Woman of the Year at State Capitol

Chico Police Officer Sophia Maggiora

Sacramento, Ca.

Assembly Member James Gallagher (R-Yuba City) honored Sophia Maggiora, a Police Officer with the Chico Police Department as the 2016 Woman of the Year for the Third Assembly District. Ms. Maggiora was honored during a special Assembly ceremony at the State Capitol for her dedication to protecting her community in the Third Assembly District.

Born in the East Bay, Sophia Maggiora attended Pleasant Valley High School. While at Pleasant Valley, she became a Police Explorer with the Chico Police Department. She continued as an explorer from age 16 until the age of 20. During this time, she went on many ride-a-longs and received a considerable amount of police training. It was during the time as an explorer that she solidified her desire to become a police officer. Sophia quickly rose through

the ranks of the Chico Police Department and by October of 2015, she received her first CHP-180 Award for recovering stolen vehicles. In November of 2015, she became an Arrest and Control Tactics instructor and in January 2016, she was appointed as a Crime Scene Investigator. Sophia recently submitted statistics for her second and third CHP-180 Awards. In addition to her work as a police officer, Sophia also volunteers as a law enforcement liaison connecting victims of domestic violence with valuable services offered through Catalyst Domestic Violence Services in Butte County. Her future career goals include becoming a body crimes detective and promoting within the department.

Gallagher stated, "I am proud to honor Officer Sophia Maggiora as the 2017 Woman of the Year for the Third As-

sembly District. Sophia has quickly established herself as a valuable member of the Chico Police Department and does an outstanding job protecting the residents of my district"

Held annually, the Woman of the Year ceremony celebrates California's extraordinary women. The first ceremony was held in 1987 to help commemorate Women's History Month. The event has become an annual Capitol tradition to salute women who have performed outstanding community service. Gallagher honored Sophia at a special ceremony held in the Assembly Chambers during Monday's legislative session.

Sophia expressed her dedication to police work, "I feel honored to wear the badge and serve my community. I discovered law enforcement is my passion and now I am able to turn that passion into action."

Yuba Co. BOS Amend Ordinance

Cut Number of Board Meetings

by John Mistler

Marysville, Ca.

The February 28th agenda of the Yuba County Board of Supervisors (BOS) presented an ordinance to cut the public meetings from four times a month to two times a month. This was the first reading of the ordinance with the second reading coming on March 7, 2017.

Pursuant to a consensus of the Board, the County Counsel was directed at the February 7th meeting to draft an ordinance amending the regular meetings of the BOS to twice a month, on the second and fourth Tuesday at 9:00 a.m.

Chairman Randy Fletcher indicated that since the Yuba County Water Agency (YCWA) was operating on its own and no longer dependent on P G &

E, the work load had increased creating an issue with overlap meetings. (The five members of the BOS also serve on the YCWA.) Fletcher said, "This will create a more efficient use of time.

County Clerk Recorder and Registrar of Voters, Terry Hansen, told the BOS that she was concerned that she had not been contacted for input and this decision would have impacts on her department. County Administrator Bendorf assured her that they would make corrections as issues arise.

The March 7th meeting was attended by approximately 20 people including county staff. Chairman Randy Fletcher was absent.

Three people spoke against

the meeting change, stating their concerns of lack of accessibility for the public and especially concerns of no night time meetings being scheduled. The question of the increased work load from the Yuba County Water Agency (YCWA) was also raised. Supervisor Leahy said there was no increase in the work load (despite what was said at the February 28th meeting), this change is about more efficiency and less impact to the staff.

After more discussion, the board voted to amend the proposed ordinance to one morning meeting, the fourth Tuesday of each month and one evening meeting the second Tuesday of the month. The second reading of the amended ordinance will take place on March 21, 2017

Yuba-Sutter Political Notes

by Lou Binninger

Kevin de Leon, California Senate President Pro Tempore, backed out of an apology to Senator Janet Nguyen who was removed from the Senate chambers when she began reading a statement critical of the late Senator Tom Hayden. At a rally in support of Nguyen, when challenged by the Vietnamese crowd to apologize, De Leon said "She got her 15 minutes of fame."

De Leon gets the "Indian Giver Award" since he initially acted contrite over actions by puppet Senator Ricardo Lara who was shouting down Nguyen while being coached by a staffer. Obviously Lara, in charge of the Senate that day, had no idea how to carry out the premeditated hit on Nguyen.

Nguyen's speech was on behalf of the millions of Vietnamese killed and tortured by communists and for the refugees who fled their homeland. Hayden was a communist sympathizer who brought encouragement to the enemy of US forces and democracy-seeking Vietnamese.

Nguyen was strong-armed just a few feet from Senator Jim Nielsen (Yuba-Sutter County) while Nielsen did nothing. No model of chivalry and courtesy here. Nguyen says that Nielsen has been more supportive since the incident.

That's like a fellow's wife being insulted and slapped by a drunk as the mousey husband stands by. However, the spouse later sends her flowers and a card. Outside of three Republicans and one Democrat that rose to speak against the Senatorial tyranny, the rest of the Republicans need the testosterone pills.

There was an 'Oroville Dam Spillway Incident and Evacuation Feedback Session,' Tuesday March 14 for local representatives from both counties and the cities therein to hear from constituents. If officials do not somehow answer concerns and questions they probably will add to the citizens' angst.

Experts know that traumatized people need honest, reliable information updated every 20 minutes. Double-speak and mixed messages during emergencies infuriate highly-stressed victims. Government agencies are quite skilled at collecting information but struggle to deliver it.

Sutter County and Yuba City sending different evacuation alerts caused family rifts and controversy between employees and employers.

Big emergencies bring out character or lack thereof, factions and egos leading to bad management. Excuses like "we don't have emergencies very often" and "we'll get better at this" are insulting. A sincere apology is more appropriate.

Sutter County spends more than \$300,000 annually and Yuba County over \$600,000 to fund fulltime offices to coordinate, collaborate, plan for emergencies and seek grants. In rough figures, \$20 million dollars were spent since the 1997 flood. There should be no excuses in terms of a plan and decision-making protocols.

Emergencies are chaotic, tension-filled and rarely predictable in spite of the best plans. They include loss of life, property and peace. Government agencies are funded to be their best along with volunteers to meet the unique challenges that the particular crisis creates.

The 1997 flood in Yuba County caused needless loss of life and property due to leaving the evacuation decision to the supervisors rather than Sheriff Gary Tindel who encouraged a preemptive evacuation order. An angry county ignorantly blamed Tindel and voted him out of office. The evacuation protocol was then changed to the sheriff making the decision.

Hopefully, the officials will do something constructive with the Tuesday night event and not consider it a 'bitching' session. Some transparency and a public statement would be helpful.

The recent 3-2 vote to hire California Forensic Medical Group (CFMG) to replace Sutter County employees for jail medical services appeared divisive, but instead involved some chicanery. All supervisors expected one another to vote to hire the outside medical provider and support Sheriff Paul Parker's wise recommendation.

CFMG offers a more highly accredited medical service at a lower cost with reduced liability. The jail has had several inmates die with the county settling lawsuits with survivors for around \$800,000 per incident. It is a win for taxpayers, inmates and the sheriff's department.

Board Chairman Jim Whiteaker confirmed his expectation of a unanimous vote for CFMG in private prior to the 2/28/17 board meeting.

However, at the meeting as fellow supervisors expressed their wishes to go with CFMG Whiteaker then proclaimed his preference to continue with county employees.

Ron Sullenger made the motion to go with CFMG, seconded by Mat Conant. Sullenger, Conant and Dan Flores voted to go with CFMG.

Whiteaker and Larry Munger knew the other three supervisors would vote for the outside corporation and actually wanted that outcome themselves. So, Munger and Whiteaker saved face with employees by voting against CFMG knowing that the contract would be approved with or without them. True politicians, they were deceptively 'for the employees' and wanted to replace them at the same time.

Want to Dance? Foothill Fitness presents Friday Dance Class every Friday at 6:15 pm to 7:30 pm. Set to differing beats and styles of music, Friday Dance Class will help those who want to exercise while finding their rhythm. First session is free and \$5.00 each additional session. The class is best suited for ages 13 and up. Those attending are encouraged to bring a bottle or two of water, a towel, comfortable shoes and socks. Foothill Fitness is located

at 16849 Willow Glen Rd., Brownsville. Friday Dance Class is lead by Tania Ransom.

The Listen Lounge, at Books and More in Brownsville is happening each Saturday, at 5:00 pm. It is open to all ages who want to sing, play an instrument, recite poetry, monologues, or just work out the kinks for your next performance. Come and perform or just sit back and enjoy. Space is limited so early birds get the seats. Beverages are available for a donation. For more information call Books and More at 675-3275 and ask for Tania.

St. Patrick's Day is Friday, March 17th and Annie's at Lake Francis will be celebrating with a Corned Beef and Cab-

bage Dinner. Dinner will include bread, corned beef, cabbage, carrots and potatoes all for a wee \$9.99. Jig on over and celebrate. Annie's at Lake Francis is located at 13919 Lake Francis Rd., Dobbins.

Books and More will be celebrating their 10th Anniversary on Saturday, March 18th. Come and browse through the countless shelves of books and enjoy the refreshments. Local authors will be available for book signing. For more information contact Books and More at 675-3275.

Guess what's right around the corner? The first day of spring is Monday, March 20th. With all the rain we've had the meadows should be filled with wildflowers.

Look Back in Time – In 1925 Sheriff Anderson and his crew raided a ranch in Rackerby and seized three stills, fining the owner \$500 (not much changes, just the substance).

Hope to see you in Brownsville soon.

Logan
Starring: Hugh Jackman, Patrick Stewart, and Dafne Keen. Rated: R, Runtime: 137 minutes.

Logan, is made for fans of the comic book, Old Man Logan, a story that depicts the latter years of The Wolverine. This is a dark gritty tale of fallen heroes that grasp at a small sense of redemption. Mega-corporations conduct experiments to create enhanced human weapons using cruel and inhuman methods and then are surprised when

FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 70 years. Anyone with questions or comments can email him at boots3@syix.com

We have reports of striped bass being caught in the Feather River. Some of the hot spots are Shanghai Bend and the Nicolas Bridge. With the water on the murky and occasionally high side, it would probably be a best bet to use bait.

We are happy to hear about the ban on lead tackle being reversed by Interior Secretary Ryan Zinke. This happened on his first day as the 52nd Secretary of the Department of Interior. This reversal also pertained to lead ammunition. This law was initiated during the last minutes of the Obama Administration without public review or comment.

Since all the rivers and streams in Northern California are running high and murky, with some still downright muddy, it might be a good bet to head to the Delta. San Francisco Bay and San Pablo Bay are hot at this time for sturgeon. All that high, muddy water that has been running down from above has really turned the fish on.

The Sacramento River is still high and murky. Expect this river

to improve soon which will make the striped bass fishing much better. Once the river stabilizes expect a bumper year for stripers from April all the way into June.

Clear Lake has reopened to boaters, but there is a speed restriction within one quarter of a mile from shore. This will be in effect until the water level drops.

Lake Almanor is still high and murky but some anglers are having success with trout when the water is calm. Best bet is

using tube flies from the surface down to 10 feet as the weather warms.

Our last check at Lake Oroville tells us the debris is still problem, although it has improved some. Until the lake water clears up do not expect any good fishing.

BOOTS FISHING TIP FOR THE WEEK: "Some who fish do not realize the importance of fresh, new line until the trophy of a lifetime breaks that old line and swims away."

STANDARDS OF ETHICS AND ACCURACY EXCEED THOSE OF THE NEW YORK AND LOS ANGELES TIMES (D)

they fight back after the programs and the subjects lives are ordered suspended.

This is definitely not your standard X-Men film. The language and nudity as well as the graphically gory effects set it in a different category, regardless of how well done these effects are. It seems the writers took a page out of the DC comics and filled this story full of jerks that duly punish good people that only try to do the right thing.

Logan, earns three out of five, Clawed Foot Monkeys. There is nudity and a fair amount of foul language as well as incredibly graphic and brutal violence perpetrated by a child, which is just disturbing to see. This movie is not for the casual movie goer. There is a large amount of back story that is not made clear during the film. This reliance on me being literate and versed in the lore of the X-Men universe loses a monkey and the fact that there is no extra scene at the end of a Marvel movie loses a second. If you are a fan of The Wolverine then you have already seen it. If you are looking for a different type of violent action movie then this film is for you. If you want to take your kids to see a comic book movie then this is most definitely not the film for you.

principal sum of the note(s) secured by said Deed of Trust, with interest thereon, as provided in said note(s), advances, if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust, to-wit: \$138,845.73 (Estimated) as of 03/15/2017. Accrued interest and additional advances, if any, will increase this figure prior to sale. It is possible that at the time of sale the opening bid may be less than the total indebtedness due. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call, 916-939-0772 for information regarding the trustee's sale or visit this Internet Web site, www.nationwideposting.com, for information regarding the sale of this property, using the file number assigned to this case, T.S.# 9987-3041. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the internet Web site. The best way to verify postponement information is to attend the scheduled sale. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. Free Mobile App to Connect with Citizens of Sutter County

The Sutter County Sheriff's Office has released a free mobile app to connect with citizens of Sutter County through their smartphones and tablets.

The new app allows Sutter County Sheriff's Office to quickly disseminate emergency alerts, and post news about missing persons, traffic delays, and weekly crime reports. In the event of an emergency, app users receive instant notification via their mobile devices.

Citizens can easily send comments and crime tips — anonymously if they wish — and place calls to Sutter County Sheriff's Office with the touch of a button. They can notify the department about suspicious activity and easily send images such as graffiti through the app.

Anyone using Android, Windows or Apple platforms can download the app simply by going to the app store and

searching for the Sutter County Sheriff's Office app.

"The app provides an easy-to-use method for two-way communication between our office and community members. It's a valuable tool for keeping Sutter County safe.

The app also allows Sutter County Sheriff's Office to post photos and images, bulletins, a calendar of events, and even conduct community surveys.

The app supports the Office's commitment to engage with the community in a timely manner through all sorts of social media. News that is distributed through

the app also can be set to automatically post on the sheriff's office website ([HYPERLINK "http://www.suttercountysheriffs.org"](http://www.suttercountysheriffs.org) www.suttercountysheriffs.org) and distributed to the news media.

The Sutter County Sheriff's Office app is not meant to replace calling 911 for crimes and emergencies in progress. Those experiencing an emergency situation should continue to call 911.

The Sutter County Sheriff's Office app was developed under the name USPDbub by LogicTree IT Solutions, Inc. (<http://www.logictreeit.com>) of Citrus Heights, CA.

Gay Galvin "On Keys and Vocals"

Marysville, Ca.

Yuba Sutter Arts is pleased to present the first performance in its Spring Music Festival series with jazz pianist and vocalist, Gay Galvin, along with special guest, Ray Crabtree, on guitar.

The concert will be held on Saturday, March 18th at The Burrows Theater at Yuba Sutter Arts, 630 E Street in Marysville. Doors open at 7pm and the concert starts at 7:30.

Gay Galvin has been playing piano since she was six years old. Trained in classical and jazz styles, she has worked in big bands, musicals, jazz trios and various classical ensembles.

Married to singer/songwriter, Tom Galvin, the couple performed last year at the Burrow Theaters in concert as a duo. Gay and Tom also both played for the Applause performances of "Home for the Holi-

days" last December.

Gay and Tom recently relocated to the area from Ohio. She has a Masters degree in piano performance in jazz and teaches classical/Suzuki piano and jazz/improv in her studio in Marysville. She has played across most musical genres and in a variety of ensembles including some rock bands, but her heart belongs to jazz. In Ohio, she led her own jazz trio, something she hopes to reestablish in this area. In the meantime, she is happy to have access to the great facility and

beautiful grand piano that Yuba Sutter Arts provides for community members. Yuba Sutter Arts is proud to have Gay as their "Jazz Artist in Residence."

Come support live music in the community and enjoy these very gifted musicians. Tickets are \$10 General Admission and \$8 for Seniors, Students and Military. Plenty of free parking is available on the streets adjacent to the theatre and also at the Umpqua Bank and Bank of America parking lots directly across the street.

It Takes All Kinds

Spinners, Earthmovers, Doer's, Dawdlers, Talkers, Slugs, Fakers, Weasels and Crooks. What does it all mean? Fancy words or animal decryptions? Actually these are my own classifications of different types of people as they relate to their own career path. Sounds confusing but read on and see if you recognize any of the work types described below.

The easiest to spot are the Earthmovers and Crooks. Earthmovers start those incredible companies that revolutionize how we live in some way or another. They may or may not be college educated, and many attend Ivy League schools only to drop out midway through because they know their ideas don't need degrees to make them work. Bill Gates, Mark Zuckerberg, Steve Jobs and Elon Musk come to mind. Billionaires all of them and they have changed the way we live our lives through their genius. As for community, Earthmovers usually operate alone or in pairs.

Crooks are also easy to understand and identify. They are basically, well, crooks. They lie cheat and steal to make a living and are usually a victim of a personality disorder or two. Crooks operate alone but if you find two of them in cahoots, the con is usually much bigger in scope.

Easy enough but now let's look at the others.

Doer's are good folks. They are the pragmatic ones. They start small businesses that usually succeed. They also make good employees and know the value of a buck. They work hard and treat others fairly. They are usually honest and live fruitful lives that contribute to society and they rarely take handouts unless badly needed and then only do so temporarily. Most of the working class fit in here and likely you do too. Doer's operate solo or in groups of any size.

You can recognize Dawdlers, Talkers and Slugs because they have many similar characteristics.

Dawdlers just don't want to work and think the world is one big jelly bean field where they can lie around and write poetry. None of this "conformist working nonsense" for them. Dawdlers idle away their hours in coffee houses, hiking or hanging out at the river during the day while everyone else is working.

Talkers, like Dawdlers also don't like working much but spew forth verbal diatribes to counter their low self-esteem which got that way by not working. Talkers might make up many of the people you see during a daytime protest rally. They're there because they're not working. Talkers often end up as activists or working a few hours a week at a non-profit to convince themselves their unemploy-

ment is necessary so the world can hear their point of view. Like Dawdlers, they are often on the public dole while complaining about the very system that gives them their checks. Dawdlers and Talkers can't make it in the private sector where performance is actually expected so they operate around the fringes of normal society. Both Dawdlers and Talkers are usually found in large groups.

Slugs have similar characteristics as Dawdlers but Slugs just can't catch a break. They rarely hold jobs longer than a few months and constantly blame others or circumstances out of their control for their plight. When you catch up with a slug, which is easy to do, they will always tell you how hard their life is and how bad luck follows them like the plaque which is usually true. Although the world is full of Dawdlers and Talkers, you won't run into many Slugs. Their lot in life is so sorrowful apparently God didn't make many of them and that's a good thing. Slugs live solo except for the rare occasion where a mate is found that takes care of them.

Fakers are like Talkers as both usually have outward personalities. Fakers attempt to appear like Doer's but much of it is illusion and therein lies the difference. Fakers usually have long resumes with many jobs listed and their spotty work resume shows a nomadic quality to it. They move jobs and locations often and may attach self-made titles after their names. A variety of letter designations you likely have never heard of trail their signature page. These people may end up end becoming the proverbial life coach or a consultant of some kind. They also can move in and out of careers where a few months of study can yield an impressive sounding certification like realtor or physical trainer. No offense meant to you hard working folks in these careers of course. It's just that Fakers are the type that enter your field then leave when the going gets tough and muck up the business for the rest of you. Heaven help the people who follow the advice of such characters. They are where they are because they can't hold a real job for any length of time. Fakers usually operate alone but support each other to further each other's illusion.

Weasels are similar to crooks but don't actually break any laws, at least most of the time. Weasels are a sort of con artist but use legal techniques to borrow or garner money from others and then just don't pay it back. The excuse is the investment or whatever didn't work out and your money is then gone. The living expenses of the weasel was usually taken from such "investment" money. This is how the Weasel survives. Like monetary locusts, they move from sucker to sucker all the while telling a good story. Many Weasels are not real crooks but just delusional to the point of believing their own schemes. Even with a history of failed endeavors the delusional mind of the Weasel never makes the connection. Weasels almost always operate alone.

Last but not least come the Spinners. Spinners

come from a wide variety of backgrounds and they are a common bunch. They may hold good day jobs as a main source of income or they may spend their life on the eternal treadmill of their spinning.

Spinners are like cars stuck in the mud. The wheels turn but they don't go anywhere. If they do, they usually don't go far. Spinners have grandiose ideas and go whole heartedly into each endeavor. The problem is Spinners aren't pragmatic, usually don't possess the common sense or diligence of the Doer' and don't have the fortitude to make their projects stick for any length of time.

Spinners usually start business after business or website after website. If working real jobs, they often use their salaries to finance their "ideas" which rarely go anywhere, which is why most Spinners will never get rich. Spinners tire easily of the nitty gritty work necessary to make a real go of things and eventually get bored and then move on to next project or idea. One month they're selling vitamins, the next month opening up a restaurant. They usually have many failed websites and businesses to their name because each one eventually peters out in lieu of the next new idea.

If the spinner doesn't hold a day job, he or she is usually broke or worse yet, in heavy debt.

Spinners are vast in number and are one of the reasons new businesses have such a high failure rate. Spinners are also responsible for many a failed marriage or friendship as funds are usually needed to start each endeavor and the money disappears down the rat hole of the Spinner's latest failure. Spinners can operate alone or in groups but the grouping of Spinners usually results in enough blame to go around for everyone as the inevitable happens. In a comedic twist, two fakers operating together can be mistaken for a pair of Spinners.

In conclusion, there are many variations of each classification and sometimes people can possess multiple qualities of each in differing degrees. Also keep in mind these are my own classifications. I am not a psychologist or an expert in human behavior. It's just my attempt at explaining common traits that I have witnessed over the course of 45 years of being in the business world.

What's your experience? Do any of these traits seem familiar? Feel free to comment at the contact information below.

Freedom of the Press or Not

Our constitution’s Bill of Rights was adopted on December 15, 1791 by the American states. As most people are aware, it included the first amendment that provided Freedom of the Press.

After over 225 years of usage, and tests in the Supreme Court, it sometimes remains as divisive as ever from a political point of view. The two primary political parties generally have different views on it anytime a given subject is argued or litigated.

The problem today is how it is being utilized. For the most part the ‘main stream media’ tends to ‘slant’ its presentation of the news or in some cases present false information. The reality is they ‘manage the information’ rather simply providing the facts. They create a perception they feel is reality, thereby molding the masses to their point

of view. For the most part, it is not always what they say, but how they say it. As one German government official proclaimed during World War II, “If you tell a lie long enough, it becomes fact.” The best example of this currently is how the mainstream media has reported the immigration situation. They generally present only the liberal side of the story and not the other. This also includes not reporting a story if it does not fit their agenda.

In large part, that is because 80% of the Washington press corp vote as Democrats. To a large extent, they have truly become an arm of the that party. Many of them graduated from Columbia University’s School of Journalism in New York, a very liberal institution. That connection should be obvious.

In many instances, the press tends to present

and create an ‘anything goes society’, not using much in the way of common sense to support their views. This is especially true in California wherein they are primarily talking to their base, rather than the total population.

Liberals like to parade themselves as objective journalists when they generally are not. This is obvious when you tune in to the likes of CNN, MSNBC plus the three major networks of ABC, CBS and NBC, and then read the New York Times.

We need a press that is honest and fair in their presentation of the facts, while using their rights of free speech. Presenting only one side of an issue is an insult to our American society. It is political venom in action. This needs to change

Governor Browns Priorities

Read your Editorial with great interest. The Dam was Built By a Democrat Governor. In the last many years we have been governed by his son Governor Moon Beam. Who has governed the late great Great State of California from the Golden State of my youth to the Nanny State and 3rd World State that I am ashamed to say I am a part of it.

I think the collapse of the spill way should

call for the firing of the inspector who said the spillway was safe to use and the law suits of the outside consultants that said that the repairs were good. I wonder why the people don’t trust the people who they voted to keep them safe. The other thing that made me think the whole system is falling apart. When Governor Brown was interviewed it suddenly dawned on him that he needs 5 Billion Dollars to

fix things right and made a statement that would make Democrats proud, I’ll Raise Taxes. I wish he would take as good care of the citizens of California and the United States as he does of Illegal Aliens and Homeless. He has plenty of money for them. And his Train to Nowhere...but that is another story.

U.S. Forest Service, Do The Right Thing

The U.S. Forest Service has a law that, “Anything 50 years and older is considered an archeological site.” You cannot remove anything that is old or destroy it. However the Forest Service has destroyed a stage coach road to keep 4 wheelers and motorcycles off of Chy Company property. Now they have dug a frog pond in the middle of the stage coach road to assure

that you and I cannot get by it. The pond they have dug is just for tree frogs! Out on Oregon Hill Road the Forest Service has put up three gates to help protect more Chy Co. property. On all three of these roads you have to go through Forest Service Land, the Chy Co. is in the back. If you would like to see this for yourself go to Milk Ranch Meadows for the frog pond or Summit hill on

Oregon Hill Road to see the gates. So let’s e-mail, write, or text our Senators and Congressmen at the State and Federal level to let them know that this is not right. If you want to use Forest Service Land for hunting, fishing, and other recreational use we need to stop them and get our history preserved in our National Forests.

Small Business Reality

Watching a feminist advocating for today’s “show”, her words not mine, and as a woman (because today is apparently all about women) I got to speak my mind. I was an employer, in California! Not easy with the endless regulations, in fact, that was a key factor among others, why we bailed. When employees failed to show all it proved was how we could get along without them. I hired White, Asian, Latino,

male, female, single, married, divorced, young and old. Some were more reliable than others. Some needed time off for family matters others didn’t. Reliability was compensated. A shout out for the business owners, you take the risk, you put up the money, you put up your home as collateral, you sweat the bottom line every month and if necessary, you use your savings to make payroll. And you do this without fanfare,

you do what you have to do because you have a dream. The bigger your dream the bigger your business the bigger the challenges. In the process you hope to better the lives of your employees and your customers. This part of the equation is barely mentioned instead we hear protests and complaints. If you’re going to talk the talk then you got to walk the walk.

Food and Farm News

Central Valley farmers face water uncertainty

While they wait for word on how much water they could have this year, farmers within the Central Valley Project service area say they’re uncertain how much of their land to plant or leave idle. The CVP said last week it couldn’t yet issue its usual first water-supply report for many customers, despite a wet winter. Farmers say they should already have crops in the ground but can’t commit because they don’t know if they’ll have the water needed to bring the crops to maturity.

Volunteers patrol levee system

With rivers running high, and likely to do so for weeks, California’s levee system comes under more scrutiny—including from volunteers who patrol levees looking for any signs of weakness. A number of reclamation and levee districts use volunteer patrols, often made up of farmers, to monitor the system. Farmers and farm employees patrol on eight- and 12-hour shifts during times of high water, reporting any concerns to district and state authorities.

Leaders Conference features policy briefings, legislative visits

Farmers and ranchers from throughout California gathered in Sacramento Tuesday for the annual California Farm Bureau Federation Leaders Conference. Elected officials and policy specialists briefed the attendees on issues ranging from water to transportation to forest management. The Farm Bureau members also held policy discussions and visited the state Capitol to meet with legislators.

Communities plan Valentine's Day "do-over"

They’ll be celebrating Valentine’s Day a month later than usual in Yuba City, Oroville and other communities that had to evacuate during the Oroville Dam incident last month. People had to leave their homes and businesses on February 12, which disrupted Valentine’s Day activities two days later. A Sacramento-based flower wholesaler said the Valentine’s Day “do-over” on March 14 could help businesses that were affected by the evacuation.

Freedom of Speech Must be Protected

by Senator Jim Nielsen

Sacramento, Ca. Approximately 200 members of the Vietnamese American community traveled to Sacramento Monday to show

their strong support of my colleague Senator Janet Nguyen (R-Garden Grove). Those traveling from Orange County met at 1AM Monday morning for the drive to the State Capitol.

“Millions of our service men and women died for our freedom to speak. The unprecedented removal of a sitting senator for speaking on behalf of her constituents must be condemned. She and the Vietnamese American community are owed an apology.

“I am proud to join the community’s rally to support Senator Nguyen.”

BACKGROUND: On Thursday, February 23, Senator Janet Nguyen was physically escorted off the Senate Floor for speaking on behalf of her nearly one million constituents. As the first Vietnamese American to be elected to the Senate, Senator Nguyen spoke from the heart about the Senate honoring the late Senator Tom Hayden, a figure that triggers outrage in the Vietnamese community.

California Cannot Afford to Be A Sanctuary State

Sacramento, Ca. Former Chairman of California’s state parole board, Senator Jim Nielsen (R-Tehama) joined Senator Joel Anderson (R-Alpine), Sacramento County Sheriff Scott Jones, Kern County Sheriff Donny Youngblood, and Kings County Sheriff David Robinson in calling on all Californians to resist Democrat leaders’ push to make California a sanctuary state. “Too many lives and communities have been harmed by cities that have gone rogue to make themselves a safe haven for criminals,” said Senator Jim Nielsen (R-Te-

hama). “In San Francisco, Kate Steinle lost her young life to a convicted criminal who had been deported from the United States five times.”

“Sacramento County Sheriff Deputy Danny Oliver and Placer County Sheriff Deputy Michael Davis were killed in the line of duty by a man who was deported twice for committing several crimes, for membership in a drug cartel, and for entering the country illegally.”

Senate Bill 54, authored by Democrat Senate President pro Tempore, is a legislative proposal that would,

among other things, prohibit state and local law enforcement agencies, school police and security departments from sharing information about criminals with federal officials.

Sacramento County Sheriff Jones said, “If SB 54 passes, we will allow dangerous career felons to be released onto our streets. We shouldn’t be endangering our communities and wasting resources by forcing law enforcement to repeatedly arrest foreign nationals who have been convicted of heinous crimes over and over.”

Plumas Street Art Crawl Wine, Dine and View Art So Fine

Marysville, Ca. Sacramento has its “Second Saturday” art events. Chico has its “All About Art” programs and now you can join Yuba Sutter Arts on Friday, March 24th for its first ever “Plumas Street Art Crawl.” Fun with your friends is guaranteed when you sign up to be part of this creative way to start your weekend. Strut down Plumas Street in style as we visit some amazing destinations including Justin’s Kitchen, Milani Optical, Cellar and Sudz, Cupcake Magic, The Theater Gallery and City Café. These locations will be made all the more amazing with the addition of artists displaying their works of art. We’ll begin our peregrination at 5:30PM with champagne and wrap

up the evening with port and chocolate. Oh, and did we mention the art you’ll be viewing and the artists you’ll be meeting? Rick Bliss, Dallas and Jenna Hollis, the Foothill Art Society and Rosario Clerici-Green are among the exhibiting artists currently scheduled.

For only \$20, you’ll get to see a boatload of art, meet fascinating artists, and enjoy delicious bite-sized nibbles and treats and drinks at every stop along the way. It’s no wonder this will be the Art Event of the month!

“Yuba Sutter Arts is proud to have introduced the ‘Art Party’ sip and sketch concept to the community a few years back,” said David Read, YSA Executive Director. “We think we have another winner with our Art Crawl idea under the

leadership of Alex Cesena who just returned to the area following a world tour with the Young Americans,” he added.

For Yuba Sutter Arts, it’s all about engagement; finding new ways to get people interested and actively involved in the arts. Art parties, art crawls, other special art events and arts in education are just a few of the many ways Yuba Sutter Arts works to bring art into the lives of local residents, young and old.

Space for Art Crawl is limited on this first run so sign up soon to confirm that you’ll be part of this “sure to be the next big thing” in Yuba-Sutter! Call 530-742-2787 to register today.

ety with three speakers, a speaker panel, a play, raffle, on-site lunch and a spaghetti dinner. It will be held at the Yuba-Sutter Fairgrounds in Franklin Hall ,442 Franklin Ave., Yuba City, Registration starts at 10:00 am and the program begins at 1 1 :00 am and runs to 8:30 pm. Your One Minute News Digest

by Don Rae

• Back in the day when Gerald Ford was negotiating with Bill Clinton over the House impeachment proceedings a phrase was in vogue regarding Clinton: “That which doesn’t kill him only makes him stronger.” (from “The President’s Club”, by Gibbs & Duffy) The Republicans today must completely destroy the Obama legacy and its minions before they destroy the country.

• The Russian thing keeps going because the government is deeply infected with Obama minions. When are the 35 czars going to be fired? When are the 10,000 or so Obama appointees going to be thrown out of their cushy government jobs?

• Trump tweets using current communication technology. FDR did the same thing in his day. Remember the Fireside Chats. He used the latest technology, called radio.

• Mexico let untreated sewage flow into the Tijuana River, which leaves Mexico and flows into the United States close to Imperial Beach before emptying into the Pacific Ocean. Even Mexico’s effluent is a poor export.

• The mainstream media for the past 8 years has kissed Obama’s tail-end and portrayed him with a halo. Today there is a new sheriff in town who is taking the press to the woodshed. Excellent.

• There is plenty of money for infrastructure work but it requires guts to redistribute it away from entitlements given to those who did not earn them. Needed projects would create more jobs than is believable and the tax income would clearly be sufficient to cover needed costs beyond dollars released from entitlements. What is really needed is political will, but unfortunately we don’t see that in many of today’s Republicans.

• Why haven’t all the celebrity snowflakes closed their Hollywood mansions, abandoned their private jets, and fired their armed security and gone to Canada as they promised? Because they are lefties who don’t keep their promises and lie.

• Immigration lawyers are as dishonest as can be. They pontificate in front of the compliant media that arresting an illegal alien for identity theft and deporting them is “separating families.” Think about a different scenario, a citizen is arrested for iden-

tity theft and eventually jailed. Isn’t that separating someone from their family? What is the difference, shyster?

• Chicago gun violence continues unabated even though there is a liberal Democratic mayor and a Black police chief. Beware, Democrats control most of California.

• Scientists claim they can retrieve DNA from wooly mammoths and bring them back to life. Why waste that scientific trick. Instead dig up Frank Sinatra so we can at least get some good music.

• California has cyclical weather patterns, anywhere from 7 to 10 years. Too bad the snowflakes don’t know that history. Too bad the ignoramuses in the legislature and governor’s office are unaware of that reality. Kill the choo-choo, rebuild and improve the infrastructure.

• Now the National Basketball Association talks of boycotting Texas because of bathrooms? Are they really that stupid?

• Our Democratic Congressman Garamendi should stop reading Green Eggs and Ham to kids and read more carefully the legislation coming out of our State Legislature.

• How do we know if the accountants made a mistake in handing out the precious envelope at the Academy Awards? The “white” movie actually lost? The “Black” movie actually won? After the ruckus last year over “inclusion” could the switch have been a last minute effort to dodge a repeat of last year’s sour grapes?

• Families sent their children clear across Mexico in the company of coyotes. Then the Democrats scream bloody murder that the Republicans are separating families? Dumb.

• 58-41 Senate vote on Dr. Ben Carson. Guess the Democrats don’t think as much of a successful Black person as they would have us believe.

• Obama was given a complete pass by the mainstream media over the Clinton/Lynch clandestine meeting in a private plane in Las Vegas just hours before a decision on whether to prosecute Hillary. Yet the press jumps up and down in a fury over any Republican who talks

to a Russian. Think of Obama telling the Russian ambassador to inform Putin that after his re-election, he will be able to do anything for the Russians. Think of Hillary and her “reset” button. Much of the mainstream press is nothing more than an arm of the Democrats and nothing they print can be believed.

• In the California Senate Democrats want to change traffic laws to give bicyclists a pass for doing a “California slow rolling stop.” As a recipient of a red-light camera” ticket for the exact same thing, this proposal is disgusting. It is also dangerous.

• Now we have 7 Baltimore cops being indicted on a whole host of real crimes while the Department of Justice was running through the alleys of town looking for “Civil Rights” violations.

• A word to the wise from Admiral Jackie Fisher before World War I. “The essence of war is violence and moderation in war is imbecility.” Get with it folks, ISIS is at war with us.

• According to snowflakes in Connecticut, having an interest in guns and music signals intent to commit murder. The usual suspects are putting out Public Service Announcements in the State touting these ideas.

• The Associated Press is delving ever deeper into the anti-Trump cesspool. They did a huge picture and story about an Iraqi cartoonist who draws dumb hateful pictures of Trump related to the temporary immigrant ban. Which is worse, the AP, the photographer, the artist or the lamebrain editors who publish this stuff?

• Isn’t it instructive how Democrats are looking out for the folks? Senate Minority Leader Charles Schumer helped a snowshoe racer from India enter the country to compete. This “fine” young man is now being held in a New York jail on sex charges relating to a 12-year-old girl. Senator Kirsten Gillibrand, also a Democrat, chimed in to help this athlete enter the country. The U.S. embassy in New Delhi had initially rejected Tanveer Hussain’s application for a visa. Wonder why? But the “do-gooders” hastened to the rescue. See the result?

“Souvenirs=\$\$\$\$=Scholarships”

On March 25th, the Northern California Sports Association will be awarding 6 high school seniors and 1 Junior College student a total of \$17,500 for future education. The scholarship money is derived from the auction of valuable souvenir items and personal donations. This year's items include a collection of rare Los Angeles Dodger bobbleheads of Sandy Koufax, Vin Scully, Don Sutton, Jackie Robinson, Roy Campanella, Don Newcomb, and a replica of a 1963 World Series Dodger ring. Also, a Raider Super Bowl Memorabilia football signed by Jim Otto and a souvenir bat autographed by over 22 country artists at a Golf & Guitars event. A priceless Washington Huskies football helmet signed by our own “Coach Pete” will also be among many items which raise funds for the annual scholarships. The scholarship recipients will be an-

nounced next week and receive their awards during the “Hall of Fame” dinner at the Marysville Elks Lodge on the 25th of March.

At that dinner the NCSA committee will induct 8 new members to the “2017 Hall of Fame Class” for their years of dedication to sports and community. Thea Post (Sutter/UC Davis & Yuba), Dave Rottman (Marysville/Yuba), and the late Hap Richie (Marysville/AAA Baseball) are the local Yuba/Sutter inductees. Dan Hawkins (Beiber/UC Davis), Don Ponciano (Willows/Yuba College), Ray Crawford (Dixon/UC Davis) and Ed Souza (Yuba College/Chico State) are the other individuals that will be honored. The team award will be presented to the 1963 Weed High School football team for their distinction of being named the #1 Superior California team by the San Francisco Examiner.

The evening program will be on March 25th at the Marysville Elks Lodge (920 D St.) and starts with a reception at 4:30pm, followed by a dinner and awards at 5:30pm. Cost is \$35 per person and can be sent to NCSA-HOF, P.O. Box 447, Yuba City, CA. 95992. Any questions or ticket information call Joel Guthrie (530)743-2089 or John Rice (916)296-1501 or e-mail ricejohna@comcast.net.

4-H Corner Presentation Day

by Pandora Edwards

On Feb. 25th 2017 the Sutter Yuba County Presentation day was held at the Brittan Elementary School in the city of Sutter. This event was put on by the Yuba Sutter 4-H office.

Presentation day

helps 4-H members improve their public speaking skills, communication skills, and building self-confidence.

There were 41 participants that included 8 Sutter Buttes members, 2 Franklin members, 1 Smartsville member, 1 Barry member, 8 Browns Valley members, 3 Rocky Hills members, and 7 Hallwood members. The awards total were 18 golds, 8 blues, 6 reds, 6 whites, and there were 3

primaries.

Wheatland had the most members with 11 and had the most golds with 5. Wheatland also took home 2 Blues, 2 whites and had 2 primaries.

For all the participants that received gold congratulations! You now get to move on to regionals where you will give your presentation to a new crowd. I enjoyed attending and reporting on this event.
