Sheriff Wendell Anderson and retiring Sheriff Steve Durfor

## Yuba County Sheriff-Coroner Retires

Marysville, Ca.

Yuba County Sheriff-Coroner Steven L. Durfor took early retirement August 31, 2018. Sheriff Durfor is a lifelong Yuba-Sutter resident that has proudly served as a peace officer for nearly 32 years in Yuba County. First hired in 1986 by then Sheriff Gary Tindel and became under-sheriff under Sheriff Virginia Black. First elected as the Yuba County Sheriff-Coroner in June 2006, he assumed command January 2007 and just finished serving his third term.

Sheriff Durfor's desire for a smooth and successful transition for incoming Sheriff-Elect Wendell Anderson, and Durfor's commitment to what is best for the department and the com-

munity, have lead him to the difficult decision to retire early. In the interest of maintaining a congruent leadership direction and avoid the sometimes difficult transition into a new command, Sheriff Durfor stepped down and recommend that the Yuba County Board of Supervisors appoint Sheriff-Elect Anderson as Sheriff for the remaining months of his term. Sheriff-Elect Anderson's 4-year term will begin January 2019. Additionally, Sheriff Durfor recognizes his early departure affords an opportunity for budgetary savings and organizational restructuring that will be needed to address deficits and the risks they pose to staffing levels. Sheriff Durfor stated in

a message to staff announcing his early departure "It has been a great honor to serve as your Sheriff and to serve the people of my hometown for close to 32 years. I could not be more proud and will always have great respect for the tremendous work all of you put forth each and every day to keep our county safe."

On August 31st a public retirement ceremony was held outside at the Sheriff's Office on Yuba Street. Dignitaries included Congressman Garamendi, several past sheriff's and sheriff's from surrounding counties. Sheriff Durfor said, He isn't going anywhere and will continue to live in Marysville.

## Yuba Water Agency to Purchase 20-Acre Property in Dobbins

Marysville, Ca.

Yuba Water Agency approved the purchase of a property in Dobbins for approximately \$220,000 to further support agency operations.

The 20-acre parcel is located between Lake Francis and New Colgate Powerhouse, and will be used to construct a new warehouse and an additional administration building for Yuba Water Agency employees. Escrow on the property is set to close on Sept. 12.

"This expansion is needed due to our growing workload and to ensure our reliability as

a participant in the California wholesale electric market," said Yuba Water Agency Power Systems Manager Mike Kline. "Additional warehouse space is needed to grow the inventory of spare parts that support that level of reliability."

The next phase of the project, predicted to be complete by 2020, will include the design and construction of a 16,000-square-foot warehouse with yard facilities, including fire tanks, septic, water, power, vehicle fueling, and hazardous waste and materials storage.

Phase three of the project

will include the design and construction of a 12,000 to 15,000-square-foot administration building, and will be complete by 2021.

The very preliminary renderings show a visual concept of what this facility might look like in the future.

Yuba Water Agency staff will hold public meetings to discuss the details and answer questions as the project develops. Meeting dates will be announced in the coming weeks and posted on [www.yubawater.org](http://www.yubawater.org)

## K Has No Guarantees

by Lou Binninger

Hundreds of thousands of your dollars are being spent to sell you a sales tax increase (1% increase to 8.25%) in Yuba County. It's called Measure K on the November 2018 ballot. This misappropriation of the people's money is supposed to be against the law, but the government rarely enforces laws against itself.

Supervisor Gary "The Gift" Bradford banter daily on social media about which segments of the community will benefit by the new gush of cash. He spells out how many new deputies, Plumas Lake gets one, how many dollars for fire departments, more dispatchers and correctional officers. He appears to be campaigning for this Measure financed by the taxpayers, both illegal acts.

The ballot argument for K says it makes sure these crimes are prosecuted and justice is served, response times will be improved and more cuts to public safety prevented. "These crimes" in the argument refers to sexual assaults and elder abuse. Really, we are not going to prosecute these crimes any longer without money from K?

The problem is there is no legal compact with the voters to assure these amazing promises. There is no guarantee. How many times have we voted for water bonds for decades and have no new water resources today?

It's like hiring a contractor to remodel your house with no set of plans and no written contract, just a promise and a description. It's hard enough to get people today to honor a contract and now we will trust the word of politicians and bureaucrats? Where has that been working?

Proponents argue, "Funding can only be spent locally on vital services like public safety." Is anyone personally liable for breaking this promise? Can anyone be sued?

## Summer Drama

by Lou Binninger

As the summer wanes away so does a row of once beautiful evergreen trees at the northeast corner of Brown Town. Planted a couple of decades ago as a visual barrier to an unsightly PG and E substation (Nadene Drive at Glenn Street) the trees flourished making a pleasant view for adjacent residents.

Then someone quit watering and tending the planting. Now, some are dead and others are dying. Was it P G and E, Cal Water Service or the City of Marysville? Residents have sought help with no response. Two monopolies and city government should be able to keep trees alive or cut them down, but nothing so far.

Sutter County is crafting their homeless program after the "Yuba County Model." That approach amounts to the Tuff Shed complex otherwise known as 14 Forward, 14 Sideways or the Bendorf Zoo. There is also a homeless assimilation center. For government, there are no rules, permits or etiquette to follow when launching its own project.

No informational meetings or fancy mailings giving neighborhoods a chance to oppose the siting of the "zoo." It was installed with no proper water, drainage or sewage facilities. A water feed was mooched from the Twin Cities Rescue Mission leaving them with the bill. Then, the mission was asked to provide their shower facilities for "Zoo" residents.

The county recently installed their own drinking water outlet and zoo residents now grab showers 12 blocks away at the service center for the homeless at 2nd and F Streets. Shed dwellers continue to dine at the mission across the fence next door.

Meanwhile, West Marysville has been transformed into a hovel for transients, "spun" bicyclists darting in between cars or against traffic and folks just sleeping around. Basically, there is one law for the law-abiding renters and homeowners, and then no law for the other folks.

After spending more than a half million dollars on "The Model" the once purged illegal camps are now being repopulated along the river. Marysville City Councilman Dale Whitmore wanted to transform the riverside areas into camp grounds with easy public access ala Yuba City's park area under the 10th Street Bridge. But, there have been no improvements. Nature and the homeless abhor a vacuum. So, this is Homeless Camp Chapter 2.

Sutter County Supervisors, after ignoring their own citizen committee's recommendation to site a homeless center at Church of Glad Tidings, chose instead to go with the Behavioral Health site (1965 Live Oak Blvd) surrounded by housing, senior care homes, near a school, and opposed by Behavioral Health leadership.

At a July Supervisors meeting, Attorney Steve Gimblin spun a yarn about the Church of Glad Tidings housing sex-offenders and asking for an immediate investigation. Without allowing any

# Sutter County Ag Products Rebound from 2016 Up 13.5 Percent

Sutter County, Ca. After five years of drought, and despite heavy rains in late winter and early spring, Sutter County's crop and livestock values increased 13.5 percent in 2017 over the previous year, to nearly \$584 million, according to the annual Sutter County Crop and Livestock Report released this week.

Overall values were estimated at \$583,996,000 in 2017 compared to \$514,372,000 in 2016, according to Agricultural Commissioner Lisa Herbert.

"Despite historic rains in early 2017, Sutter County agriculture continues to thrive," said Agricultural Commissioner Lisa Herbert.

At approximately \$152 million, rice retained the status of top-ranking crop in 2017, despite a drop of 29 percent in total rice acreage planted as a result of wet weather in late winter and early spring. There were slight increases in per acre yields and in the price growers received for rice to help it stay number one.

Higher acreage and

price increased walnut values by 10 percent in 2017 over 2016, rising to \$130.4 million.

Prunes seemed to pick up the most ground. After devastating crop losses in 2016, prunes rebounded to third from seventh with an increase in total value of 113 percent to \$52.3 million.

Nursery products remained fourth with an increase in total value to \$47.3 million—a 33 percent jump.

Decreases in acreage, yield, and price dropped processing peach value to \$43.7 million.

Despite a 30 percent increase in acreage, almonds remained in sixth place due to a price drop. Total value rose to \$36.2 million.

Overall, field crops rose in value by 15 percent. Seed crops increased in value by almost 41 percent, due largely to sunflower and watermelon acreage increases. Producers saw an increase in prices for watermelon seed of 263 percent.

Overall, vegetable crops dropped in value by 22 percent, largely due to a decrease in both acreage and price for processing tomatoes.

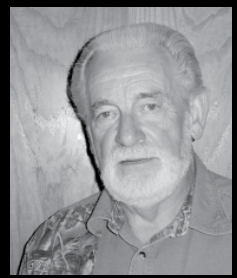

The report is prepared based on estimates provided by growers. It reflects estimated gross values only and does not reflect net profits or losses to the producers.

# FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 73 years. Anyone with questions or comments can email him at [boots3@syix.com](mailto:boots3@syix.com)

We have lost another great outdoorsman. I fished and hunted with Dan Derks a lot of times, probably, now that he has passed, not enough. Danny was excellent at whatever he did, including his ability to just about make or create anything from steel or metal. His shop was always coming up with a great idea or he was putting together someone's dream or creation. Danny Dirks, you would have been proud to see the gathering at your service last Friday. The church was full. So, my friend and buddy, along with memories of hunts and fishing trips past.....rest in peace and God bless you.

If it is rainbow trout, the bigger variety you are after, now is the time to head up to Lake Tahoe and fish the shallow parts of the Lake. Big rainbows have been taken at South Lake Tahoe on the western shoreline. A good mix is the kokanee salmon, which are cooperating for anglers.

The restricted boating under the 5th Street Bridge at Yuba City and Marysville is finally over with the construction completed over the water for the new bridge.

We hear the eagle lake trout are on a frenzy bite at this time hitting trolled lures and flies. Best part of this report is

we are told the bite is on all day long. Best bet is to troll down to 10 feet in waters at Eagle Lake in the areas which are 30 to 40 feet deep.

The hot spot this week for catfish is Collins Lake above Marysville. The cats are being caught up to 14 pounds at this time. Bass are on the bite also with fish being weighed in at over five pounds. All this action, according to our report, has the trout coming out of hiding and some are being caught.

A call to our weather source tells us the current weather will be with us into the middle of September. He also advises everything is in order for an early fall. Wouldn't that be nice?

This is the time of year when the water in lakes and reservoirs begins to drop in temperature which usually brings

back the trout bite. Expect water temperatures to continue to drop a bit as we head into September and then into October.

The kokanee bite at Stampede Reservoir has finally slowed down at this time. The fish are currently mixed as far as color goes with some bright and others turning dark due to the upcoming spawn in October.

Hat Creek, the portion near the Caves, off of State Highway 89 is a good bet for brook trout casting flies or fishing in the shadows or under the banks with red worms. We are told at this time to use a gob of worms compared to a single. Fish are ranging from 8 to 14 inches.

Closing thought: "Sometimes music is the only medicine that the heart and soul need."

## K Has No Guarantees

What are these "vital services?" Can the non-vital services of the county be eliminated or severely reduced to move dollars to public safety? Why doesn't the county get out of the non-vital service business? The state furloughs "Non-essential Services" employees in times of fi-

nancial trouble, why not scrub them altogether? The ballot argument states Measure K will "make sure a sheriff's deputy, medical responder or firefighter can show-up when you call." Does that mean if the tax increase fails then we get no emergency response in the county?

Bi-County Ambulance (BCA) is a private business that responds to all medical emergencies and structure fires in Yuba and Sutter Counties. When "911" is called BCA is dispatched. Each ambulance has an emergency medical technician and paramedic on board, is in contact with the hospital and their response times are not controlled by the county budget. Units are staged throughout the two counties to insure the best possible response.

The REACH helicopter posted at the Yuba County Airport is also a nongovernment ser-

vice that will continue to provide excellent care to county residents. An annual \$65 fee can also provide no-cost air ambulance transportation in a medical emergency for anyone in the household to the nearest hospital.

Foothill fire departments have always been primarily a volunteer effort and proudly so, just like the majority of firefighters in the nation. There is no guarantee in Measure K to make them a paid fire unit but it is being portrayed that way.

What is not mentioned anytime or anywhere regarding Measure K is the "P" word, pensions. Spiking pension and health benefit payments are the cause of budget deficits. Politicians' eyes were bigger than the taxpayers' wallets when giving out gifts to employee unions.

Taxpayers are unlikely to vote new taxes for government Cadillac benefit plans that they cannot afford themselves. So public relations firms hired by Yuba County say hide the ugly benefits problem in the closet. It's tough to sell a tax with a straight face to pay for a pension that is 2-3 times as much as the median household income in the county.

Measure K consultants collecting nearly \$7000 each month in tax dollars are counting on their campaign instilling fear and misinforming voters. It wins elections.

**NOTICE OF PUBLIC HEARING BEFORE THE YUBA COUNTY BOARD OF SUPERVISORS**

**NOTICE IS HEREBY GIVEN** that the Yuba County Board of Supervisors will hold a public hearing in the Board of Supervisors' Chambers at 915 Eighth Street, Marysville, California, commencing at 9:00 a.m. or as soon thereafter as the matter may be heard, on Tuesday, September 25, 2018, to consider approving a resolution annexing territory to County Service Area 52 – Zone of Benefit C for extended services. An annual assessment is hereby established at the rate of \$451.86 per year per parcel beginning in fiscal year 2018/2019. This assessment shall be subject to adjustment based on increases not to exceed two percent per annum or decreases in the Consumer Price Index (All Urban Consumers) (Base Year 1982-1984=100) for San Francisco-Oakland-San Jose CMSA, published by the U.S. Dept. of Labor Bureau of Labor Statistics, which actions may be taken without notice or public hearing.

A copy of the Resolution, Assessor's Parcel Numbers, Legal Description and Plat Map, will be available for review at the Office of the Clerk of the Yuba County Board of Supervisors at 915 Eighth Street, Suite 109, Marysville, California, ten days prior to the public hearing.

Any interested person may submit comments in writing prior to the hearing, or may attend the meeting and will be given an opportunity to be heard.

RACHEL FERRIS  
CLERK OF THE BOARD OF SUPERVISORS

PUBLICATION DATES: September 12, 2018

**COUNTY OF YUBA SUMMARY OF PROPOSED ORDINANCE AMENDING SECTIONS 9.25.113, 9.25.114(1), and 9.25.130(2) OF CHAPTER 9.25 OF TITLE IX OF THE YUBA COUNTY ORDINANCE CODE REGARDING VEHICLE WEIGHT LIMITS ON ALBERTA AVENUE AND GRIFFITH AVENUE**

The following is a summary of a proposed ordinance amendment to Sections 9.25.113, 9.25.114(1), and 9.25.130(2) of Chapter 9.25 of Title IX of the Yuba County Ordinance Code regarding vehicle weight limits on Alberta Avenue and Griffith Avenue that is proposed to be adopted by the Board of Supervisors of the County of Yuba on September 25, 2018.

The proposed ordinance amendment for Section 9.25.113 pursuant to the authority granted to the Board of Supervisors by California Vehicle Code section 35712 would establish a 14,000 pound weight limitation for commercial vehicles on Alberta Avenue.

The proposed ordinance amendment for Section 9.25.114(1) pursuant to the authority granted to the Board of Supervisors by California Vehicle Code section 35713 would establish Hammon-ton-Smartville Road, North Beale Road, and Brophy Road as alternative routes for Alberta Avenue and Griffith Avenue.

The proposed ordinance amendment for Section 9.25.130(2) would repeal this section from the Yuba County Ordinance Code. The complete text of the proposed ordinance may be reviewed in the Office of the Clerk of the Board of Supervisors of Yuba County.

You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. **NOTICE TO PROPERTY OWNER:** The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the Cali-

fornia Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call **800-280-2832** for information regarding the trustee's sale or visit this Internet Web site <http://www.qualityloan.com>, using the file number assigned to this foreclosure by the Trustee: **CA-18-826241-CL**. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. The undersigned Trustee disclaims any liability for any incorrectness of the property address or other common designation, if any, shown herein. If no street address or other common designation is shown, directions to the location of the property may be obtained by sending a written request to the beneficiary within 10 days of the date of first publication of this Notice of Sale. If the sale is set aside for any reason, including if the Trustee is unable to convey title, the Purchaser at the sale shall be entitled only to a return of the monies paid to the Trustee. This shall be the Purchaser's sole and exclusive remedy. The purchaser shall have no further recourse against the Trustor, the Trustee, the Beneficiary, the Beneficiary's Agent, or the Beneficiary's Attorney. If you have previously been discharged through bankruptcy, you may have been released of personal liability for this loan in which case this letter is intended to exercise the note holders right's against the real property only. The property address and other common designation, if any, of the real property described above is purported to be: **VACANT LAND, SMARTVILLE, CA 95977** The undersigned Trustee disclaims any liability for any incorrectness of the street address or other common designation, if any, shown herein. Total amount of the unpaid balance of the obligation secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of the Notice of Sale is: \$102,495.91 In addition to cash, the trustee will accept a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, or savings bank specified

in Section 5102 of the Financial Code and authorized to do business in this state. In the event tender other than cash is accepted the Trustee may withhold the issuance of the Trustee's Deed until funds become available to the payee or endorsee as a matter of right. Said sale will be made, but without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to satisfy the indebtedness secured by said Deed, advances thereunder, with interest as provided therein, and the unpaid principal balance of the Note secured by said Deed with interest thereon as provided in said Note, fees, charges and expenses of the trustee and the trusts created by said Deed of Trust. **NOTICE TO POTENTIAL BIDDERS:** If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. **NOTICE TO PROPERTY OWNER:** The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call 916-939-0772 or visit this Internet Web site [www.nationwideposting.com](http://www.nationwideposting.com), using the file number assigned to this case PFI-181125. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. ## CRITIC'S CORNER

by Matt Woolery

### The Happytime Murders

Starring: Melissa McCarthy, Elizabeth Banks and Maya Rudolph. Rated: R, Runtime: 1 hr 31 min.

What did I just watch? What fresh madness is this that has spawned from the depths of the pit of depravity that is Hollywood? What kind of person am I that I laughed so much at the flamingly wild inappropriate antics of this movie? How is it that a movie with puppets as cast members evokes so much personal introspection? How have you, the reader, managed to endure this article to the fifth question?

A program to allow puppets to become police officers fails and former partners go their separate ways until they are thrust back together to solve the murders of the cast of a popular television show. Through their investigation we are subjected to humorous and disturbing antics and old wounds are healed.

The Happytime Murders, earns three out of five, Silly Stringed Monkeys. The story warps around the plot to fit in raunchy jokes and the acting is good and the puppeteers did a good job and the vibe of the film is that everyone had fun making this wacky production.

This is not a movie for people that have any standards of decency. If you think fart jokes are not funny then avoid this film. If your sense of humor is callused and twisted then you will get more than a few chuckles for your money.

## Summer Drama

rebuttal to his story, the supervisors made a decision and then asked for public comment. No facts necessary when the mind is made up.

With two Supervisors under investigation for improper sex acts or sexual harassment these proceedings are deserving of a reality show.

The only areas Gimblin was not concerned for was protecting the Spotted Owl and wanting a ban on travel to Glad Tidings from terrorist countries. The attorney lives on the west side of Hwy 99 just north of Eager Road, but there is no record of his request to Sutter County Sheriff's

Department to stop sex-offenders from using the freeway in front of his residence.

Sheriff's detectives did take Gimblin's tale seriously and visited the church ready to purge the 35-acre campus of sex registrant housing. When advised that no such housing existed, the church worker was accused of "not being cooperative." After dropping the "f-bomb" in frustration the deputies assured the worker that they, not parole or probation, are in charge of the county.

Further, the church was informed that no sex-registrant could at-

tend Glad Tidings but they could attend any other church. All such people would be arrested said the detective. There was no time for sandwiches and coffee after the informative exchange.

And so the Homeless Show moves down the street to Behavioral Health. The real story is that the decision makers don't really give a damn about the homeless, just the "wall of money" (the millions of state dollars) coming to local government. Next to farming the homeless gig can become one of our biggest industries.

## Food and Farm News

### Tariff-assistance programs open

Applications opened Tuesday for federal programs aimed at easing the impact of retaliatory trade actions on American farmers. The U.S. Department of Agriculture developed the programs after other nations imposed tariffs on U.S. farm products as part of ongoing trade disputes. The USDA will make direct payments to certain affected farmers. For California, the main impact could come through government purchases of fruit and nut crops for food-aid programs.

### Walnut marketers prepare for possible record crop

Tariffs affect the sales outlook for a potential record walnut crop, but the California Walnut Commission says it's "cautiously optimistic" negotiations will resolve the issues. Crop forecasters estimate California farmers will harvest 10 percent

more walnuts this year than last. The commission says retaliatory tariffs affect three top international walnut markets: China, India and Turkey. Ads encouraging walnut consumption in the U.S. will begin this month.

### Foresters seek streamlined harvest reviews

Foresters hope to salvage some of the timber scorched by California wildfires, and say a streamlined review process for timber harvests would help. Bills sent to the governor would increase the pace of forest management. Foresters and their representatives say it's important both to simplify the removal

of burned trees and to manage forests to help prevent future fires--noting proper management would be less costly than constantly fighting wildfires.

### Oversupply hits organic-milk markets

Faced with lower prices for organic milk, dairy farmers and processors are looking for ways to manage an oversupply. Organic-milk sales have cooled at the same time as higher supplies reach market. Some farmers have lost contracts to sell their organic milk and have left the business. Others say they plan to reduce their dairy herds and diversify into other crops or products.

Coupled with the fall in robot prices due to manufacturing techniques caused by the very same increase in computational capabilities while the costs to businesses for human employees will continue to increase will mean the incentive to hire robots will increase as time goes by.

The multitude of businesses which will be impacted run the gamut from apple production to zoo maintenance and all points in between. Some examples would be fewer taxi and bus drivers (self-driving cars) fewer store-room clerks, waiters and waitresses, super market checkers and even teachers.

The possibilities for robotic replacements are enormous and will only increase over time as robots get more and more sophisticated and less costly to produce. Indeed even designing and producing the robots will likely be eventually automated. Few industries will be spared the advancement.

The question then becomes multifaceted. As more robots replace people, economic models determine that wages will experience downward pressure as the workforce of people will dwindle while the population increases.

Less demand in the face of more supply causes prices to drop. Whether regulatory bodies or a mass outcry against such downward pressure stems the fall in wages remains to be seen. If it does, a conundrum will arise.

How does a society reconcile the two opposing forces of supply and demand while addressing public opinion?

This may present a predicament instead of a problem whereas problems have solutions but predicaments only have outcomes.

There may be solutions but they may negate the very savings businesses are trying to accomplish. Robot taxes or tariffs may be implemented. Special assessments to aid unemployment may be attached to each robot in service or at time of purchase.

chase. The premise being to make operating a robot more costly to discourage human replacement. And around and around we go.

Although the robotic industry itself will employ more and more people as robots become more prevalent, the increase in the robotic industry will be unlikely to keep up with the number of people put out of work by these very same robots.

The problem is a real one and will only become more visible with each passing day. It is said corporations aren't people. No matter what side of this debate one may be on, the fact is corporations and indeed businesses everywhere may be more and more in alignment with that statement as real people are given the pink slip in favor of a different kind of pink slip, the ownership title to Robby the Robot.

## About It!

By Charlie McNiff

### He's Continuing to Do a Great Job!

Only 8 more issues until the mid-term elections. In that period of time this corner will lay out accomplishments of the Trump Administration in its 18 month infancy. In his promise of Making America Great Again, President Donald Trump put the American economy into high gear that created jobs and increased wealth.

#### **Under President Trump's leadership, Congress passed historic tax cuts and relief for hard-working Americans.**

- The Tax Cuts and Jobs Act is the first major tax reform signed in 30 years.
- Federal revenues are increasing as the economy grows. April 2018 had a record surplus of \$214 billion.
- Over 500 companies (507) have announced bonuses, wage increases, and new investments.
- Businesses have invested \$482 billion in new, American projects and employees.

- More than 4.8 million workers received increased wages or bonuses (3.7% of all private workers).

- Provided \$1.5 trillion in tax cuts to individuals.

- American families received \$3.2 trillion in gross tax cuts and saw the child tax credit double.

- A family of four making \$73,000 will get a cut of over \$2,000-cutting their taxes in half.

- Nearly doubled the standard deduction.

- Repealed Obamacare's burdensome individual mandate.

- The bill provides a 20% deduction for small business income, which means \$415 billion tax cut.

- The President lowered the corporate tax rate from the highest in the industrialized world (35%) to 21%.

**The U.S. Gross Domestic Product (GDP) grew at or above 3 percent for two quarters in a row for the first time in three years (remember President Obama's comment about 1% growth... "Get used to it.")**

- 2017 third quarter GDP grew 3.2 percent.

- 2017 second quarter GDP grew 3.1 percent.

**2017 first quarter GDP grew 1.2 percent, and 2017 fourth quarter GDP grew 2.5 percent.**

**2018 first quarter GDP grew 2.3 percent... the best since 2015. 2018 second quarter GDP grew to 4.1 percent... HELLO, DOLLY!**

**President Trump is unleashing economic growth and jobs. During his first 12 months, nearly 3 million new jobs were created since January 2017 and the unemployment rate fell to 3.8 percent, the first time below 4% in 18 years.**

- The manufacturing industry created over 300,000 jobs.

- 337,000 construction jobs have been created since President Trump took

office, and construction employment stands at its highest level since June 2008.

- 14 states reached record low unemployment rates.

- The African American, Latino and Asian unemployment rate reached its lowest ever recorded.

- Job openings have reached 6.6 million, the highest level recorded. This competition should drive wage growth.

- Jobless claims reached the lowest level in 45 years (1973).

- The number of people dependent on food stamps has fallen by 2.6 million or 6.2% since January 2017.

- The number of people receiving unemployment benefits is running at the lowest level in 45 years.

- Average 3% growth the last three quarters (under President Obama, annual growth averaged 1.9%).

**The Dow Jones Industrial Average hit record highs more than 80 times under President Trump, including closing higher than 26,000 points for the first time in its history.**

- Since President Trump's election, more than \$5 trillion in wealth has been created for the U.S. economy.

- Economic confidence rebounded to record highs under President Trump because his pro-growth policies have and continue to put American workers and businesses first.

- The Conference Board Consumer Confidence Index rose in November 2017 to a 17-year high of 129.5.

- The National Association of Manufacturers' Outlook Index had the highest annual average in its history.

- Small business optimism has sustained record-high levels under according to the National Federation of Independent Business.

**President Trump signed an Executive Order that expanded apprenticeships, recognizing the need for more quality college degrees.**

**The Trump Administration prioritized the economic empowerment of women as a key element of our commitment to economic growth and gender equality.**

- This year, the Small Business Administration lent approximately \$500 million more than last year in capital to women-owned businesses.

**President Trump has rolled back unnecessary job-killing regulations beyond expectations.**

- In 2017, President Trump far exceeded his promise to eliminate regulations at a two-to-one ration, issuing 22 deregulatory actions for every new regulatory action.

**Since taking office, President Trump has advanced free, fair and**

**reciprocal trade deals that protect American workers, ending decades of destructive trade policies.**

- Days after taking office, the President withdrew the United States from the Trans-Pacific Partnership and is working to defend American intellectual property from China's unfair practices through a range of actions.

- The President improved the KORUS trade agreement with the Republic of Korea, which will allow more U.S. automobile exports to South Korea with lower tariffs and increase U.S. pharmaceutical access to South Korea.

- American agriculture has gained access to new markets under President Trump.

**The Longest Consecutive Positive Monthly Job Growth on Record - Total payroll employment grew by 213,000 in June 2018 (18,000 over forecasts) led by gains in professional and business services, education and health services, and, once again, manufacturing.**

- This is the longest consecutive, positive monthly job growth period on record (93 months).

**New Good-Paying Manufacturing Jobs - Manufacturing jobs continue to outperform under this administration, with an average increase of 20,000 new jobs per month compared to 8,000 per month in the second term of the Obama administration.**

- Since President Trump was elected, the American economy has added 3.7 million jobs. One in every 10 of those jobs has been in manufacturing.

- Jim Koch, owner of the largest American-owned brewery, Boston Beer Co., praised the GOP Tax Cuts saying they helped him remain competitive with foreign companies who make 85% of the beer in the U.S.

Many conservative pundits have lauded the Trump Administration, during this short time, as the most productive in U.S. history (and their marching song is...We're Just Getting Started".)

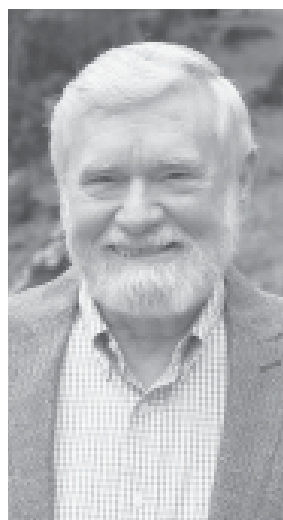

But, they also caution the possible downturn of enthusiastic conservative turnout for the midterm elections. FOX Network's Sean Hannity has reminded people (almost nightly) of the intended Democrat's After-Midterm Agenda that would include 1. Rescind The Tax Cuts...2. IMPEACH President Trump...3. Keep ObamaCare...4. Block Supreme Court Nominees...5. Open Borders...6. Kill Off Deep State Investigations...and a myriad of other achievements.

(Do you really want that TOTALLY NEGATIVE agenda to happen...or elect conservative legislators (be they Independents, Democrats or Republicans) to keep Trump Truckin' On.

## Full Funding for Law Enforcement

### No New Taxes

by John Mistler

The building of Bulard's Bar Dam and the beginning of the Yuba County Water Agency (YCWA), as we know it today, began in 1958/59 by the visionaries of the Yuba County Board of Supervisors. As the fledgling agency began it needed financial help in the form of Yuba County property taxes and state and federal monies. The property taxes were approximately \$400,000 annually. The bulk of the financing for the dam came from the issuance of revenue bonds over a 50 year period and were paid off in 2016.

While the bonds were

paid off in 2016 the taxpayers of Yuba County are still paying property tax to the (YCWA) at an average of \$430,000 per year from 2008 through 2017. Arguably the YCWA has been financially stable for the last 15 years and now has the benefit of water sales and electrical sales, giving the agency over \$100,000,000 in reserve. Obviously doing well financially. Average water revenues during the same period annually \$7.79 million.....They made \$96 million total off power in 2016-2017...

Yuba County is giving the water agency an average of \$430,000 annually and on the other hand advocating for a 1% sales tax increase, Measure K, for law enforcement.

Forget the tax increase; stop giving taxpayers money to the well heeled water agency and dedicate the \$400,000+ annually to funding law enforcement. Additionally the water agency should

return the taxpayers money to the county for the last 10 to 15 years. This would only be 4 to 6 million dollars a drop in the bucket to the water agency. This also should be dedicated to fully funding law enforcement.

Since the proposed tax increase is for the unincorporated area of Yuba County, the Fire Departments of Marysville and Wheatland would not be helped and the majority of the rest of the Fire Departments are self funded and do not receive tax money from the county. Linda, Olivehurst and Smartsville are the only ones that may receive monies.

The rebuttal to Measure K says, "Funding can only be spent locally on vital services like public safety." Like is the key word and let's identify which services are not vital.

Anyone that says Measure K is GUARANTEED to go for Public Safety is lying to you!

## Looking for an Issue?

How is it that you think you can become a Yuba County Supervisor and continue to own and publish the Territorial Dispatch?

You seem to be the only person who doesn't see the enormous conflict of interest ahead should you miraculously win the election and maintain the paper.

Will you have to recue yourself, like Supervisor Fletcher, should you have to vote on something that impacts one or more of your advertisers?

Will you use the paper to sway public opinion about you and your performance?

Will you use the paper to push issues that are only supported by you and your constituents?

Conversely, will you direct the paper to attack issues that you and your constituents don't support?

Will you allow letters to the editor to be printed that attack your performance?

You often say that, through the paper, you are a "public watchdog on government." How can you be an unbiased

"public watchdog" on yourself?

Your campaign claims "Proven Leadership." Yes, leaders in countries with state run media are certainly proven...Proven to be unfair and tyrannical.

PS. If you add an "editor's note," you'll only further prove my point.

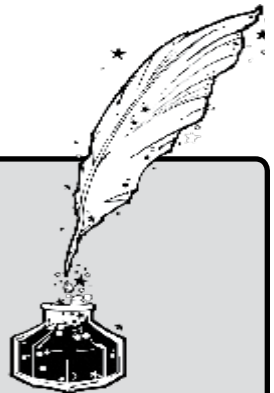

Alton Wright  
Forbestown, Ca.

**Editors Note: I have seen your FB page. And I know you block people that disagree with you. Certainly not fair and balanced. Are you afraid to have dialog? Whereas I prefer to have the conversation, they are after all "Letters to the Editor". Anyone can have a conflict of interest; even you working out of your second bedroom. You sound like you are desperate to create an issue that doesn't exist. Are you losing traction on your signature issue? A conflict of interest is when you may vote on something that you would profit from more than the general**

**public; that can be the case with anyone. Fletcher recues himself when the issue is controversial or if it might potentially upset his insurance clients; at that point the 5th District has no representation. One thing you and Randy both have in common is the desire for censorship; certainly not transparency. You even tried to silence and intimidate me in your P.S. another desire to have a one-sided conversation.**

**Yuba County has two newspapers, and then there is the social media, The current supervisors participate and give their opinions on facebook. In today's world the people have many ways to get news and give their opinions.**

**Did you know that Supervisor Vasquez has a once a week radio program that discusses county issues and in some cases lets you know his points of view?**

**Send Letters to the Editor to:  
Territorial Dispatch 412 4th Street,  
Marysville, CA 95901  
Fax: 530-743-1489  
Or: E-mail: territorial@sbcglobal.net**

**• Letters must include Name, Address and Phone Number. Only Name, Town and State will appear with letter. Letters should not be any longer than 400 words. Letters are opinions; if facts are presented writer must be prepared to back up facts. There should not be more than one letter per week. For more information call 530-743-6643.**

## Your One Minute News Digest

by Don Rae

The next business day was the largest in that firm's history. Oh, by the way, the firm also donated a similar amount to the Democrats.

- The Democrats in Sacramento hate law abiding folks. They are hell-bent on giving absolute to all manner of criminals. Most recently, SB 1279 would lessen the penalty for criminals who commit multiple crimes against multiple victims. SB 54 mandates law to protect illegal invaders from deportation. AB 109 let bad guys out of jail early (and adds to the homeless population). Proposition 57 says the theft of a value of \$950 or under is worthy only of a ticket. Democrats want criminals to be safe and happy.

- A lot of this insane legislation gets passed in the dark of night as the legislature closes up shop. Around 1,000 bills will be floating around at the last minute with no possibility of public knowledge, must less input. And the pile will go to the Governor who won't have time to read and comprehend what he'll put his pen to. Of course, he's heading for the "rocking chair", so what will he care.

- Are you ready for Socialist thinking? Try Congressional candidate Alexandria Ocasio-Cortez of New York as a prime example. On Meet the Press recently she criticized the government for not raising the minimum wage as high as Venezuela claiming that if we did like Venezuela and raised the minimum wage to the millions everyone would be a millionaire. She explained "Venezuela's minimum wage is, like, millions per month, and ours isn't even close to that. Our minimum wage is, like, seven bucks or something. We call ourselves a developed country, but we don't even just like print nearly as much money as Venezuela and give it out for free, because of businesses and corporations and things like that. It just goes to show that socialism is better because you can inflate the currency to a lot more, and more is better than less, obviously." So much for logic and common sense in the Socialist brain.

- Kaepernick won the first stage of his arbitration claiming the NFL owners colluded to keep him out of pro-ball. No surprise. No arbitrator would jeopardize

their paycheck by going against a union. Unions blackball arbitrators who go against them.

- California cannot help itself by passing unnecessary and ridiculous bills. It became the first State in the nation to forbid the sale of cosmetics if they were put on the market by use of animal testing. The rats must be having a party today.

- And another slap in the face to crime victims. Moonbeam has been given a bill passed by the legislative loons which provides that if a murder is committed by a person under age of 15, they can't be tried as an adult. Those now in prison are lining up to be released.

- Were you aware that Comcast owns MSNBC?

- Figure this logic. If a presidential executive order is illegal, a Federal judge has ruled that efforts to repeal it are also illegal. Figure that one out. This nutty judge ruled that the DACA amnesty created by Obama in 2012 is illegal. But the judge decided to allow this illegal Executive Order and said President Trump's attempt to phase out the DACA program was also illegal. Huh?

- Here is an item worthy of careful consideration. Karen England of Capital Resources Institute reports a California School district is considering a major policy issue regarding parental rights. She writes that schools are attempting to unilaterally push controversial social issues on school children. She goes on to report that "we are putting forward a policy in Chino Valley Unified School District that will place parents as the decision-makers when it comes to sensitive topics. If enough community members show up, we can pass this policy, setting a precedent for the rest of California." The Parental Rights in Child's Education policy incorporates existing California law into local policy, which requires schools to provide notification to parents before topics regarding comprehensive sex education and HIV prevention education are taught. It also provides parents the ability to opt their child out of receiving that instruction so that parents can instruct their children on these sensitive topics at home in a manner consistent with family beliefs."

## Brookman Throws Hat in the Ring

Yuba City, City Council

Yuba City, Ca.  
Stacy Brookman, a longtime resident of Yuba City and small business owner has announced his candidacy for a seat on the Yuba City Council.

He moved to Yuba City in 1978 with his parents and attended Tierra Buena School and then Yuba City High School. He is the son of a career law enforcement officer and wanted to follow in his father's footsteps. He pursued a career in law

enforcement and worked for the Sutter County Sheriff's Department for 13 years before sustaining a career ending injury.

In 2009 he was forced to medically retire from the Sutter County Sheriff's Department. He now owns a successful private security business that, although based out of Yuba City, services clients up and down the Sacramento Valley.

Brookman wants to use the experience he has gained from working in government as well as private business and put it to work for the citizens of Yuba City. He believes we need to focus on economic development, public safety, repairing outdated infrastructure and continuing to move forward for a solution

the area's ever growing homeless problem.

"Bringing new businesses to the city will create jobs and increase revenues" said Brookman. He believes the long term solution to the city's money woes lies in economic development. "Whatever we have been doing, has not been working" Brookman continued when speaking of luring in new businesses.

Brookman also stated that he intends to donate back the net pay/stipend that he would receive from the council and donate it back quarterly to local non-profits beginning with the "Shop with a Cop" program that Brookman himself started when with the sheriff's department.

## Bierwagen Will Run for NID Director

CHICAGO PARK – Chris Bierwagen announced his candidacy to replace incumbent John Drew on the Nevada Irrigation District (NID) Board of Directors. Drew a registered organic farmer and longtime leader in the local agricultural community has served on NID since 2002 and is not seeking reelection.

"As a fourth generation farmer and life-long resident of Nevada County, I know the critical importance that a reliable, sustainable water supply plays in the economic health and quality of life of our region," stated Bierwagen. "I believe that my extensive background in agriculture leadership has prepared me to be an effective, careful steward of our water resource."

Bierwagen brings a life-time of agricultural leadership experience to the race for Nevada Irrigation District 2, having served as President of the Nevada County Farm Bureau. His leadership experience also includes service on the Nevada County Grown Board of Directors. In 2001 he completed California Farm Bureau's year-long leadership training course.

"I'm proud and humbled to have the endorsement of our NID Division 2 Director, John Drew. Like myself, John has a background in organic farming and cares a great deal about our environment, our water and our future. I am grateful to have earned his trust and confidence," added Bierwagen.

Bierwagen most recently served on the Nevada Irrigation District's Water Rates Study Advisory Committee and on the Weed Abatement Study Committee.

The Bierwagen family has a long connection to the Nevada Irrigation District, Chris' grandfather helped form NID in 1921 and his father, Ernie Bierwagen, served 26 years on the Board of Directors.

"I think having a long-standing connection to the region makes a difference," said Bierwagen. "I know the District, I know the history, and I know the challenges that lay ahead and I am looking forward to the opportunity to serve our area."

## BALD MOUNTAIN NURSERY

6195 BALD MOUNTAIN ROAD • BROWNS VALLEY, CA • 530-743-4856

It is already September and that means we are on the path to fall which usually brings with it some cooling temperatures and definitely shorter days. There are definitely things to be done in the garden. Watering and keeping weeds at bay seems to be ever present by this time of the year, but will begin to slack off. A winter vegetable garden means it is time to take out the plants that have been producing all summer. I know that is a tough thing to make yourself do since many plants are still producing. Unless there is another garden plot to be used, clearing the present spot is just about the only choice. Start with the plants that are obviously showing signs of slowing production and go from there – tomatoes are usually what we have to give up last. Where ever the new winter garden is to go, the soil needs to be worked up and readied. The winter veggies will begin to be available soon, and are already available in many places. They will do better if they are planted in cooler weather than we have been experiencing this summer. We get requests for winter vegetables in the heat of August, but we usually wait until the second week of September to offer them.

September is an important month for fertilizing trees and shrubs. They store nutrients within the trunks and limbs to carry them through the winter, and help them leaf out, bloom and set fruit in the coming spring season. This has to be done while there are still healthy green and working leaves

on them. There is no specific time for the leaves to start showing the fall color change, but we all know it is in fall. Keep an eye on them and don't miss the opportunity to get the fertilizing done. It will benefit your shrubs and trees. As usual, there are exceptions – any plant that has already set buds for spring bloom, such as rhododendrons and camellias should not be fertilized now, do them soon after they finish their bloom cycle. The reason being that they will likely respond to the fertilizer and start putting on new growth which can push the buds off the plant. Just wait until they have finished their bloom cycle to fertilize them. That is when they normally start putting on new growth and the fertilizer is very beneficial for that process.

Since September ushers in fall, it is a month that allows us to do things that would have been difficult in the heat of the summer. Of course, I am assuming that we will have fairly normal fall weather. Number one, you can plant a lawn. As the temperatures trend down and we no longer have the scorching heat we had earlier, it is much easier to keep the newly emerging grass damp enough so that it doesn't perish. Speaking of lawns, this is the proper time to apply fertilizer with pre-emergent to kill and prevent crabgrass. Number two, ground covers from flats can also be planted and established since it is so much easier to keep to keep the area damp allowing roots and runners find their way and multiply, Number three,

It is a good time to dig up some perennials and divide them to enlarge a bed, create a new bed, or share them with other gardeners. This is routine for many garden clubs at this time of the year. Number four, this is the time to start thinking about any trees or large shrubs that you might want to plant this fall. They will slowly develop roots during the winter giving them an advantage over the same thing planted next spring. I know that choosing a tree going dormant is not as intriguing as picking out a tree leafing out with fresh foliage in the lovely spring weather. But, the fall planted tree will leaf out next spring in your yard. October is the best month for tree planting, so start thinking about the trees you would consider. Pick out your tree or plant, take it home in the container, put it in a place that can't be missed and water it well daily, and plant it in the cooling weather of October when transplant shock is not as likely.

The soil is still warm in September, so it is an ideal time to plant winter annuals if you are interested in some colorful plants in the yard throughout the winter. Plant them soon into the still warm soil as opposed to the cold soil which can stunt them – they will grow, but probably not flourish until warmer spring weather comes. Enjoy the color all winter by starting them soon. Consider pansies, violas, primroses, snapdragons, calendulas, cyclamen and dianthus. Bulbs will be available in many places soon. Plant now for spring bloom. If you have a gopher problem, choose daffodils and narcissus, they will not bother them except to sometimes move them around a bit. Fall is also the time to plant wildflower seeds. When shopping for them check the container carefully. Pure wildflower seed is a bit expensive and often it looks as if it is a bargain until you check the contents of the package and find a large percentage is grass seed. Because many of the wildflower seeds are very small it is a good idea to mix them with some sand or something else to give them bulk so that they can be spread more evenly over a larger area.

Using pre-emergent now will help to reduce the growth of winter weeds, keeping in mind that it will keep any good seeds you may have planted from sprouting as well, so be careful with it. Remember that all those leaves that will be falling soon make great compost. If you have a compost pile add them. If you don't, you might want to find space to start one – it is great to have it always available, especially in the summer. Enjoy the coming seasonal changes.

# THE Brownsville Bailiwick & Beyond

Yuba Feather Next Step is "cooking along". The group is helping several people with needs like getting a GED, organizing their health insurance and other papers, organizing the Play at Ponderosa program this summer and more. This group has been organized almost a year now and will be applying for a non-profit 503c3. The first variety show at the amphitheater was fun and so there is another show planned for September 22. We are hoping the acts on stage are entertaining, fun to watch. The show will begin at 6:00, refreshments served at 5:30. Come join us.

I know, it's only September and Christmas is the last thing on your minds right now but Christmas in the Foothills preparations have begun. The letters of invitation and registration forms have gone out to all the foothill businesses. If you are a foothills business that did not receive a letter but wish to participate in this event or need further information you can contact Christine Mills at christmasinthefoothills1@gmail.com or call 675-9225. Christ-

mas in the Foothills will be celebrating its 26th year and will take place December 1 & 2.

One of the many stops for Christmas in the Foothills, December 1 & 2 is the Foothills Christmas Shoppe held at the Ponderosa Communities Center. If you are a crafter or have a product you wish to sell at this event or need further information contact Christine

Mills at christmasinthefoothills1@gmail.com or call 675-9225.

Look back in Time – In 1898 Justice E.B. Spark who was in court at Challenge Mills dismissed a case against Mr. Rebot for battery on Worth Bainbridge of Rackerby (battery happens in all eras).

Hope to see you in Brownsville soon.

## Clothes For Kids

Sutter-Yuba Association of Realtors (SYAOR) Charitable Foundation had another successful Clothes For Kids Year! Through direct donations and proceeds from the Realtors Annual Charitable Golf Tournament, we were able to assist over 418 children with their back to school needs. The

Clothes for Kids event is the largest fundraiser that the Charitable Foundation (501 3c) does each year. Members of the Sutter-Yuba Association of Realtors, Affiliates, friends, and community partners volunteer their time for the 3 separate shopping days. We would like to thank Kohl's for their partner-

ship, Marysville Kiwanis club for the breakfast and a special Thank you to everyone who gave both their time and finances to help make this our most successful year. For more about this event please watch the video at <https://www.youtube.com/watch?v=wyRSeZiVOfg&feature=share>.

# Yuba County Pet of the Week

Meet Copper, (A174506), a young, (6-12 months), boxer-mix male. This handsome boy is friendly, and good with kids, and other dogs. He is an active boy that loves to play with balls. He would be a great addition to an active family. Please come down to the shelter to take a look at this boy. You could be his next best friend!

## LaVoy-Dead Man Talking

Sutter Yuba Constitutional Republicans will host a movie screening of the new movie LaVoy – Dead Man Talking.

Join us for this special full length movie viewing followed by commentary and question and answer opportunity with movie producer Mark Herr and Jeanette Finicum, wife of LaVoy Finicum.

This movie delivers the impactful true account of a genuine patriot, LaVoy Finicum; dedicated to the preservation of life, liberty and property, his stand for freedom ended in his tragic assassination. Do not let the significance of his sacrifice fade away into the forgotten history of American exceptionalism.
