

Opinion

A new option for mayor

BY MICHELE TOWNSEND

It's almost election time again. That means people will be hounding you to register to vote ... and to vote. As I've said in past articles, there are a large portion of the population that says "I'm not political", "I don't follow politics" or "I don't care about politics."

However, every time that you are bothered by the potholes in the road or care about pre-school or after school programs, or any other issue or program you'd like to see – it's political. It's political because the City Council and Mayor are the groups of individuals that are deciding what they are going to spend money on, and how much they will spend. The reason that it is important to vote, is to appoint people who have your similar interests and concerns. They decide what's most important and what's not. You may not be interested in going to meetings or holding campaigns, but by voting, you will help to secure somebody that thinks about the needs of all of the community members, not just a certain population. You will have a say about selecting the right person for the job due to their morals, values, interests, priorities, and visions of how they want the city. You will decide if this person should be willing to listen to the cries of the community or make decisions without consideration of the townspeople's input.

Martha Guerrero is a West Sacramento resident that has spent countless hours learning every aspect of this city. There were so many important items that needed to be addressed, and it seemed there was no end in site. To top it off, available information was incomplete and often tucked away. There was a lack of transparency and a history of poor spending. While serving on various committees, she reviewed budgets, she talked to community members and she attended City Council meetings. She continued to try to get the city to be forthcoming with the community about what they were doing and how they were doing it. Then, two years ago, Martha ran for and was elected, to City Council. She had a list of needs for West Sacramento. They weren't personal desires, they were items that needed attention from someone other than those that had been in charge. Items on the list included; pay our first responders' wages that were owed to them, establish programs that would truly help the homeless and mentally ill, strengthen our infrastructure, take care of our levees and establish and promote

communication between the City and the residents. There were many more items. Martha believed (and still does), that there should be complete transparency of city funding. She also believes that when there is a project that is going to cost a large amount of money, that the community should be informed and given the chance for input. A great example of this took place at the July 15 City Council meeting. The proposal was an aspect of police reform.

Martha said, "It contained a significant budget transfer of \$612,000 from five police officers to establish a new police division for community outreach ... I reached out to community members who serve youth, victims of DV, homelessness, and those with mental illness. Their feedback prompted my decision to encourage the council to extend the time to allow public participation in the decision-making process."

Instead, the council chose to bypass the workshop (which includes a first presentation, review, and feedback from the community). They went to an immediate vote, omitting public participation, additional data, or input from the county. Martha chose to reject the expedited process by abstaining. She feels that the community's input is important because the decisions being made are about their town.

Martha has now joined the race for Mayor. She is hoping to replace Christopher Cabaldon and raise the ethical bar, in the development and growth of this city. She is vowing transparency and fiscal accountability and strives for better communication and public participation on items that affect the community. Martha values the

input and public comments and says they will not fall on deaf ears. She will continue to listen to opinions, concerns, and needs. With the vast growth of this town, Martha is aware of the need for the strengthening of high-speed internet and broadband. She would like to make it a priority to bring in what is needed to handle the demand. She is a firm believer that this town will thrive if it's citizens work. Therefore, she would like to see more internship programs, more training, and assistance in transportation and housing for unemployed parents. In addition, she would like the city, and the businesses within, to hire local workers in their local businesses in hopes of "ending poverty through a living wage". Martha has fought in the city council to find the cracks, where people are struggling and fix them. This includes the expansion of public transportation around and outside of West Sac. She plans on investing tax payer's money in addition to government funds and actually fixing our roads. Martha values our first responders and the work that they do. As Mayor, she wants to strengthen public safety in West Sacramento. Since she's been on the city council she established the Crisis Intervention Program. It consists of a Police Officer and a Mental Health Clinician (Mark Sawyer), to respond to crisis intervention calls. She will continue to invest resources that help reduce the frequency of police contact with community members.

Martha has been active in a wide variety of city and county programs and projects. She has been a key part of the mental health and homeless programs with additional services. She has and will continue to support age-friendly projects to enforce the city's designation as a certified member of AARP's Network of Age-Friendly Community. Martha is a social worker and a lobbyist and will use that knowledge and passion to continue supporting nutrition programs for the elderly, as well as special transportation and other services for the elderly, blind and disabled. In addition, Martha would like to continue to build preschool and after school programs. She wants to make all programs accessible to everyone who qualifies. For example; transportation to the recreation pool for people on the northside of town. Martha has been vocal at City Hall for expenditures that serve the community-at-large. She expects spending to be smart and thought out. She has reviewed the budget in-depth and

THIS 'n' THAT

Wait, What Day Is It?

BY CAROL BOGART

OK, I'll admit; it's starting to get to me. This NEVER knowing what day it is.

It's a frustration, I suspect, being experienced by most whose lives revolve around their calendars: the recurring 'have tos'. Work reminders. Church. School sports.

Medical appointments. Anything you 'plan' for.

You knew it was Sunday, because you had church. You knew it was Monday because yesterday was Sunday. Monday through Friday was school, work or both. Notated were such things as parent-teacher conferences. You didn't have to check the cal-

endar to know what day it was. You knew it was Saturday because yesterday was Friday. And so on.

Pre-pandemic, retirees and empty nesters already knew that a seismic shift in daily routine (no work, no kids) takes getting used to.

Aug. 20: Davis Senior Center (646 A Street, Davis): 3:00 – 7:00 p.m.
Aug. 25: Esparto Boy Scout Cabin (16960 Yolo Avenue, Esparto): 4:00 – 7:00 p.m.

Testing is offered at these locations on a first come, first served basis. The sites will close once all the tests are gone for that day. Participants must be residents of Yolo County and will need to bring proof in the form of a document displaying their name and address, such as a driver's license, ID card, utility bill, or rental agreement. All ages are accepted. Registration is recommended in order to speed up the process but is not required and does not guarantee a test. When residents register online, they will not be able to select a time slot and will not receive a confirmation of receipt. Register at: <https://www.avellinocoronatest.com/patient>.

These sites will test if residents currently have COVID-19, not antibodies. Residents must wear a face covering and practice social distancing. These are not drive-thru testing sites, so residents will need to park their car and walk a short distance to the testing building. Spanish translation will be available at most, if not all, of the sites.

Test results typically come back within a week of receipt from the lab. There may be some delays in getting testing results due to high demand and backlog statewide. Residents can call Yolo 2-1-1 for resource information. For additional updates follow Yolo County on Facebook at: <https://www.facebook.com/YoloCounty/> or Twitter at: <https://twitter.com/YoloCountyCA>.

OBITUARY

Edmundo G. Chairez

Edmundo G. Chairez passed away on July 3, 2020 surrounded by his loved ones. He was predeceased by his father Manuel P. Chairez and grandparents, Jessop and Elvira Knapp. Edmundo (Mundo) is survived by his loving Mother Reyna Roldán, beloved son and daughter, Edmundo (Lupita) and December (Michael), and grandsons Leo and Gabriel. He is also survived by five siblings, countless nieces, nephews, other extended family members, and many friends.

Mundo was born in Fortuna, California, grew up in Broderick, California, and was a lifelong resident of West Sacramento. From a very young age, Mundo was

a very hard worker and held various jobs such as delivering the local newspapers, working in the restaurant business, and later succeeded in the roofing business. He also had landscaping jobs and enjoyed helping family and friends with their landscaping and other home projects, always with much enthusiasm and never with any hesitation. Also at a young age, Mundo always loved animals, especially dogs, rescuing Lady (a loving German Shepherd puppy), and countless other dogs and small animals throughout his life.

His four-legged friends always brought him much joy and laughter. But his favorite times were the special moments he spent with his young grandsons at every possible opportunity. Their visits and laughter were always his best medicine.

He eagerly participated in and appreciated interesting conversations about politics, current events, favorite TV shows or movies, and science. As a kid, he was known as the 'math brains'. As a young child he traveled to his families' home country in México on several occasions with his parents, grandparents, or siblings. In recent years, he enjoyed day trips to Reno, Lake Tahoe, the Bay Area, and Santa Cruz. A favorite pastime was enjoying the outdoors and nature.

Mundo had a sharp sense of humor and even throughout his brief illness, he was able to make

jokes, to laugh, and to make his loved ones laugh. It was a clear indication of the kind of person he truly was....lovable, witty, and most especially during his tough and hard-fought final months of life, a very proud, inspiring, and exceptionally strong man who cared so very much about his family.

Mundo left this Earth way too soon at the young age of 59 and although his Mother and entire family are sorely missing him, he left us all with so many special memories that will endure a lifetime. There is a void in the Roldán/Chairez family, but our much-loved and dearest son, brother, father, friend, Tio, and Abuelito will always be in our hearts. May you be resting in Heavenly peace our dear Mundo...we will never ever forget you and we will forever and ever love you.

Mayor

is confident that she can reassign spending in a way that will be more beneficial for the community. Martha has been very active in trying to get our citizens and business owners protected from COVID-19. She has pushed for PPE for people interacting with the public but has received resistance about ordering supplies. She said that what she would do differently, compared to our current Mayor, is to get a jump on PPE protection. Martha continues to push to apply for federal funding to aid in the relief that businesses

are suffering due to the COVID shutdowns. She is working on some kind of program involving the community, that can assist businesses that may not survive a second shutdown.

Whether "the new norm" becomes permanent, or we end up having to rebuild our lives back to the pre-COVID days, those that are in Martha's corner say "It's time for a change"! She is already familiar with what is working and what is not. She is ready to step in and reroute frivolous spending so that we strengthen our infrastructure, fix the levees and the roads, and maybe even put bathrooms in the parks. Much of what she has tried to do while on the city council

has been swept under the rug, and she's ready to pull it out, dust it off and put that money where it is needed... even if it's needed on the northside of town. Why is there such resistance for financial transparency in City Hall to begin with? Martha will continue to welcome community participation. She is a very kind and respectful lady who will listen and make you feel welcome. Martha understands that the city council is there to care for West Sacramento. If it's on the up and up, there should be no need to hide or misrepresent information. If you would like to offer your input about her campaign or a city-related issue, send it to mgurrerousa@att.net.

Tuleyome Certified California Naturalist Course goes online and in the field

Tuleyome is once again providing a Certified California Naturalist course in partnership with the University of California. Tuleyome's Naturalist course, which begins in January 2021, introduces students to the wonders of California's unique ecology and engages them in the study of, and fosters a sense of stewardship of, our region's natural communities.

The program uses hands-on learning, problem-solving, citizen science and volunteer service to build an appreciation for and deep understanding of the Northern

Inner Coast Range Mountains and the Berryessa Snow Mountain National Monument region. No special degrees or previous naturalist experience is required. Class time is set aside to help students learn how to accurately identify some of the region's most common plant, animal, and insect species. Participants are also eligible for four academic credits through UC Davis Extension for an additional fee.

Tuleyome's 2021 naturalist classes start January 15, 2021 and continue for 10 consecutive Fridays from noon to 4 p.m. Class-

es are scheduled to take place in Woodland but with the current public safety restrictions due to COVID-19, preparations have been made to hold virtual classes. In addition to the ten classroom dates, students are required to attend three field trips, scheduled for Saturdays during the class. These in-field classes help students understand and apply what is learned in the classroom and how to collect data and interact with nature.

Visit Tuleyome's website at www.tuleyome.org/projects/calnat for more information and to sign up.

This 'n' That

Continued from page 1

Thanks to the pandemic, the only certainty I'm sure of now is that the News Ledger comes in the mail on Wednesdays.

Because this again-surging pandemic terrifies me, I have been very sparing in my outings. Groceries, dog walks, get the mail. That's about it. Oh! And bugs from Petco to feed the lizards. For outings that involve my car, I write it on my kitchen chalkboard before I go to bed. Example: If I need to go to Raley's for bottled water. Raley's has good bottled water. The lizards like it. (An aside: The Ledger is sold at Raley's).

To know a specific date (which I rarely need to), it doesn't help me to glance at a calendar and go, "Oh, today's Sunday, July 26." Without church, I have no clue which

day is Sunday. This week, for the first time in since Christmas, I had a benchmark to refer to. On Saturday the 25th, my son came by to pick up his diploma from UC Santa Cruz, which came in the mail on Friday. On my 'big' calendar, in the block for Saturday, July 25, I wrote down "Mike, 2 p.m." That's how I know I started writing this on Sunday. Nearly all the other blocks on my calendar are blank. So different from my life in January, before I became an 'at risk' senior.

Now, what would have been appointments are Xed out. My fear of the surging virus has prompted me to cancel all of them. Nurses' aides just picked up UC Davis Med Center about 'safety' issues. UCDMC is home to my oncologist and

where I have my MRIs. But hospitals, clinics, doctors' offices ... all of them ... they scare me. I'm cool with virtual visits. Eventually I'll have the MRI. But not now. Not when this virulent new SARS virus is filling up the ICUs in Sacramento.

So, all this has prompted me to give 'time' itself more thought.

I'm 71. How much 'time' do I have left? Maybe a lot, if I'm careful. My grandmother lived to 98, my grandfather to 91 – despite his diabetes.

And then there's this: How much more 'time' til there's a vaccine?

Throughout recorded history (one could say, for all time), 'time' has interested essayists and poets:

Time waits for no man. Procrastination is the thief of Time. (mom posted that on my bedroom wall)

Time flies when you're having fun.

In the nick of Time.

Once upon a time (yep, there it is again), I tried and failed to read Stephen Hawking's book "A Brief History of Time." (On its face, isn't the title an oxymoron? Time's 'history' is anything but 'brief'.)

Our country's next exploration of Mars (set to land a new Mars Rover on in February 2021) will be in search of ancient life. NASA already knows the red planet wasn't always a desolate, desert-like environment. Scientists believe the few drops of liquid found trapped in Mars' ancient rocks, plus today's higher resolution Rover images, are proof the planet itself was WATERY! Rivers, lakes and stuff! If sufficient evidence exists it once had life, a manned Mars mission is in the planning. (Maybe Mars even had **human** life! An 'advanced' civilization. That scoffed at climate change. Just sayin'.)

Well, for however long this present pandemic moment lasts, I guess all we can do is accept its 'time bandit' side effect. And meantime, hope the 'warp speed' vaccine happens in months, not years, as other nations warp right there with us. Alliances aside, whoever gets there first should, in my view, be humanitarian about it. Share it with the world, if for no other reason than to save the world's tourism and airline industries (and its restaurants).

Maybe with this pandemic God has given us some 'time' to think about what really matters. My generation was born at the close of WWII. Our parents worried about a polio pandemic. When I graduated high school (completely vaccinated and my son is, too), our class motto was: *We make a living by what we get. We make a life by what we give.* Paraphrasing Einstein (the father of the atomic bomb): "If there's

a World War III, the next will be fought with sticks and stones."

Henry van Dyke wrote: *TIME IS Too Slow for those who Wait Too Swift for those who Fear Too Long for those who Grieve Too Short for those who Rejoice But for those who Love Time is not.*

Maybe our world is overdue for a global vision of prosperity. One that includes us all.

With politics so much in the news, Carol thought she'd add that she considers herself neither liberal nor conservative. She tries to be well informed when she casts her ballot (which, p.s., she does by mail), and then votes for candidates – of whichever party – and referendums that most closely mirror her own beliefs. Yolo County Nut Buying Period Starts August 1

Yolo County Agricultural Commissioner John Young announced today that the nut buying period will be held August 1, 2020 through April 1, 2021, in accordance with the county's nut theft ordinance.

On May 13, 2014, the Yolo County Board of Supervisors adopted a nut theft ordinance to assist with the issue of nuts being stolen from orchards and sold illegally. The declaration of the nut buying period, and related Proof of Ownership requirements, assists the

department in enforcing the ordinance through compliance checks at places where nuts are sold.

During this period, persons in possession of unprocessed "nuts" (almond, walnut or pistachio) shall be required to show a Proof of Ownership. Under probable cause, the agricultural commissioner or any peace officer may inspect the commodity and request that proof of ownership be provided. Proof of Ownership shall contain the following information:

1. Name, address, telephone number and signature of the seller
2. Name, address, telephone number and signature of the buyer
3. The vehicle license plate number of the seller
4. The driver's license number of the seller
5. The weight of the "nut" commodity purchased
6. The date and time of the transaction
7. The variety and condition of the "nut" commodity
8. Specific identification of the source of the commodity being sold. If the seller is the grower of the commodity, this shall mean the address at which the commodity was grown. If the seller is not the grower of the commodity, this shall mean the name, address and phone number of the person from whom that seller obtained the "nut" commodity, and if known, the address where the commodity was grown.

The Proof of Ownership shall be retained with the nut commodity to which it pertains while the commodity is in any person's possession. Proof of Ownership forms may be obtained from the Yolo County Agriculture Department, located at 70 Cottonwood Street in Woodland, or at the Yolo County Farm Bureau, located at 69 W. Kentucky Avenue in Woodland.

U.S. Transportation Secretary Elaine L. Chao Announces \$11 Million for Yolo County Transportation District COVID-19 Response in California

The U.S. Department of Transportation's Federal Transit Administration (FTA) today announced an \$11 million grant award to the Yolo County Transportation District (YCTD) in Yolo County, California, as part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act, signed by President Donald J. Trump on March 27, 2020.

YCTD will use the grant funds to support operating expenses for Yolobus transit services in Yolo County and surrounding areas, including the cities of Woodland, Davis, West Sacramento, Winters, Vacaville, and Sacramento, during the COVID-19 public health emergency.

"This historic \$25 billion in grant funding will ensure our nation's public transportation systems can continue to provide services to the millions of Americans who continue to depend on them," said U.S. Transportation Secretary Elaine L. Chao.

"We know many of our nation's public transportation systems are facing extraordinary challenges and these funds will go a long way to assisting our transit industry partners in battling COVID-19," said FTA Acting Administrator K. Jane Williams. "These federal funds will support operating assistance to transit agencies of all sizes providing essential travel and supporting transit workers across the country who are unable to work because of the public health emergency."

In addition to the CARES Act funding, FTA issued a Safety Advisory that prompts transit agencies to develop and implement policies and procedures regarding face coverings and Personal Protective Equipment (PPE), cleaning and disinfection of frequently touched surfaces, physical separation, and hand hygiene consistent with Centers for Disease Control and Prevention (CDC) and Occupational Safety and Health Administration (OSHA) guidance. CARES Act funding can be used to cover 100 percent of these costs.

Great Ways to Beat Summer Brain Drain

(StatePoint) Summer brain drain is real, and this year's pandemic has only exacerbated the problem. To keep your kids from getting bored while helping them expand their world, incorporate these cool ideas into those long summer days:

- At-home tourism: Many museums and historical sites have ramped up their online exhibitions and interactive features, making a range of programming available to would-be visitors from the safety of their homes. And much of this content is geared toward school-age kids. This can be a great way to spend a rainy day learning something new.
- Music-making: New skills can provide kids with confidence at a time when activities like team sports and theater programs are not possible. Learning an instrument can also lay a foundation for academic success. Check out

Casiotone keyboards, which can make learning to play even more fun. Its Dance Music Mode feature divides the keyboard into instrument sections like drums, bass and more. By playing different combinations of keys, kids can create and remix dance music using 50 built-in styles, as well as familiar effects like stutter and filter.

- STEM exploration: At-home science kits offer kids unplugged, hands-on learning experiences and the opportunity to imagine their room is a real laboratory. Be sure to also check out cool online resources that help kids strengthen their math skills. For example, Casio Cares, a remote learning site offering projects, educational videos, math lessons and self-paced webinars, can be a vital summer tool for students who want to start strong in STEM this fall.

- Summer reading challenge: Many local libraries and school districts host summer reading challenges. Check these out or create your very own. No matter how the challenge works, by participating, kids will likely discover that reading is its own reward.
- Movie magic: Using just a smartphone and some simple editing software, children can learn to shoot and edit their own films. Celebrate their accomplishments while taking advantage of summer evenings by screening the films in the backyard with a Casio Projector, which offers easy set-up and the ability to transition from daytime to nighttime viewing.

Beating summer brain drain is possible. With a little creativity and the use of new tools, families can keep kids engaged during the dog days of summer for a stronger start to the school year.

Sacramento’s Original Comedy Club is changing comedy after almost 40 years in the business

Laughs Unlimited takes the Jokes Outside in Silent Disco meets Comedy meets Block Party Style

Jennifer Canfield, co-owner at Laughs Unlimited, has come up with a new idea to keep comedy alive, the new show is like a Silent Disco using headphones for outdoor comedy. Thursday through Saturday each week in Old Sacramento you can join the fun and witness a clear representation of the kind of innovation businesses need to survive the pandemic.

The new show known as “Inside Jokes Outside Laughs” is

an outdoor comedy experience in response to the outdoor requirements of restaurants to ensure the safety of patrons due to COVID-19. This new format ensures social distancing and outdoor seating under the stars while enjoying much needed laughter to lift people’s spirits.

Audience members watch the show with headphones reminiscent of a silent disco to decrease distractions from the surroundings. The headphones

provide a surround sound experience that creates the close intimacy of laughter in the group setting of a comedy show without the concerns of the general public hearing jokes they didn’t sign up for. Comics can remain no holds barred while they enjoy one of the most popular forms of free speech.

Canfield said that laughter is important in any healing process and Laughs Unlimited has been bringing that to Sacramento for 40 years. She wanted to find a way to continue to do so safely and still have fun.

Standup comedian Carlos Rodriguez calls it a great idea. “This is a new innovative step in standup and I can see this possibly being the way we do shows even after the restrictions of COVID-19 have lifted.”

As the 11th longest running comedy club in the nation, Laughs Unlimited first began providing a home for performers and audiences in Old Sacramento in 1980. They are dedicated to supporting artists and the Sacramento art community by bringing some of the nation’s top comedic talent to the city. Popular and national touring headliners are featured as well as independent showcases and more each week on the Laughs Unlimited stage. Newly remodeled, (Summer 2019) Laughs Unlimited celebrates it’s 40th Anniversary on August 6, 2020.
