HERE WE GOAT AGAIN

“Baby G was our first goat. She started out as a pet weed eater and soon became a favorite member of the household. She had her first kid in 2013 named Fuzzy. After Fuzzy was weaned we had more milk than we knew what to do with. We made yogurt, cheese, kefir and even goat milk ice cream. People began asking if we had any goat milk soap...and so began Baby G's line of skin care products.

The first creation was soap. Lotion was soon to follow. Then lip balm, body butter, and many more things to come. Once we realized how good homemade products felt on our skin we began testing them on coworkers, family members and friends. The response was overwhelmingly positive. People love Baby G's products!

We use the most natural ingredients available and do not use additives or colors. All of our milk is fresh from local goats, not dry or powdered. Baby G's Soaps are all 100% handmade in Siskiyou County. All recipes are original creations and have been personally tested. Baby G's Soaps is proud to provide a wholesome and healthy product from start to finish.”

Enjoy the Store, Redding carries a variety of Baby G's products, including soap, goat milk lotion, essential oil lotion, lip balm, body butter, hand salve and salt scrubs.
