North Yuba Water District—Candidates

Oregon House, Ca. – 65 people turned out for the first North Yuba Water District Board "Candidates' Night" on September 28th at the Alcouffe Center in Oregon House. The moderator for the evening was local, Douglas Binderup. Candidates attending the meeting were: Alton Wright, Terry Brown, Jenny Cavaliere (I) and Gary Hawthorne, Doug Neilson and Dale Skinner (I) did not attend.

The match-up is Alton Wright and Doug Neilson Division 1, Terry Brown and Dale Skinner (I) Division 2, Jenny

Cavaliere (I) and Gary Hawthorne Division 3, Eric Hansard unopposed Division 5.

The main issues for the evening concerned the piping of the Forbestown Ditch, rate increases, and a dysfunctional Board of Directors. A lot of the discussion was about the board needing to work as a team and involving the public in their decisions and working better with the district staff. Many issues were identified for example; the need for a reliable water source, evaluating budget expenses, the need to work

with other water districts, and look for other funding sources. All of the candidates seemed to agree on the problems and the need to explore methods of solving them. There were no specific solutions.

The public was in agreement with the problems identified but had further concerns about being taxed in the district with no hope of ever receiving water.

The next "Candidates' Night" will be October 6th at the Ponderosa Community Center in Brownsville.

MMJ Dispensary Process a Hustle?

by Lou Binninger

Is Marysville's marijuana (MMJ) dispensary application process rigged? That's what some applicants are suggesting. And, the recent Marysville Planning Commission (MPC) meeting added to those suspicions.

An item to change the zoning of the Cargill Building (near B and 10th) from M1 to one permitting medical marijuana (MMJ) sales and growing appeared on the August and September MPC agendas.

A leaked email of city manager Walter Munchheimer dated December 12, 2015 revealed private meetings were held between city council members and the Cargill building's owners to discuss permitting the location for a dispensary. Previously all MMJ growing / selling was to occur in the Medical Arts District, a corridor south of 4th Street and west of E Street, an area encompassing Rideout Hospital.

In January 2015, dispensary setbacks from sensitive use areas (parks, schools etc.) were reduced from 1,000 to 500 feet and Ellis Lake was declared not a park to make the Cargill building compliant for a dispensary / grow operation. Other businesses wish the city were so flexible with their plans.

Public Works Director Dave Lamson asked the MPC in August to change Cargill's M1 zoning to allow the same uses as C3, thus a dispensary. MPC voted 7-0 to reject the request. Lamson said the M1 not being changed previously was an oversight. The MPC said they needed to follow normal protocol to change zoning, and hearings would be needed.

At the September meeting commissioners restated their stance, though Lamson was absent. David Lanza explained to the commission that he had been working with Lamson for years on the Cargill plan as a MMJ dispensary and he thought they had a deal.

Other dispensary applicants at the meeting took this to mean Lanza had an inside track on his building getting a dispensary. David Lanza's father Roy Lanza is also listed as an applicant for a Third Street location.

Meanwhile, ABS Group representing dispensary applicant River City Phoenix (RCP) has already purchased the former Carpets Galore building across from Quick's Glass and begun remodeling and altering setbacks to meet dispensary criteria. With the application process just beginning other applicants are wondering what is up. Is RCP already a winner?

NC Holistic Care and Health (NCHCH) investigated a Third Street site for a dispensary but were informed by the city that it was between 20-30 feet too close to senior citizen housing. NCHCH were wondering how to access the grace the city bestowed upon the Cargill and River City Phoenix sites.

City councilmember and mayoral candidate Chris Pedigo expressed frustration at the appearance of a corrupted bidding process and said it won't be tolerated. "It appears the Cargill building will be disqualified from this year's applications as the zoning isn't right," said Pedigo.

Since nine dispensary hopefuls fronted a nonrefundable \$3706 to enter the competition along with more costs to come there is talk of suing the city if the fix was in all along.

No Enforcement on MOU with Tribe

by Lou Binninger

In 2002, three Yuba County Supervisors (Bill Simmons, Al Amaro and Mary Jane Griego) fast-tracked an agreement inviting Butte County's Enterprise Rancheria to operate a Las Vegas-style tribal casino in South Yuba. That Memorandum of Understanding (MOU) described payments to the county for rendered services and addressed environment impacts, public safety needs, and building codes.

However, no one in county government has been holding Enterprise Rancheria accountable to its commitments. Supervisor Andy Vasquez is again presenting to the Board of Supervisors a seven page description of MOU violations by the tribe.

Vasquez and Supervisor Roger Abe have twice before asked for the board to reopen negotiations on a poorly drafted and sorely outdated document. For example, all Tribe reimbursements to the county are in 2002 dollars, though the tribe is receiving county services at 2016 costs.

The Vasquez document says, "The Tribe has long known that certain mitigation measures would be necessary before construction could begin. Further notice of the required mitigation measures came in 2012, when the federal government approved the Tribe's trust request and issued a Record of Decision

Flights for Kids at Golden West

The Golden West Regional Flyin is scheduled for October 15, 2016, at the Yuba County Airport in Olivehurst. Kids ages 8 to 17 can sign up to participate in the Young Eagles program. The program includes introductory flights free of charge and made possible

through the generosity of Experimental Aircraft Association.

Parents can sign up kids to participate in the program during the event. The sign up location will be near the event entrance and will begin at 8 am. The Young Eagles flights

will be conducted throughout the day. All youth ages 8 to 17 are eligible for a flight at no cost. A parent or guardian must be present to sign the consent form. Call Les at 530/713-0819 if you have questions.

Young Eagles events continue the outstanding aviation tradition started by the Experimental Aircraft Association in 1992. Since the start, more than 2 million young eagles have enjoyed a flight through this program. Young Eagles have been registered in more than 90 countries and have been flown by nearly 45,000 volunteer pilots and 50,000 ground volunteers.

Taking to the Streets to Fight Suicide

1st Annual Yuba Sutter Out of the Darkness Walk

Marysville, CA.

Suicide is the tenth leading cause of death in the United States. However, with proper research, educational programs, and resources for those affected, suicide can be prevented. In the hopes of being part of this prevention, more than 200 people from throughout the Yuba-Sutter area are expected to participate in the 1st Annual Yuba Sutter Out of the Darkness Walk at 9:00am, October 22 at 1001 D Street (Gazebo Island at Ellis Lake) in Marysville. This fundraising walk supports the American Foundation for Suicide Prevention's (AFSP) local and national programs and its bold goal to reduce the annual rate of suicide by 25 percent by 2025.

"We are walking to sup-

port those who suffer from mental health conditions and those affected by suicide. The money raised funds research and preventive programs that will save lives," said Erin Buttacavoli, Yuba-Sutter AFSP chapter chair.

Speakers at the Yuba Sutter Out of the Darkness Walk will include Yuba County Board Supervisor-District 2, John Nicoletti, and Marysville's Chief of Police, Aaron Easton. The event will be emceed by Angel Diaz.

"These walks are designed to get the conversation started about a once viewed taboo subject. And although suicide is a serious problem, it is a problem we can solve. Research has proven it, and shown us better ways to fight.

If we are willing to keep up the fight we will make a difference. Science is only going to improve, our culture will get smarter about mental health, and we will be able to save more people from losing their lives to depression and other mental health conditions," Buttacavoli said.

In order to limit the amount of time people will stand in line, registering online is encouraged, though not necessary. Registration is free and only takes a couple of minutes. There are fundraising incentives and tips to help those who may not have experience raising money. People can register, and find these tips, at <http://afsp.donordrive.com/event/4025>.

Mink Presents National Title Trophy to Sports Museum

He may call California home these days, but former Florida Marine Raiders Head Coach/founder and X-League Indoor Football creator Michael Mink still loves Lakeland. "I love this area so much, I still have my season tickets to the Bucs," he said Monday afternoon. "Even though I live in California, after being a season ticket holder for

21 years, still couldn't let go of them." Mink, currently the general manager for the Marysville Gold Sox of the Great West League, may have returned to the area to tie up some loose ends in his personal life, but he had something else planned on this trip as well. "This trophy belongs here," Mink said of the

Polk County Sports Hall of Fame. "The fans here who supported us, the longest tenured sports team in the history of the Lakeland Center, earned this. To win this National championship trophy was a great moment in time for the fans, the team and the city." Now living outside of Sacramento with his 14-year-old daughter Sierra, Mink's second passion - helping young athletes along their journey through the sports crucible - hasn't changed.

"We've had quite a few young kids come through the Gold Sox organization on their way to the bigs," he said. "Max and Brock Stassi both came through. One (Max) is with the Astros while his brother is playing for the Phillies. Cody Anderson with Cleveland to mention a few and I am just trying to continue to build. It is a great organization with terrific owners and tremendous sports area in Yuba-Sutter area. That's what I love, helping the kids along their journey." We helped several this season get scholarship money to help continue their dreams. Mink in 10 football seasons moved over 80 players up to NFL, CFL, AFL, UFL and Europe. Mink also has been instrumental internationally in introducing American Football in Northern Brazil since 2012.

Mink's journey in Lakeland began in 2012 with the Ultimate Indoor Football League. He was instrumental in reorganizing that league into the X-League in 2014. Ultimately, though, Mink disbanded the league in 2015, to pursue a Career in Baseball his Tampa roots.

"We gave it the best run we could," said Mink. "Even with everything against us, we still managed 8,000 fans for a playoff game (in St. Louis). I'm proud of what we did winning in such a hostile environment."

What did come as a surprise to Mink was the fact that the Wing House on South Florida Avenue in Lakeland still has a corner devoted to the Florida Marine Raiders.

"They put it up four years ago," said Mink. "And they plan to never take it down. Those are the kind of fans I'm talking about."

Temporary Closure of North Forebay Area of Lake Oroville SRA

Oroville, Ca. - Due the proximity of the Tobin Fire, the North Forebay area of the Lake Oroville State Recreation Area (LOSRA) is closed to public use. The area is being utilized as an incident command post for fire-fighting personnel and equipment.

This closure includes all parking lots, picnic areas and trails within the North Forebay area as well as the Forebay Aquatic Center. This closure has been in place since Tuesday, September 26 and is planned to go through at least Monday, October 10.

Additionally, due to the closure of the North Forebay area, the annual Family Goose Hunt previously scheduled for October 1-8 has been cancelled with no immediate re-scheduled date set.

As California State Parks strives to provide a high-quality recreational experience for the public, the facility will open sooner if possible. All other areas of LOSRA remain open at this time.

For more information about the Tobin Fire, go to the "U.S. Forest Service InciWeb."

FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 70 years. Anyone with questions or comments can email him at boots3@syix.com

Reports once again tell us the salmon are stacking up in the Sacramento Delta with fish being caught on the water and from the banks. We received this same report last week and two trips last week to the Feather River produced no fish. The run will more than likely bust wide open any day now. Experts tell us salmon can travel 50 miles a day during the spawning period.

Collins Lake catfish are still cooperating with fish ranging from six to over eight pounds. The trout are still hanging out in deeper water. We have had both warm and cool weather this past couple of weeks and it has kept the trout

deeper in the reservoir. October is the time for the annual fall trout stocking period and will take place this year in mid-October or at the latest towards the end of the month. The lake will also be placing thousands of small rainbow trout in their holding pens later on this year. These fish will mature and grow for next year's planting of the reservoir.

Trolling with flies, mainly the orange jay fair, has resulted in better fishing at Eagle Lake. We are told the best time to fish is at first light. It was chilly weather when we received the information last week. The ramps are getting shallower, especially the

ramp at Galatin. Be aware of these conditions when you put your boat in.

The water temperature at Lake Oroville is dropping with the water release and the lake is currently at 47 percent capacity. The Department of Water Resources has reduced the release of water. As water temperature drops the bass fishing catch should increase. We suggest top water lures at first light and continuing until the sun hits the water.

The water level at Camp Far West Reservoir has dropped to 24 feet capacity. Boats are launching on the gravel ramp below the concrete facility. Bass are cooperating with fish being taken on a regular basis.

Up Truckee way limits of small rainbow trout are common at Jackson Meadows Reservoir which is still at 60 percent capacity. The rainbows, ranging from 10 to 12 inches, are being taken while trolling lures or night crawlers down around 40 feet in depth.

Closing thought: "Quit while you are ahead. All the best gamblers do."

Fundraiser for A Woman's Friend

Come imagine Life at A Woman's Friend Pregnancy Resource Clinic's Annual Benefit Banquet. Be part of the work at A Woman's Friend to transform lives in our community! The event will be held at the Church of Glad Tidings on October 21st, 2016 from 6:30 - 9:00 p.m. A Woman's Friend is excited to announce that our 2016 Banquet speaker is David Bereit, the community organizer whose grassroots coalition became the phenomenal international campaign, 40 Days of Life.

All donations will enable A Woman's Friend to continue offering their free and confidential services to those in our community who find themselves in unplanned pregnancies. These services include pregnancy testing and verification, maternity clothes, baby clothes, fur-

niture, a 24-hour helpline, parenting classes, sexual integrity program, abortion recovery support (for men and women), as well as related medical care in their medical clinic.

Seats are \$30.00 or \$300 a table of 10. Call (530) 741-9136 for information.

STANDARDS OF ETHICS AND ACCURACY EXCEED THOSE OF THE NEW YORK AND LOS ANGELES TIMES (D)

Outlaws, Gangsters & Black Marketeers Love the Yuba Marijuana Ban While Other Counties Regulate, Tax and Background Check Growers

In October 2015, Gov. Brown signed California's Cannabis Regulation Act which:

- classifies marijuana/cannabis as an agricultural product
- makes growers subject to state and local licensing and overall regulation by the state's Cannabis Regulation Bureau and several state agencies.
- prioritizes compliance with water, environmental and public health and safety laws
- imposes fair labor practices

The state law requires that licensed growers must provide proof of local approval and evidence of legal right to occupy proposed location, submit fingerprints for DOJ background check and the licensing authority may deny if the grower has been convicted of an offense substantially related to qualifications, including ANY felony controlled substance offense, violent or serious felonies, or felonies involving fraud, deceit or embezzlement, or

any sanctions by a local licensing authority in the past 3 years.

The state law provides that no licensing or regulation will apply if the local county maintains a ban. Or the local county could regulate, control and tax the activity in which case the state can issue licenses in that county for cannabis production.

Other Counties like Calaveras, Mendocino, Humboldt, Santa Cruz and Trinity have adopted local cannabis licensing

and are accepting license applications for an average filing fee of \$5,000 in addition to other fees and taxes on growers. Calaveras County collected \$3,000,000 in application fees within six weeks.

Yuba County could be collecting millions of dollars in fees. County financial problems could be gone like when Colusa erased its entire city debt in one day due to a medical marijuana license.

Growers who can't

handle regulation or can't pass background checks are being forced out of regulated counties into banned counties like Yuba.

Yuba's current ban has unintended consequences making it a haven for illegal growers, black marketeers, outlaws, criminal enterprises, sex traffickers, and drug trafficking organizations:

- Yuba growers are exempt from enrolling in the Water Board's cannabis program which

requires filings and environmental and water law compliance

- Yuba growers are exempt from any background check or filing requirements

- Yuba growers are exempt from any state regulations, taxes or fees

- Yuba growers are exempt from any safety testing requirements

Measure E would regulate Yuba growers extensively by requiring conditional use permit,

administrative use permit and/or zoning clearance filings with the Planning Department as well as proof of legal water and permitted wastewater systems, adequate fencing and proper zoning.

Measure E would allow outdoor cannabis cultivation on agricultural-zoned parcels as a permitted use. Other zoning areas would be required to obtain conditional use permits and/or administrative use permits in the discretion of the County Planning Department.

Measure E would allow small 100 sq. ft. personal medical marijuana gardens consistent with the State Cannabis Regulation Act and up to 500 sq. ft. in collectives as allowed under state law.

Measure E would regulate and control Yuba County growers. That's why outlaws, gangsters, black marketeers and criminals are against Measure E.

Measure E protects Yuba County. Measure E will regulate and control growers. Vote Yes on Measure E.

Paid for by Yuba Patients Coalition PAC FPPC ID-1375082

Sarah Davocato-Carvalho New VP/Controller

River Valley Community Bank

Yuba City, Ca. – River Valley Community Bank (OTC Markets: RVVY) is pleased to announce the hiring of Sarah Davocato-Carvalho as Vice President/Controller.

Mrs. Davocato-Carvalho has spent 29 years in community banking, mainly in operations, finance and business development. Mrs. Davocato-Carvalho has served as AVP Branch Manager at Feather River State Bank and as Vice Presi-

dent/Controller/Yuba-Sutter Business Development Officer of Golden Pacific Bank (aka: Gold Country Bank) in Yuba City, California.

In her role as Vice President/Controller, Sarah will be responsible for managing the general ledger and many other key accounting functions. She will be working out of the Bank's Yuba City office.

Mrs. Davocato-Carvalho stated, "I am

thrilled to be part of the River Valley Community Bank team. My entire career has been spent in community banking and being associated with an institution that has remained true to its mission of community banking is both personally and professionally rewarding."

John M. Jelavich, River Valley Community Bank's President and CEO commented, "We are very pleased to an-

nounce that Sarah Davocato-Carvalho has joined our team. Sarah's community banking experience and local market knowledge position her well to contribute to our Bank's continued success."

Sarah was born at Beale AFB and has been happily married for 14 years. Sarah and her husband enjoy traveling and time at the lake.

River Valley Community Bank serves its customer base through offices located at:

426 Sutton Way, Grass Valley, CA. 1629 Colusa Avenue, Yuba City, CA

 NOTICE OF TRUSTEE'S SALE
 (The above statement is made pursuant to CA Civil Code Section 2923.3(d)(1). The Summary will be provided to Trustor(s) and/or vested owner(s) only, pursuant to CA Civil Code Section 2923.3(d)(2).) YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED September 7, 2005. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDINGS AGAINST YOU, YOU SHOULD CONTACT A LAWYER. **On November 14, 2016 at 01:30 PM, at the Fifth Street entrance to the County Courthouse, 215 Fifth Street, Marysville, CA 95901**, MTC Financial Inc. dba Trustee Corps, as the duly Appointed Trustee, under and pursuant to the power of sale contained in that certain Deed of Trust recorded on September 13, 2005 as Instrument No. 2005R-021897, of official records in the Office of the Recorder of Yuba County, California, executed by HAROLD EDGAR DRAPER AND DORIS G. DRAPER, AS JOINT TENANTS, as Trustor(s), in favor of FINANCIAL FREEDOM SENIOR FUNDING CORPORATION, A SUBSIDIARY OF INDYMAC BANK, F.S.B. as Beneficiary, WILL SELL AT PUBLIC AUCTION TO THE HIGHEST BIDDER, in lawful money of the United States, all payable at the time of sale, that certain property situated in said County, California describing the land therein as: AS MORE FULLY DESCRIBED IN SAID DEED OF TRUST The property heretofore described is being sold "as is". The street address and other common designation, if any, of the real property described above is purported to be: **412 & 416 12TH ST, MARYSVILLE, CA 95901** The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the Note(s) secured by said Deed of Trust, with interest thereon, as provided in said Note(s), advances if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligations secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of this Notice of Trustee's Sale is estimated to be \$250,126.26 (Estimated). However, prepayment premiums, accrued interest and advances will increase this figure prior to sale. Beneficiary's bid at said sale may include all or part of said amount. In addition to cash, the Trustee will accept a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union or a check drawn by a state or federal savings and loan association, savings association or savings bank specified in Section 5102 of the California Financial Code and authorized to do business in California, or other such funds as may be acceptable to the Trustee. In the event tender other than cash is accepted, the Trustee may withhold the issuance of the Trustee's Deed Upon Sale until funds become available to the payee or endorsee as a matter of right. The property offered for sale excludes all funds held on account by the property receiver, if applicable. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. Notice to Potential Bidders If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a Trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a Trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same Lender may hold more than one mortgage or Deed of Trust on the prop-

erty. Notice to Property Owner The sale date shown on this Notice of Sale may be postponed one or more times by the Mortgagee, Beneficiary, Trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about Trustee Sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call In Source Logic at 702-659-7766 for information regarding the Trustee's Sale or visit the Internet Web site address listed below for information regarding the sale of this property, using the file number assigned to this case, CA05000779-16-1. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. Date: September 12, 2016 MTC Financial Inc. dba Trustee Corps TS No. CA05000779-16-1 17100 Gillette Ave Irvine, CA 92614 Phone: 949-252-8300 TDD: 866-660-4288 Stephanie Hoy, Authorized Signatory SALE INFORMATION CAN BE OBTAINED ON LINE AT www.insourcelogic.com FOR AUTOMATED SALES INFORMATION PLEASE CALL: In Source Logic AT 702-659-7766 Trustee Corps may be acting as a debt collector attempting to collect a debt. No Increase in Fed Fund Rates

Last week's long awaited meeting of the Federal Reserve yielded what the majority of economists expected. No increase in the federal funds rate yet again. The last increase, in fact the only increase since 2006, took place in December of 2015 which may have sparked the massive sell off in equity markets in January 2016. Many theorized that with the upcoming election the Fed would not increase the rate during last week so not spark a market sell off right before the election. Fed Chief Janet Yellen is a Democrat and although politics are not supposed to play a part in monetary policy from the Fed, one could draw another conclusion.

No matter what the conspiracy buffs may think about the Fed's playing political football, the Fed statement allayed that suspicion by saying:

"Near-term risks to the economic outlook appear

roughly balanced. The Committee judges that the case for an increase in the federal funds rate has strengthened but decided, for the time being, to wait for further evidence of continued progress toward its objectives. Our decision does not reflect a lack of confidence in the economy".

In plain English one could decipher the Fed speak as "things look to be getting better but we are still being cautious".

Of the members voting, three members dissented and voted for an increase. This was the largest split vote in years.

For an indication of future direction in the rates, experts also reviewed the so called "dot plot", which is published after each Fed meeting. This graph shows the projections of the 16 members (some of which do not vote at each meeting) of the Federal Open Market Committee as to where interest rates may be in the future. Market participants look at this graph to arrive at some sort of opinion as to what the Fed's may do at subsequent upcoming policy meetings.

Currently, the members' average expectation is for rates to hit 1.27% at the end of 2015, 2.68% in 2016, 3.54% in 2017, and 3.79% in the long run. The current target for the fed funds rate is 0 - 0.25%

which is a long ways from the dot plot viewed after last week's meeting.

Keep in mind the Fed is data dependent and they can and have changed their view repeatedly as economic measurements trickle in.

No matter what the Fed's do at their next rate setting meeting in December, fixed income investors and retirees living on savings no doubt were not thrilled with no increase yet again. If the Fed's decide to start a consistent pattern of rate increases in accordance with the dot plot, investors counting on interest income to pay their bills could finally start to see some hope in an otherwise dismal environment.

19th Annual Indigenous Peoples Days

Browns Valley, Ca.

Thousands of tribal members and supporters are now gathering in North Dakota to stop the Dakota Pipeline and to protect their water and culture. Locally, Tsi Akim tribal members and supporters are gathering October 6-10, to celebrate and support the rights and culture of all indigenous people. This free, public, outdoor event, Indigenous Peoples Days (IPD), is one of the largest inter-tribal events of its kind in the country, and is open to everyone who feels a kinship with the indigenous world.

For nineteen years, the Tribe and supporters have assembled dancers, musicians, storytellers and cultural educators from all over the world to enhance our views on nature and community. Chairman Ryberg quotes, "Indians have the responsibility, to those ancestors who fired arrows against cannons and survived against overwhelming odds, to make that survival meaningful." IPD encourages healing through coming together and connecting to the land and its history.

For our youth, the event begins with two days of interactive native education (Thurs/Fri). This year, in addition to the downtown Nevada City Opening (Thurs 6 pm), is a Marysville

Opening/Fundraiser (Fri 6 pm), which includes warm food and raffles. All day Saturday focuses on traditional native ceremonies, including The Calling Back The Salmon Ceremony, feasting and festivities. In honor of our ancestors, Sunday is devoted to a day of "Talking Circles", stories and music, ending with the Richard Prout Memorial Dinner. This year a special circle will honor the American Indian Movement.

Weekend highlights will include workshops on "Revitalizing Indigenous Food and Medicine", a community drum hosted by Eli Painted Crow, visiting traditional Elders, and vendors offering Native American arts and crafts. Food will also be available.

This event, IPD, is located at 5390 Highway 20 in Browns Valley, California, Sycamore Ranch Park "Kulu Fishing Village". A live radio broadcast on Sunday will be hosted by long time supporter, Community Radio KVMR FM, 89.5, Nevada City (<http://www.kvmer.org>). On Monday in the KVMR studios, IPD will air a full day of indigenous programming. The Tribe also acknowledges the support of Yuba County.

IPD is a drug and alcohol free, family oriented event. Donations are encouraged. Saturday and Sunday meals are

Country Corners Veterinary Hospital

Offering Free Heartworm/Lyme/Anaplasma/Ehrlichia Test in the Month of October

by Dr. Shannon Sullivan

According to national heartworm infection statistics, Butte County is the number one county in California and Auburn is the worst city in California for heartworm infection. We are located right between these areas and our community has a very high heartworm infection rate. In the last 7 months we have had 28 heartworm positive dogs and 30 positive Lyme disease cases. There are no signs of early heartworm infection. As the disease progresses lung and heart damage occur leading to heart failure. The drug that treats heartworm (immiticide) is currently on manufacturer special order indefinitely which makes heartworm prevention even more important. Heartworm infection has increasingly become a

problem as up to 75% of the dogs in the area are not routinely tested nor on heartworm preventative, while inexpensive (the cost of a Starbucks coffee per month), is often overlooked. Heartworms are transmitted by mosquitoes and being an inside or small dog DOES NOT protect your pet from infection. Because we are now seeing resistance to Ivermectin, it is even more important to screen yearly for heartworm even if your pet is on preventative. Also, if you get your prevention from a licensed veterinarian and test yearly, your pet's treatment if they acquire heartworm is paid for by the prevention manufacturer. As a public service to our community we are offering free 4DX tests (a \$35 value) in the month of October with every

annual wellness exam in which 12 months of heartworm prevention are purchased. Common wildlife reservoirs for heartworm disease include coyotes, bear, raccoons and other wild carnivores. The 4DX test also screens for Lyme disease and Anaplasma which are very common in the foothills. We have had 10 cases of Anaplasma in the last 7 months. Both of these diseases cause cyclic fevers, platelet and bleeding problems as well as organ damage. Lyme, Anaplasma and Ehrlichia are transmitted by ticks that are very small and difficult to see. Appointments are filling quickly for our free testing program.

Please call 530-692-9552 if you would like to take advantage of this opportunity.

Yuba County Victim Services Moves to Downtown Marysville

Marysville, Ca. – The Yuba County Victim Services office has moved to the heart of Marysville, putting its services close to the people who need them.

The program, which offers comprehensive services to victims and witnesses of all types of crimes, is now located at 206 Sixth Street in Marysville, just behind the Yuba County Courthouse. The program's previous office on Dan Avenue off of McGowan Parkway closed its door as of September 29, with the new location opening up on September 30.

"This move makes it possible for us to do a better job of making our services available to those who need

them, while also creating a safer environment for our clients," said Yuba County Victim Services Program Manager Jason Roper. "I really believe people coming to our new Sixth Street location will find it to be safe and comfortable."

Roper said his office is also working closely with Sutter County Victim Services to ensure that Victim Services programs in the two counties mirror each other, so that those impacted by violent crime will not experience delays or inconsistencies in getting help.

"We have a team of victim advocates who know how to navigate our clients through the legal system, directing

them to agencies and organizations that offer assistance and emergency services," Roper said. "Some of the services we offer are done in-house, such as a treatment component staffed by Licensed Marriage and Family Therapists and Interns who can provide free therapy to all crime victims emotional support."

Victim Services is a program established by state law to make certain each crime victim or witness to a crime has access to vital assistance to deal with such situations. More information can be found online at www.yuba.org/Departments/Probation/victim-serv.aspx

(Continued from Page 1)

No Enforcement on MOU with Tribe

("ROD") that incorporated the Tribe's mitigation obligations under the MOU and specified further required measures. The Tribe had ample opportunity to perform its mitigation obligations prior to commencing construction. It failed to do so."

Yuba County has forfeited more than \$20,000 in taxes annually on the Tribe's 40 acres since 2012. Public Records Act inquiries of Yuba County, Wheatland and Olivehurst Public Utilities District (OPUD) reveal the Tribe has taken no mitigation measures as required in the MOU and the Federal Record of Decision (ROD) since construction commenced.

The Tribe was to adopt and supply a copy of their approved building codes and fire / public safety standards to the appropriate county agencies prior to breaking ground on April 8, 2016. There are also specific MOU provisions in which the tribe must fund the Sheriff's Department and have agreements in place for the safety of patrons. None have been done.

Documents describing water quality, safe drinking quality standards and food and beverage handling standards have not been submitted. The Tribe failed to obtain a National Pollution Discharge Elimination System (NPDES) permit or create a Storm Water Pollutions Prevention Plan (SWPPP) prior to commencing construction, violating federal requirements.

Documents addressing surface water drainage and quality, flooding, construction emissions and noise impacts have all been ignored, violating the MOU, according to Vasquez.

If the county is derelict in its obligation to enforce the MOU a third party can sue both the county and the Tribe. According to the MOU, the tribe would then be required to indemnify the county. The county could sue the Tribe for lack of performance or take legal action against the United States for not enforcing its requirements as outlined in the ROD.

A majority of Yuba County residents have twice voted against the casino. Those citizens feared the county would not hold the Tribe accountable and that the Tribe would default on its obligations. Their fears have come upon them.

Bring Us Hope!

by Mike Leahy Supervisor-elect

Far too long Marysville has been in "Reactive Governance"

When people only see what is wrong, they focus on the problems and the solutions evade them. This tends to be one of the largest problems with some of our leadership currently. We can no longer reward those who pretend that things are OK, and simply seek photo ops at public events.

To accomplish economic recovery we require a few core things:

1. Vision – We need to define where it is we are

going. We can have a City Council that defines exactly where they would like to go. Knowing where you are going certainly is beneficial would you not agree?

2. Someone with actual business experience – where someone has risked everything they own in attempt to make a better life. This experience is epic in local government.

3. We also require the knowledge of how a city operates – the pathways required to make the proper changes to effect the best result. We need a true statesman in the affairs of local government.

For the above reasons I believe that the ticket to vote for Marysville City Council is;

Chris Pedigo for Mayor, for he will set the vision and expectation – he is committed to bring more economic recovery to our city. His tireless efforts so

far have demonstrated his desire.

Bill Simmons – City Council. His experience within the local government brings the statesman aspect to this plan. He has shown a great willingness to work with other local government agencies to achieve betterment for Marysville.

Valarie Tootles – City Council, Valarie honestly cares about the city and understands business in Marysville, she further demonstrates integrity and family values. Her focus on business friendliness combined with the experience of Bill Simons and the leadership of Chris Pedigo will give Marysville something they have not had in a long time. HOPE

I hereby ask you to join me in helping Marysville to restore hope by electing these fine candidates.

Water is the New Gold

Water is the new gold in California and after attending the North Yuba Water District's (NYWD) monthly meetings for about a year now, I realize that there is a power grab going on for our irrigation water.

The general manager, Jeff Maupin, and three of the five directors - Dale Skinner, John Jacobson, and Don Ferguson - who are his minions (to borrow a word from Buck Weckman) have, in my opinion, wanted to get rid of irrigation customers for years even though this special district was formed in 1952 as an irrigation district first with domestic water customers and power generation added later. Mr. Maupin and his support team decided that an 8 million dollar pipeline was needed and irrigation customers' rates were to increase by 600%. I assume they thought that would get rid of us – because they had other plans for our water. They were shocked that we – both irrigation and domestic customers - fought the rate hike and won even though they put-up blocks to make this feat as difficult as possible for us.

It appears that they let the ditch go into disrepair on purpose and even though there is enough water this year for us to have had a full season of irrigation water – they couldn't and wouldn't deliver it to us and water was shut-off in July.

At the June meeting my husband gave a presentation of a product – concrete canvas – that is used all over the world for lining ditches and canals. It can be laid down without being the water off and could have fixed the worse leaks. At that

meeting Directors Jenny Cavaliere and Loren Olsen asked Jeff Maupin to hike along the ditch with them and show them the locations of the worst leaks and he agreed. The representative for this product agreed to also come. Although Jeff Maupin agreed to do the tour at the meeting, he refused to follow through. It's obvious to me – irrigation water running in our canals is not in his future plans.

If you've been to a meeting it's obvious that siding with Jeff Maupin and his three directors are some members of the Fellowship of Friends (FoF) who I believe would like to change zoning laws and develop "cluster housing" in the area. This type of development would need WATER. They supported the \$8,000,000 pipeline and did not support us in our effort to fight the fee hike.

Also on the same side is Supervisor Randy Fletcher who is supported by FoF and who had been spotted having lunch with Dale Skinner at a local café down the road from the District office. When Mr. Skinner was questioned about this private meeting, he replied that it was a free world and he could have lunch with anyone he wanted.

Director Jenny Cavaliere - supported by Loren Olsen – is the only director that asks questions at the monthly meetings and wants accountability for their irresponsible spending. If it wasn't for Jenny's questions we – the public – would have no knowledge of what is going on. In my view this is DECEIT.

Under the Brown Act the five directors – TOGETHER – are to discuss issues and give direction

to the general manager. This is absolutely NOT what is happening. They are so very disrespectful to her and to scare her into keeping quiet they decided to spend another \$22,000 of taxpayers' money to hire an investigator to research 4 allegations they came-up with against her. The special meeting in August to report the results of the investigation was a joke. It really showed me the extent of the desire of Director Don Ferguson to harass Jenny. He repeatedly asked the lawyer, who was reporting the investigator's results, how the board could censor Jenny on one of the allegations that was already revealed as untrue. Finally the lawyer told him, "It was an unfounded allegation so I wouldn't recommend any action on an unfounded allegation."

I write about all these points to give the public a glimpse of how unethical these meetings are. They do whatever they want with complete disregard for transparency and honesty. This is why the November elections are so important to us. Three of the five directors' seats are up for election. We need to win all three seats to have any say in what happens.

If you have a dog in this fight – then you know how you will vote. If you don't and you can sympathize with us – then we're asking for your help if you are either in District 1, 2, or 3.

We need : Alton Wright to win in District 1,

Terry Brown to win in District 2, and

Jenny Cavaliere to win in District 3

Margaret Kangas
Oregon House, Ca.

Seeking A Recall

We are seeking a recall of Lonetta Riley, Fred Northern, Steven Scriven and Paul Broughton. We are seeking this recall because we feel they no longer represent the community's voice. We need transparency from our board and our district office. Their inability to retain and attract teachers is a great concern. We started the school year with 40 unfilled positions. Our teachers had to go on strike before the board would give our teachers a fair raise. Meanwhile, they gave the Deputy Superintendent of Business, Robert Shemwell a 20% raise over the next 3 years. They appointed the new Superintendent, Doreen Osumi, without feedback from the community, and without exploring any other options. Doreen was also given, by the board, the same rate of pay as the retiring Superintendent of 11 years, Nancy Aaberg.

The YCUSD Board of Trustees continues to foster an increasingly hostile and negative environment in our community. We saw this when the Board put out their strike contingency plan. The Board implemented a plan that included threats to have teachers, parents and students arrested. Their plan also included offering to pay subs a premium wage

while refusing to acknowledge the problem of attracting and retaining quality teachers for our children. While on strike, numerous calls and emails were made to the board, most of which were never returned. Our questions went mostly unanswered.

There is a serious lack of communication with the board, district office and parents. The constant shuffling of administrators and counselors is harmful to our children. It's not just teachers that are underpaid and under staffed. We have many students in our district with life threatening conditions, without adequate nursing staff those children are put at risk every day. The counselor positions in our high schools have such a high rate of turnover that our high schoolers often have a new counselor every year. That is not conducive for our children who are trying to enter a 4-year college.

We will need to collect 6,558 valid signatures to get the recall to a special election. The special election will mostly likely occur in the spring of next year. We started this process with 10 strong individuals; we are in need for more community support in order for the recall process to be successful. If you would be interested in circu-

lating a petition in your neighborhood it would be extremely helpful. We also have several dates available to set up in front of many local stores and businesses. We cannot be successful without community support. Support us, your teachers, your community and all of our children. Please contact us for more information at Recall4Change@gmail.com

Remember in November

We are urging the community to Remember in November that our current board members have failed. There are three seats up for election and two of the incumbents are re-running. They had their chance and are not meeting expectations. We need fresh faces, fresh ideas, and fresh voices on our school board. Heidi Smyth is running for school board in area 1. Heidi has two children currently in the district and two that have graduated. Heidi has been a student advocate for over 10 years and is very educated in the Ed Code. Heidi does her research and asks the tough questions. She supported the teachers before, during, and after the strike. She was on the picket line every day and works to keep the community informed.

Sonya La Rocque
Yuba City, Ca

"The Real Facts Behind the \$47,000,000 High School Bond"

The Nevada Joint Union High School District (NJUHSD) is proposing to issue bonds in the amount of \$47,000,000 to repair and upgrade facilities at Nevada Union, Bear River, Silver Springs and McCourtney Road Adult Center. The bonds will be issued for a 30 year term and the interest payments will total \$29,420,000, for a total liability of \$76,420,000, per the calculation of the bond counsel retained by the District.

This type of expansion program would appear to be in response to a significant increase in enrollment. However, that is not the case. In 2000, high school enrollment in all schools was 4,604; in 2015 it had declined to 3,003 or a loss of 35% from peak enrollment. Further, from 2005 through 2015, intermediate school enrollment in the schools that feed the future enrollment of the high schools declined from 8,369 to 4,894 or a loss of 42% from peak enrollment. In addition, the NJUHSD forecast for enrollment over the next three years is for losses of 6% in 2016/2017, 5% in 2017/2018 and 8% in 2018/2019 (NJUHSD Budget for 2016/2017 – page 159). This represents a loss of 503 students and will bring total District enrollment down to 2100 students.

The proposed expenditures are contained in a list of 84 projects for the four locations and range from \$8,042,958

in new solar installations to reorganizing the storage containers at Nevada Union for \$3,564. Almost all of the projects are questionable, either in terms of whether the campus will be in operation long enough to utilize the facility, or if the repairs are really needed at this time, or has there been a justification based on cost reductions that provide a return on investment (all of the solar are in this category). But of especial interest are the replacement tracks proposed for both schools. The Bear River track is being replaced because it was originally constructed with English Standard dimensions (yards), but now they need a track based on metric dimensions so they are proposing to build a new track for \$758,000 instead of moving the finish line 10% further down the track to achieve a metric distance. Nevada Union does not have any justification other than the track is ten years old and they propose to build a new track for \$784,000. It is difficult to see any need in these new track proposals. Nor is the validity of need the only question in regard to the proposed projects. The listed costs are rough order of magnitude rather than engineered estimates, which raises the question as to their accuracy.

This entire bond proposal is the first phase in what will become a continuing cycle if it is

not defeated. First, the high schools are short of money because they are short of students. The current student deficit of approximately 1,000 translates into a funding shortage of \$9,000,000 per year, based on a state reimbursement of \$9,000 per student. These deficits have been accumulating over the past 15 years and translate into the cumulative deficit represented by this bond proposal. If this bond proposal is passed the funding problem will not be solved. The annual operating deficits will continue to accelerate as student enrollment declines and in four or five years the District will be proposing another bond to supplement operating costs. And the cycle will continue until the District Board faces up to the fact that one of the major high schools must be closed. At this point in time the District is proposing to spend an additional \$22,451,105 on facilities improvements at Bear River that will be a complete loss when the decision is made to consolidate the campuses.

A yes vote will enable the District Board to avoid the decision for another four or five years. A no vote will force them to confront the realities of declining enrollment now and make the managerial decisions that will save taxpayers \$76,420,000.

CalTax's David Kline to Speak at Taxpayer's Luncheon

David Kline of CalTax (California Taxpayers Association) will be the featured speaker at the Sutter County Taxpayers Association luncheon meeting on Wednesday, October 19. He will share

information on the 17 propositions on the November 8 ballot.

As Vice President of Communications and Research Kline fields media inquiries, oversees research projects and production of CalTax publications, and serves as editor of the CalTaxletter. Prior to his service with CalTax, he was a principal consultant and chief speechwriter for the then Assembly Minority Leader and worked for the Metropolitan News Company, first as the Capitol bureau chief and later as editor of Senior Spectrum

newspaper, which received several journalism awards during his five-year tenure.

"Our program will be interesting and informative. We encourage members of the public to join us," said Pat Miller, president of the Taxpayers Association. The noon luncheon meeting will be at Ruthy's, 229 Clark Avenue, Yuba City. Cost is \$20 with advance reservations required.

Reservations may be made by calling Pat Miller at 673-6562 or Elaine Miles at 671-7916.

Bernie Rechs, Running for MJUSD

It is an honor to currently serve Area 4 as your representative on the Marysville Joint Unified School Board. During the past four years, much has been accomplished at nearly all of the District's schools and facilities. Student safety programs and new projects have been completed, including the construction of many new buildings and the upgrading

of existing facilities in order to equip students with the skills necessary to meet the 21st Century advances in technology. All these projects are being accomplished while keeping the District fiscally sound. However, there is still much work to be completed. Many "hands on" and "trade preparation" classes, cut during the recession, are now in the process of

being restored. Having served the community as a teacher and coach at Marysville High for many years, I recognize the value of an education that also includes the skills needed in the workforce. I am asking for your vote in November, and I sincerely thank you for the confidence you have had in me during these past four years.

Republican Party October 8 Washington Square Park

Join us on Saturday October 8 2016 at Washington Square park, corner of E and 10th Street, as we Support our Republican Candidates. 10am to 3pm. Yard signs, bumper stickers, Republican Candidates in both Yuba and Sutter County have been invited to join us and meet with the public. Hope to see you there.

Yuba City Council Candidate Forum Scheduled

A forum for Yuba City Council candidates will be held on Thursday, October 13, at the Veterans Memorial Hall, 17th and B Streets in Marysville. Yuba Sutter Tea Party Patriots and the Sutter County Taxpayers Asso-

ciation are hosting the event. Confirmed participants are Manny Car-doza, Fotine Halikaskopriva, Shon Harris, Wade Kirchner, Jason Rikard and Dena Walker.

"We encourage vot-

ers to attend and hear the candidates speak about their priorities and positions on the issues," Taxpayers President Pat Miller said.

The event will begin at 6:30 p.m. with doors open at 6 p.m.

Sutter County Elections Launches Mobile Friendly Voter Information Website

As voting draws near for the general election, Sutter County's Elections Department is launching a mobile friendly voter information website specific to each voter's address.

"We're really happy to be able to offer a service that will give Sutter

County voters information about the candidates and measures based on their resident address they can access on a smartphone or from their desktop computer," said Sutter County Clerk-recorder Donna Johnston, the County's chief elections official.

After the voter enters their address as they are registered to vote, the guide will display candidates and measures specific to their address, along with candidate statements and photos, if they have been provided by the candidates.

As the election nears, a polling place locator with a map will be added to the website.

The voter guide is also screen-reader enabled for visually impaired voters.

The guide can be found by entering www.Sutter.YourVoter.Guide into an internet search engine, or through the Sutter County Elections website (click on the Voter Guide and Poll Place Locator link under Voter Information). The Elections website is http://www.co.sutter.ca.us/doc/government/depts/cr/elections/cr_elections_home

Overseas military voting is currently underway. Absentee balloting begins October 10. The last day to register to vote is October 24. Election day is Tuesday, November 8.

Your One Minute News Digest

by Don Rae

The recent Presidential debate was clearly a setup. Lester Holt showed his bias by asking Trump questions on Birther issue and Taxes. He failed to ask a single question of Hillary on the continuing scandals on her side of the isle. Why did Hillary act so smug and smiley? She knew in advance that she wouldn't be asked difficult questions.

The Russians are harassing our patrol planes in international air space. The Iranians are harassing our Navy and have captured our sailors. The North Koreans are firing missiles toward Japan and conducting underground nuclear bomb tests. China is flexing its muscle in the South China Sea. And Hillary says that our southern border is secure. How can it be said that things are better in our foreign relations under Obama?

It is clear that most Millennials don't know American history – or any history at all. Bill Clinton was impeached (although a Democratic-controlled Senate refused to convict) and disbarred as a lawyer. Why? Because he lied under oath. And that charge was only the tip of the iceberg of improper behavior while President. If Millennials went back and reviewed his time in Arkansas they could easily come to the conclusion – assuming they are logical – that another Clinton in the White House would be disastrous.

Then who are the "deplorables" that Hillary says support anyone but her? You are. Doesn't that make you feel good about her?

"Skydiving safety" is an oxymoron.

Moonbeam has actually signed a bill regulating "cow farts"! More fodder for late night comedians who love to make fun of California and our stupid laws.

At a Congressional Black Caucus press conference recently, Rep. Hank Johnson (D-Ga.) attacked Trump claiming he "continues to stoke the fires of polarization." This is the same Hank Johnson who recently compared Jews to "termites."

Brad Pitt allegedly yelled at his kids on a private plane. And the FBI is investigating. Why are they wasting resources on this parenting issue? Hopefully they'll do a better job than they did with Hillary.

In the 1970 book "The Taking of the Bastille", the author Jacques Godehot wrote that the French parliament disavowed the efforts of police to maintain order in Paris and blamed those who gave the order to

fire on the crowd instead of the looters and arsonists. Henceforth, the author commented, "the police proved reluctant to intervene, for fear of the magistrates' disapproval." This was in 1787. Sound familiar?

It was the Hillary Clinton campaign that spread the rumor in 2008 that Obama was not born in America and, therefore, might not be eligible to serve as President. Sidney Blumenthal spread the rumor according to McClatchy news personnel. Keep in mind the short bio used to promote Obama's book stated that Obama was born in Kenya and such was the story until 2007 when the claim was omitted. Of course the mainstream media forgets this as they pound on Trump.

Where is the media? Recall the media screeching about Trump's comments about Mexican rapists illegally coming over our Southern border? In Utah Tony Yapias became the media's poster child for claiming Trump was a bigot. Recently this stellar media darling was arrested for rape of an illegal alien. Neither Clinton nor Obama have commented on this hypocrisy.

Obama gave Baltimore \$2.3 million for "counseling and behavioral programs to improve the mental health of students who may have been traumatized by civil unrest." In short, if you cause a riot or participate in the riot, Obama wants to pay for your therapy. No jail term for illegal actions.

Obama recently told leaders in the black community the following: "My name may not be on the ballot, but our progress is on the ballot. Tolerance is on the ballot. Democracy is on the ballot. Justice is on the ballot. Good schools are on the ballot. Ending mass incarceration, that's on the ballot right now....I will consider it a personal insult, an insult to my legacy, if this community lets down it's guard and fails to activate itself in this election."

Obama simply can't do more than play on divisiveness and hate. Speaking in New York City he suggested Americans are biased against "powerful women," which is why Hillary isn't running away with this election. Of course, Obama, it has nothing to do with her record.

The Santa Clara Office of Education has involved itself with another phony progressive campaign claiming that teachers who mispronounce a student's name may cause that student to feel "anxiety and resentment." And to follow that psycho-babble, another set of "do-gooders" is now saying that such mispronunciation is a form of "micro-aggression." One former teacher even wrote that "mutilating someone's name is a tiny act of bigotry." Some 500 plus school districts have clamored to be on board with this politically correct farce.

Do you see a problem here? The California State Senate voted to "proceed to the Continuing Resolution (CR)", a bill to fund the California government until Dec. 9. There is no bill yet. There is no text. Yet the Senate voted 89 – 7 to proceed to this non-existent bill.

In Robert Coram's book "Krulak", the biography of Marine Lt. General Victor Krulak, some interesting comments on political activities of flag officers is discussed. "In Vietnam, it was the job of active-duty senior officers to present unvarnished advice to the president, but those generals, in every branch of the service, were silent and servile. At the end of the day, they were men of little integrity." Is today any different? We wonder.

The President of the San Francisco School District wants to remove the names of George Washington High School, Thomas Jefferson School, and Francis Scott Key School because these American patriots owned slaves. However, he wants to retain Harvey Milk School.

Trump says he wants to work with Russia. The Democrats go ballistic. Folks don't remember their history. Roosevelt (a Democrat) supported Stalin during World War II even though the Russian leader was a mass murderer.

The media says nothing again as Obama sends \$33 billion in cash to Iran. Isn't a cash transfer something a crook does?

If Hillary didn't know that a "C" on a document means confidential, she's too dumb to be a public official. Or maybe not. Seems like there are lots of those "dumber than a fence post" types in all branches of government today.

Meet and Greet

Congressional Candidate Eugene Cleek and Assemblyman Gallagher Submitted by Buck Weckman

Yuba Foothill and nearby residents are invited to a Meet and Greet Event with Third Congressional District Candidate Eugene Cleek and Third Assembly District Candidate James Gallagher. The event will include dessert and coffee and soft drinks. The candidates will provide a short presentation followed by an informal discussion with the audience. Also expected to attend are State Senator Jim Nielsen and Yuba County Fifth District Supervisor Randy Fletcher. This is a good opportunity for residents to meet their elected and potential representatives of the Yuba Foothill and Mountain Areas. The Meet and Greet will be on Wednesday, October 12th from 6:30 pm to 8 pm at the Alcouffe Community Center, 9185 Marysville Road in Oregon House.

Forbidden: Political Incorrectness Under Fire

Author, Chuck Frank

As a reference to this article, the initial part of the First Amendment to the U.S. Constitution is used below.

"Congress shall make no law respecting an establishment of RELIGION, or prohibiting the free exercise thereof; or abridging the freedom of SPEECH or of the PRESS..."

And now that we have covered the First Amendment as our template, it is time to move on to the next topic, and in case the people have not kept up with some of the latest changes since the Obama administration took over, censorship of texts and speech are now part of the plan. Fasten your safety belt.

For the record, a huge amount of money has been used for the purpose of "programming" the masses by changing the definitions of what people consider to be "acceptable" words or speech and also what people consider to be "unacceptable". More and more, the trend of political correctness, AKA, a government agenda, intends to shape the way that people think and also communicate with each other, day by day.

Now then for starters when it comes to correspondence or speech, the U.S. Army is now one of the latest victims. Excerpts and examples from a new Army manual instruct U.S. soldiers to avoid "any criticism of "pedophilia" and criticizing "anything related to Islam." Additionally, a

draft leaked to a newspaper also offers a list of "taboo conversation topics" that soldiers should avoid, including "making derogatory comments about the Taliban," "advocating women's rights," "directing any criticism towards Afghans," "mentioning homosexuality and homosexual conduct" or "anything related to Islam." I wonder if ISIS has been finally included in the mix?

Then there are volunteer chaplains for the Charlotte-Mecklenburg Police Department who are banned from using the name of Jesus on government property. Chaplains in the U.S. military are being forced to perform gay marriages, even if it goes against their personal religious beliefs. The few chaplains that have refused to follow orders know that it means the end of their careers. The Obama Administration banned the Words "Merry Christmas" for their VA Employees. Also, public areas of VA centers must be free of the word Christmas or the responsible employees could face punishment. Now, that's a great way to increase the morale of the workers in the Veterans

Administration. Right?

Here's the U.S. Department of Education's list of numerous words that are now forbidden in our nation's classrooms and/or on tests. Terrorism, freedom, Jesus Christ, religion, and Moses. Also, the word "Republican" is banned because it is associated with "dissent" and "obstruction", according to Department of Education sources. Other words banned are politics, and words that suggest wealth are excluded because they could make kids jealous. "Poverty" is also on the forbidden list along with cancer, Ronald Reagan, George Bush, and Homelessness.

Summing this all up, it is grossly clear that the First Amendment of the U.S. Constitution is being thrown out by an administration that has a dark agenda which pays no attention to the rights of the people.

House of Lords:
America in the Balance

Charles W. Frank

Introducing Team to "Turn Around Marysville"

Marysville, Ca. A rally was held Thursday, September 29th in front of Marysville City Hall to introduce the "Marysville Team". The team is made up of two Marysville residents who are stepping up to run for the Marysville City Council.

Stephanie McKenzie is a teacher, former Hospital Ward Secretary, business owner, mother

and resident of Marysville for 30+ years. David Hobbs is a retired painting contractor, father and resident of Marysville for 35+ years.

Both candidates have witnessed the decline of Marysville and have felt for a long time there was nothing they could do about it. Feeling enough is enough they are joining efforts to make a team and work together for the improvement of the city.

They feel that Marysville City Council has been hard on business with over regulation, a tax increase that when

passed, the city manager tried to give as raises to the employees, an expensive "Bounce Back Plan", the councilmen could not agree on the purpose of and now sits on a shelf gathering dust. The administration is top heavy on salaries.

"With a "Strategic Plan", none exists today, in place and a team approach we can turn Marysville around said," David Hobbs. " We can make Marysville business friendly and a place where people have good things to say instead of the negative." remarked Stephanie McKenzie.

Pet of the Week

Caesar (A160465) is a 1 year old male Maltese, in need of a fur-ever home. Caesar loves to get haircuts and looks super cute with his haircut! Check out Caesar and all of his other friends available for adoption at www.petharbor.com or yubacounty.acs.petfinder.com!

John Muir on the Yuba River

A talk by David Rubiales

On Friday October 7th at 7pm, retired professor and noted local author David Rubiales will give a talk on John Muir and his time on the Yuba River in 1874/75. Although many people have heard of John Muir and his advocacy for the preservation of the Yosemite Valley, not as many know that he spent time on the Yuba River. Mr. Rubiales' talk will focus on John Muir's vision of nature, how it relates to the National Park Service, and how it relates to the modern day vision of nature.

rectly to the current temporary exhibit at the Community Memorial Museum, which will be open for viewing before, during and following the talk. The exhibit, The National Park Service: 100 Years of Heritage, is a celebration of the 100th anniversary of the National Park Service, and includes work by many well-known local and regional artists. Guest curated by Don Payne, an artist whose work has been shown previously at the Museum, the list of included artists is as follows: Gregory Kondos, Frank Ordaz, Mary War-

ner, Shimo, Phil Gross, Bryan Christiansen, Paul Boehmke, Morris Cotter, Don Nice, Patris, Inger Price, Zbigniew Richard Kozikowski, Reif Erickson, Lance Copeland, and Don Payne.

Mr. Rubiales has written two books which are available in the Museum store, and has contributed to others.

The National Park Service: 100 Years of Heritage will be on display at the Museum through November 12th. The art is available for purchase during the exhibit, with some of the proceeds benefiting the Museum.

The Community Memorial Museum is located at 1333 Butte House Road in Yuba City. Regular open hours are Wednesday-Friday 9am to 5pm, and Saturday 12pm-4pm. Admission is free. For more information, call the Museum at 530.822.7141.

Friday, Oct. 7, 8:15 am: Sherie Brooks with Basket-Case Events discussing an upcoming Car Show.

Food and Farm News

Candidates post responses on agricultural topics

There hasn't been a lot of talk about agricultural issues so far in the presidential campaign, but Hillary Clinton and Donald Trump have each taken positions on topics affecting farmers and ranchers. The American Farm Bureau Federation asked each candidate to outline their positions, and has been posting their responses on a website this week. The two presidential candidates answered questions about farm policy, food safety, environmen-

tal laws, immigration and other topics.

Survey says millennials prefer premium wine

A thirst for quality and new experiences propel demand for wine among members of the millennial generation, according to a newly released survey. The annual survey of wine professionals by the University of California, Davis, issued Tuesday, indicates millennials consume more wine and higher-value wines than earlier generations. The survey also predicted an increase in

direct-to-consumer sales by California wineries.

Farmers harvest larger rice crop

Rice harvest has been ramping up in the Sacramento Valley, with farmers reporting the crop proceeding right on schedule. Cooperative planting weather in the spring and favorable growing conditions throughout the season should bring decent yields, and improved rainfall during the previous winter meant rice farmers could plant more ground. As a result, the state's total rice crop is expected to be up 30 percent from last year.

Experts meet to combat citrus disease

A plant disease that threatens backyard citrus trees and commercial groves alike will be the topic of a summit meeting in Riverside next week. The incurable disease--known as HLB or citrus greening--has caused severe damage in Florida and other areas, and has been found in a few residential trees in Southern California. Experts at the meeting will discuss efforts to control the disease and an insect that can carry it, known as the Asian citrus psyllid.

THE Brownsville Bailiwick & Beyond

We had never heard the term: Pinktober. A neighbor who had experience with her daughter fighting cancer at a young age suggested I look at two sites in l-net: stupidcancer.com and scarproject.com. These two sites are geared mostly for young people with cancer, but were very interesting. Cancer Awareness Month was founded in 1985 with the Estee Lauder Company instrumental in promoting the raising of funds for cancer research. Now many Race for the Cures are held; this practice was started in 1983 in Dallas, Texas and is now held in over 100 cities. The goals of groups are to fund research and raise awareness of the disease.

On Sunday, October 16, head over to the Chestnut Grove in Brownsville for the Chestnut Roasting and Wine and Olive Oil Tasting. The gate will open at 2:00. There'll be chestnuts roasting on an open fire, (can't say for sure if Jack Frost will be nipping at your nose, so come prepared). The bon fire will burn bright while you visit with friends and sip fine wine. The Chestnut Grove is located at 8979 LaPorte Rd, Brownsville.

The Hill Top Gang will be

serving their monthly breakfast on the second Sunday in November (11/13) from 8 - 11. However, they go "dark" in December, so you better enjoy a full breakfast while you can. Come on up to Ponderosa Community Center and follow your nose full of good breakfast aromas. Otherwise, it will be 2017 before you get another chance.

We will be taking a two week writing sabbatical

and our column will return on October 25. We wish you all a safe and wonderful two weeks. We shall return!

Look Back in Time - In 1920 Mount Lassen erupted again, heavier than the eruption the previous week. One could see a huge black plume over the crater (Let's hope it is quiet now).

Hope to see you in Brownsville soon.

Christine and Yvonne
