It's all about letting the judge see them and the pig as a team for Gavin McElhannon and Anna Raymond.

Nevada County Fair – Youth in Agriculture

by Rachele Lisby

Grass Valley, Ca. Nevada County youth exhibitors are either members of FFA at Nevada Union and Bear River High schools which total approximately 350 active youth, or 4H which draws an additional 400 youth. Youth

ages 5-19 can become a 4H member with most moving on the FFA once they reach high school. When you hear FFA or 4H your mind automatically goes to kids learning about farming. That is true but it is also so much more. Youth

learn the skills necessary to move into a variety of different fields allowing them to enter fields such as forestry, teaching, food production/inspection, leadership, busi-

BVID Sicard Ditch Pipeline Project Receives Funding

A \$637,320 grant from the Yuba Water Agency provides funding to help Browns Valley Irrigation District complete project engineering and design, and the California Environmental Quality Act requirements needed to get the Sicard Ditch Pipeline project shovel-ready.

"This is a game changer for us," said Ryan McNally, Browns Valley Irrigation District general manager. "Not only will this increase water supply reliability, but it will also give us the ability to eventually serve several hundred additional parcels."

The Sicard Ditch Pipeline, when complete, will be nearly 10 miles long and will save the district approximately 4,000 acre-feet of water per year, which is equivalent to about four feet of water elevation at Collins Lake.

Once the first phases of the project are complete, Browns Valley Irrigation District will begin looking for external funding to leverage Yuba Water Agency's grant.

Marysville's Baseball History

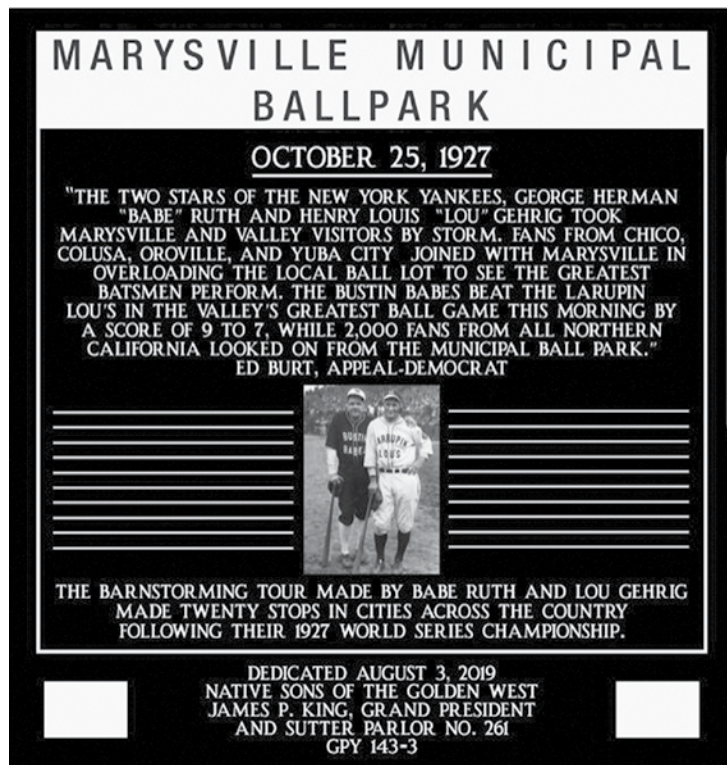

Marysville, Ca.

The Native Sons of the Golden West and Baseball History Buffs started out singing "Take me out to the Ballgame" it was awesome! Coffee! Donuts! and Cracker Jacks! Were served, over 100 of us showed up with the baseball spirit!

So Just who are "The Native Sons of the Golden West"? They are a fraternal service organization founded in 1875, limited to native born Californians and dedicated to historic preservation, documentation of historic structures and places in the state, the placement of historic plaques and other charitable functions within California.

The NSGW "Sutter Parlor #261" with the help of President Matthew David and fellow members dedicated a monument to Marysville's Baseball History Moment.

At 9:30 NSGW Grand President James P. King resided with other members of the NSGW from various areas in

California. A special plaque will be placed on the "Hust Bros." Building to dedicate and honor, a historic moment, the "Municipal Baseball Park", where it was once located, where a special game was played. The "Bust-in Babes" who beat "Laurfin Lou's" The plaque honoring

Babe Ruth and Lou Gehrig during the big game of October 25, 1927, So many great stories were shared about the big day!

Thanks NSGW for preserving and documenting another bit of Marysville's History. What an Honor!

Msol Emergencies Cost Users

by Lou Binninger

In 2016, Marysville, CA., 12,000 plus in population and 3.6 sq. mi. in size, was going bankrupt following decades of businesses leaving the city. In spite of shouldering millions of dollars in devastating long-term real estate debt the city council determined to continue funding its own police and fire departments rather than contracting out for services.

On June 7, 2016 a majority of citizens voted to raise sales taxes 1% for 10 years to bring in \$2 million plus annually to temporarily solve the short-fall caused by the bond debt, spiking unfunded pension liability and health premiums along with operating its own public safety services.

Since that time city hall has been looking for new revenue streams and to increase existing ones. One idea was to charge for public safety responses. It has begun.

On August 3, 2019, Marysville Fire Department (MFD) suppressed a garage fire at a duplex.

The owner's insurance company, Allstate, then received a bill from Fire Recovery USA, LLC, a Roseville third party billing service, for the (MFD) fire response. The bill was for 3 engines (\$455 per engine/hr), 1 fire truck (\$568 per truck/hr), and 1 command on scene (\$284/hr). The charge amounted to \$2,217.00/hr. for 2.25 hrs. for a total of \$4,988.25.

The duplex owner had never heard of such a charge though having been a property owner and taxpayer for decades with multiple Marysville properties. He was informed by MFD that it was a new program they were trying out. A call to Councilmember Bruce Buttacavoli got the charge reduced to \$500 which the insurance company agreed to assume.

During the 1970s, a new legal theory emerged that enabled the collection of fees for emergency services. Charging for these services had been limited by the "free public services doctrine" or the "municipal cost recovery rule." This doctrine stems from the notion that a governmental entity may not recover costs of public services incurred responding to an incident.

These costs were presumed to have already been borne by the public as a whole through taxation, and to allow the collec-

More on Page 6

Backward America

by Lou Binninger

You pay more than 100 different taxes each year with the understanding that government will take care of business. In the post war 1950s through the 1970's amazing modern cities, airports, roadways and water projects were developed preparing us for the future. The world was in awe of America.

However today, higher and higher taxes are demanded while Americans cope with crumbling bridges and roads. Grass grows through neglected cracks in the streets and sidewalks while rubbish and derelicts are strewn everywhere. Sections of cities are abandoned and have the look of an urban combat zone.

It's as if America fell asleep, woke up in a high tech world with a ruler in hand and pencil behind its ear. It went backwards while the rest of the world screamed forward.

Hong Kong, Shenzhen, Shanghai, Seoul and Singapore have transformed themselves from backward disease-laden Third World cities to ultra-modern high-tech manufacturing hubs with smooth, quick and clean under and above ground transport systems.

American airline companies cannot compete with the Asian carriers (Singapore, Asiana, Korean, EVA, ANA, Cathay) and their flyer-friendly and stylish comfortable airport hubs. Need a quick shower, want to see a free movie, hit the gym, get a massage, want a hotel room to relax in the terminal, it's all there.

Want to get checked-in for an international flight minutes after entering the terminal, be treated with class and courtesy even in the cheap seats; that would be the Asian carriers.

Why can Americans no longer build and maintain infrastructure like European and Asian countries? Its simple, America is in shambles due to environmental activists and labor unions.

Take the Keystone Pipeline designed to bring oil into US refineries from Canada. Piping is much more efficient and safer than other modes of transport (rail cars and trucks), but irrational environmentalists get hives when fossil fuels are even whispored though they benefit from them every day. They scream this pipeline would be a national disaster while other pipelines safely crisscross the US.

Keystone has cleared environmental review two times by liberal administrations (Hillary Clinton 2011, John Kerry 2014) but

Tiny Units For Emergency Homeless Shelter

Sutter County, Ca.

Twenty 10-foot by 16-foot wooden prefabricated units have been ordered that will serve as the first general homeless population emergency shelter in Sutter County.

The units, which are expected to arrive and be assembled in mid-August, will house up to 40 homeless individuals who agree to utilize services provided by several organizations, with the goal of becoming permanently housed. The shelter will be established on county property at 1965 Live Oak Boulevard, behind the Sutter-Yuba Behavioral Health Services building.

The shelter is expected to open in September. County officials are finalizing discussions with the Salvation Army to provide management of the facility. The Salvation Army operates The Depot homeless shelter and drug treatment program in Marysville, and recently opened additional housing in Linda for individuals who were made homeless by the Camp Fire.

Those who access the emergency shelter will be

expected to stay no longer than 90 days and to be working toward the goal of acquiring transitional and permanent housing while utilizing the emergency shelter.

The shelter will be modeled on Yuba County's 14 Forward concept of tiny units coupled with access to services on 14th Street in Marysville. That program has received statewide recognition as an example of practical emergency shelter.

Sutter County has scheduled a community meeting at 6 p.m. on August 22 at the Sutter County Veteran's Hall, 1425 Veteran's Memorial Circle, Yuba City, to provide operational details of the emergency shelter.

Until recently, Sutter County has been under a federal court injunction blocking enforcement of an ordinance prohibiting camping on Sutter County property, including county-owned property along the Feather River. The injunction applied to a specific no-camping ordinance adopted by the Sutter County Board of Supervisors in

2017. The injunction was lifted after the Board repealed that specific ordinance, but an older ordinance also addressing where people can or can't camp remains in place.

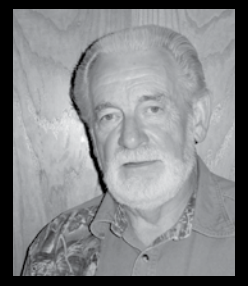

Although the injunction has been lifted, local law enforcement agencies cannot cite or arrest individuals for sleeping on public property if there is no alternative location for them to sleep, according to a U.S. District Court of Appeals ruling in 2018. In essence, the court said, it is a violation of the U.S. Constitution for local government agencies to make homelessness a crime. While the court did not require local government agencies to provide shelter, it made it clear that in the absence of adequate shelter beds, local governments cannot remove homeless individuals from public rights of way.

Wednesday, August 7, the Sutter County Board of Supervisors met in special session at Yuba City Hall with the Yuba City Council for the second session of a workshop on homelessness. During the first session in late May, supervisors and council members heard presentations on the extent of homelessness, efforts to assist those homeless individuals who are seeking help, and the court rulings which prevent enforcement of the no-camping ordinance in Sutter County.

FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for more than 75 years. Anyone with questions or comments can email him at boots3@syix.com

Now is the time to head to the ocean for those who enjoy this kind of sport. Halibut, salmon and rockfish are the name of the game at this time in San Francisco Bay. Just about any marina is scoring with party boats returning full of fish. Hot spots last week was out of Berkeley and Emeryville.

As predicted, the Barge Hole on the Sacramento River proved to be a good bet on the opening day and still continues to produce quality salmon.

It appears this time of year is the time to go after catfish. Just about anywhere this fish lives is producing fish at this time which includes Collins Lake. The cats are reported to be suckers for just about any bait thrown at them, including power bait and worms. Of course, the big ones like the stink baits and chicken guts.

Lake Tahoe is still putting out some nice mackinaw lake trout and mixed in is limits of kokanee land locked salmon. The trout are holding in water between 150 and 180 feet and are being caught jigging and trolling with live minnows. Kokanee are running from 13 to 15 inches and some lake trout up to 10 pounds have been reported.

We hear from Eagle Lake near Susanville. This natural lake is still producing some nice eagle lake trout at this time. In fact, the lake has been cooperating all year. The trout have moved deep

and are reported to be found in 25 to 40 feet of water. Drifting night crawlers is productive as well as lures which imitate the native fish in the lake such as the tule chub minnow. A good bet is always spoons and spinners in silver color.

Ice House Reservoir and Union Valley Reservoir, both located in El Dorado County, received planted trout last weekend. According to a good source we are told some big spawners were also dropped in Ice House Reservoir along with the

usual plant. Englebright Reservoir located above Marysville is overrun with skiers, wave runners and so on. Best to stay away from the fishing for a while.

Bullard's Bar Reservoir is still a hot spot in the North State for kokanee salmon. Best bet for lots of action is at the dam. Be prepared to share this spot with lots of boats.

Closing thought: "No matter how long you have traveled in the wrong direction, you can always turn around."

Two to choose from

MYCC Spotlight Back To School

Marysville Youth & Civic Center is planning a Back To School Bash on Friday September 6, 2019 from 4pm to 9pm. We are currently in need of sponsors to donate prizes for our event, as students will have the opportunity to earn tickets throughout the night and cash in those tickets for prizes. Please contact Peggy Smith at programs.mycc@gmail.com if you can donate prizes. The event is currently being sponsored

in part by Golden Pacific Bank, Staples, Starbucks and the US ARMY. Many more are needed.

This should be an evening full of fun for all Yuba Sutter Students and is a free community event. Entry is free, parking is free, games are free, and entertainment is free! There will be a charge for food purchased from the Snack Shack. We will have a DJ, Carnival style games, live games, entertainment and much more.

We are also hosting a backpack and school supply drive throughout the month of August. There are five distribution locations: Golden Pacific Bank on N. Walton Ave in Yuba City and on Live Oak Blvd in Live Oak. Rabobank on Butte House Rd in Yuba City and Starbucks on Stabler Lane in Yuba City and 9th & E St in Marysville.

Rise Up is having another fun filled Trivia Night on Wednesday August 14, 2019 starting at 6pm. This month's trivia will be based on Marvel Cinema. Cost is \$30 for a team of 2 to 4 people. Grand Prize is (4) Hopper Tickets to Disneyland as well as a super 2nd place prize. So study up on all your Marvel Movies and come join the fun. So join us for our upcoming events and follow us on facebook for all our up to date event information.

STANDARDS OF ETHICS AND ACCURACY EXCEED THOSE OF THE NEW YORK AND LOS ANGELES TIMES (D)

ALLEY, I'M GETTING WORRIED. WHAT IF WE'RE STRANDED IN GREECE FOREVER?

I HADN'T THOUGHT OF THAT, OZOLA.

THAT WOULD MEAN...

THAT WOULD MEAN...

I WOULDN'T GET TO SEE MY FRIENDS AND FAMILY EVER AGAIN!

I WOULDN'T GET TO EAT PIZZA WITH MY FRIENDS AND FAMILY EVER AGAIN!

THIS IS TERRIBLE. THINGS COULDN'T GET ANY WORSE!

ALLEY, DON'T SAY THAT. YOU'LL JINX US.

OKAY...THINGS COULDN'T GET ANY BETTER?

YEAH, NO.

WH... WHO ARE YOU? IT'S LIKE LOOKING INTO A MIRROR!

DON'T INSULT ME. I WOULD NEVER WEAR SOMETHING THAT COLOR.

INDEED. YOUR COLORS ARE AUTUMN, AND YOUR LEGS LOOK MUCH BETTER IN A SKIRT.

I'M OLLIE ARP, AND THIS IS BEENA. WE'RE FROM ANOTHER UNIVERSE, AND WE HAVE TO TALK TO YOU.

ANOTHER UNIVERSE?! WHICH ONE?

IT'S CALLED 'UNIVERSE 3.'

NEVER HEARD OF IT.

REALLY? WE REALLY VOTED BEST UNIVERSE BY MULTIVERSE MONTHLY.

YOU SAY YOU'RE FROM ANOTHER UNIVERSE, BUT HOW DO WE KNOW YOU'RE TELLING THE TRUTH?

OLLIE, WILL YOU DO THE HONORS?

20 MINUTES LATER

WELL, THAT PROVES IT. YOU'RE FROM THE KNOW-IT-ALL UNIVERSE!

SO YOU COME FROM ANOTHER UNIVERSE? DID YOU BRING ME ANYTHING?

DID WE — NO! — WE'RE HERE TO...

ACTUALLY I BROUGHT YOU THESE COOL RUBBER BRACELETS THAT SAY 'UNIVERSE 3 RULEZ!'

WHAT? YOU KNOW I CAN'T JUST SHOW UP EMPTY-HANDED!

Bolt Tool Museum presentation on Vintage Tractors

Oroville, Ca.
The Bolt Tool Museum, 1650 Broderick Street, Oroville, Ca. 95965 in Oroville, is pleased to announce that Rod Hisken will make a presentation on Vintage Tractors. Mr. Hisken is a skilled public presenter and has filled the room for several years with his entertaining and informative style.

These lectures help to keep the Museum in operation and his help is appreciated.

Rare John Deere's and Fabulous Fords have been past efforts and this year the focus will be Farmin' with Farmalls. Several red tractor collectors from Northern California have been invited to show their restored gems and will be on display for the public. Their owners will be present to answer questions and share knowledge about the restoration processes.

Mr. Hisken will bring the famous Osumi tractor. This tractor was restored by a young man who graduated from the Wheatland High School Farm Mechanic Program. It was purchased by David Osumi in 1948 from the newly founded Valley Truck and Tractor when they began as an International dealer. It is believed that the tractor was sold by Henry Miller to David. This was the first tractor that David bought for his tomato farming business after he returned from internment with his family. Everything was gone! His hard work and focus is a testament of the belief to moving on in this great country of ours. Yes, we have made mistakes, but there is still no other place in the world like the United States.

You may have driven past the Museum for years without stopping

and going in to view the famous collection and research that Mr. Bud Bolt has achieved. It is indeed a marvel to explore and you will wonder why you didn't come sooner. People from all over the world have come and visited. Their appreciation has generated numerous tools from several continents.

Hope to see you at the Bolt Tool Museum on August 17 at 10:00 AM

Food and Farm News

Livestock owners look for backup water sources

The potential for power outages intended to prevent wildfires has livestock owners working to be sure they can provide water for their animals. Farmers and ranchers who use electric pumps for livestock water say they're looking for generators and other backup systems. A University of California farm advisor says power outages could be especially troublesome for small-scale livestock owners. Utilities provide information about backup generation resources and vendors.

Many rural roads remain inadequate

Trucks carry 70% of farm and food products,

Diane Leighton (L) VQG Community Service Chairperson along with Diana Adams, Program Specialist for Foster Kinship Care Education at Yuba College

Valley Quilt Guild quilts for foster children

At the most recent Valley Quilt Guild meeting, 117 quilts were given to foster children. Diana Adams, Program Specialist for Foster Kinship Care Education at Yuba College received the quilts on behalf of foster children in our counties. She explained about her program and brought thank you notes from children who had received quilts in the past.

The Valley Quilt Guild has a long history in the community of providing quilts for foster children. The non profit organiza-

tion was established in 1982 and currently has about 150 members. The purpose of the organization is to grow quilting by providing educational and fun activities related to quilting and to encourage community service by participating in quilt related projects

such as making quilts for foster kids.

The group meets monthly, except November, and welcomes anyone interested in quilting, whether beginner or proficient quilter. Check the website: www.valleyquiltguild.com for further information.

Yuba County Pet of the Week

Meet Jasper (A180004), the somewhat friendly Alpine goat. He has been at the shelter for a while, and is in need of a country home. He is curious, and comes to the fence when someone approaches. He may be shy at first, but once trust is established, will be your friend. His age is unknown. Goats are great foragers, and will help keep your grass short! Please come take a look!

UPCOMING EVENTS

Petco Adoption Event: September 7, 2019, 10 a.m. to 2 p.m., Petco, 1110 Harter Parkway, Yuba City

Clear the Shelters Event: Saturday, August 17, 2019. More information pending.

Yuba County Animal Care Services is located at 5245 Feather River Blvd., Olivehurst. The phone number is 530-741-6478. Kennels are open Monday – Friday 10am – 3:30 pm and Saturdays 10 am – 2 pm. You can also go to www.petharbor.com or www.petfinder.com to see all of our adoptable animals and look for your lost family pets, or check out our Facebook page, Yuba County Animal Care Services@yubacountyACS. We also have an Amazon wish list if you would like to help support the shelter. The link to our wish list is; [Amazon.com http://a.co/8CHgQ5e](http://a.co/8CHgQ5e).

TOPICS OF INTEREST

STARS Volunteers: The Yuba County Sheriff's Department is recruiting volunteers to work in key departments, including the Animal Shelter. Use your spare time to help us build a safer community. Please call (530) 749-5102 to speak with a volunteer. Read more about the program and find the STARS application online at: <http://sheriff.co.yuba.ca.us/Divisions/Stars.aspx>

Donations: The STARS help support the ACS Shelter. Donations are used to help offset spay and neutering costs, feed costs, and other costs associated with the care of the animals. If you would like to donate, you may send donations/checks to YCACS STARS at the Animal Care address: 5245 Feather River Blvd. Olivehurst, CA 95961. You can also donate via our Facebook page. Thank you in advance for any help you can provide.

The ACS STARS are looking for donations to help sponsor additional shot clinics. If you are interested in sponsoring a clinic, or donating funds to help sponsor a clinic, please contact us, or you may send in a donation indicating it should be used for sponsoring a shot clinic. Thank you in advance for any help you can provide.

SUPERIOR COURT OF CALIFORNIA COUNTY OF YUBA IN THE MATTER OF THE APPLICATION OF: Nimrod Sarda. PETITIONER CASE NUMBER: CVPT 19-001209. ORDER TO SHOW CAUSE FOR CHANGE OF NAME

HEARING DATE: August 19, 2019
 DEPT: 4
 TIME: 9:30 A.M.
 Petitioner(s) Nimrod Sarda filed a petition with this court for a decree changing names as follows:
 1) from: **Nimrod Sarda** to: **Niko Sardas.**
THE COURT ORDERS that all persons interested in this matter appear before this court at the hearing indicated below to show cause, if any, why the petition for change of name should not be granted. Any person objecting to the name changes described above must file a written objection that includes the reasons for the objection at least two court days before the matter is scheduled to be heard and must appear at the hearing to show cause why the petition should not be granted. If no written objection is timely filed the court may grant the petition without a hearing.
 A copy of this order to show cause shall be published at least once each week for four successive weeks prior to the date set for hearing on the petition in the following newspaper of general circulation, printed in this county: Territorial Dispatch.
 DATE: July 16, 2019
Stephen W. Berrier
JUDGE OF THE SUPERIOR COURT.

LEGALS, (Cont.)

NOTICE OF TRUSTEE'S SALE
Trustee Sale No. 130731-11
Loan No. N4740T0 Title Order No. 95312416 APN 021-370-008-000 TRA No. YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED 08/14/2007. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDINGS AGAINST YOU, YOU SHOULD CONTACT A LAWYER. THE MONEY MAN CORPORATION as the duly appointed Trustee WILL SELL AT PUBLIC AUCTION TO THE HIGHEST BIDDER FOR CASH (payable at time of sale in lawful money of the United States, by cash, a cashier's check drawn by a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in section 5102 of the Financial Code and authorized to do business in this state) all right, title and interest conveyed to and now held by it under said Deed of Trust, described as follows: Trusstor(s): BOLAMAN PROPERTIES, INC. Deed of Trust: recorded on 08/16/2007 as Document No. 2007R-013990 of official records in the Office of the Recorder of YUBA County, California, Date of Trustee's Sale: **08/22/2019 at 01:30PM** Trustee's Sale Location: **At the front entrance to the County Courthouse, 215 5th St., Marysville, CA 95901** The property situated in said County, California describing the land therein: AS MORE FULLY DESCRIBED IN SAID DEED OF TRUST The property heretofore described is being sold "as is". The street address and other common designation, if any, of the real property described above is purported to be: **1056 GRAND AVENUE, OLIVEHURST, CA 95961.** VACANT LAND: Directions may be obtained pursuant to a written request submitted to our office within ten days from the first publication of this notice. Please contact Doris H. Yager, Trustee of the Doris Yager Revocable Family Trust, et. al., c/o Mortgage Lender Services, Inc., 11707 Fair Oaks Blvd., Ste 202, Fair Oaks, CA 95628. The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by said Deed of Trust, with interest thereon, as provided in said note(s), advances, if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust, to-wit: \$142,157.27 (Estimated). Accrued interest and additional advances, if any, will increase this figure prior to sale. The Beneficiary may elect to bid less than the full credit bid. The beneficiary under said Deed of Trust heretofore executed and delivered to the undersigned a written Declaration of Default and Election to Sell, and a written Notice of Default and Election to Sell. The undersigned caused said Notice of Default and Election to Sell to be recorded in the county where the real property is located and more than three months have elapsed since such recordation. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee, and the successful bidder shall have no further recourse. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call 916-939-0772 or visit this Internet Web site www.nationwideposting.com, using the file number assigned to this case 130731-11. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. Date: 07/19/2019 MORTGAGE LENDER SERVICES, INC. as Agent for THE MONEY MAN CORPORATION, AS TRUSTEE 11707 Fair Oaks Blvd., Ste 202 Fair Oaks, CA 95628 (916) 962-3453 Sale Information Line: 916-939-0772 or www.nationwideposting.com Tara Campbell, Assistant Vice President MORTGAGE LENDER SERVICES, INC. Msl Emergencies Cost Users

tion of such costs would constitute double recovery for the governmental entity or additional taxation.

However, the “free public services doctrine” has two major exceptions. First, “[a] municipal corporation may, however, avoid this non-recovery rule by statute.” Second, a governmental entity may recover emergency services costs “by alleging that the county utilized emergency services to protect property of its own.”

These exceptions have allowed jurisdictions to charge for not only structure and grass fires and hazardous waste spills, but also for medical emergencies. However, the court says that statutes must be in place to assess the charges.

Some states forbid

charging for responses except for hazardous waste incidents. California statutes allow municipalities to bill for all emergency services.

One argument for service fees is that non-residents who pay no taxes here should pay for the services provided by emergency responders. Another argument is that taxes no longer meet the cost of public safety agencies so the users of the service should pay a fee for usage, resident or not.

If Marysville is going to charge residents for medical emergencies it may want to give people an option to rely on Bi-County Ambulance (BCA) only since residents will be paying taxes, a separate response fee to MFD and the costs of BCA.

Currently BCA and

MFD both respond to medical emergencies, but BCA has a paramedic (higher medical training) with each unit. Having both fire / rescue and an ambulance response is a redundancy created when firefighters unionized and wanted to justify higher salaries and benefits by adding medical responses to only fighting fires.

It now may be a luxury residents here can no longer afford. Many Marysville people may opt to make it to the hospital on their own or call BCA directly to avoid an extra response fee for MFD.

Since it is a new program maybe the council should make it clear to city residents by sending a “menu” of what future costs they may be incurring. Some cities charge \$300 for responding to a

medical emergency.

When firefighters basically just fought fires up to the 1970s they earned a pittance of their salaries today. In fact, most firefighters in the country are still volunteers. And, fires of all types have decreased dramatically.

However, now jurisdictions can’t add taxes, fees and charges fast enough to keep up with the \$100-400 thousand salaries, health benefits and pensions for public safety people and administrators in rural California jurisdictions.

Even public safety people after retiring are fleeing the state to avoid the egregious taxes, fees and regulations.

Backward America

has been marooned for ten years due to adversarial legalism. In 2018, Obama appointee Montana Judge Brian Morris halted the construction for the third time after President Trump gave it the go ahead.

This legal harassment shows up on every project with 50,000 federal environmental reviews and thousands more state and local studies every year. A dredging project in Oakland harbor started in the 1970’s was not completed till the 1990’s. Four challenges delayed a water desalinization plant for 12-years and added hundreds of millions to the cost in arid San Diego County after it was proposed in 2003.

Raising the existing

New Jersey Bayonne Bridge was delayed 5-years with 20,000 pages of review documents. The bridge would simply allow bigger ships to pass beneath.

European and Asian projects are proposed, financed and finished in the time Americans take to do their environmental review and the foreign projects are much cheaper to build.

A 2011 study by Israeli mathematician Alon Levy found that a mile of subway tract in Continental Europe or Japan costs \$200-\$450 million. Vancouver, Canada’s new line (40% underground) cost \$130 million a mile in a densely populated area. London’s extension of The Tube came in at \$640 million.

In New York City, the Second Avenue Subway, a two mile extension of an existing line took 10 years and \$2.4 billion per mile. NY’s East Side Access Project will cost \$3.5 billion per mile or 7 times the average cost of other cities worldwide. The project started in 2007 and will finish in 2022 or maybe 2030 if green activists are lucky.

Why so expensive? Enter the labor unions whose motto should be “work slowly and charge more, a lot more.” Sometimes they are even paid to not work. The Sandhogs Union in NY charges \$111 per hour according to a NY Times investigation. Combine that with this fact – the same task accomplished in Madrid, Spain with 8 workers

takes 24 in NY.

An investigation of NY’s East Side Access construction found that roughly 200 of the 900 workers on the underground project were being paid to do nothing. In Boston, the Green Line Extension Project is set to cost \$530 million per mile and it’s all above ground.

What is the result of all this? Americans are living in a 20th Century infrastructure world. We can’t build a 21st Century version. The unions and environmentalists forbid it.

\$2 Million Loan to Three Rivers Levee Improvement Authority for Land Acquisitions

The Yuba Water Agency additionally approved a cash-flow loan for the Three Rivers Levee Improvement Authority to help advance the Goldfields levee project.

The \$2 million loan

will provide funding to move forward with the acquisition of approximately 108-acres of land needed for the project.

Total cost for the land acquisition is approximately \$7.7 million and

the California Department of Water Resources has agreed to cover \$5.8 million of that cost, with Three Rivers paying the remainder. Due to the uncertainty of when the state funding will become available, Yuba Water has agreed to provide a bridge loan to Three Rivers to keep the project on schedule.

The project will reduce flood risk for properties within Reclamation District 784’s service area, and will meet the state’s 200-year levee standards, meaning there is a 1-in-200 chance in any given year that a storm could overwhelm the system.

Three Rivers has agreed to reimburse Yuba Water Agency by 2020.

Yuba Water’s loan to Three Rivers is part of the agency’s long-standing mission to reduce flood risk for Yuba County. In

prior years, Yuba Water has assisted Three Rivers with policy, technical and financial aid, including carrying the local cost-share for the construction of the Feather River Setback Levee. Yuba Water is repaying \$5.5 million per year for that project, which was part of the levee repairs and improvements completed under the authority of the federal Yuba River Basin Flood Damage Reduction Project.

Yuba Water is able to make these financial contributions to support projects within its mission areas for the benefit of the people of Yuba County. The agency’s missions include reducing flood risk, ensuring a sustainable water supply, hydropower generation, fish habitat enhancement and recreation at New Bullards Bar.

In-home Care Services

At Comfort Keepers®, we provide in-home care that helps seniors and others live safe, happy, and independent lives in the comfort of their own homes.

MoneyManagementRadio.com

Because Your Money Matters!

Marc Cuniberti hosts "Money Matters" on KVMR 89.5 FM Thursdays at noon. His website is www.moneymanagementradio.com

Buying a Bond or a Bond Fund.

Bonds are simply IOU's. You loan money to an entity and they give you an IOU for the most part. There are terms such as when you will get your money back, how you will get your money back, how much they might pay you in compensation for the loan (interest you will get) and any other special terms and conditions, of which there can be many.

Without going through all the specifics, just swallow the term IOU and you are well on your way to understanding at least one of the important parts of how bonds work and what they are.

There are a multitude of bonds available ranging from junk (from companies not at their healthiest), investment grade (have good financials), muni (IOUs from cities), and state and federal bonds to name a few. Bonds are usually rated by well-known rating companies for quality, have different payments terms and rates, possibly be insured, be able to be called away early, and have a variety of other terms and stipulations.

Although I have covered bonds before in a variety of articles and radio shows, today's lesson is on the difference between buying a bond and buying a bond fund.

When an investor buys an individual bond, he essentially goes into contract with the borrower or "issuer" of the bond. It might be a company, a city, a state or some other entity. The buyer of the bond is the

lender who gives his money to the entity and the bond is in essence the contract.

Although the terms and conditions vary from bond to bond, the mechanism by which their price moves in the daily market is similar.

Suppose an investor buys a \$10,000 bond which matures in 5 years paying 5% annual interest. Although how and when the investor gets paid can vary, the \$10,000 price tag is printed on the bond and that number obviously being printed on the bond itself, won't change. If the investor holds the bond for the duration (5 years in this case) and the borrower doesn't default, the investor gets his \$5,000 back and receives his interest as well either along the way or at the end of the 5 years.

Now suppose the interest rates set by the Federal Reserve (nationwide rates they control to the banking system) are raised by a Federal Reserve decision. This will not affect this bond as far as the printed price on the bond nor the interest rate which it promised to pay. If the investor keeps the bond to the end of the maturity date (5 years from when it was purchased) nothing changes. However if the bond holder (the investor) decides to sell the bond early (before the 5 years maturity date) something does happen.

Since the bond is paying a fixed rate of return (the interest rate known as the coupon rate) and that rate was established before rates were raised by the Federal Reserve, once the Fed raised the rates, all bonds with similar terms and maturity rates will likely pay more interest.

In other words, bond issuers (the borrowers) set what interest rate they will pay somewhat

based on the interest rate the Fed's have, so if the Fed's raised the rates, the bond borrowers will also likely pay a higher rate.

That means the current 5 year bond is now paying less than a new bond would. Should the investor want to sell the bond early and since that bond is paying less than the new rates set in part by the Fed, in order to sell the bond the price will be lowered below the original price of \$10,000.

How much lower depends on how high the rates were raised by the Fed and how far out the maturity date of the bond is.

A bond fund on the other hand holds not just one bond but a basket full. A similar thing happens to a bond fund. Should rates rise, a bond fund will likely fall in price. Conversely if Fed rates fall, a bond fund price will likely rise. Ditto with an individual bond. Rates rise, bonds fall. Rates fall, bonds rise. Once again how much they rise and fall will depend on the length of the bond (or bond fund) maturity date and how much rates have moved overall.

The difference between the fund and the individual bond is the funds price will change daily and be seen daily by all investors. As for individual bonds, although an investor will see the \$10,000 printed on the bond and printed numbers don't change obviously, what he can actually sell the bond on any particular day will require an inquiry on the part of the investor to obtain the market value of the bond should he desire to sell it early.

Although the overall effect on bond funds versus individual bonds will essentially be similar, their price visibility is slightly different in the eyes of the average investor. Bond funds will be easy to value by looking at the price (much like a stock price) which will change daily. Individual bonds however will be slightly harder to value requiring an on-the-spot inquiry and a bit more knowledge as to how they are priced.

A Letter from Lydia's House

Dear Friend,

Lydia's House is a women's discipleship program in the Yuba/Sutter area. Women come into our residential program for a period of nine to twelve months receiving love, support, healing of the body, mind, and spirit. We offer a clean, sober and nicotine free environment where we minister to our residents through biblical counseling, community work, classes, groups, individual mentoring and guidance as they develop a firm foundation becoming disciples of Jesus Christ.

Lydia's House has been serving the community and helping women for three blessed years now. We have had the opportunity to touch the lives of so many women through our program and endeavor to expand and grow as the Lord leads us. However, we cannot

do this alone. Facing the painful cycle of addiction in our community and families means we need to come together to bring about change. Change is what we do at Lydia's House.

We currently have six women residing in our home and we have 3 graduates continuing in our aftercare program. On average, it costs \$1100 monthly per woman in residence at Lydia's House. Please consider donating to help reduce and alleviate the burden of cost for this amazing ministry.

Lydia's House was founded through ministry at The Bride Church in Yuba City. Currently we are operating under the nonprofit status at The Bride Church. We graciously thank you, if you have already chosen to partner with us in our changing lives ministry. We are only able to do

what we do because of you. We strive to transform hearts, renew minds and change each and every life that walks through our doors.

How can you help? First and foremost, we need your prayers as we walk with these women from brokenness to freedom. We also desperately need financial support to continue blessing and changing lives and hopefully expanding our program. We are also looking for donations for our raffle and auction at our upcoming fundraisers. We thank you. We will be praying for you and your business throughout the year in thanks for your generosity and love.

Would you like to see your donation at work? Please contact our office to arrange a visit to our facility.

Yuba Water Agency Funds TIP

training in support of local first-responder agencies

Marysville, Ca.

The Yuba-Sutter Trauma Intervention Program will be better able to support victims of crime and survivors of tragedy with the help of a grant from Yuba Water Agency.

The \$10,000 grant, approved today by the agency as part of the Bill Shaw Rescue Equipment and Training Grant Program, will allow the nonprofit organization to purchase necessary training and materials for its volunteers who provide direction and emotional support to victims. Each TIP volunteer receives 55 hours of training before their first response and participates in monthly training.

"It has been an honor to bring the Trauma Intervention Program to our community," said Lou Binninger, program director. "Being present in someone's tragedy is a

sacred experience. When TIP is involved, hurting people get better care here than elsewhere in America. We are grateful for all the community volunteers and contributions to support our mission."

The Yuba-Sutter TIP is a self-funded organization that was established in 1994 to support local law enforcement, hospital and ambulance services, and responds to all 911 requests with immediate on-scene support for victims of crime and survivors of tragedy. Since its creation, the organization has responded to more than 11,000 calls.

"These well-trained volunteers respond 24 hours a day, seven days a week to help victims of tragedy," said Yuba Water Agency Vice-Chairman Randy Fletcher. "They are first respond-

ers in every sense of the word."

Like all Bill Shaw grants, the agency is able to make these funds available because the first responders may be called upon to provide emergency support to the agency's facilities and staff, or to people recreating at its lakes or on the Yuba River.

Yuba Water's Bill Shaw Rescue Equipment and Training Grant Program, which was created in 2018, is designed for first-responder agencies in Yuba County and will cover the one-time costs of up to \$10,000 per applicant annually, associated with the purchase of rescue equipment and specialized personnel training. Since its inception, the program has supported 13 agencies with \$138,500 in grants.

THE Brownsville Bailiwick & Beyond

Are you a regular at Stone Soup? Each Thursday at noon a great lunch is served: homemade soup, a good salad bar, and a dessert. But best of all there are many friends and neighbors to visit with. All of this for a \$3.00 donation. In addition, now there is a community workshop on the first and third Thursday after lunch. We have listened to speakers give us information on evacuation plans, legal issues on trusts and reverse mortgages, and making your property as fire safe as you can. There are several other workshops planned. On the second Thursday of each month we have a Souper Sale (flea market) to help pay the bills. On the fourth Thursday we celebrate birthdays. Hope you join us.

The Foothill Art Society will be presenting their 10th Annual Art and Wine Show on Saturday, September 7 from 10 am to 4 pm at the Hoffman Center for the Arts located on the Sutter North Medical Clinic's grounds on Willow Glen Rd. in Brownsville. There will be entertainment, food and of course amazing artwork by local artists and various wines from local wineries to enjoy with your lunch. It is a wonderful way to spend an afternoon with friends, neighbors and family.

Next Step will have a table at the 10th Annual Art and Wine Show with pie and cobbler ala mode. All funds from the sales will go toward setting up a taxi type service for those on the hill who have no transportation. Enjoy your pie ala mode as you rest in the midst of fine art.

The delicious soups that we all enjoyed at Mayflour Bakery are now available to take home. On the first Saturday of each month, from 9am to noon, Loretta will be at Books & More,

with a selection of her soups. All soups are frozen in 4 and 8 oz containers. Here is just a short list of some of them: Chicken Pot Pie, Lemon Chicken, Lentil, Creamy Onion, Tomato Dill and the list goes on. I have used some of the soups as a base for pasta and meat or combined two soups for a whole new taste. They're not just soup. Books & More is located on Willow Glen Rd. in Brownsville.

CHANGE! The food giveaway that is held at the Old Grange on La Porte Rd. in Brownsville is changing their giveaway day. It will now be on the 2nd Saturday of each month from 10 am to 2 pm. Proof of residency is required.

Look Back in Time – In 1909 Dennis LaPlant made a rich strike of quartz gold on his claim on Rabbit Creek (his lucky day).

Hope to see you in Brownsville soon.

Christine and Yvonne

CRITIC'S CORNER

by Matt Woolery

Once Upon a Time in ... Hollywood

Starring: Leonardo DiCaprio, Brad Pitt, and Margot Robbie. Rated: R, Runtime: 2 hours, 41 minutes.

A day in the life of Rick Dalton, a waning actor and his stunt double, Cliff Booth. Their escapades paint a picture of the less washed times of Hollywood. Rick struggles in his acting career and Cliff just goes with the flow. All the while their neighbors' lives are peppered through the film to remind us of the impending peril.

Once Upon a Time in ... Hollywood, earns one out of five, Dirty Footed Monkeys. The acting is better than most Quentin Tarantino movies. The actors deliver their lines in a more natural way, not in the usual Tarantino style, with declarative statements as if every word uttered from their lips are the most important words spoken by human tongue. The production value itself was great and a lot of attention to detail went into it. The pace of the film was glacially slow with small calvings of plot and action spread too thin to keep one interested. I had the urge to walk out, but alas I persevered to the very end and it was worth it. The last half hour of the movie contained a satisfying ending that turned one monkey from the brink of abandoning ship.

Why Are Taxpayers Paying for Road Improvements to Accommodate Commercial Trucking Yards South of Yuba City?

by Pat Miller, President Sutter County Taxpayers Association

While we need commercial trucking to bring goods to our community, is it the responsibility of the taxpayers to pay for road improvements to accommodate commercial truck yards in Sutter County?

A Little Background: Major concerns about the numerous commercial truck yards south of Yuba City have been raised for several years by residents and others in the south area. There are 13 existing truck yards and four potential yards on the east side of Highway 99 between Walnut Avenue and O'Banion Road. There are currently over 1200 trucks in existing yards producing an estimated 167 truck trips a day onto Highway 99.

Starting in 2016, residents and others in the area have expressed concern and frustration over a number of truck yard issues, including safety and environmental, to county officials. To address these concerns county supervisors established a Commercial Trucking Issues Ad-Hoc Committee on August 22, 2017.

While many of the concerns were addressed in a Zoning Code amendment passed by the board on June 11 of this year, there are still major concerns regarding safety and costs being borne by the taxpayers. So far, the trucking

yard owners in the area have paid nothing to help resolve the safety issues. The costs to date include:

- A \$423,355 contract with an outside firm to study safety issues at Oswald Road and Highway 99. That study was authorized on October 9, 2018 and has not yet been completed.

- A \$50,000 cooperative agreement with Caltrans in January 2019 for a project study report.

- Installation of "No Parking" signs on Oswald Road at a cost of \$1200.

- Future improvements and paving on Highway 99 and county roads – costs unknown.

- County staff time to work on this issue for the past several years.

And, it has been recently learned there is a potential county plan to route trucks down Railroad to Barry Road,

What a Stupid Headline!

The Appeal-Democrat Wednesday, August 7th, front page article is headlined:

"TRUMP WANTS TO KEEP HIS TAX RETURNS PRIVATE."

Do you suppose there are ANY Americans that WANT their tax returns made public, other than narcissistic Hollywood and political social-climbers?

As citizens, tax returns are confidential,

then to the stop light at Barry Road and Highway 99. Barry School sits on the northeast corner and the fire house is located on the southeast corner of the intersection. Not only would this block firetrucks from responding to emergencies, the truck traffic would pose a real safety risk to the kids, parents and faculty at Barry School.

This entire truck situation presents two important questions:

1. Why are taxpayer funds being spent to accommodate trucking yards without any contribution from truck yard owners/operators?

2. Why is the county accepting applications for additional truck yards and making plans to re-route trucks to Barry Road, and possibly Bogue Road, prior to completion of the \$423,335 traffic study?

protected by law. You didn't know that? Yet your headline implies there is something wrong with Trump for wanting the same protection our government guarantees to you. Your dwindling circulation would likely improve if you tried to reflect – rather than ridicule – the patriotic community you serve.

Robert Mackensen,
Yuba City, Ca.

Letter to Supervisor Fletcher

Dear Supervisor Fletcher,

As one of your constituents I am writing to express my grave concern about this fire season and to ask for your help.

I trust that as every Yuba County resident you are also concerned about fire dangers in this time of year, especially in light of the devastating fires in the recent seasons. I trust that as our supervisor, you would like to do all that is in your powers to prevent such disasters as we have seen last year in Paradise, and to help communities be as prepared as possible should a fire start.

One of the best preparations for fire is availability of water and green belts around houses and properties.

The North Yuba Water District just announced their plan to prematurely end the ir-

rigation season in the coming weeks. They claim this is due to the lack of available water, yet, a simple research and consultations with state-wide experts and with neighboring water districts reveal that their claim cannot be substantiated. There is plenty of water and the irrigation canal can deliver what is needed with little or even no maintenance.

Last year you told me personally that you rather stay out of the local business of the NYWD. Yet I trust that as a supervisor, a board member of the Yuba County Water Agency and as an influential member of our community, you have the capacity to avert their decision.

Without irrigation water in the coming months, there will be more parched properties in Oregon House and Dobbins, ponds will dry

out and the fire hydrant on Rices-Crossing Road will remain empty. This can very well determine the verdict of residences in this area, should a fire start here.

Please help us remain safer in this fire season by keeping the irrigation water flowing and please save your conscience from the horrible images of burnt houses that your decision could prevent.

Sincerely and gratefully yours,
Israel (Rulik) Perla
p.s. Copies of this letter were sent to the other Yuba County Supervisors, the board of the Yuba County Water Agency, and the Territorial Dispatch newspaper.

Editors note: The actual quote from the manager is that they are monitoring Dry Creek, checking policy and forecasting when to cut back in order to keep water flowing.

THINK About It!

By Charlie McNiff

She Could Be Toast: Ilhan Omar's 8 Instances of Perjury

A whole lot of law-breaking afoot in Washington, D.C. and the new Sheriff in town, Attorney General William Barr, is going to get busier and busier.

We haven't heard much at all from the "Fake Media" after Robert Mueller's testimony about his two-year plus investigation of Russian Collusion before the congressional judicial committee hearing that turned out to be a complete DUD. Not hardly a peep. And all the bad actors in high places in law enforcement and intelligence agencies who have been belling about RUSSIA, RUSSIA, RUSSIA have seemingly turned into submarines and took a deep dive in the murky swamp and are squirming around while "silent running." They can hide but they can't run away.

Alexandria Ocasio-Cortez (D-NY) and Ilhan Omar (D-Minn.) are two congresswomen of the Four Pony Riders of the Apocalypse that are having their problems with the law. AOC's campaign manager resigned last week from his post with AOC due to possible mishandling of millions of dollars of campaign funds.

Ilhan Omar's problems are much greater though as she could be facing deportation from these United States...and you can't represent your district from overseas. Pretty Heavy!!!

Following is an article, three years in the making, by investigative reporter David Steinberg of The Power Line, a media outlet, on Omar's purported nefarious activities:

"According to Steinberg there is credible evidence that Ilhan Omar and her family changed their name to illegally enter the United States back in 1995.

And since that time Ilhan Omar as an adult continued to defy US law. According to Steinberg Rep. Omar committed at least eight instances of perjury going back to 2009. The charges could carry up to 40 years of prison time or deportation.

Obviously, Ilhan Omar has no regard for US law and yet here she is representing Minnesota in the US Congress and a sitting member on the House Foreign Affairs Committee.

David Steinberg reported July 20, 2019 on Ilhan's criminal activity as she obviously has no problem with lying on federal documents.

There is three years of verified evidence published by Scott Johnson, Preya Samsundar, and myself. The answers to those questions about 2009 appear to give probable cause to investigate Omar for eight instances of perjury, immigration

fraud, marriage fraud, up to eight years of state and federal tax fraud, two years of federal student loan fraud, and even bigamy.

To be clear: The facts describe perhaps the most extensive spree of illegal misconduct committed by a House member in American history.

Steinberg concludes his report with this list of possible crimes committed by Ilhan Omar.

Consider the disturbingly inadequate evidence used to obtain FISA warrants on members of Donald Trump's 2016 presidential campaign. Consider that Democratic representatives have demanded that Attorney General William Barr release grand jury testimony — itself an illegal act. Yet here we have:

- Verifiable UK and U.S. marriage records

- Verifiable address records

- Time-stamped, traceable, archived on-line communications (Convictions and settlements based upon social media evidence are commonplace, Anthony Weiner being a notable example)

- Background check confirmations of SSNs and birthdates

- Archived court documents signed under penalty of perjury

- Photos which can be examined to rule out digital manipulation

- The 2019 Minnesota Campaign Finance and Public Disclosure Board investigation, which found Omar filed illegal joint tax returns with a man who was not her husband in at least 2014 and 2015

- Three years' of evidence published across many articles — none of which has been shown to be incorrect, or have even been challenged with contradictory evidence from Rep. Omar or any other source

- Perjury evidence that stands on its own — regardless of whom she married:

- Long after June 2011, she was clearly in contact with the only man in either the U.S. or the UK with the same name and birthdate as the man she married. She was clearly in contact with several people who were in contact with him.

- Further, Preya Samsundar did contact him, published how she managed to contact him, and published his email admitting to being photographed with Omar in London in 2015. To be clear: Omar was legally married to an "Ahmed Nur Said Elmi" at the time she was photographed next to a man who admits his name is Ahmed Nur Said Elmi, and that he is in the photo.

- Samsundar pub-

lished all of this information on how to contact Ahmed Nur Said Elmi a few months before Omar swore to that nine-question court document.

- Rep. Omar has refused all inquiries from her constituents, elected officials, and media outlets to provide any specific evidence contradicting even a single allegation suggested by three years of now-public information.

- In fact, Omar has responded by making information less available:

- August 2016, after Scott Johnson and Preya Samsundar posted the allegations, Omar's verified social media accounts were taken offline.

- Ahmed Nur Said Elmi's social media accounts were also taken offline.

- When the accounts returned, a large amount of potentially incriminating evidence had verifiably been deleted.

- I found and published at least ten additional "before and after" instances of evidence still being deleted in 2018.

- Omar has released carefully worded, Clintonian statements that denigrate those seeking answers from her as racists. Yet she has repeatedly refused to answer questions or issue anything other than public relations statements.

- I have a large amount of information that we have not published for reasons including the protection of sources.

- I have expressed fear regarding published video and photo evidence confirming threats from Omar's campaign team

- These sources have shared other evidence of threats. I have contacted the federal authorities to share this and other unpublished information. Providing knowingly false information to the DOJ is a serious crime.

- I believe Scott Johnson, Preya Samsundar, and me, with our three years of articles, columns and posts, have provided more than enough evidence to give law enforcement authorities probable cause to open an investigation. Now would be the chance for law enforcement, and especially for Rep. Ilhan Omar's House colleagues, to make a sincere stand against corruption and for the uniform application of the law.

- Once Again...** It should be noted that by American law — When a marriage fraud is discovered, not only might the immigrant face severe immigration consequences, but both members of the marrying couple may face criminal penalties... An immigrant who is found to have committed marriage fraud **would likely be removed from the United States (deported).**

Feather River Tea Party Patriots

With Guest Speaker Debbie Bacigalupi

Agenda 21 and how its exhaustive web is eroding the US Constitution and our freedoms. She attended the 2012 Rio Summit/United Nations Conference on Sustainable Development and Navigating the American Carbon World.

This sixth generation Californian and daughter of ranchers and farmers in Siskiyou County is known for her lively and interactive presentation on the threats of dam removals, water supply, and the people who supply our food. She will share how the youth are being used to push Agenda 21, AOC and the Green New Deal; how overregulation and government corruption factor into the monster that is Communist Regionalism in California; and why all who respect and honor freedom and Liberty should be concerned and, more than ever, be politically motivated NOW.

A former candidate for the US House of Representatives in CA District 14, Debbie holds a BS in Business and a Masters

in Business Administration from Notre Dame. She is a Certified Wine Sommelier and an Entrepreneur in the Skin Care Industry.

Don't forget – Our regular feature In The News with Paul Preston, Agenda 21 Radio host, will follow our Special Guest Speaker. Paul will be discussing events of the day.

There is no membership requirement to attend and everyone is welcome. Doors open at 6:00 pm; meeting begins promptly at 6:30 pm. Come early to register, socialize with like-minded patriots, and get a good seat.

The meeting will be Monday, August 19, 2019, at the Crossroads Community Church, 445 B Street, Yuba City, CA 95991.

• The homeless problem did not start this year. In 1967 a well intentioned law gave the mentally ill more “rights”. In the end, it created the right to be homeless. Over the next few decades as state resources were cut and the number of psychiatric hospitals shrank the homeless population increased. Is it time to reopen these institutions and give the mentally ill the help they need? If we don't, and continue to be politically correct, we will destroy more lives and unhinge our communities.

• Pelosi says Trump works for Putin because Putin has something terrible on him. She's right. Putin has the entire Democratic Party on his side.

• The Democrats started their impeachment calls before Trump was even inaugurated. They can't stop their clamoring as impeachment is ingrained in their little pea brains and the call is like the reflex in a praying mantis.

• Why hasn't Congress dealt with the on-going crisis affecting military spouses? As military families move from base to base, their professional certificates are not always honored. This means they cannot work in their chosen profession. Obviously being unemployed affects their quality of life and the family is also negatively affected. Garamendi, Beale AFB is in your district. Get with the program and sponsor legislation to correct this problem for our military families.

• The US Court of Appeals says the Feds are using the wrong code numbers to charge illegal invaders. With a million or more pages of codes how would a real person – even a bureaucrat – know what all of these codes mean?

• It is beginning to make sense now. The attacks on Trump were instigated by members

of the federal bureaucracy. They thought that Clinton would let them go on getting away with every crime in the book, like they were doing under Obama. As the infamous Reverend Wright said “the chickens are coming home to roost.”

• California has 7 million more voters than adult citizens. Any wonder Clinton got so many votes in 2016.

• Rep. Alexandria Ocasio-Cortez (D-N.Y.) late Monday said that President Trump's divisive rhetoric on immigration was “directly responsible” for the mass shooting in El Paso, Texas that left at least 22 people dead. The freshman New York congresswoman made the comments while speaking at a vigil in Brooklyn for the victims of the shooting in El Paso and Dayton, Ohio, according to the New York Daily News. “I'm tired of the questioning if the president is racist. He is,” Ocasio-Cortez told a crowd of about 500 people.

• OAC simply can't keep her insanity to herself. She claims Trump is responsible for the El Paso and Dayton shootings. In actuality, it is rhetoric like hers which leads young men tottering on the edge to flip. And don't forget Beto O'Rourke when you think of evil politicians who haven't a brain cell in their head. He is as bad, if not worse.

• We can anticipate that gun control will crop up soon. Such is the simplistic solution of the simple minded. Any real thinking person knows that the problem is much deeper than the weapon. Recent generations have been told that boys are bad and filled with “toxic masculinity”. The male children (often without good male role models) are ostracized, condemned, isolated, ignored and told again and again that they are hateful little squirts. No wonder they crack up and take out their rage on others.

• A good read in these dog days of August is “Cadillac Desert” by Marc Reiner. He presents a sound lesson on water problems in the west. It was first published in 1986. What have the politicians done to address the problem? Nothing of value. Of course that is what politicians mostly do – nothing of value.

Congressman Castro of Texas should be investigated for poten-

tial terrorist threats. His tweets of a list of Trump supporters are definitely a form of a hit list. Is it because he's a Democrat that he is not held accountable for endangering others?

• There has been a lot of finger-pointing recently about racism in America. In truth the Democrat Party—the founders of Jim Crow Laws, the KKK and opponents of Lincoln ending slavery - remains the primary problem. Consider the recent example of the Democratic Congressional Campaign Committee (DCCC) conducting a staff shake-up to create additional diversity. In their warped view, there were not enough “people of color” to meet the requirements of this organizations' progressives. A wholesale number of firings recently were based solely on skin pigmentation. Performance and experience were no longer a criterion for retention. Caucasians were replaced with those who have darker complexions. The DCCC deliberately committed reverse discrimination to meet their utopian goal of creating a more diverse environment. All, illegal of course, but since they are Democrats there will be no consequences.

• Why is Kamala Harris still in the race for President? Why is she still in the U.S. Senate? As Attorney General she gave a serial sexual harasser, fellow Democrat San Diego Mayor Bob Filner a get out of jail card. In 2013, about 20 women accused Filner, a Democratic congressman who became San Diego mayor, of sexual harassment and misconduct

• Harris' office drew criticism for allowing Filner to plead guilty to state charges of false imprisonment and battery against three Jane Does in exchange for a light sentence. Filner could have faced up to five years in prison, but the plea bargain instead gave him three months of house arrest, three years' probation, and partial loss of his mayoral pension.

• This is part of the strong criminal justice system created by Harris.

• Have you noticed the number of law firms advertising about the Roundup court decision? Throw money out the window and the lawyers will run over each other to get their share.

Sullenger Announces Re-Election Bid

Ron Sullenger will seek re-election to the Sutter County Board of Supervisors First District, representing the northern portion of the county, including all the city of Live Oak and portions of north Yuba City.

Ron, who is seeking his third term, said the Board of Supervisors has established clear goals and objectives and the Board needs to continue to “move the ball down the field” toward those goals.

It is important that as the goals are pursued the taxpayer is protected, he said.

“For instance, we're making sure we do everything we can to help the Sutter Pointe development in south county, which will produce new jobs and wealth through commercial development and add critical housing stock near our border with Sacramento. At the same time, we're protecting the taxpayer by making sure the development pays for itself.”

A lifelong Sutter County resident, Ron Sullenger and his wife, Susan, reside on a 70-acre peach orchard outside of Live Oak. Active in his family's farm his entire life, Ron approaches local government from the standpoint of a business man. He founded two successful

local businesses, Circle R Irrigation and Four Seasons Travel.

Ron lists among his accomplishments on the Board championing a change in the operation at the Sutter County Airport that allows a pilot's association, rather than county staff, to operate the facility at far less cost than it was costing taxpayers.

He also helped arrange grant funding for Live Oak's new Sheriff and Fire Station, along with \$500,000 for a water main expansion that is needed to provide adequate protection.

Ron advocated that the City of Yuba City write a panhandling ordinance to deal with aggressive panhandling by vagrants that has gone unchallenged for years.

Ron also was instrumental in the Board's decision to overturn Planning Commission approval of a large solar farm at the end of Broadway on Nuestro Road, that would have replaced a 260-acre walnut orchard.

He was the driving force behind a new four-way stop sign that has improved traffic safety at Tierra Buena and Pease Roads.

Of the top five priorities established by the Board of Supervisors, implementing a long-term

homeless management plan is absorbing a lot of community attention and county staff time.

“Our community is reaching the point of compassion fatigue, and we need to approach this with intelligence,” he said, “As we provide the shelter space necessary to enforce no-camping laws in public rights of way, we need to make sure services are provided at the shelters and coordinated entry locations, not on the river or at unauthorized homeless encampments.” “There is no need to make it easy to remain homeless by providing meals and clothes and services on the sides of the road or in the river bottoms. Let's help those who want it, not coddle those who don't want the help, but want to live free off public lands everyone should have the right to enjoy free of fear.”

The County recently completed a jail expansion project and is working on a plan to consolidate more than 20 existing county locations into only a handful, including renovation of the former commercial space at 850 Gray Avenue for Health and Human Services. Ron said this is important work that will save the County a great deal of money in the long run.

Joe Henderson Running

For Yuba County Supervisor

contributions during the reporting period, with an ending cash on hand balance of \$25.74 and outstanding debts of \$1,750.

“I'm very excited about the positive response that I have received from the community,” said Henderson. “I'm taking my campaign for Yuba County Board of Supervisors seriously and I'm humbled and grateful to have received so much support and encouragement from people who live and work in District 4 and want to see South Yuba County thrive.”

In response to the June

30, 2019 campaign finance filings, Joe Henderson's campaign consultant Cliff Wagner released the following statement:

“The June 30 report represents a stunning blow to Gary Bradford, a sitting incumbent on the Yuba County Board of Supervisors who is effectively broke. These figures draw a sharp contrast between the two candidates. But the real take away here is that Bradford approaches campaigning the same way he approaches governing - he is comfortable running in the red - and that is not acceptable to

Judge Kathleen O'Connor is Retiring

The first elected and first appointed female judge in the history of Yuba County, the Honorable Kathleen R. O'Connor has announced that she will not seek a 4th term in office. Judge O'Connor intends to complete her current term, which concludes January 2021.

According to the Elections website, the Declaration of Intent filing period (Judicial offices only) commences October 28 through November 6, 2019.

Jim Achilles and the *Idle Fret* Jazz Ensemble First Concert in Yuba Sutter Arts' Fall Music Series

Marysville, Ca. Yuba Sutter Arts is pleased to announce the return of Idle Fret to its Burrows Theater in Marysville. Idle Fret performs a broad repertoire of original compositions and covers of jazz standards. They embrace multiple genres from Swing to Smooth Jazz to Latin flavored tunes. The concert will be held on Friday, August 23rd at 7:30pm at 630 E Street

in Marysville. General admission tickets are \$10 and \$5 for students 18 and under. Tickets are available at yubasutterarts.org or by calling 742-ARTS (2787). Plenty of free parking is available on the side streets and in the adjacent Umpqua Bank and Bank of America parking lots. This concert will be bittersweet as it will be Jim's last performance in the area. He and his

family are moving to Medford as he becomes the first full-time Oregon Area Director for Joni and Friends International, a non-profit ministry that serves individuals and families affected by disability. Jim will be working with a team of staff and volunteers orchestrating family retreats, conferences, training events, special programs, and providing resources for churches with disability ministries. And yes, he expects to get involved in the local music scene after they get settled.

Jim established Idle Fret not long after he and his family moved to Yuba-Sutter as an outlet for his love of composing and performing a wide variety of jazz styles. Taking advantage of some local connections with gifted musicians, Jim assembled the band's current lineup which features a cool acoustic blend of sax, flute, and guitar.

The group has received great reviews over the years since its inception. The members of Idle Fret include Jim Achilles (Guitar and trombone), Robert Achilles (Keyboards), David Coe (Winds), Judy Coe (Flute), David Bole (Bass) and Ken Horton (Drums). The musicians play in diverse groups including the Sierra Nevada Winds, the Auburn Symphony, the Yuba Sutter Symphony, and various pit orchestras through-

out Northern California. When asked why playing jazz together was such a rewarding experience, Achilles responded, "Jazz gives everyone in the group the freedom to be both who they are as individuals and who we are as a group. It is the perfect blend of corporate connection and individual

expression. And as we have fun experiencing it – always different, each performance – the audience has fun hearing it. You're likely to see a lot of smiles in the group during the show, smiles that say, 'Wow, we've never done it that way before! And it was cool!'"

Nevada County Fair – Youth in Agriculture

ness management and more.

Youth who choose to exhibit an animal in the Nevada County Fair begin their journey as much as 12 months prior to the fair depending on the animal. The largest class of animals appears to be the swine division which takes a full day to complete. Exhibitors begin raising their animal in late

spring once the pigs are weaned. While raising the animal can be fun, it is also hard work. The youth exhibitor must know all the ins and outs of raising their pig. They are required to keep strict records of how much the pigs eat, weight, special dietary issues and general health. It is a 24/7 job. However, these exhibitors will tell you it is all worth it when they

get their swine into the arena. If a youth exhibitor chooses this division of animal, it is a full day's work. Market class is done in the morning and Breeder and Showmanship are in the afternoon.

Judging is done in three areas Market Class and Breeder Showmanship. During the Market portion the judges are looking at the "projected" market value of the animal. Exhibitors must know the best techniques for showing off their animals assets. Is it well-muscled, does it have extra fat, can it move easily and most of all will it provide a good yield at the butcher? During Showmanship, it is all about how well the swine and exhibitor work together. Judges look for animals that hold their head up, maneuver where the exhibitor is directing them, how confident the exhibitor is with their animal and their knowledge of animal care. Breeder Class looks at the pig's potential for breeding. The judge determines which animal would best be able to carry a little of 12-14 and still be able to move and take care of the young. First in each class earn the title of Grand Champion with second place being Grand Reserve. Competition can be grueling especially in the summer heat yet these young exhibitors push through and love what they are doing.

The final step is the auction on Sunday. Registered buyers bid on the animals at a price per pound amount. Most pigs will bring \$1500-\$2000 as a final price. Once the youth exhibitor had deducted the cost of raising the animal, they can determine their net profit. Money is often set aside to purchase their animal for the following year.
