CARMICHAEL, CA (MPG) - For man or beast, a long walkie deserves a long drink.

As temperatures recently reached double-digits, the American River Parkway Foundation came to the aid of parched park users. A mobile kiosk now offers refreshment at William B. Pond Park, Carmichael.

The "Parkway Pick-Me-Up" cart is also a fundraiser for the non-profit that organizes cleanups and educational programs on the Parkway.

"We want the Parkway to be a community hub," said foundation staffer Julia Cassill. "Having refreshments here is another reason for people to enjoy our beautiful trails. You don't need to visit Tahoe to see nature's beauty. It's right here. And now, you can take a coffee break

during your walk or bike ride."

"People ask us why it took so long to come up with the idea," Cassill continued. "Raising the funds and getting permits from the County took time." Purchased for more than \$10,000, the eye-catching vehicle is a Rolls Royce of carts. Set in a natural wood counter, a battery-run refrigerator keeps beverages chilled.

At closing time, volunteers wheel the whole caboodle back into ARPF's building. Located near the river end of Arden Way, the Foundation headquarters provides a center for more than 5,000 Parkway volunteers.

From their energetic ranks, ladies in striped aprons serve refreshment. Inventory includes hot or iced coffee (\$4); tea and lemonade (\$3); water (\$2). Freshly-baked cookies are \$3. A "puppy cup" for Fido runs a buck. Tee shirts and souvenirs are also available. An adjacent garden and

picnic tables accommodate sit-down patrons.

"The project has been a success since the start," reported volunteer Darcie Garcia. "Some mornings, more than 20 people stop by in an hour. It's also an opportunity for us to tell visitors about ARPF work. Many customers make donations on top of their bill."

Volunteers hope to roll out the barrow year-round. Supporters seem happy to stand in line. "They discuss what they've seen on the trail and admire each other's dogs," said Garcia. "They tell us how much they appreciate our being here."

"The dogs like us, too. In fact, they're among our best customers."

Cart business hours are between 9 a.m. and noon, on weekdays. To volunteer for ARPF projects including cart assistance, email volunteer@ARPF.org. ★

Choosing adoption doesn't just change one dog's life. Every adoption creates kennel space for another animal in need and helps the shelter continue serving pets throughout Sacramento County.

Residents are encouraged to visit the shelter between Aug. 1 and Aug. 23 to meet adoptable dogs and take advantage of waived adoption fees.

Although the giveaway was scheduled to start at 9 a.m., dozens of families assembled before Swanson and volunteers arrived to unpack the swag. “Everyone lined up politely,” noted Swanson. “The little children were excited to have brand-new backpacks. The older ones seemed more happy about the donuts. Parents were especially appreciative. School supplies are not cheap. We loved

to hear moms reminding kids to say thank you. We were completely sold out by 11 a.m. No donuts were left, either.” Swanson and volunteers plan to continue the benevolence next year. “Getting kids back to school is an expensive time for many families,” Swanson considered. “All the smiles made it worthwhile. We feel great to be able to help in this way.” Carmichael Midas is located at 6840 Fair Oaks Blvd. ★

Second Straight Year of Vehicle Theft Declines

California Highway Patrol News Release

SACRAMENTO, CA (MPG) - July is National Vehicle Theft Prevention Month, and the California Highway Patrol (CHP) is reminding Californians to protect their vehicles while highlighting encouraging statewide trends. California recorded its second consecutive year of declining vehicle thefts in 2025, as the CHP continued working with local law enforcement agencies to combat organized vehicle theft through targeted enforcement and public awareness.

According to the CHP’s 2025

Vehicle Theft Fact Sheet, thieves stole more than 133,000 vehicles statewide in 2025—about 25% fewer than the 176,230 stolen in 2024.

“Vehicle theft is not a victimless crime. It fuels organized criminal activity and creates hardship for families across California. The CHP remains committed to holding offenders accountable, recovering stolen vehicles and working with our law enforcement partners to make our communities safer,” Commissioner Sean Duryee said.

On average, a vehicle was stolen in California about every four minutes in 2025.

Of the 133,372 vehicles stolen statewide last year, 84% were recovered, for a total of 111,661 vehicles. More than half of the recovered vehicles were returned to their owners in drivable condition.

The decline continues a positive trend that began in 2024, when California recorded its first year-over-year decrease in vehicle thefts since 2019. That year, Governor Gavin Newsom deployed CHP officers to work alongside local law enforcement agencies in regional crime suppression operations. Targeted enforcement in Bakersfield, San Bernardino and Oakland helped contribute to reductions

in vehicle thefts and other crime in those communities.

Building on those results, Governor Newsom expanded CHP crime-suppression operations in August 2025 by deploying additional teams to high-crime areas across California.

Several counties where CHP crime suppression teams were deployed also experienced significant declines in vehicle thefts last year. Sacramento county experienced 5,061 vehicle thefts, down 23% from 2024.

Although vehicle thefts continue to decline, motorists remain the first line of defense. The CHP encourages

Californians to reduce their risk by following a few simple safety tips. CHP advises Californians to park in well-lit areas and remove valuables or keep them out of sight. Lock your vehicle every time you leave it, use an alarm system or other anti-theft device. Never leave your vehicle unattended with the engine running and report suspicious activity to law enforcement.

Through strategic enforcement, strong partnerships and public awareness, the CHP remains committed to reducing vehicle theft, disrupting organized criminal networks and keeping California’s communities safe. ★

Water Forum Awarded Funding for Lower American River Habitat Enhancement

Federal grants will improve habitat while expanding the science that informs future river management

The Water Forum News Release

SACRAMENTO, CA (MPG) - The Water Forum has been awarded more than \$10.6 million in competitive federal funding to enhance habitat for salmon and steelhead in the lower American River while expanding the scientific research and monitoring that help inform future river management decisions.

“The lower American River is one of our region’s greatest natural resources,” Executive Director of the Water Forum, Ashlee Casey said. “This funding allows us to continue enhancing habitat for salmon and steelhead while using science to better understand what these fish need to survive and thrive. That knowledge helps us make better decisions that benefit the river, the fish that depend on it and the communities that rely on the river.”

The largest award—\$10 million—will support the long-term maintenance, monitoring and enhancement of habitat enhancement sites that the Water Forum has implemented along the lower American River over the past two decades.

“River habitat isn’t static,” Water Forum Habitat and Science Program Manager, Erica Bishop said. “High flows, shifting gravel, vegetation growth and other natural processes continually reshape the lower American River. What makes the Water Forum’s program unique is that we continue monitoring these sites over time and

use what we learn to make targeted habitat enhancements that provide the greatest benefit for salmon and steelhead.”

The project will also monitor how salmon and steelhead use enhanced habitat. It will also map the river corridor using advanced sonar and LiDAR technology to identify future habitat enhancement opportunities. And conduct scientific studies to better understand how habitat enhancement influences fish survival and reproduction.

The second award—\$627,835—will fund a major new study of Central Valley steelhead in the lower American River.

“Steelhead are much more difficult to study than salmon because their behavior and life cycles vary considerably and they are fewer in number,” Bishop said. “This study will help answer important questions about how steelhead grow, move through the river, survive and return to spawn.”

The findings will help scientists and resource managers make more informed decisions to protect this species that is listed as threatened under the Endangered Species Acts. The study will complement similar research on the Stanislaus River, providing valuable comparisons between steelhead populations north and south of the Sacramento-San Joaquin Delta.

The awards build on more than two decades of collaboration under the Water Forum Agreement and support implementation of the Water Forum 2050 Agreement, which strengthens the region’s commitment to habitat enhancement, scientific monitoring and collaborative solutions that protect the lower American River while supporting long-term water supply reliability.

The awards, announced by the U.S. Bureau of Reclamation and the U.S. Fish and Wildlife Service, include two of only 10 projects selected statewide through the Central Valley Project Improvement Act. The Water Forum received one of just four habitat enhancement awards and one of six scientific research awards funded this year.

Funding is provided through the Central Valley Project Improvement Act. The steelhead study grant will be administered by the U.S. Fish and Wildlife Service, while the habitat enhancement grant will be administered by the U.S. Bureau of Reclamation. ★

MMS Strategies Honored with FBI Director’s Community Leadership Award

FBI Sacramento News Release

SACRAMENTO, CA (MPG) - On July 28, the FBI Sacramento Field Office honored MMS Strategies, LLC, a Sacramento-based consulting firm, with the local FBI Director’s Community Leadership Award (DCLA) for their collaborative partnership in support of the FBI’s mission to protect the American people and uphold the Constitution. Michelle Smira, founder and chief executive officer for MMS Strategies, accepted the award.

“MMS Strategies recognizes that we are all on the same team, working toward the same goals: Protect the American people and uphold the Constitution of the United States,” Acting Special Agent in Charge, Brian Tosh said. “Their support strengthens our ability to safeguard communities, enhance resilience and ensure that our efforts reflect the needs and priorities of the region.”

MMS Strategies is a Sacramento-based consulting firm that helps its clients think strategically, communicate effectively and find solutions. The firm prides itself

on its thorough understanding of both problems and opportunities in the region. Following participation in the FBI Citizens Academy at FBI Sacramento headquarters, MMS recognized opportunities to foster mutual understanding, improve public safety dialogue and support community resilience. This partnership has enabled the FBI to engage with community leaders to better understand public safety concerns and community challenges, identify potential threats and effectively prepare for significant development and growth in the region.

The FBI Director’s Community Leadership Award was established in 1990 to publicly acknowledge the achievements of those working to make a difference in their communities through the promotion of education

and the prevention of crime and violence. Every year, each of the FBI’s 56 field offices selects a person or organization to receive this prestigious award to honor their achievements, emphasizing the importance of community partnerships in keeping our shared communities safe. This year’s recipients were recognized for a broad range of efforts, including building bridges between law enforcement agencies and the communities they serve, combatting human trafficking and providing resources to victims and supporting local youth programs.

The FBI Sacramento Field Office serves 34 of California’s 58 counties. The FBI Sacramento Field Office community outreach program supports the FBI’s investigative mission by working to address multiple interrelated societal problems—including crime, drugs, gangs, terrorism and violence. Linking community service, prevention and law enforcement is a national trend spurred by grassroots efforts around the country, and FBI employees have joined this movement, volunteering in a wide variety of community-related efforts. ★

Kings Korner

By V.G. Harris

Mentorship Counts

By V.G. Harris

How does it feel to score 175 points in an NBA game and lose?! Just ask the L.A. Clippers how it feels.

On Feb. 24, 2023, the Clippers ran into a juggernaut by the name of the Sacramento Kings and lost a double overtime game by the score of 176-175.

The Clippers shot a sterling 31 for 36 from the free throw line that night, but just two more made free throws would have won that game.

I was at that game and will never forget it. Domantas Sabonis held down the paint and contributed 20 points and 10 boards which is basically just a day at the office, but first-time all-star DeAaron Fox went off with 42 points and 12 assists to steal the show.

Well, DeAaron is gone and waiting in the wings is someone everyone is hoping will step in and fill those ever so large shoes. Yes, that would be Darius Acuff Jr., and the only question is, do the Kings have the organizational skills to bring this bright young player along at the right pace so as to give him the confidence needed to succeed at basketball’s highest level.

If we are to believe what we hear and read, Sacramento intends to put this 19-year-old into the starting lineup from the get-go and let the chips fall where they may.

I am not necessarily opposed to the idea of letting Darius run the point from the opening bell, but with conditions and maybe a caveat or two.

Any ball player with one year of college basketball under his belt will have some accelerated courses to take in earnest if success is to be expected.

First and foremost, comes mentorship and where is that going to come from, because the current coaching staff does not fill me with trust and admiration.

Coach Christie still has on his water wings, and for all the bravado of how the Kings are going to play defense, at this date I haven’t seen a blueprint that lends acumen in that direction.

Yes, I want this coaching staff to succeed, but I also want to see something tangible that shows the fans that this staff actually knows *how to coach!*

Just the basics sports fans, like team defense

and maybe a lesson or two in how to shoot free throws.

I am so tired of hearing that Zach Lavine and Domantas Sabonis can’t play defense when they are the two highest paid players on the team.

How did they ever get to be all stars and never play defense?

Of course they can play defense, but what ever happened to the concept of team defense that seems to be an unspoken term?

Back to basics gentlemen and start creating the identity you want. *It is* achievable and would be if you would stop listening to the collective NBA naysayers that would have you believe that Sacramento Kings have no chance of winning 30 games.

How is a coaching staff supposed to instill positive energy into a squad that has no expectation of winning games?

How about preaching your own version of winning games and then laying out the map as to how you get there.

The Wizard of Westwood and that would be John Wooden won 10 NCAA championships in 12 years and led his club to four 30-0 seasons before he retired.

We won’t be confusing Doug Christie with John Wooden and time soon, but is there something to learn here aside from the fact they both coached basketball teams in the state of California?

Yes, I believe it starts with celebrating the veteran talent you have on the current team today.

Stop with the negative about what you don’t like about Zach Lavine and Domantas Sabonis and start celebrating what they bring to the table.

A lot of youngsters need to immerse themselves in the etiquette of how to compete against other NBA teams, and both Sabonis and Lavine have more than just a tad of experience in that regard.

Double down on that, use their leadership to your advantage, and start preaching the mantra of what home court advantage is supposed to mean. Set the expectation of winning when a visitor enters Golden One Arena and heighten the expectation of *lighting the beam!*

The youngsters need mentors and we have some to celebrate!

All the best!

Tech Devices in California’s New Cars Create Thorny Political Issues

By Dan Walters, CALMatters.org

Automobiles have gradually evolved over the last two decades from mechanical devices into electronic platforms featuring computer screens and numerous other digital capabilities.

A few years ago, the California Air Resources Board began requiring automakers to install devices in vehicles to record and store operational data that the agency could access to determine how well emission reduction programs were working.

It was one aspect of the state’s announced goal of phasing out cars and trucks powered by gasoline and diesel fuel and replacing them with zero-emission vehicles.

The auto industry opposed the data collection mandate, arguing it would violate the privacy of vehicle owners. At one point the industry threatened to stop producing cars for California.

The agency insisted it would not collect data involuntarily. But its regulation fueled — pun intended — suspicions in some quarters that recording how and where cars were being used would allow them to be tracked, much as cellphone usage can be traced.

Or, some said, as gas and diesel use declined and gallonage taxes dropped, the

state could begin charging drivers by miles driven, based on their recorded data.

As the data collection mandate was being implemented, another aspect of the situation surfaced — fears that the tracking software to help motorists obtain help in emergencies, such as General Motors’ OnStar system, could be misused by abusive spouses to find and attack their mates.

Two years ago, the Legislature and Gov. Gavin Newsom enacted a law aimed at countering that potential abuse. Senate Bill 1394 required automakers to provide an internet process by which a “connected vehicle service” could be quickly terminated. Those seeking termination would have to prove they either owned the vehicle or possessed it via a divorce decree or domestic violence restraining order.

That was the relatively easy part of SB 1384.

The more contentious portion of the law required new cars to be equipped with a “mechanism that can be used by a driver who is inside a vehicle to immediately disable connected vehicle location access.” The mechanism had to be “prominently located, easy to use, not require access to an online application, not require a password or login information, and only allow re-enabling of the connected vehicle location access by a driver who is located inside the vehicle.”

The deadline for meeting that requirement was last week. The industry has insisted that was, from a practical standpoint, impossible to meet because it is a

complex engineering problem that involves dozens of different auto models, and automakers would have to maintain existing electronic tools, such as GPS navigation, and helpful services, such as OnStar.

Without a change in the mandate, the industry’s lobbyists warned, automakers could be compelled to suspend sales in the state, echoing a threat they made about the Air Resources Board’s data collection mandate earlier.

It was something of a political standoff until Senate Bill 719 emerged from backroom negotiations late last month. Just one day before the deadline, Newsom signed the bill that narrows the application of the requirement, eliminates the hard deadline for it and substitutes a series of deadlines tied to model years and “technological feasibility.”

Thus it is impossible to say for certain when, if ever, cars will be equipped with the ability to disconnect location tracking software.

These two instances imply that the conversion of the automobile from a mechanical device to an electronic one has created a bottomless well of potential issues involving privacy, governmental regulation and the politically heated topic of how California would change the way motorists are taxed once the gallonage taxes on fuels disappear, if they ever do.

Dan Walters is one of the most decorated and widely syndicated columnists in California history, authoring a column four times a week that offers his view and analysis of the state’s political, economic, social and demographic trends.

Social Security Matters

When Should My Wife File for Spouse Benefits?

By Russell Gloor, AMAC Certified Social Security Advisor

Dear Rusty: My wife is 66 (born February 1960) and started taking Social Security retirement benefits just over one year ago at age 65. She was a stay-at-home Mom for most of her adult life. I turned 62 this past March and received my first SS payment recently for a May 2026 start. We are scheduled to meet with SSA in late July to initiate spousal benefits because my wife’s current benefits are less than 50% of mine. We also have an adult disabled son who receives Supplemental Security Income (SSI) and Social Security benefits (this split in benefit sources happened after my wife filed - that whole process was confusing and we don’t understand it). My question relates to spousal benefits (I was a career finance person but don’t completely understand these rules). We were going to file in July but is there any benefit to waiting until she turns 67? And will her 50% benefit be 50% of my lower benefit due to my filing at 62 or is that based on another amount? Signed: **Confused Finance Guy**

Dear Confused: First, be aware that your wife’s spousal benefit will be based on her age when she claims it, and half of your full retirement

age, or “FRA,” amount (although you claimed at 62, her benefit as your spouse will still be based on your FRA entitlement).

Because she claimed her SS retirement at 65, your wife will not get 50% of your FRA entitlement; rather she will get her own reduced SS retirement benefit (which was reduced by about 13% from her FRA entitlement) plus a “spousal boost.” The amount of that “boost” will be the difference between her own FRA entitlement and half of your FRA entitlement, but that boost amount will also be reduced because she will be claiming in July before her FRA.

Your wife will reach her FRA in February 2027, so by claiming her spousal boost in July her boost amount will be reduced by about 5%, and the “boost” will be added to her already reduced SS retirement about. The result will be your wife’s benefit as your spouse will be less than 50% of your FRA entitlement. And, FYI, your wife will be automatically deemed to be filing for her spousal benefit (she will not be able to defer claiming it).

As your son is now collecting SS benefits based on your wife’s personal SS record, you should ask Social Security to switch him over to payments based on your record (because you have the higher SS benefit). FYI, because your son is now receiving SSI (Supplemental Security Income), the SSDI (SS disability) benefit he receives will offset by his SSI benefit, and the payment amount will consist of two sources - SSI and SSDI. Nevertheless,

he cannot get more than 50% of your SS retirement amount and will likely be affected by the Family Maximum which may further reduce his SSDI entitlement.

Your wife’s benefit as your spouse will also be affected by the “Family Maximum,” which limits how much can be paid on any one person’s SS record (on your SS record). That also means that your wife will not get a full 50% of your FRA entitlement; rather she will get less because the family maximum limits how much all your dependents can receive to somewhere between 50% and 88% of your FRA benefit amount (after subtracting your own SS entitlement). That also means that your son’s SS payment, as well as your wife’s SS payment as your spouse, will be reduced to less than 50% of your FRA entitlement. SSA will be able to guide you through the Family Maximum calculations for both your son and your wife when you meet.

To recap all of this: a) your wife will be automatically deemed to be filing for her spousal benefit; she cannot delay until her FRA. b) her amount as your spouse will be less than 50% of your SS FRA entitlement. And c) both your wife’s and your son’s SS benefit will likely be also affected by the Family Maximum and, thus, be less than half of your FRA entitlement. Nevertheless, it was likely the right decision to claim as you have, considering that your son and wife have been receiving SS benefits for some time now, and both will continue to receive more as your dependents.

Congress has been known to slip indefensible special-interest provisions into large must-pass bills when no one is looking. What it has never done before is use such sleight of hand to hand over control of the U.S. military to a foreign country. But that’s what we’re told is on the verge of happening on Capitol Hill.

The House just passed the National Defense Authorization Act, a sprawling \$1.15 trillion bill that supposedly includes a provision buried in it “merging” the U.S. and Israeli militaries.

This provision, known as Section 219, has united some of the most fervent anti-Israel conspiracy theorists on the right and the left in denouncing the alleged betrayal of America, from Marjorie Taylor Greene to AOC, from Tucker Carlson to Cenk Uygur.

AOC has warned that the provision “is an existential threat to American sovereignty and democracy.” Marjorie Taylor Greene has said anyone who voted for the bill “sold out the American people to a foreign country.” Tucker Carlson wants literal treason trials.

So what is the substance of Section 219? Legislation often has obfuscatory titles, but this provision is deemed, with admirable clarity, the United States-Israel Defense Technology Cooperation Initiative. It calls for the secretary of defense to designate “an executive agent”

The preposterous case against the new defense bill

to coordinate between the U.S. and Israel on “bilateral defense technology research, development, testing, evaluation, integration and industrial cooperation.” The Pentagon will come up with a plan for such cooperation and report back to Congress.

That’s it. There is nothing about merging the general staffs of the U.S. military and the IDF; nothing about creating a joint office where Defense Secretary Pete Hegseth and his Israeli counterpart, Israel Katz, work together; nothing about giving Bibi Netanyahu partial control of CENTCOM.

That the United States would want a close working relationship with Israel on military technology is hardly surprising. Israel is one of the world’s most innovative societies and, given its precarious security environment, has become a leader in advanced defense technologies.

That a nefarious interpretation of the bill has gotten some traction underlines how any preposterous lie, so long as it’s about Israel, gets a hearing these days. Like many conspiracy theories, this one depends on a dark view of American society. We are allegedly so corrupt that we are handing control of our military to a foreign country without any senior military leaders or officials in an “America First” administration lodging a complaint. No wonder Tucker Carlson wants the kind of tribunals that attended the end of World War II.

At the first Nuremberg Trials, Wilhelm Keitel was found guilty of crimes against humanity

and hanged; at the second Nuremberg Trials, Mike Johnson will be found guilty of supporting mutually beneficial technology sharing between allies -- means of execution yet to be determined.

One perversity here is that Netanyahu conceives of the technological cooperation as a substitute for the U.S. military aid that he supports phasing out. In other words, enemies of Israel oppose U.S. military aid, and when a constructive plan is offered for how to go about ending it, they oppose that, too, as an Israeli plot.

Another perversity is that the U.S. should want a very close relationship with Israel on missile defense, an area where Israel excels and that, as we’ve seen in the Ukraine and Iran wars, is crucial to modern warfare. And yet, the same people who portray themselves as zealously protective of the U.S. national interest want us to turn our back on a source of technological advance.

Israel naturally fits in the Western alliance, but nations ultimately pursue their selfish interests. If we spurn the Jewish state out of irrational animus, it will inevitably look elsewhere and perhaps build a stronger relationship with China. Then we will surely be told by the critics now obsessed with ending the U.S.-Israel relationship that Israel has shown its true colors and deserves even more of our scorn.
