

Sutter Health Park has gone to the dinos

PHOTOS BY
MONICA STARK

More than 70 photo-realistic dinosaurs have been stomping across Southern California since the New Year, and migrated north to West Sacramento for its showing at Sutter Health Park now until March 21.

Following sold-out showings in Los Angeles, Orange County and San Diego, Jurassic Quest Drive Thru transformed the Sutter Health Park outdoor parking area into an interactive, contactless drive-thru experience, featuring more than 70 moving and life-like dinosaurs, as well as a 50 foot-long Megalodon. Jurassic Quest's herd of animatronic dinos are displayed in realistic scenes that allow guests to experience them roaring and moving as they drive through the tour. Although the drive-thru experience means visitors will stay safe inside their vehicle,

they'll still need to avoid the roarsome T-Rex.

The News-Ledger caught up with Dino Dustin and Bronto Brittney to learn what it takes to be a "Dino Trainer."

"It's very adventurous. There are a lot of unexpected things because they fast on their feet. But it's a lot of fun. There's a bunch of train.

And, yeah, you never know what's coming up," said Dino Dustin.

It's important to "start them young," said Bronto Brittney, while holding her baby T-Rex, Tyson. "That way when they get older, they know how to react to people and be safe. Tyson's newest trick is the ball catch. "He learned how

to catch a ball in his mouth, because he can't really use this little cute little hands as much," Bronto Brittney said.

Jurassic Quest worked in collaboration with leading paleontologists to ensure each dinosaur was replicated in every detail, depicting how we understand dinosaurs looked and moved. The

Jurassic Quest Drive Thru is the only place to encounter some of the largest dinosaurs to ever roam the Earth, and some of the eeriest marine creatures to ever lurk the ocean's depths from your vehicle.

An adventure-for-all-ages online audio tour in English and Spanish leads visitors through the thrilling dinosaur safari (special accommodations can be made for the hearing impaired). In addition to the life-like dinosaurs, guests can greet one-of-a-kind baby dinosaurs and their trainers as well as pose for a prehistoric safari-style digital souvenir photo (one per vehicle).

Dino Dustin shared some tips for visitors. "If you're thinking about coming, you always want to go and get those tickets right away because they do sell out; they go extinct fast."

Is your small child ready for school?

The Yolo County Children's Alliance is one of Yolo County's top organizations that help families with a wide variety of needs. We are all aware of welfare. Welfare is the term commonly used for those programs that are available through Health and Human Services. The most commonly known programs are of course EBT (food stamps) and Medi-Cal. In order to qualify for programs through Health and Human Services, you usually need to have an extremely low income. In addition to that, there are a lot of challenges that families face that Health and Human Services can't help you with. That is where the Yolo County Children's Alliance (YCCA) comes in! YCCA is a phenomenal resource center, funded by First 5 Yolo that can often help when welfare can't. They help families on an individual basis and can therefore find out what your specific needs are. For example, you may have a family in which both parents are working and therefore have a household income that makes them ineligible for welfare programs. Yet the family finds that once rent and bills are paid, there is no money left for other necessities such as food, school

THIS 'n' THAT State Bribes Schools to Re-open

BY CAROL BOGART

Boy, talk about being perched squarely on the horns of a dilemma.

Back to school, folks? Yes or no?

Younger kids. K-2. The ones whose immune systems are especially immature. And those with 'special needs' - such as the disabled. The state says they should go back

first. And teachers don't have to get the vaccine.

Schools aren't required to re-open by April 1, but for each day they don't they lose 1 percent of the state's \$2-million bribe (special back-to-school allocation). Still closed by May 1? They lose every penny.

Well, kids are bored. Jobless people need to get

back to work. With unemployment payments ending, they'll need the money. The state and feds want workers' income and payroll taxes.

Kids need school. School's a good thing. But would I have enrolled my son if I'd thought it possible he'd

Mary Morrison
September 18, 1960- February 19, 2021
Mary L. Morrison, 60, passed away peacefully

on Friday, February 19th, 2021 with her family at her side. She was born on September 18th, 1960, in Salt Lake City, Utah, to Harold E. Yost and Lorena M. Jacobson. She moved to Sacramento on February 5, 1975. She attended Rio Tierra Middle School where she became involved with the California Cadet Corp. She excelled as a cadet earning the distinction as the number one cadet in all of Northern California. She graduated from Norte Del Rio High School in 1979 and enlisted in the Army Reserve shortly after where she trained as a medical records clerk. She eventually moved from a medical unit and transferred to the infantry and re-trained as a cook. The Army never had such delicious meals prepared by Mary and her staff. She is preceded in death by her father, her infant b West Sacramen-

to in 1981 where she raised her children, Mary Emma (Jason), Anthony David (Lisa), Meagan Elizabeth (Adam) as well as her grandchildren, Melinda Ann Morrison, Aiden and Sofia Pollock, and Drake and Wesley Heringer. Mary suffered many auto-immune ailments but they never stopped her from being the most loving and kindest person ever. She always had a smile and a good word for everyone. She was an avid bowler and once was the secretary for three leagues at the same time. She did have one quirk though. She was lovingly known as the crazy cow lady because of her vast collection of cows. Everyone called her Moo. Her life was filled with family, friends and laughter. She loved her garden and took diligent care of it until she couldn't any more. Mary's passing is a tremendous loss for her family and friends

knowing her was such a blessing. We can all take comfort in knowing that she is finally out of pain and that she is with those who love her. Survived by her mother and brother, Harold, children, grandchildren, aunts, uncles, cousins and many friends. A celebration of life was held March 6th at Fireside Bowling Alley in Citrus Heights. A memorial mass will be held at Holy Cross Church in West Sacramento at 12 o'clock noon on Friday, March 12, 2021. Services were provided by River Cities Funeral Chapel.

clothes, diapers, medicine. Or perhaps you are one of the many, many people that are struggling to pay rent and are in jeopardy of eviction. All of these problems create stress. Not only stress on the parents but stress on children too. Stress is a leading cause of child abuse and YCCA's goal is to help in every way possible so that nobody finds themselves in this kind of situation. They say "It takes a village to raise a child". That's because there are so many aspects to it. The normal steps in life, what we call milestones, in addition to a child's emotional and physical environment all play a part in the normal development of a child. We don't know exactly what milestones affect future milestones. For example, studies show that many people with dyslexia skipped the crawling stage of development. It is when you learn to crawl that you develop the part of your brain that processes your horizontal view. Now that doesn't mean that all

people that skipped crawling have dyslexia or a learning disability... it's just one of the contributing milestones. YCCA is offering a free screening program from the Northern California Children's Therapy Center, funded by First 5 and Yolo County Health and Human Services that can evaluate your child ages 0-5 years old. This screening is a questionnaire to check the development of your child. As I mentioned, there are a lot of aspects that play into the development of a child. Perhaps your child was unable to go to preschool. Perhaps your family made too much money to qualify for free or subsidized childcare. Perhaps your child has not been cared for by someone that is trained to notice milestones such as a speech delay or concentration issues. It is not a bad thing that your child was able to stay at home with a parent of a family member, but that child may not have been exposed to a scenario in which they were exposed to the socialization of other children. It could be many things. Perhaps a family member is suffering from

depression and mental health referrals are what is needed to help the family. Parents may feel overwhelmed and isolated, with no support system. YCCA can be that support system. The Help Me Grow screening is free. After filling out the questionnaire, it will be analyzed. YCCA will then contact the parents, usually within 5 days. If any red flags were raised, YCCA can offer resources and referrals. The questionnaire is using ASQ-3 and ASQ-SE-2 screenings for developmental growth as well as the SEEK screening for environmental factors and the PHQ-9 screening for mental health factors. The Help Me Grow program is just a great and free way to check on your small child's social, emotional, and academic development as you prepare for your child's school readiness. If you have any questions you can contact Vanessa Batres, YCCA Help Me Grow Community Liaison, at (530)771-7361. Or you can go online to ycaforkids.org or HelpMeGrowYolo.org. Help is available in English, Spanish, Russian and Farsi.

The undersigned or its predecessor caused said Notice of Default and Election to Sell to be recorded in the county where the real property is located. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgage, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law

Legals

Continued from page 4

requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (800) 280-2832 or visit this Internet Web site WWW.AUCTION.COM, using the file number assigned to this case 079232-CA. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. NOTICE TO TENANT: Effective January 1, 2021, you may have a right to purchase this property after the trustee auction pursuant to Section 2924m of the California Civil Code. If you are an “eligible tenant buyer,” you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an “eligible bidder,” you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call (855) 313-3319, or visit this internet website www.clearreconcorp.com, using the file number assigned to this case 079232-CA to find the date on which the trustee’s sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee’s sale. Third, you must submit a bid so that the trustee receives it no more than 45 days after the trustee’s sale. If you think you may qualify as an “eligible tenant buyer” or “eligible bidder,” you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. WHEREAS, women have played and continue to play critical roles in the economic, cultural, and social spheres of our nation's life by constituting a significant portion of the labor force working in and outside the home; and

WHEREAS, women have played a unique role throughout our history by providing the majority of the nation's volunteer labor force and have been particularly important in the establishment of early charitable, philanthropic, and

cultural institutions in the country; and

Introducing Nature Bowl 2021: The Family Challenge Edition!

Extraordinary times call for an extraordinary nature contest! The California Department of Fish and Wildlife (CDFW) is inviting families across our great state to participate in the fun and educational Nature Bowl competition.

Nature Bowl has been an exciting science event for teams of third through sixth grade students for more than 35 years. This year Nature Bowl is rolling with the challenging times by issuing this nature challenge to all California families with school age students.

Just like the spring before us, it's time for rejuvenation,

time to emerge from lockdown hibernation, time to get outside and give your family a healthy dose of what we all need: Nature! Your challenge is to work together as a family to compete in these five nature activities—and win cool nature prizes!

Here are the activities:

- Nature Relay—Scavenger Hunt Safari
- Nature Investigations—Discover and Become
- Bell Ringers—Create a Game
- Team Problem Solving—Nature Snapshots

- Environmercials—Film an Advertisement

The Nature Bowl Family Challenge is open from March 15 through May 14. You can sign your family up by contacting genelle.treaster@wildlife.ca.gov to register.

This 'n' That

Continued from page 1

catch anything more than childhood sniffles? Something serious? Even crippling, maybe deadly?

When I was little, parents worried about polio. There was no vaccine. A classmate of mine contracted it. In an iron lung, she died.

My parents made sure I got the polio vaccine and any other shot I needed. With Mike, vaccines were a given. No arguments. He got them.

These 'warp speed' vaccines are only available now because this virus is a national emergency. Fact is, health officials are learning as we vaccine how it affects us. So no one HAS to get one. Not teachers. Not school age children. On Dec. 30, 2020, the CDC posted this: **"The true incidence of**

COVID-19 in children is not known due to lack of widespread testing and the prioritization of testing for adults and those with severe illness. **Recent evidence suggests that compared to adults, children likely have similar viral loads in their noses and throats and can spread the virus to others."** (Emphasis added)

Most recently, just as Yolo's covid cases were down enough to open restaurants and lift the stay home order, California cases have started to edge back up. Even in Yolo's 'red' (not purple) "zone" – contagion remains 'substantial'. Fauci and others warn a new viral surge is coming, as early as mid-March, one that may include more infectious variants of the virus.

The bribe from the state is supposed to be used by schools for safety measures. Improved ventilation, masks that fit the

kids, etcetera so on. For each day past the April 1 deadline the kids aren't back in school, the school loses 1 percent of the state's bribe, aka 'allocation' – the carrot/stick approach, they hope, will force a school's compliance.

Let's back up a little. Will school kids be getting there by bus? Who monitors how far apart they sit? Each time kids get on or off, will the pole they grab be sanitized? Are drivers cool with transporting what may be a bunch of super-spreaders? Will the drivers be tested every couple days? How about the students?

I'm thankful Mike's not in school during this pandemic, and that, as yet, I have no grandchildren. But I feel for bored kids, weary parents, worried teachers, all anxious workers. Will older students again miss high school sports, prom and graduation?

All that said, my gut says now's too soon to take the risk. How often will classroom door knobs, desks, cafeteria tables, bathrooms, stair rails and more be deep cleaned with alcohol-based sanitizer? Will kids wash their hands a lot – or ever? If they can be persuaded to wear a proper mask (no gaps and filtered) that covers their mouth and nose ... and a child's nose itches ... will the child reach inside the mask to scratch it?

No parent wants a child to fall behind. Most value education. But now's too soon. Fauci says it could be late December before this thing winds down. Are we risking little kids to learn we should have opted for district-paid at-home tutors, shields and masks?

Bottom line: This is a 'new' virus with, still, a lot of unknowns. Until we get the 'all

clear' -- the protocol for all 'group' settings should be both masks and eye shields – for everyone, including visitors to schools. Air circulation vents and ducts – how and when will they be cleaned? FIRST, and then other surfaces.

And, finally, all school workers got today's vaccines when they were kids. To be *around* kids, they should want this one.

Carol Bogart couldn't disagree more with antivaxxers. The Moderna and Pfizer vaccines contain NO live virus. And no, the RNA technology used to make them does not change your DNA (a persistent myth). Covid-19, though. That can permanently change a lot of things. Your heart. Your lungs. Your brain. Protect yourselves. Protect the children. Questions, comments, criticisms? Contact her at carol@bogarton-line.com.

\$0 Bail

Continued from page 1

of Force Likely to Product Great Bodily Injury (19 new victims), Robbery (10 new victims), Burglary (45 new victims), felony domestic violence (12 new victims), possession of an assault weapon, gang crimes, and dozens of other new felony and misdemeanor crimes. Since the COVID 19 pandemic began, 485 individuals have been released a total 623 times on \$0 bail. Of those released on \$0 bail, 41% have been rearrested at least one time, the highest percentage thus far during the \$0 bail period.

The Emergency Bail Schedule simply looks at the arresting offense and releases individuals on \$0 bail, even those on probation or parole, without conducting a risk

assessment for dangerousness. Additionally, upon release on \$0 bail, offenders are given a court date 4-5 months in the future. This makes it nearly impossible to assess those individuals who are homeless, suffer from a substance use disorder, or from a serious mental illness in order to enroll them into one of the county's diversion programs such as mental health court or addiction intervention court.

The problems with the continued use of the \$0 bail schedule are easily seen in the multiple arrests of Jose Inda-Lopez.

Inda-Lopez, 37, of Davis, has been arrested 17 times since his April 17, 2020 arrest for felony vehicle theft. He was released on \$0 bail. Since then, Inda-Lopez has been arrested 10 additional times. Inda-Lopez was charged in 11 separate misdemeanor and felony complaints in-

cluding felony vehicle theft, felony vandalism, possession of a concealed dirk or dagger, theft, possession of drug paraphernalia, trespassing, and lewd conduct in public.

On December 11, 2020, he entered no contest pleas in three cases, one felony and two misdemeanors. Additionally, he admitted violations of probation in two additional misdemeanors. At the time of his plea, Inda-Lopez had credit for time served and was released the same day. Since December 11, 2020, he has been arrested six times, four of the arrests within six days of each other.

The continued use of the Emergency Bail Schedule is determined by the Yolo County Superior Court and is solely within their discretion. Anyone with concerns about the ongoing use of the Emergency Bail Scheduled should contact the Yolo County Superior Court.
