Brown Town Water Rates to Increase

by Lou Binninger

California Water Service (CWS) is asking the California Public Utility Commission (CPUC) to allow it to raise rates in Marysville 7.6% in 2020, another 4.4% in 2021 and then 4.4% in 2022 or a cumulative boost of 16.9% over the three years.

Cal Water's Marysville District began in 1930 with the purchase of Marysville Water Company and it serves 3,700 connections and 12,800 people according to their corporate information.

For decades, Cal Water kept Marysville green with reasonable rates. However, as corporate greed set – in high bills forced residents to give-up outdoor water use. Visitors to Marysville note that few people water their yards. Grass, shrubs and even trees are sacrificed.

Even tenants ignore requirements to care for the yard once they get their first water bills. Renters can be evicted but in California that is a long, tedious and expensive process tilted toward residents. Landlords and management firms look the other way, hands tied by government regulations and a monopoly on water.

How bad is it? In Marysville, water service costs \$35.61 for a 3/4 inch meter with no water included. If the customer uses 15 units of water (1 unit or CCF or HCF equals 748 gals) in a month the cost is \$77.31, not counting additional charges that Cal Water adds since it is a private company, like the Water Rate Adjustment Mechanism (WRAM). CWS also wants the CPUC to remove limits on some of their extra charges.

In Yuba City, a 1 inch meter includes 15 units of water for \$35.84. In Wheatland, the cost is \$47.47. And in Olivehurst the charge is \$31.35.

If the residence uses more than 15 units, Cal Water charges an additional \$2.92/unit up to 21 units, Yuba City \$1.84/unit (no limit), Wheatland \$.45/unit up to 45 units and Olivehurst \$1.65/unit with no next tier of charges.

Yuba City, Wheatland and Olivehurst are municipal utilities and can only charge what it costs to deliver the water to the customers. Raising water rates there takes a vote of the people.

CWS is a private corporation with rates approved by the CPUC.

“Over Here” – A Commemorative WWI Series with a Distinct Local Twist

By Courtney Ferguson

Courtney Ferguson is a public relations consultant and a freelance writer.

“Although epic battles such as the Somme and Flanders Fields were far away, World War I had a profound impact on our local history and vice versa,” said program manager and historian Linda K. Jack. “As the world commemorates the 100th anniversary of Armistice Day (November 11th, 1918), the Nevada County Historical Society and its partners will present a series of lectures, exhibits and a concert, all designed to increase awareness of the war's impact on our community, as well as our community's impact on the war.”

Four timely lectures that bring the past to life

The lecture series begins on Thursday, October 18th from 7:00 p.m. to 9:00 p.m. at Sierra Presbyterian Church, 175 Ridge Rd., Nevada City. Linda Jack's presentation, “Lest We Forget: Remembering Nevada County's Men and Women of World War I” takes a candid look at this turbulent time. Imagine local boys who had never ventured outside their community suddenly being transported to China, Siberia and Western Europe. Hosted by the Nevada County Historical Society, Jack will share the almost-forgotten stories of the fallen and the survivors – and how their courage changed

our community forever.

Gage McKinney (537e) How did local mining expertise help change the outcome of WWI? History author Gage McKinney, one of the presenters, will explain in his presentation, “The Yanks are Coming” on November 4th. Photo by Ilka Weber

“The Yanks are Coming,” will be presented by well-known history author Gage McKinney on Sunday, November 4th from 2:00 p.m. to 4:00 p.m. at the North Star House, 12075 Auburn Rd., Grass Valley. McKinney will explore the memorable life of William Hague, the young manager of the North Star gold mine. His specialist expertise took him to France in 1916, where he served with other mining engineers. Their combined skills helped alter the course of the

war – and changed world history. Hosted by the North Star Historic Conservancy, a \$10 donation is requested.

“The Impact of World War 1 on the Formation of the Modern Middle East” is scheduled for Friday, November 9th from 7:00 p.m. to 9:00 p.m. at the Presbyterian Church, 175 Ridge Rd., Nevada City. Marwan D. Hanania, PhD., Assistant Professor of History, San Diego Mesa College, will explore the relationship between WWI and the Middle East, where America's soldiers still fight today. Hosted by the Nevada County Historical Society, Hanania has many fascinating facts to share.

“Soldiers Unknown-A Graphic Novel of California's Native Americans in WWI” will take place on Saturday, November 17th from 2:00 p.m. to 4:00 p.m. at the Doris Foley Historical Library, 211 N. Pine St., Nevada City. Presented by Northern Californian author and filmmaker Chag Lowry, his presentation will highlight many real-life experiences included in his book of Native California soldiers who served in the 91st Infantry Division during World War I. Hosted by the Nevada County Library and Nevada County Historical

California Socialist Gridlock

by Lou Binninger

Venezuela, once a rich country, laden with oil and natural resources, a leader in South America, now cannot keep the utilities on, feed the people or provide medical care. The infrastructure and society have disintegrated. Its residents are fleeing daily by the thousands.

Venezuela fell not by an assassin's bullet or violent coup, but by one nonsensical socialist policy after another, a myriad of regulations to finally be left with the ultra-rich and the miserably poor. After losing an average of 20 pounds each and eating pets and zoo animals for survival people are packing it up and moving to adjacent countries.

The arrogant rich elite of California along with complicit narcissists in the Sacramento legislature are following the Chavez – Maduro path. The oligarchy here just has more shekels to flit away and adjacent states to absorb their refugees.

Why are families leaving the world's fifth largest economy? The legislature has rule by rule destroyed the freedom to prosper in California for the average family and the small business owner. Like Communist and Socialist systems, regulations make living egregious and unaffordable while the ultra-rich get exemptions or the same laws do not impact them.

United Nations Agenda 21 dogma has produced regulations, exorbitant fees, costly reviews and prohibitions. They curb freedom and stop the development of affordable housing and then only for urban areas.

The California Environmental Quality Act (CEQA) and the absurd green energy standards have made home building unaffordable except for billionaires that can wait until a politician cuts them a deal on a development. CEQA is often waived for projects with favor like sports stadiums and tribal casinos.

Socialist ideas are killing California, not a lack of land or inexpensive energy. California is only 5% urbanized. American Farmland Trust says of California's 163,000 square miles, 25,000 are in grazing and 42,000 more in agriculture. Fourteen thousand square miles of the ag land are considered prime.

So, for argument sake, 10 million new residents could fit into homes, four per household, on half-acre lots, and only use 1,953 square miles. If you used prime agricultural land for development, you would only use up 14 percent of it. If you set developments among all of California's farm and grazing land you would only use up 3 percent of it. That is three percent loss of

THE Brownsville Bailiwick & Beyond

are "out of the woods", (no pun intended), yet with fire season. We must all still be diligent and watchful until we receive more of that liquid sunshine.

Winter is right around the corner and that means it's time to stock up on firewood, batteries for our flashlights, and gas for the generators. We never know from year to year how severe

our winters will be. As for me, I'm hoping for a good bit of snow and rain. My apologies to all those who love summer!

Our column is a little on the short side this week as we are both on vacation with Yvonne in Ohio and Christine in Tahoe.

See you around Brownsville soon!

Yvonne & Christine

Yuba City Police Open House

The Yuba City Police Department is having an Open House on Saturday, October 20th from

11am to 2pm at the Yuba City Police Department located at 1545 Poole Blvd. There will be a K9 Demonstration, SWAT vehicles and motorcycles on display, tours of the Department, food, drinks, and games and goodies for the whole family. This event is designed to invite our community to see and learn about the inner-workings of the Police Department, ask questions of our personnel, and enjoy positive interactions with the Department. This free event is made possible by the support of local businesses and organizations. If your business would like to get involved or if you have any questions about this event, please contact the Community Policing Coordinator, Katy Goodson, at (530) 822-4725

FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 73 years. Anyone with questions or comments can email him at boots3@syx.com

We had an interesting response, in fact two of them, in regard to my comments about smelling fish. As I stated last week I would tell you about that experience.

Many, many years ago my Uncle Tom Hammons called me and asked if I would like to accompany him to fish for stripers. He told me the striped bass run was about at its peak. Of course I jumped at the chance. My Uncle's boat was moored at Bob and Pat's Marina on the Sacramento River where Lovies Landing now stands.

He headed downriver and with an inboard boat that was capable of 50 plus miles per hour it did not take long to pass under the Meridian Bridge and run about three more miles when he abruptly killed the engine, looked at me and said quietly, "I smell fish, do you?" His comment took me by surprise until I realized there was a fish smell in the air. He slowly drove the boat downstream until we could really smell the fish. He turned on his sounder (Back then sounders were used to locate fish) and moved back and forth across the river, stopped and dropped anchor.

The river was so full of fish that our bait almost never reached the bottom before a striper hit it. We lost a bunch of bait to the shakers (small stripers) but Uncle Tom told me we would

not move. His reasoning was where there were small fish there were big fish or keepers. His philosophy was correct because we returned to the marina before lunch with two limits of fish ranging from 6 to 12 pounds and a great fishing experience which would last a lifetime.

I have run the river during striper season since and I have enjoyed the Sacramento River for a lot of reasons, but the experience described above has me alert and the old nose sniffing every time we hit the water for stripers. Perhaps

the fish in the water will never be so huge that this will not be possible, but as Uncle Tom always said, "Find the fish, stay on the school and don't move because the big one could be the next fish on your line."

Uncle Tom passed away several years ago, but the memories of us fishing and hunting together will linger in my mind for as long as I live. RIP

Closing thought: "When someone does something wrong, don't forget the things they did right."

Brown Town Water Rates to Increase

its revenues reward shareholders with strong stock prices and a record run of dividends. CWS has paid consecutively rising dividends since 1968, a fifty-year record that has allowed it to be classed as a "Dividend King."

CWS is the place to invest and look for work. However, if you want a place to reside, your water will be acquired at a premium if coming from

Cal Water.

CPUC members and utility executives have a mutually beneficial incestuous relationship including the administrative judges hearing rate cases. The CPUC is no friend of the public.

Whether it's PG and E, Southern California Edison or a myriad of other utilities the CPUC has proven to be an ethical train wreck ripping-off

consumers and richly rewarding monopolies. Cal Water's corporate executives and board members earn hundreds of thousands and even millions of dollars each year. Employees receive "Cadillac" health care plans, assistance with college education and numerous other benefits.

CWS touts its wonderful water quality. However, California sets the regulations for water quality and all water providers must comply with the same standards. Cal Water pays nothing for the water in Marysville.

The schedule to upgrade Marysville's old 55-mile piping system is a mystery. To upgrade the aging pipe infrastructure purchased in 1930 and then expanded, Cal Water should be replacing 1-2 miles per year. That's not happening.

Marysville, located between the Yuba and

Feather Rivers, has been blessed with an abundance of well water noted in a high water table that does not recede even during the recent drought. Residents received no benefit from living above a full aquifer, but had to comply with the same water rationing as the rest of the state during the drought while paying the highest rates in the region.

CWS is now touting the fact that the average customer is using just 10 units of water and spending \$50.84 a month to justify another small rate increase. This data reflects not irrigating outdoors because people cannot afford the water. The outdoors is where most water is used in a California household. Bills would be in the \$100-200 range to keep yards green here again.

Is there any benefit in living in Brown Town?

CRITIC'S CORNER
by Matt Woolery
Venom
Starring: Tom Hardy, Michelle Williams, and Riz Ahmed. Rated: PG-13, Runtime: 1 hr 52 min.

A group of alien symbiotes come to Earth on a rocket that was sent to retrieve them from a comet. The owner of the rocket is bent on saving humanity, even if the cost is, half of humanity. When Eddie Brock stumbles through the project and gets infected by said symbiote, the thwarting of well laid plans ensues.

Venom, earns four out of five, Snack Eating Monkeys. The story runs at a slow steady pace, building a solid foundation that develops multiple characters and story arcs that

coalesce into a satisfying ending. I was thoroughly entertained and uplifted by the moral growth of characters. As with any Marvel film stay until the screen goes blank and the lights come on.

Organist, Dana Robinson, to Perform in Yuba City

Marysville, Ca. Yuba Sutter Arts is proud to announce the third in the new series of community organ concerts being held in collaboration with Marian Metson and First Lutheran Church in Yuba City. The

featured organist will be nationally acclaimed musician, Dana Robinson, DMA. The concert will be held on Friday, October 26th at 7:30pm at First Lutheran Church, 850 Cooper Avenue in Yuba City. The concert is

free, but donations will be accepted for the upkeep of the organ.

Organist, teacher, and church musician Dana Robinson is on the faculty of the School of Music at the University of Illinois and is the organist at Grace Lutheran Church in Champaign, Illinois. Prior to coming to the University of Illinois, he held teaching appointments at Central College in Iowa and Luther College, and was Organist and Choirmaster at Trinity Cathedral in Davenport, Iowa.

He performs regularly

for chapters of the American Guild of Organists, and for national conventions of the Organ Historical Society and the Westfield Center for Early Keyboard Studies. In addition to solo performances, he appears regularly in organ duet recitals with Paul Tegels, Professor of Organ at Pacific Lutheran University. His performance of J. S. Bach's Orgelbüchlein (Little Organ Book) can be heard on the ARSIS label.

Dr. Robinson's program will include music of the French and German Baroque periods including Dieterich Buxtehude and Johann Sebastian Bach.

Marian Metson, coordinator of the concert series, was the organist at First Lutheran from 1994-2010. During her tenure at the Church, there was a successful concert series that included top organists from around the country. Due to a generous anonymous gift, she has been asked by the church to reinstate the series.

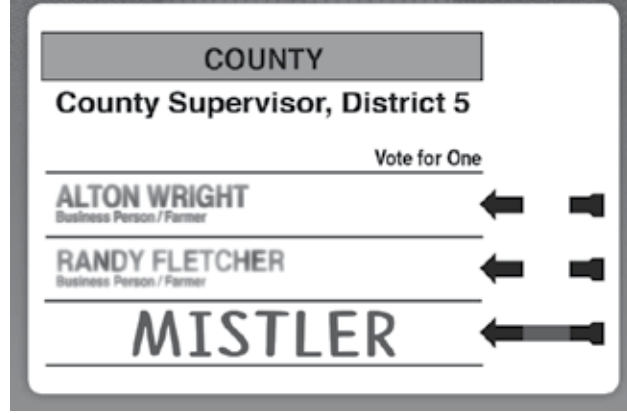

"We were able to collaborate with Chico State where the organ builder had built his first instrument and attract some of the finest organists available," said Marian. "So now we have an opportunity for our community to once again hear a world class organist playing on a world class instrument right here in Yuba-Sutter," she added.

The First Lutheran organ was built by Munetaka Yokota, who went on to build organs at universities in Sweden and in Rochester and Ithaca, New York in addition to Chico State. Yokota is revered in esoteric organ circles.

For additional information, contact David Read at 530-749-8065 or david@yubasutterarts.org.

Hal Stocker Says "Hal Yes" Write in Mistler Yuba County Supervisor 5th District

How to do a "Write-In" vote 5th Supervisorial District only

- 1.) When you look at the ballot you will not see my name.
- 2.) When you get to the County Supervisor part of the ballot you write in **MISTLER** on the blank line below the other two candidate's.
- 3.) Connect the arrow like you do on other parts of the ballot.

If voting electronically at the polls, touch the box that says "WRITE IN". A keyboard will pop up. Type in "MISTLER", then press OK.

Paid for by the Committee to Elect John Mistler Yuba County Supervisor, 5th District 2018. FPPC #1411674

Sale subject to cancellation in the event of settlement between owner and obligated party. Auctioneer Joan Hilbers, Bond #W150153447. (10/17/18 & 10/24/18)

NOTICE OF PETITION TO ADMINISTER ESTATE OF Linda L. Pullins aka Linda Lee Moon Pullins Case NO. CVPB18-00127

To all heirs, beneficiaries, creditors, contingent creditors, and persons who may otherwise be interested in the will or estate or both of (specify all names by which the decedent was known): **Linda L. Pullins aka Linda Lee Moon Pullins**

A Petition for Probate has been filed by (name of petitioner): Melinda Silva in the Superior Court of California, County of (specify): Yuba

The Petition for Probate requests that (name): **Melinda Silva** be appointed as personal representative to administer the estate of the decedent.

The petition requests the decedent's will and codicils, if any, be admitted to probate. The will and any codicils are available for examination in the file kept by the court.

The petition requests authority to administer the estate under the independent Administration of Estates Act. (This authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

A hearing on the petition will be held in this court as follows: November 19, 2018 at 9:00 a.m. in Dept. 4 located at Superior Court of California, County of Yuba, 215 5th Street Ste. 200 Marysville, CA 95901.

If you object to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

If you are a creditor or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58 (b) of the California Probate code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code. Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California Law.

You may examine the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for special Notice form is available from the court clerk.

Attorney for petitioner: Brenda C. Smith 1445 Butte House Road, Suite K, Yuba City, CA 95993

LEGALS CON'T

NOTICE OF TRUSTEE'S SALE
TS No. CA-18-826792-AB Order No.: 180212484-CA-VOI YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED 3/3/2017. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDING AGAINST YOU, YOU SHOULD CONTACT A LAWYER. A public auction sale to the highest bidder for cash, cashier's check drawn on a state or national bank, check drawn by state or federal credit union, or a check drawn by a state or federal savings and loan association, or savings association, or savings bank specified in Section 5102 to the Financial Code and authorized to do business in this state, will be held by duly appointed trustee. The sale will be made, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by the Deed of Trust, with interest and late charges thereon, as provided in the note(s), advances, under the terms of the Deed of Trust, interest thereon, fees, charges and expenses of the Trustee for the total amount (at the time of the initial publication of the Notice of Sale) reasonably estimated to be set forth below. The amount may be greater on the day of sale. **BENEFICIARY MAY ELECT TO BID LESS THAN THE TOTAL AMOUNT DUE.** Trustor(s): **DENNIS CARTER, AN UNMARRIED MAN** Recorded: **3/8/2017** as Instrument No. **2017-002816** of Official Records in the office of the Recorder of **YUBA** County, California; Date of Sale: **10/24/2018 at 3:00PM** Place of Sale: **At the front entrance to the County Courthouse, located at 215 5th St., Marysville, CA 95901** Amount of unpaid balance and other charges: **\$314,134.67** The purported property address is: **1779 BROMLEY CT, PLUMAS LAKE, CA 95961** Assessor's Parcel No.: **016-680-017-000** **NOTICE TO POTENTIAL BIDDERS:** If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. **NOTICE TO PROPERTY OWNER:** The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call **916-939-0772** for information regarding the trustee's sale or visit this Internet Web site <http://www.qualityloan.com>, using the file number assigned to this foreclosure by the Trustee: **CA-18-826792-AB**. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. The undersigned Trustee disclaims any liability for any incorrectness of the property address or other common designation, if any, shown herein. If no street address or other common designation is shown, directions to the location of the property may be obtained by sending a written request to the beneficiary within 10 days

of the date of first publication of this Notice of Sale. If the sale is set aside for any reason, including if the Trustee is unable to convey title, the Purchaser at the sale shall be entitled only to a return of the monies paid to the Trustee. This shall be the Purchaser's sole and exclusive remedy. The purchaser shall have no further recourse against the Trustor, the Trustee, the Beneficiary, the Beneficiary's Agent, or the Beneficiary's Attorney. If you have previously been discharged through bankruptcy, you may have been released of personal liability for this loan in which case this letter is intended to exercise the note holders right's against the real property only. Food and Farm News

Energy mandates may lead to 'hard decisions'

Updated renewable-energy mandates from the state of California will likely raise costs for farms and agricultural businesses. A California Farm Bureau energy specialist says she ex-

pects rates to rise as a result of the mandates, and a spokesman for food processors say they face "hard decisions" because of their dependence on natural gas. The mandates also add impetus to studies by California universities into further renewable-

energy use in agriculture.

Expiration of farm bill affects federal programs

More than three-dozen federal legislation programs expired at the end of September. A California Farm Bureau policy specialist says most impacts on farmers and ranchers would be avoided if Congress finalizes a new farm bill before the end of the year. A conservation program popular with California farmers was not affected, because its funding was authorized through next year.

UC looks at impact of wildfires on grapes

The Wine Country wildfires of a year ago may help University of California researchers learn how to offset the impact of smoke on winegrapes. Vineyards at a UC research station in Napa County were exposed to smoke from the fires. Now, a UC Davis specialist has made wine from grapes picked at the station just before and just after the fires. She hopes to learn more about winemaking techniques that would prevent smoky flavors from hurting the wine.

Farm advisors put technology to the test

Startups and established companies alike have been investing in agricultural technology—and University of California farm advisors say they're testing some of the new products to see if they're practical for on-farm use. UC and other colleges held a field day in Fresno County to report on technological services in areas including water management, crop testing and plant-disease detection. A university program aims to connect farmers with technology developers.

Dear Conscientious Voter:

The Yuba Sutter Constitutional Republicans announces our earnest commitment to supporting the write-in candidate for Yuba County Supervisor, District 5, John Mistler.

This campaign has considerable potential for making the impactful statement that WE THE PEOPLE do not have to settle for the lesser of two evils. More than that, we have a momentous opportunity to elect a weighty advocate for transparency in government and vigorous supporter of free speech. **As the owner and editor of the Territorial Dispatch, John Mistler has consistently demonstrated his advocacy for First Amendment rights and aided the people in their duty to hold government accountable to those from whom they derive their authority.**

As voters, we are in the unique position of having direct irrefutable knowledge that John is well versed in the issues he will be addressing as a Yuba County Supervisor, evidenced by the news media he is charged with administrating. We have also come to know how well balanced he is in his abilities to analyze those issues and as a Supervisor, he will be able to effectively act on those issues on our behalf. His highly successful Territorial Dispatch is a well recognized newspaper throughout not only Yuba County, but also surrounding counties and has gained him respect as a proven community leader and has afforded him the high regard held among those who are fortunate to have access to his trusted media outlet.

It is our pleasure to endorse John Mistler for Yuba County Supervisor, District 5 in 2018. We implore the voters in district 5, to not only say no to the status quo offered by the incumbent, nor to compromise with a vote for his opponent, but to instead choose door number 3; write-in MISTLER on their ballots.

Respectfully,
 Sutter-Yuba Constitutional Republicans

"Preemptive Oversight"

Many hold the opinion that safety takes a back seat to profits in many industries. The transportation industry is overseen by among others, the U.S. National Transportation and Safety Board (NTSB) which is an independent U.S. government investigative agency which has the responsibility to investigate civil transportation accidents.

Their history, at least in this analyst's opinion, is a sordid one with a checkered past. One only has to look at the latest in horrific accidents that has taken place on U.S. soil last week when a limousine with 18 people aboard crashed and killed everyone in it as well as two pedestrians.

From an article by Bloomberg news entitled "Deadly N.Y. Crash Spotlights Safety Loopholes for Big Limousines", Deborah Hersman, president of the National Safety Council advocacy group and a former NTSB chair commented "There's a bit of a Frankenstein approach, where a vehicle is chopped up and put back together with parts that were not originally designed for that vehicle..... It's clear that they don't have the same safety design standards as those same vehicles had before they're stretched or modified."

My question would be "why the heck is the NTSB waiting until some-

one dies, or more accurately, a lot of people die, before looking into things that move fast and can kill people. The words "preemptive oversight" come to mind.

From planes, trains and automobiles to boats, trams and what have you, the NTSB oversees most of what they do and we often hear about some flaw or reoccurring malfunction that the manufactures continue to implement despite consumer complaints because the cost to fix flaws or design in new safety feature would cost too much. Its only until the cost of lives exceeds the publics willingness to tolerate such costs does the NTSB seem to move.

Now we witness a whole group of 20 people, 18 of which knew each other and were on their way to a birthday celebration only to end up as subjects in a future wake instead, that limousine safety requirements might not be up to snuff. It only took the snuffing out of 20 loved souls for the NTSB to maybe start seriously commencing some debate about doing something.

Despite what I read about the NTSB doing good things and I am sure they do, my own experience with them is limited but telling.

Decades ago, while boarding a public airliner, I noticed a grossly overweight women sitting in the exit aisle. Not to belittle overweight folks, but she could barely fit in the chair and her husband who sat next to her was equally weight challenged and on an oxygen generator to boot. What???

They sat in an EXIT aisle mind you, where, in case of emergency, one would have to lift a 40 lb. exit door and get the heck down the chute in a

timely fashion. I pointed out my observation to the stewardess and she said 'it's up to the passenger to determine their ability to perform the task'.

Humm..... I wonder how much thought the two passengers had given to that one in lieu of just wanting more leg room.

I wrote the NTSB with photos and descriptions (yes I had a Kodak Instamatic on me) and sent the letter registered with receipt. They took 3 months to respond and did so with a form letter thanking me for my communication and found no current requirement for the deficiencies I noted and confirmed it was up to the passenger to determine eligibility.

As far as I can find out, today it's the same with the only requirement is being over 15 years old and without young children to assist.

However the able bodied requirement is left up to the passenger's decision. In other words, if the passenger says they can perform the duties, the airline employees on board cannot overrule or so I read.

Score another victory for political correctness. The reality of it is that most people sitting in these seats just want the extra room and presume they would never have to lift an exit door as planes don't crash.

Until they do.

Mark my words, somebody or many somebodies are going to burn to death or drown someday because some unable bodied person won't be able to lift that door and/or get the heck out of the way, and much like our limousine wakeup call where 20 people had to die before anyone looks into it, likely many tens or even hundreds of people will end up on a slab at the morgue before the NTSB finally gets its butt in gear on this issue and many others just like it.

Artisan Community Garden Open House Event

On Saturday, October 20th from 5-8pm, the Artisan Community Garden at the Community Memorial Museum is celebrating a successful first summer of growing and harvesting produce for the community. All are invited to attend and enjoy food, drinks, family games and activities, music and a time to learn about what the community garden is doing. Families or groups can

participate in a Scarecrow Making Contest, where they can bring their supplies and decorations to create a one-of-a-kind scarecrow that will be displayed at the garden. The winner will receive a free garden plot for the Winter/Spring growing season!

The Artisan Community Garden's mission is to create and maintain a sustainable community garden that will produce

nourishing food, provide educational resources on healthy living and foster a culture of social responsibility all while promoting community togetherness.

The event is located at 1333 Butte House Road in Yuba City. Any questions can be directed to the Museum at 530-822-7141 or by emailing artisancommunitygarden@gmail.com.

Brownsville Mountain Quilt Guild

It's that time again, time for Brownsville Mountain Quilt Guild to hang their beautiful quilts for all of us to enjoy. This show has been a highlight event for many area quilters. It will take place on Nov 3 and 4 at Ponderosa Community Center (17103 Ponderosa Way) in Brownsville. There is a \$6.00 admission fee; food will be available.

Some of the highlights of this show, in addition to viewing the gorgeous quilt projects, are raffles, a country store with many super bargains, and vendors selling various sewing/quilting supplies. Please use cash or checks as our internet connection is not strong. The opportunity quilt is worth gazing at and you can win it if you donate

to get tickets. There will be door prizes, too. On Saturday the hours are 10 am to 4 pm and on Sunday from 10 am to 3 pm. Raffle drawings will be held at 3 pm on Sunday, but you do not need to be present to win. For more information, please call 530 675-1807 or 530 675-2512. Hope to see you there.

The Church of Jesus Christ of Latter Day Saints

Will build a new Temple in Yuba City

The Church of Jesus Christ of Latter Day Saints announced they would build a temple in Yuba City. Mayor Preet Dibbal and Vice Mayor Shon Harris recently spoke with representatives of the Church and made the following statements:

Mayor Preet Dibbal stated: "As Mayor of the City of Yuba City I'm excited The Church of Jesus Christ of Latter Day Saints chose Yuba City to located their next Temple. I know the members of the Church in our City, region and northern California will benefit from this important religious facility. Yuba City is the ideal location for the Church of Jesus Christ of Latter Day Saints to build a Temple. Known for our diversity, our City embraces all cultures and religious beliefs. I look forward to working with the Church to ensure a smooth and efficient processing of this project."

Vice Mayor Shon Harris stated: "The history of the Church of Jesus Christ of Latter Day Saints runs deep in our City. Church member Sam Brannon established Yuba City in 1849 and we have a community park named in his honor. Throughout my life I've known many members of the Church of Jesus

Christ and I've seen the importance the Temple plays in their worship. I have no doubt the construction of a Temple in our City will be a benefit to not only the members of the Church but also to the community at large by providing a significant number of jobs and will be an economic stimulus for many years to come.

Veteran of the Year Applications

The Yuba Sutter United Veterans Council has announced that it is accepting applications for the 2018 VETERAN OF THE YEAR; NON-VETERAN VOLUNTEER OF THE YEAR AND THE VETERAN SUPPORTING BUSINESS OF THE YEAR.

This is an opportunity for you to honor those Veterans and those that serve Veterans for their support to the Yuba Sutter Community.

Please take the time to complete the application and return it to:

Yuba Sutter Veterans Stand Down
604 D Street, Marysville, CA 95901

Applications are available online at the Stand Down Face Book page, the Stand Down website: www.yubasutterveteransstanddown.org

Or at the Stand Down office located at 604 D Street, Marysville

Completed applications must be received not later than October 22, 2018.

If you have questions, please call the Stand Down Office at (530) 749-1036

Your One Minute News Digest

by Don Rae

The Democrats are playing for power. They can't stand the thought of not being able to dictate their craven agenda. An entrenched bureaucracy is very dangerous. Lifetime elected officials are dangerous. Why? Because power corrupts. What this leads to is folks susceptible to corruption gravitate to where the power is. No wonder there is such a mess in DC and Sacramento.

Let's pursue this line of reasoning further as the election draws closer. San Francisco streets are public toilets. Who is responsible? Democrats. Homelessness is skyrocketing. Who is responsible? Democrats. Cal Trans has thousands of unnecessary workers. Whose fault? Democrats. How about the public pension problems? Moonbeam and the Democrats. Criminals running through our neighborhoods? Guess who? Poor forest management? Environmentalists egged on by Democrats. Potential floods and dam failures? College tuition sky high and lamebrain professors? Pot holes and even new construction falling apart (Bay Bridge, San Francisco transit center and the leaning tower of San Francisco)? Public schools nearly last in the nation? Are these the results you want to continue? Would you rather reverse these trends? Then use your vote to good effect.

The California DMV is in total chaos. Long lines, hours lost in huge lines, wrong voter registrations, etc. Who is responsible? Moonbeam and his lemmings.

Did you see the report on the origin of the Ferguson fire in Yosemite? A catalytic converter from a car. This device is supposed to have saved California from pollution and solved the problem of tail-pipe emissions into the atmosphere. It not only was lied about by politicians and environmentalists, but the result is a dangerous device mandated to be part of every vehicle in the state. What can you do? Don't pull over near any dry grass.

The ACLU has taken the position that one is guilty until they can prove themselves innocent. Ever tried to prove a negative? These partisan hacks spent some \$1 million of your donations to smear a Supreme Court nominee. The ACLU no longer deserves the support of rational people.

If there was any abuse of women by Kavanaugh, Gloria Allred would have been front and center. No Allred; no abuse.

Does Moonbeam and friends really think that legislation criminalizing citizens for assisting ICE will pass muster? What a

waste of taxpayer money.

The Democrats are now the party of the mob. The screaming, sloganeering, uneducated, ill-mannered, snowflake mob. Garamendi, do you really want to be a part of this craziness?

Since a logical case can be made that Feinstein was the mastermind behind the vile, lying, vicious attack on Kavanaugh, why should she be re-elected?

Have you ever watched the old newsreels of Germany in the 1930s? Do so, and see if the current videos of protesters aren't clearly reminiscent of the lead up to Hitler.

The idiots in Sacramento have made it virtually impossible to use a concealed weapons permit, by restricting where the permit is valid. You may not carry in a public building, school or park. If you carry and have business in these buildings, then you must lock your weapon in a safe attached to your car's frame. At home your weapon must be locked up. And heaven help you if it is found loaded. If you want to buy ammunition for your weapon, you must go through a background check and pay a fee. Now that the legislators have virtually disarmed citizens, they vote to let criminals out of prison and set up some sort of procedure where violent felons can be "diverted" to treatment rather than put away. Nice, huh? Of course, these same legislators have armed security, live in gated communities with security, and drive around in bullet-proof limos.

It is said that Winston Churchill commented that "Socialism is a philosophy of failure, the creed of ignorance, and the gospel of envy. Its inherent virtue is the equal sharing of misery."

A Los Angeles Councilman introduced a motion requiring City contractors to disclose any ties they have to the NRA, claiming that the organization is a major roadblock to gun safety. The City Council approved a similar ordinance last year that requires contractors or prospective

contractors to disclose that they have placed bids on Trump's border wall. The clear message is, if you support the NRA or Trump you won't get any City business. Avoid LA. The traffic is insane and the politics are idiotic.

The UN is at it again with "sky is falling" predictions on climate change. And Moonbeam is prancing along echoing the message. Consider this fact of CO2 (remember you are breathing CO2 out with every breath) According to Howard Herzog, an engineer at MIT who specializes in "carbon capture" technologies, CO2 is a tiny percentage of the air; Herzog likens the technique to removing 400 "CO2 marbles" from a pile of one million marbles.

What is even more amazing is that scare headlines in the mainstream media as Moonbeam calls Trump "liar, criminal and fool" on climate change. Moonbeam, please trundle off to your ranch in Colusa County. Soon. Please.

The mainstream media is at it again. Without any journalistic ethics, they publish huge stories about the United Nations telling us that the world will come to an end in a decade unless we go back to living as cave-men. They do this in the news columns rather than the opinion page. No gasoline, no electricity, no food, no clothing, no baseball games. Nothing. Yet the same jerks who put out this trash (and their willing accomplices in the press) don't want their life styles affected. They want to continue living in huge mansions, flying in private jets, and giving each other awards at nearly daily self-congratulating ceremonies. No. The elite want their perks, while saying that the rest of us should give away our money and treasures to others in the name of equality. Maybe we'd listen to these creeps if they started by re-distributing all their assets until they are living in rags. And since every breath they breathe throws more CO2 into the atmosphere, they could do something positive about that also.

California Federation of Republican Women Ballot Measure Recommendations

General Election Ballot Measures

- Prop 1:** Authorizes Bonds to Fund Specified Housing Assistance Programs..... - **NO**
- Prop 2:** Authorizes Bonds to Fund Existing Housing Program for Individuals with Mental Illness..... - **NO**
- Prop 3:** Authorizes Bonds to Fund Projects for Water Supply and Quality, Watershed, Fish, Wildlife, Water Conveyance, and Groundwater Sustainability and Storage..... - **NO**
- Prop 4:** Authorizes Bonds Funding Construction at Hospitals Providing Children's Healthcare..... - **NO**
- Prop 5:** Changes Requirements for Certain Property Owners to Transfer Their Property Tax Base to Replacement Property..... - **YES**
- Prop 6:** Eliminates Certain Road Repair and Transportation Funding, Requires Certain Fuel Taxes and Vehicle Fees be Approved by The Electorate..... - **YES**
- Prop 7:** Conforms California Daylight Saving Time to Federal Law, Allows the Legislature to Change Daylight Saving Time Period..... - **NO**
- Prop 8:** Regulates Amount Kidney Dialysis Clinics Charge for Dialysis Treatment..... - **NO**

(From here we skip from Prop 8 to Prop 10. Prop 9 was removed from the ballot by the California Supreme Court)

- Prop 10:** Expands Local Governments' Authority to Enact Rent Control on Residential Property..... - **NO**
- Prop 11:** Require Private-Sector Emergency Ambulance Employees to Remain On-Call During Work Breaks, Eliminates Certain Employer Liability..... - **YES**
- Prop 12:** Establishes New Standards for Confinement of Specified Farm Animals, Bans Sale of Non-Complying Product..... - **NO**

THINK About It!

By Charlie McNiff

Do You REALLY Want Anarchy in This Country

When you vote in the mid-terms in a little more than 3 weeks, one of the main reasons should be the quality of life for your children's children...and THEIR children. What will life be like for your grand-kidlets and their kidlets. We're talking 40 or more years down the road when half or more of us will be history in the photo albums.

Will those kidlets experience the Rule of Law and Presumption of Innocence Before Being Proven Guilty.....or Rule by Mobocracy. This mid-term election REALLY is that important. The old saying, "If we don't learn from the past...we are doomed to repeat the past. And the recent dabbings of the Rule of the Mob over the last few years must cease and desist...or we are in deep squat Trouble (And that's with a Capital "T"). It is imperative that we Agree to Disagree...and that's going to take some work.

The Mobocracy, in my perspective, has been smouldering for a few decades but the real firestorm erupted with the riots in Ferguson, Missouri, August 9, 2014, that started over the killing of Michael Brown...but the policeman involved was later acquitted by U. S. Attorney General Eric Holder.

The Ferguson Mob (inflamed by paid protestors, most of whom were bussed in from out of the area) vandalized, looted and torched businesses on fire. A number of them had their faces covered by scarves, apparently to hide their identity as cowards from the police... who were standing by... doing nothing.

On December 13, 2014, in a protest parade in New York City, another group of "paid" protestors chanted from an open flatbed truck, "What Do We Want... Dead Cops!___When Do We Want 'Em...NOW!."

The Anarchist leaders were being emboldened!

A few months later, April 12, 2015, the Baltimore Riots erupted over the death of Freddie Gray...and the vandalizing, looting and torching of businesses and cars took the rampaging up a notch. Here again, the police were told, in essence, to "stand down" and let the riot play out.

This time there were five policemen indicted in Freddie Gray's death a few days later surmised to be from an injury during the transportation of Gray to the police station. The policemen were later exonerated.

Somewhere in that period was a group of (paid) protestors in Minneapolis, Minnesota, that were blocking traffic on a freeway while chanting about cops..."Fry 'Em Like Bacon."

These antics, to me, is not protesting, it borders on Anarchy when you disrupt the normal flow of everyday life. There is a proper place to protest... like on the side of the road.

The Berkeley (University of California) Riot that stopped a scheduled speech by a "conservative" that resulted in AN-TIFA (AntiFascist...now there's a play on words by people that stifle speech) whose members wore those infamous face-covering scarves who removed barricades and broke windows at a university building.

And on...and on...and on!! Most recently, Judge

Kavanaugh was raked over the coals by Democrat Senators using gutter language and uncorroborated claims without any evidence whatsoever in an attempt to derail his confirmation to the Supreme Court of the United States.

The Democrat Party of today seems to have been pulled all the way to the Far Left...and some of them could be teetering on the cliff of becoming Radical.

Suggestion... Do some Channel Surfing on your TV and see what different stripes of commentators are talking about. See why ABC, CBS, NBC, CSNBC and CNN are being called "Fake News"... and then compare them to FOX.

Issues like Stopping Illegal Immigration, Building The Wall, Eliminating ICE, Impeaching both President Trump AND Justice Kavanaugh, Replace Cutting Taxes to Implementing More Taxes. Etc., Etc.

After you compare where President Trump has brought us in the last 21 months and where we're headed...to where the Democrats want to take us back to...you will determine what direction you want this country to continue on.

When you vote in little more than three weeks from now, think of the world 20 to 30 and 40 years from now that your children's children...and THEIR children will be living in.

Yuba County Board of Education Trustee Appointment

The Yuba County Board of Education, at its meeting on October 10, 2018, unanimously voted to appoint Marjorie Renicker to fill the vacant Trustee Area 1 seat. Marjorie has lived in Yuba County for over 38 years and is actively involved in many service clubs and organizations. "I'm very proud to have been appointed as the Area 1 representative for the YCOE Board of Trustees, and look forward to working with Superintendent Reveles and the other board members," said Marjorie Yuba County Board President Eva Teagarden said this of Mrs. Renicker's appointment, "We are very pleased to appoint Marjorie Renicker to fill the vacant District 1 Trustee position. We believe that her experience, insight and dedication to the students, families and community will be an asset to YCOE."

Mrs. Renicker took the Oath of Office at the regular board meeting on December 12, 2018 at the Yuba County Office of Education, 935 14th Street in Marysville, beginning at 4:30 p.m.

How to do a "Write-In" vote

5th Supervisorial District only
by John Mistler

- 1.)** When you look at the ballot you will not see my name.
- 2.)** When you get to the County Supervisor part of the ballot you write in **MISTLER** on the blank line below the other two candidate's.
- 3.)** Connect the arrow like you do on other parts of the ballot.

Proposition 3 Deserves Your Attention

by Brent Haste, Yuba Water Agency Board Chairman

In November, voters will face a string of initiatives. As the chairman of the Yuba Water Agency and the president of the Association of California Water Agencies, I encourage you to take a good, hard look at Proposition 3, the Water Supply and Water Quality Act of 2018.

The Yuba Water Agency Board of Directors voted to support this proposition earlier this year, but ultimately each voter should consider the pros and cons of this measure.

If approved by the voters, the State of California will sell \$8.9 billion in bonds to upgrade, repair and modernize California's water infrastructure. Bonds are not taxes. They are used by governments to supplement their budget to finance projects that meet specific requirements. All state general obligation bonds, such as Proposition 3, require voter approval in California. And none of these funds can be

used to fund any part of the California WaterFix project (the Delta twin tunnels).

What Prop 3 could do is provide significant social, economic and environmental benefits for the people of Yuba County. It would make funds available for ground-water management, to improve fish and wildlife habitat, and to meet many other needs. One of the biggest potential benefits for our region is funding for projects that can significantly reduce our flood risk, which is critical to our economic revitalization. Our planned \$160 million secondary spillway at New Bullards Bar Dam is an example of a project that could receive significant funding from Proposition 3. This essential project will lessen our flood risk and enhance the safety of the dam.

Our region has been well served by prior bond measures. In the last 20 years, our community has successfully leveraged hundreds of millions in state bond dollars with local and federal funding for important projects. For example, the Feather River Setback Levee, which reduces flood risk in Plumas Lake, Arboga, Linda and Olivehurst and includes more than 1,500 acres of riparian habitat, was largely funded by state

bond money.

More recently, our community received a \$1.26 million dollar grant from the Department of Water Resources to supplement local funds to help improve drinking water supplies in Gold Village, a disadvantaged community.

Prop 3 is supported by a broad array of agricultural, business and conservation interests, and water organizations such as the Association of California Water Agencies, the Northern California Water Association, Ducks Unlimited, the California Waterfowl Association and hundreds more.

Its opposition, led by the Sierra Club in California, believes that the proposition benefits special interests and not enough Californians to ask all citizens to pay for it. They also express concerns about how the funding will be overseen.

Whatever your thoughts on this issue, the most important thing is that you vote on November 6.

Attention!

No new controversial opinions will be placed in the October 31st issue.

Any controversial opinions in the October 24th issue will be allowed to rebut in the October 31st issue.

Supports Wright

The Sutter-Yuba Republican Women Federated are holding a luncheon in Yuba City to showcase candidates Fletcher, Mistler and Vasquez, as well as other candidates running for Yuba City Council.

What's most astounding is the fact that these three, Yuba County, candidates do not represent two of the most fundamental beliefs of the Republican Party - Less taxes and less government spending.

How will the luncheon attendees reckon with the fact that Supervisors Fletcher and Vasquez each

strongly support Measure K taxation? How will Supervisors Fletcher and Vasquez explain the fact that they awarded themselves pay raises last year, but during these present austere times, they make no mention of taking a pay cut? Will attendees question the fact that Supervisors Fletcher and Vasquez have twice approved borrowing money from the Water Agency to pay County CalPERS indebtedness, yet reveal no strategies as to how to stop the borrowing and hemorrhaging of the unsustainable pension

situation? And, how about those excessively high salaries of high-ranking County positions, some more than 10 times greater than the median HH incomes - Will Supervisors Fletcher and Vasquez show any concerns about this? How will the luncheon attendees see any of this as being fiscally conservative?

And, speaking of the Water Agency and tax revenue, how will attendees react to Candidate Mistler's desire to just hand over our tax money, within 30 days, to the Sheriff without any operation or financial audit conducted beforehand? How will attendees react to the fact that Yuba County public safety already eats up nearly 80% of the General Fund and Candidate Mistler believes we should spend more? How will the attendees see any of this as being fiscally conservative?

Vote Alton Wright - The ONLY fiscally conservative candidate running for Yuba County Supervisor. Time for

know what was going on. He read all of his answers prepared by campaign handler Crystal Martin. That is the same Crystal Martin that handles Andy Vasquez's campaign and the same one who is being paid to promote the ill fated Measure K.

Calvin James
Grass Valley, Ca.

Supports Mistler

I have known John Mistler for a long time and I know he has worked for the benefit of the citizens of Yuba County for all that time. Supervisor Fletcher has no backbone to stand up to the staff and remind them who the boss is. He has Buck Weckman as his backbone. Watching the Candidate Night it was clear the Fletcher did not

Doesn't Support Wright

As I pass Alton Wright's campaign signs for Yuba Co. 5th district supervisor, I read the statements, integrity, conflict free, fresh, fair, change, and for the people. I've always believed that actions speak louder than words.

One of the statements that really puzzle me is, "conflict free." Really Alton!

Over the past few months I've heard stories about the conflicts you have created. It seems most of these conflicts were with older women, but there have been men also.

I guess you don't consider a conflict to be verbal attacks, intimidation, lawsuits and threats of lawsuits. What about threatening a person that if the sign you put on pri-

vate property came down, they would be held responsible. After which you allegedly sped up and down the street in front of their house, shouting out your car window, "this is a democracy". I wish you would remember that this is a democracy when you set at home on your computer harassing and intimidating people for their thoughts or statements. Again, is this fair? What people are you for? Let's see your integrity.

This is a predominately conservative community where people raise their children and grandchildren, go to church on Sunday and do their best to instill proper moral values in their families. We need a supervisor who listens to our needs and concerns, not spending all his time

criticizing others. Your web sites is full of what your competition says, does, doesn't have right or wrong. No bullying, we want solutions.

Most of us came here to escape big city life and politics and don't welcome the change that you Mr. Wright would bring.

Folks before you mail in your ballots, or allow someone to take them in, you need to hear the rest of the story. There is only one sane choice in this race.

Only one who has integrity, proven leadership skills and is conflict free, and cares about all of our futures. He isn't Mr. Wright who is so wrong about everything.

Stay tuned for the rest of the story!

Kyle Masonstone
Olivehurst, Ca.

BSA NorCal Adventure Area

There is an exciting project in the works in District 5 and few people know of it. The Boy Scouts of America (BSA) have acquired the old 4H camp on Oregon Hill Road and are in the process of developing a year round camp to serve more than 16,000 youth. The BSA has committed to invest \$1.5 million initially with a potential \$6 million total price tag.

Called the NorCal Adventure Camp, it will have Adirondack sleeping areas, kitchen and eating area, year round aquatic training center, hiking trails and an archery-shooting range. Visitors do not need to be Scouts to enjoy the facility. Like-minded organizations such as 4-H, church groups, schools, civic and sports groups will be able to enjoy the property.

Currently the rough

grading is completed. Two large (5,000 sq. ft) maintenance/storage buildings are finished and the foundation for the caretaker's residence is under construction. Local companies are doing this work with a pledge from BSA to make every effort to employ Yuba County residents and support local businesses throughout the project. BSA is bringing jobs and income to the foothills now and will continue to do so in the years to come. BSA NorCal Ad-

venture Area will open a new door to visitors who will discover the beauty of our area and the welcoming attitude of our Foothill Community. A big "Thank You" to the Yuba County Supervisors for their efforts and to Randy Fletcher in particular for his continued support.

For more info on this exciting project, visit <http://www.gec-bsa.org/camping-/norcal-adventure-area/64105>

Dobbins, Ca.

Measure K It's About Trust

The Yuba County Board of Supervisors are trying to pass a tax increase, a General Tax which would only require 50% + 1 vote to pass. With a General Tax they cannot guarantee where the tax will be spent.

The Board of Supervisors are saying, Gary Bradford in particular,

"trust us" we will do the right thing. We do know for sure that we cannot trust Andy Vasquez and Randy Fletcher they both voted to and succeeded in stopping our right to vote. Vote for anyone except Vasquez or Fletcher.

Monty Hecker
Marysville, Ca.

Supports Flohr

My vote goes to Gretchen Flohr for division four.

She is capable, dependable, reasonable and has communication skills.

She also actually cares about irrigation supply to our community, having moved here to start a small sustainable farm.

Her opponent has property in our district, but does not live there.

One of his properties adds to the fire danger in our community.

He refused to weed-whip his field adjacent to the Rices Crossing road, even after I had personally asked him to do so, claiming that that was too expensive.

This did not instill in me a belief that he truly cares about the fire dan-

ger in the neighborhood.

As a fire fighter, I believe it would have served his election prospects better if he had set a good example and cleared properly, like we all do.

As we all know, water in the ditches, even for half a season, would have kept all of our ponds filled. And have kept the fire hydrants in good working order.

The water manager of NYWD said in a meeting that delivery of water to his customers for a limited time would be "a waste of water".

I did not see Donald Ferguson stand up for the customers.

I do believe Dr. Flohr will
Marieke Furnee
Oregon House, Ca.

Supports Ferguson

water away.

NYWD Director Doug Neilson has compiled some extensive notes about the flow at the Taco Bell House and how Dr. Padgett-Flohr got her math all confused. You can read it at:

<https://dirnotebook.com>

Some facts about the NYWD. The district has paid off its debts to Yuba Water Agency, bought a whole new fleet of trucks and an excavator, is piping portions of the Oregon House/Dobbins area ditches, see:

<https://www.nywd.org/irrigation>

The engineering drawings to pipe the Forbestown Ditch are in

hand, and the water district is in the process of researching grant funds and a possible loan from the Yuba Water Agency to construct the pipe. All this has happened since the current Board was elected in 2016.

If the water district keeps on this track and, provided some new person doesn't come in and completely disrupt things, the Forbestown pipe could be conveying water by 2020.

Who do you want representing you, piping-the-Forbestown-Ditch Ferguson, or take-my-water-away Padgett-Flohr?

Charles Sharp
Oregon House, Ca.

Yuba County Pet of the Week

5245 Feather River Blvd.
Pet of Adoption
Event: November 3, 2018

Yuba County Animal Care Services is located at 5245 Feather River Blvd., Olivehurst. The phone number is 530-741-6478. Kennels are open Monday – Friday 10am – 3:30 pm and Saturdays 10 am – 2 pm. You can also go to www.petharbor.com or www.petfinder.com to see all of our adoptable animals and look for your lost family pets, or check out our Facebook page, Yuba County Animal Care Services@yubacountyACS. We also have an Amazon wish list if you would like to help support the

shelter. The link to our wish list is; Amazon.com http://a.co/7qGE7rO.

TOPICS OF INTEREST STARS Volunteers: Volunteers are needed for the animal shelter. If you have time on your hands and would like to help out, become a STARS volunteer. Contact Deneen Barnhill at the shelter to find out how.

Donations: The STARS help support the ACS Shelter. Donations are used to help offset spay and neutering costs, feed costs, and other costs associated with the care of the animals. If you would like to donate, you may send donations/checks to YCACs STARS at the Animal care address: 5245 Feather River Blvd. Olivehurst, CA 95961. You can also donate via our Facebook page. Thank you in advance for any help you can provide.

GT's Invitational Challenge Race! Just for the FUN of it!

(Marysville, CA)—Local race promoter Gordon “GT” Tom sits on one of the adult tricycles. Teams of five competitors will be racing in Marysville’s Chinatown this Saturday, Oct. 20. After a one-year hiatus, Tom says the hijinks will return to First and C Streets for five heats and a final race between 10am and 4pm. “The team with the highest score of the day will win the ‘pinks slips’ to the trikes,” says Tom. “Viewing the race is free. Showcasing the New attractions and businesses in Chinatown. Tom is a former professional racer and race promoter. He organized the first “GT’s Invitational Challenge Race” 1986 in Chinatown.

TICKETS AVAILABLE AT COLUSACASINO.COM

DO YOU LIVE IN A FIRE-THREAT AREA?

The start of the 2018 wildfire season is already the worst on record, and the heart of fire season has just begun. Given the severe threat of wildfire facing our state today, PG&E is accelerating and expanding its robust vegetation work in high fire-threat areas to help keep local neighborhoods safe. This work is being undertaken as an additional safety measure to reduce the risk of vegetation coming into contact with power lines.

If you live in a high fire-threat community, you can expect to see PG&E crews and contractors working to trim, prune or remove trees that might come into contact with power lines. As an added layer of protection and to enhance defensible space, we are working with customers, communities and first responders to reduce vegetation that could act as fuel in a wildfire.

In the interest of public safety, we are:

- Creating 12 feet of safe space above, below and around power lines, including overhanging branches or limbs
- Protecting you and your community by trimming or removing hazardous trees that could fall into lines
- Enhancing defensible space around homes, businesses and properties to improve public safety

Now, and in the years ahead, we must all work together to be better prepared for wildfires.

CRITICAL WILDFIRE SAFETY ACTIONS

- ✓ Meeting new state vegetation and fire safety standards
- ✓ Addressing overhanging branches or limbs
- ✓ Removing all wood debris, unless the property owner would like to keep it
- ✓ Working with our customers to keep our communities safe

To find out if you live in a high fire-threat area, visit pge.com/wildfiresafety.

“Over Here” – A Commemorative WWI Series with a Distinct Local Twist

Society, Lowry will share a meaningful, personal perspective.

Plus exhibits – and a concert

In addition to these lectures, the Eric Rood Administrative Center in Nevada City will feature an exhibit entitled “Wake up, America! Nevada County During World War I” that will run from November 1st through December

31st. During the month of November, the Madelyn Helling Branch of the Nevada County Library (also in Nevada City) will feature an exhibit called “Humanitarians on the Home Front,” that pays tribute to Grass Valley’s

Frances Jones and her noteworthy humanitarian wartime work. “The Art of War – 1914-1919: A Window Gallery of the Poster Art of World War

I” will showcase some of the dynamic posters that rallied our nation. Thanks to the combined efforts of the Grass Valley Historical Commission and the Nevada County Historical Society, the windows of a currently-vacant storefront will be transformed into a nostalgic gallery at 206 W. Main St., Grass Valley. This exhibit will run throughout November.

A concert entitled “Music to Unite a Nation: Songs of World War I and The Story of Ernestine Schumann-Heink,” will be held on Saturday, November 10th. Doors open at 6:30 p.m., and the concert begins at 7:00 p.m. at the Foothill Events Center, 400 Idaho Maryland Rd., Grass Valley. Light refreshments will be provided, and there will be a no-host bar. Sponsored by Music in the Mountains, Camerata California, Nevada County Historical Society, In Concert Sierra, Center for the Arts, The Union, KVMR and KNCO, the concert is a tribute to the spirit of the times. Tickets are \$25 each for General Admission, and are free for Veterans. With limited seating available,

veterans should go on-line and register for their free tickets early. To purchase tickets or for more information, call (530) 265-6124, visit www.musicinthemountains.org, or visit the Box Office at 530 Searls Avenue, Nevada City, open Tuesday through Friday from 12:00 p.m. to 5:00 p.m.

“While the entire world remembers Armistice Day, plenty is planned here in Nevada County,” Jack added. “This series is a well-timed way to learn about our community’s involvement in the most important event of the 20th century, and how it shaped our local history forever. Since most of the lectures and all of the exhibits are free, we’re encouraging people to take full advantage of this once-in-a-century opportunity.”

“Over Here: Nevada County’s Experience of World War I” is funded by a grant from California Humanities, in partnership with the National Endowment for the Humanities (NEH).

For further information, contact Linda Jack at (650) 888-1379 or at secretary@nevadacountyhistory.org

(Continued from Page 1)

California Socialist Gridlock

agricultural land for 10 million people to live on half-acre lots.

Instead, politicians are forcing what they call “smart growth.” They would rather control housing and have less of it. On the ballot this November, there are propositions to enforce rent control, borrow \$4 billion to build government approved “affordable housing,” and use state tax revenues to build more government-run homeless shelters. Expanding the private sector threatens those in power and produces abundance. Expanding the government sector maintains the socialist elite and creates scarcity.

California liberals and environmentalist have created an energy crisis in a state that is loaded with energy resources. Californians should have the cheapest energy and fuel in the nation. Instead, the state has nearly completely shut down the use of oil, natural gas, hydroelectric and nuclear power, all expensive and reliable.

The replacements are bird-blenders and solar, both environmentally wasteful, expensive, unreliable and totally unable to meet our needs. During the brown-outs of 2000 two nuclear power facilities saved us from complete disaster.

California’s restrictions on extracting oil or even piping it here forces the trucking and shipping of oil to the state while requiring the use of special gasoline blends. Instead of having the cheapest fuel in the nation citizens must pay a dollar extra per gallon.

The socialists are further restricting personal use of water while sending most all water to the ocean. It is insanity. Of from 150-300 million acre feet of water in the state each year less than 4 million acre feet are used by California’s households and less than half of that is for indoor use.

Jerking the public around to further ration water is idiotic and will produce trivial outcomes. California’s total residential indoor water use represents less than three percent of total water diversions. Entire farming regions, towns and thousands of jobs are gone because of one judge’s decision to divert water from farms to the bay.

The cost of constructing a road or dam in California is prohibitive in dollars and years in court due to union control and environmentalist lawsuits. The Carlsbad desalination plant took 14 years and nearly a billion dollars to go online. Israel builds a plant for half the cost. The state has been regulated into intellectual chaos and gridlock.

A retired Marysville police officer said he recently moved to Arizona to enjoy the freedoms he once risked his life here to protect. The rich are making a fortune on policies that are oppressing the average family in California. The same is occurring in China, Vietnam and Venezuela.

Fire Safe Council Seeks New Board Directors & Volunteers

Nevada Co.

The Fire Safe Council of Nevada County is seeking volunteers from the community, who would like to serve as Director on their Board, and volunteers in many other capacities. Positions for Directors are open for continuous filing.

Interested parties should contact the FSCNC at 530-272-1122.

“Big Green Bus” Reintroduces Y/S Transit’s Sacramento Commuter Service

Marysville, Ca.

After replacing the last old style buses and introducing free on-board Wi-Fi service, Yuba-Sutter Transit has launched a major promotional campaign to reintroduce its upgraded Sacramento commuter and midday service between Marysville/Yuba City and downtown Sacramento as all of the 22 weekday schedules are now operated by high capacity tour-style big green buses!

The “Big Green Bus” campaign includes panels on the back of ten commuter buses, direct mail to 14,000 Yuba-Sutter households, community events, social media and outreach to downtown Sacramento employers. The focus of each is on the many benefits of the Sacramento service whether for daily commuting or occasional use.

As a ridership incentive, Yuba-Sutter Transit is now offering a “FREE TEST RIDE” with two \$4.00 tickets good for one roundtrip on our Sacramento service through December 31, 2018 just by texting “BigGreenBus” to #888111. This text-only offer is featured in every promotional piece including the attached flyer (linked below). Even just one roundtrip is enough for someone to recognize the advantages of frequent service, a luxury ride, free Wi-Fi and low fares especially when compared to the cost of fuel, parking and the wear and tear on both them and their vehicle.

Call (530) 742-2877 or check on-line at www.yubasuttertransit.com for Sacramento route and schedule information.

The Bennetts were local lads who served their country in France. Linda Jack will share their story during the first lecture on October 18th. Photo courtesy of Sears Library

Enough is Enough **is Enough**

Supervisor Fletcher has illegally and successfully voted to deny the people of Yuba County the right to vote on sharing profits from water sales.

Supervisor Fletcher also:

- ✓ Stopped evening Board of Supervisor meetings, which are more accessible to citizens.
- ✓ Recused himself from voting more than any other Supervisor, leaving us with no representation.
- ✓ Takes the side of government over his constituents.
- ✓ Maybe his worst offense was voting to mis-lead the voters of Yuba County on Measure K. He let people believe that they would be guaranteed additional law enforcement and fire protection through passage of Measure K.

The Howard Jarvis Taxpayer's Association has warned that Measure K is a "Special Tax", not a "General Tax" (with no guarantee how the money is spent), as Fletcher has told us. The taxpayers association has said they may sue Yuba County if the measure passes.

We cannot afford another 4 years of Supervisor Fletcher
