MARYSVILLE, CA (MPG) - As summer ripens into early fall, a beloved tradition rounds the corner: the 91st Annual Marysville Stampede, set for Sept. 13 and 14 at the renowned Cotton Rosser Arena in Marysville. Gates swing open two hours before each performance, unveiling a two-day showcase of rodeo thrill and community spirit.

This gathering isn't just another rodeo; it's a living celebration of western heritage and a poignant thread in the fabric of Yuba-Sutter community life. The Stampede has long served both as entertainment and a meaningful backer of local causes, with proceeds benefiting

Gallagher's 2-State Solution to California's Malfeasance

By Katy Grimes, California Globe

California Assembly Republican Minority Leader James Gallagher (R-East Nicolaus) held a press conference Wednesday (Aug. 27) to announce a resolution calling for the creation of a new U.S. state made up of 35 inland California counties. This division of California between the coastal and inland counties, per Gallagher, will be called the "Two State Solution."

Gallagher's resolution is in response "to the chronic neglect of rural and inland California. The recent Democratic-led gerrymander would silence rural voices and rig the political system against them forever."

AJR 23 proposes to form a new state made up of 35 inland California counties to finally give these areas a voice.

Gallagher said with California's costs through the roof of fuel, water, fertilizer, people in the inland counties who have been long forgotten.

"My representation has been stripped," he explained as a result of Governor Gavin Newsom's and Democrat's jamming through redistricting maps, which strips away representation for the north counties.

"The Legislature promised this year it would address affordability concerns. It did not, and they are getting worse," Gallagher said.

"The inland counties have little voice, and will have no voice after Gavinmader and Proposition 50."

He talked about the right to representation and self-determination, which is the ability to pursue dreams.

"The people of inland California have no ability to do that," he said.

"California is run by politicians who don't care because they don't have to," said Gallagher. "They exploit our water, suppress our energy, skyrocket our costs, and kill our jobs."

"Whether you are from the North State, Central Valley, or the Inland Empire, life has become harder and completely unaffordable. We have been overlooked for far too long, and now they are trying to rip away what little representation we have left."

Gallagher introduced Assembly Joint Resolution 23 to create a new state for inland California and its

Finding Safety and Community at Harmony Village

Habitat for Humanity Yuba-Sutter News Release

YUBA-SUTTER, CA (MPG) - For Laurie, a 65-year-old former nurse and life-long resident of the Yuba-Sutter area, Harmony Village has been more than just a place to live. It's been a chance to breathe again.

Harmony Village is a Permanent Supportive Housing community in Yuba City, operated by Habitat for Humanity Yuba-Sutter. It provides long-term, affordable housing with supportive services for individuals transitioning out of homelessness.

"It's nice. I like it. People are nice. If you have a problem, people in the office are nice," Laurie said. "You're in a nice place."

Laurie moved into Harmony Village two years ago after a difficult chapter in her life. Following a 30-year nursing career, she lost her license due to a legal issue and soon found herself without stable housing. She lived in a trailer, but eventually that housing situation fell through. With nowhere else to turn, she resorted to living in her car, until a violent assault near a local hospital brought her into contact with Cindy, a case worker with Habitat.

"She helped me get in here," Laurie recalled. "When she found out I got beat up, she just moved it along faster."

Before moving into Harmony

Village, Laurie relied on the Life Building Center, also operated by Habitat Yuba-Sutter in partnership with Hands of Hope, for daily showers, laundry and a safe place to regroup. The Life Building Center provides shelter and vital day services for people experiencing homelessness, helping them meet basic needs and connecting them with community resources. It was there that Laurie first met Cindy, who she now calls a friend.

"She kind of keeps me in line, and she has my back on things. She's

good people," said Laurie.

Life at Harmony Village has brought Laurie peace, for both her and her dog Max, who spent months on the street protecting her.

"He was really on guard all the time, especially after I got beat up. If someone came toward me, he was right there. He's my watchdog. Now he's much happier, he thinks he owns the place."

Although Laurie no longer practices the stained glass art she once loved, she finds comfort in the beauty

“Café Noir Suspicions” Opens Sept. 12 in Marysville

By Shamaya Sutton

MARYSVILLE, CA (MPG) - The darkly stylish world of island intrigue returns this fall as “Café Noir Suspicions” sets up shop at the elusive speakeasy at Neva’s Place in Marysville. Presented by The Sedona Project, this immersive murder mystery dinner theater invites audiences back into the smoky, jazz-laced atmosphere of last year’s hit — but no prior experience is required to enjoy the show.

“Each story stands alone, so everyone will feel right at home, whether they’re returning patrons or newcomers to the Café,” said director Amber Colvin, who also stars as Sheila Wonderly.

The production blends sharp dialogue, moody ambiance and unexpected twists, all while attendees enjoy dinner, desert and libations. Tickets start at \$75 and work to benefit The Sedona Project - a local nonprofit dedicated to providing affordable mental wellness services, group support and retreats in the Yuba-Sutter region. Last year’s run raised approximately \$13,000, helping the organization expand programming and secure a cozy studio space in the Miller Building on Olive Street.

“Dinner Theatre is a completely different animal. It’s intimate, interactive and immersive. The audience gets to experience what it feels like to be part of the show, and as an actor it keeps you on your toes,” Colvin said. “I most love the opportunity it presents to raise funds for the betterment of our community through charitable contributions.”

This year’s featured cast is a mix of new and familiar faces: Joseph Moye as Richard Archer, Wendi Jellsey as Ingrid Laszlo, Anthony Dost as Deputy

Inspector Rigfield/Renault, Jaie Wilder as Anthony Cairo, Aaron Watkins as Sidney Ferrari, Elizabeth Brown as Claudette Ponte/Judge Koch and Randy Warner as Bartender. Colvin noted that Aaron Watkins and Elizabeth Brown are newcomers, while Dost and Wilder return in new capacities.

As for the dining portion, the menu is still to be announced, though last year’s Caribbean-inspired fare was a crowd favorite.

“We hope to bring the same experience this year,” Colvin said.

Neva’s Place offers a unique underground setting, but attendees should note that the venue is not handicap accessible — dinner is served upstairs, and the show is staged down a flight of stairs. Guests with mobility concerns are encouraged to let the cast know when purchasing tickets, as they are happy to bring dinner down to those who need it. The venue is not wheelchair accessible.

Those attending in groups who wish to sit together are encouraged to reserve a table that accommodates their party. If that’s not possible, let the organizers know at the time of purchase and they will do their best to arrange seating. For guests looking to add a little extra flair to their evening, “Neva’s Underground Special” upgrades are available.

Performances of “Café Noir Suspicions” will begin on Sept. 12 and run through Sept. 28. Evening performances will be held on Fridays and Saturdays from 6:45-9:30 p.m. with Sunday matinees at 11 a.m. Neva’s Place is located in downtown historic Marysville at 101 C St., parking is free. For more information or to purchase tickets visit thesedonaproject.org/event/caf%C3%A9-noir-suspicions/2025-09-27. ★

10 million residents. “This is the constitutional way to go about introducing a new state,” Gallagher said. “This is a new direction — our own statehood” where “governance would meet the needs of its people and isn’t totally incompetent.”

He said Orange County has expressed interest in being a part of the new state. We would govern ourselves.”

Gallagher addressed the existing mater management system in California and described it as “a complete disaster” in which there is “a government created drought.”

Gallagher said the issues plaguing the state aren’t new.

“Wildlife prevention — the governor continues to cut that budget every year since 2021.”

“We don’t want any part of a government that won’t give us a voice.”

He explained that the two-state solution is delineated between the coastal counties and the inland counties. “Gavin Newsom can continue to govern the way they [coastal] want — \$10 gas if you want. We don’t want that.”

Gallagher addressed the large Latino population in the inland counties, and noted that Latino voters have been voting against the establishment for a while now. “It’s probably why Gov. Newsom and Democrats shoved through

redistricting to remove representation.”

“The people are oppressed,” Gallagher said. “Gavin, let my people go.”

Assembly Joint Resolution 23 — Two-State Solution:

Formally expresses California’s consent, as required under Article IV, Section 3 of the U.S. Constitution, to allow inland counties to form a new U.S. state, pending congressional approval.

Yuba Sutter Arts & Culture News Release

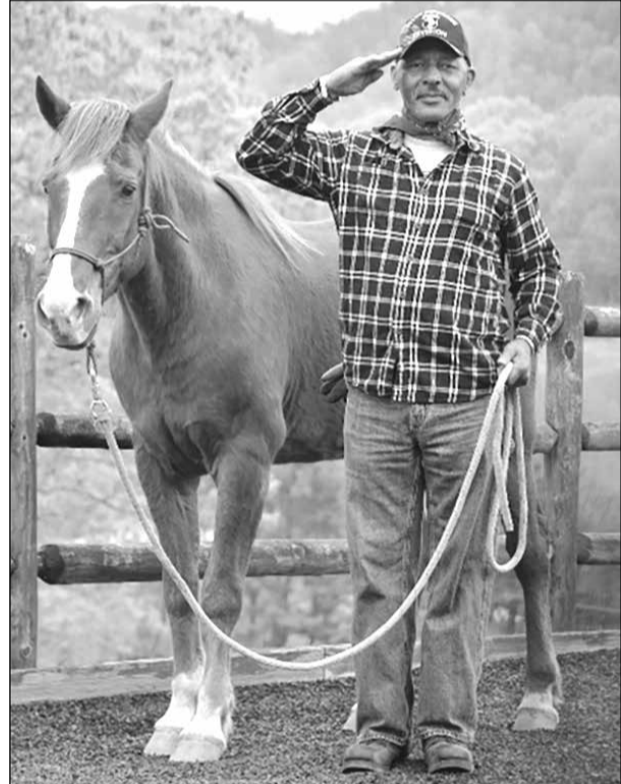

MARYSVILLE, CA (MPG) - Yuba Sutter Arts & Culture will again host a free half-day clinic for local veterans at the Horses and Healing Therapeutic Riding Center in Lincoln, continuing its tradition of offering unique, hands-on experiences for veterans. The clinic will be held Saturday, Sept. 13, from 10 a.m. to 2:30 p.m., and will include a series of activities designed to connect participants with the healing power of horses. A supplemental art project will also be part of the day’s events.

Registered participants will meet at 624 E St. in Marysville at 8:30 a.m. for check-in and a 9 a.m. departure. Transportation will be provided by car-pool or caravan for those wishing to drive themselves. Veterans may also meet at the riding center, located at 7801 Lakeview Lane, Lincoln. Lunch is included. Advance registration is required, along with a \$20 deposit to hold a spot; the fee will be reimbursed in cash on the day of the event.

Equine-assisted therapy programs offer physical, emotional and psychological benefits, and are often used to help veterans cope with injuries, post-traumatic stress disorder and the transition to civilian life. Organizers say working with horses can be a powerful symbol of trust, healing and resilience.

This is the third year

Yuba Sutter Arts & Culture has offered free outdoor programs for the community, funded by an Outdoor Equity Program grant from the California State Parks and Recreation Department. Veterans can register at yubasutterarts.org or contact program coordinator Anna Newman at 956-525-2031 for more information. ★

Food, Music, Cars and Cornhole California Taco Fest Returns

By Shamaya Sutton

YUBA CITY, CA (MPG) - The 6th annual California Taco Fest and Car Show will roll into the Yuba-Sutter Fairgrounds on Saturday, Sept. 13, promising a full day of tacos, live music, polished chrome and friendly competition.

Hosted by Alma Festivals Entertainment, the event will feature dozens of taco vendors offering unique takes on the classic dish, alongside a display of classic, custom and specialty vehicles. Awards will be presented in multiple car show categories. Cultural performances, artisan vendors, family activities and live entertainment will also run throughout the day.

A highlight this year will be a cornhole tournament operated by No Limit Cornhole, featuring \$1,000 guaranteed prize money for the double-elimination bracket, cash and prizes for the top three singles players, and both team and switch formats.

Formerly known as the Yuba Sutter Taco Fest, the event was rebranded as the California Taco Fest and Car Show to reflect its growing reach. Organizers emphasize that it is not affiliated with the newer Marysville

Beale AFB, a Premier Location for Joint Service Training

Beale Air Force Base News Release

BEALE AIR FORCE BASE, CA (MPG) - Beale Air Force Base continues to evolve as a key force-multiplying asset in support of joint-force readiness, serving as an essential platform for training and exercises across U.S. military branches.

Beale hosted the U.S. Marine Corps Combat Readiness Evaluation (MCCRE), during which Marine Medium Tiltrotor Squadron 163 (VMM-163) based in Marine Corps Air Station Miramar, San Diego, California, conducted simulated expeditionary operations using five MV-22 Ospreys. The exercise showed Beale's commitment to their partnerships and the capacity to support joint, high-tempo operations simulating overseas deployments.

"We chose Beale due to its proximity to multiple new training areas that we could utilize for our exercise to provide realistic training and present new challenges," said U.S. Marine Capt. Christopher Hanke, VMM-163 action officer for the MCCRE.

To simulate operations from a foreign airfield, the Marines transformed Beale's layout into a South Pacific Island scenario, enabling training in

troop insertions, tactical movements, aerial evacuations and Tactical Recovery of Aircraft and Personnel (TRAP). The 9th Reconnaissance Wing (RW) supported the MCCRE by providing airfield access, operations and maintenance facilities and essential base operating support including communications, transportation, fuel, fire response and security.

"Beale allowed us to have working spaces for our Marines as well as a dedicated area for aircraft parking to simulate a forward operating base," said Hanke. "Its location also enabled us to conduct extended flight operations over water and maintain access to nearby training areas."

While Beale's Airmen were not on the front lines of the exercise, by providing critical support, the base's air traffic controllers, fire department and mission support elements received valuable joint-environment training. The airfield management team deconflicted MV-22 operations from Beale-assigned aircraft and coordinated access to the runway. The 9th Mission Support Group expanded the dining facility capabilities, coordinated transportation and delivered fuel and equipment to sustain the Marines' daily operations.

"Beale's operations and tower

teams were very flexible for us and eager to help," said Hanke. "They extended airfield hours on a Friday to conduct night operations and were always willing to support our needs. That support allowed us to complete all our required training and directly improved our readiness for deployment."

Coordination extended beyond Beale, with Travis Air Force Base medical personnel integrated into training scenarios. This cross-service collaboration highlighted

Beale's adaptability in supporting unfamiliar airframes and joint mission requirements.

"Any chance to host units from different services exposes our personnel to new aircraft, communication methods, and operating styles," said Christopher Wheeler, 9th RW plans and programs chief. "Our air traffic controllers gained dissimilar aircraft training with the MV-22s, and our fire department trained on crash recovery and aircrew extraction for this aircraft."

Beale's ability to simultaneously host MV-22 operations while maintaining U-2, T-38 and KC-135 missions illustrates its operational versatility. Facilities like the Beale Dragon Town Readiness and Training Center further enhance the base's readiness by offering realistic joint training environments.

"This simulated environment helps us train to new and challenging scenarios while out of our normal operating area in Southern California," said Hanke. "This allowed us to induce friction in planning to better prepare for upcoming challenges on deployment."

The exercise demonstrated Beale's ability to support intricate joint-force operations while providing Airmen with exposure to diverse mission sets and operational demands.

"Beale AFB remains a force multiplier for all services," said Wheeler "This type of support and training for diverse mission sets enhances our readiness by broadening experiences and capabilities."

As the only west coast airfield under Air Combat Command, Beale Air Force Base remains a premier location with essential capabilities that enable joint-force training and enhance expeditionary preparedness. ★

organizations such as the Yuba and Sutter Sheriff's Poses, the Marysville Fire Department, Friends of the Yuba-Sutter Fair, Active 20/30 Club, Marysville Rotary, local schools and other important non-profits

Under the production expertise of the Flying U Rodeo Company, the Stampede promises full-throttle rodeo action. Though the 2025 lineup isn't fully spelled out online, past editions have featured a compelling blend of sanctioned

events: bull riding, bare-back and saddle bronc riding, steer wrestling, tie-down roping, team roping and women's barrel racing. Youth-focused fun also has a place in the Stampede narrative. Flying U Rodeo's past programs have carved out experiences like mutton bustin', pony rides, coloring contests, face painting, and even silver-coin hunts in the arena.

Beyond that, the Marysville Stampede's social and philanthropic efforts kick-on long before the bronc's do. The

production's arrival underscores a year's worth of community goodwill, crowd-drawing entertainment, and fervent local pride. The build-up begins on Friday, Sept. 5, with the Cowgirl Soirée. Starting at 11 a.m. this elegant gathering will be hosted at the Red Roof Ranch in Live Oak and is meant to celebrate women in agriculture and the enduring resilience of the cowgirl spirit. Tickets are required and can be purchased online at tinyurl.com/bdeywywt.

On Wednesday, Sept. 10, the Stampede revives California's oldest running Cattle Drive, a free, family-friendly spectacle that steps off in Yuba City at Cooper & Bridge Street promptly at 6 p.m. From there, the herd rolls down Bridge Street, crosses the 5th Street Bridge, continues along D Street, and finishes at Cotton Rosser Arena at Riverfront Park in Marysville. Expect longhorn steers, horses and wagons, tractors and trucks, rodeo queens and cowboys, the Stampede Committee trolley, and floats from local 4-H and FFA clubs.

The momentum carries into Thursday, Sept. 11, with the Geweke Sponsor Social in Yuba City. This private gathering honors

the rodeo's valued sponsors with delicious food, refreshing drinks, sponsor spotlights, rodeo entertainment updates, and meet-and-greet opportunities.

On Friday, Sept. 12, the action heads to the Posse Arena at 5396 Marysville Rd. in Browns Valley for the Local Team Roping Qualifier. Sign-ups begin at 5:30 p.m., with roping starting at 6 p.m. Admission is free, and families are welcome to enjoy the competition. Food will be available for purchase, and participants will compete for prizes and cash winnings.

Then comes the main event — the 91st Annual Marysville Stampede — on

Saturday, Sept. 13, and Sunday, Sept. 14, located at the Cotton Rosser Arena (1010 Biz Johnson Dr., Marysville). Saturday's performance is Patriot Day, when all active-duty military, veterans, and first responders receive free admission with valid ID or badge. Gates open at 2 p.m., and the rodeo begins at 4 p.m. Sunday is Tough Enough to Wear Pink Day, supporting breast cancer awareness. Guests wearing pink will receive a free raffle ticket for a chance to win a pair of Justin Boots. Gates open at 1 p.m., with the rodeo starting at 2 p.m. For added convenience, advance tickets purchased this year are valid for either day, giving fans

flexibility to choose which performance to attend. Tickets are available at marysvillestampede.com/tickets: adults \$20; children ages 4-12, \$10; kids 3 and under, free. Purchase online before September 13 to save \$5 per ticket. In-person ticket outlets include Cotton's Cowboy Corral, 320 5th St., Marysville; Yuba City Grange Co-Op, 1262 Stabler Ln.; Yuba City, 530-777-3551; and in Wheatland, The City Grill, 1912 Hwy 65. Proceeds from the Marysville Stampede support local schools, charities, first responders and other non-profit organizations. For full details, visit marysvillestampede.com. ★

Keys and Cocktails Piano Bar to Feature Gay Galvin and John Paris

Yuba Sutter Arts & Culture News Release

MARYSVILLE, CA (MPG) - Following past years' popular "176 Keys" and "Tickle the Ivories" concerts, dueling pianists Gay Galvin and John Paris will return for another evening of audience favorites. The event will take place Saturday, Sept. 13, at the Sutter Theater Center for the Arts in Yuba City. The program will feature piano jazz and standards from the American Songbook. Doors open at 6 p.m., and the concert begins at 7 p.m. Admission is \$20, or \$10 for students under 18. Piano bars were once a staple of nightlife. According to theater historian John Kenrick, "A piano bar is a hybrid creature: part performance space, part living room,

part cruise-a-thon, and part saloon. The bar is there to sell drinks, the pianist is there to perform, and the crowd is there to sing, listen, drink, and socialize. All of this means that it's impossible to predict what a given evening's chemistry will be, even if most of the people on hand are regular customers."

Galvin began playing piano at age 6. Trained in classical and jazz styles, she has performed in big bands, musicals, jazz trios, classical ensembles and rock groups. She has a master's degree in jazz piano performance and teaches classical/Suzuki piano and jazz/improv in her Marysville studio. Galvin leads the Gay Galvin Trio, the Yuba Sutter Youth Choir and co-founded the Yuba Sutter Big Band.

Paris, a retired music educator, previously worked with Merv Griffin, Jerry Lewis, the Minneapolis Symphony and the Moody Blues. While jazz is his specialty, he also composes original new age music and is known for improvisational solo piano performances reminiscent of Keith Jarrett. Paris has played Carnegie Hall and was awarded "Best Jazz Album of the Year" by Enlightened Piano Radio.

Attendees can also visit the Art Box Gallery inside the theater to view and purchase works by local artists. Proceeds benefit the artists. Free parking is available on nearby streets and in adjacent lots. For more information, visit yubasutterarts.org. ★

Finding Safety and Community at Harmony Village

Life at Harmony Village has brought Laurie peace, for both her and her dog Max, who spent months on the street protecting her. Photo courtesy of Habitat for Humanity Yuba-Sutter

Continued from page 1 of her surroundings.

These days, Laurie isn't focused much on the future, but she's grateful for what she has now.

"We've got beautiful yards, a pool, a jacuzzi, you can't ask for more," said Laurie. "I'm in a safe place, and I've got good friends. That's enough."

When asked what advice she would give to someone experiencing homelessness, Laurie didn't hesitate.

"Get in a safe place, like your car. Go to the Life Building Center, take a shower, wash your clothes, clean up and see if you can get a job," Laurie said.

And to those who made Harmony Village possible, her message is simple:

"Thank you."

Laurie's story is a reminder that everyone deserves a second chance, and a place to call home. Through efforts like Harmony Village and

the Life Building Center, Habitat for Humanity Yuba-Sutter is creating spaces where people can find safety, stability and a fresh start. For Laurie, that support meant the difference between simply surviving and truly having a place to belong. And for others still searching for that kind of stability, her journey is proof of what's possible when a community cares, listens and takes action. ★

Almond Markets Jolted by Large Crop Forecast

After farming at a loss for as many as five consecutive years, California almond growers watched prices climb for much of the past year, promising a return to profitability. Then, right before harvest, the U.S. Department of Agriculture released an unexpectedly **high crop forecast** of 3 billion pounds. "That shocked the market," said Ali Amin, owner of Primex International Trading, a major nut exporter based in Los Angeles. Anticipating a glut, buyers pulled back, causing almond prices to drop nearly 20% overnight. The reaction erased roughly a billion dollars from the total crop value, and it eliminated the profit margin for many farmers. "You wake up at 5 in the morning and work until 10 at night, and you can't break even," said Jasbir Sidhu, who began harvesting almonds in Fresno and Madera counties the first week of August.

High Beef Prices Keep U.S. Cattle Numbers Low

The supply of cattle in the U.S. is historically low, and market dynamics for ranchers could sustain the trend for some time. With their animals earning **record-high prices**, ranchers are more inclined to sell calves for cash rather than keep them for breeding, growing the nation's herd. After drought annihilated their herds, many cow-calf operators are "finally getting out of the red a little bit," Calaveras County rancher Michael David Fischer said, and with current cattle prices "going absolutely crazy, it encourages them to sell." Abbi Prins, an industry analyst for CoBank in Minnesota, said she expects the size of the nation's beef

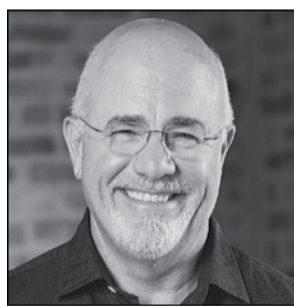

cowherd won't start to see signs of expansion until 2027 because it takes nearly two years for heifer calves born this year to produce their own calves.

Water Quality Panel Focuses on Agricultural Nitrogen Use

As California water officials consider new rules, farmer advocates are pushing back against strict **limits on how much nitrogen farmers can apply** to their crops. Kari Fisher, senior counsel and director of legal advocacy for the California Farm Bureau, said it is too soon to adopt nitrogen limits, as the industry is still gathering and evaluating data to develop realistic targets. "We have found that the one-size-fits-all nitrogen and application reporting requirements don't necessarily fit with how agriculture is grown in the state because of differences related to commodity type, where crops are grown and reliance on surface water versus groundwater and the like," Fisher said.

Report Examines How Farms Cope with Labor Shortages

Farm labor scarcity is a growing challenge for farmers, particularly in light of the Trump administration's goals for mass deportations. A new report from the University of California Giannini Foundation of Agricultural Economics suggests that **labor shortages** may force some California farmers to alter how they grow crops and manage workers by raising wages, changing cultivation practices, implementing labor-saving technologies and using farm labor contractors. If immigration enforcement targets undocumented farmworkers, California farmers are expected to adopt similar strategies, the report said. ★

Dave Ramsey

Dave Ramsey Says The Tortoise and the Hare

should do is set aside a beginner emergency fund of \$1,000. That's Baby Step 1. Next comes Baby Step 2, which means paying off all your debt, except for your house. This would include your car. During this time, you should temporarily stop any kind of investing and retirement contributions, so you can attack your debt with a vengeance.

Once your mortgage is the only debt you have, it's on to Baby Step 3. This means you start saving money to grow your beginner emergency fund into a fully-funded emergency fund of three to six months of expenses. After that, it's on to Baby Step 4, which is investing 15 percent of your pre-tax income for retirement. In your case, that would mean re-starting contributions to your 401(k).

The rest of the plan goes like this. Baby Step 5 is

putting money into your kids' college funds, if you have kids. Baby Step 6 is focusing on paying off the house early, and then comes the real fun. Baby Step 7 is where you build wealth and give like crazy. It may take a little time in some cases, but there are millions of people out there who will tell you this—following the Baby Steps works!

Here Comes the Tariff Inflation

Just a few weeks back, I penned a Money Matters article entitled "Where is the tariff inflation?"

In that article, I detailed that inflation statistics, since the implementation of the tariffs, had, for the most part, failed to show any significant rise in the general prices of goods and services.

I argued although tariff-driven inflation had yet to be seen here in the U.S., due to the mechanics of how tariffs and their time frames work in an economy, prices would certainly soon be on the rise.

The apparent lack of any real inflation initially however, led many news anchors and analysts to claim the tariff inflation threat was a no show. Indeed, the stock market, having fell hard on the initial announcements of the Trump tariffs, rallied into the summer as various inflation price indexes remained fairly stagnant.

In mid-summer, employment statistics began to hint at a weakening in the economy, and with inflation apparently tepid, Washington started to press the Federal Reserve (FED) to start to lower interest rates.

Claiming that inflation was a nonevent, with the jobs data showing a possible slowing in the economy, and company earnings beginning to decelerate in the latest reporting quarter, President Trump turned up the heat on FED Chief Jerome Powell to act.

Powell, however, kept rates the same, and continues to do so, claiming that tariff inflation is yet to be seen and the threat is not over.

As recent as last week, on August 13th, another inflation measure, the consumer price index (CPI) came in at a Fed-tolerable 2.7% year over year (YOY) increase, which matched the rosy expectations of market analysts. The Dow rose 1.1%, about 463 points. The buying was spurred on by hopes the FED, seeing a slowing economy and little inflation, would soon start cutting rates. Lowering interest rates historically pulls buyers into the markets.

Although the markets celebrated the 2.7% CPI data, only one day later, on August 14th, the producer price index (PPI), came out. The PPI is what producers pay for stuff, which they make into other stuff, and then sell it to the stores we all go to. In other words, its stuff in the pipeline and soon to hit store shelves along with their new prices.

Although the PPI was expected to come in at another sleeper figure of .2% YOY, it was more than four times that at an eye-popping .9%.

Whoops.

The .9% figure is the worst since 2022, which was right about the time when they let us all out from the CoVid shutdowns

and we all went on a spending spree. With the additional lack of supply from those very same shutdowns, coupled with all that free money from all those government checks we got that we couldn't spend during the lock downs, crushing demand met up with limited supply driven by crack cocaine amounts of saved up money.

AND KABLAMO!

Wallet obliterating inflation ran wild.

2022 and 2023 saw that massive inflation we all witnessed and bitched about.

Yea, the PPI posted last week hadn't been that high since those fun times.

Now everybody is scratching their head and all the aisle ushers are saying "move along, there is nothing to see here".

Well, there is something to see, and no amount of smoke and mirrors will bullet-proof consumer wallets when what I think is coming, comes.

As detailed in July's article, tariff driven inflation is slow to make it through the supply pipelines. But it will and likely has started to.

You just can't put 20, 30 or even 50% taxes (tariffs) on stuff and expect inflation not to rise, and rise significantly.

The fact remains that Trump was elected in just a little over 7 months ago. He didn't enact tariffs for another month. That equates to six months since the start of the tariffs.

And that is about the minimum amount of time it takes to fill the pipeline with new stuff from abroad, if that.

It is likely going to be another three to six months, or even more, to feel the full effects of the tariffs on consumer prices.

We have not escaped the tariff inflation as some would have you believe. It is only just beginning. And when inflation starts to accelerate even more, as the PPI is hinting to, the FED will not cut interest rates. It can't.

Doing so would only amplify the inflation even more.

And back into the lovely box the FED will find itself.

A stagnating economy begging for lower rates, and an inflation monster chomping at the bit, salivating at the thought of them.

Dove Opener Marks Celebratory Start to California's Hunting Seasons

Hunters are strongly encouraged to review the dove hunting regulations and those governing California Department of Fish and Wildlife lands. Photo courtesy of California Department of Fish and Wildlife

California Department of Fish and Wildlife News Release

SACRAMENTO, CA (MPG)

- They may have venison in the freezer already or enjoyed some cottontail rabbit on the grill, but many California hunters consider the Sept. 1 dove season opener the celebratory – if unofficial – start to California's hunting seasons.

Technically speaking, rabbit season opened July 1 and some archery and rifle deer seasons are underway, but those can be solitary pursuits in wilderness settings or other remote areas well out of the public eye.

The Sept. 1 dove opener, by contrast, is a carnival of road trips, reunions, barbecues and small-town motel swimming pools during the midday heat. It's the first bird hunting season to open and the single busiest day on the hunting calendar typically offering the best hunting of the season.

Dove hunting is no backcountry experience. It's a celebration of California's agricultural heartland and the farming communities that help feed the nation and the world. These agricultural lands support huge concentrations of mourning and white-winged dove that feed on the waste grain and spilled seed, drink from the farm ponds and seasonal creeks and roost among the orchards.

Adding to the popularity are the many high quality public hunting opportunities available. California Department of Fish and Wildlife (CDFW) lands closest to the agricultural fields in the Sacramento, San Joaquin, Imperial and Colorado River valleys are perennial hotspots for dove hunting. These include the Gray Lodge, Upper Butte Basin, Los Banos, North Grasslands, Mendota,

San Jacinto and Imperial Valley wildlife areas and the Palo Verde Ecological Reserve. Many of these public areas prepare crop fields to attract and hold dove. Entry procedures can vary, particularly on opening day. Not all California Department of Fish and Wildlife properties are open to dove hunting, so hunters need to check ahead in planning their hunt.

The season opener on Monday, Sept. 1 coincides with the Labor Day holiday ensuring a strong turnout of hunters, especially families who will enjoy one last outdoor adventure together before summer fades to fall.

For many youngsters and some adults who have recently completed their Hunter Education requirements, the dove opener was their first hunting experience and their commencement into California's hunting and conservation communities that can provide a lifetime of learning, friendship, travel, adventure, environmental stewardship, memories and good food obtainable only in the outdoors.

Hunters could target mourning dove and white-winged dove starting one-half hour before sunrise on Sept. 1 until sunset. The season continues through Monday, Sept. 15. Spotted dove and ringed turtle dove also become legal game. Mourning dove and white-winged dove have a daily bag limit of 15, up to 10 of which may be white-winged dove. The possession limit is triple the daily bag limit. There are no limits on spotted dove and ringed-turtle dove. The invasive Eurasian collared-dove is open year-round with no bag limits. A dove identification guide is available on the California Department of Fish and

Wildlife website.

Hunters are strongly encouraged to review the dove hunting regulations and those governing California Department of Fish and Wildlife lands available online.

Some of the most common citations California Department of Fish and Wildlife officers issue during dove season are for semi-automatic shotguns without the proper plug to reduce the capacity of the gun's chamber and magazine to a three-shell maximum; for hunters without the required Upland Game Bird Validation accompanying their hunting license (not required for youngsters with a Junior Hunting License); and for those transporting their dove without a head or fully-feathered wing attached for identification. As a reminder, non-lead ammunition is required for hunting in California.

The second half of California's dove season begins Nov. 8 and runs through Dec. 22. Many California Department of Fish and Wildlife areas are open to dove hunting in the second half of the season on designated waterfowl shoot days when a Type A wildlife area pass will be required to enter. Additional late-season dove hunts are offered through California Department of Fish and Wildlife SHARE program, which provides public hunting opportunities on private farms and ranches throughout the state.

For more information and resources on dove hunting, California Department of Fish and Wildlife Advanced Hunter Education program has videos to help. California Department of Fish and Wildlife R3 program has additional resources and videos for newcomers to dove hunting. ★

Property Address: 16582 SPRING ST, CAMPTONVILLE, CA 95922

YOU ARE IN DEFAULT UNDER A DEED OF TRUST, DATED 05/31/2022. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE

SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDING AGAINST YOU, YOU SHOULD CONTACT A LAWYER. On 09/22/2025 at 09:00 A.M., America West Lender Services, LLC, as duly appointed Trustee under and pursuant to Deed of Trust recorded 06/03/2022, as Instrument No. 2022-009046, in book , page , of Official Records in the office of the County Recorder of YUBA County, State of California. Executed by: KYLE HAWK, A SINGLE MAN, AS HIS SOLE AND SEPARATE PROPERTY, WILL SELL AT PUBLIC AUCTION TO HIGHEST BIDDER FOR CASH, CASHIER'S CHECK/CASH EQUIVALENT or other form of payment authorized by 2924h(b), (Payable at time of sale in lawful money of the United States) The Fifth Street Entrance Yuba County Courthouse, 215 Fifth St., Marysville, CA 95901 All right, title and interest conveyed to and now held by it under said Deed of Trust in the property situated in said County and State described as: AS MORE FULLY DESCRIBED IN THE ABOVE MENTIONED DEED OF TRUST APN# 064-143-003-000 The street address and other common designation, if any, of the real property described above is purported to be: 16582 SPRING ST, CAMPTONVILLE, CA 95922 The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. Said sale will be made, but without covenant or warranty, expressed or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by said Deed of Trust, with interest thereon, as provided in said note(s), advances, under the terms of said Deed of Trust, fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. The total amount of the unpaid balance of the obligation secured by the property to be sold and reasonable estimated costs, expenses and advances at the time of the initial publication of the Notice of Sale is \$ 431,662.65. The beneficiary under said Deed of Trust has deposited all documents evidencing the obligations secured by the Deed of Trust and has declared all sums secured thereby immediately due and payable, and has caused a written Notice of Default and Election to Sell to be executed. The undersigned caused said Notice of Default and Election to Sell to be recorded in the County where the real property is located. NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a

trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on the property. All bids are subject to California Civil Code 2924h and are sold "AS-IS". NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and if applicable, the rescheduled time and date for the sale of this property, you may call 844-693-4761 or visit this internet website www.awest.us, using the file number assigned to this case 25-003048 Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Website. The best way to verify postponement information is to attend the scheduled sale. NOTICE TO TENANT: You may have a right to purchase this property after the trustee auction if conducted after January 1, 2021, pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call 844-693-4761, or visit this internet website www.awest.us, using the file number assigned to this case 25-003048 to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the address

of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid, by remitting the funds and affidavit described in Section 2924m(c) of the Civil Code, so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. If the sale is set aside for any reason, the Purchaser at the sale shall be

entitled only to a return of the deposit paid. The Purchaser shall have no further recourse against the Mortgagor, the Mortgagee or the Mortgagee's attorney. The Brownsville Bailinick & Beyond

By Kathy Craigo Harteis

Who are the so-called entitled among us?

I've come to the conclusion that entitlement is a frame of mind. It's all in your head if you believe you are entitled to anything.

Narcissist is another option. You are always wrongly accused, nothing is your fault when bad things happen. You are special, others aren't.

I've said it before, but it's worth repeating. None

Entitled

of us are entitled to anything we didn't earn. And, we need to live up to our own mistakes and accept fault as appropriate.

I live a comfortable life. But, the years before now were filled with challenge. I have worked long and hard. I sometimes had more month left than money.

My parents instilled in me the importance of faith, honesty and hard work.

The combination of those things will lead us in the right direction.

I am so sick of politicians deciding what stupid battles to fight for us. Or more likely for their own political wellbeing. How about letting us (the voters) decide which dog they

should have in the fight?

Sadly we are living in a scary world these days. Daily I wonder if God has had enough yet. He could put the kibosh on us all - entitled or not at any given time.

Our best bet is to appreciate what we have, work to get what we want and own our own shortcomings. It's up to us, no one else to live a just and respected life.

Life is good today.

A native of Grimes, CA, Kathy Craigo Harteis is a former local journalist and former owner and chief executive of Kathy Craigo Media Consulting, in Colusa. She currently lives in Beach, North Dakota, where she lived for many years while raising her family. ★

Thanks so much to the ones who gave Ponderosa Park such an overhaul. They worked hard and it shows. It takes a "village", so consider getting involved with one or more of our volunteer groups. It helps the whole community.

Sometimes I just hate changes, especially to my banking, payments, utilities and more. But now we are dealing with changes with AT&T, internet provider and Starlink. Our TV Starlink goes on a "brief vacation" about 5:00 pm just as I am watching the news each evening. We

just cannot afford AA&T any more, but how do you change when your business counts on phone service? The way of the world demands change, though, I guess. Luckily my daughter is more able to understand the "new" language. So now to get the details worked out.

Now that school is in session and Labor Day has passed, we can begin to think about fall. The Blues Festival is over, the museum is closed, so we can "change gears". At the Community center Stone Soup is still on every Thursday at noon and

the Next Step Breakfast is planned for every second Sunday of the month. Hope to see you there Sept 14. We had a few thunder/lightning storms a week or so ago, so far no fires reported near Brownsville. So Fortunate! Please keep fire safe.

Look Back in Time - In 1898 Justice E.B. Sparks in court at Challenge Mills dismissed the case against Mr. Robot for Battery on W. Bainbridge (we wonder what the fight was about).

Hope to see you in Brownsville soon. ~ Yvonne

Tough Week for Falcon Volleyball

Story by Jennifer Corriea and photos by Christopher Pedigo

YUBA CITY, CA (MPG) - Last week was a tough one for the Falcons as they dropped subsequent matches to East Nicolaus, Pierce and Chico.

In Trowbridge on Aug. 25 to play the Spartans, who have lost just a single match thus far, River Valley finished on the short end of the 12-25, 23-25, 20-25 score.

Limited on the attack, Jada Barr and Parveen Takhar finished with five kills apiece and a combined three aces.

Alexa Campos made a team-high 18 digs, while

Takhar accounted for 16.

Returning home the following evening, the Falcons were edged by Pierce 14-25, 25-21, 25-23, 21-25, 12-15 despite a monster effort from Barr who hit .370 for the match with 17 kills, then additionally finished with a team-high 31 digs.

Takhar also recorded a double-double with 22 kills and 19 digs as did Campos with 29 assists and 15 digs.

River Valley also got solid back row play from Kiera Farias and Valeria Correa who finished with 16 and 12 digs respectively.

To conclude last week,

the Falcons entertained Chico where they put up another good effort before ultimately falling 25-27, 21-25, 25-18, 25-22, 9-15 to the Panthers.

Barr made good on 23 of 27 kill attempts to go along with 27 digs to lead the way, while Campos recorded 22 digs and Emylee Hull accounted for 18.

Looking to get back on track this week, River Valley (1-3) entertained Colusa on Tuesday, was in Woodland to play Pioneer on Wednesday before making its way to Sutter's Battle in the Buttes Tournament on Saturday. ★

Injuries Plague Falcons in Loss to Pioneer

By Jennifer Corriea

WOODLAND, CA (MPG) - A short-handed Falcon squad limped into Woodland last Friday night to face a solid Pioneer Patriots team and suffered a 6-40 loss.

In a seemingly similar scenario to last week and further compounded by the injury situation, River Valley had some untimely penalties and turnovers as well as some breakdowns defensively that Pioneer capitalized on as they rolled up 372 total yards of offense.

Still, Coach Mikey Badaluco is pleased with his team's mind set and the growth he is seeing particularly in his underclassman.

"We've had some bad luck with injuries," said Badaluco, "But this group is really close and are playing hard for us. Another good sign is that our young guys are getting better."

One such player is sophomore Kobe Edwards, who gained 106 yards on six carries and scored the Falcons' lone touchdown.

Edwards replaced Kavari Drummonds

after the junior exited due to injury in the third quarter having rushed 12 times for 42 yards.

RV also got a gutsy effort from its quarterback Dominick Younker, who played through an arm injury completing four passes for 42 yards.

No other statistics were available by the Territorial Dispatch print deadline.

Seeking to break into the win column, the Falcons return to action on Friday night when Natomas (0-2) comes to town. ★

DUI Checkpoint in Yuba City

Sutter County Sheriff's Department News Release

YUBA CITY, CA (MPG) - On Sept. 5, the Sutter County Sheriff's Office will conduct a driving under the influence (DUI) checkpoint from 8 p.m. to 2 a.m. at an undisclosed location in the City of Yuba City.

DUI checkpoint locations are determined based on data showing incidents of impaired driving-related crashes. The primary purpose of DUI checkpoints is to promote public safety by taking suspected impaired drivers off the road.

The Sutter County Sheriff's Office reminds the public that impaired driving is not just from alcohol. Some prescription medications and over-the-counter drugs may interfere with driving.

While medicinal and recreational marijuana are legal, driving under the influence of marijuana is illegal.

Drivers charged with a first-time DUI face an average of \$13,500 in fines and penalties, as well as a suspended license.

Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.

Wheatland Answers Call of Physicality

"Our D-line played unselfish football tonight," Fatten said.

Wheatland got on the scoreboard first as junior quarterback Joseph Franklin found senior wide receiver Diego Lopez for a 19-yard touchdown pass in the right corner of the end zone.

Franklin completed five passes for 85 yards in the win and the Pirates took a 6-0 lead into the half.

Union Mine responded quickly in the second half and took an 8-6 lead after senior quarterback Nathan Gregson found senior running back Max Nober wide open down field for a 59-yard touchdown pass.

The Diamondbacks defense kept the momentum on their side as they intercepted a pass from Franklin on the ensuing possession that once again gave them great field position, this time on the Wheatland 35.

Like clockwork, the Pirates defense came up with another big stop on fourth down that forced the change of possession back

to the Wheatland offense.

The Pirates completed a 74-yard drive that was capped off with a 24-yard rushing touchdown by senior athlete Jaylen Brown that gave the Pirates a 12-8 lead.

Brown was a workhorse for the Wheatland offense on Friday as ran the ball 10 times for 71 yards. Fatten said that Brown is a great addition to the offense as he's a dynamic runner that goes downhill and has great vision. ★

WHEATLAND, CA (YSBC) - The Wheatland Union Pirates football team gutted out a hard fought and gritty battle over the Union Mine Diamondbacks on Friday, Aug. 29.

A week removed from a disappointing 42-14 loss against Amador in the 2025 opener, Wheatland responded to the challenges from their coaching staff.

Pirates head coach Andy Fatten told Yuba Sutter Butte Colusa Sports that he wanted them to be more physical on both sides of the ball.

"Their (Union Mine) going to run it right down your throat, so we needed to be the most physical team on the field," Fatten said.

Physicality was no issue for both teams as the first quarter was scoreless and

flew by and lasted at the blink of the eye.

Union Mine had their first three drives of the game with great field position in Wheatland territory, while the Pirates first two possessions of the game

started within their five-yard line.

The Wheatland defense held strong against the rushing attack of the Diamondbacks as Pirates junior lineman Brody Karas recovered a fumble

by Union Mine.

Fatten told YSBC that he was so proud of the defensive line and his linebacking core stepped up and gave the physicality right back to the Diamondbacks.

Huskies Open 2025 with Shutout Over Falcons

By Steven Bryla

SUTTER, CA (YSBC) - The Sutter Union Huskies girls flag football team started their 2025 campaign with an 18-0 shutout victory over the River Valley Falcons on Aug. 27.

Sutter took an early 6-0 lead in the first quarter as junior running back Audrey Horn bolted down the left side line for a 37-yard rushing touchdown. Horn led the Huskies with 47 yards in the win.

River Valley and Sutter each turned the ball over to one another in the final minutes of the first half, as Falcons sophomore linebacker Peyton Lopez and Huskies senior defensive back Jaime Haase each had an interception.

Sutter had a 6-0 lead at the half. The Huskies opened the second half with the ball and Haase found sophomore wide receiver Zoey Plant for her first of two touchdown passes on the day as they connected for 35 yards.

Haase completed six passes for 82 yards in the win.

the game, but head coach Paul Ruggirello told Yuba Sutter Butte Colusa Sports they couldn't just get that one play to get into the end zone.

Ruggirello expressed that he was happy with the effort of his team as they did have shining

moments throughout the game. The Falcons won the turnover battle as junior linebacker America Arechiga-Perez picked off a pass from Haase.

had a reception for five yards in the loss. Falcons senior quarterback Kaitlyn Garcia completed seven passes for 32 yards as freshman Marissa Widener hauled in three receptions for 21 yards.

Haase extended the lead in the fourth quarter for the Huskies as Haase found senior wide receiver Sophia De Silva for a 28-yard touchdown pass. Sutter head coach Brandon Supernaw told YSBC it was great to grab their first win of the season in the opening game.

Supernaw expressed to his team postgame that he was proud of them for getting the win, but

he expects them to be better over time. He added as this being a second-year program, they have come a long way from their first game last year to this year.

Supernaw told YSBC that he wishes they could have converted an extra point, but that will be a point of emphasis they focus on before their next game.

Both teams will reset the drawing boards as they both have some time off before their next game. The Falcons hosted the Huskies as they were scheduled to play one another in their next scheduled game on Wednesday, Sept. 3 at 7 p.m. ★
