SacRT News Release

SACRAMENTO, CA (MPG) - On June 14, 2023, the Sacramento Regional Transit District (SacRT) along with GiddyUp EV Charging, Inc. and the Sacramento Municipal Utility District (SMUD) officially unveiled a new high-speed electric vehicle public charging hub at the Power Inn light rail station.

This public-private partnership offers a state-of-the-art charging solution for Sacramento's emerging electric vehicle market, aimed to meet the region and state's

sustainability goals, and provide a revenue sharing model for SacRT.

The Charging Hub is a large-scale network of Level 3 charging stations that provides the ability to charge both passenger and commercial vehicles simultaneously, and dramatically faster than the Level 2 chargers found in the majority of public charging stations. The new Charging Hub occupies 20 underutilized parking spots in the Power Inn light rail station. The Charging Hub will serve everyday drivers and commercial fleets alike, with several spots designed to accommodate

large fleet vehicles such as buses and semi-trucks.

SMUD estimates that there will be nearly one million electric vehicles in the region by 2040.

"California continues to lead the nation in setting big, bold climate goals and building the clean energy infrastructure required to make the transition from fossil fuels," said California State Treasurer, Fiona Ma. "Projects in local communities, like the Power Inn station charging hub, make electric vehicle adoption more attractive and charging more

Sac County Opens Welcoming Centers for Foster Youth

Sacramento County News Release

SACRAMENTO COUNTY, CA (MPG) - On June 16, 2023, Sacramento County's Department of Child, Family and Adult Services (DCFAS) will open three Welcoming Centers for foster youth to stay while the department searches for suitable homes and therapeutic programs to meet their needs. The centers are homes located in residential neighborhoods and staff will provide temporary shelter care for up to six children. The goal of the Welcoming Centers is to ensure a safe and supportive environment during the transition process.

DCFAS has submitted licensing applications to the California Department of Social Services Community Care Licensing (CCL) division for each of the houses. The centers will be operated by County staff temporarily while we increase capacity in home-based settings that have trained resource parents who are equipped to meet the needs of our youth. The centers are part of a larger effort by Sacramento County to facilitate timely placements, especially for teens and siblings who may take longer to find suitable home-based settings that fit their needs.

The County has been making significant efforts to transition youth out of the Warren E. Thornton Youth Center (WETYC) and into appropriate home-based placements. Placements are currently being identified or have been identified, for all youth at the facility. Unfortunately, a number of youths have chosen to exercise their right to refuse placements that have been located. These youth have experienced significant past traumas with their families and in home-based family settings that have been unable to meet their needs. Many have also been ejected from congregate care settings and may experience significant stress and difficulty when moving to new environments.

We acknowledge that children thrive in family environments, but we must respect their rights and provide them with the supports they need to increase their willingness to go to a placement. We work collaboratively with the child's counsel, community-based providers, advocates, and natural supports to accomplish this

Aerospace Museum of California Named 2023 Nonprofit of the Year

Office of Assembly Member Josh Hoover

MCCLELLAN, CA (MPG) - The Aerospace Museum of California is honored and deeply grateful it has been selected as a 2023 California Nonprofit of the Year by California State Assembly Member Josh Hoover, District 7. The museum is recognized for its exceptional contributions to STEAM education in the Northern California community.

The Aerospace Museum of California is an inspired place of learning, located in the heart of an underserved community. The museum is deeply committed to engaging the children and families that need it the most, seeking to ignite children's curiosity and inspire discovery and exploration through hands-on STEAM education.

Linda Martin, the Aerospace Museum of California's Board President, stated, "The museum is a testament to the generosity of numerous donors, the enthusiasm of over a million visitors, and the unwavering commitment of the Sacramento region over the last 40 years. The collective

From Left to Right: Tom Jones, Aerospace Museum of California Executive Director; Karen Jones, Advancement Director; Assemblyman Josh Hoover; Linda Martin, Aerospace Museum of California Board President. Photo courtesy of Assemblymember Josh Hoover

involvement of thousands of volunteers, staff, and board members exemplifies our community spirit. By preserving and celebrating our diverse history, the museum has positively impacted our community and enriched the lives of countless children and families. The Aerospace Museum's mission—to honor the past, inspire the future through STEM education, and spark children's learning—is truly transformative."

On June 7th, the

dedicated Aerospace Museum of California leadership will be presented with the 2023 California Non-Profit of the Year award at an exclusive ceremony held at the California State Capitol. "We are humbled by this award and extend our heartfelt gratitude to the Board of Directors, our remarkable staff, the outstanding museum volunteers, our invaluable aerospace and education partners, and the countless students and families who

have embraced STEAM education at the Aerospace Museum," said Tom Jones, Executive Director of the Aerospace Museum of California.

The community's commitment and support are key to the Aerospace Museum of California's success in igniting a passion for science, technology, engineering, arts, and mathematics among students. This recognition as the California Nonprofit of the Year for 2023 further

# California Museum Presents “Black Pioneers” Quilt Exhibit

**California Museum News Release**

**SACRAMENTO REGION, CA (MPG)** - The California Museum announces the opening of “Black Pioneers: Legacy in the American West,” a timeline of original pictorial quilts exploring the path of Black history in the West. On view from June 10 through October 1, 2023, the exhibit dispels the myth that Black people in the old West were mostly cowboys, showing the rich diversity in African Americans’ occupations and achievements in society, religion, education and the arts from 1528 through the Civil Rights Movement.

Organized by The James Museum of Western & Wildlife Art and curator, historian and artist Dr. Carolyn Mazloomi, Black Pioneers features 50 quilts created for this exhibit by the Women of Color Quilters Network.

“Quilts and quilt making are important to America and Black culture in particular because the art form was historically one of the few mediums accessible to marginalized groups to tell their own story, to provide warmth for their families and to empower them with a voice through cloth,” said Dr. Mazloomi.

Quilts were chosen as the exhibit’s visual medium because they highlight the intersection of African Americans in the western frontier with the art form’s important role in African American history. For African American

women, quilts have always been at the core of artistic expression, taking form in their social, economic and spiritual lives.

“We are honored to host Black Pioneers at the California Museum,” said Executive Director Amanda Meeker. “The quilts themselves are works of art, with elaborate materials and intricate details. The artistic and narrative elements of the quilts come together to create a powerful visual history lesson that we hope will leave visitors with an expanded view of Black history and American history.”

For more information on the exhibit, visit <https://www.californiamuseum.org/black-pioneers>.

The James Museum of Western & Wildlife Art, located in St. Petersburg, Florida, provides experiences that inspire human connection and transformation through art depicting the peoples, landscapes and history of the American West, and wildlife of the world. The museum engages the community through programs and educational opportunities, for all ages, that bring our history to life and amplify voices that are not often at the forefront of mainstream Western art.

Dr. Carolyn Mazloomi’s own quilts have been exhibited extensively nationwide. She also has curated 21 exhibits of quilts made by members of the Women of Color Quilters Network, a non-profit she founded in 1985 to educate, preserve,

exhibit, promote and document quilts made by African Americans. Among the exhibitions she has curated is Still We Rise: Race, Culture and Visual Conversations, which visually surveys 400 years of African American history. The largest traveling exhibit of African American quilts ever mounted, it appeared at the California Museum in 2018.

The California Museum—home of the California Hall of Fame—focuses on the state’s rich history, its diversity and its unique influence on the world of ideas, innovation, art and culture. Through interactive experiences, the Museum inspires visitors to make a mark on history. Located at 1020 O Street in the March Fong Eu Secretary of State complex, the Museum is open Tuesday through Saturday 10 a.m. to 5 p.m. and Sunday 12 p.m. to 5 p.m. General admission is \$8-\$10. Plan a visit at <https://www.californiamuseum.org> ★

# SMF Receives FAA Funding for Relocation of Air Traffic Control Tower

**Sacramento International Airport News Releases**

**SACRAMENTO, CA (MPG)** - The Sacramento County Department of Airports is excited to announce the U.S. Department of Transportation's Federal Aviation Administration (FAA) will provide funding for the Sacramento International Airport's (SMF) control tower replacement project.

The tower's replacement will be funded through the FAA's \$5 billion Bipartisan Infrastructure Law (BIL) funds also known as the Infrastructure Investment and Jobs Act (IIJA), which was signed into law by President Biden on November 15, 2021. The law authorizes \$1.2 trillion for transportation and infrastructure spending with \$550 billion of that figure going toward "new" investments and programs.

The FAA has started investing the first \$1 billion of \$5 billion into the country's air traffic control system. The funding will sustain, repair, or replace hundreds of buildings and pieces of equipment that make flying in the United States the safest in the world.

"We are thrilled, and greatly appreciate the support we've received from everyone involved in this effort," said Cindy Nichol, Sacramento County Department of Airports Director. "This new state-of-the-art tower will be a significant upgrade to the current facility that will enhance working conditions for air traffic controllers at SMF and ensure the continued safe and efficient management of aircraft operations at the Airport."

"Today's announcement has taken over a decade of dedication and collaboration – and I am proud that we have secured this funding to build our new air traffic control tower at SMF," said

Congresswoman Doris Matsui. "From the initial planning and design all the way to today's announcement, I have fought to ensure that decisionmakers at the highest levels understood the importance of getting this project to the finish line. Cindy and her team are always looking at new ways to improve the travel experience and safety of our airport. That's why I have been such a strong, long-time advocate for robust federal investments in their work. This new tower will continue to build on that progress and ensure our airport remains the gold standard for the nation."

Congresswoman Matsui is a champion of the Sacramento County Airport System and has long advocated for a new SMF tower – dating back to 2006. She has made numerous requests to secure funding through the annual federal budget, repeatedly urging senior FAA officials to take action and making personal appeals to three different Department of Transportation secretaries. Her unrelenting advocacy has been critical to securing funding for a new tower.

The current tower at SMF is owned and operated by the FAA. It was built in 1967, is 130 feet in height, and is located just south of Terminal B at the Airport. Given that tower is one of the oldest towers in the country, the FAA is prioritizing replacing it with a new, 192-foot tower in a new location on the north side of the Airport.

The new tower will be 100 percent funded with BIL funds, which are fully appropriated. The expected timeframe to complete construction is 2026.

"As we invest in the future of our nation's infrastructure, it is crucial that we prioritize the safety and efficiency of our airports," said Representative Ami Bera. "The building of a new

air traffic control tower at Sacramento International Airport is a significant step towards modernizing our aviation infrastructure and ensuring a seamless and secure travel experience for all passengers. This investment not only enhances the safety measures at SMF but also creates job opportunities and strengthens our regional economy. I'm proud to help secure this critical funding through the Bipartisan Infrastructure Law which will support a safe and resilient transportation system for generations to come."

The new tower will be constructed at a site located on the north side of the Airport. It will stand 192-feet in height and the current cost estimate is between \$60 to \$80 million.

"SMF remains a point of pride for Sacramento County, and with the recent news of available FAA funding for a new control tower, we can expect that our international airport will continue as the best of its size anywhere in the nation" said Supervisor Phil Serna whose district includes SMF. He continued by emphasizing that "safety and convenience at SMF are our top priorities, and a new state-of-the-art air traffic control tower will further enhance our ability to maximize both for the traveling public."

The Sacramento County Department of Airports is responsible for planning, developing, operating and maintaining the county's four airports: Sacramento International Airport, Executive Airport, Mather Airport and Franklin Field. Sacramento International Airport offers more than 155 daily nonstop flights on 12 domestic and international carriers to 36 destinations. The regional economic impact of the Sacramento County Department of Airports is more than \$4 billion annually. For more information, visit [sacramento.aero](http://sacramento.aero). ★

# African Lion Kamau Passes Away at Sacramento Zoo

Kamau. Photo courtesy of Sacramento Zoo

## Sacramento Zoo News Release

**SACRAMENTO, CA (MPG)** - The Sacramento Zoo is mourning the loss of one of our most charismatic and iconic animals, an African lion named Kamau. At nearly 17-years-old, Kamau was considered elderly. His longevity here at the Zoo is a testament to the care he received from his dedicated animal care professionals and veterinary team including specialists from UC Davis School of Veterinary Medicine.

Our staff did everything possible to make Kamau

comfortable and gave him the best quality of life in his golden years. Over the last few weeks, Kamau had developed worsening gastrointestinal problems with decreased interest in food, and the difficult decision to proceed with humane euthanasia was made when medical treatment options failed to provide sufficient relief from his condition.

Kamau came to Sacramento Zoo from the San Diego Zoo in 2008. For the 14 years that he called the Zoo home, visitors (and many Land Park neighbors) enjoyed his impressive roar. He would draw crowds from every

corner of the Zoo. In 2014, Kamau sired a litter of cubs and in 2019, his habitat doubled in size and a glass viewing wall allowed our guests to get "nose-to-nose" with both Kamau and his mate, Cleo.

Cleo, our nearly 18-year-old lioness is doing well. Our carnivore care team will be monitoring Cleo closely to ensure her wellbeing. She enjoys her regular training sessions and one-on-one time with her care team.

Kamau was adored by many over the years, and we appreciate the love and support of our Zoo family.

# New High-Speed Charging Hub Available at Power Inn Station

*Continued from page 1*

convenient for existing owners. It's projects like this that help California solidify its position as the country's leader in zero emissions vehicle integration into our way of life. Congratulations to SacRT, SMUD, and GiddyUp EV Charging on a successful public-private partnership!"

As a member of the State Assembly in 2011, Ma authored AB 631 which placed into law a California Public Utilities Commission decision not to regulate EV charging stations as utilities.

"This public private partnership is delivering state of the art charging solutions to help us meet the region and state's sustainability goals, while providing revenue sharing for SacRT. Offering a mobility hub for multiple transportation modes at our light rail stations is an excellent way to connect

riders and enhance our stations," said SacRT General Manager/CEO Henry Li.

"It's projects and partnerships like this that will increase EV deployment and help us expedite the transition to a carbon free economy," said SMUD General Manager and CEO Paul Lau. "Locating a fast-charging hub along a major thoroughfare helps increase access to varied forms of clean transportation. At SMUD we are partnering with our customers and community to bring electrification to under resourced communities, and this hub provides a bridge to get there."

"If we're serious about solving the EV charging infrastructure crisis, especially in underserved communities, we must get away from the idea that public EV charging is only for specific types of vehicles and slow charging. Public private partnerships like the SacRT Power

Inn Station are the logical way to bring fast charging options to all community stakeholders at no cost to taxpayers," said GiddyUp EV Charging, Inc Founder and CEO Chris Jerome. "Hopefully, GiddyUp's Power Inn partnership with SacRT inspires other communities to adopt the policy that fast charging has to be available for everyone."

GiddyUp EV Charging, Inc. is financing the purchase and installation of some of the fastest DCFC/Level 3 chargers in the industry, which will have the ability to recharge light and medium vehicles simultaneously in minutes compared to Level 2 chargers that may take hours. The Charging Hub is brightly lit and offers customers a high-tech security system using high-definition video cameras and real-time monitoring.

# Workplace Angst Helping ‘Job Killer’ Bills Survive In California Legislature

By Dan Walters, CALMatters.org

In the 27 years of the California Chamber of Commerce’s “job killer” project, it has followed a fairly predictable pattern. The chamber would annually designate several dozen legislative bills that business and employer groups considered to be particularly onerous – usually the highest priority measures of labor unions, environmental groups, consumer advocates and personal injury attorneys. One-by-one, most of the targeted bills would fall by the wayside and only a few, if any, would reach the governor’s desk and be signed into law. Overall, the chamber and its allied business groups have achieved about a 90% kill ratio. This pattern continued even after Gavin Newsom, arguably the most liberal governor in California history, took office in 2019. In the first four years of his governorship, the chamber tagged 94 bills as “job killers.” Just eight of them landed on Newsom’s desk and he signed six. So far, 17 bills have made this year’s list – an unusually small number – and more than half have already faltered, mostly failing to clear committees. One has reached Newsom

and been signed, but it’s a faint shadow of its original thrust. Newsom wanted to either tax or penalize oil companies for what he characterized as price-gouging, but settled for giving the California Energy Commission the power to investigate gas prices, set allowable profit margins and levy fines on those which exceed them. There are two tax increases on the chamber list, one imposing a wealth tax and another increasing corporate income taxes. Both, however, are nonstarters. The unusual aspect of this year’s “job killer” battle is that the eight bills still viable, having cleared their first legislative houses, all relate to one topic – wages and workplace conditions – and are sponsored by unions or personal injury attorneys. They are the political manifestation of what has become a very contentious labor relations atmosphere this year, not only in California but across the nation, due to high inflation and an overall shortage of workers. In the main, the employment bills’ sponsors contend they are needed to bring more equity to workers while the chamber and other opponents say they will raise costs and thus reduce the financial ability of employers to expand payrolls. The eight, in brief: •Assembly Bill 524, which would outlaw discrimination against a personal caregiver in employment, similar to the protection granted to persons on the basis of gender, age and other

personal characteristics; •Assembly Bill 647, which would enhance the job protections of grocery industry workers who are displaced by mergers, sparked by the pending merger of the Kroger and Albertsons grocery chains; •Senate Bill 365, which would make arbitration of employment disputes, which employers generally favor, less viable by allowing lawsuits to continue while employers seek judicial approval of arbitration proceedings; •Senate Bill 399, which would prohibit employers from disciplining any worker who refuses to listen to employer presentations on political or religious issues; •Senate Bill 525, which would increase minimum wages in the health care industry to \$21 an hour in 2024 and then \$25 in 2025, with cost-of-living increases thereafter; •Senate Bill 616, which would increase the amount of paid sick leave employers must offer from a minimum of three days a year to seven days; •Senate Bill 627, which would require retail and service chains, such as restaurants, to use seniority when deciding which workers to retain or transfer when closing outlets; •Senate Bill 723, which would make permanent a temporary law passed during the COVID-19 pandemic to protect return rights of workers in the hospitality industry who are laid off. Dan Walters has been a journalist for more than 60 years, spending all but a few of those years working for California newspapers. ★

# SacTax Challenges Pay Increase for Board of Supervisors

Commentary by W. Bruce Lee

On June 8, 2023, the Sacramento Taxpayers Association (SacTax) Board of Directors formally rebuked the Sacramento County Board of Supervisors for their recent decision to grant themselves a substantial 36 percent pay raise. Compensation would increase from \$127,000 per year to \$173,000 per year or by \$46,000. This action has captured the attention of the public and two primary reasons were given for this rebuke. First, considering the economic challenges the county is currently facing, the timing of the pay raise could not have been more inopportune. Second, the process of using the “consent calendar” for the passage of the pay increase in order to avoid public scrutiny is highly inappropriate. SacTax is dedicated to the highest levels of government transparency and meaningful government oversight by members of the public and media. It is worth noting that while the vote in favor of the salary increase was nearly unanimous, one supervisor, Sue Frost, stood against the decision. Supervisor Frost recognized the inappropriateness of the pay raise given the burden of the recent pandemic and current inflation on the economy. In contrast, the remaining board members chose to reward themselves, which can be seen as a selfish move by many. Even more troubling, median income in Sacramento is only \$36,152 — so a County

Supervisor will make nearly 500% more than their constituents. In fact, the pay raise they just voted for themselves is \$10,000 more than the ENTIRE ANNUAL INCOME of many of their hard-working constituents. This vote is an issue that is bound to generate controversy and divide opinions. On one hand, the board members justified the pay raise by citing the County Executive’s advice to the Board that a substantial increase was necessary as some media outlets quoted that Supervisor pay had not increased since 1991. However, in examining the public record it is discovered that from just 2012 to 2022 (or 10 years) the Supervisors’ base pay went up by \$34,000 a year, not counting a car allowance, pension, and higher pay for serving on regional committees and commissions that they appoint themselves to. That is a far cry from the claim that “Supervisors’ pay hasn’t changed since 1991.” Many Californians who have lost jobs during the pandemic will likely view the decision as tone-deaf at best and unjust at worst. The Board might argue that their work, which ensures Sacramento County is taken care of, should not go unrewarded, but the optics of their move in the present context could bring into question the decisions made by the supervisors. For example Alameda county was cited as compatible with Sacramento in population and was the basis for the 36% salary adjustment, yet housing prices which represent 40% of a household budget are double Sacramento County housing prices (\$1.1 million in Alameda vs \$550,000 for Sacramento County). The duplicity comes when the County Executive recommends raises for County staff using neighboring counties with lower costs of living than Alameda County to justify smaller staff wage increases. Also

shocking are the rumors of 25% wage increases for County Executives. This is outrageous. According to SacTax President W. Bruce Lee, “Being on the Board of Supervisors is a public service, not a way to pad one’s own pockets. We are not attracting candidates for public office because we offer a big salary. We are not trying to hire employees away from other companies as is done in the general marketplace. A reasonable wage is appropriate, but elected office is a service to the community and so many candidates run for public office for all of the wrong reasons – including money, ego, and fame. That’s how we get career politicians. Our electeds need to serve in office out of sense of duty – not out a sense of personal gain. I can guarantee you that if we pay \$173,000 for a county supervisor, we will not get a better supervisor than if we pay \$127,000. And, we can find highly qualified people to serve for \$110,000. Money is not the issue and should not be the motivation. Public duty and service should be the reward in itself. Remember, that US Senators and Congressional Representatives are paid \$174,000 per year.” The Sacramento Board of Supervisors’ decision to grant themselves such a huge pay raise is just inappropriate and wrong. Supervisor Frost, who vocalized her concerns and voted against the raise, deserves commendation, and the board needs to question County staff conclusions more and consider their constituents when making such decisions. SacTax hopes that during this budget season at the County the Board of Supervisors would revise downward their large spike in pay. W. Bruce Lee is the President of Sacramento Taxpayers Association. ★

Your Financial Life Depends on It

Dear Dave,

I've been struggling for about a year, ever since I made a stupid new-college-graduate decision to finance a car. It's a 2018 Jeep Compass, and I owe \$21,000 on it. The trade-in value is about \$11,000, so I really got stung on the sticker price and everything else. I also have \$85,000 in student loan debt and around \$7,500 on credit cards. The good news is, I make \$63,000 at my job, and that should increase to \$75,000 by January of next year. My girlfriend and I are renting an apartment and engaged to be married in 2025. How do I clean all this up before then?

— Austin

Dear Austin,

Well, the good news is,

Dave Ramsey Says

you have the rest of your life to never make this kind of mistake again. I'm really sorry you're going through all this, son. What a horrible thing to experience right after college.

So, you're \$10,000 upside down on a vehicle you owe \$21,000 on, right? The truth is, you're kind of stuck. If you're serious about getting out of this mess and not repeating the same mistakes twice, you're going to be working like a dog for the next year or two. Right now, you need a serious side job nights and weekends—maybe two. And I'm talking bare-bones living. No vacations, and no eating out for a while. You don't need to see the inside of a restaurant unless you're working there. Get what I'm saying? No unnecessary spending. Period. On top of all this, you've got to start living on a strict, written monthly budget.

Now, about your fiancée. I get the desire to fix things before you get married. But married people work together on this kind

of stuff all the time. Believe it or not, there's no perfect time to get married. I mean, it sounds like you two have already decided to go there and figured out neither one of you are perfect. That's just called being human. So, there's really no reason to wait on tying the knot at this point. And the truth is, the two of you can whip your finances into shape faster and much more efficiently working on it together—as a married couple.

Austin, I want you tear into this debt like your life depends on it. Because guess what, dude? It does!

— Dave

*Dave Ramsey is an eight-time national bestselling author, personal finance expert and host of "The Ramsey Show," heard by more than 18 million listeners. He has appeared on "Good Morning America," "CBS This Morning," "Today," Fox News, CNN, Fox Business and many more. Since 1992, He also serves as CEO of Ramsey Solutions.* ★

Sac County Opens Welcoming Centers for Foster Youth

Continued from page 1

mutual goal. For the few youth that refuse identified placements, or for whom it takes longer periods of time to find a placement, the Welcoming Centers will provide a safe community-based environment, while the department continues to work diligently to find placements and supports that can meet their needs.

Sacramento County is in the process of building a comprehensive system of care, supervision and supports for youth needing to be in short-term, safe, temporary care. Over the next six months, we will establish a number of emergency family homes that will be able to support individual children, sibling groups and youth with complex needs. We are grateful to our community-based partners who have stepped up to help us build this continuum so we can better support our youth.

"Sacramento County is not alone in facing difficulty finding safe, service-rich placements for youth with significant trauma and service needs that cross multiple systems," said Cathy Senderling-McDonald, Executive Director of the County Welfare Directors Association of California (CWDA). "This is a significant issue both statewide and across the nation." Find the full statement from CWDA regarding the need for service-rich placements for foster youth with complex needs here

In addition, DCFAS is developing prevention and early intervention strategies that will build on our long-term community-based investments in prevention services. The goal is to align with the statewide and national effort to establish a comprehensive framework that promotes child and family well-being by addressing social determinants of health, supporting families and addressing childhood trauma at an early age, while also connecting children and families to services and natural supports. Taking this approach can help prevent contact with the child welfare and juvenile justice systems.

We have been working closely with other child and family serving partners, including education, behavioral health, human assistance, juvenile justice, Alta Regional Services and many community-based providers to meet the immediate needs we are facing, while also developing the comprehensive system of prevention and early intervention. ★

SMUD to Hold Public Workshops on Proposed Rate Action

SMUD News Release

**SACRAMENTO REGION, CA (MPG)** - The SMUD Board of Directors is holding two public workshops and a public hearing to discuss proposed rate changes.

The Chief Executive Officer & General Manager's Report and Recommendation on Rates and Services, released by SMUD CEO & General Manager Paul Lau, outlines a proposed rate increase of 2.75 percent on January 1, 2024; May 1, 2024; January 1, 2025; and May 1, 2025. The proposed changes also include additional non-retail rate revenue to assist qualified customers on the Energy Assistance Program (EAPR) rate at 0-50 percent of the Federal Poverty Level, and other miscellaneous rate changes.

While SMUD works hard to control costs and operate efficiently, the need for a modest rate increase is attributed to several factors including wildfire prevention and mitigation, new generation projects, higher commodity costs for California clean energy compliance, infrastructure investment to maintain a reliable grid, customer programs, inflation and

increased operating costs.

SMUD is committed to keeping rate increases within inflation, and if the proposed changes are approved, SMUD's rates would remain among the lowest rates in the state—currently on average about 47 percent lower than neighboring PG&E's rates.

Detailed information on the proposed rate action and a complete copy of the Chief Executive Officer & General Manager's Report and Recommendation on Rates and Services can be found on [smud.org/RateInfo](http://smud.org/RateInfo).

SMUD will work closely with customers and other stakeholders—including community groups, service organizations, business groups, elected officials and more—to discuss these changes.

In addition, two public workshops and a public hearing will be held for customers to learn more about the process and comment on the proposed changes. Meetings will be held in-person and virtually via Zoom.

**Public Workshop**  
**Thursday, July 13 at 10 a.m.**

**Public Workshop**  
**Thursday, August 3 at 5:30 p.m.**

**Public Hearing**  
**Wednesday, August 30 at 6 p.m.**

Accommodations are available for disabled individuals. If you need a hearing assistance device or other aid, or have questions about the proposal, please visit [smud.org/RateInfo](http://smud.org/RateInfo) or call SMUD at 855-736-7655. Written comments can be emailed to [contactus@smud.org](mailto:contactus@smud.org) or mailed to SMUD, P.O. Box 15830, B256, Sacramento, CA 95852-0830.

As the nation's sixth-largest, community-owned, not-for-profit electric service provider, SMUD has been providing low-cost, reliable electricity to Sacramento County for more than 75 years. SMUD is a recognized industry leader and award winner for its innovative energy efficiency programs, renewable power technologies and for its sustainable solutions for a healthier environment. Today, SMUD's power supply is on average about 50 percent carbon free and SMUD has a goal to reach zero carbon in its electricity production by 2030. For more information on SMUD's Zero Carbon Plan and its customer programs, visit [smud.org](http://smud.org).

# Improved Passage Lets Threatened Sturgeon, Salmon and Other Species Return to Spawn

DWR News Release

**SACRAMENTO REGION, CA (MPG)** - Dozens of adult sturgeon and hundreds of other large fish including threatened Chinook salmon have moved safely from receding floodwaters within the Yolo Bypass back to the Sacramento River thanks to the coordinated operation of the Fremont Weir Adult Fish Passage among the California Department of Water Resources (DWR), the California Department of Fish and Wildlife (CDFW), NOAA Fisheries and Yolo County.

Over one 48-hour period when the Fremont Weir Adult Fish Passage was opened on April 28 and 29, the facility’s fish-counting sonar counted 55 sturgeon passing through the facility to the Sacramento River to migrate upstream and spawn. Sturgeon are large fish that often measure 6 to 7 feet long and certain species can live over a century. They must reach the river to spawn, which they do only every few years.

In another 24-hour window between May 3 and 4, seven more sturgeon passed through the facility. Hundreds of other large fish and Pacific lamprey were also counted moving back to the Sacramento River during the two operational windows in April and May.

Before the passage was modified and greatly expanded in 2018, biologists rescued trapped sturgeon and other fish species in the Yolo Bypass by hand. Stress from handling

This is the second year the Fremont Weir Adult Fish Passage has operated. Due to drought conditions, the facility was last operated in the winter of 2019. Photo courtesy of DWR.

could cause the fish to stop their upstream migration and not spawn. Finding ways for fish to swim through on their own – as they can do now – is highly preferable for the fish and for the safety of biologists working in the flooded conditions.

**Protected Sturgeon Benefited**

Given the time of year, scientists believe many of those sturgeon passing through the Fremont Weir were federally threatened green sturgeon in addition to white sturgeon. The sonar images don’t provide enough clarity to distinguish one species of sturgeon from the other. The southern population of green sturgeon in California is believed to number only around 1,000 fish.

“Green sturgeon are a threatened species that are so long-lived and with such a small population

that every fish is crucial in supporting their recovery, especially when they are of spawning age,” said Garwin Yip, Branch Chief for Water Operations in NOAA Fisheries’ West Coast Region.

White sturgeon in the Sacramento-San Joaquin system represent the southernmost spawning population of the species and support a popular recreational fishery.

“This is a huge success for these iconic fish species and for our agencies working together to support these species,” said Colin Purdy, Environmental Program Manager for CDFW’s North Central Region. “Those 62 total sturgeon could very well represent the majority of California’s spawning population for the season, so to get these fish to their spawning grounds is critical for recruitment and recovery.”

California’s sturgeon populations are particularly vulnerable after consecutive years of drought and due to an algal bloom that occurred in San Francisco Bay last summer that killed many sturgeon.

**Passage Allows Sturgeon Spawning**

Sturgeon are slow to mature. They spawn just once every two to four years. Like salmon and steelhead, they are anadromous, meaning they migrate up freshwater rivers to spawn. Sturgeon and other fish species enter the Yolo Bypass floodplain from the Sacramento River in high water years and can become stranded when the waters recede.

“Seeing so many fish utilize the Fremont Weir Adult Fish Passage in such a short period of time shows the success that can happen when state, federal and local entities work in partnership to develop

a plan to provide immediate relief to threatened and endangered fish species,” said Josh Martinez, DWR’s Restoration Ecology Unit Manager. “We’re especially grateful to Yolo County, which quickly communicated with surrounding communities that the adult fish passage would operate outside its normal winter season. This is a win for fish and the communities that depend on them.”

Oscar E. Villegas, Chair of the Yolo County Board of Supervisors, said, “We appreciate our state and federal partners’ early engagement on this effort and look forward to future collaboration in protecting and enhancing our mosaic landscape of agriculture and wetlands.”

Since 1965, a small fish ladder was in place in the northern end of the Yolo Bypass within Yolo County. That passage

through the Fremont Weir back to the Sacramento River proved far too small and difficult for large fish to navigate. White sturgeon can exceed 12 feet in length.

In 2018, DWR and the U.S. Bureau of Reclamation modified, modernized and greatly expanded the fish passage structure to accommodate sturgeon, adult salmon, large striped bass and other adult fish species. The upgraded structure includes a fish-counting sonar station, a large stream channel leading to and from the Sacramento River and a control gate that can be opened and closed remotely as needed to accommodate fish passage and water flows.

This is the second year the Fremont Weir Adult Fish Passage has operated. Due to drought conditions, the facility was last operated in the winter of 2019. ★
