## Government "Charity"

by Lou Binninger

The recent decision by Yuba County and the Maidu people to part ways over the use of the Sycamore Ranch campground brings into question the government's role in removing tax dollars from one group and benefitting another. Yes, it's done routinely, but it is un-Constitutional and unethical.

James Madison is the acknowledged father of the Constitution. In 1794, when Congress appropriated \$15,000 for relief for French refugees who fled from insurrection in San Domingo (now Haiti) to Baltimore and Philadelphia, James Madison said disapprovingly, "I cannot undertake to lay my finger on that article of the Constitution which granted a right to Congress of expending, on objects of benevolence, the money of their constituents."

Madison's perspective was later reiterated by Rep. William Giles of Virginia, who condemned a relief measure for fire victims. Giles insisted that it was neither the purpose nor a right of Congress to "attend to what generosity and humanity require, but to what the Constitution and their duty require."

President Grover Cleveland vetoed many congressional appropriations, often saying there was no Constitutional authority for such an appropriation. Vetoing a bill for relief charity, President Cleveland said, "I can find no warrant for such an appropriation in the Constitution, and I do not believe that the power and duty of the General Government ought to be extended to the relief of individual suffering which is in no manner properly related to the public service or benefit."

Constitutionally ignorant people might argue that the document's "General Welfare" clause justifies today's trillions in benevolence doled out by Congress. James Madison said: "If Con-

## Fooled by Philanthropy

by Lou Binninger

As a justification of slavery was once firmly embedded in the conscience of much of America and in the Constitution, killing unborn babies by various barbaric means has a more widespread acceptance, tolerance and financial and legal backing today.

Tax dollars are taken from pro-abortion and pro-life citizens and given to organizations like Planned Parenthood to kill babies. Democrats fully support killing children while Republicans are hypocritical, saying they're against it but then voting to fund it.

Americans are the most generous people on the planet, giving to both national and international needs. Liberals are more tight-fisted than conservatives, exactly the opposite of the way the media portrays "compassionate" democrats.

Americans most often give through churches and nonprofit organizations. Unfortunately, because humans with sinful tendencies are involved in leading these entities money given for an expected end can be diverted to a cause that the giver would never support.

A recent example is United Way (UW). Existing in many communities, money is raised and redistributed to vetted organizations thought worthy of the help. Most donors believe UW to be a safe home for their contributions.

However, 2ndVote, a watchdog organization, has been reviewing IRS 990 filings and "found 62 United Way affiliates sent \$2,756,799 to Planned Parenthood (PP) organizations in tax year 2016. 2ndVote's latest findings indicate an increase of \$168,806 from the \$2,590,994 United Way funneled to Planned Parenthood in 2015."

2ndVote's Executive Director Robert Kuykendall concludes that "According to Planned Parenthood, an abortion can cost up to \$950. This means United Way dollars essentially paid for the equivalent of at least 2,901 Planned Parenthood abortions over the course of a single year."

The 62 UW affiliates that helped PPs were located in 29 states. UW's defense is that this is a "small number" and "United Way Worldwide does not control funding decisions by local United Ways..... Out of 1,129 local United Ways in the United States, only a small number (less than 3 percent) provide direct support to Planned Parenthood. The amount of financial support represents less than one tenth of one percent of total United Way revenue."

So, the answer is we are big, have no control and we didn't give a lot to kill babies.

Then there is the Susan G. Komen for the Cure Breast Cancer Foundation that has been wildly successful in raising research funding. It is no secret that for years Komen has diverted millions to Planned Parenthood and other abortion providers. When the truth came out the Komen board defended the practice.

Since most people that support Komen do so under the assumption their dollars go for breast cancer research, Komen Foundation's endorsement of this diversion of funding, rather than condemnation of the same, is inexcusable.

## Smartsville's Dual Anniversary Party

by Kit Burton

Smartsville is hosting a party on Saturday, September 8, from 10 am to 2 pm to celebrate two events that have definitely affected this unique historic town.

Ten years ago the late, great Huell Howser came to Smartsville to film the story of the town's name, how it started, how it was changed, and how, after 99 years, the gold rush town's persistent citizens got it back. Howser's TV segment in his series called California's Gold is still running on PBS stations, presumably to sizeable audiences.

And 20 years ago, Smartsville resident Bill Ross convinced the Sacramento Diocese to donate

its historic Catholic Church building and grounds to a brand new non-profit corporation named Smartsville Church Restoration Fund, Inc., also known as SCRFI, or "scruffy." Under the agreement, the building would no longer be utilized for religious purposes, and would be restored for use by the community.

Smartsville, and its neighboring gold-rush town Timbuctoo, are the only California Historic Landmarks in Yuba County. Although Timbuctoo has all but disappeared, Smartsville is still here and evidence of its gold-rush history abounds – if you know where to look. For the past 11 years SCRFI has sponsored

Pioneer Day, an annual festival honoring the early pioneers that came to northern California for gold. SCRFI is restoring the historic former Catholic Church that once served the predominant Irish Catholic mine workers. This imposing building, built in 1871, is an icon of the Sierra foothills.

The story of how Smartsville regained its name is a triumphal tale of small town pride vs federal government bureaucracy. It began in the late 19th century when mail addressed to identically named cities, often in the same state, arrived at unintended destinations. With time this problem became more

## Temporary Boat Access Closure

Feather River at 5th Street Bridge

Yuba City/Marysville, California. Starting on Tuesday, September 4, 2018 at 12:01 a.m. the Feather River boating channel at the 5th Street Bridge will remain closed to all watercraft until September 6, 2018 at 11:00 p.m. This is a schedule change from previously announced dates of August 26, 2018 to August 30, 2018. The channel will remain open during these dates in August through the Labor Day weekend. This will allow the contractor mobilization of large drilling equipment to the west levee side of the project and will not affect traffic on the 5th Street Bridge.

The City of Yuba City is committed to providing the highest quality service; we thank all those recreationalists who use this navigational channel under the 5th Street Bridge for their cooperation and understanding. If you have any questions or concerns regarding the planned closure, please contact Paul Chang at 530-763-4789 or bridge@yubacity.net

# Dolly Parton's Imagination Library

Coming to Sutter County

Yuba City, Ca. Just one year ago, the Sutter County Children & Families announced a partnership with the Friends of the Sutter County Library Foundation, to bring Dolly Parton's Imagination Library to Sutter County families living in rural parts of Sutter County only. Today, the organizations are celebrating the ability to provide the program to all Sutter County families

with children under the age of five. Dolly Parton's Imagination Library sends enrolled children a FREE BOOK every month until their fifth birthday. The library is a 60 volume set of books beginning with the children's classic The Little Engine that Could. Each month a new, carefully selected book will be mailed in the child's name, directly to their home.

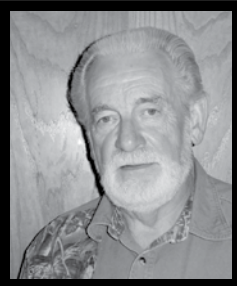

"Studies prove that reading to infants and babies boosts their brain power and creates a firm foundation for lifelong literacy," said Michele Blake, Executive Director of the Sutter County Children & Families Commission. "This partnership is just one of the ways our organization is building a stronger, smarter, healthier Sutter County, one child at a time," Blake said.

The program is available to all families with children ages zero to five, residing anywhere in Sutter County. "I, along with my Commissioners, partners and staff are thrilled to have the ability to extend this program to all families who call Sutter County home," said Blake. Dolly Parton's Imagination Library currently provides a free book to more than 17,000 California families each month and a total of 13.1 million books were gifted in 2017. To enroll your child, visit SutterKids.org and click on the "Dolly Parton's Imagination Library" logo. Allow 8 -10 weeks for the delivery of your first book.

# FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 73 years. Anyone with questions or comments can email him at boots3@syix.com

The salmon bite has slowed down a bit on both the Sacramento and Feather rivers at this time. Some of the old timers blame the warmer water, while others say it is just a normal trend and the fish will return with a better bite later on in the week. Fish are being taken as this report is written but the salmon are not cooperating like they were yesterday and last week.

The excellent kokanee bite at Stampede Reservoir has really slowed down and if you go after these land locked salmon you might as well sleep in a bit, to say around 8 or 9 A.M. to hit the water. Snoring in the sleeping bag is an excellent idea at this time due to the fish being active after the sun hits the water.

Bill Malott Ted Johnson and Ken Malott hit the Feather River last Wednesday looking for salmon. They found a big hen above the rapids and she nailed a spinner with a terrific fight to follow. Ted, who was in charge of the

red boat, set the hook on the fish and handed the pole to Bill who is recovering from triple bypass surgery, Needless to say the pole was handed to his son Ken, then back and fourth untill the big one was netted and place in the boat. Bragging rights were curtailed when the electronic fish scale proofed to have a dead battery and the weight was estimated at between 17 and 20 pounds. At any rate, during a Chinese fire drill, the credit goes to all three. Kudo's guys!

Fish and Wildlife seen to plant the same areas over and over again. However, last week they managed to plant a pretty small lake off of highway 20 heading for the junction of Interstate 80. I am referring to Fuller Lake and it is a beauty. To go there turn off of State Highway 20, above Bear Valley, onto the road to Bowman Lake and you will find it several miles from the highway.

Closing thought: "If you wait until you are ready, you will wait for the rest of your life."

Two to choose from

ALLEY, AFTER ALL THIS TIME, DO YOU REALLY HAVE TO ASK WHY DOC IS HERE?? WHY IS HE EVER HERE?

WHADYA MEAN BY THAT?

SHE'S RIGHT, OOP! OOOLA, I'M SORRY TO INTERRUPT YOUR PING, BUT I NEED TO BORROW OOP FOR...

BAH, BAH, BUNH! YOU DON'T NEED TO EXPLAIN TO ME, DOC!

DO WHATEVER YOU NEED TO DO, ALLEY! LET ME KNOW WHEN YOU'RE BACK!

OHON OOH! DON'T GO AWAY MAD!

DON'T WORRY ABOUT ME, MAYBE I'LL HAVE A LITTLE ADVENTURE OF MY OWN!

YOU DON'T THINK SHE MEANT THAT, DO YOU?

OF COURSE NOT, OOP! (GAL?)

OKAY, WHAT'S UP, DOC?

I'VE BEEN HIRED TO GO ON A TIME-TRAVEL TRIP, AND I COULD USE YOUR HELP!

HMMH?

WHERE ARE WE GOING?

SWITZERLAND IN THE YEAR 1816! WE'RE ASSISTING IN CLIMATE STUDIES BY BRINGING BACK SAMPLES AND ATMOSPHERIC READINGS!

SO WHAT DO YOU SAY OOP? SWITZERLAND! SOUNDS LIKE FUN, DOESN'T IT?

WELL... SCIENTIFIC RESEARCH DOESN'T REALLY SOUND LIKE SOMETHIN' THAT'S UP MY ALLEY, SO T'SPEAK...

...BUT HECK, WHY NOT?

EXCELLENT!

IT WILL BE COLD IN SWITZERLAND, SO I BROUGHT YOU SOME HEAVY CLOTHES!

I'M NOT WEARIN' THAT STUFF!

I'M TELLING YOU, OOP! IT'S GOING TO BE REALLY COLD! YOU'LL BE SORRY!

I CAN HANDLE A LITTLE COLD!

SUIT YOURSELF! I'LL HAVE IT WHEN YOU CHANGE YOUR MIND!

I'M READY WHENEVER YOU ARE, DOC!

ALL RIGHT THEN! NEXT STOP, THE SUMMER OF 1816, COLOGNY, SWITZERLAND!

ZANG!

# Jackie Rossi is Retiring

Best Wishes

Jackie Rossi, owner of the Sundowner Cafe is retiring! The restaurant will be open until 9/16. Come by, sign her guest book and wish her a happy retirement after 28 years. She is retiring to Loma, Colorado. She wanted to say goodbye and let everyone know how much she appreciates the wonderful friendships she has made. She has the best customers in the world.

## 1863 Comes to Life in Marysville!

History will come to life at the Cotton Rosser Arena and Pavilion in Marysville on Bizz Johnson Drive on the 22nd and 23rd of September. The national Civil War Association (NCWA) and the Re-enactors of the American Civil War (RACW) will be staging a living history and battle re-enactment from the American Civil War on that weekend. Both groups are made up of not for profit volunteers who seek to educate and enlighten about the times and people of the Civil War for our 21st century guests.

This is a fantastic opportunity to relive a key time in our shared national heritage. The event includes not only battle

re-enactments, but a chance to walk through the historically accurate campgrounds of the soldiers and civilians who lived through the this vital and often tragic period in our history. The re-enactors you will meet are very knowledgeable in this history and can share insights that often are not found in history books as they immerse themselves and the audience in their roles. From the letters the soldiers received, to the canons and muskets they used, to the food they ate and even the latest ladies fashion, 1863 will be transported to 21st Century Marysville for you to experience. A truly fun and entertaining way to spend a Saturday or Sun-

day. So come on out and make some historical memories of your own!

Admission will be:  
 \$10.00 per adult  
 \$8.00 for Veterans,  
 \$800 for students aged 12 to 16  
 \$8.00 for seniors over 65  
 \$5.00 for children between 6 and 12  
 \$5.00 for Active Duty Military  
 Children under 6 are free.

The event opens to the public at 9 AM on both Saturday and Sunday and closes at 5 PM on Saturday, 3 PM on Sunday. Battles will be at 12 PM and 3 PM Saturday and 11 AM and 2 PM on Sunday.

The Cherry family from Brownsville has been in NY at the Cooperstown Baseball Dream Park where young Steve

joined his team, The Prince William Reds, to compete. They have won all six of their games 6/0. Now, they are sixth from

the top and headed to the championship games happening there at the park. In order to participate they needed to be 12 years old and under. This is such a great honor, and the culmination of years of hard work for "Team Cherry". It takes a whole family to accomplish this honor. Steve will come home with a ring, trophy, and a dream of a lifetime, the baseball game all boys dream about his age. These teams came from all over the USA. There was 18 weeks of play and Steve's team played the 18th week. What an accomplishment.

**Hang out.  
 Have a hot dog.  
 Relax in the park.**

# Obituary

## Marilyn Kay Maynard

1944-2018

Marilyn Maynard went to be with the Lord on Tuesday August 28, 2018. She passed away peacefully at The Fountains in Yuba City after a yearlong struggle with Progressive Supranuclear Palsy.

Marilyn was born in Bakersfield, California, on February 11, 1944, to Orville and Flossie Wilkins. She grew up there with her brother George and graduated from East Bakersfield High School.

She later graduated from California State University Fresno where she did her student teaching and earned a lifetime teaching credential. Her career spanned over 30 years of public and private school teaching and she retired from Bridge Street School in Yuba City. She loved kids and loved teaching them.

Marilyn met her husband, Clay Maynard, at a Christian singles volley ball game in Fresno. They were married December 18, 1971 in Fresno and raised their two children, Dean and Christie, in Soquel on the Monterey Bay. They were happily married for 47 years. That was a very good volley ball game.

She loved riding her palomino horses and traveling with Clay in a twin-engine airplane that he loved to fly.

She will be remembered by her family and friends as a loving, caring person who always had a beautiful smile and a love for life. The kids say she was an amazing teacher, mom and role model and hope to be together with her again someday. She will always be loved.

A Celebration of Life service will be at 1:00 pm, Saturday, September 8, 2018, at Adventure Church, 1100 Garden Hwy, Yuba City, California.

## COUNTY OF YUBA SUMMARY OF PROPOSED ORDINANCE AMENDING SECTION 2.151.010 OF Chapter 2.151 OF THE YUBA COUNTY ORDINANCE CODE RELATING TO GRAND JURORS - FEES AND MILEAGE ESTABLISHED

The following is a summary of an ordinance proposed to be adopted by the Board of Supervisors of the County of Yuba on September 11, 2018.

The proposed ordinance would amend Section 2.151.010 of Chapter 2.151 of the Yuba County Ordinance Code relating to Grand Jurors - Fees and Mileage established. The amendment provides for additional meetings upon approval of the Foreperson and Presiding Judge as long as the Grand Jury does not incur expenses in excess of the amount budgeted by the Board of Supervisors.

The complete text of the proposed ordinance may be reviewed in the Office of the Clerk of the Board of Supervisors of Yuba County, 915 8th Street Suite 109, Marysville, CA 95901.

Rachel Ferris Clerk of the Board of Supervisors

## Smartsville's Dual Anniversary Party

and more serious, and in 1890, sparked the formation of a commission to recommend remedies.

Re-naming cities with duplicate names within the same state was a sensible solution and should have been sufficient. But having gained a bit of momentum, the US Board of Geographic Names couldn't stop, and continued changing names, often without good reason. Pittsburgh was changed to Pittsburg,

Skaguay became Skagway, Rough and Ready was told it could be either Rough or Ready but not both, and Smartsville, in 1909, became Smartville. The town hated it. Finally, after several prior attempts, and with overwhelming local and county-wide support, the historic spelling was officially restored by the federal government in 2008.

So in September, on the grounds of the historic, former Catholic

Church in Smartsville we will celebrate these two anniversaries with cake and candles, music, a few short speeches, food, fun and games for kids, and maybe a toast to the next 10 or 20 years. Admission is free. Bring your own chairs.

For more information visit SmartsvilleChurchRestoration.org or call Kathy Smith at (916) 838-2757 or Kit Burton at (530) 701-2639.

## THE Brownsville Bailiwick & Beyond

The staff at Books and More will be planning their annual vacation soon. The bookstore closes the first two weeks in October. This started ten or fifteen years ago because Bud and Yvonne would travel back to North Carolina to

visit family each fall taking their motor home; now it is a tradition. Joyce, Tania and Yvonne plan to spend a couple of days with Mickie Miller at her new home in Santa Maria, then each will vacation in separate ways. We will reopen Wednesday, Oct. 17.

Can you feel it? The air is beginning to fill with autumn. My heart races with the knowledge that soon fall will be here and winter right behind. Some of the trees are already begin-

ning to change color and the breezes are cooler. I know there may still be some hot days left to get through, but, can you feel it? The air is beginning to fill with autumn.

Look Back in Time – In 1946 there were 38 children enrolled in the Clipper Mills school (soon the unification process would be doing away with one-room schools in our area).

Hope to see you in Brownsville soon.

Christine and Yvonne

## Food and Farm News

### Bank reports on impacts of employee shortages

Ongoing scarcity of farm employees threatens the rural economy and puts additional stress on the agricultural sector, according to a new report. The agricultural lender Co-Bank says the employee shortages have forced farm employers to raise wages at a faster rate, even though the prices they earn for their crops may not support the increases. Without a clear solution to the shortages in sight, the bank says, the problems will likely persist in coming years.

### UC center to offer post-fire research

Hoping to salvage some good from significant wildfire damage, a University of California research center says it plans to offer its facility as a location for fire-related studies. About 3,000 acres of land in the Hopland Research and Extension Center in Mendocino County suffered damage in late July from the River Fire. The center says it plans

a meeting next week into potential post-fire research on plants, soil, grazing practices and other topics.

### Strawberry production remains stable

Despite planting fewer acres, California strawberry growers should produce nearly as much fruit as a year ago. A new estimate from the U.S. Department of Agriculture says California strawberry production will be down 1 percent this year. California accounts for more than 90 percent of the nation's strawberry harvest, with Florida ranking No. 2. The state's leading strawberry-growing counties in-

clude Monterey, Ventura, Santa Barbara, San Luis Obispo and Santa Cruz.

### Organic farmers earn national recognition

California farmers will be honored for national leadership in organic agriculture, during an event next month in Baltimore. Stephanie and Blake Alexandre of Crescent City will receive the Organic Farmer of the Year Award from the Organic Trade Association. They operate Alexandre Ecodairy Farm and bottle their own organic milk, plus raise poultry, eggs, pork and beef. Santa Cruz County farmer Javier Zamora will receive the Rising Star Award.

# MoneyManagementRadio.com

**Because Your Money Matters!**  
 Marc Cuniberti hosts "Money Matters" on KVMR 89.5 FM Thursdays at noon. His website is [www.moneymanagementradio.com](http://www.moneymanagementradio.com)

**Smart Money?**

Not everybody makes money in the stock market. In fact many people don't. So goes the thinking "hold for the long haul". Most people have the impression however that the big guys on Wall Street, the so called "smart money" always make money.

Last week we had at least an inkling that perhaps the smart money at least isn't all that smart on occasion when an article hit penned by Bloomberg's entitled "Hedge funds in pain watching record S&P 500 rally they've missed".

The jest of the article was that despite the S&P 500 historic run we've witnessed in the last few years, the hedge fund representative tracking indicator referred to in the article has not mirrored these gains. In fact, so says Bloomberg, the tracker has actually fallen the last five weeks out of six.

So much for the smart money guys.

One would have to ask why haven't the funds, supposedly managed by the best in the business, made money in this upwardly bias market. After all, if most of the market is going up, why are hedge funds portfolios falling?

The answer may lie in the common problem of

what is invested in.

When evaluating market movements, the news media covers the major markets such as the Dow Jones Industrial Average (DJIA) or the NASDAQ, or as referenced, above the S&P 500. That is all well and fine but stock pickers and fund managers do just that, pick stocks and manage portfolios.

Since the indexes referenced in the media encompass many stocks, many more then can be realistically bought and managed, portfolios are usually constructed with only a handful of stocks and funds.

The selection process is accomplished by the manager of whatever hedge fund is in question. Since each hedge fund has a different manager, each fund likely holds somewhat different stuff. That's not to say there are not favorite holdings that many funds may buy. In fact many funds may hold the same favored stocks.

But why these funds haven't mirrored the markets has a common cause.

From the largest pension or hedge fund down to the small mom and pop individual investor, their selections will be varied and subjective, meaning as in most things, human bias and opinion will be used when making these selections.

If the manager is cautious, he may stack the portfolio with more fixed income like bonds or preferred stocks. If the manager is aggressive, he may buy more fast moving stocks in hope of making larger gains.

But no matter what they buy, some selections will

go up and some will go down. Depending on the mix selected will determine how successful the fund will perform.

Bloomberg indicates a few reasons it thinks might be the cause of the anemia.

Some favorite internet stocks that were all the rave a few months back took it in the shorts and that kick in the pants hurt balances. Cautious managers, wary of the longevity of this bull markets historic run, may have positioned portfolios more conservatively and some of these positions may not have only failed to rise, but actually fell in value.

The correlation between how general markets move and investor perception can be an ongoing challenge to advisors and money managers alike.

With the individual investor glued to the evening news and financial news channels constantly spouting the markets gains, investors think their portfolios should travel lock in step relentlessly upwards. The reality of it is portfolios will seldom mirror market movements closely and in my opinion nor should they. A diversified mix of a wide variety of assets is usually recommended. And with that mix, a slower train ride should be expected as well as a steadier one. There are few investors that have the stomach for an exact one to one gearing to the markets if it was even possible, which it is not.

In the case of the hedge funds in the Bloomberg article, their mix due to their bias and belief systems, made for a less than desirable performance. In their defense however, prudence outweighs profits when it comes to the protection of principal, otherwise known as your hard earned savings.

gress can do whatever in their discretion can be done by money, and will promote the General Welfare, the Government is no longer a limited one, possessing enumerated powers, but an indefinite one, subject to particular exceptions." Thomas Jefferson agreed, saying in a letter to Pennsylvania Rep. Albert Gallatin, "Congress has not unlimited powers to provide for the general welfare, but only those specifically enumerated."

If there was a misunderstanding with the Maidu people it is the Supervisors being confused about their job. If a group of any flavor wants a refuge, cultural experience, museum or gallery they can purchase or rent property and carry out their purpose with their own funding. The government owes them nothing and should stay out of their business if they are obeying the law.

Yuba County owns the Sycamore property located between Hwy 20 and the Yuba River. Yuba County Public Works and the Office of Education worked to clean-up and make the area into a beautiful park-like acreage for day visitors and campers. It is a true asset for residents and tourists to enjoy.

No one asked the taxpayers their view on giving a special deal for the use of a portion of the area to a particular group on a long-term arrangement. Yuba "Co." Water Agency also gave a truck to the tribe. That is amazing as well and again brings up the question of who owns the Water Agency anyway.

Smiling politicians glad-handing and taking credit while giving the public's property away is hypocritical. It's also a rip-off. When officials decide to turn down a nonprofit's request for the community's money they call it a gift of public funds which is supposedly forbidden. If the gift will benefit politicians, then somehow no rules are violated.

Government practices crony capitalism (favors to business) and crony socialism (gifts to nonprofits). Officials pick winners and losers by playing Santa Claus based on who has been naughty and nice to them. It is corrupt.

If businesses and nonprofits cannot make it on their own with community support, then let them come to pass. It's called creative destruction and we are all better for it. That includes art centers, social service nongovernment organizations, sports groups etc. If politicians want to give out of their own pockets then so be it, but not out of the public's wallet.

If the government or a quasi-government agency has surplus property and equipment it should offer the assets for auction and the money used wisely to improve the jurisdiction. Or, the funds could be returned to tax-

## Good Morning Mr. John Mistler

Congratulations on running for BOS Fifth District as a write in.

A man by the name of Samuel Longhorne Clemens worked at the Empire Mine in Grass Valley. He concluded, after two weeks of employment, working in the mine shaft was not for him.

He was too dumb to steal and too lazy to work, so he went to Virginia

City, NV. And applied for a job as a writer at the Local, One page, weekly newspaper.

He went to work with no pay, until the editor would decide to put him on the pay roll.

Hundreds of letters were received by the editor complimenting the new writer. Mark Twain was put on the payroll. 98% of the population of Virginia City

signed their name with an "X" who wrote the complimentary letters? It might work again. Signed "X" witness #1 "X" witness #2 "X"

Mr. Gabriel Castro  
Marysville, CA

**Editors note: This time write Mistler That's all that is different.**

## Concerned

I live in Oregon House for twenty five years. Over the years I appreciated your contribution to the community through the Territorial Dispatch.

I watched with great interest the primary elections, as I very much hope for change in our board of supervisors. Specifically I care about the water situation and about misuse of funds on many lev-

els. I trusted both you and Mr. Wright to help bring such change.

Thus I was concerned to see your election signs reappear around the area. The fear is that the voters that will be persuaded to vote you as a write-in candidate, will inadvertently support the current supervisor and give us four more years of the same inefficiencies and misguided politics.

I hope you can continue to support anything that will lead to change.

Israel Perla,  
Oregon House, Ca.

**Editors Note: I have reason to believe that there is no way Wright could beat the incumbent Fletcher. I am committed to work for the change which is why I got into the race in the first place.**

## Vote NO on MEASURE K

Let me try and outline the salient points on what is causing the shortfall in the County budget and why we should vigorously oppose Measure K:

### Public Payroll, Pensions and Healthcare costs are out of control

1. The biggest impact to the short fall in the County Budgets (which is directly affecting the Public Safety Budget) is the rapid rise in the County paid Payroll, Pension and Health Care Benefits. If you just take the Pension and Health Care benefits, these two elements alone have increased from \$18.9M (2016-2017 Year) to \$23.4M (2018-2019 Year), that's 23% percent increase over those two years. These increases account for 13% of the Total County expenditure.

\*County workers' pay/ benefits are far higher than the private sector. The median pay and benefits for county employees was \$83,108 in 2016 according to transparent-california.org.

The median pay for full-time workers in the private sector was \$37,103. There were 689 fulltime county employees in 2016 or one for every 107 residents. In 2016, 250 of these employees earned from \$92,862 to \$277,207.

So at the highest level, County workers are paid more, contribute little or nothing towards

their guaranteed Pensions and Health Care Benefits when compared to private sector workers.

### The problem is likely to get worse, much worse

1. As of 2018, CalPERS (who is the governing body who oversees Public Workers pensions and benefits) has \$360 billion in Pension assets, but is underfunded by an estimated \$150 billion, with current Pension assets below 70% of necessary to provide for those guaranteed public pensions. In an effort to reduce this shortfall, at the end of 2016 the CalPERS governing board lowered their expected annual rate of return on investments from 7.5% to 7.0%. In future years, these increases in costs, will cripple California cities and local counties even further as the pension gap widens ever further.

### The County wants the Tax Payer to pick up the bill for their mismanagement pensions and lack of action

1. What the County is proposing with Measure K is an increase of 1% in the Sales Tax.

\*\*The biggest revenue contributors to the overall budget funds are Sales taxes (~\$3.6M) and Property Taxes (~\$22.7M) in the 2018/2019 fiscal year, it is for these

very reasons why the Sales tax increases are considered the "Soft Touch" for the County, it's far easier to simply suggest an increase in these taxes to plug the Budget gap.

This isn't a public safety issue that the County is trying to sell to all residents. The reduction in public safety is being used as the "emotional motivator" to get residents to yet again, open their wallets to shore up their gap in the Local Budgets because of the Payroll, Pension and Health Care Benefits crisis, that they should and could have easily predicted and addressed long ago without proposing increases in the County Sales taxes.

Rather, the Elected Officials should roll up their sleeves, knuckle down and get a grip on the out of control Public Payroll, Pensions and Healthcare costs.

### Call to Action

Vote No on Measure K

# THINK About It!

By Charlie McNiff

## Bruce Ohr Sing Like A Canary? ... More Like an Opera Singer! Nomadic Seniors!

Sooooo...there was hellzapoppin' in Washington, D.C. last Tuesday, August 28th. Bruce Ohr, who was the Number 4 guy in the Department of Justice (DOJ), was brought in to testify before the Congressional House Intelligence Committee as it is appearing to be evident that he could be the linchpin to the early beginnings of the supposed "Trump Collusion with Russia."

Curiously, according to Catherine Herridge, FOX News Chief Intelligence Correspondent, "those inside the closed-door deposition told FOX that they saw no Democratic lawmakers participating in the questioning today. They left that to their staff and lawyers." Interesting!

John Ratcliffe, R-Texas, a committee member commented, "Well, as a former federal prosecutor, I got to tell you, what I heard today in Bruce Ohr's testimony was shocking, alarming and disappointing. These types of things didn't happen in the Justice Department where I worked."

Something new seems to pop up almost every day. A lot of swamp critters have been trying to keep closed-mouth but it appears Ohr, instead of singing like a canary... was bellowing like an opera singer. And just to think that none of this skullduggery would have seen the light of day if Hillary had been elected.

Such as the revelation in a new book called "Compromised" that gives chapter and verse about the coziness between fired FBI Director James Comey and Former FBI Director Robert Mueller. Comey worked for Lockheed Aircraft and the new book reports he wound up getting millions of dollars from Lockheed around the same time that Robert Mueller was the FBI Director who gave Lock-

heed a 5 BILLION DOLLAR No Bid...that's right...No Bid contract from the FBI. Now, that's Really Murky.

Hillary Pops Up Again from the Swamp. Recent reports state that over 30,000 e-mails were hacked from her computer server by Chinese operatives while Secretary of State in President Obama's first term. That, boys and girls, is a federal offense and the least punishment would be jail time. Stay tuned.

Folks, I'm giving you just tiny tips of this huge iceberg. You are not going to get even a little bit of this info from the fake news (NBC, CSNBC, ABC, CBS or CNN). Take a look at FOX's Hannity at least once a week at 6 pm PST, say on a Wednesday or Thursday night to keep up on what's REALLY happening. Think About It.

\*\*\*\*\*

The Yuba County Seniors group feels like they have been treated akin to a nomadic tribe since their formation many, many years ago. Their former nesting place was on 14th Street in Marysville in the old hospital building for a number of years...and before that were numerous landing spots. They are looking for a permanent home. They have almost \$25,000 in the bank and upwards of \$200,000 reportedly committed by anonymous sources.

A group from the seniors organization voiced their concerns about seeking a "permanent home" at the Yuba County Supervisors regular (twice monthly) meeting Tuesday, August 28th.

A little history...They had to vacate the building in Olivehurst for their daily activities last December due to the sale of the property. The seniors had enjoyed a routine of daily prepared (by the seniors) luncheons for the seniors in attendance as well as

furnishing a huge library of books and magazines, card playing, television for lounging and other activities. Their primary fund-raising venue to pay for the rent, electricity and water and help defray food costs for the meals came from bingo games held on a weekly basis, as well as donated clothing that they sold for literally pennies on the dollar.

The decision to get "in the face" at supervisor's meetings came from an organizational meeting August 17th at the FREED office on J Street in Marysville. In attendance were 18 seniors with Jesse Williams from the Multi-Purpose Senior Service Program in Sacramento who outlined several strategies for the senior group.

Thirteen seniors were in attendance at last Tuesday's "Supes" meeting. Williams, who was scheduled to speak, along with an associate senior's advocate arrived too late for the meeting due to snarls of traffic to get out of Sacramento. Speakers for the seniors last Tuesday included Mike Ritter, Carol Durnell (past president of the seniors) and Doris Fletcher.

After the meeting, Supervisors Mike Leahy and Andy Vasquez said they would give the problem a "high priority." One of the seniors said, "Yeah, that's what the county said 9 months ago."

The next meeting for the Yuba County Seniors will be Friday, September 21st at 10 am at the FREED office located at 508 J Street (1/2 block north of 5th Street). Jesse Williams and an associate senior citizen's advocate will speak at the meeting. Anyone interested in helping or joining the Yuba County Seniors in their "Quest of A Possible Dream" for a permanent home...call Doris Fletcher at 742-9284.

## Supports: Banks

The voters of Live oak will choose three city council members this November 6th. There is only one with experience in the field of eight candidates.

Councilman Jason Banks has four years of serving the citizens of Live Oak. He has a proven record of keeping the welfare of the people of this city foremost in his efforts.

His vote was never a "rubber stamp" on an item on the agenda. He would question many items; not to show off but to get more information from staff to make the issue clearer for the public to understand.

Councilman Banks has been instrumental in: (1) getting brighter energy efficient street lights installed. (2) Increased to five day scheduled

bus transportation. (3) Recognized there were places schoolchildren needed stop signs and marked crosswalks to be able to safely walk to school. (4) Worked for the implementation of the new city digital sign. (5) Increased access and transparency at City Hall including a live stream of council meetings and extended hours of service. (6) Worked with Councilman Ghag to identify and secure a 10 million federally funded "Tiger Grant" to widen Highway 99.

Councilman Banks is not sitting on his past successes. For the last year and a half he has been looking at a project to expand the attractiveness of Live Oak Recreation.

With the help of current Live Oak City Staff

he has been instrumental in Live oak receiving \$92,000.00 from CDBG (Community Development Block Grant) for a visibility study for Live Oak to take over "The Regional Riverfront Park". This could bring more business to Live Oak food outlets and other stores.

This project is primarily a SACOG (Sacramento Area council of Government) consisting of 31 county and local city jurisdictions. The previous Live Oak council representative didn't accomplish anything on her time of SACOG.

Please join me on the 6th of November in voting for Councilman Jason Banks to continue his efforts in supporting the people of Live Oak.

Joseph R. Griffin  
Live Oak, CA 95953

Send Letters to the Editor to:

# Yuba County Pet of the Week

Meet Kali, (A171259) a lovely one year old, brindle and white, spayed, pit bull mix girl. This girl wants someone to love her, and provide her with the activity and training she needs. In return she will make a great companion. Come to

the shelter to check her out, and see if she is a good match for you.

### Upcoming Events

#### Petco Adoption Event: Oct. 6, 2018, 10 am-2 p.m.

Yuba County Animal Care Services is located at 5245 Feather River Blvd., Olivehurst. The phone number is 530-741-6478. Kennels are open Monday – Friday 10am – 3:30 pm and Saturdays 10 am – 2 pm. You can also go to [www.petharbor.com](http://www.petharbor.com) or [www.petfinder.com](http://www.petfinder.com) to see all of our adoptable animals and look for your lost family pets, or check out our Facebook page, Yuba County Animal Care Services@yubacountyACS. We also have an Amazon wish list if you would like to help support the shelter. The link to our wish list is; Amazon.com <http://a.co/7qGE7r0>.

### TOPICS OF INTEREST

**SPECIAL ATTENTION NEEDED:** Kitten season is upon us! If you find very young kittens (feral) without their mother, leave them alone; their mother may be taking a break. If the mother does not come back, consider fostering them rather than flooding the shelter with kittens, since the shelter cannot handle them. Check out [maddiesfund.org](http://maddiesfund.org) to learn how to foster kittens. Fostering can be a very rewarding experience.

**STARS Volunteers:** Volunteers are needed for the animal shelter. If you have time on your hands and would like to help out, become a STARS volunteer. Contact Deneen Barnhill at the shelter to find out how.

**Donations:** The STARS help support the ACS Shelter. Donations are used to help offset spay and neutering costs, feed costs, and other costs associated with the care of the animals. If you would like to donate, you may send donations/checks to YCACS STARS at the Animal care address: 5245 Feather River Blvd. Olivehurst, CA 95961. You can also donate via our Facebook page. Thank you in advance for any help you can provide.

# AAUW Monthly Meeting – September 15

Yuba City, Ca.

On Saturday, September 15, at 10:00 a.m., the Marysville-Yuba City branch of the American Association of University Women will hold its monthly meeting in the Ministry Center at St. Andrew Presbyterian Church, 1390 Franklin Road, Yuba City. Please park in the parking lot south of the Church and enter through the door closest to the parking lot.

Our Tech Trek scholars will speak about their experiences at UC Davis this summer.

This is the 20th Anniversary of the Tech Trek program, which started in California and has gone nationwide.

Visitors and potential members are always welcome at AAUW meetings. Space is limited and reservations for the light buffet lunch are required, \$10 payable in advance. Send check to AAUW, P.O. Box 3031, Yuba City, CA 95992, to arrive no later than Monday, September 10. For more information contact Kathryn Jankowski, 713-4467.

L-R back row: Latoya, Natalie, Trinity, Larissa, and Abi; L-R bottom row: Lydia and Chloe. (Photo credit - Marie Lavoie),

Projects of the Marysville-Yuba City Branch of the American Association of University Women are the Math Science/STEM Conference for 8th grade Girls, scholarships for 7th grade girls to the Tech Trek Science Camp at UC Davis, and other scholarships for girls and women. For additional information about AAUW see our branch website [www.aauwmarysvilleyubacity.com](http://www.aauwmarysvilleyubacity.com) or AAUW. MVYC on Facebook.

AAUW is a national organization dedicated

to promoting equity for women and girls through advocacy, education, philanthropy, and research.

## Fooled by Philanthropy

Komen, like UW, attempts to minimize the misappropriation of funds or suggest that the money goes for other services. Since the donations are fungible only the simple-minded buy the argument that the monies don't kill babies.

In the case of Komen another bitter twist is the connection between abortion and breast cancer. According to Dr. Angela Lanfranchi, a breast surgical oncologist and co-director of the Stee-

plechase Cancer Center, "29 out of 38 worldwide epidemiological studies show an increased risk of breast cancer of approximately 30% among women who have had an abortion."

The Coalition on Abortion/Breast Cancer concludes, "It cannot be said that all women who have had breast cancer have had abortions. Similarly, not all women who have had abortions will get breast cancer. Nevertheless, abortion is the most pre-

ventable risk factor for breast cancer."

No one likes to hear that their lifestyle, choices or behavior may have contributed to their current struggle, and the abortion industry vehemently denies the science to soothe the conscience of their clients.

When it comes to philanthropy, "Whatever you expect, inspect." Do your research. Otherwise, you may be giving to save lives and instead be ending them.

## Peanut Gallery?

*Don't Underestimate the Power of the Mighty, Flavorful Peanut*

*by Dr. Gretchen Flohr*

July 2018 NYWD Board meeting, Board President, Donnie Ferguson, audibly muttered under his breath: "Here comes the Peanut Gallery" as two members of OHDWA entered the room. Other than the witnesses who heard the comment, there is no actual evidence, because NYWD is no longer videotaping their sessions. OHDWA speculates that this may be because they are posting the Board meeting videos on their public website to hold the Board and General Manager accountable for their comments and actions. Disrespect and just plain bad manners is the M.O. of this current Board, which is clear for all to see when viewing the videos (<https://oregonhousedobbins.wixsite.com/water>).

The "Peanut Gallery" was at the July meeting to present FOIA-obtained data that

show that the Board's insistence that NYWD has made only ~ \$11M (from the South Feather 2005 Agreement) - is blatantly wrong. At public forums in May and June, OHDWA stated that over \$30M has been earned through the 2005 agreement - a statement the NYWD Board President has publicly and widely disparaged. In July 2018, OHDWA brought the facts to the Board which proved that OHDWA's statement is true. NYWD has, in fact, earned \$33 million from the 2005 agreement. SO: 1. WHY doesn't this Board know how much money is coming in? 2) WHERE is that money? It surely hasn't gone into repairing our ditches - as we remain without water and no repairs have been done.

During the June and July 2018 meetings, General Manager, Jeff Maupin, stated that South Feather had

used their 11 CFS in the Forbestown Ditch in June, leaving no room for our water. Having attended the South Feather Board Meetings, OHDWA knew this was not true. Donna Corson requested a correction be made to the minutes - the information she provided and her request were ignored and Maupin's statement and the minutes went uncorrected as the Board looked contemptuously at OHDWA and the public. During the August Meeting, the Flavorful Peanut Gallery appeared once again to deliver NYWD their homework. Having obtained all the publicly available raw data, we learned that between 2010 and July 4, 2018, South Feather has only ever used 11 cfs for 16 days. All 16 days occurred in Summer 2015. In June 2018, the month Maupin claims that South Feather used all 11 cf?..... the Forbestown Ditch was closed for repairs for 12 days. The remainder of June, South Feather used between 0 to 8.6 cfs. Never once did they use 11 cfs. Maupin was wrong.

So, why is Maupin making claims that are not supported by the data? Is he just making things up? WHY? Is he not viewing actual reports? Why isn't the Board studying the reports and holding the General Manager accountable for his inaccuracies and false statements? Why does OHDWA continue to have to do NYWD's homework for them? What does the NYWD Board think they were elected to do? Meantime - all other districts have been supplying irrigation water, and we in Oregon House and Dobbins have no water, our risks from fire increase daily, and expensive NYWD equipment sits unused in the yard, and no repairs to any ditches have been made. One thing Maupin seems to be really good at - is spending money.....our money.

As we continue to hand over our money and pay taxes for water we are not getting, the words of the late, great Aretha come to mind: All we're askin' - Is for a little R-E-S-P-E-C-T.

The Flavorful Peanut Gallery

## Your One Minute News Digest

*by Don Rae*

- SB 1279 would cap the maximum sentence for criminals who commit multiple crimes against multiple victims at what is effectively the punishment for only two or three of their crimes. What this proposed law does is prevent a judge from imposing a sentence that is more than twice the sentence for just one of charges, even when there are multiple charges and allegations of additional harm. SB 54 protects felons from foreign countries—using the police to protect the criminals from deportation. AB 109 opened the doors of the prisons, getting the crooks out of jail years before their sentences ended. Prop. 57 allows the theft of \$950 or under as a ticketable offence, so cops allow crime waves—career criminals can live off of these thefts without fear of being caught or incarceration. Now the Democrats have more legislation ensuring safety for criminals.

- Treasurer John Chiang, at a gathering of policymakers and top-level executives at the Milken Institute California Policy Summit in Sacramento today, signed the "Green Bond Pledge", a declaration with broad and far-reaching impact. States and cities across the nation are being urged to take the pledge that would commit them to a strategy that will finance infrastructure and capital projects that meet the challenges of climate change with "green bonds," or green financing. Those signing the green bond pledge agree that climate change poses an existential threat and that the rapid growth of a green bonds market will not only meet the unique challenges the world faces, but will do so while making communities more economically competitive, prosperous, and productive.

- Bad legislation in California gets passed in the dead of night at the end of session. Close to 1,000 bills will be heard in the next three weeks. Many will be amended, with no hearings on the amendment and no chance for the public to respond to the concerns raised by the newly amended bills.

- It is such a totalitarian State that it is now going to demand WHO the marijuana industry hires—those it trained and give approval to—isn't that how the Soviet Union operated and Cuba operates today?

- "Disadvantaged workers in San Fran-

cisco could get training for jobs in the cannabis industry under a proposed government program that would require businesses to hire the graduates. The program, dubbed CityGrow, is modeled after CityBuild, an existing government program overseen by the Office of Economic and Workforce Development, that provides training for disadvantaged residents to land jobs in the construction industry.

- Cal Poly San Luis Obispo is rolling out a new policy to "require a diversity statement from candidates for all faculty and staff searches," becoming the latest university among dozens nationwide that force job-seeking professors to pledge their commitment to equity and inclusion as a condition of employment.

- For Cal Poly, requiring the diversity statement is one part of a larger effort school officials are engaged in to "improve diversity" via dozens of various endeavors outlined in its 30-page action plan. As part of the diversity initiatives plan, the university also has a goal of "increasing, in a Proposition 209-compliant manner, the hiring of diverse faculty utilizing cluster hires every other year."

- Cal Poly SLO is no longer pretending to be an education venue—it is a socially diverse/Socialist institution where bullying is rampant and free speech not allowed. If you close your eyes you would think you are on the campus of Havana University.

- A Board of Directors—to run YOUR business. "SB 826, which won Senate approval and has until the end of August to clear the Assembly, would require publicly held companies headquartered in California to have at least one woman on their board of director by end of next year. By 2021, companies with boards of five directors must have at least two women, and companies with six-member boards must have at least three women. Firms failing to comply would face a fine.

- While at first glance it doesn't sound like the type of job people will be knocking down doors to apply for, the SF Chronicle has revealed just how much each member of this apparently elite "poop patrol" team will cost the city: \$184,678 in salary and benefits. All to clean up the mess left by the homeless. In one week, 16,000 complaints—how many more instances occur without a complaint? San Fran has become one giant, PUBLIC toilet.

- "A former East Bay college philosophy professor who was charged with four counts of felony assault with a deadly weapon, causing great bodily injury, has taken

a deal resulting in three years of probation for an attack at a Berkeley protest last year, court records reveal. Eric Clanton had been linked by police to violent assaults with a metal bike lock during a "free speech" rally in Berkeley on April 15, 2017. Violence is the pastime on California campuses—even professors use it as a means of controlling ideas and speech.

- "California Republican Party Chairman Jim Brulte said on Monday the state's mandate requiring new homes to be equipped with solar panels is an absolute con job that will cost—not save—homeowners money. "If it will save money then homeowners would do it on their own."

- Were you aware of where the Brown (Moonbeam) family got its money? After losing his bid for a 3rd term as Governor in 1966, Pat Brown (Moonbeam's father) helped the murderous military dictatorship that had seized control of Indonesia and its oil industry, gain credibility in American banking and political circles. In return, the state-owned Indonesian oil firm, Pertamina, gave Brown a franchise for importing oil into California.

- To CalPers, the loss of \$500 million is chump change. At the same time they are doubling the mandated contributions, bankrupting many cities and selling CalPERS assets at a loss. A key consultant for the California Public Employees' Retirement System (CalPERS) has defended the system having sold most of its forestland portfolio at a loss estimated to be around \$500 million, saying CalPERS assets are better invested in core real estate. Forestland, real estate, and infrastructure make up the three components of the CalPERS \$37.5 billion real assets program, but unlike returns for real estate and infrastructure over the last few years, forestland investments have been a money loser for the system.

- Andrew Junkin, president of Wilshire Consulting, who serves as the pension system's general and forestland consultant, told the CalPERS Investment Committee on August 14 that the recent sale of almost 80% of CalPERS's \$2 billion forestland portfolio was not "a panicked move. "Why is it a money loser? Because they bought too high, sold low and did not manage the investment. Now the taxpayers of California are going to lose cops and road repairs to finance the incompetence of CalPERS—yet this story is being hidden—did you see it in the Bee, Chronicle or Times? They are not reporting the real reason CalPERS is under funded.

# Arts Safari

## An Exclusive, Fine Art Painting Party at the Sutter Buttes

Marysville, CA.  
 What do you think of when you hear the word "safari?" More than likely, the term conjures images of an African hunting adventure with participants dressed in khaki attire supported by gun bearers and staff serving meals under large tents. Think Heming-

way on his 1933 and 1954 safaris in East Africa. Safari comes from a 19th century Arabic word meaning "to travel." How would and your group of ten friends and/or family members like to travel to a hidden destination in our beloved Sutter Buttes accompanied by your own

native guide, a professional "big game" painter, your own personal chef and sommelier, musicians and a full staff to make your visit comfortable and memorable? Arts Safari is the ultimate "sip and sketch" experience for the plein air painter in us all. Plein air simply means painting outdoors.

This adventure is designed for all skill levels. If you've never painted before, come learn the basics. If you are an intermediate or advanced painter, enhance your skills under the direction of Northern California artist, muralist and Yuba College Art Instructor, Rebecca Wallace. Spend an afternoon in the greatest "classroom" in the region, Heier Ridge deep in the heart of the World's Smallest Mountain Range.

The Arts Safari package includes everything you and 9 of your friends (21 years & over) will need for a great experience on Saturday, October 6, 2018 from 1 - 6:30pm. The afternoon begins with a hayride up into the Buttes on private property. All materials and instruction needed to paint a landscape will be provided along with expert instruction. Light appetizers and wine will be served upon your arrival and throughout the day. A five-course dinner will be served, complete with appetizers, gourmet salad, entrée, side dish and dessert, and you'll enjoy live music during dinner.

Art Safari is part of the upcoming 7th Annual Harvest the Arts celebration at J. Heier Farms on September 22nd. The winners

of the two, 10-person Arts Safari packages will be announced at the event. Ticket prices for the Arts Safari drawing are \$50 each or three for \$100. Tickets may

be purchased in advance online at [yubasutterarts.org](http://yubasutterarts.org) or may be purchased at the Yuba Sutter Arts office at 624 E Street in Marysville, Wednesday through Friday

from 11-4pm. Call the office, 742-ARTS (2787), or email [abbie@yubasutterarts.org](mailto:abbie@yubasutterarts.org) for more information.
