

Ernie F. Friesen Inducted Into RV Hall of Fame

All Seasons RV/Redding RV

Class of 2016

Ernie Friesen, owner of All Seasons RV Center in Yuba City and Redding RV was inducted last week into the RV Hall of Fame in Indiana. In 1985 Ernie Friesen ended a 20-year career with Nabisco and purchased All Seasons RV Center in Yuba City, California, and ten years later acquired Redding RV Center in Redding, California—both successful businesses today. From the beginning Ernie went far beyond being a great, customer-focused dealer and business owner, he volunteered countless hours in his local communities as well

as with the national RVDA and California RVDA. His volunteer leadership helped improve industry education and training, including serving as president of the Sacramento Dealers Association, RVDA board of directors, chairman of RVAM, and RVDA chairman of the board. On the state level Ernie was co-founder of the California RVDA and also served as its president from 1994 to 1996. In 1996, the Yuba City Chamber of Commerce named him Small Businessman of the Year. Then in 2007, RVDA named him the recipient of

its James B. Summers Award, the association's top service award.

Mae West's 1931 Chevrolet Housecar at RV Museum

Built for Paramount Studios to present to Miss West when she left vaudeville to make movies for the studio in 1931.

City of Live Oak Receives \$10 Million Grant

Live Oak, Ca.
The City of Live Oak received a \$10 million Transportation Investment Generating Economic Recovery (TIGER) grant at City Hall on August the 3rd 2016. The presentation included Congressman Garamendi, Sutter County Supervisors, Live Oak City Council members, Cal Trans Director Amanjeet Benipal and community members.

According to Action News the Federal Grant will be used for the Live Oak Streetscape Project, a State Route 99 highway

improvement project. SR-99 Is the main street and commercial corridor of the City of Live Oak, and the Streetscape Project will transform the downtown core by improving traffic flow, goods movement, air quality, and safety on the highway. It includes the addition of two travel lanes with a median, a two-way left turn lane, parallel street parking, highly visible crosswalks, separated pedestrian facilities that meet Americans with Disabilities Act (ADA) standards, and improved local street connections.

The total project will cost \$21.2 million, and the City requested \$15.7 million from the TIGER grant after securing a 25% non-federal match.

"This is a textbook example of good public policy. The federal government is stepping in to help the City of Live Oak transform its primary transportation corridor," Congressman Garamendi said after the announcement.

With this grant as the beginning, Cal trans will most likely continue the improvement to State Route 99.

"Focus on Marysville"

A growing group of volunteers have come together to focus on the future of the City of Marysville. The group is almost two years old now and are responsible for the Historic Fair earlier this year. Their focus is bringing life back to the City of Marysville and at the same time helping the local merchants be successful. This summer they are inviting those interested in this idea to join them in promot-

ing Marysville.

On the planning schedule is an Old Fashion Picnic at Ellis Lake on Sept. 4th, from 1 to 5 p.m. Just \$10 for adults and \$5 for children and they provide the food. Bring chairs, blankets, sun screen and an attitude of Fun.

On Sept 10th & 11th is the re-enactment of the Civil War at Rosser Arena in Beckwourth Riverfront Park. Two battles per day, a dance Saturday night,

camp open to see what life in the 1860's was like. Plus, tell your school to participate at Free School Day on Sept 9th for a living history re-enactment.

Next they will begin the planning for Old Fashion Marysville Christmas and then next year's Historic Fair.

If you want to get involved and have your ideas heard Call 530-415 3893 or consultfree-man@gmail.com

Sutter Co DA Exposes Sexploiting of Children

*Commentary
by Lou Binninger*

It's a good sign that the Sutter County District Attorney's office, once riddled with sexual impropriety, is now the lead agency exposing the seedy world of child sexploitation. In the last two weeks more than 30 men were arrested for arranging to meet minor girls for sex.

Under former District Attorney (DA) Carl Adams the DA's office was known for sexual promiscuity, a sexual harassment lawsuit against personnel and Adams resigning after admitting to engaging in sex with an 'escort' granted immunity in a murder case.

Current DA Amanda Hopper who once worked for Adams left his employ unhappy with the office culture. Hopper's lead investigator Jason Parker was the Yuba City Police detective charged with investigating Adam's improprieties. Parker, known for cracking cold gang murder cases, considered leaving law enforcement until the opportunity arose to work for Hopper.

In 2012, Deputy DA Clint Curry and his wife Meredith launched a nonprofit, Restoration Railroad, to raise awareness about human / sex trafficking and develop resources for victims in Yuba-Sutter Counties. Hopper's campaign to pursue child sexploitation cases must be good news for the Currys.

However, the level of sexual deviancy in Yuba-Sutter may be more than the DA's office and the courts can process without hiring more staff. They are dipping into a national epidemic, but one that the government has been conflicted about addressing.

The mayor of Stockton, Anthony Silva, 41 was arrested for playing strip poker with and providing alcohol to underage youth at a camp for high risk kids. Scott Silverthorne, 51, the mayor of Fairfax City, Virginia, was booked for offering meth for sex via a website for man-to-man hook-ups. A Yuba County Office of Education (YCOE) female teacher pled guilty and resigned after having a sexual run with her student, a Norteno gang member. After he hit the lust lottery his parents cashed-in on the county's deep pocket by suing YCOE.

Local politicians and law enforcement have been implicated in sexual activity with minors, some formerly charged and some not. The case of former Sutter County Sheriff Captain Lewis McElfresh is still being processed.

Meanwhile, late San Francisco Supervisor and pedophile Harvey Milk is honored each year on May 22 in California public schools as a gay rights activist. Homosexual SF Chronicle reporter and author Randy Shilts describes Milk's sexual exploits with teen boys in the book 'Mayor of Castro Street.' "Harvey always had a penchant for young waifs with substance abuse problems."

Now, Secretary of the Navy Ray Mabus is naming a Military Sealift Command fleet oiler the 'USNS Harvey Milk.' Politicians and Hollywood wink at Milk doing boys while law enforcement arrests locals with the same sexual appetite.

There is a movement by some university professors, politicians and homosexual activists to change the laws forbidding adult – child sex. North American Man / Boy Love Association (NAMBLA) is a pedophile advocacy group. Its stated mission is to abolish age consent laws criminalizing adult sexual involvement with minors. However, former FBI agent Bob Hamer who infiltrated the group said discussions at meetings focused on how to solicit children for sex and little on legislation.

President Obama revealed his sexual leanings by hiring pro-NAMBLA Kevin Jennings as his 'Safe Schools Czar.' Jennings is also known for founding the Gay, Lesbian and Straight Education Network (GLSEN). In 2009, Jennings partnered with Planned Parenthood to host a sex-education event now known as "Fistgate." The event taught 14 to 21-year-olds how to perform a dangerous sexual practice known as 'fisting.' Jennings resigned as Safe Schools Czar under pressure from family organizations and legislators prior to the 2012 elections.

Although the law prohibits adults having sex with children, Planned Parenthood (PP) is on record via film, audio recordings and interviews at clinics throughout the nation as refusing to report to authorities underage girls coming for abortions with their adult males. The men were boyfriends, pimps and traffickers. No questions were asked and no parents were contacted. The government values aborting babies more than the well-being and safety of pregnant child victims.

In terms of enforcement of laws to protect children, the federal and state government is double-minded and local action varies depending on the jurisdiction. Residents should be grateful that Hopper and Parker are leading the way in setting a community standard on valuing children.

THE Brownsville Bailiwick & Beyond

Soon it will be your last chance to enjoy an ice cream social at Yuba Feather Museum for this year; their season will be coming to an end on Aug. 27. This will be a chance to experience their annual flag retirement cer-

emony. If you have an American flag that needs to be retired, this is your chance to have it done the right way. It will be closing day for the museum and ice cream will be served. Another Ice Cream Social will be held on Sunday, Aug. 21. Their socials serve several purposes: brings neighbors and friends together to enjoy ice cream, makes some money in to support the museum (a gem in our local area), and

another chance to view the interesting exhibits created by members of Yuba Feather Historical Association. Please come on by.

Back to School! Those were three of the most dreaded words when I was a kid and the three most cherished words by my mom. For all you parents out there the back to school rush has begun once again. New shoes, clothes, reams of paper, binders, backpacks and the list goes on. You almost have to take out a second on the house to pay for back to school. For all of us driving our vehicles, be on the look out for the little darlings as they make their way to and from buses and cars. They have been known to dart out randomly. For all you kids, have a wonderful school year. It will be summer 2017 before you know it.

As this is being written, we have made it through the hot spell without any major fires in our area. We still have to be diligent and thoughtful about what we are doing. One spark is all it takes. In the words of Smokey Bear, "Only you can prevent forest fires."

Look Back in Time – In 1909 Dennis La Plant made a rich strike of quartz gold on his claim on Rabbit Creek (I'll bet there was some celebrating in La Porte area).

Hope to see you in Brownsville soon. Christine and Yvonne

Flag Football Coaches Needed

The Yuba City Parks and Recreation Department is in need of volunteer Flag Football coaches for ages 8 - 14. The league will take place from October 8 through November 5, 2016 and includes a one-hour weekly practice as well as one game per week. Please contact J. Long at the Recreation Department if you are interested, 822-4649.

Thompson Peak Lookout Temporarily Closed for Repairs

Quincy, Ca. – The Thompson Peak lookout and access road in the northeastern Plumas National Forest (PNF) will be temporarily closed from August 3 to September 30, 2016, due to construction activities. Fire watch coverage will not be affected by the closure.

"We've been unable to use the lookout since 2015 because of extensive windstorm and vandalism damage," said Scott Lucas, forest fire management officer for the PNF. "The goal of these repairs is to make the lookout operational again."

The communication system, also heavily damaged by vandalism, has been replaced.

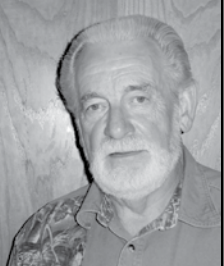

Although the lookout facility itself is currently unusable, fire staff have had other arrangements in place on the peak since last year to monitor for smoke and fire in the area.

For more information please contact the Beckwourth Ranger District at (530) 836-2575, and visit the Plumas National Forest website at <http://www.fs.usda.gov/main/plumas/home>.

FISHIN' TALK

by Boots Johnson

Dan "Boots" Johnson has fished and hunted in California for 70 years. Anyone with questions or comments can email him at boots3@syix.com

Reservoirs on the valley floor, in the foothills and in the Sierra Nevada Mountains are beginning to drop in water capacity. Lake Oroville, when we checked last Friday, was down almost 90 feet. Folsom Lake is also going down in capacity, dropping seven to eight feet a week. Of course, Englebright Reservoir is still almost full of water. Reservoirs in the mountain regions are not dropping as much as the reservoirs on the valley floor. This is common practice with water release increasing as the summer continues.

We have heard some good reports on ocean Salmon fishing. This means the fish will be coming up rivers in larger schools in the near future. Some party boats out of Eureka last week were returning to port by 8:00 A.M. with limits of salmon, while others reported fishing slow. The best bet is to get out there before or at first light.

The catfish are still cooperating at Collins Lake above Marysville. Reports tell us one of the cats weighed in at over 10 pounds. Bass are also being taken in addition to perch. A few trout are also on stringers and should improve with the cooler weather we are

enjoying at this time. The trout will move out of deep water in cooler weather which makes it a good chance for bank anglers to score.

We are told the kokanee salmon in Lake Tahoe are tearing up spoons, spinners and other lures at random which makes for lots of limits of these landlocked salmon. Also, the mackinaw lake trout are also cooperating with some fish being taken, both along South and North Shore, in the 10 plus pound range.

Trout plants are still in full swing and the Department of Fish and Wildlife have planted Blue and Silver Lake in Lassen County; Deer Creek in Tehama County; Bullseye Lake, Kangaroo

Lake, McCloud River-Fowlers Lower Falls, Medicine Lake and the Sacramento River in Siskiyou County and Upper and Middle Hat Creek plus all of the areas of Burney Creek in Shasta County.

Those anglers who hit the water at first light at Bucks Lake are enjoying some action from kokanee salmon and rainbow trout. When the sun hits the water it is time to head in for breakfast or fish in deep water.

Boots fishing tip of the week: When fishing for wild trout, including those plants which are holdovers, remember to walk softly around the edge of streams to avoid vibrations and always keep your shadow away from the water.

Two to choose from

Pro Fishing Guide Jeff Goodwin Shares Upper Sacramento Salmon Secrets

The Rooster Tails Fishing Club monthly breakfast will be held at the Auburn Elks Lodge on August 19. This breakfast event is open to club members, spouses, and non-member guests. Doors to the Lodge will open at 7:00 a.m. to share fresh brewed coffee. A fantastic \$13 wide-selection buffet breakfast is served at 8:00 am follow by a 9:00 am special presentation by guest speaker Pro Fishing Guide Jeff Goodwin, who will provide members and guests with his angling secrets for fishing the Upper Sacramento River salmon.

Reservations are not necessary to attend the Rooster Tails breakfast, but attendees are encouraged to arrive by 7:00 a.m. for a good seat. Interested non-member men and women anglers are welcome.

The Upper Sacramento River is the destination for migrating Pacific King Salmon with the famous Barge Hole being the fish-holding mecca for Northern California salmon anglers. Jeff will also include in his presentation tips for fishing for wild trout on a special stretch of the Upper Sacramento River above Redding. Jeff's expertise on plying these challenging waters is an accumulation of over 25 years of successful fishing and is in high

demand as a guide. The Upper Sacramento River is considered to extend from Shasta Dam, winding approximately 30 miles south, through the foothills between Redding and the diversion dam below Red Bluff. The Sacramento River holds by far the largest population of returning California Pacific Chinook salmon. There are four distinct runs; fall, late-fall, winter, and spring, giving the Sacramento River the unique distinction of having some salmon in its waters year-round.

The Sacramento River is the largest river and watershed system in California (by discharge, it is the second largest U.S. river draining into the Pacific, after the Columbia River). This 27,000-square mile basin drains the eastern slopes of the Coast Range, Mount Shasta, the western slopes of the southernmost region of the Cascades, and the northern portion of the Sierra Nevada. The Sacramento River carries 31% of the state's total surface water runoff and a primary resource for King Salmon migration

Fall King River Salmon season begins July 16th and runs through December 16th, you won't want to miss Jeff Goodwin's special presentation to maximize your opportunity to land fish. The fall

salmon are most often the biggest and brightest salmon of the year and occasionally tip the scales in the 50+ lb. range. The current state record King Salmon weighed-in at 88 lbs.! Breakfast attendees will hear about one of Jeff's specialties is his technique for 'boon-dogging roe' for these powerful, often chrome-bright big fish. Jeff is a licensed Fishing Guide by the California Department of Fish and Wildlife and holds a USCG GROUP-V Captain's License. He is also bonded, insured, and is certified in first aid including CPR.

The 30 year old, 200+ member Rooster Tails Fishing Club of Northern California, Inc. is a non-profit organization that meets the third Friday of each month to educate, entertain, and enhance a fishing experience. Unlike many bass and fly fishing clubs that concentrate on very specific types of fishing, the Rooster Tails Fishing Club provides a balanced mix of fishing techniques presented by fishing experts targeting a variety of fish species on multiple types of waters. For more information contact Jim, Club Chairman, at 530-887-0479 or visit the club's web site at www.roostertailsfishingclub.org

NOTICE OF PETITION TO ADMINISTER ESTATE OF Elda Virginia Detewiler Case NO. YCSCCVPB 16-0000081

To all heirs, beneficiaries, creditors, contingent creditors, and persons who may otherwise be interested in the will or estate or both of (specify all names by which the decedent was known): **Elda Virginia Detewiler**

A Petition for Probate has been filed by (name of petitioner): **April Crow** in the Superior Court of California, County of (specify): Yuba

The Petition for Probate requests that (name): **April Crow** be appointed as personal representative to administer the estate of the decedent.

The petition requests authority to administer the estate under the independent Administration of Sates Act.(This authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

A hearing on the petition will be held in this court as follows: August 29, 2016 at 9:00 a.m. in Dept. 4 located at Superior Court of California, County of Yuba, 215 5th Street Ste. 200 Marysville, CA 95901.

If you object to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

If you are a creditor or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either **(1) four** months from the date of first issuance of letters to a general personal representative, as defined in section 58 (b) of the California Probate code, or **(2) 60 days** from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code.

Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California Law.

You may examine the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for special Notice form is available from the court clerk.

Petitioner: April Crow
1763 State Hwy. 65 Space 10 Wheatland, CA 95692
Phone No.: 530-300-3794
PUBLISHED IN THE TERRITORIAL DISPATCH:
July 27, August 3, 10, 2016

SUPERIOR COURT OF CALIFORNIA COUNTY OF YUBA IN THE MATTER OF THE APPLICATION OF: **Mae Dae Trujillo. PETITIONER** **CASE NUMBER: YCSCCVPT 16-0000706.** **ORDER TO SHOW CAUSE FOR CHANGE OF NAME**

HEARING DATE:
August 29, 2016
DEPT: 4
TIME: 9:30 A.M.

Petitioner(s) Mae Dae Trujillo filed a petition with this court for a decree changing name as follows:

from: Mae Dae Trujillo
to: Honey Dae Freed.

IT IS HEREBY ORDERED that all persons interested in this matter appear before this court in Department 4 of the Yuba County Superior Court located at 215 Fifth Street, Suite 200, Marysville, CA on August 29, 2016 at 9:30 A.M. and then and there show cause, if any they have, why the petition for change of name should not be granted.

IT IS FURTHER ORDERED that a copy of this order to show cause be published in the Territorial Dispatch, a newspaper of general circulation published in this county, at least once a week for four consecutive weeks prior to the date of the hearing.

DATE: July 13, 2016

DEBRA L. GIVENS
JUDGE OF THE SUPERIOR COURT.

UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDINGS AGAINST YOU, YOU SHOULD CONTACT A LAWYER.**
On September 12, 2016 at 09:00 AM, The Fifth Street Entrance, Yuba County Courthouse, 215 Fifth St., Marysville, CA 95901, MTC Financial Inc. dba Trustee Corps, as the duly Appointed Trustee, under and pursuant to the power of sale contained in that certain Deed of Trust Recorded on March 12, 2013 as Instrument No. 2013R-003131, of official records in the Office of the Recorder of Yuba County, California, executed by DEIDRE A WILSEY, A SINGLE PERSON , as Trustor(s), in favor of BANK OF AMERICA, N.A. as Beneficiary, WILL SELL AT PUBLIC AUCTION TO THE HIGHEST BIDDER, in lawful money of the United States, all payable at the time of sale, that certain property situated in said County, California describing the land therein as: All that certain real property situated in the County of YUBA, State of California, described as follows: PORTION OF LOT 5, AS SHOWN ON MAP ENTITLED, "OSTROM TRACT ACRES", FILED MARCH 24, 1947, IN THE COUNTY OF YUBA, STATE OF CALIFORNIA, IN THE OFFICE OF THE COUNTY RECORDER OF YUBA COUNTY, IN BOOK 4 OF MAPS, PAGE 9, DESCRIBED AS FOLLOWS:BEGINNING AT A POINT ON THE SOUTHERLY LINE OF SAID LOT 5, DISTANT THEREON NORTH 89 DEGREES 28'30" WEST 117 FEET FROM THE SOUTHEASTERLY CORNER THEREOF; THENCE NORTH 89 DEGREES 28'30" WEST ALONG SAID SOUTH LINE 83 FEET; THENCE NORTH 0 DEGREES 04' WEST PARALLEL WITH THE WESTLINE OF SAID LOT 5, A DISTANCE OF 200 FEET; THENCE SOUTH 89 DEGREES 28' 30" EAST PARALLEL WITH THE SOUTH LINE OF SAID LOT 5 A DISTANCE OF 83 FEET; THENCE SOUTH 0 DEGREES 04' EAST PARALLEL WITH THE WEST LINE OF SAID LOT 5, A DISTANCE OF 200 FEET TO THE POINT OF BEGINNING. The property heretofore described is being sold "as is". The street address and other common designation, if any, of the real property described above is purported to be: **2457 MAGE AVE, OLIVEHURST, CA 95961-8101** The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the Note(s) secured by said Deed of Trust, with interest thereon, as provided in said Note(s), advances if any, under the terms of the Deed of Trust, estimated fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligations secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of this Notice of Trustee's Sale is estimated to be \$153,840.21 (Estimated). However, prepayment premiums, accrued interest and advances will increase this figure prior to sale. Beneficiary's bid at said sale may include all or part of said amount. In addition to cash, the Trustee will accept a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union or a

check drawn by a state or federal savings and loan association, savings association or savings bank specified in Section 5102 of the California Financial Code and authorized to do business in California, or other such funds as may be acceptable to the Trustee. In the event tender other than cash is accepted, the Trustee may withhold the issuance of the Trustee's Deed Upon Sale until funds become available to the payee or endorsee as a matter of right. The property offered for sale excludes all funds held on account by the property receiver, if applicable. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee and the successful bidder shall have no further recourse. Notice to Potential Bidders If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a Trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a Trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same Lender may hold more than one mortgage or Deed of Trust on the property. Notice to Property Owner The sale date shown on this Notice of Sale may be postponed one or more times by the Mortgagee, Beneficiary, Trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about Trustee Sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call Auction.com at 800.280.2832 for information regarding the Trustee's Sale or visit the Internet Web site address www.Auction.com for information regarding the sale of this property, using the file number assigned to this case, CA05001065-15-1. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. The Dollar Just a Note

When one thinks about the concept of a currency, the image of a paper dollar might come to mind. Whether it’s a U.S. dollar bill, a Mexican Peso or Euro dollar, the concept of using paper as money is a common denominator among most if not all nations. No two currencies are alike in their appearance and the way they are made valid and negotiable by their respective issuing governments can certainly have its differences.

Paper currencies are used and accepted only if both parties using them

JILIAN’S ALTERATIONS & DRY CLEANING MOBILE SERVICE

Specializing in Drapes, Alterations and Formal Wear.

JILIAN ALASKIN
530-751-3939

(the buyer and seller) have confidence in the currencies validity. Simply put, you take the currency for something you want to sell only because you have confidence the next person will take it from you when you go to buy something.

If you believed the currency would not be accepted when you go to use it, you wouldn’t accept it either. Just think of selling your house for a bag full of Mexican Pesos and you immediately grasp the confidence issue being discussed here.

In the past, the U.S. dollar was actually a receipt, whereas today it is a note.

What’s the difference you ask?

A receipt verifies a tangible object is held in trust. Imagine you take your chainsaw in for repair. The repairman gives you a receipt which says he has one chainsaw (yours).

The U.S. dollar (and indeed many others) used to be receipts such as these. They said “Silver Certificate’ along the bottom or top. Also printed on every one of them were the words: “This certifies that there is on deposit in the Treasury of the United States one dollar in silver payable to bearer on demand”.

In essence this was a receipt in the true sense of the word. For every dollar, there existed in trust one dollars’ worth of silver held by the U.S. Treasury of which you could claim by walking into any U.S. bank and plopping down the bill.

Since 1968 however

the promised redemption of such was broken by the government with the issuance of a new dollar and from then on you could only redeem them for a Federal Reserve Note, which is our current U.S. dollar.

Note the word “note” (pun intended). This change in the dollar’s wording from a certificate to a note was a substantial one.

When the wording changed, the dollar ceased being a receipt which represented something tangible sitting somewhere and became a note, which in essence is an IOU, hence the word note by its true definition.

What will you get today if you plunk down a U.S. dollar (Federal Reserve Note by its technical name) at your local bank and ask for redemption?

A blank stare.

The U.S. dollar is a note (debt) from the U.S. government. They will redeem these notes with just more notes, which is in essence, using a debt to pay a debt, if there is such a thing, and yes there is.

The U.S. currency and indeed most if not all currencies of the world are no longer receipts for anything. They are IOU’s from governments that will pay those IOU’s with just more IOU’s, which look, smell and feel, just like the original one. They are backed by nothing but the words on paper. No silver, no gold, no nothing. Now, don’t you feel better?

Imagine No Malaria

Limitless: a fun walk, rock, run to Imagine No Malaria
Sunday, August 14th
5k Walk and rock (in a rocking chair) will start at 9:30am
5k Run will start at 10am
Meal will be provided
Celebration and Limitless Production will start 11am.

Registration is free and can be done by visiting fumcyubacity.com; by visiting the office Monday through Thursday, from 9am to 4pm; and Friday, 9am to 12pm; or our facility on Sunday, August 7th between 9:30 am and 10 am. Registration on day of event is available as well.

The goal of this event is to raise awareness that Malaria still exists outside of the US and to raise funds for Imagine No Malaria. This organization takes a holistic approach to preventing Malaria from spreading in Africa from health education, clinics, anti-malarials, nets, and improving infrastructure. Check out imagineenomalaria.org for more information.

First United Methodist Church of Yuba City is dedicated to partnering with many community organizations in this community as well as overseas to improve the living conditions of the needy. These organizations include; Christian Assistance Network, A Woman’s Friend Casa De Esperanza, Lighting for Literacy, Stop Hunger Now, and Feed My Starving Children.

For more information about the above event, please call 673-5858 and ask for April. Our office hours are Monday through Thursday, from 9am to 4pm; and Friday, 9am to 12pm.

Food and Farm News

Experts say managed grazing benefits forests

Livestock grazing can reduce fuel for wildfires, but analysts say the number of animals allowed to graze on federal land in California has dropped significantly. Federal agencies have changed their policies, restricting areas on which cattle, sheep and other livestock may graze. University of California researchers say well-managed grazing can decrease vegetation that fuels wildfires, and grazing management has become increasingly sophisticated.

California reaches peak of melon season

Melon harvest has reached its seasonal peak in the San Joaquin Valley. Growers report excellent yields and quality. Harvesting crews will move through a melon field several times during the course of the season, to find the melons that have reached the desired quality, and growers say they’re harvesting record or near-record tonnage from their fields. California leads the nation in production of cantaloupes and honeydew melons, and ranks third in watermelon production.

Convenience affects Americans' food spending

What role does convenience play in people's food choices? Researchers at the U.S. Department of Agriculture analyzed data on food spending, and found

that what they called the "least-convenient" foods made up only about one-quarter of Americans' food budgets. Ready-to-cook and ready-to-eat meals took another quarter of the average household food budget. Spending on fast-food and sit-down restaurants made up half of total food expenditures.

Group plans to coordinate olive oil research

The rapid growth of

U.S. olive oil production has left an information gap that a California-based group says it wants to close. The American Olive Oil Producers Association in Clovis plans to develop a coordinated, national strategy for collecting and sharing data and research on olive oil. It won a grant from the U.S. Department of Agriculture to start the project. The association says domestic olive-oil production has nearly tripled this decade.

Donating Blood at Beale AFB

Marysville, Ca.

The summer season is always challenging for blood centers across the nation. This year has been especially challenging as there was a sharp decline in donations early in the summer and higher than normal blood usage. Blood donors can give every eight weeks (56 days) to make sure lifesaving blood products are available for every patient who needs them.

Blood donation takes about an hour. Seventeen million pints of blood were needed by patients across the United States last year and were donated by less than 10% of eligible donors. Be part of a small, but very special, community of life savers. Yes, you do save lives!

OPINION

County Counsel’s Neglect of Duty

Angil Morris-Jones, Yuba’s controversial County Counsel, still doesn’t seem to get the message: Within the last 20 months voters have ejected Supervisors Stocker, Griego, and Nicoletti from their long-termed seats. Back in February, Wendy Hartman, Yuba’s Planning Director was released from county employment, with no explanation to the public. Yuba CDSA Director, Kevin Mallen, should take note.

First-hand reports confirm that a decade of progressive, big-government, grant-thirsty momentum was frozen mid-air and is now being reversed in response to (If you can believe it!) the voters demand that they be heard! Non-elected’s are also to be held strictly accountable.

Consider this: County Counsel “. . . may be removed at any time by the board of supervisors for neglect of duty, malfeasance or misconduct in office, or other good cause shown. . .” Ca. Govt. Code 27641

Accordingly, a Section 27641 complaint hearing body is by law vested with power to compel witnesses, and require the production of any related documents and records.

County staff, including Mallen and Morris-Jones, all serve under the direction of the Board of Supervisors as a whole, and should never be directed by individual supervisors, including ex-supervisors to be specific. At two recent Planning Commission meetings, County Counsel’s Deputy Vacek gave Commissioners specific legal recommendations, but refused to substantiate the reasons for his position taken. This pattern and tone of arrogance is not only illogical, it may prove to be actionable professionally and ethically.

County Counsel Morris-Jones was involved with the exact ballot wording for defeated Measure T,

and according to one of the measure’s Supervisorial proponents, Morris-Jones actually helped in crafting the wording of the measure itself. This is strictly not allowed (Election Code 9313) as such participation was not authorized by the whole Board, and actually went against the Board vote not to support the measure. When draft ballot wording was shown in public session to lack the required impartiality, completeness, and clarity, Morris-Jones said it was only a “draft” and then went on to have it printed without any of the suggested changes.

Agriculture is the backbone of Yuba County which includes over 70,000 acres of grazing lands. The county’s General Plan specifically protects grazing lands and so directs county staff and Supervisors on shaping any land use policy affecting these lands outside of rural community boundaries. County Counsel’s ballot wording on Measure T showed potential bias in neglecting to give the true ramifications of a “Yes” vote on the measure that would have in effect “gutted” grazing land directives. Also, staff ignored the directive in shaping their own “Consistency Chart” without following directives, thereby making their chart “inconsistent with the General Plan itself.

Kevin Mallen’s office produced a informational FAQ-type document on Measure T and another on a connected issue known as 16LUP. Both of Mallen’s documents were seriously flawed and misleading. Whether they are purposefully written to confuse and deceive, or simply serve to reveal Mallen’s incompetence regarding 16LUP, may be irrelevant. The result misleads the public and Mallen should be held responsible for doing so. Here we are speaking of serious “mis-statements”

Likes Cleek

California in 2007.

Dr. Cleek was an Army surgeon in the Gulf War, volunteering for front-line service at the 311th Evac Hospital in Abu Dhabi. He cared for wounded American soldiers and POW’s along the borders of Iraq and Saudi Arabia and previously served at the 921st MASH Hospital. Dr. Cleek considers it an honor to have served our nation as a Lt. Colonel in the U.S. Army Medical Corps, completing thirteen years in the Army Reserves.

With deep roots in the Sacramento valley, the original Cleek family settled in Northern California in 1850, building the first frame house in Glenn County and recording their homestead in 1864. Dr. Cleek grew up harvesting almonds, olives, oranges

of fact.

Consider: On at least three occasions, staff, with encouragement from at least two supervisors, and questionable assistance from County Counsel, all seemed to conspire to undercut and treat with prejudice grazing land property rights and due process under General Plan directive NR3.1 while pretending not to do so. This is textbook “abuse of discretion” and a magnet for scrutiny from a newly empaneled Grand Jury with a history of interest in the Office of County Counsel.

Meanwhile, County Counsel failed, or refused to utilize the expert assistance of recognized land use attorney, William Abbott who has actually been chosen and engaged by Yuba County specifically for environmental and land use issues going back to 2006. Instead, County Counsel assigned the NR3.1 Grazing Lands directive project to the inadequately prepared in-house Chief Deputy County Counsel, John Vacek, who fumbled the ball repeatedly before his transfer out of Counsel’s Office. Vacek was part of the Yuba’s marijuana legal strategy group and is not a “land use” specialist, but rather a D.A.’s office counsel and litigator.

January, 2017 will see new faces shaping an incoming Board of Supervisors. They should get rid of County Counsel, then hire an actual expert, William Abbott, to take care of fulfilling the simple, easy to understand General Plan directive NR3.1.

Next, fire Kevin Mallen or demand that he recues himself due to his record of bias or incompetence, when Development Code language in brought into General Plan compliance with NR3.1’s Grazing Lands directives.

Nick Spaulding
Oregon House, CA

and walnuts by hand and now oversees a growing small ag business. He is well aware of the daily challenges farmers, ranchers, small businessmen, and veterans face.

As Dr. Cleek asks: “In a day when many make a career of politics, wouldn’t it be refreshing to have a U.S. Congressman who has spent his career meeting the medical needs of our community, protecting our nation through military service, developing job producing small businesses, and caring for the under-served at home and abroad? We think so and trust you will too.” November 8, 2016 -- Vote Cleek for Congress!

Carla Virga
Yuba City, Ca.

Patrick Dorinson to Speak at Tea Party

Yuba City, Ca.

The Sutter Buttes Tea Party Patriots announced author, radio talk show host, and national television commentator Patrick Dorinson, The Cowboy Libertarian, will be the Special Guest Speaker for their meeting, August 15, 2016.

The Cowboy Libertarian preserves the spirit of the American west, when you are ready to listen! Listen to his perspective on government and what is going on in the world today.

Patrick Dorinson is a political communications strategist, radio talk show host and commentator who has been on both sides of the aisle and in the aisle itself, having worked over the last 25 year for

Republicans and Democrats in both politics and government. He likes to say that "wisdom comes from experience, most of it bad" and like others before him his political and life philosophy has evolved over the years.

Of his political journey he says, "I have chased more false prophets than the ancient Hebrews in the Old Testament", and he has come to the realization that neither mainstream political party is willing or able to "fix what needs fixin'." He believes in rugged individualism and self-reliance. He believes that encroaching, intrusive government is the most dangerous threat to our freedom. And he believes that the simple truth that right is right and wrong is wrong still has meaning today even in this age of moral relativism and an "anything goes" culture.

Through it all he has come to consider himself a Libertarian Conservative who believes

in limited government in all things and the basic right of all Americans to live their lives as they see fit as long as they abide by the laws of the land. Or put another way, government should keep their hands off the public's wallet and their nose out of folk's private lives.

Don't forget – Our regular feature In The News with Paul Preston will follow our Special Guest Speaker. Paul will discuss issues of the day.

The meeting will be at the Church of Glad Tidings, 1179 Eager Road, Yuba City. Everyone is welcome to attend. There is no membership requirement and no charge. Doors open at 6:00 pm; come early to socialize with like-minded neighbors, enjoy the refreshments, and get a front-row seat.

Contact Larry Virga at (530) 755-4409.

Shon Harris for Yuba City, City Council

Yuba City, Ca

Yuba City native and career-long member of the law enforcement community, Shon Harris, launched his campaign to run for City Council for the City of Yuba City on Wednesday.

At a campaign kickoff rally at The Refuge Restaurant, the father of three stated that he plans to focus on improving the quality of life for Yuba City residents by creating a Community Volunteer Corps. “Enriching our small-town atmosphere by neighbor-helping-neighbor and business-helping-business is something that makes communities like ours unique,” said Harris. “I would like to work with the community and the other members of the council to create an environment where everyone can contribute in their own way – no matter how much or how little,” said Harris.

Harris expressed a strong desire to leverage resources and fully communicate to tackle regional issues in partnership with Sutter and Yuba Counties and the City of Marysville. “We’re all fighting the same battle,” said Harris. “It makes sense to address our shared interests collaboratively which will instill community pride while increasing effectiveness and improving efficiency,” said Harris.

Harris, a strong proponent of Public Safety,

observed that local law enforcement agencies throughout the nation are experiencing challenges finding officers due to the “war on police”. As a Councilmember, he plans to work to bolster morale inside Public Safety Organizations to attract and retain employees. “Our Government was created to protect the people of this great nation,” said Harris. “My job as a Councilmember will be to protect the freedoms and liberties that the residents of our small town deserve, while putting criminals in their place. Our public safety personnel deserve our full support,” he finished.

Shon Harris was born and raised in Yuba City. He is a graduate of Faith Christian High School, obtained an AS in Administration of Justice from Yuba College, and secured his BS in Criminal Justice from Sacramento State University. He now holds a MS in Criminal Justice Administration and Security. With 32 years of public service, he began his career in Law Enforcement in 1983 as a Ca-

det for the Sutter County Sheriff’s Department. He has since worked as an Emergency Medical Technician for Bi County Ambulance Service followed by four years as a deputy with the Yuba County Sheriff’s Department. Harris entered the California Highway Patrol Academy in 1995 and is currently a Captain, serving as the commander of the local area office. During his years in public service, he has obtained 15 years experience as a supervisor and over 8 years experience as a law enforcement agency manager.

As an active community member, property owner, and family man, Harris stated he sees the opportunity to serve on the City Council as a way to give back and continue to contribute towards making the City great. Harris is currently a Yuba City Planning Commissioner, a Board Member for the Yuba-Sutter United Way, a member of the Yuba City Masonic Lodge, Yuba City Moose Lodge, and Elk’s Club; and volunteers for the Big Brothers Big Sisters Program.

Your One Minute News Digest

by Don Rae

sive headlines to claim that Trump is “energizing White Supremacists.” Of course the most visible of the “White Supremacists” is the KKK. And, guess what? The KKK was started by Democrats.

- At least 19 people were killed and many others injured near Tokyo by a person using a knife. Japan doesn’t allow its citizens to carry firearms. How many of the folks would have been spared death or horrible injuries if a trained CWP holder were present? And why don’t we hear the “do gooders” crying out to license or ban knives?

- Since email began decades ago, we all have been warned that emails are not private. Yet so-called intelligent people at the DNC write dumb and damning things and spew them out to be read by all. Consider how many emails are under fire from Hillary’s days as a Secretary of State.

- Did you know that Democrats release all Pokemon bad guys? Their policy is catch and release.

- The Democrats have anointed Hillary as the best thing since sliced bread. However, consider this – the Clinton Foundation lists contributions from the Commonwealth of Australia and the Australian Agency for International Development in a range between totals of \$20 million and \$50 million. Australian Minister of Foreign Affairs Julie Bishop said that “since 2006, Australia has contributed \$88 million to the Clinton Health Access Initiative and its sister organization, the Clinton Foundation. What would happen to you if your tax reporting was this far off?

- Moonbeam’s speech last week chastised Trump for not mentioning “climate change” or “global warming” even once. Moonbeam, maybe he didn’t because there is no such thing or maybe he didn’t because if we don’t effectively deal with Global Terrorism immediately it won’t matter in the long run if the climate changes or the earth warms.

- Obama’s Presidential Library will be built in Chicago. It’s bound to be tiny to hold the one thin book of his accomplishments.

- The Associated Press reported that “as massive wildfires become

the norm in California” elaborate camps and supply operations have become the backbone of fighting fire. Perhaps the AP hasn’t reviewed the history of wildfires in the State. Wildfires have always been “the norm” in California. Even as far back as when the Indians tribes took advantage of them to force game into the open. Any review of the past decades will show much worse fires than this year.

- The AP’s ideology goes so far as to make excuses for terrorists when they report extensively on some “experts” claiming that “personal grievances, loss, anger and humiliation” set the stage for killing everyone in sight. How about a more simple explanation that adherence to a way of life which preaches kill infidels (infidels being anyone who does not profess Islam) probably is enough incentive for the true believers.

- A COX Media and American Transparency investigation showed the Veterans Administration (VA) has spent \$20 million on art over the last 10 years, \$16 million of that wasted during Obama’s tenure. The investigation pointed out one particularly egregious example: \$670,000 on two sculptures at a VA center for the blind. And you thought the Veterans weren’t being taken care of.

- In the past five years tax money for government schools in California has increased 52%. Has anyone seen an increase in the quality of education by any percent? And yet the teachers still demand more in their paychecks.

- It is reported that there were no uniformed police officers in the DNC convention at the demand of Hillary. This pattern fits as we go back to her years as First Lady as recalled by a Secret Service Agent at that time: “Hillary didn’t like the military aides wearing their uniforms around the White House. She asked if they would wear business suits instead. The uniform’s a sign of pride, and they’re proud to wear their uniform. I know that the military was actually really offended by it.” Will she, if elected, tell all uniformed officers to disrobe?

- Ann Coulter makes a significant point: “Whatever questionable choices were made at the Republican National Convention last week, I didn’t hear of a single speaker whose sole accomplishment was raising a delinquent who attacked a cop. But as the country reels from the cold-blooded murder of five policemen in Dallas and three in Baton Rouge, Lezley McSpadden, mother of Mike Brown, America’s most famous cop-assaulting criminal, appeared on stage at the Democratic National Convention.”

Chris Pedigo

Hat in the Ring for Marysville Mayor

Marysville, Ca.

Longtime Marysville resident and City Council Member Chris Pedigo announced Thursday July 28th that he has launched his campaign to become Mayor for the City of Marysville.

During his announcement, Pedigo stated that once he is elected Mayor, his primary objective will be to work towards making the Mayor’s seat a rotating position. He ob-

served that neighboring jurisdictions such as Yuba City, Live Oak, Yuba County and Sutter County have a rotating Chairperson or Mayor, while Marysville has an elected Mayor that serves a full 4-year term. “It’s time for Marysville to make this shift so that we can embody the visions of many leaders, not just the vision of a single leader,” said Pedigo. “I plan to bring this issue before the citizens of Marysville in 2018 and can assure the voters that the legislation will be ready to present at the first Council Meeting that I preside over as Mayor,” he finished.

Other objectives the Mayoral-hopeful identified as areas of focus are to create an environment to foster the incubation of new business and change

the image of Marysville to be the economic hub that it’s expected to be for Yuba County.

Pedigo was raised in the Yuba-Sutter area and is currently serving out his fourth year as a Councilmember for the City of Marysville. Among the accomplishments that bring him the greatest amount of pride are re-opening the Marysville Boat Dock in Riverfront Park, saving the taxpayers \$10,000 on safety improvements to neighborhood parks, developing a solution to the homeless problem that plagued Marysville for many years by bringing forth a no sit/no lay ordinance, and establishing a permanent sign honoring local rodeo legend Cotton Rosser at the Riverfront Park Arena.

Cardoza Seeks Seat on Yuba City Council

Yuba City, CA.

Manny Cardoza, lifelong resident of Yuba City has announced that he will seek office as a Councilmember for the City of Yuba City. Cardoza’s love for the city and desire to help it move forward led to his decision.

Cardoza attended local elementary schools, as well as Yuba City High

School. He worked in family owned, local businesses until he was hired by the City of Yuba City’s Finance Department in 1979. He spent more than 34 years with the City, most that time in the Public Works Department. Cardoza is also active in several community organizations including Early Risers Kiwanis Club, Peach Bowl Lions Club and a 36-year membership with the Yuba City Moose Lodge.

“Yuba City is my home and I chose to raise my 3 daughters here”, states Cardoza. “After spending my entire adult life serving the citizens of our community through my

work at the City of Yuba City, it’s a natural transition for me to work as a City Councilperson in my retirement years”, he continued.

In addition to assisting in the management of the City, Cardoza will focus on making sure fire and police departments are equipped to protect Yuba City residents as well as the growing issues of homelessness.

To get further information about the Committee to Elect Manny Cardoza for Yuba City Council, 2016, call Cardoza at (530) 763-2499 or email at manny4yccouncil@gmail.com.

Bill Simmons Running for Marysville City Council

Bill Simmons announced his candidacy for Marysville City Council.

In announcing my candidacy, I believe;

Marysville needs strong leadership, a leader who comes to the table prepared with creative ideas, not philosophy, and the political will to change the status quo. I believe serving on the council is a privilege; it is public service and not a political career.

I am that leader. My record of public service defends this statement. I pledge to you that I will continue working for you. I will remain committed to the Oath of Office and responsibilities of a Marysville City Councilman. I will continue to apply my experience, leadership skills, enthusiasm and persistence to Team Marysville, combined with the determination to return our city back to a thriving successful rural community.

We must be committed to the ongoing development of solutions

to our financial situation, restoration of our aging infrastructures, improving public safety, adequately staffing our Public Works Department and return city staff to a forty hour work week.

We must be proactive in establishing, defending and protecting our water rights, support local initiatives that insure we share in the revenues generated from the sales of our public resources and protecting our right to manage the ground water within the city limits. It’s our resources and our money.

Lastly, we must continue to promote our relationships with our Public-Private Partnerships. These partnerships are exemplified by the revitalization of Beckwourth Riverfront Park boat launch facility. The partnerships

encompassed Nordic Industries, Inc., Olivehurst, Ca., Pape’ Machinery, Sacramento, Ca, California Army National Guard, Heavy Equipment, Chico Ca., Yuba County Public Works, Marysville Public Works and the Marysville Red Neck Yacht Club, who invested their time and energy to this team effort. These partners funded their individual part of the operation pro bono. It is a tribute to their dedication to Marysville.

There are many opportunities and challenges that lay ahead of us. I am up to the task and absolutely convinced working together we will turn opportunities into success!

These are my motivations for seeking this office. If you support these ideas, please cast your vote for Bill Simmons on November 8th. It is a step in the right direction!

Samaritan Village Orphanage

Submitted by Joan Hackney

No doubt you have seen those commercials on television asking you to support a hungry child in some impoverished part of the world. All our hearts go out to those little children and some of us have responded to those ads, trusting that our small gift each month will make a difference in a child's life.

Well, do you know that right now in Tanzania, Africa there is a thriving Orphanage caring for abandoned children that was started by members of our own Yuba/Sutter

community? Samaritan Village Orphanage was founded in 1992 and began caring for orphaned and abandoned children in 1995. Since that time, it has saved the lives of over 110 children. It has grown from 3 infants to 33 infants and children and is poised to grow even more in the near future!

Infants who come to Samaritan Village are children who have either been orphaned or abandoned and who have no one else to care for them. While this is a

tragic and sad beginning, once each child arrives at the Orphanage, they join the Samaritan Village family. Here they live in a safe environment and receive stable, loving care by the nurses, "mamas" and the Orphanage director to ensure that they are able to achieve their own, unique God given potential. As they become old enough, they attend private, Christian schools where they learn to speak English, use a computer and acquire the knowledge and skills to become successful adults.

Samaritan Village is a private non-profit organization established and run by volunteers to develop, expand and maintain a Christian orphanage for the children of Tanzania, Africa. An all volunteer board meets monthly in Yuba City to raise funds to support the children. Members speak at churches and civic organizations and work on fundraisers throughout the year - all for the joy of providing for the care of these little ones.

The founder of this great effort is Elizabeth Mwalozi, a native of Tanzania. She was educated

in Christian schools while growing up in Tanzania. In 1964 she came to America to further her education and received her BA degree from San Francisco State University in California. She later became a teacher.

While a high school student in Tanzania, Elizabeth helped care for infants brought to the school nursery. The number of babies being brought to the school was so overwhelming that the school could only provide care for them until the age of two or three. After that the children had to be given back into the hands of relatives - relatives who themselves were poverty stricken and near starvation.

Tragically, most of the infants died soon after being released from the school nursery since the families were unable to provide adequate care. Elizabeth was a witness to this horror.

Answering God's call, Elizabeth decided to do her utmost to establish a permanent Orphanage in Tanzania.

When Elizabeth shared her story with a group of Christians in Yuba City, California in the early 1990's, the response was immediate. Through God's grace, these abandoned and orphaned children now have a place to call home.

Today, the Orphanage is located on 5 acres and includes dining and nursery facilities, dormitories, a chapel its own water well and it is nearing completion of a large, 3-story building. This new building will provide additional room for children plus a medical clinic where visiting doctors can attend to the health needs of the Samaritan Village children as well as the neighboring villagers. The clinic will be staffed by a full time nurse and donations are being received to outfit the clinic with necessary medical supplies.

From its start, the Yuba/Sutter community has generously supported this life saving mission. Individual donors, churches and businesses all join together to sponsor this mission.

On Sunday, September 11th at 5:00 pm at

Crossroads Community Church in Yuba City, you too can join with others in the community to support this life saving, child saving mission ! The evening will begin at 5:00 with a free spaghetti dinner and at 6:00 the crowd will be entertained by recording artist, Leon Patillo. The event is free to the public and a "love offering" will be taken to support the work of Samaritan Village.

Many will remember Leon from when he was a singer with the Latin rock and roll

group, Santana. As he says now, "from Santana to Hosanna!" Leon's concerts are always filled with excitement, humor and inspirational teaching. He crosses all age groups and ethnic boundaries and is a total performer who can sing, dance and motivate.

Please join with the others in our community for an evening you won't forget!!

Crossroads Community Church, 445 B Street, Yuba City, Ca. Questions: Please call 530-755-2588

CRITIC'S CORNER

by Matt Woolery

Star Trek Beyond

Starring: Chris Pine, Zachary Quinto and Karl Urban.

Rated: PG-13. Runtime: 122 minutes.

This is the third, Star Trek, movie for this current timeline. Judging by the box office receipts we can expect a few more. The crew and their flimsy ship are three years into their five year mission exploring uncharted space. I think the space was already charted, just not visited. But the writers wrote uncharted so I say uncharted.

The writing was good with the usual Star Trek formulas. Just like nearly every Disney character has dead parents, the Enterprise must be destroyed. The Enterprise seems to be made of low cost aluminum foil. They should have built a sturdier ship. Such as the Millennium Falcon. You can fly that through the dirt and trees and mountains at near light speed. The Enterprise is venting crew members thirty seconds into any engagement with a hostile force. So, if you are going to head out into space where you know folk can be hostile with ships that bore through planets and create black holes, it would behoove you to travel in ship that can withstand some extreme punishment. The acting was great and the effects were just down right fun.

Star Trek Beyond, earns four out of five, Try Transporting Enemy Boarders Into Space as They Force Their Way Onto Your Atmosphere and Crew Venting Ship Monkeys That Always Wear a Pressure Suit While Riding in Federation Ships.

Despite my ratings this is a fun movie to see and I look forward to seeing it again. There are some really nice space stations as well as interesting and fun alien life forms.

Anton Yelchin, the young man that played Checkov was killed in an accident. He was a great young actor that had and incredible range and energy that I was hoping to see for many years. He will be missed.

Pumpkin Village and Haunted Paintball Hayride

In just a few short weeks, Colusa's Pumpkin Village and Haunted Paintball Hayride will return for their second annual runs.

The Village is open October 15 and 16 for the whole family and October 17-21 for students. The Hayride kicks off on September 30 and is open every Friday and Saturday night through October 29.

The Village offers free parking and free admission. The Hayride is a \$15 per person ticket event. Pre-sale tickets for the hayride are available now at www.colusacountyfair.com or

by calling the fair office at (530) 458-2641.

Reservations are first come-first-served and pre-sold reservations guarantee a spot on one of the trailers for one of the 25 minute rides on the date requested. "Otherwise, we can't guarantee a spot or a requested date," said Fair CEO Jonathan Howard.

The volunteers and the Colusa Fairgrounds management and staff have been preparing for these two events most of the spring and summer.

We've added a lot to Pumpkin Village and the Haunted Paintball Hayride for this year," said

Howard.

"We couldn't do it without the help of volunteers and sponsors," he said. "If anyone is interested in being a part of this great family event, we'd love to hear from you. "Our goal is to continue to improve, grow and "fine-tune" these events," Howard said. "We want to see them become the "go-to" events for fall in this area," he said. "I think we've made a good start," he added.

Share ideas or volunteer by calling Howard at (530) 458-2641.

Community Events

Come join the fun. 9765 Marysville Rd. in Dobbins. Call 530-692-9404 to reserve a space.

Alice Rideout - renowned sculptor

Part 2 by Carol Withington

When the World's Columbian Exposition (Chicago's World Fair) opened in the spring of 1893, among the most unusual features included the immense sculptures and murals which decorated the Women's Building.

Over the years, any large-scale decorative features were the "domain" of men. This changed, however, when the female managers of the Women's building commissioned Mary Cassatt and Mary MacMonnies to create the monumental paintings for the grand hall. Other women designed the wall murals and stain glass windows.

When Alice Rideout was commissioned to craft the large-scaled sculptures for the exterior of the building, it was a chance of a lifetime. Born in 1874 in Marysville, the daughter of Capt. James Ransom Rideout, Alice was only 19 when she received the exciting news.

As a girl, the Rideout family had moved to San Francisco where Alice at-

tended high school. Following graduation, she pursued her studies at the San Francisco School of Design. She also studied with Rupert Schmid, a native of Germany who immigrated to the United States in 1884, later settling in San Francisco where he established a studio in 1890.

Over the years, Schmid was commissioned to decorate the Spreckels and Chronicle buildings as well as portrait busts of prominent persons of San Francisco. No doubt he had a major influence in preparing Alice for her next major endeavor.

According to the Women's Architectural Arts, Alice's twelve-foot allegorical statuary groups adorned the four corners of the Women's Building. The "enlightenment" group consisted of "the Spirit of Civilization holding the Torch of Wisdom" whereby Alice depicted a student at her right and a woman at her left "struggling through darkness for the light".

The "Three Virtues" group depicted a central figures of "innocence". In this group, charity was side by side with virtue, and sacrifice was further symbolized by a nun, placing her jewels on the altar.

The center of a 45-foot long pediment depicted Minerva with Wisdom's owl at her feet, and on either side, the work of women in the progress of civilization was typified by literature, art and home life.

Over 700,000 people attended the exposition, which ran from May 1, 1893 to October 30, 1893. Alice remained in Chicago during the event and then returned to San Francisco. The rest of her life is sketchy at best. All that is known is that Alice married Fred Canady, abandoned her art career and moved to Stanton Island, New York. However, her name remains listed among the renowned sculptors in our time and is still another legacy of the Rideout family.

Peach Tree Hits Milestone of Caring for the Community

Peach Tree Celebrates 25th Anniversary of Providing Services in Region

Marysville, CA. Peach Tree Healthcare, Inc. (Peach Tree Health) was established in 1991 and is celebrating its 25 year anniversary in 2016 through continued growth of caring for more community members and development of new sites.

Peach Tree Health's origins are rooted in supporting rural counties to meet the comprehensive primary care needs of residents. In 1991, the Yuba County Clinic moved from the former Yuba County Hospital and was renamed Peach Tree Clinic. In an agreement with the County, Fremont Rideout Health Group took over management of Peach Tree Clinic in 1992. Fremont Rideout successfully obtained Federally Qualified Health Center (FQHC) and 501(c) 3 non-profit status for Peach Tree Clinic in 2001. Peach Tree Clinic (doing business as Peach Tree Health) has operated as an independent community health center now for 15 years.

Peach Tree Health provides comprehensive medical, dental, vision and behavioral healthcare services across the life span in the Northern California Counties of Sacramento, Sutter and Yuba. Peach Tree Health operates eight commu-

nity health center sites and two mobile dental clinics, which serve over 27,000 patients through almost 90,000 visits. Peach Tree's services target the uninsured and underserved families throughout the region.

Peach Tree Health's growth continues with the opening of a new site in North Sacramento including primary care, vision services and immediate care services open seven days a week. Additionally, Peach Tree Health will be opening a comprehensive Pediatric Center including several pediatricians and a Pediatric Dental Center in

Yuba City in early 2017.

Peach Tree Health is committed to providing personalized, affordable, high-quality health services. "At Peach Tree Health, we provide high-quality health care to all of our patients. We have the expertise and skills to manage all primary care needs. We are here to keep our neighbors healthy and to continue to care for our community," said Greg Stone, Chief Executive Officer of Peach Tree Health.

1948 Cletrac by Oliver

by Rod Hisken

This beautiful little HG was restored by Fred Green of Paradise California. The late Fred was a friend and had a passion for excellence. His brother, Frank, lived just north of Oroville near the new overpass which splits traffic to 70 and west to 99.

Fred was a local tractor fan and sought quality not met by most in the hobby.

The Cleveland Tractor Company evolved from the Cleveland Motor Plow Company and was incorporated in 1916.

Rollin White, of sewing machine fame, was the organizer and provided the energy and culture which later became Cletrac and known for it's excellence of operation.

The original Cletrac was the 16-24 but proved to be substandard. Whites' partner, CA Hawkins and he went to the Panama Pacific International Exposition in San Francisco in 1915 where they saw the CL Best Experimental "Pony". The tractor was taken back to Cleveland for evaluation. Hawkins felt trying to sell the 16-24 of poor quality was a waste of time and had no future and left

White was famous for sewing machines, trucks, and automobiles. The truck

and automobile business had many challenges at this time and White felt there was a great future in tracklayer machines. He bought the Pony as a possible model for his efforts.

Hawkins came west and some of the negotiations occurred for his involvement in the Best Company occurred at the CL Best Duck Club in Colusa. Hawkins brought in \$500,000 and became President. Much of the money for the Best Corporation was from farmers around the Woodland region. Unhappiness was on the horizon.

White studied the Pony and built a tractor of 10 hp. 1919 saw a 12-15 hp unit. A Model H, a cultivator tractor was introduced in 1918. While Cletrac developed smaller tracklayers at their start, the line later included up to 100 hp diesels. The Model 80 was 100 hp and weighed 24,000 pounds.

A larger Cletrac, a few years ago, was sitting on a levee in District 10.

White invented Controlled Differential Steering which supplied power to the tracks while turning. The other systems were basically clutch and brake for turns. He was also the inventor of "Flash Boilers"

which made steam cars and trucks more practical. His brother Clarence manufactured steam and gasoline trucks. The Flash Boiler earned him a spot in the National Inventors Hall Of Fame.

Optional rubber tracks became an option and that development led to the Model MG that was used in WWII. The MG was assigned many tasks and pulling aircraft on carrier decks was among them.

The Cletrac, General, the only wheeled tractor, was introduced in 1939 and was referred to in a previous article "Badge Engineering".

This HG is believed to be a 1948. Production of the HG ended in 1951. Oliver purchased Cletrac in 1944. Oliver later called the HG the OC3 and improved to become the OC4. The HG was sold in 35, 42, and 68 inch widths. It boasted the Hercules IXA engine of 14 hp. The machine weighs about 3,500 pounds. The OC 3 had 22 hp. Fred did such an outstanding job with this tractor it was chosen to be the centerpiece in the January issue of Oliver Heritage Magazine 2010.

This little jewel will be on display on August 20 at the Bolt Tool Museum at 10 o'clock in Oroville.

Vintage Tractors lecture at Bolt Tool Museum

I will be giving a fund raising lecture on Vintage Tractors for the museum with a focus on Fred Green and his works of art.

So, please don't do as I did for years and pass the museum, stop and visit. it is truly a fascinating place for those interested in tools, machines and history. Once you go, you will bring your friends.

If you have an interest in Caterpillar, Best, or Holt tractors the book "Making Tracks" by Ed and Sue Claussen. Beaver Pond Press is very good and should be in your library.

Califia Café to Open at The Nevada County Fairgrounds

Operated by BrewBakers of Grass Valley,
Califia Café to open August 1

Califia Café, a coffee trolley serving coffee, specialty drinks and baked goods, opens to the public on Monday at Gate 1 at the Nevada County Fairgrounds. The café, operated by BrewBakers of Grass Valley, will be open from 11 am to 6 pm on Monday at Community Involvement Day, and will then be open each morning during the week from 7 – 11 am.

The Nevada County Fairgrounds is partnering with locally-owned BrewBakers Coffee and Pastry House to open Califia Café – a coffee trolley serving coffee, specialty drinks, and baked goods – at Gate 1 at the Nevada County Fairgrounds. Califia Café will open to the public for the first time on Monday, August 1, from 11 am to 6 pm at Community Involvement Day (a day to donate to nonprofit organizations while also receiving discounts on Fair tickets) at the Fairgrounds; and will then be open during the week from 7 – 11 am.

Califia Café, built using the trolley donated to the Fairgrounds from Bob and Debbie Peterson of Lazy Dog Ice Cream, is sponsored by Califia Farms and operated by BrewBakers. Beginning August 2, it will be open to the public from 7 – 11 am, Monday through Friday, at Gate 1 at the Nevada County Fairgrounds. During the Fair, the trolley will be relocated to the RV Park, and then returned to Gate 1 after the Fair. It will be open year-round and will serve coffee, lattes, cappuccinos, specialty drinks and pastries.

"We're thrilled to be making Califia Café a reality," said Rea Calender, CEO of the Nevada County Fairgrounds. "The Fairgrounds is known as a gathering place for the community and this is one more way of welcoming our community to the Fairgrounds and encouraging visitors to

stop by for a cup of coffee and enjoy the beautiful grounds."

"BrewBakers is excited to be partnering with the Nevada County Fairgrounds and opening the café," said Robin Spencer, owner of BrewBakers of Grass Valley. "This provides an additional location for us to serve our specialty coffee and pastries; and it allows us to be part of the Fairgrounds, which has been an important part of our family for many years."

Next time you're visiting the Fairgrounds for an event, walking or biking the grounds, or just driving by – stop by and enjoy your favorite coffee drink at Califia Café at the Nevada County Fairgrounds.

For a coupon for 20% off your first coffee, visit the Fair Office. The Fairgrounds are located at 11228 McCourtney Road in Grass Valley. For information, visit NevadaCountyFair.com or call (530) 273-6217.
