## Champions Celebrate Comeback

**Pacers varsity football players parade on Grand Ave in Sacramento during the Saturday, January 21, 2023 celebration of the CIF State Championship football title for 2022.** Photo courtesy of TRUSD Communications

By Patrick Larenas

**SACRAMENTO, CA (MPG)** - Twin Rivers Unified School District (TRUSD) invited community leaders, students, parents and supporters to Grant Union High School for a 'Parade of Champions' on Grand Avenue, celebrating the school's attained 2022 sports championship titles on Saturday, January 21, 2023.

The 'Parade of Champions' recognized the Grant Pacers who claimed the "2022 state Division 3-AA championship for varsity football, the 2022 Metro League junior varsity football team, the 2022 Sac-Joaquin Section Division II basketball champs, and the AYF NorCal championship Jr. Pacers football teams and cheer squad."

Pacers varsity Football Head Coach Carl Reed was proud to be "bringing something positive back to the neighborhood" amidst the

**The Parade of Champions drew many who supported the celebration of state championship titles attained by Grant Union High Schools, including Sacramento City Mayor Darrell Steinberg on Saturday, January 21, 2023.** Photo courtesy of TRUSD Communications

much negativity that students have had to cope with in the last few years.

Reed, along with Co-head coach Sid Thompson, was referring to the season of victory which culminated in the 36-34 victory over the San Jacinto Tigers in the title game on Saturday, Dec. 10, 2022.

Thompson credited not only their players but the community for its support and culture during a season

that saw Grant's first CIF state championship appearance since 2008.

The parade also celebrated the boys basketball team's victory on February 25, 2022, in the Sac-Joaquin Section Division II, where the Grant Pacers defeated the Granite Bay Grizzlies 65-58 at Golden 1 Center for the championship title.

In a telephone interview, Boys Basketball Head Coach Deonard Wilson said

the 'Parade of Champions' for the Pacers basketball team had been postponed from early 2022 because "COVID 19 delays made permits to close streets a logistical challenge."

"But the district wanted to make sure that we were recognized," added Wilson.

He celebrated with team and staff the titles for both 2019-20 and 2021-22 seasons.

"We won the last two championships back-to-back," said Wilson, since the intervening year championship was not held due to COVID 19. The Pacers held their ring ceremony earlier on January 6, 2023.

Also celebrating the occasion was Sacramento City Mayor Darrell Steinberg riding the parade in a 'Scooby-Doo' inspired 'Mystery Machine' van. "Grant High School has so much to be proud of. Not just the football team, but the way it builds community," said the mayor. ★

## California Loses Population Again

**Commentary  
by Ted Gaines**

California reigned for decades as the unmatched destination for people around the country. Now people can't leave fast enough. Recently released numbers from the U.S. Census Bureau indicate that between July 2021 and July 2022, California lost roughly 343,000 residents to other states. This number is a "domestic net migration" figure, meaning that 343,000 more Americans moved out of California over those 12 months than moved here from other states.

Where are they going? The number-one net migration winner over that period was Florida, which gained around 319,000 residents from other states.

It's too easy to say exclusively that Newsom is driving people out of state and Florida Governor Ron DeSantis is attracting them, but to the extent the two governors symbolize different approaches to taxation, regulation, and liberty, it holds true. People are leaving Newsom-like states and flocking to DeSantis-like states. If you want to handicap the 2024 presidential election, this is a good place to start.

The states shedding domestic population are progressive strongholds, with extensive regulatory regimens, strong public employee unions and other Democrat policy priorities. They are, simply, big government states. High tax, high cost of living states. Joining California in the top five net losers are New York, Illinois, New Jersey, and Massachusetts.

States attracting Americans are lower-cost, lower-tax, Republican strongholds. Trailing Florida in the top five net gainers are Texas, North Carolina, South Carolina, and Tennessee.

And even if your individual tax burden is not too bad in California, big government, supported by high taxes (regardless of who pays them) indicates a mindset that the state should always be doing more and additional money for government is inherently good.

This bigger-is-better approach leads to government solutions in search of problems.

It's why California government seeps into every crack of your life, blocking the exercise of what you can eat, what house you build, what car you

## Message from TRUSD Superintendent

To Staff and the Twin Rivers School Community,  
Winter break is behind us, but the winter storms continue. I want to take a moment to thank the many TR team members who worked tirelessly to help ready and attend to our schools during these storms. Our maintenance team is a remarkable group of hard-working dedicated individuals who, without fanfare and spotlight, work to keep our schools safe for students and staff.

While we did have some issues, mainly with power outages, I am glad that these issues are behind us, and I am grateful to the staff for keeping the schools open so that families had the choice to send their children to school or keep them home. Offering this option was most considerate of those families

Steve Martinez

whose situation was best addressed by sending their children to school.

As we return to school from winter break, I share with our families

the importance of sending their children to school every day, ready to engage and ready to learn. Drawing from my experience as a teacher, I can

tell you that the period of time between winter and spring breaks is when teachers push through a lot of curricula with students. Because the classroom routines are fully familiar and the teachers and students have their established rapport, our teachers can optimize these learning conditions to work steadfastly with students on their learning.

It is a very exciting and productive time in the school instructional calendar. Let's all work together to inspire and encourage our students to lean into their learning to explore their potential and attend all classes ready to listen, engage, ask questions, and learn.

Steve Martinez,  
Ed.D. Superintendent,  
Twin Rivers Unified

# December New Home Sales Up 45% From November

While we will see challenges in 2023, we believe the market will likely gradually improve as buyers continue to adjust to the new normal in mortgage rates. Image by Paul Brennan from Pixabay

**NSBIA Press Release**

**SACRAMENTO REGION, CA (MPG)** - New home sales rebounded in December around the greater Sacramento region, with 372 sales recorded in the eight-county area, a 45% increase from November, the North State Building Industry Association reported today. Excepting the past two pandemic years, that is the best December BIA homebuilders enjoyed since 2006 and the best month in 2022 since April.

The solid December figures pushed the year's total sales to 5,010, in line with the yearly totals recorded between 2015 and 2019.

Michael Strech, the BIA's President, and CEO said the yearly totals show that the demand for new homes in the region remains strong.

"It's clear that if we look at the year as a whole and not just the slowdown in mid-summer caused by the steep interest rate increases, sales continue to move towards levels we saw in the

years before the pandemic generated the sharp increase in sales in 2020 and 2021," Strech said.

"The demand for housing, particularly for new homes, remains as strong as ever in the region, so while we will see challenges in 2023, we believe the market will likely gradually improve as buyers continue to adjust to the new normal in mortgage rates."

Highlights of the monthly and annual sales figures (excluding the additional 120 sales during the year) include:

Sacramento County sales broke Placer County's six-month winning streak in December, but just by one sale, 169 to 168. Sacramento County sales narrowly outpaced sales in Placer County for the year as well.

Yuba County reported the third-highest sales totals in the region, outpacing El Dorado County.

Because very few homes are still available in the \$300,000-\$350,000 range as those older communities

are now nearly sold out, the monthly total was actually -3 in that price range as three previous sales were canceled.

Strech said the fact that most sales are in the \$500,000 range and above shows the impact of higher government fees, a limited supply of land on which to build, and regulatory delays and barriers that make production of more-affordable homes extremely difficult.

"As our poll showed last fall, an overwhelming majority of Sacramento-area residents are deeply concerned that their children and grandchildren will not be able to afford to buy a home in our region," Strech said. "It's essential that state and local policymakers enact reforms to encourage new home construction to bring the market back into balance. Otherwise, the affordability crisis will only grow worse."

The BIA's sales figures cover Sacramento, Placer, El Dorado, Yolo, Yuba, Sutter, Amador, and Nevada counties. ★

# Farm Bureau President Re-Elected to National Leadership Post

**California Farm Bureau Press Release**

**SACRAMENTO, CA (MPG)** - California Farm Bureau President Jamie Johansson has been re-elected to a two-year term as one of six executive board members for the American Farm Bureau Federation.

Johansson, who will represent 13 western U.S. states on the executive board for the national agricultural organization, was elected during the AFBF's 104th Convention in Puerto Rico this month.

"It is an honor to continue to serve during this critical chapter for America's farmers and ranchers," Johansson said. "We are working to pass a new Farm Bill in Congress to secure our food supply and to help our

family farmers at a time when more than 50% are reporting negative earnings. I am also committed to ensuring that construction begins on long-overdue federal and state water storage and conveyance projects.

"For too long, our farmers have endured devastating water supply cuts during dry years. And now, after historic storms in California, we are watching uncaptured water simply flow into the ocean due to our state's lack of resolve for completing projects voters approved years ago. We can no longer accept inaction."

The California Farm Bureau works to protect family farms and ranches on behalf of nearly 29,000 members statewide and as part of a nationwide network of 5.3 million Farm Bureau members. ★

# National Anthem Auditions to be held at Sutter Health Park

**Sacramento River Cats News Release**

**WEST SACRAMENTO, CA (MPG)** - The national anthem is open to all soloists, groups, and instrumentalists. Those interested in performing the national anthem at a 2023 River Cats game must submit an audition demo by Friday, Feb. 10.

**Audition Demo Guidelines:** A cappella version; The Star-Spangled Banner in full; Clear, consistent, and correct lyrical performance; And, full performance must be under 90 seconds.

Audition demos must be emailed as an mp3 file or YouTube link to marketing@rivercats.com with the following information: Subject: 2023 National Anthem

To perform the national anthem at a 2023 River Cats game, you must submit an audition demo. Photos courtesy of Sacramento River Cats

Demo; Include: Name, Phone Number, and Email.

Submissions that do not meet the above guidelines will not be considered for a call back. Demos received past the due date will not be considered.

The River Cats will

invite the top-50 submissions to a live audition at Sutter Health Park. Due to the number of demos received, performers will only be contacted if selected. Selected parties will be contacted with further instructions the week of February 13. ★

# Join Subcommittee to Help Justice-Involved Youth

**Sac County News Release**

**SACRAMENTO COUNTY, CA (MPG)** - Are you interested in an exciting opportunity to make a positive impact on justice-involved youth in our community? The Sacramento County Juvenile Justice Coordinating Council (JJCC) Subcommittee is looking for community members like you!

JJCC Subcommittee members help educate the public about Senate Bill 823, also known as Juvenile Justice Realignment, which gradually transfers the responsibility for managing youth, housed at the California Division of Juvenile Justice, from the state to local county jurisdictions.

As a community member, you will work directly with the Chief Probation Officer and representatives from Behavioral Health Services, Child Protective Services, the District Attorney’s Office, the Public Defender’s Office, Sacramento County Office of Education and the Superior Court to develop and provide program updates for the Sacramento County’s local Juvenile Justice Realignment Plan.

Current JJCC Subcommittee members hope to find individuals who have an interest in providing and leading program ideas to implementation, thereby positively influencing justice-involved youth

residing in Sacramento County’s Youth Detention Facility.

Providing appropriate rehabilitation and programs strengthening pro-social skills, confidence building, problem solving, decision-making and enhancing academic performance, approached in a trauma-informed, evidence-based and culturally responsive manner will create a successful reentry into the community.

“Being a member of the JJCC Subcommittee allows you to make a positive impact in the County and a difference in helping to improve the opportunities for justice-involved youth,” said Chief Probation Officer Marlon Yarber.

JJCC Subcommittee community member’s valuable life and/or lived experience can provide impactful insight to help our youth have a successful reentry into the community. By joining, you will make a difference in the lives of our youth.

There is no term limit for JJCC Subcommittee Community Members. We are looking to fill two Community Member seats. Meetings are held during business hours. Applications and additional information can be found on the Probation website at [saccoprobation.saccounty.gov/Pages/JJCC-Subcommittee-Home-Page.aspx](http://saccoprobation.saccounty.gov/Pages/JJCC-Subcommittee-Home-Page.aspx) ★

# Disaster Recovery Center Opening

**Sac County News Release**

**SACRAMENTO COUNTY, CA (MPG)** - To support residents and businesses that have suffered disaster-related losses or damages, Sacramento County has opened a Local Assistance Center (LAC) starting on Jan. 18, 2023, in partnership with the Federal Emergency Management Agency and California Officer of Emergency Services, at the Chabolla Community Center, 600 Chabolla Ave, Galt, CA 95632.

A LAC is activated following major disasters for those who have disaster-related losses or damages by providing recovery direction, assistance and resources to recover from a disaster. This is a “one-stop” shop for resources for those affected by the storms and will be open daily from 7 a.m. - 7 p.m.

Services onsite include FEMA individual recovery assistance, California Department

of Insurance, DMV, Public Health, County Economic Development and Behavioral Health Services linkage.

People who suffered losses from the storms should contact their insurance companies first. Insurance delivers the majority of financial help in disasters. For losses not covered by insurance, residents can register for disaster assistance in four ways:

Online through [disasterassistance.gov](http://disasterassistance.gov); Using the FEMA App; Calling 800-621-3362 or 800-462-7585 (TTY), or; Visiting the Local Assistance Center.

Find out about applying for FEMA disaster assistance.

Property owners and businesses in the County of Sacramento are welcome to visit the LAC location but are still encouraged to report storm-related damage to their insurance providers and fill out the Sacramento County Disaster Damage Report for inspection assessments of properties. ★

# Twin Rivers Senior Receives \$20,000 Scholarship

**TRUSD News Release**

**MCCLELLAN, CA (MPG)** - Twin Rivers Unified School District senior Cherish Jackson will leave the Sacramento Kings game tonight (Jan. 13) with a \$20,000 scholarship. The Sacramento Kings and recording artist 50 Cent will present Jackson with a paper check during the fourth quarter.

The Grant Union High School student and member of Pacers Moving Forward (a Roberts Family Development Center after-school initiative) is one of 200

Sacramento area students who applied for a scholarship for students who plan to attend Historically Black Colleges and Universities (HBCU). She was among the top two chosen. The scholarship is possible through a partnership between the Sacramento Kings, Trajectory Foundation and G-Unity Foundation.

Jackson has been a TRUSD student since she began her K-12 education – Morey Avenue ECD, Del Paso Heights Elementary, Smythe Academy of Arts & Sciences Middle School and Grant Union High School. ★

# California Loses Population Again

*Continued from page 1*

drive, how much you keep of the money you earn, down to such trivialities as what drinking straws you can get in a restaurant. Do you feel as though you personally need government monitoring your straw usage, or is that a decision you are competent to make as an adult? Florida trusts you to choose your own straw, California does not.

The California government mindset drives up costs in every area of living. Looking at taxes alone doesn’t tell a complete story of government-imposed costs. How many taxes would have to move lower to make up for policy-driven expenses in California? Would a one-percent decrease make up for gas that’s two-dollars-a-gallon higher than the national average? Would slightly lower sales taxes offset electricity costs 80-percent higher than the national average? Exactly what tax would offset the cost of an \$800,000 starter home, driven in part by extraordinary regulatory costs in our state?

California will always be desirable for the wealthy. I defy another state to produce a Yosemite, a Golden Gate, giant redwoods, Lake Tahoe, Big Sur, Santa Monica beach... the list of our wonders is long, if you can afford to enjoy them. But our unmatched beauty is apparently overwhelmed by policy failures of colossal dimension. People are voting with their feet and moving.

It says so much about our government’s misguided agenda that hundreds of thousands of people last year abandoned everything this state has to offer because of everything this state takes away. It’s time for an affordability revolution in California to turn us once again into a destination state.

Senator Ted Gaines (Ret.) was elected to represent the Board of Equalization’s First District. He is a leading taxpayer advocate, defender of Prop. 13, and is committed to providing trustworthy and transparent representation for nearly ten million constituents in 34 counties of northern, eastern, and southern California. For more information, visit [www.boe.ca.gov/Gaines](http://www.boe.ca.gov/Gaines). ★

# Twin Rivers and EmpowerU Programs to Reduce Stress

**TRUSD News Release**

**MCCLELLAN, CA (MPG)** - Twin Rivers Unified School District and Family & Community Engagement (FACE) is partnering with EmpowerU to equip families with a fun, at-home program proven to decrease stress, improve self-regulation, and help children process big feelings in a positive way.

EmpowerU’s engaging curriculum is completed by families at home

together on your own time, at your own pace. Through interactive videos, digital books, and scripted family activities, both parent/caregiver and child(ren) learn to take charge of their emotions and behaviors, boosting self-regulation, coping skills, and calm — with lasting results.

The Feb. 6, 2023 program is offered at no cost to families - but space is limited. Sign up today at <https://bit.ly/EmpowerUTR> ★

# CSLB Urges Homeowners to Hire Licensed Contractors

The Contractors State License Board (CSLB) is reminding homeowners to use licensed contractors for any construction repairs above \$500. Photo courtesy Monkey Business Images | Dreamstime.com

### CSLB News Release

**SACRAMENTO, CA (MPG)** - After a series of severe damaging storms and with more wind and rain expected to impact California, the Contractors State License Board (CSLB) is reminding homeowners to use licensed contractors for any construction repairs above \$500.

After a disaster, CSLB’s mission is to help ensure unlicensed or unscrupulous contractors do not take advantage of consumers.

Homeowners should use CSLB’s Find My Licensed Contractor feature

to build personalized lists of licensed contractors in their area. They should always check all contractors’ license numbers on the CSLB website and check each contractor’s pocket license to confirm the person representing the construction business is listed as personnel of record on the license. A CSLB-issued state license is required for any construction job of \$500 or more (labor and/or materials).

“Disaster survivors take a huge risk when they hire unlicensed contractors,” said CSLB Registrar David Fogt. “Most are not properly insured and likely don’t have the skills or knowledge to perform the work.”

Homeowners should be aware that CSLB offers a designated Disaster Help Center section online, which provides publications that can be downloaded or ordered. These include “Debris Removal and Construction Scams,” “After a Disaster, Don’t Get Scammed,” and “What You Should Know Before Hiring a Contractor.” In addition, information can be requested by calling CSLB’s Disaster Hotline, 800-962-1125, staffed Monday through Friday from 8 a.m. to 5 p.m., or via the automated assistance line, 800-321-CSLB (2752).

Californians seeking information about the state’s response and recovery efforts should visit the California Governor’s Office of Emergency Services (Cal OES) website.

*About CSLB: CSLB operates under the umbrella of the Department of Consumer Affairs and licenses and regulates nearly 285,000 contractors in California. In 2022, CSLB helped consumers recover more than \$40 million in ordered restitution.* ★

# CLG NEWS UPDATES

Provided by Citizens for Legitimate Government (CLG) See legitgov.org

## DOJ seizes more classified docs from Biden’s Wilmington home after 12-hour FBI search

21 Jan 2023 | The Justice Department seized additional classified records from Joe Biden’s Wilmington, Delaware, home after an FBI search on Friday, Fox News has learned. “On Jan. 20, 2023, the FBI executed a planned, consensual search of the President’s residence in Wilmington, Delaware,” Joseph D. Fitzpatrick, an assistant U.S. attorney to U.S. attorney for the Northern District of Illinois John Lausch, told Fox News Saturday. Lausch was the DOJ official running the investigation into Biden’s improper retention of classified records ahead of the appointment of Special Counsel Robert Hur... The FBI search began Friday morning at 9:45 a.m. and concluded Friday night around 10:30 p.m.

## Customs officials are seizing eggs [instead of fentanyl] at the U.S.-Mexico border

20 Jan 2023 | U.S. customs officials are cracking down on egg smugglers. With egg prices soaring in the U.S. over the last year, more Americans are crossing into Mexico to buy the food item and trying to sneak cartons of raw eggs along some areas of the southern border, including California and Texas. “We are seeing an increase in people attempting to cross eggs from Juarez to El Paso because they are significantly less expensive in Mexico than the U.S.,” U.S. Customs and Border Protection spokesman Roger Maier told CBS MoneyWatch. “This is also occurring with added frequency at other Southwest border locations.”

## Border agents confirm 1.2 million ‘gotaway’ migrants under Biden administration – Illegal immigration continues to skyrocket under Biden

22 Jan 2023 | U.S. border agents have confirmed that 1.2 million illegal migrants “got away” from authorities while crossing the border under Joe Biden’s administration, U.S. Customs and Border Protection (CBP) sources told Fox News on Sunday. CBP tracks hundreds of thousands of migrant encounters at the U.S.-Mexico Border every month, but that stat does not include the number of known “gotaways,” or migrants who were detected by authorities but not apprehended. Since Biden entered office in January 2021, border crossings have exploded, and at least 1.2 million migrants successfully evaded authorities. The first half of Biden’s four-year term saw monthly border encounters rise from 101,000 in February 2021 to 251,000 in December 2022, according to CBP stats.

## Border Patrol nabbed 17 people on FBI terror watch list at southern border in December

21 Jan 2023 | Border Patrol agents stopped 17 people on the FBI’s terror watch list at the southern border in December, bringing the total of individuals arrested at the southern border to 38 already for the current fiscal year. Customs and Border Protection’s (CBP) latest numbers for December, released on Friday, revealed Border Patrol has arrested 17 people at the southern border whose names match on the FBI’s Terrorist Screening Database (TSDB) – which contains information about the identities of those who are known or “reasonably suspected” of being involved in terrorist activities. December’s numbers bring the total number of terror watch list arrests between the ports of entry to 38 since FY 2023 began on Oct 1. There were 98 terror watch list arrests in FY22, 15 in FY21 and just three in FY 20 at the southern border caught between ports of entry.

## Where Did All the Workers Go?

20 Jan 2023 | In a November 30, 2022, speech on “Inflation and the Labor Market,” Federal Reserve chairman Jerome Powell blamed most of the 3.5 million estimated shortfall in the U.S. labor force on premature retirements. He also blamed a large portion – between 280,000 and 680,000 – on “long Covid.” In a footnote, however, Powell acknowledged a far more somber factor: an estimated 400,000 unexpected deaths among working age people... In 2020, Covid did not take very many lives of healthy young and middle-age people – for example, the types of people who are employed at large and mid-size companies and who have group life insurance. ...[G]roup life insurance benefit payments in 2020 were barely higher than in 2018... In 2021, however, group life payments exploded by 20.7 percent over the five year average and by 15 percent over the acute pandemic year of 2020. Why would healthy young and middle-age people suddenly begin dying in large numbers in 2021 when they’d navigated 2020 with relative success? Especially when we consider that in 2021, the US administered 520 million Covid-19 vaccine doses. Shouldn’t healthy people employed in good jobs with good benefits, now protected with vaccines, have fared better in 2021 than in 2020?

## Federal agencies withholding data behind pilot heart condition change, COVID vax stroke reversal

20 Jan 2023 | Federal agencies are withholding the data behind recent decisions that relate or may relate to COVID-19 vaccines and severe adverse events, fueling speculation that they are putting both vaccinated and unvaccinated lives at risk. The Federal Aviation Administration told Just the News it widened the acceptable range of heart rhythms for commercial pilots, who were initially subject to industry-wide vaccine mandates, in light of “[n]ew scientific evidence” that it has yet to specify. The Oct. 26 update to the heart arrhythmias section of the FAA Guide for Aviation Medical Examiners made two key changes. The agency raised the maximum so-called PR interval for first-degree atrioventricular block to 300 milliseconds, with no regard to age, on the list of “normal variants” that don’t require deferment in the absence of “symptoms or AME concerns.” FAA spokesperson Ian Gregor provided a modified version of the statement the agency released last spring after American Airlines pilot Robert Snow blamed his in-flight cardiac arrest on coerced vaccination.

## ‘Bombshell’ Emails Reveal Fauci Was Part of NIH and Who Conspiracy to Silence Wuhan Lab Leak Theory

21 Jan 2023 | Dr. Anthony Fauci, once considered America’s top Covid doctor, conspired with influential scientists around the world, including at the World Health Organization, to quell concerns that SARS-CoV-2 may have leaked from the Wuhan Institute of Virology, newly un-redacted emails show. The newly released emails raise questions about Dr. Fauci’s motives in dispelling public scrutiny over the potential the novel coronavirus had escaped from the Wuhan laboratory. Fauci had misled Congress over the extent that the National Institutes of Health had funded the Wuhan lab as a subcontractor of EcoHealth Alliance. The Wuhan laboratory was also funded by the Pentagon, contract awards show. The un-redacted NIH emails show how public questioning that SARS-CoV-2 may have escaped from a laboratory was a concern for the group’s scientists lest it become a “conspiracy theory.”

## FDA assigned Pfizer’s COVID vaccine a license number months prior to actually licensing it

6 Jan 2023 | Back in July 2020, when the U.S. Government committed to purchasing millions of doses of Pfizer’s Covid vaccines prior to the vaccines actually being authorized for use in the American public, some wondered whether the FDA’s “review” process for granting Emergency Use Authorization (EUA) was just a mere formality... Based on an FDA document that ICAN’s (Informed Consent Action Network) attorneys recently obtained, it appears we can now say that the FDA’s post-EUA procedure for determining whether to formally license Pfizer’s Covid vaccine was indeed just that - a mere formality. On June 17, 2021, the FDA drafted a memo announcing that it was issuing a license number for Pfizer’s Covid vaccine. But the FDA didn’t actually license the Pfizer’s Covid vaccine until several months later on August 23, 2021. In the document, the FDA makes the stunning admission that, while granting a BLA license number prior to actual licensing was a “deviation from [the FDA’s] normal practice,” it was doing so to “facilitate product labeling and distribution” because it had reviewed “much” of the information in Pfizer’s licensing application. ★

**By County Supervisor Sue Frost**

*Through the generosity of the The Rio Linda News, this column serves to provide an update about matters affecting the community of Rio Linda.*

“I’ll be right back,” Chuck Noland told his wife in the movie Cast Away. But then a storm stranded him on an Island for so long that he started talking to a deflated volleyball.

The storms in Sacramento didn’t strand people on a deserted island, but tree-falls and flooding did cut off access to many communities - some of them for days. Dozens of roads and major thoroughfares were closed due to flooding. We even saw closures on Highways 99 and 5. Some roads are still closed or restricted more than two weeks later.

Teams of county employees, utility workers, and private citizens have been doing heroic work to restore access and clean up the damage left in the wake of storm damage and disruption.

But this won’t be the last storm, and we can do more to prepare for the next one.

Part of that preparation is ensuring there are more and newer roads that not only improve emergency access and response, but also boost the economy and reduce air pollution and commute times.

We can’t leave our citizens stranded - literally or metaphorically - when we have the ability to provide relief not just from storms, but from the everyday trials of crumbling infrastructure, traffic jams, and growing commute times

## RIO LINDA COMMUNITY UPDATE

### Roads Help With Storm Recovery - and Preparation

that reduce productivity and rob us of time with our families.

Roads and highways are how we get goods & services - not to mention people - around Sacramento County. Roads and highways are how farmers get their products to market. It is how most people get to work and parents get their kids to school. It is how patients get to our hospitals - not to mention the doctors and nurses who have to get there to save lives. Roads are how we get workers in to restore your utilities and get your life back to normal.

But repairing, improving, and expanding our roads is about more than just making them better or reducing traffic and commute times - it’s also how we connect our communities and keep our economy growing.

Over the next few months, I will be sharing my plans for repairing and improving our road system. Meanwhile, I wanted to share a few resources that every resident should be aware of:

**Sac County 311** helps residents report most non-emergency issues in the unincorporated communities in Sacramento County. Citizens reporting downed trees, issues with street and traffic lights, and road or sidewalk obstructions, the county knew where best to deploy response teams. More than 600 reports of downed trees came in from citizens using the 311 system, which has representatives available twenty-four hours a day, seven days a week. You can also download the app or use the 311 website. Learn more at <https://311.saccounty.gov/>

**Local Assistance Center (LAC)** are established following disasters to bring Federal assistance for those who suffered related losses or damages. One has already been opened in Galt, and we are asking federal government for additional help. Until that decision is made, you should contact your insurance provider to file your claim and report your damage through the link provided. The more people report their damage to the Sacramento County Office of Emergency Services or OES, the better the chance of another LAC in the County being activated. To report damage go to <https://report-ca-sacramento.orioncentral.com/>

**Sacramento Alert** is the Office of Emergency Services (OES) state-of-the-art alert system. This system allows officials in the Sacramento region to disperse public safety information quickly. Please visit the Sacramento Alert Citizen Opt-In portal and provide your contact information to receive notifications. The Opt-In Portal is strictly confidential, and your private information is secured. To learn more at <https://sacramentoready.saccounty.gov/Pages/Emergency-Alerts-Notification-System.aspx>

Thank you for reading – and as always, if you want to contact me, call me at 916-874-5491, or e-mail me at [SupervisorFrost@saccounty.net](mailto:SupervisorFrost@saccounty.net).

*Sacramento County Supervisor Sue Frost represents the 4th District, which includes the communities of Citrus Heights, Folsom, Orangevale, Antelope, North Highlands, Rio Linda, Elverta, and Rancho Murietta.* ★

# Transit Ridership Falters, Posing a ‘Fiscal Cliff’

By Dan Walters, CALMatters.org

California utopians, including those holding public office, envision a state that by 2045 will have achieved zero net emissions of carbon dioxide and other greenhouse gases. The largest source of those emissions is transportation – the cars, trucks, buses, airplanes and railroad engines that carry Californians, the goods they need to live and the inputs and outputs of the state’s \$3.4 trillion economy. To that end, the California Air Resources Control Board has issued seemingly countless decrees, including one that would ban the sale of autos with gas- or diesel-powered engines by 2035. Public transit is central to the state’s hopes of reducing transportation emissions. Officials want more Californians to park their cars – or not buy them in the first place – and use buses and light and heavy rail systems for commutes and other personal trips. Despite those hopes, transit ridership is going the other way, and transit system operators and advocates are using terms such as “fiscal cliff” and “death spiral” as farebox revenues decline and there is greater demand for taxpayer

money to shore up their operations. Transit usage cratered when the COVID-19 pandemic hit the state three years ago and millions of workers either lost their jobs or shifted to working at home. Ridership picked up a bit when pandemic closures eased and employment finally returned to pre-pandemic levels. However, the California Transit Association says that as of the third quarter of 2022, overall ridership was averaging just two-thirds of what it had been prior to the pandemic. “Some agencies have returned to pre-pandemic ridership levels and above, while others continue to struggle with ridership counts that are one-third of previous totals,” the organization says in a new “strategic plan” it unveiled in December. The plan “comes at a moment when our industry faces serious existential threats – slow ridership recovery, a fiscal cliff, and a widening workforce gap,” Karen King, who chairs the organization’s executive committee, said. The plan makes obtaining more financial support, particularly from the state, its highest priority, citing not only declines in ridership and operational revenue, but the state’s mandate that it get rid of its hydrocarbon-fueled buses and replace them with battery-powered vehicles. The cost of zero-emission buses and the infrastructure to operate them is tabbed at more than \$11.6 billion. Three weeks after the plan was released, Gov. Gavin Newsom proposed

a new budget for the 2023-24 fiscal year with spending reductions to close what he said was a \$22.5 billion deficit, thanks to a projected decline in revenues. Transit officials and their supporters didn’t like the budget’s treatment of transit, particularly a \$2 billion reduction in transit infrastructure. The industry’s top legislative advocate, Scott Wiener, a Democratic state senator from San Francisco, pledged to seek restoration of the funds and more money to cover transit’s revenue declines. Wiener said, “We must not let our public transportation systems go over the impending fiscal cliff and enter a death spiral – where budget shortfalls lead to service cuts that lead to ridership drops that lead to further budget shortfalls and service cuts. The state must serve as a financial back-stop against this fiscal cliff to ensure our transit systems survive.” The transit dilemma typifies the conflicts and tradeoffs that permeate the state’s hopes for achieving carbon neutrality 22 years hence. As a recent CalMatters analysis of the state’s ambitious but tortured plans to rid itself of hydrocarbon-fueled cars underscores, it’s one thing to declare such a goal on paper, but it’s quite another to make it reality when the precise steps needed are complicated, time-consuming and expensive. Dan Walters has been a journalist for nearly 60 years, spending all but a few of those years working for California newspapers. ★

## I Know He’s Your Dad, But It’s His Responsibility – Not Yours

Dear Dave, My husband and I just heard of your plan. We are excited to learn more about money, and we have already saved up \$1,000 for our beginner emergency fund. Right now, we have a problem. My father has never taken his finances seriously, and the other day he asked us for \$400 to pay his cell phone bill and overdraft fees at his bank. Even as an adult, he would go to his parents regularly before they died asking for money when he always had a good job. Giving him the money right now would make things really tight for our family, and we don’t want to lose the ground we have gained where our

## Dave Ramsey Says

finances are concerned. Do you have any advice? – Brooke Dear Brooke, Way to go! It makes me to happy to hear folks so charged up and on fire to get control of their finances. You won’t regret the decision. I’m going to be straightforward with you, ok? You and you husband need do the right thing, no matter how dad reacts to this. And the right thing, right now, is taking care of your family first and not putting your finances in jeopardy. If I were in your situation, my answer to dad would be no. I understand there’s a feeling of obligation to help your father. But it sounds like dad needs to learn a lesson or two about life and money. When you say your dad is irresponsible with money, handing him more of it won’t help. It would be like giving a drunk a drink. On top of that, it will reinforce the idea he can continue being dumb with money and there will be no consequences. Trust me, I understand the emotions involved in helping out a parent. If you feel this is a situation where there is literally no alternative, I’d suggest making the \$400 contingent on your dad beginning – and successfully completing – a good financial counseling course. Whatever you do, be gentle and respectful when you talk to him. And make sure he understands it hurts when you see him struggling. But let him know, too, it’s his responsibility to work through his bills and take care of his finances. – Dave Dave Ramsey is an eight-time national bestselling author, personal finance expert and host of “The Ramsey Show,” heard by more than 18 million listeners. He has appeared on “Good Morning America,” “CBS This Morning,” “Today,” Fox News, CNN, Fox Business and many more. Since 1992, He also serves as CEO of Ramsey Solutions. ★

# How We Can Prepare for Future Floods before a Megastorm Hits

**Commentary**  
by **Gerald Meral,**  
**CALMatters.org**

Californians have suddenly turned their attention from drought to flooding.

The future likelihood of a series of huge atmospheric rivers in California, a so-called ARk storm scenario, seems to be a certainty. Atmospheric rivers channel moist tropical air towards the West Coast, where mountains condense it to rain and snow. Over the last few weeks, California has suffered through a sneak peak of its devastating potential.

In late December of 1861, weeks of snow and rain from a huge ARk storm caused flooding from Oregon and Idaho to Mexico. The new settlers did not listen to the Indigenous peoples of California who knew that winter meant moving away from the river.

State government had to be temporarily relocated from Sacramento to San Francisco. The California Supreme Court made the move permanent. The Central Valley became an inland sea, and flooding was severe in Southern California. One percent of the state’s population died.

These megastorms occur about once every 150 years. Climate change will intensify them.

Flood control reservoirs already line the Sierra Nevada foothills, including Shasta, Oroville, Folsom, New Melones and others. Some reservoir space is emptied each fall to make way for potential oncoming floods, reducing the value of the reservoir for hydroelectric generation, water supply, recreation and cold water storage for fish. Reservoir operators can minimize (but not eliminate) dumping valuable water if no major storm is predicted.

But Sierra Nevada and similar Southern California flood control reservoirs like Prado and Seven Oaks cannot store

Californians have largely forgotten the death tolls and huge property losses of previous deadly floods, and even larger floods are likely to come. Photo courtesy DWR

enough floodwater to sufficiently reduce the effects of atmospheric river megastorms. The reservoirs will fill, but continuous flood flows will pass through as if the reservoirs were not there.

Gigantic new flood control reservoirs could theoretically be built. But the costs would be in the tens of billions of dollars, and the reservoirs would serve little purpose for decades since they would have to be emptied

at the start of each flood season. It’s unlikely that the Legislature or Congress would invest in such a flood control system.

Indeed, at least \$3 billion in levees and floodwater bypasses are needed just to prevent major flood damage in the Central Valley from storms that are expected to occur much more often than megastorms.

Can flood waters be diverted into “off-stream” storage reservoirs for later use? Not really.

The proposed giant Sites Reservoir could divert only a small percentage of the water expected in the Sacramento River in even moderate flood events. The value of such reservoirs is largely in their water supply benefits.

Still, much can be done to prepare.

First, California needs to increase investment in flood plain acquisition and expansion, and prevent the urbanization of

flood-prone areas. Staying out of harm’s way is the best idea.

Flood water bypasses help protect the Sacramento Valley and can recharge groundwater. The San Joaquin Valley urgently needs a similar system. It’s likely too late to build them in highly urbanized parts of Southern California.

Second, property owners who are at risk only from a megaflood should be encouraged to purchase flood insurance. For property outside the “100 year” flood zone, it would be a small annual investment to cover the damage that is bound to occur.

Third, locally managed evacuation drills should be held in areas where the flood risk is highest, such as Sacramento and areas near the Los Angeles and Santa Ana Rivers. A megastorm will require evacuation of millions of people in the Central Valley and parts of the Bay Area and Southern California. The public needs to be prepared.

Californians have spent billions of dollars to prepare for earthquakes and catastrophic wildfires. Recent quakes and fires are often on our mind, and leaders are reacting appropriately.

But Californians have largely forgotten the death tolls and huge property losses of previous deadly floods, and even larger floods are likely to come. They will affect all Californians, and require greater investment in flood preparation, insurance and evacuation planning.

*Gerald Meral is the director of the California Water Program at the Natural Heritage Institute. He has previously served as deputy director of the California Department of Water Resources, deputy secretary of the California Natural Resources Agency, and a staff scientist at the Environmental Defense Fund.* ★

**NOTICE TO READERS**  
California law requires that contractors taking jobs that total \$500 or more (labor and/or materials) be licensed by the Contractors State License Board. State law also requires that contractors include their license numbers on all advertising. Check your contractor's status at [www.cslb.ca.gov](http://www.cslb.ca.gov) or 800-321-CSLB (2752). Unlicensed persons taking jobs that total less than \$500 must state in their advertisements that they are not licensed by the Contractors State License Board.

**DISCLAIMER**  
Be wary of out of area companies. Check with the local Better Business Bureau before you send any money for fees or services. Read and understand any contracts before you sign. Shop around for rates.

2023 And You

Last time we looked at 2023 through the eyes of an Astrologer. So this time, let's peer into the future with an internationally known Psychic/Medium **Mary T. Browne**. She counsels world leaders and celebs alike with her no-nonsense approach to life. So here she goes.

"I am feeling very unsettled as we enter the New Year. Inflation will remain high, but will taper off slightly toward the end of the year. There will be a large increase in job cuts as companies continue to cope with higher labor costs and higher interest rates. As these cuts intensify, people will feel fearful and desperate. Covid will remain a health emergency. People are becoming more and more complacent thinking that the covid has ended. This attitude is a major reason for the increased number of covid cases plaguing us right now. Many people who tossed their masks aside will be forced to put them back on, especially when they enter crowded venues. I see a resurgence of Spiritualism in 2023. Spiritualism is a religious movement based on the belief that we can communicate with the Spirit World. The enormous number of deaths from the covid epidemic, the incredible insecurity brought about by financial stresses and the constant images of war and political strife blasted in front of us, has many people believing that the next world has to be better than this one. These feelings motivate many people to seek answers from communication with the departed. Though I believe deeply in life after death, and I have had a great deal of experience dealing with the Spirit world, it is important that we focus on making our lives in this world meaningful. We prepare for our

place in the next world by the quality of our life in this world. Every day gives us an opportunity to be of service to others!"

Her advice is practical too like **"The Five Rules of Thought,"** her latest book. Here's a brief look.

**1. You Must Decide What You Want.** Be exact and clear what you want. You may want many things from money to a promotion, but you must focus on them one at a time because your mind can only think of one thing at a time.

**2. See It Done.** Focus your mind on the completed goal, not on the individual steps leading you toward it. Take a direct route to your desire.

**3. Don't Vacillate.** It means don't waver, change your mind, or not commit. We vacillate because we are unsure. That results in fluctuating thoughts. A fear of failure and disappointment comes into our minds. Release those thoughts.

**4. You Must Have Faith.** Faith is belief. Nothing can be accomplished without it. Many people struggle with faith, but maybe they wouldn't if they took a minute to think about all the things we do that rely on faith.

**5. Persistence Reaps Results.** Persistence builds strength around your thoughts. It's the ability to keep pursuing your goals despite adversities.

DON'T WAIT! CALL NOW! 916-773-1111

Don't wait until things aren't going well to hire a property manager.

The truth is, having a property manager right from the start is important because prevention is less costly than intervention. It's more profitable to start off on the right foot than to be stuck repairing problems left and right six months later. We focus on taking the emotion right out of the equation for you and make communicating with your tenants and taking care of your property a breeze! We look forward to working with you!
