Starbucks Shooting Gallery

by Lou Binninger

Starbucks Corporation says that anyone is welcome in their outlets. That's a utopian world away from "No shirt, no shoes, no service" or "We reserve the right to refuse service to anyone."

In the recent past, restaurants (along with other enterprises) had some common decency rules for patrons. The minimal standard acknowledged the fact that others had paid to enjoy the product and premises, as well. Unseemly behavior would not be allowed to rule the establishment.

Not so Starbucks. At the Marysville outlet the homeless are encouraged to use the facilities. Aware of the Starbucks everything-goes policy, folks drop-in to use the restroom, bathe and inject drugs.

Security patrol people hired by the adjacent businesses in the complex to stop aggressive behavior and theft are asked by Starbucks to leave panhandlers and hustlers alone and not enter the coffee outlet themselves.

Last week, a customer in the Marysville Starbucks posted on Facebook that two homeless folks were misbehaving. The employees were stumped for what to do, so the patron called Marysville Police. She was the only "adult" in the room.

Starbucks may need to do some de-escalation of force and verbal judo training for their baristas and then raise pay for serving on the front line.

Liberals can be business savvy, but fail miserably when managing a city, state or country. In this case, Starbucks is moving from convincing people to pay extraordinary prices

Terrorists and Foreign Aid

by Lou Binninger

Those graduating from high school this year were not alive when Al Qaeda terrorists bombed the USS Cole in Aden, Yemen on October 12, 2000. Nor have students been told the truth by government schools and the main stream media that Muslims have been on a terror rampage since the Munich, Germany Summer Olympics in 1972.

In 2017, a call for assistance for a young suicidal naval veteran was a reminder that the damage on the USS Cole was not limited to 17 fatalities and 40 injured. The young man in crisis once stood guard in the ship for hours among his dead shipmates until the scene could be processed. Seventeen years later he was still struggling to survive the experience.

Four killed that day were in their early thirties while 13 of the dead were just 19-24 years old. Family members suffer to this day and search for any morsel of comfort from the lingering investigation and court proceedings.

So, President Trump's mention that on January 1, 2019 the US military killed Jamal al-Badawi, the Yemeni terrorist accused of leading the attack, was bitter-sweet relief for those grieving their loss.

Trump's tweet read, "Our GREAT MILITARY has delivered justice for the heroes lost and wounded in the cowardly attack on the USS Cole. We have just killed the leader of that attack, Jamal al-Badawi."

The ship had been refueling in the Yemeni Port of Aden when attacked. A small boat carrying C4 explosives and two suicide bombers rammed the port side of the destroyer creating a huge gash. Al Qaeda leader Osama Bin Laden celebrated the attack which occurred just one year prior to the September 11, 2001 multi-faceted terrorist strike on the US.

Yuba Water Agency Reaches Significant Milestone in Relicensing

Marysville, Ca.

The Federal Energy Regulatory Commission this week issued the Final Environmental Impact Statement for relicensing the Yuba River Development Project, which is owned and operated by Yuba Water Agency. FERC has regulatory authority over most hydroelectric projects in the U.S.

This milestone represents FERC's final independent environmental analysis of the impacts associated with issuing a new license to operate Yuba Water's facilities for the next 40-50 years. Those facilities include Our House and Log Cabin diversion dams, New Colgate and Narrows 2 powerhouses, and New Bullards Bar Dam and Reservoir.

Through this environmental document, FERC staff largely supports Yuba Water Agency's proposed conditions (from the amended final license application) for the projects' future operation. For example, instream fisheries flows based on the Yuba Accord form the basis of the flow requirements proposed for the new license, with some small previously negotiated changes. Other key license conditions proposed include:

- Construction of a new

secondary spillway at New Bullards Bar Dam to enhance Yuba Water's ability to manage large storm flows, significantly reducing flood risk for the communities of Yuba and Sutter counties and enhancing dam safety

- Construction of a new tailwater depression system at New Colgate Powerhouse, to enhance power generation capability

- Enhancement of existing recreational facilities around New Bullards Bar Reservoir and at Our House Dam

- Development of new plans to plant riparian vegetation and to place large woody material along the lower Yuba River to benefit fish and wildlife

This is a major milestone in the relicensing process for the agency. Next steps include working with the State Water Resources Control Board on compliance with the Clean Water Act, and FERC completing consultation with the National Marine Fisheries Service regarding the Yuba River's fish species. Once these two major processes are finalized, FERC can issue a new operating license to Yuba Water Agency, which may differ from this document. This process may take several years to complete.

"This has been a time-

consuming, highly-technical and expensive process," said Curt Aikens, Yuba Water Agency general manager. "But now, it seems as if all the time, effort and money expended to fulfill the requirements of the relicensing process are paying off. We feel that this final environmental statement sets us on a successful relicensing path for the long-term operation of this incredible asset that provides so much benefit for the people of Yuba County."

Yuba Waters' facilities benefit the people of Yuba County. Collectively, these facilities generate over 400 MW of clean renewable hydropower for homes and businesses throughout California, supply water for nearly 80,000 acres of productive Yuba County farmland, reduce the risk of flooding for residents in Yuba and Sutter counties, and offer numerous recreational amenities including boating, fishing, camping and swimming.

The environmental impact statement is available for public review on FERC's website, as well as the Yuba Water Agency website.

4th Annual North State Youth Advocacy Summit

Sutter County, Ca.

Sutter County Tobacco Control Program will participate in the 4th Annual North State Youth Advocacy Summit on Saturday, January 19, 2019. Colusa County Tobacco Education Program, in partnership with Colusa County CAPC- Community Advocates for Parents & Children and Colusa County Office of Edu-

cation, will host the event at The Education Village Multi-Purpose Room, 499 Marguerite Street Williams, CA, from 9:30 am to 4:30 pm. High School aged youth from the Northern California counties of Colusa, Glenn, Sutter, Plumas, and Trinity will be present. The summit will feature a keynote address from motivational speaker and skate

boarder Mike Smith as well as a day full of games and workshops on leadership, advocacy, and health equity. If you know a high school aged youth interested in attending, please contact Colusa County Tobacco Education Program at 530-458-0380.

Wanted Parolee and Mail Theft Suspect Arrested

On Wednesday January 9 2019 at approximately 1:30 p.m., the Yuba County Sheriff's Department along with the CDC Fugitive Apprehension Team located and subsequently arrested wanted parolee and mail theft suspect Damien Cooper at a home in the 1700 block of 10th Avenue in Olivehurst. Cooper

initially hid in the attic of the home, but was talked into surrendering. He was taken into custody without further incident just before 3:30 p.m. The suspect was wanted for a parole violation in addition to being a suspect in multiple mail thefts from the Yuba County Foothills in December. Cooper, a

29-year-old man from Olivehurst, fled from Yuba County Deputies in a vehicle pursuit around midnight on 12/27/2018 from Smartsville, ultimately crashing his vehicle. Cooper and a female passenger were pulled from the vehicle by the pursuing deputy, moments prior to the vehicle catching fire. Cooper, who was unconscious at the time, was transported by air to a Sacramento area hospital for treatment. Cooper was discharged from the hospital the following day before law enforcement was notified; and remained wanted until yesterday's arrest. He was booked into the Yuba County Jail on various charges including violating parole, resisting arrest, possession of drugs, and weapons violations. Cooper is not eligible for bail at this time. Charges related to the December vehicle pursuit and mail thefts are pending DA review and additional follow up

Food and Farm News

Government shutdown causes mixed impact
Essential federal services and programs affecting agriculture remain in operation during the partial government shutdown, while others have gone on hiatus. Because U.S. Agriculture Department offices have closed during the shutdown, Agriculture Secretary Sonny Perdue said Tuesday the agency will allow farmers extra time to apply for relief from retaliatory trade tariffs. Programs such as food inspection and grading continue to operate.

Storms bolster Sierra snowpack
A few days made a big difference in the Sierra Nevada snowpack. When surveyors conducted the year's first manual measurement last week, the snowpack stood at only about two-thirds of average for the date. But after strong weekend storms, the snowpack has improved to more than 80 percent of average levels. Water managers monitor the readings to help anticipate future water supplies.

New technique aims to fight soil pests
Saying they're encouraged by early results, University of California researchers plan further tests on a new way to attack soil-borne pests. Known as "biosolarization," the process taps the sun's heat and microorganisms contained in crop byproducts such as tomato skins and nut hulls. Researchers say adding the byproducts to soil, then covering it with tarps to collect solar heat, attacks soil pests while activating beneficial microbes.

FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for more than 75 years. Anyone with questions or comments can email him at boots3@syix.com

We are told steelhead are in the system. These ocean going rainbow trout have been taken in the Feather and Yuba Rivers on various lures and bait. We advise checking with regulations for closures, bait restrictions and other info including catch and release and/or barbless hooks. I have fished for steelhead both in the Yuba and Feather Rivers in the past and have accidentally caught them when salmon fishing or catfish fishing in the Feather River. Some favorites are spinners and lures along with night crawlers, salmon eggs. Roe is also a good choice when allowed. The biggest mistake anglers make when steelhead fishing is to wait too long for water clarity after a storm. Water clarity is extremely important for success, but cloudy water is when you want to fish and continue as the water clears. Color is also a big item no matter what you are using at the end of your line. I have had success on natural colored salmon eggs when nothing else would work. Also sometimes changing lure color will get some action. Steelhead always

move close to shore when storms are around. They will also move in that direction when boats run the rivers. As the storms pass and the water clears you will find them more in the deeper water towards the middle of the rivers. Early morning seems to be the best time for these fish and this brings to mind another story. The biggest steelhead I have ever caught happened early in the morning. We were anchored up at the mouth of the Yuba, sitting in Feather River water. We were after salmon but I decided to toss out a large spinner. My boys both were fishing with a flatfish and sardine wrap. I had a pull down

and watched that beautiful steelhead break water and dance on its tail as the early morning sunlight created brightness from the fish and the water spraying into the air each time he jumped. I brought the fish to the boat and Ted netted him ... a beautiful five pound steelhead. We caught salmon that morning but the conversation was about that fish dancing on top of the water so beautiful and colorful in the early morning sunlight. Closing thought: "Get out the tackle boxes, check them out and clean up your gear. Good fishing will be here before you know it."

Starbucks Shooting Gallery

for fattening drinks to social engineering – convincing patrons to feel good about getting coffee while the guy who just shot-up wets himself in the next seat. Starbucks workers are reacting to being expected to make a Green Tea “Al Pacino” while fretting about a child or lady heading to the bathroom and wondering if it became a “shooting gallery” or one big urinal since the last time they checked. Baristas complain that the restrooms are beset with gnarly trash, used needles and unsanitary conditions. Employees wonder if they could acquire a disease from working there. A petition of employees on Coworker.org of 3,700 signatures urged Starbucks to install needle-disposal boxes in store restrooms where the population is known to have high rates of Hepatitis and HIV. The coffee conglomerate is responding by adding the boxes in some outlets. This is liberals pooling their ignorance. If fast food outlets can’t get sober patrons

to dispose of trash properly how can an addict, mindless after shooting meth, cocaine or opiates tidy-up and tuck their rig into a sharps box? And, are those cleaning-up after them now handing the coffee through the take-out window? Of course, this is the same thinking that led to the “Crap App” on phones to navigate the piles of human feces on the streets of San Francisco (SF). “Port-a-Potties” for street people in SF are often used to shoot drugs and engage in sex, as well. Does anyone remember the SF light pole that fell across the intersection after urine eroded its metal base? The liberal solution is urine resistant light standards. The same spirit of nonsense possessed the federal judge who found justification in the 8th Amendment to force taxpayers to either fully fund homeless people or let them violate the law. The judge does not likely live in a city ruled by the chaos created by

his ruling. Starbucks’ future depends on the quality experience it does or does not provide its customers. Businesses come and go. The homeless phenomenon is a product of the modern welfare state. Government socialist policies are creating it and taking more and more tax dollars to manage it. It’s like fighting obesity by eating more and moving less. Meanwhile, if cities cannot manage an unruly population the more stable folk will quietly leave for less chaotic and safer places. Many local higher paid government workers (administrators and public safety people) have already done just that. They choose to live in better-run cities elsewhere while working here. So far in the last 12 months, local acquaintances joining the Calizuela Diaspora have moved to Nevada, Idaho, Texas, Tennessee, Arizona, Oregon, Missouri and Washington.

Sara Sealander – “A Few Flowers and Some Pretty Trash” Art Gallery Show, Reception and Gallery Talk

Marysville, Ca. Yuba Sutter Arts is proud to host an exclusive art gallery showing in January of work by highly revered and beloved local artist, Sara Sealander. Affectionately titled, “A Few Flowers and Some Pretty Trash,” the show includes many new pieces by Sara as well as a selection of her botanical drawings.

The exhibition is open to the public during the month of January on Wednesdays from 11-6 and Thursdays and Fridays from 11-4. Special showings are also available by appointment. The gallery address is Yuba Sutter Arts, 624 E Street in Marysville.

A special “Meet the Artist” reception will be held on Friday, January 18 from 5-7pm and Sara will give a Gallery Talk on Wednesday January 30, also from 5-7pm. Wine, beer and appetizers will be served at both events which are always free and open to the public. The public will be delighted by Sara’s newest series of work based on found objects. She has turned discarded items

into beautiful colored pencil drawings and also memorialized the objects in clay. The juxtaposition of the ceramic recreations with the accompanying drawings is absolutely delightful. As the retired Yuba College Art Department Chair, Sara said recently, “The only down side of teaching art is the lack of time that most studio teachers have for the creation of their own art.” After completing her MFA at UC San Diego and participating in the

Whitney Museum Independent Study Program in Manhattan, Sara was hired to teach both Art History and Studio Art classes at Yuba Community College in Marysville. She taught fulltime for 38 years, became the head of the Art Department and is now an adjunct professor of Art History, teaching two courses which explore the lives and works of early women artists. Sara was recognized last year as one of Congressman John Garamendi’s “Women of the Year” for her decades of arts advocacy and activism and excellence and leadership in arts education. Join the celebration of this remarkable artist in our midst and experience her latest opus. For additional information about this exhibition, contact Yuba Sutter Arts at 530-742-ARTS or write to abbie@yubaustterarts.org.

Yuba Sutter Youth Choir Reduced Tuition for All Participating Students

Marysville, Ca. Yuba Sutter Arts is pleased to announce that registration is now open for the Spring 2019 season of the Yuba Sutter Youth Choir. The new session gets underway Wednesday, January 16th at 6pm. The theme will be “A World of Disney and More!” The Yuba Sutter Youth Choir is part of Yuba Sutter Arts’ Arts in Education program. Classes will be held at the Burrows Theater at 630 E Street in Marysville. Instruction is offered for students from 7 - 14-years of age. Weekly classes will be held on Wednesdays starting on January 16 through April 10. The final performance will be held on April 10 at 7pm. The reduced cost for the Spring session is \$25 per student which includes the students’ music portfolio and a Youth Choir T-shirt. Full scholarships are available for qualifying students. “We are pleased to be able to continue our

Youth Choir program and especially now that we are able to offer it to students at a significantly reduced rate thanks to additional funding from the State,” said David Read, Yuba Sutter Arts Executive Director. Once again, the Youth Choir will be directed by Gay Galvin, Yuba Sutter Arts’ “Musician in Residence.” Gay has been singing and playing piano since she was six years old. Trained in classical and jazz styles, she has worked in big bands, musicals, jazz trios and various classical ensembles. She is an accomplished vocalist and has taught choir at all age levels. Married to singer/songwriter, Tom Galvin, the couple has performed at the Burrows Theater in concert as a duo and as soloists. Gay has also performed in many other ensembles throughout the community including concerts at Yuba College and in productions at The Acting Company. Gay and Tom also both played

for the Applause performances of “Home for the Holidays” in December to help raise funds for the completion of the Sutter Theater. Gay is originally from Ohio and has a master’s degree in music. She teaches piano in her studio in Marysville. She plays most musical genres and has even played in rock bands. In Ohio, she led her own jazz trio, something she hopes to reestablish in this area. “I’m proud to be leading the youth choir again this spring,” said Gay. “Ensuring music education for young people is something I am passionate about and I am so glad to be able to help continue the tradition of vocal music training for young people in Yuba-Sutter,” she added. Interested parents or guardians should visit yubasutterarts.org to register or contact YSA at 530-742-ARTS or email abbie@yubasutterarts.

Robbins Elementary School Finishes 2018 Strong

by Dawn Carl, Superintendent/Principal

Robbins Elementary School ended 2018 with a spectacular Winter Program! Continuing the tradition of Robbins, we held our Winter Program in December with the entire student and staff population participating, not to mention the wonderful parents! This year’s program, “The Greatest Showman On Earth” had a special performance from Allison Poggetti singing with the kindergarten and first grade class. Each class had a special performance and the evening culminated with a visit from Santa Clause! I would like to thank the amazing staff and a special thanks to Mr. Bolla.

CRITIC'S CORNER
by Matt Woolery
Bumblebee
Starring: Hailee Steinfeld, Jorge Lendeborg Jr., and John Cena. Rated: PG-13, Runtime: 1 hr 54 min.

A robotic soldier is sent from his war torn planet to establish a stronghold on Earth to keep the hope of the Cybertron resistance forces alive. He is attacked seconds after landing on Earth and his mission becomes harder and harder as the movie goes on. A young girl adjusting to a world without her father uses her inner, steel strong, strength to work through the events that warp and remold her universe.

Bumblebee, earns two out of five, Deathtrap Driving Monkeys. This is a fun enough movie and tries hard to fit into the Transformer timelines. It is more of a trip to the money trough for the studio to fund true works of art such as, Ouija: Origin of Evil, Jem and the Holograms, and Monopoly. The acting is great for beginning actors and fit with the overall quality of the film. John Cena is pushing into a lot of films lately and is getting better at acting. The effects are cool and the story is forced trying to be interesting. A little too much of the hero getting whooped with little signs that he actually has skills in fighting grows tiring.

This is not a terrible movie and is fun to watch, but it just isn't worth the cost of admission. Wait for it to stream digitally or make a trip to Red Box or if you're in Fairbanks, AK, Block Buster Video.

T.S. No.: 9987-7705 TSG Order No.: 180422181-CA-VOI A.P.N.: 060-170-012-000 NOTICE OF TRUSTEE'S SALE YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED 10/24/2013. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDING AGAINST YOU, YOU SHOULD CONTACT A LAWYER. Affinia Default Services, LLC, as the duly appointed Trustee, under and pursuant to the power of sale contained in that certain Deed of Trust Recorded 10/28/2013 as Document No.: 2013R-013790, of Official Records in the office of the Recorder of Yuba County, California, executed by: ADAM W SMITH, A SINGLE PERSON, as Trustor, WILL SELL AT PUBLIC AUCTION TO THE HIGHEST BIDDER FOR CASH (payable in full at time of sale by cash, a cashier's check drawn by a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in section 5102 of the Financial Code and authorized to do business in this state). All right, title and interest conveyed to and now held by it under said Deed of Trust in the property situated in said County and state, and as more fully described in the above referenced Deed of Trust. **Sale Date & Time: 01/31/2019 at 01:30 PM Sale Location: At the front entrance to the County Courthouse, 215 5th St., Marysville, CA 95901** The street address and other common designation, if any, of the real property described above is purported to be: **9793 BRETT WAY (Unincorporated Area), DOBBINS, CA 95935** The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made in an "AS IS" condition, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by said Deed of Trust, with interest thereon, as provided in said note(s), advances, if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust, to-wit: \$194,159.35 (Estimated) as of 01/10/2019. Accrued interest and additional advances, if any, will increase this figure prior to sale. It is possible that at the time of sale the opening bid may be less than the total indebtedness due. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this prop-

erty, you may call, 916-939-0772 for information regarding the trustee's sale or visit this Internet Web site, www.nationwideposting.com, for information regarding the sale of this property, using the file number assigned to this case, T.S.# 9987-7705. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the internet Web site. The best way to verify postponement information is to attend the scheduled sale. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. A Petition for Probate has been filed by (Name of Petitioner): **Ginger Hughes** in the Superior Court of California, County of (specify): Yuba

The Petition for Probate requests that (name): **Ginger Hughes** be appointed as personal representative to administer the estate of the decedent.

The petition requests authority to administer the estate under the independent Administration of Sates Act.(This authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

A hearing on the petition will be held in this court as follows: January 28, 2019 at 9:00 a.m. in Dept. 4 located at Superior Court of California, County of Yuba, 215 5th Street Ste. 200 Marysville, CA 95901.

If you object to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

If you are a creditor or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within **the later** of either **(1) four** months from the date of first issuance of letters to a general personal representative, as defined in section 58 (b) of the California Probate code, or **(2) 60** days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code.

Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California Law.

You may examine the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for special Notice form is available from the court clerk.

“Stand as 1” Spoken Word Night at Justin’s Kitchen

Come Celebrate the One Year Anniversary of This Local Open Mic for Poets

Marysville, Ca. — January and February are big months for Yuba Sutter Arts in terms of our local literary arts scene. Events include the regional Scholastic Writing Awards program and Poetry Out Loud competitions. And, this month, we also are celebrating the one-year anniversary of our Stand As 1 “open mic” events for spoken word and poetry readings and other recitations. It’s hard to believe it all began just one year ago and Stand As 1 has not only sustained itself but grown to two nights a month.

The first anniversary celebration will be held on Thursday, January 17 starting at 6:30pm at Justin’s Kitchen, 628 Plumas Street in Yuba City. The event is free, and all are welcome: poets, prose writers and other presenters.

The program was started last January by then Yuba-Sutter newcomer, Gabe Gutierrez. Many styles of poetry have been presented this past year along with some great short stories. It is exactly what was

hoped for in giving our local community of writers a forum to share their work and let others hear their insights. Poets from outlying areas like Sacramento and Grass Valley are even attending.

Gabe is the founder of Nascent Games. In addition to founding a game company, Gabe is also an avid gamer, as one would expect from a game development company founder. He relocated to the Sacra-

mento region several years ago from New Jersey when a friend told him about a job opening. He decided to move to California, so he packed up and headed out cross-country along Interstate 80. Gabe has introduced himself to the community and gotten involved with several projects including other open mic style events, radio and blog programs.

The open mic events are held on the first and third Thursdays of each month. The first Thursday events are held at the Burrows Theater, 630 E Street in Marysville. The third Thursday events are held at Justin’s Kitchen. Call 742-ARTS or visit yubasutterarts.org for details or just stop by. The events are free and open to the

Political Rage not an Accident

I saw a Frontline television program about Russian and other foreign governments setting up fake social media accounts on Facebook and other such sites. Not that I had not heard this before but the program specifically highlighted in detail the subversive reasoning behind such actions.

The goal being to turn groups against each other, weakening from within the social fabric of the targeted country. Frontline had many examples both abroad and domestic of how groups of foreign government sponsored hackers and the like set up fake profiles and fake groups and then use specific strategies to flood the sites with propaganda. The goal is to stir up hate between people and groups and whip it into a frenzy, perhaps to the point of violence, such as so often occurs at political protests events and other public gatherings.

Frontline detailed many fairly well known events where a specific "national day of something" such as the pussy hats rallies or the 1%ers gatherings may have been hatched in the hack rooms of Russia or

Korea.

Political unrest and infighting is the goal. The enemy from within the targeted objective. After all, if a nation's people is fighting amongst themselves, they are weaker as a group.

Apparently social media sights are set up to entice people to join various group pages. The hackers set up opposing sites, targeting both sides of a debate. The goal is to gain as many members as possible which yields an ever increasing pulpit to start the social fires needed to cause more unrest. The hackers, or whatever we call them, then use the most hotly debated and politicized topics and subsequently amplify the outrage. Using cartoons, fake news stories, exaggerated claims and downright falsehoods, their aim is to engage and enrage the masses. The hackers are political experts and utilize the most sensitive of issues, the most emotional hot buttons and the highest level of sophistication to cause the most damage, or should we say fan the flames of hate.

The hottest issues are easy to find. Immigration, the border wall, the

99%ers, the living wage/minimum wage debate, presidential tax returns, liberal bias, racism, sexual slavery, black lives matters, pussy hats, forced child labor and too many other hot topics to name.

All reach to very basic of beliefs and morals of many people and violating those spaces cause many to reach a fever pitch level of response.

Whatever it is, it's working. The level of hate, fear and outrage has reached incredible heights in America and indeed, other nations as well.

Longtime friends and family members are disowned by one another because of opposing political views. I can comfortably say and in my opinion the left side of the political aisle is more guilty of this act, having had family members in my own family cast out because of something they said or some garment or sign they may have displayed at one time or another.

One example might be that the hate for Trump and his supporters is off the charts and grossly putrid.

A sad observation of the times I'm sorry to say. The right side of aisle have been driven into the closet. Case in point, so many of right were afraid to speak their presidential preference leading up to the election, the triumph of Trump was a complete surprise to many.

Concluding, I now hold little opinion of the current political environment. I know better.

It is so ridiculous I choose to hit the "off" button and opt out until the nation gets a grip on itself.

But the left seems to be the more sensitive of

the two sides, enraged to a point of boiling if any one of a variety of topics is brought up.

I've seen it up close and personal. A mention of support for Trump, his wall, immigration, his taxes or a number of other issues brings at a minimum a look of disgust and it only escalates from there. I have seen people disown friends, yell in the gym at someone, move tables away in restaurants, come to fist-a cuffs with family members and more. I don't see a lot of right to left reaction, at least publicly or on social media, but try voicing any Trump support or wearing a Trump article clothing and at least where I live, you better get your crash helmet on.

That our Russian friends have found some Americans so malleable and pliable as to allow themselves to so aptly manipulated and subsequently enraged at another fellow American is deplorable, and those that practice such hate responses should be ashamed of themselves.

I live in Chico but I consider the Territorial Dispatch to be one of the best local sources for news. I was glad to read Lou Binninger's report of the lawsuit that John Mistler, Charlie Matthews, and the Howard Jarvis Taxpayer's Association are bringing against Yuba County over their illegal Measure K. That measure was obvi-

ously a special tax and should have been listed as such and required 2/3's voter approval. The other issue that concerns me is the use of taxpayer money to run pro-tax campaigns. That's illegal too, but they all do it. In Chico our city and our recreation district have spent hundreds of thousands in staff time and on con-

sultants to put together their separate tax measures. How much did the county of Yuba spend on their campaign? You can't just vote and turn your back - you have to keep an eye on these people and hold them to the law. Juanita Sumner, Chico CA

Some Thoughts

It's time to cut the time a Congressman or Senator can live on the taxpayer's dollar. I suggest two terms of six months each. They are presently out of touch with the taxpayer. "Also God only promised you life and death

with the option of Heaven or hell when you die. Heaven if you follow his commandments, hell if you don't." He said what I have made is good so how can a baby in the womb who is good be killed, when God said it is good?

Change Not Wanted

I want to talk about "FAKE NEWS" that was printed in the Appeal Democrat on Sunday Jan 6, 2019. Starting that there was no crisis at the Boarder. This is the same place on TV that they show our Boarder guards are be-

ing stoned and looks like a war zone. There is no crisis if you're a liberal or a socialist they love this and do their best to keep it stirred up and on the front page of the liberal papers and say there's no problem it seems that the demo-

crats hate our great country they have entered bills to try and change this country into a socialist country. It's time to stand up and be counted, Donald E Lewis Marysville Ca

for the 2018 season. Mr. Garamendi, you were very patient and very sympathetic. Mary Jane Griego, your Senior District Representative had briefed you regarding our concerns. Still, you listened to all of us, our concerns and our pleas for help. As a result of our meeting, you directed Garret Durst from your congressional staff to contact NYWD with grant application information. At our most recent Board of Directors meeting it was announced that a USBR \$75,000.00 grant was awarded to NYWD for improvements/maintenance to the Dobbins/Oregon house irrigation system. THINK About It! By Charlie McNiff

Presidents Bill & Barack ... And Hillary, Chuck & Nancy Forget What They Say!

As I traveled to the Territorial Dispatch last week to bang out the weekly column, I tuned into Tom Sullivan's radio talk show to possibly gather some info that I could pass on to the readership. And he had some doozies that I can share with all of you that missed that program.

After listening to President Trump's 10 or so minute speech from the Oval Office Tuesday January 8th on why we need barriers on our southern border from Mexico...it was enlightening because Sullivan found and plucked a small fraction of President Bill Clinton's 1995 State of the Union speech and replayed the following portion of his lengthy address regarding illegal immigration from 24 years ago. Strangely, it sounded almost identical to President Trump's charted course on the immigration problem President Bill Clinton, in his nationwide address over the radio waves and all television networks said,

"All Americans, not only in the states most heavily affected but in every place in this country, are rightly disturbed by the large numbers of illegal aliens entering our country. The jobs they hold might otherwise be held by citizens or legal immigrants. The public service they use impose burdens on our taxpayers. That's why our administration has moved aggressively to secure our borders more by hiring a record number of new border guards, by deporting twice as many criminal aliens as ever before, by cracking down on illegal hiring, by barring welfare benefits to illegal aliens. In the budget I will present to you, we will try to do more to speed the deportation of illegal aliens who are arrested for crimes, to better identify illegal aliens in the workplace as recommended by the commission headed by former Congresswoman Barbara Jordan. We are a nation of immigrants. But we are also a nation of laws. It is wrong and ultimately self-defeating for a nation of immigrants to permit the kind of abuse of our immigration laws we have seen in recent years, and we must do more to stop it."

Here are portions of the transcript of President Trump's address on January 8th. Sounds to me like what President Bill said 24 years ago. You decide! President Trump: "Every day, Customs and Border Protection agents encounter thousands of illegal immigrants trying to enter our country. We are out of space to hold them, and we have no way to promptly return them back home to their country. America proudly welcomes millions of lawful immigrants who enrich our society and contribute to our nation, but all Americans are hurt by uncontrolled illegal migration. It strains public resources and drives down jobs and wages. Among those hardest hit are African-Americans and Hispanic-Americans. Our southern border is a pipeline for vast quantities of illegal drugs including meth, heroin, cocaine, and fentanyl. Every week, 300 of our citizens are killed by heroin alone. Ninety percent of which floods across from our southern border. More Americans will die from drugs this year than were killed in the entire Vietnam War. In the last two years, ICE officers made 266,000 arrests of aliens with criminal records including those charged or convicted of 100,000 assaults, 30,000 sex crimes, and 4,000 violent killings. Over the years, thousands of Americans have been brutally killed by those who illegally entered our country and thousands more lives will be lost if we don't act right now.

This is a humanitarian crisis. A crisis of the heart, and a crisis of the soul. Last month, 20,000 migrant children were illegally brought into the United States, a dramatic increase. These children are used as human pawns by vicious coyotes and ruthless gangs. One in three women are sexually assaulted on the dangerous trek up through Mexico. Women and children are the biggest victims, by far, of our broken system. This is the tragic reality of illegal immigration on our southern border. This is the cycle of human suffering that I am determined to end. My administration has presented Congress with a detailed proposal to secure the border and stop the criminal gangs, drug smugglers, and human traffickers. It's a tremendous problem. Our plan also contains an urgent request for humanitarian assistance and medical support. Furthermore, we have asked Congress to close border security loopholes so that illegal immigrant children can be safely and humanely returned back home.

Finally, as part of an overall approach to border security, law enforcement professionals have requested \$5.7 billion for a physical barrier. At the request of Democrats it will be a steel barrier rather than a concrete wall. This barrier is absolutely critical to border security. It's also what our professionals at the border want and need. This is just common sense.

The border wall would very quickly pay for itself. The cost of illegal drugs exceeds \$500 billion a year. Vastly more than the \$5.7 billion we have requested from Congress. The wall will also be paid for indirectly by the great new trade deal we have made with Mexico.

Some have suggested a barrier is immoral. Then why do wealthy politicians build walls, fences, and gates around their homes? They don't build walls because they hate the people on the outside but because they love the people on the inside. The only thing that is immoral is the politicians to do nothing and continue to allow more innocent people to be so horribly victimized.

To those who refuse to compromise in the name of border security, I would ask, imagine if it was your child, your husband, or your wife whose life was so cruelly shattered and totally broken. To every member of Congress: pass a bill that ends this crisis. To every citizen, call Congress, and tell them to finally, after all of these decades, secure our border."

Sure sounds a lot like President Bill.

Current Senate Democrat Minority Leader Chuck Schumer has mouthed the same words in recent years...and even using the words "illegal aliens" in his vocabulary...as well as President Obama and newly elected (by only 2 votes) House of Representatives Majority Leader Nancy Pelosi who continually parroted the words of President Clinton's address on "Illegal" immigration... (By only 2 votes, Nancy...better watch your back, babe). Even Hillary Clinton in her campaign in 2016 against candidate Donald Trump was caught on TV saying that "barriers" were needed to stem the tide of illegal entry into our country.

The leadership and most democrats are showing their true colors in a shameless show of brutish disregard for the rule of law in our country...and equally shameless massive group of so-called journalists that propagandize the socialist goals through unending patterns of "the end justifies the means."

P.S. Accompanying President Trump on his trip to the Mexican border at McAllen, Texas, were high ranking members of the U.S. Army Corps of Engineers. Stay Tuned!!!

California is crazy. A judge declares Obama-Care illegal, so the state immediately extends the time you can buy the illegal product.

In 2006 and 2012 all the Democrats loved the idea of a wall and voted legislation for funding. What has changed in their pointy-heads today?

The Democrats and their lemmings are acting just like children who, angry at losing the game, overturn the monopoly game board. When will they decide to grow up and act like adults?

Perhaps not too surprising, but which group has suffered most from the open border concept? If you guessed Blacks, you would be correct. Fewer jobs, lower wages, and dislocation. Did you know that Compton used to be 90% Black. Today it is only 30% due to a massive increase in illegal invaders.

Were you aware that marijuana is twice as toxic as cigarettes and can give you cancer more quickly? Yet, CalPERS is no longer investing in cigarette companies—but instead investing in marijuana. Has anybody checked the common sense of those doing the investments for CalPERS? They lost \$3 billion in revenues due to the cigarette decision—but went ahead and bought marijuana stock. Any wonder public retirement systems are in trouble?

A recent investigation found that a group of high-level Alabama Democrats tried “Russian” tactics to affect the recent election. Who are the crooks?

California has spent more and more money on education, and wants even more out of your wallet. The result? The lowest educational levels in the country. So what does Newsom suggest? More money. Maybe money isn’t the answer to the problem.

lawsuit trying to get the citizenship question

out of the 2020 census is filed in a San Francisco court. Why couldn’t a real court be found to hear the issue? A kangaroo court is not the venue for constitutional justice.

Tom Steyer is spending his money jumping up and down and kicking his feet over impeachment. Too bad he doesn’t know anything about government.

Conservationists say “disturbingly fewer” Western Monarch butterflies are coming back into California on their annual migration this year. Understandable. Even butterflies can see what is happening to the Golden State and they are looking for another location. Probably went to Texas.

This new Senator from New York – Ocasio-Cortez (or whatever her name is) is engaged in a cascade of nutty commentary. She says facts don’t matter so long as she is “morally correct.” Who elected her God and gave her a preacher’s license?

Boulder, Colorado decided to ban all kinds of weapons in town. According to published reports in the Washington Times, current owners were given until the end of the year to choose one of two options: Get rid of their semiautomatics by moving them out of town, disabling them, or turning them over to police — or apply for a certificate with the Boulder Police Department, a process that includes a firearm inspection, background check, and \$20 fee. At the deadline, out of 107,000 residents, many who have multiple weapons, only 342 have been reported as registered. In other words, the citizens of Boulder are thumbing their nose at the local government and maintaining their 2nd amendment rights. This report ought to give Gavin Newsom heartburn.

PETA doesn’t want schools to have live mascots. Perhaps PETA shouldn’t have live spokespersons either.

Democrats are demanding that all businesses have diversity in their Board of Directors – in other words women. When did the folks give them the right to run businesses?

Bernie Sanders is being given a pass on sex harassment allegations by colleagues and the mainstream media. Why? Because he is a card-carrying Socialist. If he were a Republican, the demand would be to hang him by his fingernails. Hypocrites.

How much cash has the Sierra Club coughed up to clean up Yosemite trash and outhouses?

Not a single Democrat voted to reduce your taxes. Now the “brilliant” new NY legislator wants to raise taxes to 70%. And, further, Pelosi wants to rescind the current cuts. And these creeps were voted into office?

Gun Control is the leftie mantra on almost every shooting. Except, of course, when a cop is shot. No lefties demanding gun confiscation. No marches down the freeway. No trashed streets, broken windows and overturned cars. No one even asked where the illegal invader shooter got the gun he used. Selective brain shutdown.

From Facebook, Dean James says if you can be arrested for not having a hunting or fishing license but can freely enter the country illegally, you might live in a country run by idiots.

According to mainstream media, smart land use policy can help combat climate change. Of course. Everything can be blamed on climate change and some program or policy will solve the problem of the world coming to an end next week. It was instructive to read that the Nature Conservatory has spent decades studying how land can be properly managed. Decades? And they haven’t figured it out yet. Of course not. They have lifetime jobs and pensions. What incentive do they have to solve the problem? It appears all they have done is come up with ways to make the problem worse. Keeps them in cash.

Facebook shut down Franklin Graham for a day. Seems like it would be appropriate for Facebook to be less concerned about Franklin Graham than, say, Antifa.

It appears that some local folks are having a brain dysfunction over the Trump presidency. Too bad they can’t live in the real world. Get rid of your video games and other virtual reality toys and live in the real world.

Indoctrination in the “Obama-way” is the new mantra for Netflix. You might want to re-consider your participation.

Perhaps the supermajority in the State Legislature could come up with a bill which disenfranchises folks who are receiving government benefits (except social security and Medicare, which we all pay for). Maybe we’d find out what the vast majority of folks think about their money being stolen from them to give to those who most likely will vote Democrat to keep the benefits coming.

Feather River Tea Party Patriots

With Guest Speaker Orlean Koehle

State President of Eagle Forum of California

Yuba City, Ca – Today the Feather River Tea Party Patriots announced Orlean Koehle will be the Special Guest Speaker for their next Meeting, Monday, January 21, 2019.

Orlean Koehle has been serving as the State President of Eagle Forum of California since 2002. The Eagle Forum is a national patriotic organization with the motto “For God, Family, and Country.”

She grew up on a farm in Roberts, Idaho (near Idaho Falls). After graduation from Brigham Young University, the former Miss Idaho Falls taught speech, drama, and journalism at a junior high in Idaho Falls.

As a school teacher for over for 20 years, she did research and writ-

ings on the many changes she saw happening in the public schools since she first began teaching. She became aware of a very progressive, liberal agenda. She taught a two-week unit on Islam for the 7th grade World History course, which woke her up to the indoctrination and white-washing of the Islam religion in our public schools that she writes about in her book “Islam Rising Christianity Waning in Europe and the USA.”

In 2006, Orlean founded and served as the first president of the Sonoma County Land Rights Coalition, to help protect rural property and water rights against overbearing government regulations. She began doing research which led to her writing one of her latest books, “California’s Water Crisis – Do You Smell a Fish?” – updated in 2017.

She is the author of twelve books including, “Just Say No to Big Brother’s Smart Meter,” which tells of the dangers of Smart Meters and the two-year battle in California, which Eagle Forum was part of, to be able to get an opt out ruling from

the California Public Utility Company. There will be a Book Signing of her latest books at the meeting, “Islam Rising, Christianity Waning in Europe and the USA”; “Whoohah Nellie! – 5G Dangers and Deception of Powerful, New Wireless Technology”; and “Just Say No to Big Brother’s Smart Meter.”

Orlean and her husband live outside of Santa Rosa CA. They have six children and eight grandchildren.

Don’t forget – Our regular feature In The News with Paul Preston, Agenda 21 Radio, will follow our Special Guest Speaker. Paul will be discussing events of the day.

There is no membership requirement to attend and everyone is welcome. Doors open at 6:00 pm; meeting begins promptly at 6:30 pm. Come early to register, socialize with like-minded patriots, and get a good seat.

The meeting will be Monday, January 21, 2019, at the Crossroads Community Church, 445 B Street, Yuba City, CA 95991. Contact Larry or Carla at (530) 755-4409

Assemblyman Gallagher on Governor’s Emergency Preparedness

Colfax, Ca. – Assemblyman James Gallagher (R-Yuba City) joined Governor Gavin Newsom and emergency officials in Colfax for the announcement of Executive Actions on emergency preparedness. Asm. Gallagher issued the following statement in reaction:

“Unfortunately, the North State is no stranger to emergencies. We are all too familiar with fires, floods and the devastating impact these disasters leave in their wake.

“Today, the Governor made clear his intent to prioritize and accelerate the state’s response to wildfires and other emergencies. I am encouraged to hear that his budget will include funding to enhance 911 services and bolster the state’s fuel reduction programs.

“Most of all, I am pleased to learn that the Governor has committed to a three-year property tax backfill to keep critical Butte County government operations afloat. I am hopeful that the Legislature will embrace this proposal from the Governor and look for other ways to aid our communities as we recover.”

Background: In December, Assemblyman Gallagher introduced a similar proposal (Assembly

Bill 42) to backfill property tax revenues lost as a result of destroyed properties getting reassessed.

Terrorists and Foreign Aid

in the bombing and charged him with 50 counts of terrorism-related offenses, including the murder of American citizens and U.S. military personnel.

In April 2003, Pakistani officials arrested suspected USS Cole attack planner Walid bin Attash.

Yemeni authorities held Badawi until April 2003 when he escaped. In March 2004 he was recaptured but fled again in February 2006. The FBI offered a reward of \$5 million for information leading to his capture. The January 1 strike killed him while driving alone east of the Yemeni capital of San'a.

Five men accused in Yemeni court in July 2004 were al-Badawi, Maamoun Msouh, Fahd al-Quso, Ali Mohamed Saleh and Murad al-Sirouri. Abd Al-Nashiri, mastermind of the attack, was to be tried in absentia since he was detained at Guantanamo Bay. The judge also named the two suicide bombers for the first time, Ibrahim al-Thawr and Abdullah al-Misawa. Al-Nashiri was sentenced by a Yemeni court to death though still in American custody.

On July 16, 2004, family members of the sailors killed filed a lawsuit against Sudan for more than \$100 million, alleging the

Sudanese government provided support that enabled the al Qaeda attack. On March 14, 2007 US District Judge Doumar found Sudan liable for the USS Cole attacks and ordered Sudan to pay \$8 million to the families.

In 2010, fifteen injured sailors and three surviving spouses filed a federal lawsuit making similar claims against the Sudanese government. The plaintiffs accused the Republic of Sudan of funding, training and giving additional support to al Qaeda. They sought assets in Sudanese banks to compensate for the injuries and deaths.

On March 30, 2012, the US District Court issued a final judgment awarding \$314,705,896 in compensatory and punitive damages to the plaintiffs. On September 23, 2015, the 2nd US Circuit Court of Appeals denied the Sudanese government's appeal and ordered Sudanese bank assets to be turned over to family members.

The bitter irony is that since 1955 the U.S. has been the world's largest source of aid to Sudan. In fiscal year 2008-2009 alone the US gave Sudan \$ 901 million. That is painful for families that see their tax dollars assist-

PLICIT in the murder of
their loves ones.

More than \$50 billion annually is spent in foreign aid including funds to many nations unfriendly to the US.

This makes no sense especially when liberals say that spending \$5 billion for a wall to protect Americans on our southern border is a bad value.

Cinderella Coming to Town

Marysville Charter Academy

The Beginning Drama program at the Marysville Charter Academy for the Arts presents the classic tale of "Cinderella." Come join us as we experience this wonderful story of a young girl who learns that dreams can come true! The Disney musical follows the journey of a young Cinderella who is treated poorly by her evil stepmother and her two mean stepsisters yet desires nothing more than to attend the palace ball. With the help of a few ador-

able mice, a fairy godmother, and a charming prince, Cinderella discovers she can be happy after all! "Cinderella" will be staged on January 31st and February 1st at 7:00pm and on February 2nd and 3rd at 2:00pm. All performances will be at the Marysville Youth and Civic Center, 1830 B St, Marysville. Ticket prices are \$10 general admission and \$5 for students, seniors, and military. Call 749-6155 for more information.

Dog Bite Incident Update

Marvsville, Ca.

On January 8, 2019 at about 1038 hours, Marysville Police responded to the 1400 Block of Yuba Street in reference to three pit bulls attacking a person. Officers arrived on scene and the pit bulls

were already locked in a fenced yard in the area. The victim, a 14 year old male, sustained puncture wounds and a male adult sustained puncture wounds and one broken ankle as a result of the incident. The owner of the dogs was arrested on an outstanding warrant. The three pit bulls were impounded and transported to the Yuba County Animal Care Services facility.

01-10-2019, the Marysville Police Department conducted further investigation in case. The pit bulls were determined to not be licensed or vaccinated. During this investigation, officers were preparing a petition to have the dogs determined vicious/dangerous animals and request euthanasia, however the dog owner surrendered their rights to the dogs and consented to the euthanasia. The three pit bulls will be held in quarantine for a period of 10 days at the Yuba County ACS prior to the euthanasia.

This is an ongoing investigation and further details will be released as the investigation continues.

A Veteran Died Today

He was getting old and paunchy
And his hair was falling fast,
And he sat around the Legion,
Telling stories of the past.

Of the war that he once fought in
And the deeds that he had done,
In his exploits with his buddies;
They were heroes, every one.

And 'tho sometimes, to his neighbors
His tales became a joke,
All his buddies listened quietly
For they knew where of he spoke.

But we'll hear his tales no longer,
For ol' Joe has passed away,
And the world's a little poorer
For a Veteran died today.

He won't be mourned by many,
Just his children and his wife.
For he lived an ordinary,
Very quiet sort of life.

He held a job and raised a family,
Going quietly on his way;
And the world won't note his passing,
'Tho a veteran died today.

When politicians leave this earth,
Their bodies lie in state,
While thousands note their passing
And proclaim they were great.

Papers tell their life stories,
From the time that they were young,
But the passing of a Veteran
Goes unnoticed and unsung.

Is the greatest contribution
To the welfare of our land,
Some jerk who breaks his promise
And cons his fellow man?

Or the ordinary fellow,
Who in times of war and strife,
Goes off to serve his country
And offers up his life?

The politician's stipend
And the style in which he lives,
Are often disproportionate
To the service that he gives.

While the ordinary Veteran,
Who offered up his all,
Is paid off with a medal
And perhaps a pension, small.

It was not the politicians
With their compromise and ploys,
Who won for us the freedom
That our country now enjoys.

Should you find yourself in danger,
With your enemies at hand,
Would you really want some cop-out,
With his ever-waffling stand?

Or, would you want a Veteran,
His home, his country, his kin
Just a common Veteran,
Who would fight until the end?

He was just a common veteran
And his ranks are growing thin,
But his presence should remind us
We may need his likes again.

For when countries are in conflict,
We find the Veteran's part
Is to clean up all the troubles
That the politicians start.

If we cannot do him honor
While he's here to hear the praise,
Then at least let's give him homage,
At the ending of his days.

Perhaps just a simple headline
In the paper that might say
“Our country is in mourning,
for a veteran died today.”
