SACRAMENTO, CA (MPG)

- When you think of downtown Sacramento today, you might think of DoCo or the Capitol Mall. But did you know that downtown Sacramento was once home to a thriving Japantown?

"Kokoro: The Story of Sacramento's Lost Japantown" is now on display at the California Museum located at 1020 O St. in Sacramento, through March 29. The exhibit first appeared at the California Museum in 2017 and has remained one of the museum's "most beloved and impactful", according to the museum's website.

The exhibition takes museum visitors on a journey through the rise and downfall of the once bustling neighborhood which offered nearly 200

businesses serving the needs of its residents with grocery stores, sporting events, religious services and more. At one point in time, the neighborhood

was the fourth-largest Japantown in the U.S.

Various craft tables allow visitors to interact with the exhibit by creating a paper cherry blossom to add to a cherry blossom tree, or by helping stock the fictional "Hamamoto's Mini Mart" with paper carp or hanami dango, a traditional Japanese sweet made of rice flour.

Sweet treats were an important part of the neighborhood, connecting residents with their culture and the taste of home.

Fish is another staple of Japanese culture. Grocery stores in Japantown sold fresh and preserved fish, often salmon and steelhead

County Launches Land Use Regulation Library

**Sacramento County
News Release**

SACRAMENTO REGION, CA (MPG) - The Sacramento County Planning & Environmental Review recently announced the launch of the Land Use Regulation Library at landuse.sacounty.gov.

The Land Use Regulation Library is the new permanent home for the County's Development Code, which includes the General Plan, Zoning Code (including Special Planning Areas and Neighborhood Preservation Areas), Countywide Design Guidelines, Specific Plans, Master Plans, Climate Action Plan and South Sacramento Habitat Conservation Plan. This library aims to improve compliance with Title II of the Americans with Disabilities Act's mandate of providing accessible website and mobile app content.

"I'm proud that our team has stepped up to the challenge and significantly improved the ease of use of a wide range of the County's land use regulatory documents," said Todd Smith, Sacramento County planning director. "This first step creates a single, easy to use interface for all internal and external customers."

The library is a work-in-progress project with documents actively being converted to the new webpage format. Some content will remain as an archived PDF or as a transitional PDF until conversion is completed.

Planning staff will be adding content and taking feedback during this open beta period to improve the library experience before its targeted completion in spring.

In addition to improving accessibility, the library includes many features to improve the experience of using the Development Code. The Land Use Regulation Library provides a mobile friendly interface on a modern web framework used by global brands including Google, VISA and IKEA.

Instead of searching through hundreds of PDF documents, one search box is now available to explore all regulations posted in the new webpage format. Learn what uses are permitted, prohibited or require a conditional use permit in each zone with a few clicks. Explore Planning definitions, applicable regulations instantly.

Features of the Land Use Regulation Library include finding popular Code sections right from the homepage, getting an estimate for Planning entitlements from one page and easily shareable links to specific code sections.

New Year, New Roadside Safety Protections

California's Expanded "Slow Down, Move Over" Law Now Covers All Stopped Drivers and Passengers Roadside

California Office of Traffic Safety News Release

CALIFORNIA (MPG) - California's expanded "Slow Down, Move Over" law officially took effect Jan. 1, adding lifesaving protections for all stranded drivers and passengers on the roadside. The strengthened requirement compels drivers to move over, or slow down if unsafe to do so, for any stopped vehicle using hazard lights or emergency indicators, including everyday drivers experiencing mechanical trouble or emergencies.

The change, authorized under Assembly Bill 390, legislation sponsored by AAA, comes during a nationwide spike in roadside deaths that safety leaders are calling a crisis.

"Whether you're a stranded driver or a first responder, standing just feet from high speed traffic has become increasingly deadly," said Auto Club Corporate Communications Manager Doug Shupe. "This law equips California drivers with a clear, enforceable rule that can prevent more needless deaths."

With AB 390 now in effect, California joins 28 other states, and the District of Columbia, with expanded Slow Down, Move Over protections to include all stopped vehicles.

Violations in California can result in fines up to \$1,000 and points on a driver's record for unsafe behavior near stopped vehicles.

"Too many Californians are losing their lives simply because passing drivers fail to slow down or move over," said CHP Commissioner Sean Duryee. "This expanded law makes clear that every person on the roadside, whether a driver or a passenger,

The change, authorized under Assembly Bill 390, legislation sponsored by AAA, comes during a nationwide spike in roadside deaths that safety leaders are calling a crisis. Photo courtesy of California Office of Traffic Safety

deserves the same margin of safety. Obeying 'Slow Down, Move Over' is not just a courtesy; it is a legal responsibility that saves lives."

The AAA Foundation for Traffic Safety, using data from the National Highway Traffic Safety Administration's (NHTSA) Fatality Analysis Reporting System, reveals roadside fatalities are rising sharply. In California, the number of people killed roadside increased nearly 77% from 2014 to 2023. This alarming trend in people killed roadside is driven by higher speeds, distracted driving and limited shoulder space on modern freeways, data shows.

Additional recent national findings highlight the severity of

the problem. According to the Emergency Responder Safety Institute, 46 emergency responders were killed last year in the U.S. after being struck while assisting at roadside scenes — police officers, firefighters, EMTs and tow truck operators. Tow operators face some of the deadliest conditions on America's roadways. Hundreds of stranded drivers are killed every year while waiting for help or attempting simple fixes like changing a tire.

"Everyone traveling on California's roads and highways deserves to arrive safely at their destination," said Caltrans Director Dina El-Tawansy. "The provisions added to the Move

Over law will help keep more people safe and continue protecting the highway workers and first responders risking their lives to serve others. When we make conscious decisions to benefit the safety of our fellow travelers and dedicated public servants, it creates a safer, more enjoyable travel experience for all."

Daniel Lazaro, a tow truck operator for Preferred Towing, lost his friend at the roadside in October last year. Fifty-seven-year-old Carlos Trejo was struck and killed while helping a stranded Auto Club member on 1-110.

"Carlos was a caring person who would always bring up his family in a joyful and proud

way, especially his grandchildren," said Lazaro. "As he would clock out every day to go home, he would always tell everyone clocking in to be careful and to be safe out there."

Many drivers don't understand the law and it's costing lives. An Oct. 2025 national study from the AAA Foundation for Traffic Safety found the following: 36% of drivers captured on roadside video did not slow down or change lanes — violating the law entirely; drivers were least likely to protect tow operators, with only 58% complying near stopped tow trucks; and two thirds of drivers said they were familiar with "Slow Down, Move Over" laws, yet many could not accurately explain what was required.

The research also found that while some drivers do change lanes, many fail to reduce speed, leaving dangerously little margin if something goes wrong.

As of Jan. 1, drivers must take these simple actions when approaching a stopped vehicle. Change lanes away from the stopped vehicle, if safe to do so. If changing lanes is not possible, slow down to a safe, reasonable speed. The message is clear: See hazards or a stopped vehicle? Slow down. Move over. Save a life.

"As you head out on your next trip, keep in mind that the driver with a flat tire or other roadside car trouble could very well be you," OTS Director Stephanie Dougherty said. "Please move over a lane or slow down for highway workers, first responders, tow truck drivers and other stopped vehicles on the side of the road or shoulder. Make safety the destination we all share by looking out for every vehicle and person on the roadside." ★

'Kokoro' Explores Lost Japantown

Continued from page 1
caught in the American and Sacramento rivers.

The exhibit's visual timeline educates visitors on the impact of World War II, which displaced thousands of Japanese residents due to racial hysteria. By the time residents were able to return to their homes, the area had evolved into a mosaic of Mexican, Korean, Portuguese, Chinese and other cultures.

Museum visuals include photos of businesses that were once located just five blocks from the downtown museum, war-time regalia, and symbols of the success of business owners including a vintage record player that belonged to the owner of the Asahi Garage at 5th and N Streets.

The exhibit also highlights notable figures and even music stars who came out of Japantown, including opera singer Agnes Yoshiko Miyakawa, displaying one of her formal dance kimonos.

The historic Japantown was restored for a period of time in the 1950s. During this time, people came from across the region to visit Japantown, traveling to visit doctors and dentists or just to dine and shop.

Things took a turn in 1954 when the City of Sacramento unveiled the Capitol

Mall Project, which was billed as a clean, modern downtown and a gateway to the Capitol. This project ultimately destroyed Japantown and the surrounding multiethnic areas.

Since then, Japantown has been entirely wiped from Sacramento's urban landscape.

"Kokoro" takes visitors back in time to an entirely different downtown Sacramento to the one we know today, honoring an important, yet often forgotten part of Sacramento history.

"Kokoro: The Story of Sacramento's Lost Japantown" was developed in partnership with former residents of Sacramento's Japantown, the author of "Sacramento's Historic Japantown: Legacy of a Lost Neighborhood" Kevin Wildie and others. The exhibit runs through March 29.

The California Museum is located at 1020 O St. in Sacramento. The museum is open 10 a.m. to 5 p.m. Tuesday through Saturday, noon to 5 p.m. Sunday and is closed on Monday. General admission tickets are \$10, with discounts for students, seniors, military and youth. Children aged 5 and under are free.

Sierra Donor Heroes Save More Than 400 Lives

Sierra Donor Services celebrates a year of lifesaving impact across the state

Sierra Donor Services News Release

SACRAMENTO REGION, CA (MPG) - Sierra Donor Services (SDS) honored the extraordinary generosity of Northern California and Nevada donor heroes whose gifts made 422 lifesaving organ transplants possible in 2025, saving and improving lives across the state and beyond.

In 2025, 170 generous organ donor heroes said yes to donation, giving hope to patients waiting for a second chance at life. In addition, Sierra Donor Services facilitated 855 tissue donations and provided support to over 1,200 donor hero family members, honoring their loved ones' legacies through compassionate care and ongoing bereavement support.

"I am deeply grateful to the Californians who chose to register as organ donors and, in doing so, gave the extraordinary gift of life. Their generosity and selflessness ripple through the communities we serve, making our work possible and transforming countless lives. They are the true heroes among us," says Sean Van Slyck, chief executive officer of Sierra Donor Services.

Every lifesaving gift is made possible by the compassion of donor heroes and their families, the dedication of Sierra Donor Services team members, and the commitment of community partners who raise awareness and encourage Californians to register as donors.

Sierra Donor Services is one of California's federally designated organ procurement organizations (OPOs) responsible for the 24/7 coordination of organ and tissue donation for over 2.8 million people in Northern California

and Nevada. This work includes supporting families during moments of profound grief, caring for donor heroes, coordinating recovery surgeries, ensuring the safe and timely transport of organs to transplant hospitals, and providing long-term support for donor families.

"I watch in awe as our team continues to overcome significant obstacles while working around the clock to make every lifesaving gift possible for our donor heroes and patients awaiting transplants," says Van Slyck. "I am so incredibly proud of our staff, and we will continue our lifesaving mission in 2026."

Across the nation, the United States continues to lead the world in organ donation and transplantation, surpassing 49,000 organ transplants in 2025 – an average of more than 130 transplants each day.

Despite this progress, the need remains urgent. More than 100,000 people nationwide, including nearly 20,000 Californians, are still waiting for a lifesaving transplant.

Sierra Donor Services encourages everyone to #BeTheGift that saves lives by registering as an organ, eye and tissue donor at sierradonor.org.

Defendant Sentenced to 248-Years to Life for Child Sexual Assault

Sacramento County District Attorney's Office News Release

SACRAMENTO, CA (MPG) - The Honorable Carlton Davis sentenced Mitchell Weston to 248 years to life in prison. On Dec. 18, 2025, a jury convicted Weston of 16 counts of lewd act upon a child, nine counts of oral copulation/sexual penetration with a child under 10 years old and three counts of sexual intercourse or sodomy of child under 10 years old.

Mitchell Weston sexually assaulted two girls over a period of two years. Weston

preyed on their vulnerability. Both victims disclosed the abuse which included molestation, oral copulation, digital penetration and sexual intercourse.

Under current California law, Weston (age 36) will become eligible for release at an Elder Parole hearing once he turns 50 years old and has served 20 years of his 248-years to life prison sentence. With his in-custody credits, that will be in approximately 16½ years. Additional material on Elder Parole can be found at: www.cdcr.ca.gov/bph/wp-content/uploads/sites/161/2022/03/Elderly-Parole-Fact-Sheet3_18-1.pdf. ★

Defendant Sentenced for Felony Insurance Fraud

Sacramento County District Attorney's Office News Release

SACRAMENTO REGION, CA (MPG) - Jordan Roy Lester pled to felony insurance fraud and was sentenced to 270 days county jail, two years formal probation and was ordered to pay restitution in the amount of \$232,829 to the California Highway Patrol (CHP) and \$127,791 to the State Compensation Insurance Fund. Lester will also lose his service and pension credit for the years the fraud was committed.

Lester was a California Highway Patrol (CHP) officer assigned to the Central Division. On July 11, 2021, Lester told his superiors he had been injured on the job. The injury was deemed not significant, and Lester was not placed off duty.

During that time, Lester purchased property in the Quincy area. Lester traveled there on his days off and worked

on his property. When Lester did not get the transfer to Quincy he requested, he began communicating with a former California Highway Patrol officer about getting a medical retirement and offered to pay the retired officer for his assistance. A medical retirement would result in 85 percent of his salary for life, tax free.

In January 2022, Lester saw a doctor for the injury he claimed to have sustained almost six months earlier. He was placed on medical leave based on his statements to his physician. While on medical leave, Lester told his treating physician that standing, sitting and simple household chores caused significant pain.

Lester was placed off duty due to his complaints of pain and his stated limited physical abilities. An investigation by California Highway Patrol's Internal Affairs revealed that Lester was

far exceeding the limitations he claimed to both the California Highway Patrol and his treating physicians.

While collecting workers' compensation benefits, Lester was working on his property, cutting down trees, stacking firewood, operating heavy machinery and engaging in heavy physical activity. An independent medical examiner saw Lester in February 2024 and opined that Lester was able to perform all work duties and that Lester exaggerated his complaints.

Workers' compensation fraud of this type not only has an immediate financial impact on the employer, but it also causes increases in premiums which impact employers over the long-term. Fraudulent claims clog up the system, delaying medical care and financial assistance that legitimately injured workers deserve. ★

The initial Annual Percentage Rate (APR) is currently 6.75% for a new Home Equity Line of Credit (HELOC), and is fixed for the first 5 years of the loan which is called the draw period. After the initial 5 year period, the APR can change once based on the value of an Index and Margin. The maximum APR that can apply any time during your HELOC is 15%. A qualifying transaction consists of the following conditions: (1) the initial APR assumes a maximum HELOC of \$200,000, and a total maximum Loan-to-Value (LTV) of 70% including the new HELOC and any existing 1st Deed of Trust loan on your residence; (2) your residence securing the HELOC must be a single-family home that you occupy as your primary residence; (3) if the 1st Deed of Trust loan is with a lender other than El Dorado Savings Bank, that loan may not exceed \$300,000, have a total maximum Loan to Value (LTV) of 65% and may not be a revolving line of credit. Additional property restrictions and requirements apply. All loans are subject to a current appraisal or property evaluation, which typically range from \$100 to \$1,000. This cost will be disclosed in your commitment letter and paid at loan closing. Property insurance is required and flood insurance may be required. Rates, APR, terms and conditions are subject to change without notice. Other conditions apply. A \$25 early closure fee will be assessed if the line of credit is closed within three years from the date of opening. Farm Credit Fly-In Helps Lawmakers Understand Farm Country's Needs

Congress urged to reauthorize Farm Bill, make more rural Californians eligible for home loans in 2026

Farm Credit News Release

SACRAMENTO REGION, CA (MPG) - Because few members of Congress have personal connections to agriculture, it's important that the ag community continue to meet with lawmakers to keep them informed of farmers' needs.

"Just 6% of the nation's 435 Representatives and 100 Senators have a strong connection to agriculture, which is why Farm Credit brings farmers and Farm Credit executives to Washington, DC, every other year as part of the Farm Credit Fly-In," said Kevin Ralph, AgWest Farm Credit's California President.

"Because so few members have a strong connection to agriculture, we have to go the extra mile to help them understand what Farm Country is like."

California-based representatives from AgWest, American AgCredit, CoBank, Colusa-Glenn Farm Credit, Fresno Madera Farm Credit and Golden State Farm Credit were among the 800 people from around the country who journeyed to the Capitol in late 2025 to meet with Congressional members and staff. The organizations are part of the nationwide Farm

Credit System – the largest provider of credit to U.S. agriculture.

The messages are twofold, Ralph said.

"Every day, Farm Credit works to fulfill its mission to be a reliable source of funding for the agricultural community. Having our customers there to tell members and their staff what it's like harvesting wine grapes right now is important – members can learn what farmers are facing and how they can help," he said.

The second focus is on legislation specific to Farm Credit.

"It's important for us to advocate for our California farmer and rancher customers on the importance of a new Farm Bill," said Jacob DeBoer, a senior regional marketing manager for American AgCredit's California Valley region. "It gives farmers and ranchers certainty and provides a safety net from unpredictable events, such as droughts, market crashes and input cost spikes."

DeBoer said several key fiscal measures important to Farm Credit's success were included in H.R. 1, the comprehensive budget reconciliation bill enacted in 2025, but other important issues are still pending.

"We still need reauthorization of the Farm

Bill's 12 titles," said Marc Busalacchi, American AgCredit's executive business manager of strategic initiatives. "We need updates to things like reference prices, ARC and PLC structure and dairy margin coverage reforms. Californians would also really like to see specialty crop and horticulture provisions, which were not included in H.R. 1.

"We also focused on issues that affect Farm Credit's ability to better fulfill its mission," Busalacchi added. "The Farm Credit System was created by an act of Congress in 1916, and often legislative changes are needed to allow it to keep up with changing conditions. It's important that we make our needs known to Congress."

For example, a top

priority for Fly-In participants was to gain support for legislation to allow Farm Credit to provide home loans in additional rural communities.

Since 1971, the Farm Credit System has been allowed to provide loans to purchase non-farm homes in rural communities of 2,500 or less. Because some rural towns have gradually grown in population over the years, the proposed bill would allow these loans to be made in communities of up to 10,000 people. This would make up to an additional 1.8 million rural Californians eligible.

Busalacchi said this small change would be a game-changer for many rural residents.

"Besides the fact that many rural bank branches have closed over the

years, making these communities lending deserts, rural home loans are most often non-conventional and may not be appealing to traditional lenders that want to sell loans on the secondary market since many rural home loans can't be sold that way," Busalacchi said.

"Because Farm Credit specializes in non-conforming loans in these communities, it would allow more rural families to become homeowners and help stabilize rural towns."

Farm Credit's other priorities include increasing limits on direct and guaranteed loans by the Farm Service Agency, clarifying Farm Credit's lending authority to invest in essential community facilities such as rural health clinics and

allowing fishing-related businesses to borrow from Farm Credit in the same way as farm-related companies.

During the Fly-In, California Farm Credit officials and customers met with Reps. Jared Huffman, D-San Rafael; Vince Fong, R-Bakersfield; Jim Costa, D-Fresno; David Valadao, R-Hanford; Rep. Mike Thompson, D-St. Helena; and the late Rep. Doug LaMalfa, R-Richvale.

After a successful day on Capitol Hill sharing customer stories and advocating for legislation, Farm Credit welcomed lawmakers and staff to the Fly-In Marketplace Reception, which showcased Farm Credit customers and their products from across the country. ★

Kings Korner

By V.G. Harris

In the land of the Sacramento Kings there is good news and bad news.

The bad news is the Sac Town boys lost to the lowly Washington Wizards Sunday night by a score of 116-112 to not only extend their current losing streak to nine games, but to also take over solo position as the team with the worst record in the NBA this season.

The good news is, as bad as that sounds, the Kings played a high-tempo competitive game against the Wizards, and more importantly, have just finalized a trade that has the potential to breathe life into a team that's on the ropes.

The Kings landed DeAndre Hunter from the Cleveland Cavaliers, while trading Dennis Schroder, Keon Ellis and little-used Dario Saric. Once again, the Chicago Bulls were involved, acquiring Dario Saric and two second round picks, one coming from the Kings in 2029.

What this trade accomplishes is finally getting a true NBA forward that can play the 4 and allow Keegan Murray to move to the 3 where he is more comfortable and more suited.

The Kings are hoping that Hunter's six seasons in the NBA will fit nicely into a lineup with both youth and veterans, and his 14.7 scoring average during his career will be a welcome addition to a team that has been recently struggling to reach 100 points per night.

In addition to scoring Hunter will be bringing a defensive presence as well, and in 2019 while playing for the Virginia Wildcats he was given the National Association of Basketball Coaches (NABC) award for the most outstanding defensive player in division 1 basketball.

While not a big forward at 6'7" DeAndre has an impressive wingspan of 7'2" and will fill a need the Sacramento Kings have longed for.

With Dennis Schoder and Keon Ellis gone, so is the logjam coach Christie has been talking about, so look for rookie Nique Clifford to get all the playing time he wants.

After years of being guard heavy, will Sacramento finally have solved the conundrum at the forward position.

At 28 DeAndre's best years may be still

ahead, and the Kings are banking on the same when it comes to Keegan Murray.

Will the 12-39 Sacramento Kings end the 9-game drought and look like a winning franchise?

More likely is that Scott Perry has more in store, and Sacramento fans want to know if heralded big man Domantas Sabonis is in any way a part of his thinking.

With a question, Sacramento has a post presence. Rebounding and double-double champion Domantas Sabonis is the reason why.

Maxime Raynaud is making noises and has shown promise, but make no mistake about it, Sabonis is the real deal.

Building around this big man makes all kinds of sense, but I simply don't know if Perry and the Kings franchise appreciate what they already have. Trades in the past have shown a total lack in judging NBA talent, and I hope for once, Sacramento gets it right.

Do I like the acquisition of DeAndre Hunter? You bet I do, and it represents a piece in a puzzle that hasn't so far made much sense.

So, let's give Scott Perry an attaboy, and collectively hold our breath, because I don't believe this is over with.

Talent is critical for certain, but leadership and personality cannot be overlooked.

The leadership that Domantas brings with him every night is incalculable, but it's there and difficult to replace. In addition, he is beloved by the fans, so let's remember DeAaron Fox, and build the new iteration of this team around Sabonis.

It's entirely possible to give the rookies and younger players more looks in the second half of the season, but working to develop this team into a winning franchise is what I want to see.

Am I concerned about finishing with a lottery pick in the upcoming draft? I try not to think too much about how the Kings will finish and focus on playing competitive basketball. Develop the youngsters and win games!

Stay together Kings fans, because the second half could be a roller-coaster! Let's all root for a win and bring this losing streak to a halt.

All the best!

California Lawmakers Can't Resist Writing Performative Legislation

By Dan Walters, CALMatters.org

California legislators introduce hundreds of bills during their biennial sessions. While some are serious efforts to address real issues, many are performative — offered to please political constituencies that their authors want to cultivate, align themselves with popular trends, or repay political debts.

The easiest species of performative legislation are resolutions that express support for some cause. Many hours of taxpayer-financed time are wasted on hearings and debate, even though such measures have absolutely no impact.

A cousin of the impotent resolution is legislation that purports to impact a situation ripped from the headlines, but is highly unlikely to be enacted, or if passed would probably be voided by the courts.

This week, for example, Democratic legislators are scrambling for measures that would, their authors say, repress or punish federal Immigration and Customs Enforcement officers who are conducting abusive sweeps in major cities, supposedly seeking undocumented immigrants. The state Senate spent 90 minutes this week debating a bill that would supposedly make it easier for Californians to sue federal agents over civil rights violations, arising out of two fatal

shootings of U.S. citizens by immigration authorities in Minneapolis.

The measure, Senate Bill 747, passed on a party-line vote. If it eventually becomes law, it's doubtful that it would survive due to federal laws shielding federal officers from being prosecuted or sued in state courts, as a legislative staff analysis of the measure pointed out.

Thus, SB 747 and other anti-ICE measures unlikely to be enforceable, and are really just expressions of political opinion, however justified.

The most frustrating performative measures address real problems weakly but allow politicians to claim success. That brings us to Senate Bill 417, which was also passed by the Senate this week.

Carried by Sen. Christopher Cabaldon, a Napa Democrat, and backed by dozens of pro-housing groups and advocates for the poor, SB 417 would place a \$10 billion bond issue on the November ballot for housing low-income families.

"California, over the last several years has enacted landmark housing policies to provide affordable housing developers with tools enabled to enable them to build hundreds of thousands of units across the state," Cabaldon said. "But those homes don't build themselves and it's time to finish the job.

"So to unlock the full promise of these reforms requires cash. It requires sufficient capital, as it always has, to move these affordable housing projects from approval and permitting to construct."

California's housing shortage is real, especially for

low-income families. The state has removed some procedural roadblocks, but the most resilient barrier is very high development costs.

A 2025 Rand Corp. study found that it costs between \$500,000 and \$1 million — and sometimes even more — to build a unit of low-income housing, the highest cost of any state.

Rand's study also determined that it takes 22 months longer to produce housing in California than in Texas, local fees average \$29,000 a unit in California but just \$1,000 in Texas, and "substantially above-market wages and unusually large architectural and engineering fees, likely related to highly prescriptive design requirements" are "key drivers" of California's extraordinarily high costs.

If, as Rand implies, it costs an average of about \$750,000 per unit to build low-income housing in California, the \$10 billion bond issue being proposed would finance about 13,000 apartments. It's not nothing, but it's tiny compared to the 180,000 units the state says we should be building each year.

The researchers argued that, were California to reduce costs to those in Colorado, it could build four times as much housing for the same money. The Legislature should be cutting costs, not just passing token bond issues that will have little real world impact.

Social Security Matters

Am I Entitled to More Social Security as a Veteran?

By Russell Gloor, AMAC Certified Social Security Advisor

Dear Rusty: I served in the U.S. Army from July 1964 to July 1967. Am I eligible for a higher Social Security payment? Thank you. **Signed: Vietnam Era Army Vet**

Dear Army Vet: Please accept my sincere thanks for your military service. I believe you are referring to the "Special Extra Credit for Military Service" which has been the subject of many published articles. That refers to a special Social Security accommodation available only to those who served in the military during specific periods of time - but it does not add to your monthly Social Security payment. Rather, it adds to your military earnings record for the years you served, which may (or may not) result in a higher Social Security benefit when you later claim Social Security.

Here's how it works in your case:

Serving between 1964 and 1967, if you told Social Security of your military service when you applied for Social Security benefits (or gave them a copy of your DD-214), they would have added up to \$1,200 per year to your military

pay record (FYI, those who served after 1966 were automatically given earnings credit for their military service years). However, whether those special extra credits would affect your monthly Social Security benefit depends on your lifetime earnings record when you later claimed Social Security.

When you applied for benefits, Social Security reviewed your lifetime earnings and used the highest earning 35 years of earnings over your lifetime (adjusted for inflation) to calculate your "Primary Insurance Amount" (or "PIA," which is what you get if you claim benefits to start at your Social Security full retirement age). If, after your military service, you had 35 or more years of earnings which were higher than your earnings while serving in the military, Social Security would have used your later higher earning years to calculate your benefit, and your military earnings would not have had an effect on your Social Security benefit. However, if any of your military earnings (including the "special extra credits") were among the highest over your lifetime, then those higher military earnings would be included when calculating your Social Security benefit.

So, whether you would benefit from these "special extra credits for military service" depends largely on your earnings history after you were discharged from active duty. If your military earnings were among the highest earning years

over your lifetime, and you provided SSA with a copy of your DD-214 when you applied for Social Security, then your current SS benefit already includes consideration of your military service (FYI, Social Security should have asked about your military service when you applied). If you didn't tell SS about your military service when you applied for Social Security, or if you aren't sure, you should contact the SSA at 1.800.772.1213 and ask if you were given those "special extra credits for military service" for your 1960s military service years when you applied for Social Security. But if you had at least 35 years of higher earnings after you left military service, your current SS benefit is already based on those later higher earning years, and you will not get any additional Social Security benefit because of the "special extra credits" for your military service years.

Does Trump need a portrait of James K. Polk?

It also insisted that its border with Texas was at the Nueces River, two hundred miles north of the Rio Grande.

When Polk sent troops into the area between the Nueces River and the Rio Grande, Mexican cavalry ambushed a party of U.S. dragoons.

We ended up occupying Mexico City and forcing a deal. Mexico conceded to the United States a border at the Rio Grande, running all the way to the Pacific, giving us California, inclusive of San Diego, in exchange for the assumption of Mexico's debts and the price of \$15 million.

There's no doubt that Polk had been spoiling for a fight. The view of the war as simple U.S. plunder is much too simplistic, though. We were within our rights to deal with an independent Texas, which had achieved independence via a just revolution, and Mexico -- in the grips of a foolish war fever -- fired the first shots.

In his book on the war, "A Country of Vast Designs," Robert W. Merry describes the underlying dynamic. Mexico, he notes, "was a dysfunctional, unstable, weak nation whose population was insufficient to control all the lands within its domain." The United States, on the other hand, "was a vibrant, expanding, exuberant experiment in democracy whose burgeoning population thrilled to the notion that it was engaging in something big and historically momentous." This created a drive "toward expansion into largely unpopulated lands that seemed

to beckon with irresistible enticement."

Today, it is Trump personally, rather than the nation at large, tempted by historic acquisitions of territory. He, too, could be a Thomas Jefferson, or a William Seward -- or a Polk, although hopefully without the war.

But there's a difference between a young 19th-century country surging into loosely governed territory around its perimeter -- or buying territory that European nations are eager to sell -- and a mature 21st century world power invested in stable borders and important alliance systems.

Mexico circa 1846 wasn't a treaty ally of the United States, and there were enormous benefits to actually acquiring the Southwest, whereas we can presumably get the military bases and mineral extraction we want out of frozen Greenland without formal ownership.

If Trump is going to look to Polk, a more apt antecedent is his handling of the dispute with the Brits over the Oregon territory. After making maximalist demands, Polk agreed to an equitable compromise at the 49th parallel.

Polk's example is worth marking in another respect. He really did play 3D chess. There's no way he'd let ego or emotion get in the way of pursuing the national interest, which in this case includes not needlessly alienating long-time allies when other means are available to achieve our strategic ends.

Batteries are a Curbside Collection Fire Risk

Sacramento County News Release

SACRAMENTO REGION, CA (MPG)

- Batteries are not accepted in the residential curbside collection program – here’s why! Fires sparked by improperly discarded batteries and battery-embedded products are becoming an increasingly common and costly problem.

When any battery or battery-embedded product is tossed in curbside collection carts or bulky waste piles, the material is compacted together. This process is essential for efficient collection service, but when batteries are crushed, punctured or exposed to metal or liquid during compaction, they can spark, explode or ignite. Lithium-ion batteries are especially volatile, but all rechargeable batteries contain flammable and toxic materials that can create a hazardous situation.

Battery-related fires on collection routes put collection employees in immediate danger and can threaten nearby homes, businesses and roadways. Expensive collection trucks can be severely damaged or destroyed. Entire collection routes may be delayed or suspended while emergency crews respond.

The fire risk doesn’t end at the curb, either. Once a battery is at a disposal or recovery facility such as Kiefer Landfill and the North Area Recovery Station, large machinery continues the compaction process. Here too, crushed batteries can ignite and damage infrastructure, disrupt operations, harm the environment and put our staff and the public at risk. These preventable

emergencies waste time, money, resources, and most importantly, create unnecessary danger.

Complicating the issue further, many people don’t realize how often batteries show up in everyday items that require proper disposal. They are inside toys, tools, greeting cards, vapes, small electronics, all rechargeable products and other everyday household devices.

Even small coin-sized batteries can trigger dangerous fires when crushed.

The good news is you can stop battery fires right at home! The safe way to get rid of old batteries and non-functioning battery-embedded products is free, easy and only takes a few steps – Tape, Tub, Take:

Tape – Check for leaks or corrosion. Tape over the positive

(+) and negative (-) ends with only clear tape for all rechargeable batteries, lithium coin/button batteries, and 9-volt and higher volt batteries.

Tub – Collect and store used batteries in a hard plastic tub or sturdy box at home.

Take – For drop-off recycling, take batteries to a local Household Hazardous Waste (HHW) drop-off facility or find a nearby battery recycling location by searching the Earth911.com website. For products embedded with permanent batteries, drop them off for free e-waste recycling at Kiefer Landfill, North Area Recovery Station or another e-waste recycling site.

One improperly discarded battery can ignite a truck, shut down services or put lives at risk. But your informed choice to drop off batteries instead of tossing them can prevent fires. Please share this message with friends, family, and neighbors. The more people who know, the safer we all are. Bottom line – batteries don’t belong at the curb. Instead drop them off for proper recycling, and help protect our workers, our neighborhoods and our environment.

SCOE Honors 50 Years of Access, Equity and Inclusion

1975 IDEA Law Transformed Public Education for Millions of Children

Sacramento County Office of Education News Release

SACRAMENTO REGION, CA (MPG) - The Individuals with Disabilities Education Act (IDEA) is one of the most significant civil rights laws in U.S. education. Enacted in 1975, IDEA ensures that children with disabilities have the right to a Free Appropriate Public Education (FAPE) delivered in the Least Restrictive Environment (LRE). Before IDEA was passed, millions of children with disabilities were denied access to public schools or educated in separate settings with limited expectations. IDEA established legal protections rooted in equity, access, and inclusion, and made participation in public education a guaranteed right rather than a privilege.

SCOE Special Education Programs

For decades, the Sacramento County Office of Education (SCOE) has been widely recognized for pioneering numerous programs in the special education field. A few Special Education Program highlights include:

Launching the Infant Development Program in 1976 to serve children (birth to age three) countywide who have delays in one or more areas of development.

Launching a program in 1980 (at what is now Leo A. Palmiter Junior/Senior High School) to provide behavioral and career technical support to students (grades 7–12) with emotional disabilities.

Providing programs through the Foundations Academy for students (ages 3–22) with emotional disabilities, severe cognitive/physical/medical disabilities or autism.

Establishing the first MOVE (Mobility Opportunities Via Education) Model Site in Northern California to empower children with severe orthopedic impairments.

Serving students at El Centro Junior/Senior High School (the Juvenile Court School located inside the Sacramento County Youth Detention Facility) and at three Community School sites that provide an alternative educational program for students from local school districts.

Building district partnerships through Family and Community Engagement (FACE) Network to engage families, schools, and communities, including families of children with disabilities.

Sacramento County Office of Education also operates a number of projects funded by the California Department

of Education (CDE) Special Education Division. Sacramento County Office of Education co-leads the new California Center for Inclusive College (CCIC) to expand programs for postsecondary students with intellectual and developmental disabilities. Seeds of Partnership, a training and technical assistance program with a focus on family engagement and school partnerships, supports 33 Family Empowerment Centers. Robin Ryan, the Seeds of Partnership Coordinator, is one of several guests invited to speak at an IDEA celebration ceremony being held by the California Department of Education this February.

Sacramento County Office of Education continues to be involved in a variety of short- and long-term initiatives that support and advance services for students with disabilities – including their families and the educators who serve them. One of the top priorities of the Sacramento County Board of Education continues to be working to advance equity within SCOE and school districts.

Get Ideas for Classroom Activities

In recognition of IDEA’s 50th anniversary, the Sacramento County Special Education Local Plan Area (SELPA) has partnered with the SELPA Administrators of California to share a monthly series of teacher resources and disability highlights. Topics, including suggestions for possible school activities, encompass accessibility, inclusion, student voice, and transition to postsecondary life. It also highlights the accomplishments of California pioneers whose advocacy shaped disability rights and inclusive education.

Sacramento County Office of Education helped the Sacramento County SELPA mark the 50-year milestone by hosting a display in its lobby this January for visitors to learn about the history, progress, and lasting impact of IDEA.

IDEA Background

Originally passed as the Education for All Handicapped Children Act, IDEA emerged from the broader civil rights movement and was influenced by landmark court cases such as *Brown v. Board of Education* and *PARC v. Pennsylvania*. Over time, amendments expanded disability categories, strengthened parental involvement, emphasized transition services, and aligned special education with general education reform. IDEA continues to be the foundation of special education nationwide, promoting meaningful educational outcomes for students with disabilities. ★

Sacramento County News Release

SACRAMENTO, CA (MPG) - The Sacramento County Board of Supervisors approved yesterday, in a unanimous vote, an agreement with CVR & Associates to provide an organizational assessment to evaluate Sacramento Housing and Redevelopment Agency’s (SHRA) public housing and voucher programs, housing finance processes and governance structure.

The Board also approved the appointment of Kris Warren of CVS & Associates as the Interim Executive Officer for Sacramento Housing and Redevelopment Agency. The agreement is a one-year term from Feb. 1, 2026, to Jan. 31, 2027.

“This item...could lead to the greatest changes in affordable housing policy at the County of Sacramento in 40 years,” said District 2 Supervisor Patrick Kennedy, who pulled the item for discussion. “It’s been a long time coming and there’s more hard work ahead of us.”

“This will go further in housing people who are currently unhoused or are in critical need of housing than almost anything we have done in years.”

The outcomes of the organizational assessment will include actionable recommendations and implementation

guidance to enhance efficiency, transparency, and alignment with County priorities and U.S. Department of Housing and Urban Development (HUD) requirements.

A four-member evaluation committee, comprised of two representatives from the County and two representatives from the City of Sacramento, selected CVR & Associates based on its demonstrated expertise in housing policy, organizational assessments and executive consulting.

The Sacramento City Council continued the agenda item to a later date at its meeting yesterday.

The organizational assessment will move forward. The Interim Executive Officer appointment is subject to concurrence by the Sacramento City Council at a future meeting, following the Board of Supervisors’ approval yesterday.

Sacramento Housing and Redevelopment Agency is a Joint Powers Authority between the county and city of Sacramento. It was created to ensure the ongoing development of affordable housing in the city and county of Sacramento. ★

River Cats Announce Coaching Staff

Entire 2025 staff to return; Brundage embarks on 10th season as manager

Sacramento River Cats News Release

WEST SACRAMENTO, CA - The Sacramento River Cats have announced their 2026 coaching staff, returning the entire group from 2025.

Manager Dave Brundage, Fundamentals Coach Jolbert Cabrera, Pitching Coach Alain Quijano, Hitting Coach P.J. Pilitere and Assistant Hitting Coach Robert Riggins will once again serve as the Sacramento field staff, joined by fellow returners Brian Reinker (trainer), Chris Walsh (trainer), Chris Harms (strength and conditioning coach) and Nick Solitario (player development associate).

Dave Brundage returns for his 10th year as manager of the River Cats, a position he's held since 2017. In his eight seasons (no season in 2020), Brundage has amassed a 537-608 (.469) record, including a magical 2019 season in which Sacramento won 73 games and were crowned both Pacific Coast League and Triple-A Champions. In 2025, Brundage guided the River Cats to an overall record of 77-73. Currently, he has totaled the second most managerial wins in Sacramento franchise history, trailing only the 578 of Tony DeFrancesco (2003-07, 2009-10).

For his career, Brundage has a managerial record of 1,908-1,923 (.498), with a total of three league championships. 19 consecutive seasons of his 27-year managerial career have come at the Triple-A level. Prior to Sacramento, Brundage guided the Lehigh Valley IronPigs (Philadelphia Phillies, 2014-16) over four seasons, and

Pictured is Sacramento River Cats Manager Dave Brundage who is entering his 10th season as manager. Photo courtesy of Minor League Baseball

spent his first six Triple-A campaigns with the Richmond/Gwinnett Braves (Atlanta Braves, 2007-2012).

Jolbert Cabrera embarks on his 10th season in the Giants' organization, his seventh as fundamentals coach of the River Cats after assuming the role in Sacramento's 2019 championship season. Twice Cabrera has helped the team set franchise records, tying the mark for fewest errors committed in 2021 (103) before rewriting it in 2024 (98), and coaching the River Cats to post their best fielding percentage in franchise history in 2024 (.982).

Alain Quijano returns to Sacramento for his third season, his sixth total in the San Francisco organization after spending his first three as pitching coach with the Eugene Emeralds. While in

Eugene, Quijano's pitching staffs totaled no fewer than 1,286 strikeouts in each of his three seasons, and he helped mentor the Emeralds to an eye-popping 3.42 ERA and .220 opposing batting average during the 2022 campaign in which Eugene was 81-48.

Robert Riggins returns for his third season with the River Cats, his fifth in the San Francisco organization after also serving as the hitting coach/strategist for the Dominican Summer League (DSL) Giants Black from 2022-23. Having spent over a decade as a coach, Riggins has also served at the high school level in New Mexico including stops as a head coach at Los Lunas High School (2010-12),

Pojoaque Valley High School (2013-14, 2019), and Lovington High School (2016-18).

P.J. Pilitere returns for his

second season with the River Cats and as a member of the Giants organization. Prior to joining the Giants, Pilitere served as the assistant hitting coach for the Colorado Rockies from 2022-24. Prior to that, Pilitere was the hitting coach for the New York Yankees from 2018-21, making the play-offs in all four seasons while twice coaching in the American League Championship Series (ALCS).

In the training room, Brian Reinker returns for his fifth season in the San Francisco organization, all with Sacramento, after coming aboard for the 2022 campaign. Prior to joining the Giants, Reinker spent nearly two decades with the Los Angeles Angels organization from 2003-2021 and was named the Pacific Coast League (PCL) Athletic Trainer of the Year in 2015 with the Salt Lake Bees.

Back for his third season is Chris Walsh, who will enter his fifth year in the San Francisco organization. Prior to joining the River Cats in 2024, he spent two seasons with the Richmond Flying Squirrels (Double-A). Sacramento State Athletics News Release

SACRAMENTO, CA (MPG) - For the first time in her collegiate career, Sacramento State junior guard Natalie Picton was named the Big Sky Conference Player of the Week following her performances against Idaho and Eastern Washington last week.

Picton becomes the first Hornet to earn the league's top weekly honor since teammate Benthe Versteeg shared the conference's final regular season award last year.

In helping her team to a split against the second-place Vandals and the Eagles, Picton averaged 18.0 ppg and shot 41 percent from the field for Sacramento State, including draining six of her 13 makes from beyond the arc while also averaging 3.5 rebounds, 2.0 assists, and 2.5 steals per game.

The Welland, Ontario, native opened last week with an 18-point night against Idaho, hitting four of her seven shots from distance in 39 minutes, grabbing four boards, dishing out three assists and swiping a pair of steals. Ten of her 18 points came in the first half as she

helped the Hornets hold Idaho to nearly 20 points under their season average and just 28 percent shooting for the night.

Two days later, Picton poured in 18 more points in a win over Eastern Washington, shooting 55 percent (6-for-11) from the field - including a clutch three-pointer with 2:41 remaining that turned a one-point lead into a four-point advantage for Sacramento State. She then hit 4-of-4 from the line in the final 16 seconds to help ice the win and hold off a further Eagle comeback.

With her pair of 18-point performances, Picton enters this week's contests having reached double figures

in five of her last six contests (15.0 ppg) and 14 of 20 games overall. Her two steals against Idaho, and three more against Eastern Washington University (EWU), gave her multiple steals in a game for the 16th and 17th times in 20 contests overall.

Picton enters the week ranked second on the team in scoring (12.8 ppg) overall and is averaging 13.7 ppg in seven Big Sky games thus far. She ranks among the top 10 in the league in three-pointers made (40) and three's per game (2.0), while standing fourth in steals (53) and steals per game (2.65 spg) as well as second in the league in minutes per contest (34.9 mpg). ★

County Warns Residents of Out-of-Service Crisis Line

Sacramento County News Release

SACRAMENTO REGION, CA (MPG) - Sacramento County Department of Health Services is urging residents not to use the former National Warm Line at (855) 642-6222, which is out-of-service and no longer a resource for individuals seeking emotional or behavioral health support.

Warm lines are designed to provide emotional support for people who may be experiencing distress but are not at the point of calling a suicide crisis line. This does not mean the individuals who reach out are not at risk; many choose warm lines because they do not want to take critical emergency resources away from others. For this reason, the loss of this number as a trusted support option is being taken seriously.

Sacramento County Department of Health Services is actively working to remove the former National Warm Line number from all County materials, websites and resources to

help protect the safety and well-being of residents. The County wants to emphasize that this was a national line and is not operated by Sacramento County.

As this work continues, residents in need of emotional or behavioral health support are encouraged to contact: 988 Suicide & Crisis Lifeline: call or text 988; Consumer-Operated Warm Line: 916-366-4668; Mental Health Urgent Care Clinic: 916-520-2460; Behavioral Health Services Screening and Coordination (BHS-SAC): 916-875-1055.

The 988 Lifeline works in coordination with Sacramento County's Community Wellness Response Team (CWRT) to connect individuals with local, in-person support when needed, without law enforcement involvement.

Sacramento County Department of Health Services thanks the community for its understanding and cooperation as this issue is addressed and remains committed to ensuring residents have access to safe, trusted behavioral health resources. ★
