

Oak trees may hold answer to devastating citrus disease

Scientists have found that applying oak leaf extracts inhibits the bacterium that causes the devastating citrus crop disease huanglongbing, or HLB. The disease has reduced Florida's citrus crop by 90% and led to plant quarantines in Southern California after being found in residential citrus trees. Scientists from the University of Florida and the U.S. Department of Agriculture investigated oaks after farmers observed citrus trees planted near oaks survived HLB.

Who Says it's Fair

It is said if you want to convince the masses of something, develop a short and concise theme and repeat it over and over.

Most of us have been subjected to many of these. I call it brainwashing and certainly I have fallen for a few mantras in my lifetime but I try to remember what my dad always said: "When everybody is thinking the same thing nobody is thinking".

I do seem to hear a lot of these concise mantras put forth way too often. And some don't make any sense. In fact, come to think of it, most of them don't.

One common one I am hearing now that the presidential elections are coming is "pay their fair share".

Referring to the rich obviously, I have to scoff at this ridiculous petition to get votes. Pay their fair share. This might go along with the other foolish rhetoric common nowadays "the living wage".

So dissecting these, I have to start by saying whom exactly decides what is fair and what exactly is a living wage?

Someone else besides the one on the hook

for paying it I suppose. Seemingly it's always somebody else deciding what another should pay. And isn't that the way of it.

I dare to say there is two types of people in the world. Those that make enough money and those that want to take it from them. You could also say there are those that believe retaining one's personal possessions is a basic right and those that ignore that right.

Regardless of what the "thing" is, if someone has too much of it, there will be someone else who lays claim to it. This claim usually has little to do with how the thing was obtained. No matter if someone worked his butt off to get it, saved a long time to amass it or just inherited it from a parent that did, if its deemed "too much" there are those that believe it should now be someone else's, or at least part of it should be.

That's where the subjective part of the mantra comes in. Words like fair share or living wage are tossed about like some God given edict applies.

Can't recall ever seeing what exactly a "fair" share is, or just what amount is a wage suitable for living. But those that believe such things seem to have an idea of just how much is too much. Thank goodness breasts aren't divisible, or hair transferable.

Wait a minute, now that I think of it, I could use little more of the latter. Is it fair some have hair like Motley Crue while others have to sunscreen up their dome?

It's probably not fair. Sometimes I admit it bugs me when I look at a picture of someone with a hairline resembling a Planet of the Apes movie. He won the hair lottery. I did not.

But hey, although seemingly unfair, I realize it's not unfair, although it may seem like it is at times.

Rather my good sense calls it life. Life is not fair. It's a part of, well, life.

Nowhere is it written that life is fair. One could say life is unfair. Birds eat worms. Not exactly fair to the worm. In fact it's fatal. Trying to mandate fairness in life is like trying to stop it from raining. It's an exercise in absolute futility.

Some mope around dwelling on all the in-

equality that life offers up. But then you end up moping instead being grateful. That's not life, its ingratitude. And I was told more than once, if we're not thankful for what we have, we will never be happy with what we don't.

Yes some people make more money. Some a lot more. Some have millions while others have none.

Funny thing is, we were all born naked. Some with a bank account, true, but everyone has the right to try and make a bank account and last time I looked, there were still a lot of people starting with nothing becoming people with something.

Through hard work? Maybe. Or maybe some hit the lottery and didn't work at all.

Is that fair? No, it's called the lottery and it's not fair that somebody wins it, but it happens. Funny thing however, nobody ever goes after them in the news. For some reason if you win it, all is fair. But if you work for it, nothing is.

No dear reader, I don't know what paying a fair share means, nor a living wage. Both take someone to be the judge of whatever that is, and I am not ready to have so much hubris to think anyone can or should decide such things for another.

I don't mind if there is rich people, millionaires or billionaires. There is no shortage of greenbacks if one thinks of a way to acquire them.

And it's not fair my head has thinning hair while my neighbor's thick curly locks flow magnificently in the wind.

It's called life.

Get over it.
