Plant Based Co.

yourplantbasedco.com

Hi there, I'm Alex, and I personally handcraft 100% organic, plant-based remedies, therapeutic skincare, dog products, hair care, gift sets, and spiritual apparel for both women and men. I couldn't find a company that was totally plant-based, organic and chemical-free using the best possible ingredients, so I decided to create one myself! My promise to you is that these are the highest quality products on the market. Don't believe me? Just compare the ingredients list to any of your favorite brands. You will find there is a difference in my handcrafted, organic products...there's no toxins or chemicals in the bottle. I also love the science behind the benefits of the plants, so I am constantly researching and developing the products to be the best coalescence of ingredients possible for you. I hope you take a chance on supporting this small business, because you will not be disappointed; you will impact a soul, because every product sold donates part of the proceeds to charities that are empowering women through education and/or rescuing them out of human trafficking. The products speak for themselves! For more information, visit us online at YourPlantBasedCo.com.
