#### Essay: Why I Should Receive the 2026 Ward's ACE Young Producer Scholarship

My name is Remington Sweeten, I am 8 years old. I am born and raised in Malad, both of my parents are also from Malad. I am the oldest of 3 kids.

I have been showing chickens since I was 6 years old, but I have loved chickens my whole life. I got my first chickens when I was only 3 years old.

I like to show chickens because it's taught me a lot of important life lessons and skills. I am in charge of taking care of my chickens. I do almost everything by myself.

My favorite part of caring for my chickens is holding them and spending time with them. I like to sneak my chickens into my house and lay with them on my couch.

I really love being apart of 4H. I have made a lot of new friends and learned so much already. This is my first year of being old enough to be in actual 4H. I am very excited to show with the older kids and push myself further. My

first year showing I was lucky enough to win reserve grand champion in open class, and last year I won grand champion. It was so exciting to see my hard work pay off.

If I was picked to win this sponsorship, I would like to use the money to buy more chicks to help start my own breeding flock. My favorite breed of chickens are my Bantam Wyandottes. I would love to be able to get more and expand to breed my own. They are a rare breed and very hard to find around here. I would also need to buy more feeders, waterers, and also a bigger coop. I would also use the money to buy more chicken feed, and other supplies I need for the fair. My parents help me with paying for a lot of my chicken supplies so I would love to help them out more.

Thank you for considering me and supporting our local 4H kids.
