Essay: Why I Should Receive the 2026 Ward's ACE Young Producer Scholarship

Hi my name is Kimber Sweeten. I am 6 years old and I am born and raised in Malad. My parents are also born and raised here in Malad. My family has been involved in 4H for a very long time. I have always wanted to get my own rabbits and join rabbit 4H, so I am hoping I can get this sponsorship to make it happen.

I am applying for the rabbit sponsorship in hopes that I will be able to buy what I need to get started with rabbits. I have been in 4H my whole life since my mom is a leader, I have only participated in chickens though. This year I am wanting to join the rabbit club. Being a cloverbud I can only participate in certain clubs, so I would love to be able to join rabbit club as well as show my chickens.

I have wanted to get my own rabbits for a very long time. I take care of a lot of animals at my house already, so I

know about being responsible and taking care of animals. I do chores every day. I also help my parents on our farm where we have cows, horses, pigs, and a lot of chickens. My mom and dad told me if I was able to get 100% on my spelling tests I could get some rabbits. I have worked very hard at school and now I'm ready to get my own rabbits. If I was able to receive this sponsorship I would use the money to buy my first rabbits, and also get them their house, food, and other supplies needed. I would love to finally be able to join the rabbit club. Thank you for your consideration of me for this sponsorship.
