## Yuba Sutter Fair

Celebrating "Timeless Traditions"

Yuba City, Ca. – The 160th Yuba Sutter Fair is scheduled for Thursday August 2nd through Sunday August 5.

This year's Fair will be highlighting local agriculture including peaches, local fruits/nuts and a local food court supported by locally manufactured products in our community. There

will be demonstrations on making jam's and jellies, food pairings and much more!

Back again to the 2018 Yuba-Sutter Fair is the KIDS PEDAL TRACTOR PULLS!!! The kids become the stars of the show while they compete in a fast paced, action packed pedal powered tractor pull. Kids four

to twelve years old are welcome to join in the show for FREE and try their skill. The tractors and pulling sleds are built for fun and designed to produce smiles and laughter!

The Great American Pig Races are the ultimate racing machines. The sawdust really flies when these fuzzy little critters flash out of the starting gates and battle each other for first place. These guys know how to put it in four-squeal drive and go whole hog for the finish. The action is hog wild and exciting to watch! Seeing the pig races is free everyday and fun for the whole family! The show takes place near on the Flower House Lawn area on Thursday

## So Much Money, Where to Spend It

by Lou Binninger

If you are wondering why you have less as government needs more of your wealth there are reasons and they aren't the ones you are being told to justify extorting even more of your hard-earned cash.

In July 2016, an article at Open the Books described the Department of Veterans Affairs' (VA) 'Luxury Art Obsession.' From 2004-2014, the VA spent \$19.67 million purchasing art pieces.

Thousands of veterans have died waiting to be treated by the VA. Many calls to the suicide prevention hotline went to voicemail. The healthcare claims appeals process was described as "the hamster wheel." From 2012-2015, the VA created 40,000 new positions, but hired only 3,600 doctors.

Can any administration fix the VA? The Trump Administration appears to be trying by allowing veterans to finally access private care and then by firing lousy federal employees. But, the VA has been budgeting millions each year for art.

Included in the expenditures is a 27' artificial Christmas tree for \$21,500 delivered to Chillicothe, OH. Two sculptures costing \$670,000 were needed for a VA facility in California that serves blind veterans. If given a choice, blind veterans would prefer to see a doctor quickly and could do without the sculptures they can't see. This is government.

How about the California Prostitutes Education Project receiving \$1.49 million from Health and Human Services (HHS) in 2016-17. It was described as a "youth centered initiative" that

## Gout Here to Help Us

by Lou Binninger

Government supplanting the private sector to provide services is like the tale of the bankrupt used car dealer. On the wall of the abandoned office the company mission remained, "We lose money on every deal but we make it up in volume."

In November 2008, 52.6 % of California voters passed Proposition 1A (Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century). Taxpayers will be regretting it for as long as they live.

Prop 1A authorized \$9.95 billion in bonds to be sold to get seed money for a "Bullet Train." There was to be a \$19.4 repayment of the bonds over 30 years. Payments would average \$647 million annually. "When constructed unknown operation and maintenance costs, probably over \$1 billion annually; at least partially, and potentially fully, repaid by passenger fees" read the ballot argument for the train. "Bond payments would be made from the general fund for the 220 mph train" serving travelers going from Sacramento, San Joaquin Valley, and San Francisco to Los Angeles.

Can anyone cite another government "business" where ticket prices cover the extraordinary costs of bureaucrat's "management skill" – the Post Office, AMTRAK? What would a government Amazon or Southwest cost?

Prop 1A arguments from 2008 have the snake oil scent when read today. "California's transportation system is broken: skyrocketing gasoline prices and gridlocked freeways and airports. High speed trains are the new transportation option that reduces greenhouse gases and dependence on foreign oil. High speed trains are cheaper than building new highways and airports to meet population growth and require: NO NEW TAXES (sic)."

"Proposition 1A will save time and money. Travel from Los Angeles to San Francisco in about 2½ hours for about \$50 a person. With gasoline prices today (meaning 2008), a driver of a 20-miles-per-gallon car would spend about \$87 and six hours on such a trip." However at \$50 a ticket (now estimated at nearly \$100 per person) a family of four would be \$200 for the train, \$400 if current predictions are accurate. The train is not a family-friendly value.

Today, most cars deliver much better mileage. America is now the world's largest producer of oil and exports oil to other countries.

# Tides are Turning for the Gold Sox

Marysville, Ca.

The tide is turning for the Yuba-Sutter Gold Sox as they look to send 6 talented players to the 2018 GWL All-Star Game on Monday, July 23rd. "We're excited to see our guys perform at the All-Star Game. They've put a lot of work in and we're looking forward to this," said VP/GM Michael Mink.

The Gold Sox had a rough start before the game on Monday as the first base line was completely flooded. During the game, they fell behind the Lincoln Potters 3-0 on a three-run homerun in the first inning and it looked as though the Gold Sox would have another loss at Colusa Casino Stadium. The team who has not had much luck started to show some fortune on a hot, humid night in July. "The guys showed character last night and we believe we can still make it to the playoffs," said Mink.

That belief showed in the staff and players last night as they rallied back to win 9-8 over the Potters. The Monday night win gave the team a 3-game winning streak and the first victory over Lincoln this season. The Gold Sox are four and a

half games in back of the Gems and four games behind the Seals with eighteen games to play for the final GWL playoff spot. The team received even more good bounty from the tide as the GWL announced that six Gold Sox players would be on the 2018 South All Star Team.

The Gold Sox will send Catcher, Jacob Terao (University of Portland); 2nd Baseman, Steve Robinson (Cal State East Bay); Outfielder, Brody Clifford (Dixie State University); and Pitchers, Zachary Perkins (Feather River College); Mason Verhees (Academy of Art); and Alex Zalasky (University of Concordia-Irvine) to Klamath Falls to play on the 2018 South All-Star Team. Gold Sox Field Manager, Jeramy Gillen will replace the Potters' manager due to work commitments and lead the team against the 2018 North All-Stars.

Brody Clifford was the only player in the league who was selected through a unanimous decision. Terao stuck with the team even after obtaining a leg injury; Robinson has also been working through an injury and both players have persisted and

showed their dedication. Perkins was cut from the Lincoln Potters in week 2 of the season and was given a chance with the Gold Sox, where he prospered. Mason Verhees came to the team through a teammate and was quickly able to show off his skillset. Zalasky had to prove that he had what it took to be on the team and he faced this challenge with a smile. "All of these players have worked extremely hard and overcame many obstacles to get to this place. I'm excited to see that their talent is being recognized," said Mink.

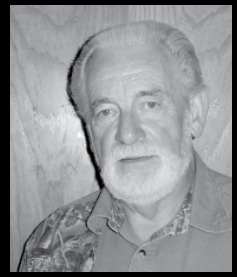

The team is continuing to build its pitching staff up. In the last week, the Gold Sox have brought on Jamie Maples (Pierce College), AJ Hedley (Jamestown), John Papapietro (Sacramento City College), Ryan Ahern (Bridgeport, CT), Dakota Redfern (UC Davis), and Andrew Meister (Holy Names).

The 2018 All-Star Game is set to start at 6:35PM at Kiger Stadium in Klamath Falls. Players will be signing autographs at 4:00PM and will be participating in a Home-Run Derby at 4:30PM.

# FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 73 years. Anyone with questions or comments can email him at boots3@syix.com

Salmon Season opened on local rivers on July 16th. The opening of a season does not necessarily mean we will find fish in the rivers. As of this date (July 22nd) reports tell us the fish have not arrived yet. There is a few being caught on the Feather River up near Oroville, but we expect action lower around the Yuba City and Marysville area to be arriving in a week or so.

Now is the time for a lake trout of a lifetime at Lake Tahoe. The big mackinaw trout are hitting at the South Shore area. A report tells us a 20 pounder was caught last week while trolling at around 200 feet down.

We hear from Lake Almanor at Chester. The fishing here is slow with a few fish being taken early before the sun hits the water. The reservoir is full at this time but is expected to drop considerably which will cause hazards due to low level obstructions for both fishing and other watercraft.

Jackson Meadows Reservoir has turned on for trout anglers fishing for planted fish. This is due to a minnow hatch which has the trout going nuts. Limits are common with the best depth to fish at 45 feet.

If you know where ash creek in Lassen County is it might be a good idea to head up that way for a limit of rainbow trout. The Department of Fish and Wildlife dumped a bunch into that stream last week.

Ted Johnson, who lives in Yuba City, while trolling at Little Grass Valley Reservoir with friend Ken Malott, caught a beautiful 17 1/2 inch rainbow trout. Ted advised he was trolling with flashers and a night crawler when the rainbow grabbed his worm. Kudos, Ted!

We are told the catfish and bass are still hitting at Collins Lake near Dobbins. Hot spots are up near the inlet of Dry Creek and over by the dam.

Closing thought: "One of the happiest moments in life is when you have the courage to let go of what you cannot change."

# Back to School Celebration and Blessing

Back to School evokes a wide range of reactions. Students groan as they anticipate the never ending schedule of classes, homework, term papers, and exams. Parents feel the stress of replenishing their child's

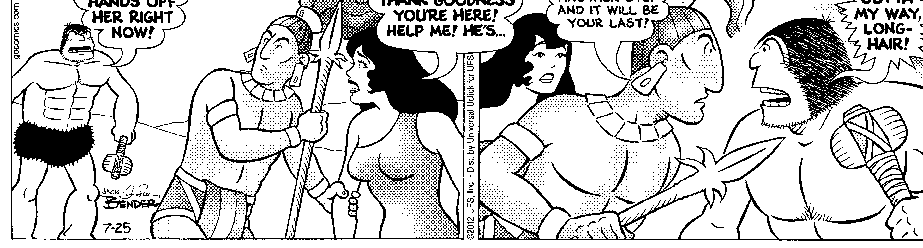

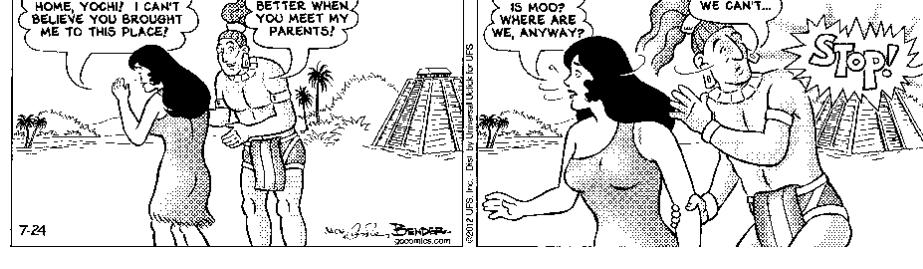

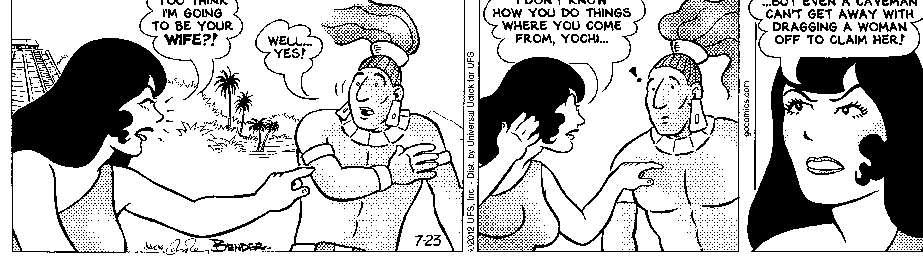

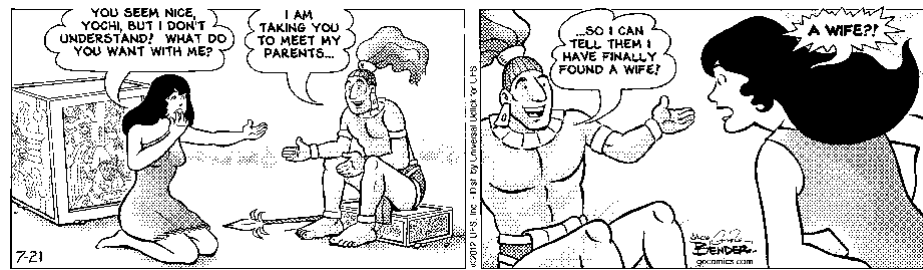

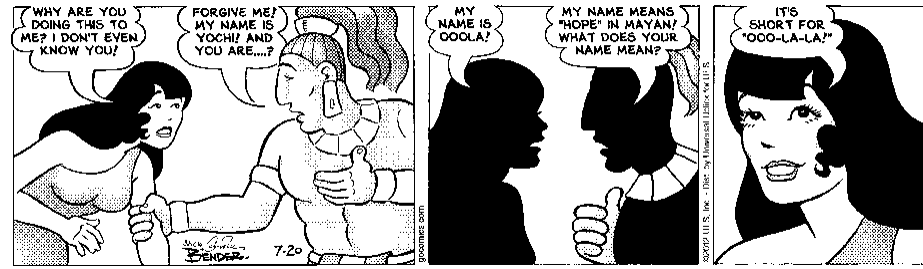

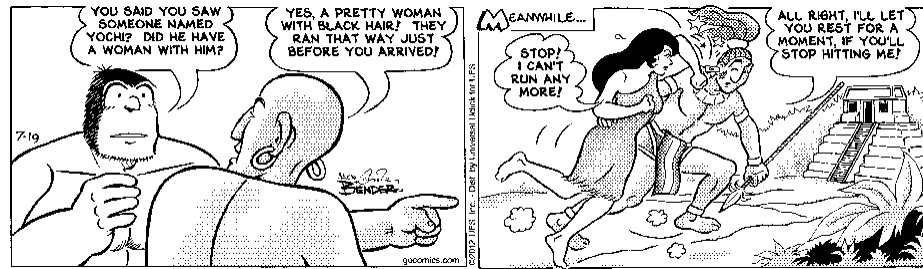

back to school supplies on their wallet. The one ray of sunshine in shopping for back to school supplies, is that at the end, their kids will be back to school. Many have joked that after all the pressure leading up

to dropping off the last kid, parents have several hours to celebrate Parent's Day.

Knowing all of this, First United Methodist Church of Yuba City, 3101 Colusa Highway, is honored to host Back to School Celebration and Blessing on August 5th starting at 11am. As this community prepares for back to school, our production will relate and celebrate preparation using Jonah as an example. Back to school supplies and lunch will be offered to all participants who attend.

This event is offered to the Yuba Sutter Community and beyond, free of charge.

For more information about this event, please call 673-5858.

# So Much Money, Where to Spend It

"works with street prostitutes" to teach "safer sex and needle use" in a way that's respectful of their clients' "lifestyle and choices." Prostitution is illegal in California and 48 other states. Would this be your choice of benevolence spending?

Of course, government needs to insert itself into the condom world. Private enterprise is just not up to funding the creation of a smoother feeling, extra lubricated accessory that is STD proof. It took your \$200,061 from HHS to fund Hydroglyde Coatings for their new and improved version

that does the above plus enhances satisfaction between partners. Next time you go to the polls remember your government is interested in your survival and personal pleasure.

Does using Facebook (FB) affect the chances of teens trying alcohol? It took \$147,686 from HHS to see if viewing alcohol-using versus non-alcohol using profiles would increase the chances of youngsters trying adult beverages. You probably knew the answer but they couldn't take your word for it, just your money for an over-

paid college professor to tell us. Why wouldn't FB pay for this?

Government tends to be fixated on sexual pleasure. When there is an abundant supply of money, ideas to spend it just fall from the sky. So, Children's Hospital of Philadelphia received \$418,579 to look into the sexual behavior of obese girls. They wanted to know for sure if fat girls have fewer dating and sexual experiences. Do they take greater risks and don't bother with condoms when they get a chance to run the bases? Why couldn't Weight Watchers pay for this study? Lose weight, get more sex.

If bureaucrats can't find a sex study to fund they will look to spend money in China. First, money went to study Chinese prostitutes and now it's instructing Chinese children how to cross the street. Obviously, the grant recipient knows that crossing Chinese streets is an art form unknown to outsiders. But, Chinese kids are much more adept at getting around on subways, buses and crazy traffic without adults than American youth are. Why would westerners try to lecture Asian kids about anything?

Nonetheless, HHS gave University of Alabama \$183,750 to develop an app to instruct Chinese children how to navigate traffic. The Chinese, like our Mexican neighbors, think Americans are stupid as they get rich off US political lame brains.

In fiscal year 2016 the federal government awarded 560,771 grants totaling \$583 billion. On average, each grant received about \$1 billion. HHS gives out 75% of the money. These funds do not include an amazing bureaucracy of thousands of federal "paper weights" managing this process.

Once upon a time people donated to good causes and schools raised money for worthy research making a wasteful government unnecessary.

## Yuba County Water Agency now Yuba Water Agency

Marysville, Ca.

Yuba County Water Agency announced that it is rebranding as Yuba Water Agency, to provide a simple, easy-to-identify moniker and logo, as the nearly 60-year-old organization seeks to develop a stronger relationship with the people of Yuba County.

The agency was established in 1959 to reduce flood risk and provide a sustainable water supply to the people of Yuba County. In spite of significant investment in the community, the agency is largely unknown by the people it serves.

"For the last 50-plus years, we have flown under the radar, largely unnoticed by the public," said Board Chairman Brent Hastey. "We are in a position to make an even bigger impact in the lives of the people of Yuba County at a much faster pace, and want to do a better job of educating people about who we are and what we do."

The agency surveyed Yuba County residents, and found that many had not heard of it, or were unclear about the agency's roles and responsibilities. Many mistakenly believed the agency was a department within the government of Yuba County.

"Because of that, we wanted to use this time to make sure that our image is one that people can easily connect with and identify out of the sea of government agencies and organizations that they come into contact with on a daily basis," said

Hastey.

The agency owns and manages the Yuba River Development Project, which consists of New Bullards Bar Dam and Reservoir, New Colgate Powerhouse, Narrows II Powerhouse and two small diversion dams, Log Cabin and Our House, which feed into New Bullards Bar Reservoir.

In order to sell the \$185 million in bonds to build the project, Yuba Water Agency entered into a 50-year contract with PG&E to purchase all of the power generated at New Colgate Powerhouse.

PG&E made the loan payment for the bonds, and had all of the respon-

sibility for the costs associated with managing the project.

In 2016, that 50-year contract came to an end. The project had been paid in full. The revenue from power sales is now being reinvested in Yuba County, through the agency's mission areas of flood risk reduction, water supply, fish habitat protection and enhancement, hydroelectric generation, and recreation.

The agency's website address will change to YubaWater.org. The legal name of the agency will remain unchanged as Yuba County Water Agency for contracts and other legal documents.

**NOTICE OF PETITION TO ADMINISTER  
ESTATE OF Walter Richard Teagarden  
Case NO. CVPB18-00084**

To all heirs, beneficiaries, creditors, contingent creditors, and persons who may otherwise be interested in the will or estate or both of (specify all names by which the decedent was known): **Walter Richard Teagarden**

**A Petition for Probate has** been filed by (name of petitioner): Richard D. Teagarden in the Superior Court of California, County of (specify): Yuba

The Petition for Probate requests that (name): Richard D. Teagarden be appointed as personal representative to administer the estate of the decedent.

The petition requests the decedent's will and codicils, if any, be admitted to probate. The will and any codicils are available for examination in the file kept by the court.

The petition requests authority to administer the estate under the independent Administration of Estates Act. (This authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

**A hearing on the petition will be held in this court as follows: July 30, 2018 at 11:00 a.m. in Dept. 4 located at Superior Court of California, County of Yuba, 215 5th Street Ste. 200 Marysville, CA 95901.**

**If you object** to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

**If you are a creditor or a contingent creditor of the decedent,** you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58 (b) of the California Probate code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code.

**Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California Law.**

**You may examine the file kept by the court.** If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for special Notice form is available from the court clerk.

## NOTICE OF TRUSTEE'S SALE

THE TRUSTEE WILL SELL AT PUBLIC AUCTION TO HIGHEST BIDDER FOR CASH, CASHIER'S CHECK DRAWN ON A STATE OR NATIONAL BANK, A CHECK DRAWN BY A STATE OR FEDERAL CREDIT UNION, OR A CHECK DRAWN BY A STATE OR FEDERAL SAVINGS AND LOAN ASSOCIATION, A SAVINGS ASSOCIATION OR SAVINGS BANK SPECIFIED IN SECTION 5102 OF THE FINANCIAL CODE AND AUTHORIZED TO DO BUSINESS IN THIS STATE:

All right, title, and interest conveyed to and now held by the trustee in the hereinafter described property under and pursuant to a Deed of Trust described as:

More fully described in said Deed of Trust.

Street Address or other common designation of real property: **221 8th Street, Marysville, CA 95901**  
 A.P.N.: **010-123-007-000**

The undersigned Trustee disclaims any liability for any incorrectness of the street address or other common designation, if any, shown above.

The sale will be made, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by the Deed of Trust with interest thereon, as provided in said note(s), advances, under the terms of said Deed of Trust, fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligation secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of the Notice of Sale is: **\$ 229,852.71**.

**Note:** Because the Beneficiary reserves the right to bid less than the total debt owed, it is possible that at the time of the sale the opening bid may be less than the total debt.

**If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee, and the successful bidder shall have no further recourse.**

The beneficiary of the Deed of Trust has executed and delivered to the undersigned a written request to commence foreclosure, and the undersigned caused a Notice of Default and Election to Sell to be recorded in the county where the real property is located.

## NOTICE OF TRUSTEE'S SALE

**NOTICE TO POTENTIAL BIDDERS:** If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on this property.

**NOTICE TO PROPERTY OWNER:** The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call **(866)-960-8299** or visit this Internet Web site <http://www.altisource.com/MortgageServices/DefaultManagement/TrusteeServices.aspx> using the file number assigned to this case **2018-00184-CA**. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale.

THIS NOTICE IS SENT FOR THE PURPOSE OF COLLECTING A DEBT. THIS FIRM IS ATTEMPTING TO COLLECT A DEBT ON BEHALF OF THE HOLDER AND OWNER OF THE NOTE. ANY INFORMATION OBTAINED BY OR PROVIDED TO THIS FIRM OR THE CREDITOR WILL BE USED FOR THAT PURPOSE. As required by law, you are hereby notified that a negative credit report reflecting on your credit record may be submitted to a credit report agency if you fail to fulfill the terms of your credit obligations. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. ## Yuba City Walmart Remodel

Yuba City, Ca

Yuba City residents got their first look at the newly remodeled Walmart Supercenter at 1150 Harter Rd. last week as associates and store managers celebrated the grand reopening and completion of the much-anticipated project. To make the celebration even bigger for the community, grants were presented to the Yuba City Police Department, Yuba

Sutter Victims Witness Services, and Meridian Elementary School.

The Yuba City store has gone through an extensive remodel focused on improving convenience and customer service. Customers can now enjoy the following store improvements:

State-of-the-art electronics department with interactive displays that allow customers to try

laptops, tablets, mobile phones and more before purchase

Updated home and apparel departments with a new layout and broader assortment, and new dressing rooms

Enhanced baby department with strollers at floor level and easier access to everyday essentials like diapers and formula

Improved layout and lighting in produce and

bakery

Upgraded pharmacy with private consultation room and additional service lanes

Refreshed Walmart MoneyCenter

A larger assortment of industrial and power tools in hardware

New lights added in the cosmetics area

"After a long wait, I'm excited to finally introduce our newly renovated store to Yuba City residents," said Store Manager Melissa Chase. "With the new remodels, our customers' shopping experience will be much more enjoyable and convenient."

During the ceremony \$3,500 worth of grants were presented to community groups. Yuba Sutter Victims Witness received \$2,000, the Yuba City Police Department was granted \$1,000, and Meridian Elementary received \$500. Last year, Yuba City Walmart Supermarket raised more than \$25,400 for the Children's Miracle Network.

### Job Opportunities

At Walmart, associates have access to competitive wages, affordable benefits, and the chance to build a career. More than 75 percent of store management teams started as hourly associates and 40 percent of those promotions went to associates within the first year of their employment.

## Plumas National Forest – Fire Restrictions

QUINCY, Calif. –

Fire restrictions are effective July 20, 2018, within the Plumas National Forest (public land) according to Barbara Drake, Acting Forest Supervisor.

### Fire Restrictions

1. You may not build, maintain, attend, or use a fire, campfire or stove fire except in the Designated Recreation Sites in Attachment A of the PNF Forest Order #05-11-00-18-07 even with a valid California Campfire Permit.

a. Note: campfires must be built within agency installed & approved fire pits.

However, lanterns and portable stoves (includes propane campfire units) using gas, jellied petroleum or pressurized liquid fuel are allowed as long as the forest visitor has a valid California Campfire Permit available from (<http://www.preventwildfire.ca.org/Campfire-Permit/>) or

from Forest Service offices during normal business hours (M-F; 8-4:30).

2. No smoking, except within an enclosed vehicle, building, Designated Recreation Site (Attachment A), or while stopped in an area at least 3 feet in diameter that is barren or cleared of all flammable material.

3. No welding or operating acetylene or other torch with an open flame.

Some people may be exempt from these restrictions if they have been specifically allowed by the Forest Service via a permit or approved plan of operations or if they are a member of any Federal, State, local officer, or member of an organized rescue or firefighting force in the performance of official duty.

Persons with a Special Use Permit from the Forest Service for a recreation residence on the PNF are

exempt from #1 & 2 above, while they are at their recreation residence.

Information about private land fire restrictions (regulated by the CA Department of Forestry & Fire Protection (CAL FIRE)) may be found at: <http://www.calfire.ca.gov>.

USDA is an equal opportunity provider, employer, and lender.

### Woodcutting

Woodcutting is currently allowed within the Plumas National Forest (public land) if the daily fire indices permit. To determine if woodcutting is permitted on a given day, call (800) 847-7766 prior to cutting wood. A recorded message will notify woodcutters if the next day is hoot-owl (no cutting after 1 pm), open all day (no restrictions), or no woodcutting allowed that day.

tries. And it is unclear which month train-advocates chose gas prices for their computations. Fuel costs spiked above \$4.00 per gallon in 2008 and then tanked to less than \$2.00 by October of that year, so low the hybrid car industry lost money.

There is no proof that the use of fossil fuels to build and maintain trains and infrastructure are less than those for planes, buses and autos. Many of the earth-is-ending Green House Gas “scientists” have been refuted or discredited as science hookers for politicians. Their “carbon dioxide is bad” prophesies are absurd, along with their “we all came from apes” non-science.

The fact is most people spend their commuting time going to work and school, medical appointments, shopping, and to children's and social activities. Bullet trains meet few of these needs.

So, voters for a “Bullet Train” in 2008 placed

(Continued from Page 1)

## Govt Here to Help Us

a really expensive losing bet. Whatever the ticket price will be there are billions more to pay. Consumers pay twice, once for the ticket and again with general fund tax dollars to shore up a bad business proposition.

The stubborn justification for the “Bullet Train” fetish rests today with Governor Jerry Brown who says, “I like trains.” Of course, unions and politically-connected contractors have his back.

Meanwhile, innovative bus lines are rising up like the Uber / Lyft competition was to the cab cartel often offering quicker, more flexible and cheaper service to destinations of the travelers' choice. Two months ago German investor-owned parent company FlixBus started cheap bus routes between Los Angeles, Las Vegas, Phoenix and Tucson.

Now it's adding another 16 connections throughout central and northern California, as

well as Tempe, Ariz. and Reno, Nev. Some of these routes, like Los Angeles to San Francisco, Bakersfield to Fresno and Oakland to Burbank are \$9.99.

FLiXBUS recently announced a fare of \$14.99 for Sacramento to Los Angeles, or to San Francisco for \$4.99 (higher on Thursdays and Fridays.) FLiXBUS vehicles have amenities beyond rowdy colored exteriors aimed at attracting customers. The buses have free Wi-Fi and onboard entertainment, and customers can use an app to book their tickets and track their bus.

Asian-owned bus lines are also providing better service and much cheaper fares in the US. However, if you never ride a privately owned bus it will never cost you a dime. With a government business you pay whether or not you pay.

State-run trains will go bankrupt every year if not for general fund taxpayer bailouts.

## 27th Yuba County Sheriff-Coroner Steven L. Durfor

*will retire early*

Yuba County Sheriff-Coroner Steven L. Durfor is announcing his early retirement for the end of August 2018, four months prior to the end of his final term. Sheriff Durfor's last day as the elected Sheriff-Coroner for Yuba County will be August 31, 2018.

Sheriff Durfor is a lifelong Yuba-Sutter resident that has proudly served as a peace officer for nearly

32 years in Yuba County. First elected as the Yuba County Sheriff-Coroner in June 2006, he assumed command January 2007 and is currently serving his third term.

The Sheriff's desire for a smooth and successful transition for incoming Sheriff-Elect Wendell Anderson, and Durfor's commitment to what is best for the department and the community, have lead him to the difficult decision to retire early.

In the interest of maintaining a congruent leadership direction and avoid the sometimes difficult transition into a new command, Sheriff Durfor will step down and recommend the Yuba County Board of Supervisors appoint Sheriff-Elect Anderson as Sheriff for

the remaining months of his term. Sheriff-Elect Anderson's 4-year term will begin January 2019. Additionally, Sheriff Durfor recognizes his early departure affords an opportunity for budgetary savings and organizational restructuring that will be needed to address deficits and the risks they pose to staffing levels.

Sheriff Durfor stated in a message to staff announcing his early departure “It has been a great honor to serve as your Sheriff and to serve the people of my hometown for close to 32 years. I could not be more proud and will always have great respect for the tremendous work all of you put forth each and every day to keep our county safe

## Yuba City Mayor Preet Didbal

*Will not run for re-election*

Yuba City, Ca. Yuba City Councilmember Preet Didbal announced today that she will not seek re-election to the Yuba City Council in the November General Election. Didbal, who served as Planning Commissioner for the City of Yuba City for a decade prior to being elected to the Yuba City Council, stated that her priorities need to shift to care for the needs of her family.

Didbal's campaign mantra of “Our Children. Our Community. Our Future.” was delivered as promised through the “Summer at City Hall”

program that she championed, as well as the many community health forums she hosted related to youth and adolescents.

“I have always felt that it's important for our young people to be raised in a community that invests in their success,” said Didbal. “I'm confident that the youth programming we've developed is on a positive trajectory and will be here for years to come,” she added.

Under Didbal's leadership, the City's ‘Unfunded Pension Liability’ has been being paid down with an end in sight, beautification projects have been launched city-wide and the Police Department's hiring process has been streamlined.

“When I began my term on the City Council, the Police Department was struggling to

attract applicants,” said Didbal. “I've enjoyed the partnership that Chief Landon and I have forged and together we have improved the hiring process with a plan to secure the necessary equipment to create our own obstacle course for the physical portion of the test,” she continued.

Didbal exits the Council at a point in time when long-awaited infrastructure improvements are underway along the Bridge Street corridor including the expansion of 5th Street Bridge, Economic Development is on an upswing and the City is well-positioned for future success.

But don't expect Didbal to disappear. “I'm looking forward to continuing my work with the Summer at City Hall program and beautification projects across the City,” said Didbal.

## Supports Fletcher Beware the Trojan Horse

Human rot continues to invade and creep into our community, to such a degree that the Yuba County Administrative Office Building now requires visitor screening. Emptying your pockets and body scans, at the front door, won't stop the Trojan Horse from trying to sneak in the back door. Contained in this deceptive "gift" is a threat to our quality of life, it is Fifth District Supervisorial Candidate Alton Wright.

Yes, I am a Randy Fletcher supporter, but if Candidate Mistler had been elected, I would have then supported him. For the overall good, we must compromise and work together. However, with Alton Wright there can be no compromise, he represents a great and long lasting danger.

Candidate Wright claims to have a long history within Yuba County. Actually, he has spent most of his adult life living in the San Francisco Bay Area. He only recently surfaced and brings with him big city life styles. Do we want to look like San Francisco, where only the very rich and social misfits are welcome?

Rather than becoming involved and supporting our productive organizations, he has chosen to attack and tear down positive efforts in our community. Some believe, he is an advanced agent of the marijuana industry; with the mission to take over our water supplies and commercially legalize this

family destroying drug. Upon his emergence, he joined up with Jenny Cavalier. Remember Jenny, she was the North Yuba Water District Director, who impeded any positive results for twenty years. Wisely, the residents in the NYWD voted Jenny out and rejected Alton's bid for an open Director's position on the same Board. Without their negative influence, our water district is now moving forward with improving services. By the way, for those that suspected Alton of giving a phony address (Challenge Cut off Road), so he would become eligible for that open seat, he now gives his address as New York Flat Road. We must ask the question: Where in the world does Alton really live?

Interviews and some of Alton's own emails seem to show that he has a penchant for intentionally intimidating women that get in his way. These women are contained in both the marijuana community and those in the traditional world. One grievous example is his attack on some hard working volunteers in the Brownsville area. Alton's actions draws valuable energy from their important work and we all pay a price. Alton, just what do you find wrong with the Women's Garden Club?

Another Trojan Horse deception appeared on April 26, 2018, when Alton filed his latest Fair Political Practices Commission report listing his campaign donations.

## PATIENCE is a VIRTUE

In December of 2017, My husband and I along with other concerned residents of District 5, attended another of many Yuba County Board of Supervisor's meetings and listened as the Board Chair, Randy Fletcher, proposed a State of Emergency Declaration in a vital attempt to solicit State help to battle the growing number of ILLEGAL marijuana grows. We residents of District 5 had a front row seat to the environmental devastation, corruption and fear-factor that had impacted many of our daily lives. We cared about our neighborhoods and the long-term prospect for our community. The proposal unanimously passed. I left the meeting and wondered if this emergency declaration could bring about any real change?

Over the past 7 months, I've questioned

Supervisor Fletcher regarding what impact that Board decision was having towards addressing what was an escalating problem. He assured me that he was involved in numerous ongoing meetings with a number of agencies. This "process", as he referred to it, required dedication, hard work and patience. Our retiring Sheriff, Steve Durfor and our newly elected Sheriff, Wendall Anderson also indicated that actions were forthcoming, but the task was monumental, legal protocols needed be followed & the element of surprise was paramount.

If you too had doubts about the effectiveness of citizens who desired change and believed it was possible by actively communicating with their local government representatives, then the front page article in the July 18th edition of

He showed \$3,610, almost one third of his total contributions, as from "Anonymous Small Cash Donors". Whoa, this was clearly a violation, and must be either gross incompetence or some type of cover-up. Someone must have called him on it, because on May 11, 2018 he filed a correction on what he called "\$ put into a basket at fund raiser". This just made matters worse, can you imagine someone placing \$830.00 cash into a basket. Now, finally complying with the law, he listed the names and addresses of these donors. This new information only caused even more serious questions. One of the major contributions was by a male companion living at Alton's home address. Are we to expect that this contribution was unknown (Anonymous) to Alton? Are they trying to hide something? Upon checking another donor's address on Google Maps, a 50 plant Yuba County illegal marijuana grow was shown. So where did the money for this large contribution originate? Is Alton Wright accepting money laundered through the illegal sales of marijuana?

This letter only reveals a small portion of the deception contained in this Trojan Horse. More revelations are yet to come.

the Territorial Dispatch, titled Yuba County Raid must have sparked new hope. For more background information, you may want to read Assemblyman James Gallagher's posting on his Facebook page, Friday July 13th. I encourage you to be pro-active beyond just voting. Go to a town hall meeting or a community forum for vital public information. Know your local deputies and your newly elected Sheriff. Attend a Board of Supervisors meeting if you have an issue that concerns you. Be involved in any way you are able, no matter how small it may seem at the time. Understand that a difficult problem will require complex solutions and demand more time for the process. Become a part of the PROCESS & HAVE PATIENCE.

## What Can You Believe

As I read my SUNDAY Appeal Democrat I was reading the story of Pres Trump meeting with Putin. It stated that Trump was going into the meeting unpaired with no plan like a idiot, Then it dawned that's all I read in the AD was bad things he was accused of or were lies or fake news If I didn't watch fox news I

would never hear of the good things he has done like the tax cut etc, I am 77 years old and when I was 10 or 11 I had a paper route with the Chico Enterprise Record. This was before TV. No talking heads 24/7 This was a good and truthful paper They worked hard to be truthful and to be none political or biased

this was before the far left Schools and the reporters who have no shame or honor. If they did they would not show their faces in public I use to admire most of them. Now it's to respect a few of them.. To be fair I also sent a copy to the TD -AD AND THE Sac bee.

# THINK About It!

By Charlie McNiff

Picture, if you will... you are a woman in your mid-40's at the pinnacle of your career in government service. You and your boyfriend are having a night on the town by going to the movies...and as you are buying popcorn a small group of thugs accost the two of you verbally with foul language and really getting in your face. This burly dude that towers over you literally is within an inch or two of your nose...so close that some of his spittle spatters on your face. Your boyfriend is being belittled for not coming to your rescue. Both of you realize what is happening and refuse to "take the bait."

They are baiting you because you are the Florida Attorney General and the Regressives (an anarchist offshoot of the Democrat Progressive Party) are targeting anyone connected with the hierarchy of the Republican Party, especially those close to President Donald Trump.

Another instance of the same breed of thuggery in the same manner was the shouting down a couple in a public Mexican restaurant...was Kirstjen Nielsen, Secretary of Homeland Security. As well as Sarah Huckabee Sanders and her family being told to leave the Little Red Hen restaurant before they were able to make their dinner order because she was the White House Press Secretary and she worked for President Donald Trump.

Whatever happened to the world of...Please... Thank You... Excuse Me...You're Welcome... Pardon Me...etc...??? I use some of those words every day because it is second nature. I do it because I respect other peo-

ple and get the same in return...most of the time. It seems a lot of people have forgotten how to "agree to disagree."

I believe some of that was thrown out the window during the Ferguson, Missouri riots that turned into a two or three day and night rampage that resulted in stores being looted and set on fire...while the police were ordered to stand back and basically watch as havoc ensued.

The same thing happened a few weeks later in Baltimore, Maryland, when the looting and fire-bombing of stores took place. These people were given a license to loot, pilage and burn (that's what Regressive Anarchists are paid to do.)

OOPS, almost forgot about the ruckus by a bad bunch of ANTIFA thugs at the University of California at Berkeley with barriers being tromped down and chairs used to bust windows in and other random vandalism...while the University Police... (?) stood silently on the sidelines... more on the ANTIFA (Anti-Fascist) bunch in a later article. And don't forget that armed services veteran in a wheelchair being pushed violently over by another ANTIFA bully in a separate incident. How about those groups holding up traffic in large cities calling for dead cops! It's an almost complete breakdown in law and order...nightmarish.

Apparently Slapsie Maxey (Mad Max-ine) Waters, congresswoman from one of the L.A. 'burbs has signed up to be a spokeswoman for the Regressive ANTIFA faction for the "in-your-face" tactic of resistance that could (and probably did) prompt

the thugs that verbally accosted Florida Attorney General Pam Bondi and her boyfriend. And they probably were PAID thugs!

Golly Gee, I seem to be getting forgetful in my slightly mature age. The name of the Chancellor of the University of California might have passed you like an autumn leaf whisking in the wind. It's Janet Napolitano. She was the secretary of Homeland Security under the Obama administration and before that she was the Governor of Arizona. So much for law and order in our university system. Far Left Liberalism in our colleges and universities is another article down the road.

Whenever you see a group of people being led in chanting by a person with a megaphone, chances are extremely high that they are paid protestors to whip up a crowd into a frenzy.

The first time most of us knew these rabble-rousers were being paid is after the Ferguson, Missouri riots when those same protestors were protesting in front of the place that was paying them. That was the office of MoveOn.org being funded by Billionaire \$\$\$ George Soros. As mentioned in an earlier article, George is a real sweetheart. If only he could put his Billions \$\$\$ into constructive endeavors instead of destructive rampages.

Anarchy, sadly, is one of his favorite games... but, this too, will pass... as long as we are vigilant and get our law and order house in order. The Open Borders crowd must be stopped... and stopping illegal immigration must be the Order of the Day.

## Support Yuba County Public Safety

I would like to thank the following Yuba County officials for taking their time to come to The Ponderosa Community Center, in Brownsville, CA, Tues., July 17th, to discuss Yuba County Public Safety; Russ Brown, County Public Information Officer, Robert Bendorf, County Administrator, Rich Webb, Linda Fire Chief, Jim Arnold, Probation Chief, Pat McGrath, Retiring District Attorney, Steve Durfor, Retiring Sheriff, Wendell Anderson, Newly Elected Sheriff, and Rich Eberly, County Auditor. These fine men gave an in depth, heart wrenching overview on the dire financial burdens that the state of CA has placed on Public Safety in Rural Counties. They spoke about how difficult

it has been over the last ten years for the County to meet the ever increasing needs of Public Safety. The time has come, when local funding for Yuba County public safety must be prioritized.

A resolution is currently being drafted that will allow Yuba County citizens to vote on a partial solution to this problem, which includes a 1 cent sales tax. We must protect ourselves! For too long we have seen an increase in runaway state legislative mandates that divert our state tax dollars into social programs, that are nothing more than pipe dreams; while ignoring essential services, such as roads, fire, and law enforcement.

So here we are today, examining our situ-

ation. We can not allow Sacramento to dictate our ability to remain safe, it's time to regain local control and determine our own destiny. Local government cares about local citizens, remember that when you vote yes on a 1 cent local sales tax

Colene Weckman,  
Brownsville, Ca.

*Editors note: My concern with support for the tax increase is there is no guarantee that the tax money will go to law enforcement and fire. Yuba County has a bad track record at putting the taxes where they say they will. Only guarantee is to do a special tax 2/3rd vote.*

## OPINIONS Cont.

### Will Fletcher Continue to Hide?

I'm disappointed to hear that Supervisor Fletcher is rejecting my offer of six, fair debates located throughout District 5.

In his rejection, written by his campaign manager, there were several curious statements. One jumped out at me and I wonder if you honestly stand behind this statement: "The 5th District community does an amazing job of hosting multiple candidate forums"?

Let's take a factual step back to just a few, short months ago:

There were five debates for D5 Supervisors during the primary season. Two were in Sutter County, neither was hosted by the "5th District community." One was in Marysville hosted by the Appeal-Democrat and two were in the District 5 Foothills. Of the two debates in the Foothills, one was not hosted by a 5th District organization. The other one was, but..

The second Foothill debate occurred only because a few citizens put pressure on the organization's board who are predominately Fletcher supporters. The board initially told the citizens, "a debate is a waste of time...voter's minds are already made up." After further pressure, the

board conceded to host a debate. Unfortunately, the organization scheduled the debate well after the mail-in ballots were sent out rendering it less effective had it been held earlier.

The debate rules allowed all three candidates to review the questions submitted by the audience that evening. If one candidate rejected a question it wouldn't be asked during the debate.

The night of the debate, Candidate Mistler and I agreed to answer all questions and we told Randy this. After Candidate Mistler walked away, Fletcher quickly grabbed the pile of cards and began tossing towards me the questions that he was comfortable answering. He (Fletcher) wouldn't share the pile even after I asked. He would occasionally put his rejected questions into a "red bucket." When I attempted to reach into the bucket to review what was rejected, he vehemently forbid me from doing so. I protested, a bit loudly saying, "What are you talking about. I'm a candidate and I have a right to review all of the questions just as much as you do." He ignored my protest. I asked a debate coordinator to intervene and

we were told, "you guys need to work this out." Fletcher ignored this direction and continued to privately review the questions. Immediately after he finished reviewing the pile of questions, he marched the "red bucket" with his rejected questions over to a Deputy in the back of the room, presumably asking him to guard it and ignoring my requests to stop.

By my accounting only one 5th District organization hosted a debate with a process that allowed the incumbent to reject tough questions. Furthermore, he didn't attend two of the debates - one of the Sutter County events and the other one in the Foothills. Candidate Mistler and I attended all five debates.

In light of this, please tell me again about the "amazing job" the 5th District community does of "hosting multiple candidate forums." Also, are you absolutely sure that you don't want to change your mind and take me up on my offer of six, fair debates? I'm awaiting your response. So are Yuba County voters.

### No Comment

When did judges become kings? Here, in our local community, a Superior court judge, Brian H. Aronson, has quashed our yearly Grand Jury report. When asked why, his only response has been 'no comment.' This is unacceptable and cannot stand!

Our 2017-2018 Grand Jury was composed of 18 citizens who gave up a year of their personal lives to work diligently and without fear to inspect and uncover failings and corruption in Sutter County. Their initial report, of about 167 pages, was sent back to them by judge Aronson to be re-written. The jurors pared it down to around 133 page and it was again, sent back to the jurors two more times for more rewriting.

At that point all 18 jurors, in protest and anger, resigned rather than to sign something to which they did not accede. It was also then that the jurors were forced into what some call a 'shred party' where all their notes and documents were shredded.

It is alleged that all jurors received word from Sutter County Counsel, Jean Jordan, that they would not be protected should this report be released. A previous time the County failed to protect its appointed or elected servants was in the case of Robert Stark former Auditor/Controller, where false charges were brought out against him by the former corrupt DA but

at that time, our spineless Board of Supervisors agreed not to pay for his defense, frankly because they didn't like what he exposed.

Our citizens of the Grand Jury now live in fear of repercussion from their own local government. At least one of the Board of Supervisors is speaking out against the Grand Jurors, knowing that they can't respond. This too is unacceptable. As one of our Founders, John Adams, second president of these United States stated, "Our Constitution was made only for a moral and religious People. It is wholly inadequate to the government of any other." Has our local government become 'inadequate' and require some draining of its own swamp?

I can see only two reasons for not releasing this report. Most favorably would be that judge Aronson is protecting the jurors from being civilly sued by one of the main characters in dozens of redacted pages, the current Sutter County District Attorney Amanda Hopper. I believe that action would be the undoing of her political career and threats would not result in actions. If this is the case then judge Aronson should state so publicly and have sent the report on to our State Attorney General, Xavier Becerra.

The second reason is a cover-up. My earliest recollection of the statement that 'the cover-up is worse than the crime'

was of the Watergate burglary under president Richard Nixon. That statement proved out to be true and led to Nixon's resignation after threats of impeachment.

If this is indeed a cover-up and if we as a community let it stand, it only opens the door to further corruption in our County. In this instance it would be corruption of the highest law enforcement entities of our County and would only encourage those of lesser character to be corrupt in their own areas of influence, not that some corruption in those other areas already exists.

If this is a cover-up then I and a large group of righteous minded local citizens, encourage those 18 Grand Jurors to stand as one, to come out publicly and relate their experience to those they served, to expose any corruption in our County and know that you will be protected. You have a large community of individuals behind you, cheering you on to do what you thought was right when you applied for Grand Jury duty. If right and truth is on your side, then what can be against you.

### Are You Ready for Increased Levee Assessments?

by Pat Miller, President, Sutter County Taxpayers Association

Levee Districts 1 and 9 in Sutter County are getting ready to expand their assessment areas and increase assessment fees. A meeting on Monday, August 6 at 8 a.m. is scheduled to advance a proposal for a new "Special Benefit Assessment District." The location of the meeting is the Board of Supervisors chambers on Second Street in Yuba City.

Information concerning this planned meeting was disclosed by the Levee District 1 manager at a Levee District 9 meeting on Thursday, July 12. LD 1 said it would be an 'emergency' meeting and, therefore, would only require 24 hours' notice instead of the 72 hours required to notice a public meeting. Their notices of these meetings are not normally sent to the Appeal Democrat or the Territorial Dispatch to inform taxpaying citizens of the meetings.

The two levee districts are claiming they will need additional funds to operate and maintain our recently rehabilitated West Feather River levees to comply with state requirements for Operation, Maintenance, Repair, Rehabilitation and Replacement (OMRR&R) of local maintenance districts. However, state levee maintenance districts are not requesting more funding for their sections of the levee. Furthermore, all levees along the Feather River are the responsibility of the State of California as noted in the court case regarding the 1986 flood

and lack of state maintenance of the levees.

The Sutter County Taxpayers Association (SCTA) is opposed to increasing assessments for OMRR&R as property owners will still be paying for the recently completed levee rehabilitations for the next 25 years. Our assessment taxes have already been in place for eight years. And, yes, SCTA is glad the levees have been and continue to be fixed. However, SCTA is recommending that the state take over maintenance of the sections of the West Feather River levee now maintained by Levee Districts 1 and 9. We believe that it will be less expensive and that it will also remove any potential liability from local property owners should a catastrophic incident happen for which one of the levee districts is found responsible.

A further concern is the fact that the Sutter Butte Flood Control Agency is funding the effort to expand the two districts and hold a special Prop. 218 election for this Special Benefit Assessment District. When we voted for the assessment to fix our levees in 2010, it was repeatedly stated that the money raised could only be spent on levee repair/rehabilitation and SBFCA administrative costs. SBFCA will be paying an estimated \$228,000 of assessment money (which comes from both Butte and Sutter counties) for financial and technical support to get this new assessment

district up and running which is in violation of the restriction we placed on use of our assessment money that we voted for in 2010. The money SBFCA is fronting will only be repaid if the voters approve the new assessment district and increased assessment.

Additionally, in return for SCTA's support of the 2010 assessment, SCTA was promised an advisory committee to oversee SBFCA operations and to act as an interface with the public. Well, you know what happened there, the Citizens Assessment District Advisory Committee (CADAC) was disbanded by SBFCA in September 2017 after SBFCA board members removed the newly elected chair and then loaded CADAC with members who were negative to SCTA and loyal to or employees of SBFCA board members and could be manipulated by them, destroying the concept of 'citizen oversight' and eliminating the single impediment to the 'mission-creep' and 'cost-creep' that appear to be increasingly evident.

Sutter taxpayers have willingly paid their share. It is time for the state to take over the maintenance of this principal waterway, just as they do elsewhere. We urge you to come to the August 6 meeting and oppose the Special Benefit Assessment District and increased assessments.

### The Dog & Pony Drama Show Continues Let The Sheeple Be Fooled & Fools

by RW Gless

First, I want to apologize for the Type-Os, Twice, in my last Rant... should have been "Loose Cannons". Sometimes, more than I like, I unwittingly make some spelling errors that spell-checker doesn't seem to catch... Might find some in this one too... I know most of you will read through them.

I wonder how many of you folks can honestly believe the BS going on with the Government? The blatant bias shown by the DOJ and FBI against President Trump has now gone to the absurd times 10. Mr. Rod Rosenstein, and his Leftist Democrat buddies, honestly believe you Sheeple are so stupid that you'll believe his indictments against 12 Russians, which will never come to ANYTHING, are not coincidental. LOL Oh Yea, since the President is Meeting with Putin a few days after Rosenstein brings this out, we all believe this is merely a coincidence, don't we? Even the controlled FOX talking heads are kissing, or Licking up to this bogus crap like it is cherry ice cream. For those Sheeple out there that believe this contrived propaganda, I have some Great Beach Front Property in the Si-

erra Nevada Mountains I really will give you a great deal on! The DOJ is betting on you Fool Sheeple, believing whatever they tell you! They even came up with some heady computer jargon explaining how the Russians attempted to hack into computers and sway the 2016 election... Bologna! Then, in almost the same paragraph, they say these supposed Russians and their actions, who we'll never ever see, didn't make any impact on the 2016 Election. What...??? All this is to try and change direction away from the DOJ and FBI and all the Communist Socialist Democrats and Globalist RINOs, who have conspired to overthrow the President and destroy America!

No sane person can honestly believe that the timing of these 12

Irrelevant Straw-man indictments were just coincidental. This is just more subterfuge to stop the President from meeting with the Russian President and keeping the Evil Enemy Scenario alive and continuing. The Chinese have committed far greater threats to America than the Russians, and probably to the Russian's chagrin. I pray everyday that the Sheeple will wake up and not like what they see... Only then can they become People once again, and just maybe we can return America to the Great Republic it was meant to be. Otherwise we are doomed to Reality TV that we all will be unwitting stars in, and the total dumbing down of America will be finalized... as we're glued to the boob-tube in complacent sloth!

### Read the Book

Until the United States stops acting like Sodom and Gomorrah it will have more and more problems.

People have never read the book about Bernadette or anything about Fatima. People in the United States are either stupid or just don't care.

Read the book written by St. Faustina in the late 1920's. All are prophesies of what is happening or going to happen in the world.

# Court Removes Initiative from Ballot

by John Mistler

“potential harm” of allowing a public vote before those questions are resolved outweighs the potential harm in delaying the proposition to a future election.”

Frankly this writer is glad to see the initiative (Prop 9) pulled, it was not good for Northern California. Note however; the process was followed and the courts made the decision not politicians; unlike the way the Yuba County Water Agency Directors illegally killed an initiative and stopped the people’s right to vote.

The billionaire Bay Area venture capitalist Tim Draper, who drafted Prop. 9 said, “The whole point of the (state’s) initiative process, was to be set up as a protection from a government that was no longer representing its people. This kind of corruption is what happens in Third World countries.”

Tim Draper could very easily be talking about Third World corruption by the (YCWAD). The YCWAD illegally stopped the vot-

ers right to vote on an initiative by refusing to do “Title and Summary” which had previously been ok’d by the Yuba County Clerk/Recorder. Directors Greigo, Belza, Nicoletti and Abe lost their re-elections bid two years ago. Directors/Supervisors Randy Fletcher and Andy Vasquez, who are no longer representing their constituents, are up for re-election this year. The third original director left, Brent Hastey, is running unopposed for re-election. Never should voters reward elected representatives for illegal and bad behavior. If we don’t stop this corruption now (election day November 6, 2018) behavior of our local government will be no better than the state legislators.

*Note: The Yuba County Water Agency is made up of (7) directors (5) are also Yuba County Supervisors. Randy Fletcher and Andy Vasquez are two Supervisors up for re-election November 6, 2018.*

ring. Apparently the left is in favor of sex trafficking. Don’t you all feel good in Oakland?

• Stockton is still floating the socialist idea of paying residents \$500 a month for doing nothing. Where will the money come from? And what will the city council do when the money runs out?

• The SCOTUS pick is being excoriated by the left on the basis of the abortion issue. Is that what the country has fallen to? Abortion is the be all and end all of the left? If so, then they have fallen off the rails into a deep dark abyss.

• Jose Gomez is Archbishop of LA. He is very concerned about taking care of “refugees” flowing into our country through the southern border. Very noble, but perhaps the good cleric could better spend his time helping the homeless citizens overflowing the sidewalks of LA right in front of his parish.

• Richard Branson is a very rich man and often smiling in his own commercials. He recently told us that “the US ought to hand out free cash to solve income inequality.” Well, Dickie-boy, how about you lead the parade with your billions.

• The environmental fish-lovers are still demanding that the San Joaquin River be filled with water so the salmon have someplace to spawn. How about spending all that excess do-gooder energy in making sure that dams don’t burst and wipe out thousands of your fellow human beings.

• Then again, these are the same folks who are shouting from the rooftops that America is a horrible place. Yet the whole world is breaking their necks trying to get here to live, work and raise a family. Total disconnect.

• California utilities are required by mandates enacted by ignorant loons to remove from their plants coal, natural gas and other carbon-emitting sources and replace with “re-newables”. CAL-matters has reported a drop in emissions last year, but not from cap-and-trade or any other government-sponsored reason. Rather, unusually heavy winter rain and snow storms allowed utilities to depend more on hydroelectric power from dams in California and other states. But guess what folks? The hydroelectric dams, providing non-carbon-emitting energy on the Klamath River are slated to be torn down soon. Good policy. Tear down clean hydroelectric production. Lying hypocrites

• Claiming “asylum” is a common scam used by illegal invaders, using documents provided by the Mexican government, the ACLU, drug cartels, human and sex traffickers. Each of these enablers tell their prey to claim “political asylum.” And since you don’t have to prove your claim, you might get to stay. Clever, huh?

• Consider that the ACLU is the American Civil Liberties Union – not the criminal’s civil liberties of the illegal invaders civil liberties. And you support the ACLU?

• Gee, if these two were arrested in California, under Moonbeam and the state legislature, they would plead mental illness and walk. Lenin Mancias-Callejas and Bryan Mancias-Callejas, both 16, were arrested for first degree murder in the killing of Herson Mejia-Alvarez, Prince George’s Maryland County police said. Both are MS-13 gang illegal invaders from El Salvador who entered the United States as Unaccompanied Alien Children and are illegally present.

• How many stories like this have gone unreported in California’s mainstream media? Roberto Garza Palacios caused a car crash last year that killed Sander Cohen, the Maryland State Fire Marshal’s Office deputy chief, and FBI agent Carlos Wolff. Palacios was arrested in 2015 for DUI; he was arrested for arson and for breaking the windows out of 16 cars the same year. He was convicted but even though ICE placed a detainer on him, the county let him loose.

• At the San Francisco International Airport, the mercury hit 104, a record for the month of September 2017 but short of the all-time high of 106 set June 14, 1961. In the City of San Francisco it was 101 on June 14, 1961. Not much change to support catastrophic global warming scenarios.

• The Annie E. Casey Foundation “is devoted to developing a brighter future for millions of children at risk of poor educational, economic, social and health outcomes.” So says their website. The foundation opined in a LA Times article that the census misses counting 1 million children which, according to the Foundation president, “their needs are invisible and their futures uncertain.” Doubtful. Poverty has increased dramatically in the US during the past decade or so and this foundation has had 60 years to do something about it. Well?

## Open Letter to:

Levee District 1 Board Members, Levee District 9 Board Members, Sutter Butte Flood Control Agency Board Members

Dear Board Members:

It has come to SCTA’s attention that there will be a joint meeting of Levee District 1 and Levee District 9 on Monday, August 6, at the Sutter County Board of Supervisors Chambers starting at 8 a.m. We have questions and concerns.

• It was stated at the July 12 Levee District 9 meeting that this would be an “emergency meeting” which would not require the normal 72-hour notice for a public meeting. Since the meeting was in the works on July 12 and it is more than two weeks away from today, we believe the meeting should be properly advertised as a public meeting.

• We are concerned that the meeting will begin at 8 a.m. on a week-day morning which will preclude many from attending.

• It was stated at the July meeting that the subject of the meeting was the establishment of a Special Benefit Assessment District to expand the assessment areas of LD 1 and LD 9 and hold a 218 election to increase our property assessments. Please email us the agenda for that meeting so we know what issues will be presented and voted on. The establishment of a new “Special Benefit Assessment District,” is an issue that should be widely publicized so citizens have an opportunity to hear what is planned and how it will affect them.

• SCTA was promised, in SBFA’s March 27 letter signed by Board Chairman Steve Lambert that we would be provided an opportunity to review the levee districts’ OMRR&Rs before they are put in place. To date we have received no information regarding the OMRR&Rs being considered for adoption.

# Food and Farm News

## Stream-flow plan draws opposition

Farm groups, water agencies and other organizations say they will oppose a state board’s plan for stream flows in the San Joaquin River watershed. The State Water Resources Control Board proposes significant cuts in water diversions from three rivers, on behalf of native fish. California Farm Bureau President Jamie Johanson says the plan would impose a high cost on rural communities but provide the fish with little or no benefit.

## Recycled water helps farms supplement supplies

To help secure a more certain water supply, a group of farmers in the western San Joaquin Valley has partnered with nearby cities to purchase tertiary-treated, recycled water. The Del Puerto Water District of Patterson has seen its federal water supplies reduced, so agreed with

the cities of Modesto and Turlock to create a regional recycled-water program. The recycled water provides farmers with a reliable supply to complement their variable supplies from the federal project.

## Drones help farmers care for crops

Having an eye in the sky, in the form of a drone, helps farmers check crops for pests, weeds or water stress. University researchers and individual farmers say they’re continuing to refine the role unmanned aerial vehicles can play on the farm. They say they’re using drones to collect images of fields and orchards, but also to collect data from ground sensors to help farmers monitor crop conditions.

## Machine proves accurate in thinning lettuce

Thinning lettuce fields to produce a high-quality crop has traditionally involved crews of 15 to 25

people, but automated thinners operated by one person appear to be catching on in California fields. A report in a University of California publication said the machines proved as accurate in thinning the crop and produced comparable crop yields. Farmers see such automated processes as one way to overcome chronic employee shortages.

Promoting non-profits helps those organizations not only raise funds but bring in clientele that may need assistance but not know where it is available. Indeed many of the non-profits we profile were entities that I didn't know existed and I'm pretty well entrenched in the community. The non-profits are also where I happen to meet the most caring individuals who may take meager salaries or even volunteer positions just to assist those in need. What better way to make my day brighter than to be exposed to such people and the programs they help manage.

Nothing moves a person more to help then to illustrate the plight of many and do so in a way where it makes it as real as the media allows.

The various forms I have at my disposal, be it radio, print, personal presentation or video each have their advantages and I am challenged to decide which might best paint the picture I envision for the most effectiveness.

Indeed, there are many benefits which are presented that help someone somewhere and that is the power and reason for media. To disseminate that which may not have been, illustrate that which may need illustrating and bring empathy, sympathy if I dare say and motivation to those that need and those that can help those needs. The greatest gift to me however was one I didn't expect when I started this whole thing many years ago; I am able to make a difference and that is the greatest gift of all.

# THE Brownsville Bailiwick & Beyond

Don't forget to get to the Farmer's Market before noon on Saturdays and pick up produce for the week. It will be fall before you know it and the chance will be gone. Fresh picked fruits and vegetables are hard to beat. Is your garden producing enough to sell some items? Kim and Gary Hawthorn have done a great job keeping this market going for several years, so please stop by.

The quarterly membership meeting of Yuba

Feather Historical Association will be held at the museum in Forbestown on Wednesday evening, July 25. It is a potluck barbeque, gathering at 6:00 and eating about 6:30 in the village behind the museum. Bring a side dish or dessert and enjoy eating with friends and neighbors. The program features tools with a story: Tools and Tales.

The last ice cream social in July will be held at the Yuba Feather Museum in Forbestown on Saturday, July 8, hope to see you there.

The monthly flea market in Brownsville has been quite successful thus far. The next one will be held on Saturday, August 4th. Stop by and check out the treasures

or bring your own treasures to sell. Space is free.

Forbestown Daze is Saturday, August 4th from 9am - 4pm. The parade starts at noon. Bring the family and visit the replica gold rush town of Gold Trader Flat as well as the museum. There will be food, beverages, crafters, vendors and so much more waiting for you. Admission is free.

Look Back in Time - In 1949 the State Assembly voted to allow the sale of colored margarine instead of plain white (I remember squeezing the small yellow bead and mixing the margarine).

Hope to see you in Brownsville soon.

**Hotel Transylvania 3: Summer Vacation**  
Featuring the Voices of: Adam Sandler, Andy Samberg, and Selena Gomez. Rated: PG, Runtime: 97 minutes.

The daughter of a stressed out and successful hotel owner takes her dad on a cruise to help him relax and reconnect with the family. Little do they know that it is a trap centuries in the making. Will this be the scheme that finally undoes Dracula? You have to watch to find out, or make an educated guess on Draculas success based on his standing in the cast of characters and the previous earnings of past movies.

Hotel Transylvania 3: Summer Vacation, earns two out of five, Gremlin Monkeys. This movie was written and produced to make a mortgage payment. This

film is little more than a string of amusing bits mashed together to form a plot that is predictable and uninspiring. It is almost as if it were made for children, with all of the flashy colors and slapstick bits. The children should enjoy it and the parents will glean a chuckle or two out of it as well.

## Pet of the Week

Meet Hoss, (A173277), a male, one and a half year old, Rottweiler. This boy is big and very handsome. He has been friendly with strangers, and seems to tolerate cats, and other dogs. Come take a look at this boy; he will make a great addition to the right family.

You can also go to [www.petharbor.com](http://www.petharbor.com) or [www.petfinder.com](http://www.petfinder.com) to see all of our adoptable animals and look for your lost family pets, or check out our Facebook page, Yuba County Animal Care Services@yubacountyACS. We also have an Amazon wish list if you would like to help support the shelter. The link to our wish list is; [Amazon.com http://a.co/7qGE7rO](http://a.co/7qGE7rO).

Check out maddiesfund.org to learn how to foster kittens. Fostering can be a very rewarding experience.

**TOPICS OF INTEREST**

Kitten season is upon us! If you find very young kittens (feral) without their mother, leave them alone; their mother may be taking a break. If the mother does not come back, consider fostering them rather than flooding the shelter with kittens, since the shelter cannot handle them.

**STARS Volunteers:** Volunteers are needed for the animal shelter. If you have time on your hands and would like to help out, become a STARS volunteer. Contact Deneen Barnhill at the shelter to find out how.

**Donations:** The STARS help support the ACS Shelter. Donations are used to help offset spay and neutering costs, feed costs, and other costs associated with the care of the animals. If you would like to donate, you may send donations/checks to YCACs STARS at the Animal care address: 5245 Feather River Blvd. Olivehurst, CA 95961. You can also donate via our Facebook page. Thank you in advance for any help you can provide.

**UPCOMING EVENTS**

**Petco Adoption Event: Saturday, August 4, 2018.**

**Veterans Stand Down, August 23rd and August 24th.**

Yuba County Animal Care Services is located at 5245 Feather River Blvd., Olivehurst. The phone number is 530-741-6478. Kennels are open Monday – Friday 10am – 3:30 pm and Saturdays 10 am – 2 pm.

## “The Theater Gallery” Sutter Performing Arts Association’s

The Theater Art Gallery in Yuba City opens on August 1st with guest artist STEPHEN DeWITT. His abstract paintings and portraits will be on sale and on exhibit alongside works by the gallery's six resident artists throughout August. On Thursday, August 2, from 5 - 7 pm is the hosted Artist Reception, a chance to meet the artists and enjoy refreshments while viewing the exhibit. Admission to the gallery is always free, with a new art exhibit on display each month. Located at 756 Plumas Street adjacent to the Sutter Theater, gallery hours are Wed - Sat from 12 - 5 pm.

Artist STEPHEN DeWITT came to the Yuba-Sutter area two years

ago and enjoys the natural beauty found here. He holds an art degree from Humboldt State University and has lived in the Northwest for many years. His works have been on exhibit in Eureka, Arcata, San Francisco, Tacoma, and recently here at Justin's Kitchen on Plumas Street in Yuba City. Originally inspired by his seventh grade art teacher, he has been painting for thirty years. Using acrylics and oils, as well as charcoal and pastels, Stephen evokes emotions with colors in his paintings and drawings. He describes his art as "neo abstract expressionism" and endeavors to show the "landscapes of the inner mind." There is a definite "wow factor" to

his vivid, colorful artwork, so don't miss this exhilarating gallery show!

The Theater Gallery is open every week, Wednesday through Saturday, from noon to 5:00 p.m. Come in and enter the drawing to win a jewelry piece each month. An Artist Reception is held from 5:00 to 7:00 pm usually on the first Thursday of every month, complete with complimentary refreshments. Proceeds from The Theater Gallery benefit the Sutter Performing Arts Association's effort to renovate the Sutter Theater, turning it into a viable community center. For more information, please visit our website at: [www.suttertheater.org](http://www.suttertheater.org) or follow The Theater Gallery on Facebook.
