WSPD Officer Matthew Montez goes over several drills with K-9 Officer Yoda in a demonstration on Saturday, August 27.

**Story and photos  
by Michele Townsend**

**WEST SACRAMENTO, CA (MPG)** - K-9 Police Officers are some of the hardest working, brave and loyal officers on any police force. They are often bred and begin their training overseas and then continue their training with their handler/partner once they are shipped to the states. When a K-9 officer is partnered with a human, they are with that person off duty as well as on.

West Sacramento Police Department has two K-9 units. In 2019, K-9 Officer Dutch retired after being diagnosed with cancer. When a K-9 officer retires, WSPD sells the dog to his handler for \$1, and he then becomes the handler's pet and lives the rest of his/her days just being a dog. That's exactly what happened with Dutch and his human partner Officer Josh Harshbarger.

The West Sacramento Police K-9 Association is designed to provide money for medical, food and burial costs of these officers once they retire – sort of Police Puppy Pension. West Sac Police Officer Matthew Montez has been partners with his K-9 Yoda for about 8

months. In that time Yoda has found three guns, as his specialty is finding explosive powder.

"His personality completely changes when I put this collar on him and he knows he's going to work," said Officer Montez. He believes in his partner and others like him so much that he organized the first WS Police K-9 Association 5K Run/Walk and Fundraiser.

On Saturday, August 27th, the 5K Run/Walk took place at the Riverwalk. Nobody would have guessed it was a first-time event. There were 137 entries in the 5K, including police officers, their families, community members, and city officials. The first one to cross the finish line was 34-year-old Jonathan Lanning, with a time of 22 minutes and 21 seconds. Jonathan said that he is new to the area and thought this would be a good way to start to get to know the area.

The 5K wasn't the only excitement of the event. There were drone demonstrations, food from Kickin' Mule and Streets of London, merchandise to be bought and lots of giveaways. There was a Police bounce house and face painting for the kids and tables full of awesome

raffle prizes for the adults. There was 511 tactical supply vendor booth, Bare Bones apparel and VCA veterinary booths. Booths also included Wild West Feed and Elite Dogs Dog Training. Music was supplied by West Sac Cyclocross Grand Prix. The variety of vendors was so complete for this Police related fundraiser that there was even a booth with free donuts.

The highlight of this event had to be a Police dog demonstration. First, Officer Montez and Yoda were joined by Woodland PD's K-9 team as they demonstrated how well the dogs

## Town Hall Meeting Held to Help Hispanic Businesses

Oscar Garcia, Senior Vice President of the California Hispanic Chamber of Commerce, spoke at a recent town meeting. Photo by Michele Townsend

**By Michele Townsend**

**WEST SACRAMENTO, CA (MPG)** - Mayor Martha Guerrero and Senior Vice President of California Hispanic Chamber of Commerce, Oscar Garcia, teamed up in a Town Hall meeting at Victory Outreach Church, located at 944 Sacramento Avenue, for community members to learn and give input on the Small Business Accelerator Workshops available. In both Spanish and English, the pair explained to those that attended who the California Hispanic Chamber of Commerce is and how they can help the Hispanic community in developing or expanding their business.

Oscar Garcia was a very dynamic speaker as he spoke about the passion that he has in helping the Hispanic community, regardless of their citizenship status on learning and completing the steps to create and maintain their own business. He explained his long history of learning this process on a personal level after moving to America (Broderick) when he was just 17 years old.

In the decades since then, he has done everything from working the fields, to going to college and opening and running his own business. Now retired from the state, he works harder than ever, using his many contacts and knowledge to help Hispanic, Women and Military Veterans learn the aspects and steps on starting a business.

Through the California Hispanic Chamber of Commerce, people can attend free workshops that

## West Sac Updating Communications Infrastructure

**By Michele Townsend**

**WEST SACRAMENTO, CA (MPG)** - The City of West Sacramento has been working hard to strengthen the infrastructure. In fact, the completion of the West Capitol Rehabilitation project was supposed to be a major upgrade. But it is not getting everywhere just yet. The West Sacramento News

Ledger's office is located right next door to City Hall and for nearly two weeks has been trying to get phone service with AT&T. In a business where people call in to report news, it's not good to be without phone service.

Originally when AT&T came out, the technician explained that there were fiber optics in every

direction from our office, but the equipment that goes to the News Ledger office is still the equipment that was installed in the 1950s. With multiple hours on the phone, four different technicians have come out to the office attempting to rectify the issue, but each time they found more equipment that needed to be updated.

In frustration and due

diligence, the News Ledger called City Hall and the City Manager's office, who put us in contact with Communications. It seems they were unaware of there being problems and are now concerned if anyone else in the immediate area of City Hall has issues with their equipment, as there are no upcoming projects to update the equipment. ★

# Via Rideshare Fleet Goes Electric!

## City of West Sacramento News Release

**WEST SACRAMENTO, CA (MPG)** - The City of West Sacramento is proud to announce that Via Rideshare, its on-demand public transit service, is replacing its entire vehicle fleet with electric plug-in hybrid vehicles as of Saturday, August 27. The decision underscores the city’s historic leadership in using tech and innovation to advance sustainable, equitable transportation for all.

West Sacramento launched the on-demand service in May 2018 in partnership with Via, with the goal to use TransitTech to expand access to flexible, convenient public transportation, and to reduce reliance on private cars. Via Rideshare has provided more than half a million rides to-date for the city’s residents, workers, and visitors of all ages.

Anyone in the city’s service zone can book a shared ride at a moment’s notice through the Via app or by calling a phone number. Via’s intelligent algorithms match riders headed in the same direction into one vehicle, and each rider is directed to a nearby “virtual bus stop” within walking distance from their location. This dynamic routing model allows for quick, efficient shared trips without fixed routes or schedules.

The introduction of hybrid EVs to the Via Rideshare fleet follows new research from Via which found that the service has reduced travel emissions in West Sacramento by 22%, when compared to the transit methods that were available before the service launched.

**How to book a Via ride:**

1) **Create an account.** Download the Via app from the App Store or

Google Play and follow the simple signup steps; 2) **Book a ride.** Enter your pickup and drop-off address. Choose the ride that works for you by tapping Book This Ride. To request a wheelchair accessible vehicle, tap the accessibility icon in your profile; 3) **Meet your driver.** Check out the app to find out exactly where to meet the vehicle. It may be a short walk from where you are, but it makes the journey faster.

Riders without smartphones can also book by calling (916) 318-5101.

Rides are \$3.50 per ride, or \$1.75 for seniors and people with eligible disabilities with valid ID or application. Via service hours: Monday to Friday 6 a.m.-11 p.m.; Saturday 9 a.m.-11 p.m.; Sunday 8 a.m.-8 p.m.

follow commands, including sign language (used when they are having to approach a scene silently).

The highlight of the show, and maybe of the day, was a simulated call of “a stranger stealing raffle tickets from kids.” A call to dispatch played over the PA, as a man dressed in protective dog

training gear worked his way through the crowd pretending to steal raffle tickets. He then went and hid behind a couple of the evacuated vendor booths as the police car with lights and siren came onto the scene. Officer Montez let Officer Yoda out of the vehicle and gave him the command to take down the bad guy. With laser

focus, Yoda didn’t even notice the crowd cheering as he took down the thief. The crowd cheered and Yoda was rewarded with play time with his human partner.

# Avian Influenza Detected

## Yolo County News Release

**WOODLAND, CA (MPG)** - A wild bird in Yolo County has tested positive for highly pathogenic avian influenza (HPAI). HPAI is a viral disease that occurs naturally among wild aquatic birds, such as ducks, geese, swans, gulls, terns, and shorebirds, such as storks, plovers, and sandpipers. HPAI can infect domestic poultry, other birds, animal species, and humans.

As of August 22, 2022, HPAI has been detected in commercial and domestic bird flocks in Sacramento, Butte, Contra Costa, and Fresno counties. Additionally, HPAI has been detected in wild birds in the following twelve counties: Butte, Colusa, Glenn, Mendocino, Placer, Plumas, Sacramento, Santa Clara, Siskiyou, Solano, Sonoma, and Stanislaus, in addition to Yolo County.

Keepers of commercial and domestic flocks are advised to adhere to the following biosecurity recommendations to help protect their flocks from HPAI:

- Prevent contact between domestic and wild birds by bringing your birds into an enclosure that is covered;
- If you have bodies of water on your property, such as ponds or ditches, consider draining them to avoid attracting wild birds and keep your domestic birds away from this potentially contaminated water;
- Use sanitized well or city water for your birds;
- Wash your hands before and after handling your birds, including when handling birds from coop to coop; Prevent rodents and predators from entering your coop;
- Prevent pets such as cats and dogs from eating dead wild birds;
- Keep feed covered and spills cleaned up to avoid attracting wild birds and rodents;
- Wash and disinfect boots and equipment when moving between coops;

Do not share equipment or supplies with neighbors;

Clean and disinfect equipment and other supplies between uses;

Clean and disinfect your shoes and vehicle tires after visiting feedstores and other places frequented by other poultry owners or wild bird hunters;

Avoid visiting places where wild birds congregate, such as lakes and ponds;

HPAI can also infect humans. The risk to the general public in Yolo County is very low at this time, but residents are reminded to avoid direct contact with wild birds, particularly birds that appear ill or are dead.

Report any unusual or suspicious numbers of sick or dead domestic birds immediately to the California Department of Food and Agriculture’s Sick Bird Hotline at (866) 922-2473; report any unusual or suspicious dead wild birds to the California Department of Fish and Wildlife online at [www.wildlife.ca.gov/Conservation/Laboratories/Wildlife-Health/Monitoring/Mortality-Report](http://www.wildlife.ca.gov/Conservation/Laboratories/Wildlife-Health/Monitoring/Mortality-Report).

Poultry keepers should monitor their birds for the following symptoms: Trouble breathing; Clear, runny discharge from nose, mouth, and eyes; Lethargy or lack of energy; Loss of appetite; Drinking less; Swollen eyes, head, wattles, or combs; Discolored or bruised comb, wattles, or legs; Stumbling, falling, or twisted neck; Sudden death.

If you have questions about wildlife rehabilitation, please contact the California Department of Fish and Wildlife directly. Contact information is available here: Wildlife Health Lab - Avian Investigations ([ca.gov](http://ca.gov)). For general public inquiries regarding HPAI in California, please call (916) 217-7517. Garcia did not sugarcoat that those that seek their help must do the work themselves, however, he and the Chamber will work just as hard as you do to ensure your success. With a long list of local success examples, he was very encouraging and inspiring. It doesn’t really matter what line of business you are looking to start.

Garcia and Guerrero explained that West Sacramento is expected to expand by 2000 people in the next year and the development of businesses to go along with that growth is a primary goal of the

City Council. Garcia and Guerrero further explained that if you have an idea about a business, now is the time to start it. This is so that you can get established as the population grows and that currently there are economy stimulus programs and funding that are currently available that are not usually available.

However, if you need something like a new roof (or some other major repair, Habitat for Humanity works with the resident with a 0% interest loan, to pay it off. There is also ‘sweat equity,’ meaning you may be able to work off the payment. Generally, if the cost of the repairs totals less than \$7,500, the service is free! So, if you or someone you know lives within the focus neighborhood boundaries and has work on their house, yard, fence, driveway, painting, landscape, dry rot, decking, or any number of other jobs or you need some new energy efficient appliances like microwave, washer/dryer, refrigerator, stove or dishwasher, then log on to [habitatgreatersac.org/home-ownership/homerepair/](http://habitatgreatersac.org/home-ownership/homerepair/) to sign up for repairs. # California’s Ban on Gas-Powered Cars Won’t be Easy

By Dan Walters,  
CALMatters.org

California made it official last week – the state will ban sales of gasoline-powered new cars after 2035.

Gov. Gavin Newsom, who issued the executive order leading to the Air Resources Board’s adoption of the ban, issued his characteristic boast about California being out front.

“The climate crisis is solvable if we focus on the big, bold steps necessary to stem the tide of carbon pollution,” Newsom said. “California now has a groundbreaking, world-leading plan to achieve 100% zero-emission vehicle sales by 2035. It’s ambitious, it’s innovative, it’s the action we must take if we’re serious about leaving this planet better off for future generations.”

Declaring that the sale of gas-powered cars will end 13 years hence is the easy part. Actually transforming a huge component of Californians’ daily lives, and a big chunk of the state’s economy, will be immensely difficult.

Take, for example, driving range. The new regulations want zero emission vehicles (ZEVs) sold in California to be capable of traveling up to 150 miles without recharging. That might be sufficient for daily commuting within a compact region. But what about longer trips?

Let’s say someone living in San Francisco wanted to drive to Lake Tahoe for skiing? A 150-mile range would not even cover a one-way trip.

The solution might be lots of recharging stations along interregional highways, but whereas a fill-up of gasoline might take 10 minutes, recharging electric cars now takes much longer. Is California willing to build the hundreds of thousands of recharging stations a complete conversion to battery-powered cars would require? Could Californians drive their mandated ZEVs into other states without running out of juice?

Even overnight charging would be a challenge. Those who keep their vehicles in home garages might make it work, but how about apartment dwellers? Even if landlords provided chargers in their designated parking places, an apartment usually has just one space while most apartments have multiple car-owning tenants. That’s why the streets around housing complexes are packed with parked cars.

How would the decree affect low-income Californians who typically purchase used cars? Today, battery-powered cars are relatively expensive. The cheapest new ones run close to \$30,000, although federal and state subsidies bring down their net costs. Will those subsidies continue?

California has about 29 million cars and light trucks on the road now and roughly two million new vehicles are sold each year.

ZEVs now account for about 16% of those sales, the most of any state. Even if 100% of sales are ZEVs, it would take at least 15 years for a complete conversion and while it occurs, we would still need service and refueling facilities for gas-powered vehicles.

Speaking of which, what would happen to the hundreds of thousands of Californians who are now employed in providing those services?

Finally, recharging millions of ZEVs would impose a major new demand on California’s electric grid – not to mention the impact of phasing out home appliances that now use gas in favor of electric devices.

California is already struggling to meet the current power demand as it also phases out gas-fired generators in favor of wind and solar facilities. Will we have enough juice for recharging ZEVs, particularly during the night, when the sun doesn’t shine and the wind may not be blowing?

Both the reliability of a wind- and sun-powered grid and the availability and price of battery-powered cars also will depend on having enough lithium to build enough batteries to make everything work as envisioned. Given the nation’s dependence on lithium from other countries and the fragility of global supply chains, that’s not a small risk.

Dan Walters has been a journalist for nearly 60 years, spending all but a few of those years working for California newspapers. ★

Notice To Potential Bidders: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. All checks payable to Prestige Default Services, LLC. Notice To Property Owner: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (800) 793-6107 or visit this Internet Web site www.auction.com, using the file number assigned to this case 22-6174. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. Notice To Tenant: You may have a right to purchase this property after the trustee auction pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call (800) 793-6107, or visit this internet website www.auction.com, using the file number assigned to this case 22-6174 to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase.

Time to Get Serious

Dear Dave,

My husband and I have always gotten by. We both make about \$40,000 a year, we each turned 50 last month, and we only have a little bit of debt. Recently, my mother-in-law moved in with us due to health issues. Since that time, we have been struggling financially due to the added expense of having her with us. We love her and want her to be here, but we are unsure how we will continue to make things work. Can you help?

– Renaye

Dear Renaye,

It’s completely understandable that your mother-in-law moving in tightened things up for you guys

Dave Ramsey Says

– to a point. What it has also done is trained a spotlight on the fact you and your husband need to start behaving better with your money. That means living on a written, monthly budget, and telling your money where to go instead of “getting by” and wondering where it all went.

That sound you hear is a phone ringing, and it’s your wake-up call. If I were you, I’d pick up. That call’s saying you two have been disorganized and a little sloppy with your finances in the past, but you’ve made just enough money to get away with it. Now, you’re going to have to get serious and get organized, because you’ve chosen to take care of her. Don’t get me wrong, it’s an honorable decision you’ve made to bring her into your home. But it also means some changes have to be made in terms of the day-to-day finances around your place. You’re going to have to sit down with your husband and separate

the wants from the needs.

The good news, Renaye, is that with a budget you can analyze, in detail, the need to cut expenses, generate extra income – or both. But for this thing to work, you’ve got to create a little margin. Because if you continue to just wander along without a plan, you’re going to have a real mess on your hands.

God bless you folks.

– Dave

# The Girl In White

by Lindsay Currie

Could Sweet Molly actually be real? And if so - what does she want for Mallory?

When Mallory moves to the famously haunted town of Eastport, she never expected it to actually be haunted. The townspeople, the tourists, and even her parents have totally fallen for the legend of Sweet Molly. Everyone except Mallory. Until the day Mallory starts losing track of time, and a ghostly vision starts to haunt her.

It doesn't help that Mallory's parents have completely jumped on board with their restaurant, The Hill, famous for their own piece of the local legend paired with her dad's spooky themed menu items and her mom's infamous storytelling. With tourists flocking in, the town seems to be in even more of an excited state as they prepare for this year's anniversary parade of Sweet Molly. But this year is different. This year Sweet Molly has plans of her own, and when Mallory sees the old woman from her dreams beckoning for her, she knows that she is the only one

## Donate Unwanted Vehicles to Help Animals at SSPCA

Proceeds from sales of the used cars, trucks, boats, RVs, and motorcycles donated help the Sacramento SPCA provide care to more than 40,000 animals that enter their doors each year. Photo courtesy of Pixabay

### Sacramento SPCA News Release

**SACRAMENTO REGION, CA (MPG)** - With gas prices still hovering above \$5.30 per gallon and many people leaving their ‘gas guzzlers’ in the driveway, the Sacramento SPCA is reminding the community that it’s the perfect time to donate their unwanted vehicle to benefit the animals.

Since 2017, the Sacramento SPCA has partnered with CARS, Inc. to accept vehicle donations at no cost to donors, regardless of whether the vehicle is running or not. Proceeds from sales of the used cars, trucks, boats, RVs, and motorcycles donated help the Sacramento SPCA provide care to more than 40,000 animals that enter their doors each year.

“Unfortunately, we’ve seen vehicle donations decline by 33% in 2022,” said Kenn Altine, Sacramento SPCA CEO. “This has occurred as new vehicle sales also decreased in 2022, due to rising vehicle prices and less inventory.”

The average vehicle donation to the Sacramento

SPCA is approximately \$1,500 — which can provide lifesaving surgeries for three animals or cover the cost of microchips and vaccines for fifteen animals.

Donating a vehicle to the Sacramento SPCA is as easy as filling out the online vehicle donation form or picking up a phone and speaking to a live donor support representative — and every donation helps save animals’ lives. The partners at CARS, Inc. will tow the vehicle at no cost to the owner (regardless of whether it’s running or not), and donors will receive a donation receipt.

As the only full-service 100% non-profit animal welfare organization in the Sacramento region, the Sacramento SPCA relies on donations from individuals, businesses, and foundations to support their lifesaving work. They are local, independent, and do not receive funding from state or local government agencies.

For more information about how to donate your vehicle to the Sacramento SPCA, visit <https://www.sspca.org/vehicle> or call 844-700-GIVE today. ★
