

## **A West End Conversation about Aging Services**

**at the Lutsen Town Hall**

**Tuesday, November 12 at 1 pm**

Join us for a conversation about how West End residents might support each other as we age. What are your needs and concerns? What services are available and what are the gaps? How can you get involved?

As the percentage of older adults living in Cook County grows, how do our communities collaborate and create ways to support the health and well-being of our elders?

Light refreshments will be provided. Please contact Care Partners at 387-3788 for more information.
