Formatting for Offset Press-Ready Ads

We highly recommend emailing new ads by the 8th of the month in order to give us time to review your file, giving you time to make adjustments if necessary.

NOTE: Should ads come in at the last minute and adjustments need to be made to submitted ads, like correcting the ad size to conform to our requirements, fixing of typos, or other changes, there is a minimum adjustment charge of \$35.

If you are providing a print-ready digital file, your ad must be submitted using the following specifications:

1) Press-ready Adobe Acrobat® PDF file;

PDF/X1a is the preferred file preset. Please "flatten" all files with fonts embedded before saving. Export from InDesign as 'Press Quality'.

2) Press-ready JPG & EPS files

are accepted. Save Adobe Illustrator files as EPS with embedded photos & art. All fonts converted to outline. Save Adobe Photoshop files as flattened JPG, 300 dpi, in CMYK. 100% black text should be the top layer before flattening so it will overprint any background.

3) Layout:

- Build ads to EXACT size dimensions, only full page bleed ads require 1/4th inch beyond the trim area on all four sides.
- Set type in InDesign or Illustrator (not Photoshop) to avoid low res soft type.
- Do not add printer's crop marks to any file.
- Use high resolution images, 300 dpi for photos and 1200 dpi for non-vector line art is recommended.
- All RGB elements must be converted to CMYK. Convert spot, Pantone or LAB colors to CMYK.
- Do not embed ICC profiles in images.
- Avoid scaling images. If necessary, stay within 50%-150% range.
- Flatten all transparent objects at a high resolution. Avoid placing transparent objects over text or other critical vector objects.
- Total ink coverage shouldn't exceed 260%.
- Files should be right-reading, portrait mode, 100% to size with no rotations.

4) Fonts:

- All fonts must be embedded and/or attached.
- Ensure all black text is 100% black (avoid rich black (4 color) to avoid registration issues).
- Set all black text to OVERPRINT color backgrounds.
- Ensure all reverses and colored text are 10 pt or larger, using a thick font.

No computer-printed material or website images will be accepted.

Microsoft Word, Publisher or Canva files will not be accepted for print-ready ads.

Emailed files must be under 15 MB.
