

Schedule A: Guidelines for Storm Drain Art Contest

The Storm Drain Art Program uses *eco-themed art* to communicate the importance of protecting our waterways through painted designs on storm drains in Lafayette Parish. #EcoArt

ELIGIBILITY

To be eligible, an applicant must be an individual or organization (school, community group, etc.) residing in Louisiana. Organizations will require a single contact person.

APPLICATION PROCESS

Applications can be submitted electronically or online; they must be received by: **Extended to January 9, 2019**

Artists should submit the following:

1. Completed application form.
2. Résumé / CV
3. A color rendering of your proposed work.

Up to 3 designs will be considered. Submissions will be considered and kept on file for future consideration. Artists will be notified if and when their designs are selected.

DESIGN CRITERIA

- ⇒ Artwork must be original.
- ⇒ Designs can be representational or abstract and should symbolize ecology and culture, giving our community a sense of place and inspiration to protect our waterways. Vibrant colors are recommended to best highlight the storm drains.
- ⇒ We are asking that all designs appear to be flowing into the mouth of the storm drain; and have **“drains to bayou”** or **“keep it clean”** or **“only rain down the drain”** in English or French. Message should be legible, at least four inches in height.
- ⇒ Work will be highly public and therefore must be appropriate to be viewed by all ages.
- ⇒ Use one of the locations provided to propose a design concept. Be aware that some changes to the design may be required to accommodate site requirements at the discretion of the panel e.g., does the work encompass the space?
- ⇒ Any text must be included in the proposed design. The storm drain may not be used for advertisement or to promote a business, product or viewpoint.
- ⇒ Designs may not include a breach of intellectual property, trademarks, brands, images of illegal activity or involve the attachment of any objects to the storm drain.
- ⇒ Because the project also aims to deter graffiti vandalism, **designs should not mimic** or take the style of tags or **graffiti**.
